Kingston, Jan. 16—About two thousand [illegible] in the drill-shed here to hear the address of the Hon. Sir John on the topics which at now absorb the public attention. On motion of Mr. Benson, seconded by Mr. Fraser, Mr. Wm. Ford was called to the chair, and in a few words expressed the gratification which all must feel to welcome to Canada's great statesman, Interchanged the Hon. Sir John. On rising, the Hon. gentleman was received with cheers from all parts of the audience. He briefly referred to the request of the electors of Kingston and Frontenac as the main reason for his appearance in our midst. He would avoid all personal and local questions, as matters with which he never meddled, and keep to the questions which at cold occupy the electors of all parts of the country, and particulary those in this vicinity. He would refer to the question which, affecting as it did the honour of our public men, and the honour of our country, deserved the closest attention from the electors of Canada. He described the mode of proceeding in reference to the trial before the Committee, and also before the Royal Commission. He described the kind of Parliament to which [illegible] Parliament in 1867 as they members were elected to support the late Government, and to which they expressed their confidence in the late Government by the fund on a motion for a trial, and in many other votes. Now the voice of the country is asked; [illegible] he [illegible] whether the transactions in connection with the Pacific Scandal is one light, and those who viewed them in adother. It was necessary to go back before these revelations to a time when corruption shocked itself openly throughout this country, and when the means to remedy this state of things, and the desire of the Opposition to obtain a law which would prevent bribery, undue influence, and corruption at elections impossible, were destroyed by the Government of that day. He justified the system proposed by the Opposition at that time for the trial of controverted elections, showing that there was no novelty in the proposition, but it had been tried in England and in Ontario, where no great a corrupt had been exhibited in the former elections. (Cries of "Why [illegible] says 'No,' but he does not know. He referred to the improper means used with impunity to elections, and the way in which honest men were tempted to use the same means. He charged on those who refused to give [illegible] views of the Opposition of that time, the main responsibility of the effects of that insufficient law which they maintained on the statute book. He adverted to Sir John's instructions to Sir George, when they met in Council immediately prior to the elections, that he should obtain assistance from his friends in Montreal, and pointed out the position of Hugh Allan—then, as an enemy of the Government, being the promoter of railways to which, as they were then situated, the Government would give no assistance. He (Sir Hugh) had excited a feeling unfriendly to Sir George in Montreal itself, and had candidates outside of the city, who were prepared to cast their votes according to his wishes, dictated by his interest in the Northern Colonization and Pacific Railways. He described the efforts made to conciliate Mr. Macpherson and Sir Hugh, and the negotiations which were broken of by the division concerning the Presidency. The agreement of three parties and of the two rival Companies was hopeless impossible, and the 30th of July found Sir John engaged in a bitter contest. And now his telegram to Sir Hugh, to accomplish of his influence in obtaining the Presidency, with the *other matters* to be settled hereafter, immediately we find Sir Hugh and his friends way waiting on Sir George to receive further assurances, and the request from Sir George to Mr. Abbott to draw up a letter stating their demands. which he would sign; and as they were going away he asked for assistance in the approaching elections, to which demand he referred to Sir Hugh's answer "about much?" He then went on to refute the argument that these papers were discreet documents, not relating to the same affair, nor having any connection, showing that the agreements for the contract and for supplying money were both signed at the same time. He also denied that the amount given by Sir Hugh was a political subscription, arguing from the first that the amount advanced was to have been recouped, and who ever heard of a political subscription being paid back. And how were these men to pay back the amount advanced, when the men, who, we are told, are poor, are kept poor in the service of their country? Besides [illegible] was open to them that by the contract, [illegible] by the former letter, was to be given to them, and which Sir Hugh got in the end. He also referred to the power which Sir Hugh would have over the Government by these letters and stated, as a rule, that we should not place yourselves in circumstances where interest would conflict with duty showing that the Government had brought themselves to this position, since their interest would lead them to support Sir Hugh, and their duty to decide fairly between all competitors, and hence they became sureties to [illegible] Hugh. He referred to the cause that first led that this money was not spent for the private purposes of Ministers, and showed that though it might be more mean and sordid to put the money in their own pockets, yet it was a more heinous crime to the whole community to scatter it over the whole country, bribing electors, and seeking to rule by a purchased vote, than if it had gone into the pockets of a few men, who could be swept from power, and the crime not have affected the whole country. Upon these facts the verdict of the people was asked, and they were to decide between the conduct of the late and present Government in this affair. Concerning dissolution, he admitted the seriousness of the question, and thought the Ministry might have paused until they had obtained the verdict of their own constituence, and given them an opportunity of pronouncing on the questions o. the day. This opportunity would be taken from the great majority of the constituencies if the House was not dissolved, but now their cause was placed in the hands of the country, and it was asked to decide once more. He also referred to the influence which was brought to bear on the return of the Parliament; the expenditure of money admitted by Sir John, and said he has to be ten times as great as the Opposition side as on his side; and, what kind of a House was that to rule with, where petitions against the election of persons were rejected on account of some flimsy error, such as in spelling a man's name? Referring to the argument against the Ministry, of going to the country without a policy, he said that was already remedied. He had argued against the Ministry going to the country without a policy, and in 'Tis the argument was announced, but no address showing the sentiments of Sir John's Ministry was presented; but now the present Government had declared a policy, and desired the verdict of the country on it. He objected to the Pacific Scandal being considered a dead issue, since there had been no expression upon it by the people. He referred to the policy of the Government as to the Election Law, first concerning simultaneous elections, which was rejected by the late Government, and the Election Law on this Law remained imperfect—of which imperfection, however, no advange was taken, but the elections were arranged so as to be simultaneous—a measure for rectifying which would be placed on the Statute Book. As to the franchise, it was not their wish to have a cast-iron policy for all parts of Canada, but by a proper adjustment to best meet the circumstances of each section, so that while there is an apparent diversity, there would be a practical uniformity. As to the Ballot Bill, he mentioned the action of Sir John in reference thereto, in the old Parliament of Canada, and the circumstances which should actuate all to obtain a free vote for every man. Duty to the Ministry, as well as interest, dictated that voters of the country might express the unbiassed sentiments of the country. As also referred to the security against bribery. As to the Pacific Railroad, the conditions required by British Columbia provided for the construction of a coach road to the eastern slope of the Rocky Mountains, to begin surveying for the railroad within three years, and expend not less than $1,000,000 per year, until the road was completed. Instead of which, the Government agreed to begin the construction of the road within two years, and finish it in eight years after the commencement. He cited the case of the Intercolonial Railway, the construction of which has taken nine years, and argued from it the impossibility of building the Pacific railway through an unsurveyed country, where the engineering difficulties were so great, in eight years. The present Government proposes building the road as quickly as possible, having first a proper survey, so that everything tangible might be stated before the contractors. We want to find the most practicable and cheapest route. The railway as proposed by the present Administration, would be built from the eastern slope of the Rocky Mountains to the Saskatchewan, thence by a water-course of one the Lake of the Woods to Fort Garry, at an outlay of about $1,000,000, saving from sixty to eighty millions of dollars, and obtaining a good passage for many months of the year between Fort Garry and—Lake Superior, where the Lake of the Woods and Rainy Lake lie, which at a small expense could be united with one another and with Lake Superior, thus giving water communication to build we were able to build a complete railway. He referred to the statement that they were favoring the Americans, adding in what would favorable to the Americans to use our water-courses which was the very first Government proposed do? They did not claim this as a perfect road, but only a beginning, which would enable them to [illegible] a railway, which would enable them to [illegible] a railway, which would enable them to [illegible] a railway

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

THE BEST PAPER! TRY IT!

BEAUTIFULLY ILLUSTRATED.

The Scientific American

now in the 29th year, enjoys the widest circulation of any weekly newspaper of the kind in the world. A new volume commences January 3, 1874.

Its contents embrace the latest and most interesting information pertaining to the Industrial, Mechanical, and Scientific Progress of the World; Descriptions, with Beautiful Engravings, of New Inventions, New Implements, New Processes, and Improved Industries of all kinds; Useful Notes, Receipts, Suggestions and Advice, by Practical Writers, for Workmen and Employers, in all the various arts.

The SCIENTIFIC AMERICAN is the cheapest and best illustrated weekly paper published. Every number contains from 10 to 15 original engravings of new machinery and novel inventions.

ENGRAVINGS, illustrating Improvements Discoveries, and Important Works pertaining to Civil and Mechanical Engineering Milling, Mining and Metallurgy; Records in the latest progress in the Application of Steam, Steam Engineering, Railways, Ship-Building, Navigation, Telegraphy, Telegraph Engineering, Electricity, Magnetism, Light and Heat.

FARMERS, Mechanics, Engineers, Inventors, Manufacturers, Chemists, Lovers of Science, Teachers, Clergymen, Lawyers, and people of all Professions, will find the SCIENTIFIC AMERICAN useful to them. It should have a place in every Family, Library, Study, Office, and Counting Room; in every Reading Room, College, or School.

A year's numbers contain 832 pages and SEVERAL HUNDRED ENGRAVINGS. Thousands of volumes are preserved for binding and reference. The practical receipts are well worth ten times the subscription price. Terms $3 a year by mail. Discount to Clubs. Specimens sent free. May be had of all News Dealers

PATENTS.

In connection with the SCIENTIFIC AMERICAN Messrs. Munn & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

Patents are obtained on the best terms. Models of New Inventions and sketches examined and advice free. All patents are published in the Scientific American the week they issue. Send for Pamphlet, 110 pages, containing laws and full directions for obtaining Patents.

Address for the Paper, or concerning Patents, MUNN & CO., 37 Park Row, N. Y. Branch Office, cor. F. and 7th Sts., Washington, D. C.

CHANGE OF BUSINESS.

R. NIMMO,
SURGEON DENTIST,
GEORGE STREET,
(3 Doors North of Johnson & Co's Store.)

Special attention given to the treatment of diseased Teeth and Gums, and to all the finer class of Operations in Gold.

Peterboro, July 9, 1873 28-26*

Ayer's
Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glow and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.
NORTHROP & LYMAN,
Newcastle
General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deservedly upon the confidence of mankind, as this celebrated remedy for pulmonary complaints. Through a long series of years, and among them of the severest known to that climate, highly and justly esteemed there, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a preventive against sudden attacks of croup, it should be kept on hand in every family, and indeed as all are liable to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the use of this Pectoral. In relation to its mastery over the disorders of the Throat and Chest, this community have had proof for years past. When nothing else could relieve them, under the *Cherry Pectoral* they speedily recovered. Clergymen, Singers and Public Speakers find great protection from it.

Sold by druggists everywhere and other wholly unreliable.

Asthma is promptly cured by taking the Pectoral in small and frequent doses. Generally no two cases require the same amount to cure them, as the system must be thoroughly under its influence to effect a permanent cure. Keep the bowels open, and avoid exposure to cold and dampness while using this medicine.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Dumb Ague, Periodical or Bilious Fever, Remittent Fever, Chills and Fever, Autumnal Fever, &c. [illegible]

THE REASONS WHY
LAZARUS, MORRIS & Co's
ON HUNTER
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.
Sole Agent for

The Honest Man who Pays.

A STORY FOR THE TIMES.

Mr. Oscar H. Hackett, the well-known Confectioner, printer and publisher of the TIMES, made use of the following—a holiday poem which he thinks might do well to read to the men who owe him:—

There is one among us so unwary,
Can you tell me where he is now?
He's an old old-fash'ioned man,
Called the honest man, who pays:
You—he cannot mean who pays
Five dollar by any one,
Laugh, up the good old ways
Yet so many scarcely know.

If he gives his word of promise
'Tis a bond as good as gold;
If he holds a post of honor,
Not a trust is ever sold
By the honest man who pays
Every debt he may incur,
Whether small or just across,
And may, ever, or dem.

And I'm told there was a day
Lives—I hope, become, won
By the honest, upon the debt
We can mean his character.
And let fervent may it pay
Always holds it good word
For the—ah—he, he need
When she dies as a token and sigh.

Choice Literature.

Letters from My Mother.

BY A PROFESSIONAL MAN.

I have a package of them yet in my possession; and now, having attained to mature manhood, and being burdened more or less with cares and responsibilities, I sit down and read them over again with subdued spirit and softened heart.

The first came to hand when I was but a youth—a mere boy among strangers, leaving the rudiments of professional life in this I am reminded of her affectionate solicitude for me; and she hopes I shall "not neglect my devotional duties now that I am away from home, and exposed to new temptations."

In the next letter, written a month later, she pours forth how I am "missed from the home circle;" but as my engagement seems to be for the best, she "is willing to submit to it;" and concludes by reminding me that I am the object of her unceasing, prayerful desires."

And so, month after month, did these affectionate home epistles, continue to be received.

In looking over some of them, at this calm evening hour, after the lapse of many long years, a bright halo of interest gathers around them; and more than ever do they seem guarded with tender expressions, which none but a loving, Christian mother can employ.

For instance again, here is a letter just drawn from the pile before me which is yellow with age, and the ink with which it is written so faded that it is almost impossible to read it. By the date, I discover it is written in June, the sweetest summer month. She has "dismissed from her mind all domestic concerns, and was devoting a little time on the afternoon of that bright summer day in writing to her absent son. How grateful her heart would feel if I could spend a few days at home, this beautiful season of the year, when the productions of the garden uncovered by the sun's fierce rays, are tender, fresh and sweet; trees in the front of the house laden with ripe fruit; the flowers in full bloom, and the woods and the fields arrayed in their brightest verdure. The little bird, which year after year builds its nest on the branch I could reach from my chamber window, has long ago forsaken the spot, saving her group of little ones with her, but returns every morning and evening to warble her sweet notes by the very door. There is my fishing rod in the hall, suspended by two nails overhead, just as I left it. Hanging in one of the upper rooms in the house is a cap that I had left behind; in another place a coat somewhat the worse for wear; in yonder corner a pair of boots and visit what rooms she would, there was sure to be something to keep her constantly reminded of her youngest son. She wishes it was her privilege to prepare for me a substantial supper to sit down to that night after the day's work was done; or that she had an opportunity to send by some kind hand a basket of fruit and cakes."

If I failed to appreciate in those days the ten thousand kind acts and expressions which a fond mother's heart gave impulse to, I trust that I value them now in the light of experience.

Another written some months later, urges me to come home and spend Christmas Day, which was close at hand. This letter has a a peculiar home fragrance about it, and inspires me with really delightful associations. A good old fashioned Christmas dinner was to be prepared on that occasion.

The next letter, which I draw from a package, and now hold in my hand, I notice is folded in the old fashioned way, with superscription on the outside and was originally fastened with a large red wafer. It has a primitive look about it, strangely in contrast with the delicate envelopes so generally used at the present day. But I will proceed to unfold it, and see what I can find interesting inside. The hand writing, I perceive, has somewhat changed, as if age had commenced to do its work, and weaken the nerves. In this I am most cordially invited home with my family, and she "hopes I shall come prepared to pay a good long visit."

"My family!" What strange events have come to pass in the long years that have intervened since I received the first letter. By time's restless current I have been carried along till past the bounds of boyhood; and now, have I am, full grown, mattered and with a family.

Providences I am living yet and striving to do some good in the world, in answer to that mother's prayers and benedictions; and I will not let this opportunity slip by without saying, that I am grateful to God for the influence of a Christian mother, which I can now look back to, and say my hands, and taught me to lisp the hallowed name of the Saviour.

After this she remained silent for many months. When at last the next letter came to hand, it referred to the severe accident which had rendered her helpless so long—occasioned by a fall, resulting in a broken limb. Her pain and sufferings in the meantime were great, but she was thankful to be able to use her pen once more, after so long an intermission. My letters had cheered her in her prostrate condition and she besought blessings upon my head for the many kind words written to an aged parent in affliction.

But I do not wish to weary the reader with any more extracts from these letters. There was a time, soon after this, when the last letter was written. The hand which traced it has been motionless, and folded on her breast, since the work of death was finished many years ago.

I shall never cease to look back upon these memorials of a mother's affection with hallowed feelings of delight.

Woman's Duties.

What a vast amount has been said and written on the duties of woman, and how severely she is censured for the non-performance of those duties.

We will admit there are many who never learn what their duty is or learning it, neglect it most shamefully.

On the other hand, there are thousands who bravely battle with the trials of life, seeking to make their homes *comfortable* and *attractive*, striving to assist and benefit their partners in life, but whose career, shut out from the public ken by the seclusion of home, is never known beyond the retirement of the home circle, and consequently never receives its just need of praise.

Woman was created as a helpmate for man, and while it is his duty to provide for and protect her, it is no less her duty to assist him in all the minor affairs of life.

She should strive to make her home the most delightful place on earth to him, that when the toils of the day are ended, and he seeks it for repose, he may find in it his care lightened, his sorrows soothed.

Home should be rendered a pleasant place to her children, that they may not be driven therefrom to seek pleasure and amusement elsewhere.

Let their chief delight be found at home, and they will not easily be led astray. She should strive with never ceasing energy to instruct their minds and heart; to cultivate their moral natures, and by kindness, gentleness, and love, twine the affections about her, and for ever retain them.

She can exert a greater influence over them than any other being on earth, and when that influence is properly directed, it is their greatest safeguard in after life, when the days of trial and temptation shall come, and they can no longer claim the protection of the parental root tree.

The training of future men and women, who must one day go forth to take their parts in the active drama of life, rests on her.

Domestic duties, and even, as is often the case, household drudgery must necessarily fall to her lot.

She should not suffer the common details of every day life to render her manners coarse or sour her temper, but always strive to be mild, refined and polite.

Her task is great, and while she endeavors so earnestly to perform it, should she not be strengthened and encouraged by words and tones of affection and approval?

If her husband desires a pleasant home, he should prove to her that he can appreciate one.

If he must soothe his troubled spirit, let him not become impatient should he sometimes detect a cloud upon her brow; let him remember that poor human nature cannot always bask in the sunshine, and that one cheering, loving word from him might dispel the gloom which rests upon her spirits.

A good wife, a true woman, is a real heroine and an accomplished actress.

She casts her own grievances out of sight to drive away with pleasant smiles the clouds that gather around her husband's gloomy brow; she dashes the tear-drop from her eye that she may not remove the cup of bitterness from his lips, while he suspects not there are sorrows weighing down her aching heart.

She cultivates cheerfulness, and endeavors to banish despondency, for she is a true philosopher, and knows that a gloomy spirit but aggravates the ills of life.

Perhaps if husbands were more considerate and good wives better appreciated, happy homes would be more numerous.

Platform of the Canada First Party.

The following planks in the Canada First platform have been adopted by Toronto section, subject, we presume, to ratification by the convention proposed to be held at some future day;

1. Consolidation of the Empire—meantime a voice in matters affecting Canada.
2. The Ballot, with the addition of compulsory voting
3 License Franchise
4. A scheme for the representation of minorities
5 Encouragement of Immigration, and free Homesteads in the Public Domain.
6. Closer trade relations with the British West Indies, Islands, with a view to a closer political connection.
7. The imposition of duties for Revenue as different as to afford every possible encouragement to Native Industries
8. The underground and extension of our Yale-Gear system, and its management by national Dominion Officers.
9. No property qualification for members of the House of Commons.
10. A scheme for the organization of the Militia.
11. Free and economical administration of the Public affairs.

The Whiskey of To-day.

My dear sir—you with that glass of whiskey at your lips—if you were to see a man go into a drug store and purchase a pint of raw alcohol, and take that alcohol out and mix it with water, and drink it, you would say he was an old guzzler. You would say he must have a stomach like the bottom of a tip-cart. And yet that is just what you have at your lips; only your beverage is not so pure as his. Yours is drugged, and his is not.

Time was when rum and whiskey and gin were distilled to a percentage which admitted of a retaining of the quality and flavor of the organic material. In whisky and gin much of the nutritive matter of grain was retained; and the old rum which our grandfathers drank contained a considerable percentage of organic sugar, arise distilled. These liquors were honestly distilled. They came from the rectifiers and receivers just as they were going into the market, only lacking age to give them smoothness. But it is not so now. There is no honesty in the market. A man may by paying the price, have something like an honest liquor made to his especial order; but he cannot find it in the market, because *it is not there.*

Some years since—ten years, I think—I was in the office of a hotel in Conway, N. H., and was there introduced to a gentleman who was a travelling agent of Longworth, the vine-king of Cincinnati, and also taking orders of one or two Kentucky whisky-houses. From the subject of wine the conversation turned upon whiskey. I had smelled of some which he called pure Bourbon, and which had fairly nauseated me.

"Why is it," said I, in the earnestness of entire innocence, "that I cannot find anywhere such whisky as I used to get on board ship, as Naval ration, five-and-twenty years ago?"

The agent was for a time silent and thoughtful. By and bye he nodded, and said to me,—

"It isn't made!"

"Isn't made?" I repeated, wonderingly.

"No," he added. "There is no such thing as the whisky of commerce distilled to-day, except to the especial order of customers for individual use."

Seeing my wonderment unabated, he went on to explain. I quote his exact language so far at least, as important particulars are concerned. Said he—

"They don't make it, because it don't pay. The same amount of labour, time and cost of manufacture—of course barring *materials*—required to throw over five barrels of the old-fashioned Monongahela whisky of which you speak, will, with the new appliances of science, throw over one hundred barrels of crude (coarse alcohol.) The result is, that all spirit is thus distilled. It is then rectified and diluted, and color and flavor given by artificial means."

There you have it, sir. The stuff you are drinking is not whisky. That other stuff is not brandy. They never were and never can be, whisky or brandy, as a credulous public think them to be. The organic matter destroyed by intense distillation can never be replaced. They are fooling you, my dear fellow; and you will fool yourself if you don't let it alone. If you have a head made of wood, and a stomach of iron, you may last a few years and drink it; but if you be human, with capacity for human enjoyment and human enjoyment and human suffering, give this liquid scourge a clean go-by, and never return to it.

Punctuality.

We admire punctuality, and we can have but little patience with those persons who are so regardless of it, even in little things, as to continually break their word, under the impression that, "It is of no consequence; it will all be understood and amount to the same thing in the end," as many often say to excuse their everlasting habit of being false to

Peterborough Examiner.

PETERBORO', JAN. 29, 1874.

Editorial Items.

The Polling in the East Riding will be on TUESDAY 3rd February next, let every friend of Good Government go early and VOTE FOR Mr. HALL, the Reform Candidate.

Burns' Anniversary.

Galletly's annual Concert, formerly held on Burns' birthday, is, owing to election excitement postponed until March 3rd. Mr. Galletly's concerts have always been successful hitherto, and we feel confident in predicting that the coming concert will excell any of Mr. Galletly's former endeavors in catering to the entertainment of the public. Remember March 3rd.

Will leave Peterborough for Lindsay.

It will be seen that Dr. Franks, the celebrated Optician and Oculist who has been so successful in supplying our townspeople with spectacles, and in the treatment of diseases of the eye and ear is to leave here on Tuesday evening, February 3rd, for Lindsay and close his business in Peterborough.

Sabbath School Convention.

A Union Sabbath School Convention of the Townships of Douro and Smith will be held in the Bible Christian Church, Lakefield, on Wednesday the 4th of February. Opening Session to commence at 1:30 p.m. Mass meeting of scholars at 3 p.m. Evening session at 7 p.m. Ministers, Sabbath School Superintendents and Teachers and the friends of Sabbath Schools are earnestly invited to attend and take part in the proceedings of the Convention.

Go to the Poll on the 3rd of February, and Vote for Mr. Hall, the Reform Candidate for the East Riding, and have pure Government.

The Contest.

By the time this issue of the *Examiner* reaches many of its readers the great political duel will be over. This day, Thursday, will give an indication of the feelings of the people in reference to the scandals that have disgraced our public men, and brought shame on the fair fame of our young Dominion. We feel confident of the result of to-day. The government have already 33 supporters elected by acclamation, and the number of those who will this day be returned to support the McKenzie Blake Government will so augment the friends of good Government that we feel satisfied that charter-sellers will get a quietus long to be remembered by them.

Dray Letters.

Parties wishing immediate attention to matter left in the Post Office would do well to prepay the postage, it is only about one cent. We have just received a parcel from the dead letter office, intended for publication, and of some importance to our readers, but it is now a month too late for it to appear.

Teams Lost.

It was rumoured on Saturday that Messrs. Boyd & Co lost three teams on Sougog lake the previous day. It was also said that the teamsters were lost and a team belonging to Mr. Robert Wier, of Emily. The latter rumour is not true.

Mr McQuade, of Emily.

Has allowed himself to be brought out in the John A. interest against Mr. McLennan, of Lindsay, but only to be defeated. The man is becoming foolish in his old age.

Mr Staples, of South Victoria.

Is completely off the track, and Mr. McLennan of Toronto and Hector Cameron are out respectively in the Reform and Conservative interests. Hector's dirty work of libelling Mr. Wilkes of Toronto, ought to condemn the creature to everlasting ignominy.

Mr F Beamish

Has also foolishly allowed himself to be brought out against Mr. Ross, of East Durham. He cannot hope to succeed and will injure himself to no purpose.

East Durham

Is now blessed with three candidates for parliamentary honors, viz., Mr. Ross, Mr. Quinlan and Mr. Beamish, all claiming to be reformers. The first named gentleman will, no doubt, be elected, but he might have been spared the trouble and expense of a contest, Mr. Beamish is a kind of standing candidate, a position more to be pitied than admired. Such men are generally left at home. Mr. Quinlan has allowed himself to be put in nomination by Conservatives, and they will desert him. The object is, to divide, and, if possible, defeat Mr. Ross, who redeemed the Riding. It is a shame for men calling themselves Reformers to lend themselves to the charter-sellers at the present time. This blindness to their own interests and the interests of the Reform party is sufficient to disqualify them, and deprive them of the confidence of the party.

Yes or No.

Are the people of this County ready to pass over the crime of John A. Macdonald taking $160,000 to *bribe* the electors ? Are intelligent yeoman of Peterborough ready to vote for the wholesale corruption of the people for the sake of keeping the conservatives in power ? Do the people think it right to sell the charter to Sir Hugh Allan for money to retain a trust they had betrayed and to continue a pernicious system of downright corruption? Mr. Scott says John A. Macdonald's act was *immoral!* Are the electors going to vote to continue these *immoral, indefensible* acts ? Don't let the people belie their expressions of abhorrence of the crime by voting for the charter sellers.

The Conservatives

Are becoming more heavenly-minded since John A. got out of office ; their speeches are now more celestial than when their leader was exhibiting his foul hands. They are troubled about the heathen Chinee.

Every Man do his Duty.

The friends of Bertram are requested to be in complete readiness for the day's work. The party of Union and Progress have been resorting to means not before tried in this country, holding hole and corner meetings in houses in the outskirts of the town, and have been hiring houses for Committee rooms that they would not enter at other times. At some of these meetings the scenes described are really amusing. The object, however, is no less wrong. The hire of rooms is as much an act of undue influence as giving money directly and should be seen after. The use of money, falsehood and misrepresentation, which seem to be favorite weapons in the hands of the Opposition, can avail nothing. The day has come when they will receive their reward and be so completely demoralized that they will have a dread of dissolutions in future. Let there be no loitering to-day, and three o'clock will tell the story of Mr. Bertram's victory, and the defeat of the great Liberal Conservative candidate.

Electors of the East Riding, vote for Mr. Hall, by so doing you will prevent John A and the charter selling clique returning to power.

To the Editor of the Examiner.

SIR :—I beg leave to offer my sincere thanks for many acts of kindness received from the medical gentleman and numerous friends in Peterborough, and express gratitude for the patronage conferred.

I am compelled to say—although reluctantly—that in consequence of an engagement to lecture in Lindsay, I must leave Peterborough on Tuesday evening, February 3rd, at six o'clock.

Therefore all who have not yet been supplied with my improved spectacles, and those requiring advice in diseases of the eye and ear can consult me at the Canada House up to that hour and date only, at which time I shall close my business in Peterborough.

EDWARD S. FRANKS, M.D.

Jan. 26th, 1874.

The vote and influence of the Electors of the East Riding are respectfully solicited for Mr. Hall, the Reform candidate.

THE WEST RIDING

The eight-gun the West Riding of this County have an opportunity of wiping out the stain of the Clarkson frauds and the partisan conduct of a Returning Officer, who lent himself to do the dirty work of the Conservative party here.

Mr. W. H. Scott was a party to that fraud. He was chairman of Mr. Clarkson's committee, and in sacred conclave did he and his confederates, Carnegie, Dennistoun & Clarkson plan and get the Returning Officers to carry out the plan of depriving the people of their lawfully chosen representative. To-day you can testify by your votes and influence that you condemn such conduct, and that you are determined to show your detestation of the crime by voting against Mr. Scott who might have prevented the fraud but did not.

BE EARLY AT THE POLLS

And cast your vote for Bertram, and against Charter selling. Vote against those men who robbed you of your franchise for two years, and who would have continued this if their own crimes had not hurled them from power and misrule.

AN EARLY VOTE

Is worth two after three o'clock ; let the honest electors of this town be in earnest for one day, and the result will prove that they are not to be despised by Mr. Scott, or the party, but that they will have justice, although it may come more tardily than they wished.

VOTE EARLY FOR MR. BERTRAM AND AGAINST THE CHARTER SELLERS.

Vote for Bertram and send Mr Scott to keep company with the late pseudo-member to ruminate over the injustice now about to be avenged in the defeat of all who were a party to the "Peterborough Outrage."

The wrongs and injustice done us in the past are sufficient to arouse the energy of the people to shake off the inubus of the charter sellers. Let the Town of Peterborough remember that bad government affects us equally with every portion of the New Dominion. Let there be no compromising of the matter. Let us make no half work of it. Let them demonstrate by a vote that a large majority of our people are true men, and honest, and are ready to condemn all abuses in high places by voting for Mr. Bertram and against Mr. Scott the creature of John A.

EAST RIDING NOMINATION.

The nominations for the East Riding took place on Monday, at Lakefield, Col. Maclean, Registrar, Returning Officer.

Mr. Hall was proposed by Jas. Millar, Esq. Reeve of Otonabee, and seconded by George Clark, Esq of Douro.

Mr. Rogers was nominated by Dr. McRae of Keene, and seconded by John Moloney, Esq. of Douro.

Mr. A. Smith was nominated by G. Galvin, Esq., seconded by H. Burnham, Esq.

Mr. Peter Pearce was nominated by H Bunnet, Esq. seconded by — Van Ingen, Esq.

Mr. Dumble was nominated by Dr. Hodge, seconded by J. Stratton, Esq.

The nominations being over, the people adjourned to the old school house.

The nominators and seconders were each allowed five minutes, the candidates proper were left unlimited as to time, the other candidates were limited to thirty minutes each.

Mr. Hall first addressed the electors by explaining how he became a candidate by the request of a large convention. He then took up the different questions that agitate the country, defended the dissolution as reasonable. The last house had at least twenty seven members in it by virtue of Sir Hugh Allan's money, and it was thought unwise and unsafe to appear before a house, elected by the money of a great all powerful contractor. He showed that if the government of any other country had been guilty of such a crime, they would have been impeached and condemned by the voice of the country and by the voice of the high court of Parliament. Mr. Rogers and his friends said that taking $360,000 of Sir Hugh Allan's money to bribe the electors was merely an indiscretion. He (Mr. Hall) called it a Crime — a high crime. The taking of the money had been admitted ; Sir John on oath, had done so,—and yet Mr. Rogers had not a word to say against it. Mr. Rogers was willing to condone the crime. He (Mr. Rogers) claimed to be very honest, and he would not dispute it, but he was in bad company, and—if elected—would support the very men who have been found guilty. He (Mr. Hall) if elected would not, he would give an honest, a loyal support to Mr. McKenzie in all good measures. The appeal to the country was right, as it gave the people a word to say on the doings of their representatives. The Ministry, confident of their integrity and honesty of purpose appealed unhesitatingly to the will of the electors Mr. Rogers dreaded this, as sure to bring retribution to men who had betrayed a solemn trust,—sold the best interests of the country, and had used the price thereof to corrupt the people to an unlimited degree. The fact that in those Counties the charter sellers had to retire before the indignation of the people was a warning that all who compelled Self before the Country, will receive the condemnation of the intelligent electors. He then referred to the policy of the present Ministry, and defended that as just, wise, good and called for by the wants of the people. He condemned the Pacific Railway policy of the late government—said they could not build the road in three years, perhaps not in less than twenty years. He showed that nearly three years had already passed and there were not proper surveys yet,—nor a foot of the road had been located. He condemned the recklessness of the late government in their issue with British Columbia, and contrasted their offer with the moderate request of the colonists, and asserted that the policy of building the portions of the work needed to meet the wants of the country, as the country is settled. He sat down amid loud cheers.

Mr. ROGERS then stepped out amid the cheers of his friends. He said he appeared in a new character, a candidate for parliamentary honors. He was accused of being too old. He thought he might be permitted to recite the lines learned when a boy—"Pity the sorrows of a poor old man." He was able still to earn his bread, and he was willing to do so, as he had done. He denied that Reformers had placed all good measures. He thought it would be just as well to keep the Conservatives in and let the Reformers have a turn. He was in favor of a new party, a Canadian

PETITIONS.

Messrs. Millar, McFarlane, Blewett, Brown, Wells, Choate, Powell.

PRINTING.

Peck, Calvert, A Brown, J P Brown, McFarlane, Choate, Moloney, Rizzard, and Pearce.

APPOINTMENTS TO OFFICE.

Messrs. Peck, Collins, Golborne, Choate, J P Brown, Blewett, Calvert, Moloney.

All of which is respectfully submitted.

(Signed) J. MILLAR,
Chairman.

The report was received and adopted.

Mr. Golborne then moved that when the Council adjourn at noon it stand adjourned till this day two weeks. This was carried.

Mr. Collins introduced a by-law to appoint two Commissioners to have the charge of the iron bridge and the bridge at the Locks. In committee of the whole it was agreed to leave these matters in the hands of the Warden and Advisory Committee.

It was then agreed to memoralize the Ontario Government for grants, to the Road leading from Chandos through Methuns ; towards constructing a bridge over the "narrows" of Stoney Lake to repair the Burleigh road ; Bobcaygeon road, north of Minden ; the Monck and Peterboro roads. A By-law was passed appointing auditors, and the Council adjourned for two weeks.

The motions passed will be given in our next.

Electors of the East Riding, vote for Mr. Hall and for honest government.

DOURO TOWNSHIP COUNCIL.

The new Council elected for the year 1874, met in the Town Hall at 10 o'clock A. M., on Monday 19th inst.

The following members were present and tyled their declarations :—John Moloney, Esq., Reeve, and Councillors M. Leahy, D. Leahy, Jas. Leahy and E. Foley.

The minutes of the last meeting were read and signed.

A By-law to appoint Auditors for the year 1874 was introduced and read a first time. On motion the Council went into Committee of the whole. Councillor M. Leahy in the chair. The Reeve named John Sherin, Esq., as one of the Auditors and the Council named Ambrose Sullivan as the other. The Committe then rose and reported the By-law read a second time without amendment. On motion the By-law was read a third time and passed.

Mr. Moher was appointed a commissioner to expend the sum of $50 on the concession line between concessions 5 and 6 oppcsite lot 13. One half of the above amount being part of the amount granted to be expended under the superintendence of said Mr. Moher, for the past year. The Reeve ordered the following payments, viz : To Thomas Sullivan $21, for arrears of Statute labor performed by him and charged to defaulters on the roll of 1873. Widow Beavis $8, charity W. C. Sanders, Returning officer at the last Municipal election, $2 ; Mr. O'Brien, do. $2 ; Widow Sullivan, for use of house, $1.50. On motion the payment for the use of Lakefield school house was lost. John Barry $2, for wood for use of Town Hall. P. A. Hunter $2, being an overcharge on assessment for the 1873.

REMITTANCES.

The Collector was authorized to make the following remittances : To James Hogan $1.20, being a charge on assessment of property which did not belong to him. The amount of Statute labour charged against Wm. McLennan on the roll of 1873, as it appears the same has been performed. George Shields $12.98, being taxes on account of lot 8, west of Regent street, said lot having been twice assessed. David Leahy $4, being statute labor charged against him on the roll of 1873, the same having been performed. Patrick Logan $2, being an overcharge on assessment. The Treasurer was authorized to hand over to Thomas Hogan a note of his drawn in favor of the municipality for $9, said Thomas Hogan having performed labor to that amount between the 3rd and 4th concessions, opposite lot 17. An application from Peter Fitzpatrick, claiming that under the Statutes he should be exempt from taxation on real estate, not received.

Robert Q. Dench was appointed Tavern License Inspector in Electoral Division No. 1, for the year 1874, and James Hogan, sr., for Electoral Divisions No. 2 and 3. A By-law legalizing a line of road, commencing at the centre of the allowance for road between the east halves of lots 15 and 16, in the 2nd concession was laid over until next meeting. Also a By-law to legalize a line of Road commencing on the east side of the allowance for road between the 5th and 6th concessions at a point 23 chains, 24 links northeasterly from the southwest angle of lot 21 in the 5th concession.

The Assessors were authorized to have the assessment completed and the Assessment Rolls returned to the Clerk, on or before the 21st of March, 1874, also to describe all properties by a description whereby they can be known and in case such description cannot be obtained, to then furnish the Council with a statement showing the reason why such description could not be obtained, and by whom the properties has been subdivided, if subdivided, so as the Council may take such action as they deem advisable in the matter. Also, that Messrs. Foley, Moloney, and M. Leahy be a Committee to assist the Clerk in correcting errors if such should exist on the Rolls, previous to the Court of Revision.

Council adjourned until the last Saturday in February, then to meet at 9 o'clock, A. M.

WM. O'BRIEN,
Township Clerk.

TOWN COUNCIL.

The new Council elected for the year 1874 met in the Council Chamber at 11 o'clock a. m., on Monday 19th inst.

The Clerk called the council to order and read his certificate of the returns of the recent municipal elections for the Town of Peterborough.

The following members were present and tyled their declarations : His Worship the Mayor, and Councillors Toole, Beal, Rutherford, Dixon, Deane, Hopkins, Stevenson, Cahill, Helm and Romaine. All other Returns being absent.

His Worship on Motion [illegible]

RE-ASSESSMENT.

A by-law to appoint [illegible]

Seconded by Councillor Paterson,—That Messrs. Helm, Dixon, Paterson, and the mover be a Committee to draft the standing Committees for the year, and Committee to report this evening.

Moved in amendment by Councillor Toole, seconded by Councillor Beal,—That Messrs. Helm, Dixon, Paterson, and the mover be a Committee to draft the standing Committees for the year, and Committee to report this evening.

The amendment was put and carried on the following division :—

YEAS.—Councillors Toole, Beal, Dixon, Cahill, Hamilton, and Helm.—6.

NAYS.—Councillors Paterson, Deane, Romaine, Rutherford, and Hopkins.—5

The Original motion was then put and declared lost on the same division.

The Council then adjourned till 7:30 o'clock p. m.

At 8 o'clock the Council again met. His Worship the Mayor in the chair. Present, Councillors P. Hamilton, Cahill, Helm, Romaine, W. Paterson, Hopkins, Deane, Rutherford, Beal and Toole.

The Minutes of last meeting were read and confirmed.

COMMUNICATIONS.

The Clerk read a circular from the Town Council of Guelph drawing attention to the law as regards Boards of Police in Towns and enclosing a petition for signature.

He explained that the Board of Police was composed of the County Judge, Police Magistrate, and the Mayor of the Town, and read the Statutes on the subject.

Councillor Dixon came in and took his seat.

Councillor Toole thought the petition should be referred to the Finance Committee.

Councillor Beal said the Board of Police was constituted by the Legislature and it made no difference whether the one in Peterborough had met or not, it existed. The petition in question was only to test the feeling of the Council. He moved it be received.—Carried.

ACCOUNTS.

From Breeze & Hutchinson, $7.13 ; Robertson & Walsh, $7.50 ; Thos. Menzies, $9.50 ; H. Best, $6.60 ; and for the last municipal elections $69. Referred to the Finance Committee.

REPORT OF SPECIAL COMMITTEE.

Councillor Helm read and submitted the report of the Special Committee as follows :

To the Mayor and Corporation of the Town of Peterborough.

GENTLEMEN,—The special Committee appointed to strike the standing Committee for the current year beg to submit the following report.

FINANCE COMMITTEE.—Councillors Beal, Romaine, Hamilton and Deane.

STREETS & BRIDGES.—Councillors Toole Robertson, Cahill and Paterson

LICENSES.—Councillors Beal, Paterson, Hamilton, and Deane.

PRINTING AND PETITIONS.—Councillors Rutherford, Hopkins, Romaine, and Dixon.

APPOINTMENTS TO OFFICE.—Councillors Dixon, Helm, Beal and Paterson.

GAS AND WATER.—Councillors Romaine, Deane, Toole and Hamilton.

CHARITIES.—Councillors Rutherford, Deane, Hopkins and Helm.

COURT OF REVISION.—Councillors Toole, Romaine, Dixon, Hamilton, and Rutherford.

FIRE COMMITTEE.—Councillors Rutherford, Robertson, Hopkins and Helm.

All of which is respectfully submitted.

(Signed.) WM. HELM,
Chairman.

Mr. Deane said he was on three Committees and Mr. Robertson was on one. It would be advisable to put Mr. Robertson on the Charity Committee in his (Mr. D's) place, because he was so far out of Town.

Councillor Dixon thought that was one reason why Mr. Deane should be on the Charity Committee. If charity was wanted very badly the applicants would not mind walking a mile for it. He thought Mr. Robertson should be on the Fire Committee in his stead

His Worship the Mayor said that he did the principal part of the work the Charity Committee was supposed to do.

Councillor Robertson was then put on the Fire Committee instead of Councillor Dixon. Councillor Deane was retained on the Charity Committee.

Councillor Dixon suggested that Councillor Toole be added to the Finance Committee in consequence of his long experience in Council matters.

Councillor Toole had not asked the position but was willing to accept it if it was the wish of the Council.

Councillor Rutherford thought it was unprecedented to give one ward two members on the Finance Committee. It was making Councillor Toole a sort of "No portfolio" minister like Mr. Blake. Each ward should be represented on the Committee, and anything more was manifestly unfair.

Councillor Hopkins had no objection to Mr. Toole but thought each ward should be equally represented.

Councillor Toole deprecated sectionalism The point now raised had not been raised before. He would like to know if the Finance Committee had not before been composed of five members.

The Clerk referred to the records and found that it had.

Councillor Paterson thought Mr. Toole would be of great assistance to the Committee.

Councillor Hamilton would leave the Committee as it stood, but if Mr. Toole must be on it, it would be better to replace some one with Mr. Toole than to add any one to it.

Councillor Toole preferred to have the report adopted as it stood, and if at any time the Finance Committee or any other Committee required his services he would render them most cheerfully. On motion the report was received and adopted as amended.

FINANCES.

Moved by Councillor Rutherford, seconded by Councillor Beal,—That no accounts be paid until they have passed the Finance Committee.

After an animated discussion Mr. Rutherford consented to lay the motion on the table as a notice of motion.

COMMUNICATION.

A communication from Mrs. Rutherford was handed in and read, praying for exemption from taxation. Received but no action taken.

PROPOSED HIGHWAY.

Mr. Toole said that some time ago a committee was appointed to confer with the Councils of North and South Monaghan with a view to making a new road along the bed of the river and thereby shorten the distance to the boundary line. Mr. A. Smith had spoken to the Reeve of North Monaghan about it, but he preferred that it should lay over until after the elections.

The elections were now over and it would be well to take the matter up again. There were several men who would give the right of way through their property and others would give money and subscriptions and it was with the assistance of the municipalities interested would build a good serviceable road and be a lasting [illegible]

To the Electors of the East Riding of the County of Peterboro

GENTLEMEN—Having been requested by a large number of the Electors of this Riding to allow myself to be a Candidate for your suffrages at the ensuing Election, for a Member to represent the Riding in the Commons of Canada, I have great pleasure in placing myself at the disposal of the Electors.

If elected, I pledge myself to use my best endeavors to promote the interests of the Dominion, and of the County of Peterborough in particular. I have the honor to be,

Gentlemen,
Your obedient servant,
R. D. ROGERS

January 10th, 1874.

WEST RIDING
NOMINATION.

On Thursday, shortly after 12 o'clock the nominations took place, in front of the Court House entrance; Sheriff Hall, Returning Officer, who read the Writ and Letters Patent of his own appointment.

W. H. Scott, Esq., was nominated by Mr. J. F. Dennistoun, seconded by Mr. D. Hopkins.

John Bertram, Esq., was nominated by Mr. John Walton, seconded by Mr. John Maloney.

Mr. J. F. Dennistoun was nominated by Mr. H. Collins, seconded by Mr. W. Beal.

There being no more nominations,—Mr. Dumble demanded a poll for Mr. Bertram, and Mr. Scott demanded a poll for himself.

All then adjourned into the Court Room. Arrangement had been made that each of the nominators and seconders should be allowed fifteen minutes; the candidates, Messrs. Bertram and Scott, two hours each, and a friend of Mr. Scott, three quarters of an hour. The friend of Mr. Scott, was Mr. Dennistoun, hence his nomination. By this arrangement, too, Mr. Scott was to speak first. In accordance with this memorandum,

Mr. Dennistoun, took the opportunity to express his pleasure in nominating Mr. Scott, because he believed him a fit and proper person to represent the Riding in the Commons, and, if elected, would be a credit to the Riding. He was a man of principle: he was well known to all the people, and would exercise his judgment, and would not give a blind support to any faction.

Mr. Hopkins wished that Mr. Scott would be elected.

Mr. Walton said he would not have arisen again, but for the remark of Mr. Dennistoun to the effect that the Reform party were trying to mislead the people. He, (Mr. Dennistoun) was the very man who was trying to mislead the people by placing false issues before them, and by the sophistry of lawyers to lead them astray. Mr. Bertram had been deprived of his seat before by a partizan Returning officer, but this time he would take his seat, as the party now in power would not be guilty of doing wrong. He here directed some stinging words to Mr. Cluxton, who was near, and who blushed at the pleasant position he was in through his past conduct.

Mr. Moloney followed, seconding the nomination briefly.

Mr. Scott came forward amid the cheers of his friends. He referred to the pleasure it gave him to be before the electors, and said that he would endeavor to go over all the grounds of difference in public policy in the time allotted. He defined his own position as a member of the Great Liberal Conservative party, whose policy he considered in the interests of the country. He denied assuming the position of an Independent; and, if elected, he would assist in carrying out the policy of his party. He then proceeded to give a rehearsal of his past speeches in this campaign; attacked the Government for dissolving the House now; said it was an afterthought, seeing how the election of Ministers went, and declared it unconstitutional; setting it down as a principle that no minister should disolve the House, only as an appeal to the people against a vote of the House. He then took up the "No Policy" cry. The Ministry had gone to the country without a policy, merely to get the House so strong that they might do as they please, and contended that if they should be too strong they would be more inclined to do wrong, as there would be no opposition to watch them. The old stale arguments worn thread-bare already. His next subject was, The Purity of Elections, and an insinuation that the grits were the only persons who sought to corrupt the people. He also endeavored to prove the inconsistency of the party by their present actions,—especially in the matter of Mr. Blake's having a seat in the Cabinet without a port-folio. He again repeated the garbled item from the speech of Mr. Blake in 1867 about placemen, but forgot to shew that the conditions on which his speech was based are much changed. In 1867 the Reform party sought to prevent the inception of too many members in the Ministry, not sent by the people. The bugbear of Mr. Blake and Mr. E. W. Scott without portfolios is frightening him. He then took up the Pacific Railway after his idea: was in favor of Land Grants to build it, and quoted the American Railway policy as a precedent. He asserted that it was not so that the Company was to get land of an average quality, if not in the Nor' West then out of the Provinces, but in reading over the clause he passed over this portion as not pertinent. Mr. McKenzie's speech at Sarnia was another theme; the route of the Railway; violation of past theories; The Scott Militia; Blake's inconsistency; coalitions; interference of officials; Robbery, and an appeal for support brought him to the end of his address, when his friends again cheered.

Mr. Bertram then arose amidst a storm of cheers. He thanked the electors for the confidence again reposed in him in nominating him as the candidate. The circumstances were somewhat changed, and the conditions were also. At the last election a majority declared in his favor, and elected him, but owing to the conduct of the Returning Officer, he and the people had been defrauded of their just rights. He instanced the act of the late Government in their attempts to retain Mr. Cluxton in his seat, contrasting it with the action of the House in the case of Francis Hincks and Peter Carroll. The great mistake, nay the crime, was the Returning Officer consulting Mr. Cluxton and Sir John. But they never can act without the advice of that luminary. Sir John thought it a great pity that the Return had not been made before the filing of the qualifications, and referred them to R. A. Harrison; but his letter has never been published. All these things had been advised in a secret caucus of the Liberal Conservative party. The matter had been carried to Parliament and a committee had ruled in his (Mr. B's) favor in every case, although the partizan chairman had done all in his power against it. Mr. Bertram referred to the position Mr. Scott took in his address. From it no one could identify him. To-day he came out as a Liberal Conservative. He acknowledged Sir John with all his faults and shortcomings, and would—if elected—support Sir John Macdonald. He (Mr. B) would not: on the contrary he would support Mr. McKenzie. Mr. Dennistoun had stated that the policy of the Reform party was one of Slander, but he (Mr. B.) would remind Mr. Dennistoun of the vile slanders he had promoted against Mr. O'Donohoe, four years ago in the vile campaign sheets. At the present time there is the Wilke's Slander, infamous as it is. The party of "Proton Slanderers," and a host of others, for the party of Mr. Dennistoun and Mr. Scott live only on slanders. He wondered, indeed, that the were not now shouting "Proton." They talk of "No Policy." what was there policy in 1867. That of "No Party," "A Fair Trial," and yet they will say "No Policy. Mr. Scott would have the people believe that the dissolution is unconstitutional, but this is nonsense, as the Ministers can dissolve when they please; and for what reason they please. This dissolution was advised, because the House was filled with men who were there by virtue of Sir Hugh Allan's money. Sir Hugh had secured twenty-seven men trueto him. He declared this to Sir Geo. Cartier and to Sir John Macdonald. They had to come to his terms; he supplied them all the money they needed. This had been revealed and as the outcome of this money it was that they found the House corrupt and not to be trusted. He then refuted the assertions of Mr. Scott that money had been used to elect him before, declaring that he never paid 1 quarter of a dollar for a vote, and dared Mr. Scott to say that he (Mr. Scott) had ever paid money for votes. He said he had asked Mr. Scott to take this position, but he had not done so. He (Mr. B) could tell Mr. Scott that his former friends were now coming and telling him how much they had received for the electing of Mr. Cluxton. A pure Election Law was not talked of at the late contest, but a different party was then in power; they had an opportunity to do so but did not,—now they say that although the Reform party is only a few weeks in power all imaginable law reforms ought to be passed in twenty-four hours. Mr. Bertram then exposed the meanness of the sneer at Mr. Blake as compared with Lord John Russell, Marquis of Lansdowne, &c., and said he hesitated not to say that intellectually he was their equal, and the head and shoulders above any other man in the Dominion. He showed the hollowness of the cry about coalitions, showing that there was none in the present case, all those who joined the present Ministry were one with them on all matters of state policy. The ballot he said he was in favor of. He (Mr. B.) found that a system of fear was being used. A man feared to vote contrary to some men—as if he did, he was threatened that they would not go to his threshing. The ballot would remedy this materially. He then unfolded his Railway Policy as best calculated to secure the road economically, and at the same time the settlement of the country through which the road will pass. The policy of the late Government, and that of Mr. Scott was the same—was to give the land over to the Company, they would hold it at high rates, the Government could not sell their lands at less than $2 50 an acre, and this would retard if not prevent the settlement for many years. The commencing of the road at both ends simultaneously would have the same effect. The present Government reversed the policy. They would build the parts required, to assist in settling the country, and thus induce an increase of population, which would aid in bearing part of the cost as it proceed. He referred to the mismanagement of the Intercolonial, as a cause why there was a change necessary. He condemned the shameful policy of Mr. Scott in his appeals against the Ontario Government and said that they had carried out their programme faithfully. Mr. Bertram then defined his position as ready to vote confidence in the present Government. He was not going to give it a blind support, but a careful and thoughtful investigation of every question. Mr. Scott had stated that McMullen was paid. This is one of his false assertions which he cannot prove—that Mr. Scott says so will not satisfy any but, perhaps, himself. He is also ready to assail his opponents as letter stealers. Has Mr. Scott never got a letter not his own in his box. The Hon. Mr. Young got a letter in his box and the indiscretion was publishing it, but it is not strange that he did it when he found Sir Jno plotting to undermine him for the vilest party purpose. There is not a word about Sir John selling a great public trust for money or for a Senatorship. He Mr. Bertram might charge Mr. Scott's party with letter forging, for in the last contest some one of Mr. Scott's friends had forged a letter purporting to come from Mr. George Kempt, of Lindsay, to Mr. George Cochrane, of Fairfield, to get him away on pretence of being wanted to take a contract, so that he might be out of the way of voting for him, Mr. B. This was forgery, and by some one of Mr. Scott's party. Mr. Bertram then referred to the great scandal of the late Government, by which Sir John Macdonald had degraded Canada in the eyes of foreign nations, This was crime not to be condoned. Parliament condemned it, and they were driven from office. John Macdonald would not have backed down, but he was compelled. Sir John had lost the confidence of the people, and he fell. He then he was back. The culminating point of a series of political sins, brought him and his party to ruin. He here dilated on the crime of selling the charter, the taking of the money, the use it was put to, and the abuse thus likely to follow had it not come to light. Mr. Huntington unearthed the crime and now the motive force to face and while the whole loitered, parliament telegrams were in his desk, Sir John stood up and declared "there has been no bribe," although by his oath since, they were shown to be defiled by Sir Hugh's gold.

Mr. Bertram then showed how Mr. Scott had not been able to alter or vary a word of his speech through the Riding, that his addresses then was as it had been at every meeting in the campaign. He, Mr. Bertram was assured of sounding the sympathy of the electors on account of the manner in which he had been used. He did not do so. He asked their confidence and support because he was a Reformer, and if re-elected would support good Government and would do what he could to establish confidence in the Government. He represented ideas and principles that were not in Mr. Scott's platform. Mr. Scott calls crimes indiscretions, but they were crimes nevertheless, and if elected as he knew he would be, he would do his best to prevent their recurrence and to serve the people and the country to the utmost of his ability. He sat down amid a storm of applause.

Mr. Dennistoun occupied a few minutes in accusing the Reform party of being annexationists and of being sold to Jay Cook—quibbled about the majority and a majority of votes—importing Chinamen—Riel and Mr. Mowat. But the estimation placed on his effort by the people was very different from that placed on it by himself.

B. A.—BAH!

ON APOSTOLICAL SUCCESSION.

An eminent divine of Lakefield or, of this town be times, has laid aside his surplice and betaken himself to the more agreeable task of a political scribbler. It is not at all surprising that he so prefers a work more in accord with the bent of his mind and his associations. One week his cry is "blood," the next it is John A., the corruptionist and Mr. Scott, his representative here. This week it is post office scandal and a stab at Mr. Blake—three evangelical texts. Will he tell his readers next week in what part of Holy Writ they are to be found? Will he favour the *Review* next week with the name of the apostle whose example he imitates, and with the divine injunction, as to the qualifications of a successor of the apostles. Here are a few of them, "blameless," "vigilant," "SOBER," "of good behaviour," "*not given to wine*," "NO STRICKER," "not a brawler," "of good report of them who are without, lest he fall into the snares of the devil." Let B. A. give himself more to prayer and less to politics and he will be a more useful teacher.

THE "REVIEW" AND THE DISLOYAL ELEMENT.

The late developements among the charter-sellers has unusually excited them. The lawyer leaves his law to write newspaper articles, and as a result we have the charge of disloyalty brought against Reformers. We need not stop to tell them that that is of no avail just now, too much sound sense prevails to lay the charge of disloyalty against any of our citizens. But just think of the men who were ready to sell the charter to the Americans talking about loyalty. The man who bartered away our fisheries for a trifle—the wen who burned the Parliament buildings in 1848—the men who cast rotten eggs at their Governor General, the Queen's representative—the men who actually got up an annexation manifesto and signed it; yet these men prate about loyalty and disloyalty. These men now howl about the streets because the hope of their gains is gone. A judgship should satisfy them; that their loyalty goes no further than their pockets is well known; but they may rest in peace. Canada is safe, and Reformers still control its affairs, and will for a long time to come, and are as ready to defend it, if need be, as they are whose lamentations are so piteous.

BURLINGTON.

The Council met on Monday, the 19th instant, at the Council room, Apaley. Present, James Gelborne, Reeve and councillors Francis Elmhurst, John Lees and Duncan Anderson. Members present made the declaration of office.

Minutes of last meeting read and confirmed.

The following appointments to office were made; Henry Eastland, clerk and treasurer; Caleb Lousley and Billings Kilborn, Auditors; Wm. McMillmoyl, tavern inspector.

John Young made application to be allowed to perform six day's statute labor on Magwell's hill in the spring. Laid over. Copy of resolution received from Secretary of Burleigh Agricultural Society tendering a vote of thanks from the Society for the late grant from the council of forty dollars.

MOTIONS.

That Henry Defries be allowed to perform four days statute labor charged against Lot 6, Con. 4, Chandos, under the superintendence of Thomas Wilson.

That the municipal Loan Fund of the municipality be applied either for school purposes or expended on roads; the matter to be decided by the ratepayers, and petitions circulated to that effect.

That a petition for opening up a road on the West side of Eels Creek to Buckhorn Lake be forwarded to Mr. Read, M.P.P. to be signed by the Reeve and also by all parties interested.

A By law was passed extending the time for the collection of taxes to the 16th day of March.

ORDERS ON TREASURER.

Benjamin Woods, cutting fallen trees off roads, five dollars. Returning officers, Caleb Lousley, five dollars; George Gander, five dollars; and Henry Eastland, two dollars.—Com.

Archdeacon Denison, one of the ritualistic leaders in England, has again been flying his shot at the bishops and demanding the disestablishment of his church as the only means of saving it from fatal apostacy. At a large meeting held in London he declared that he had no hope for the Church of England as long as it continued to exist as an establishment. In his opinion a conspiracy existed to turn everything that might be called Catholic out of the Church [illegible]. They talked about stamping out Popery just as the same blasphemous language as the Privy Council talked about stamping out the cattle plague. After a lengthy statement as to the points in dispute between him and his own bishop, he said that he did not look to do the work of a large parish without a licensed curate. He intended, if the Bishop persisted in his course, to bring laymen into the church to read the lessons, preach the sermons and do everything except hearing confessions, pronouncing absolution, and administering the sacraments. He would advise other clergymen so situated to do the same, and let the bishops interfere with them if they failed.

MARRIED.

ORMSTON—On the 15th instant, by the Rev. J. B. Ormston, of a daughter.

Noted for Cheap Goods.

Peterboro, Jan. 20th, 1874. 80-tf

TO THE ELECTORS OF THE EAST RIDING OF THE COUNTY OF PETERBOROUGH.

GENTLEMEN:

The Government, convinced that the late House of Commons did not fairly represent the Country, have dissolved the Parliament and appealed to the Constituencies for their verdict, and you will soon have an opportunity of saying what your verdict will be, by the choice you make of a member to represent you in the Legislature.

Having received the unanimous nomination of a large and influential convention of Reformers from the different Municipalities, and being assured by them that I would receive the cordial support of their friends throughout the Riding, I cannot refuse to accede to their request, and now offer myself as a candidate for your suffrages in the Reform interest.

The important and exciting questions before the Country have been so fully discussed in the public prints, it is unnecessary for me to refer to them at this time.

The late Ministry having been, by their own admission, guilty of many acts of gross corruption, deserve, in my opinion, the unqualified condemnation of every honest man; and this, I am confident, will be the decision of the Electors of East Peterborough.

If elected; the present administration being composed of gentlemen of the highest character for integrity honor and ability, will receive my cordial support, so long as they honestly and faithfully discharge their duties, but no longer.

A residence of nearly 40 years amongst you has made me tolerably well acquainted with your wants and wishes, and has given you an opportunity of judging of my consistency as a Reformer, and as I have not yet seen any reason to change my political creed, I can appeal with confidence for your support.

I will take an early opportunity of seeing as many of the Electors as possible before the day of polling, when I can more fully give you my opinions on the various questions before the Country.

I am, Gentlemen,
Your obed't servant
JAMES HALL.

January 7th 1874.

TO THE ELECTORS OF THE WEST RIDING OF THE COUNTY OF PETERBOROUGH.

GENTLEMEN:

The Governor-General having by the advice of his present Ministers dissolved Parliament, and ordered a General Election, I offer myself again as a Candidate to represent the interests of this Riding in the Dominion Parliament.

In the election of 1872 a majority of the Electors of the Riding honored me with their confidence, but the Returning Officer took it upon himself to return as duly elected, the Minority Candidate, an outrage the Government of Sir John A. Macdonald condoned by retaining Mr. Cluxton in Parliament, contrary to established law, contrary to English and Canadian precedent, and contrary to every principle of justice.

I endeavoured by every legitimate means in my power before Parliament, the Privileged Committee and an Election Committee to obtain your rights, but so far unsuccessfully. The dissolution of Parliamet has taken the matter out of the hands of a partizan committee and placed it in yours. I ask your verdict on what I cannot but characterize as one of the greatest outrages ever committed on a free people.

If you elect me as your representative, I will support the present Government in their efforts to put down all jobbery, and make it impossible for a rich man like Sir Hugh Allan, to cram Parliament with members elected by his gold to barter the peoples' rights and control the destiny of our country.

I earnestly desire to maintain British connection and to consolidate the Dominion of Canada, giving to each Province justice and equal rights, thus allaying sectional feeling, and securing prosperity and happiness throughout the land.

The High Court of Parliament has condemned Sir John A. Macdonald and his Ministry, for bartering to a contractor the Pacific Railway Charter for money, with which they controlled the elections and kept themselves in power. I sympathize in that verdict, and I ask your support in my position.

While I am desirous of seeing energetic and prudent action towards developing the Country, I will strenuously oppose entering blindly into huge undertakings before ascertaining the probable cost; and economy in every branch of public expenditure will get my support.

The Great North West will demand a large share of the attention of Parliament, I am in favor of opening Railway connection with that part of the Dominion without delay, that every facility may be afforded for its settlement.

I am opposed to the granting of large tracts of land to Railway Companies.

I will advocate the passing of a Stringent election Law, an Income Fraschise, and the use of the Ballot.

I will advocate Free Trade as far as the circumstances of the country will allow, that the burden of taxation may fall as lightly as possible on the great producing classes, the Farmer, Mechanic and Labourer.

I feel confident that the advent of the present administration to power will mark a new and happier era in the history of this Country. I will give it a loyal but not slavish support in carrying out the policy they advocated while in opposition, and in upholding sound constitutional principles of Government.

I hope under the present circumstances of political parties, and in view of the great National Scandal brought upon us as a people by the late Government, and in view of the treatment this Riding has received at their hands to obtain the support of all my old supporters, and of all Loyal and Independent Electors who are not prepared to sanction and approve the condemned conduct of the late administration.

I am, Gentlemen,
Your obd't servant,
JOHN BERTRAM.

January 6th, 1874.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL
Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgment of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proporations of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, PHELPS, N. Y.

And NORTHROP & LYMAN, Newcastle, Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrised. Sold in Peterborough by Dr. Taylor, A. W. Kempt, Wm. Coulter, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co., C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.
Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, Wm. Coulter, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co., C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, Wm. Coulter, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co., C. Brittes, Lindsay, and all Medicine Dealers.

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is the best tonic in use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and healthy nutrition. All cases of general debility, arising from wasting disease, such as consumption, scrofula, all diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, over-work, or bad habits, will derive immediate benefit from it, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period, without becoming disagreeable to the patient.

Dr. J BLL IMPSON'S
SPECIFIC ANTI TOXIC PILLS,

THE GREAT ENGLISH REMEDY FOR Nervous Debility, Spermatorrhea, Nocturnal Emissions, Weakness of the Generative Organs, Palpitation of the Heart, Tremblings, Sleeplessness, the effect of over-indulgence in alcoholic stimulants and tobacco, &c. Dr. J. BELL SIMPSON'S Pills are the only effectual ones for the above diseases, and are never known to fail. They have already cured hundreds in this country. Robert Arthur, machinist, Hamilton, testifies to his recovery by their use. Safe, certain, and rapid in action, a short trial will prove their efficacy. No sufferer need despair of being relieved from the frightful effects of SELF-ABUSE. The Specific Pills are sold by Druggists at $1.00 a box, and the Tonic Pills at 50c. a box, or they will be sent by mail, postage prepaid, and securely wrapped from observation, on receipt of $1.00 for the Specific, and 50c. for the Tonic Pills, by

J. BELL SIMPSON & Co.,
Drawer 31, P. O. Hamilton.

Sold by all Wholesale and Retail Druggists. Pamphlets sent post-free on application.

Peterboro, Jan. 7, 1874 1-6in

EDWARD S. FRANKS, M. D.,

Optician and Oculist of the Royal Ophthalmic Hospital, of Moorfields, London, England, and only resident at the Camera Eyed, with a large assortment of his

IMPROVED & PATENTED SPECTACLES

for sale and for examination as dealers of the Eye and Ear, 9 or three DAYS LONGER.

MORE PETERBOROUGH TESTIMONIALS.

We, the undersigned, have pleasure in adding our testimony to the scientific abilities of Dr Franks in adjusting his improved spectacles to the eye, from an examination of that organ alone, with the *first pair* he tries. He having granted us to our entire satisfaction, as such, we recommend him to the people:

ROBT. ROMAINE, Peterborough Review.
(Rt. BURNHAM, Sexr., Peterborough.
ROACH WAY, Peterborough.
HENRI BENNITT Auctioneer.
Miss JOHN BELL, Peterborough.
Mrs. F. W. HEATHER, Peterborough.
PETER PEARSE, Reeve of Belmont.

We, the undersigned, have had the improved Spectacles fitted to our eyes by Dr. Franks, from an examination of the vision alone, with the *first pair* he tried. We think these spectacles the best of any we now see as perfectly as ever:

Mr. and Mrs. LEWIS GLOVER, Peterborough.
Mr PETER GLOVER, Peterborough.
Mr. W. E. WILSON, Peterborough.
Mr. PETER GIFFORD, Shoemaker, Peterborough.

With pleasure we add our testimony to the skill of Dr. Franks and his valuable improvements in Spectacles. He examined our eyes and suited them at the *first attempt* with the *first pair of Spectacles* he tried, so much better than with any other spectacles we ever used, that we recommend all to get them:

Mrs. JOHN SHERRIDAN, Peterborough.
Mrs. GEORGE E. SHAW, Peterborough.
D. PETTLAND, Denmo, Peterborough.
Mrs. A. W. KEMPT, Peterborough.

Dr. Franks has examined my eyes and suited them with his Improved Spectacles. He accomplished this at the *first trial*. I am much pleased with their pleasant effect on the sight. I now see perfectly, both by day and light, with no cross and consider I have not experienced with any spectacles before:

Rev. FATHER LYNCH, Peterborough.

I have not for many years been able to get any spectacles through which I could see even tolerably. Dr. Franks has made an examination of my eyes, and suited them with the very *first pair of his Improved Spectacles* so well that I recommend them to all needing spectacles, as I see so much better than I could with any others:

THOMAS POOLE, Peterborough.

From boyhood my sight was defective and always occasioned me much inconvenience. I never could procure spectacles but what commenced me trouble. Those of Dr. Franks improved cases were adapted to my sight by him at once with the *first pair* he tried, to my satisfaction and those of my friends. They give me so good sight as I desire, and are perfectly clear, easy and comfortable to wear by night or day:

H. C. WINCH. Peterborough.

I was operated upon nine years ago for a cataract in each eye, and never got spectacles that satisfied me until Dr. Franks supplied these. He more than saved my eyes, and at once gave me a pair that I see with better than any I ever had:

ROBT. THOMPSON, Peterborough.

I have examined Dr. Franks' Improved Spectacles, and had a pair adjusted to my sight at the *first trial*, from an examination of the eye alone. They are the best spectacles I ever had, being *clear*, comfortable and easy to wear:

W. H. BURRITT, M. D., Peterborough.

It is with pleasure I state Dr. Franks examined my eyes and selected at once, at the *first attempt*, a pair of his Improved Spectacles that suits my sight to an exactitude much better than any I have ever had before:

Rev. JOHN M. ROGER, Peterborough.

Official Report, Vienna Exposition, Sewing Machines, &c.
(CLASS 13, SEC. 2 R.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 600,000 of their Sewing Machines into practical use. The complete production of the parts by machinery in an unrivalled that each complete machine may be used as a sample for exhibition. This firm produces 600 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This has formed machine never the heaviest leather harness and the finest gauzes with a truly point stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

THE undersigned have this day entered into Partnership for the practice of Law in all its branches under the Firm name of

Dumble & Bleecker,

Barristers, Attorneys, Conveyancers, etc.

D. W. DUMBLE. HY. BLEECKER.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

CHANGE OF BUSINESS.

The subscriber in returning his sincere thanks to his numerous Customers, for their liberal patronage in the past, desires to inform them that he has sold out to his son Alexander, who, he trusts, will merit a continuation of that patronage. I also beg to state that all Accounts and Notes due, are ready for delivery, or can be had in the store.

Keene, January 1st, 1874. Alex. CAMPBELL, Senr.

TO THE PUBLIC.

Having this day purchased my Father's stock in trade, I invite a careful inspection. It is very complete; a large portion of it was bought by him in Britain, in the most favourable markets, and having made arrangements to buy Stock direct from the manufacturers from time to time, as required, I will be in a position to defy competition, and I am determined to sell at the lowest figures, making a liberal discount for cash.

The Stock Consists of the best

ENGLISH CLOTHS, BEAVERS, PILOTS, PETERCHAMS, DOESKINS, SCOTCH & CANADIAN TWEEDS OF THE BEST MAKERS. ALPACAS, COBOURGS, LUSTRES. DRESS GOODS IN VARIETY, PRINTS, WOOLEN SHAWLS, LADIES HATS, BONNETS, SCARFS, TIES, RIBBONS, LACE, &C., &C.

Also a full assortment of

Shelf and Heavy Hardware.

CROCKERY & GROCERIES of best quality.

BOOTS AND SHOES.

All the popular PATENT MEDICINES, and every article found in a General Business.

The TAILORING and CLOTHING Department will be continued under my own immediate inspection. A GOOD FIT in all cases GUARANTEED.

☞ Farmer' Produce Taken in Exchange for Goods, at Highest Prices.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation the excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, interior may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: Life St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Tic, Epilepsy, Neuralgia*, and the various *Uterine* affections of the muscular and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Tumors, Boils or Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of corrupt matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammations of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the nameless symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, to this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that when it does cure it does always—that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of testimonials of their remarkable cures of the following complaints, but such cures are known in every section of the country, and we need not publish them. Adapted to all ages and constitutions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by any body. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and infusing into the whole system fresh vigor, and restoring it to soundness. Minute directions are given in the wrapper on the box, for the following complaints, which these pills speedily cure: For Indigestion, Headache, Foul Stomach, Biliousness, Jaundice, Dysentery, Rheumatism, Erysipelas, Scrofula, Ulcers, Dropsy, Loss of Appetite, they are the best aperient that can be used, and for Costiveness or Constipation of the bowels they are unequalled, as a dose or two will relieve the most obstinate case.

Purify the blood, and the health of the system will follow. Keep the blood pure, and no disease can exist. Cleanse, purify, and restore the vital fluid when disease lurks in the system, and it will find no harbor. Foul humors, corruptions, and impurities, the cause of so much suffering, and of so many fatal maladies, are expelled from the system by the use of these Pills. Hence a purge is the best remedy for the cure of most diseases. Every body knows when they need a cleansing medicine, and what they need for their particular case. Those who want a mild purge will find it in these Pills. Those who want a thorough purge will find it in these Pills. Those who have been purged enough will find that these Pills stop purging when the proper point is reached. Prepared by

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they will restore sight obscured by the common glasses, and will often be found to restore failing sight to its natural state.
2nd. *Because* they will retain sights obscured by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an amazing guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

Sheriff's Sale for this EXAMINER.

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of the County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favorable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,

EDWARD S. FRANKS, M.D.,

of Manchester, Lancashire, England, Lecturer on the human eye and ear and their diseases, inventor and patentee of improvement in spectacles.

$5 REWARD.

In the matter of WILLIAM J. LARMOUR, an Insolvent

On the Tenth day of the month of MARCH next, the undersigned will apply to the Judge of the said Court for a discharge under the said Act.

W. J. LARMOUR,
by J. B. DIXON,
his Attorney ad Litem.

Dated February, 2nd 1874. 6-3ins.

Card of Thanks.

I HEREBY desire to thank all my young friends in Smithtown and North Monaghan for the very valuable assistance rendered me on Election Day by coming into town with their teams, and to the young Reformers of the town of Peterboro for the noble work they did on the 29th ult.

JOHN BERTRAM.

Feb. 4, 1874. 6-4ins

Rest and Wrong.—It is wrong to jest with your wife upon a subject in which there is danger of wounding her feelings, and it is wrong to speak of great virtues in another man's wife, to remind your own of fault; but it is not wrong after trying the "Canada's Pain Destroyer" and feeling its wonderful effects, to recommend it to your neighbors, for the cure of rheumatism, neuralgia, cramps, cholic, &c., it has no equal. For sale by Druggists and country dealers. Price 25 cents per bottle.

Peterborough Examiner.

PETERBORO', FEB. 5, 1874.

Editorial Items.

Young Canadian L O L.

The monthly meeting of this Lodge will be on Tuesday next.

The investigation into the causes of the fire in the Intercolonial and Pacific Railway offices at Ottawa has resulted in a verdict strongly condemning the neglect of the officials in charge of them.

The congregation of Cooke's Church, Toronto have decided on giving a "call" to the Rev. James Gardner Robb, of Clogher, Ireland. Stipend guaranteed $3,000.

Five incendiary fires occured in Hamilton, Ont., on Tuesday. Four of the buildings fired were churches.

Orange Intelligence.

The County Lodge met yesterday in the Orange Hall, Peterborough. There was a very large attendance of members of the order. The officers elected are—

Bro. J. B. McWilliams, Co. Master.
Bro. A. Anderson, Dep'y Co. Master.
Bro. Rev. W. L. Scott, Chaplain.
Bro. John Smith, Secretary.
Bro. R. Warsan, Treasurer.
Bro. G. Hall, Director of Ceremonies.
Bro. Geo. Johnston, Co. Lecturer.

Masquerade Carnival.

The lovers of fun will remember the masquerade carnival on the Metropolitan Rink on Tuesday evening. The promoters of it are confident that it will be a success.

Bible Society.

Sermons in connection with the Upper Canada Bible Society will be preached by the Rev. J. Gemley in the Canada Presbyterian Church at 11 a. m., and by the Rev. R. B. Montgomery in the Charlotte Street Wesleyan Methodist Church at 6:30 p. m., on Sunday next, the 8th inst. The annual meeting of the Peterborough Branch of the Society will be held in St. Andrew's Church on Monday, the 9th inst, at 7:30 p. m., when addresses will be delivered by the Revd. Messrs. Gemley and Montgomery the agents of the Society and by others. It is hoped that there will be a large attendance.

Potatoes at your own Price.

We would invite the attention of all those who wish to purchase pictures at their own price to the choice collection now on view in Bradburns new store, opposite Mathias & Reid's bookstore and which will be sold without reserve, by auction this afternoon, sale commencing at 3 p. m. An opportunity is now offered which seldom occurs of beautifying your homes as the subjects are all good and copied from the pictures of the great art artists of the world. Call and inspect for yourselves this morning and you will be sure to attend the Auction in the afternoon, when all can buy who want any pictures in the store as the sale will be without reserve.

At every one expected the Hon. Edward Blake has been elected once more to represent South Bruce in the House of Commons, by a majority of about 200. Considering the circumstances in connection with this contest, the result is highly satisfactory. Mr. Blake is the honored champion of the Reform party, and, as such, had the most deadly darts of the enemy levelled at him. Most tremendous and determined efforts were made to defeat him, but the result shows that he is still strong in the affections of the electors of South Bruce. Had he been defeated he would have retired into private life; such a calamity has been averted by the noble action of the electors to-day. May Mr. Blake long be spared to serve his country, and may we long be honored with him as our representative.—*Telegraph*.

East Riding of Peterborough REDEEMED.

The elections of Ontario are almost over, and the result has been even better than anticipated. The county has turned back on the Government of John A. Macdonald and on his leadership, for both Ridings have elected good and true men to represent us in the Parliament at Ottawa, while we have also one member in the Local House at Toronto. The County was ripe for this for some time. Since ever the story of Sir Hugh Allan's money was made known the people were strong in their denunciations of the man and of the crime with which he was charged, and right nobly have they vindicated their character by electing men opposed to charter selling, and to corruption of all sorts in high places.

Mr. Rogers, the Liberal Conservative candidate, was the strongest man that that party could have brought out. His character was unblemished by any act of political malfeasance, and in private life he is noted for the strictest integrity, honesty and kindheartedness, and defeat certainly could be easily borne if by the election of such a man as Mr. R. D. Rogers, as every one who knows him will give him credit for honesty of purpose and conscientious discharge of all the duties he might be called upon to transact. The only strong objection to him was the associations in which he would place himself. From this he is now saved by the election of Mr. Hall.

The village of Ashburnham gave Mr. Rogers a large majority for a small place, viz., 72. Douro gave him a majority of 57, but these and Belmont are the only places that did so. Belmont gave him a majority of 26.

Otonabee did not do as well as a good old Reform Township should do, but the cause must be trifling, and need not be feared.

Asphodel has nobly redeemed its character. The last vote was given to Mr. Grover on local grounds. In this contest they have again returned to their old principles and proved themselves good and true. The greatest praise is due to the men who managed the present campaign.

The back country, too, has heaped up a majority against the wrong.

The result of this contest as far as is known is as follows:—

	HALL.	ROGERS.
Ashburnham	41	113.
Asphodel, 1, Westwood	51	67
" 2, Norwood	66	65
" 3, Hastings majority	26	
Belmont	37	63
Burleigh	39	6
Dummer 1	19	12
Warner, 2, majority	27	
Town Hall 3		2
McFadden 4		6
Douro		57
Dysart	22	16
Galway, majority	16	
Harvey, "	45	27
Minden, "	13	
Otonabee, Brethaven's	72	49
" Keene's	61	51
" Smith's	76	39
" Stenson's	77	61
Snowdon, majority	23	
Stanhope, "	13	
Total	743	699

Majority for Mr HALL, 112.

ONTARIO ASSEMBLY.

TUESDAY, Feb. 6, 1874.

The House assembled after its recess yesterday, but a very small proportion of the members had returned to town up to the hour of adjournment.

Bills were introduced providing for voting by ballott, for the inspection of railways, and for consolidating the laws relating to the sale of spirituous and fermented liquors.

A vote on account for the current service of the year was taken in Committee of Supply, and the House then went into Committee on the Bill to amend the law respecting escheats. After a discussion, in which the Attorney-General, Mr. Cameron, and Mr. Hodgins took part, the Committee rose and reported the Bill.

The two Bills introduced by the Attorney-General, to admit of the Incorporation of Charitable Institutions, Benevolent Societies and other Associations, were then read a second time, and the House adjourned.

COLLEGIATE INSTITUTE.

The Board met on Tuesday evening.

Present Messrs. Stevenson, Edmison, McLelland, Toole, Robertson, J. M. Smith, Hilliard, A. Rutherford, and G. A. Cox.

The minutes of the last meeting were read and confirmed.

A communication from the Town clerk was read, informing the board that Messrs. Edwards and A. Smith had been appointed Trustees of the Collegiate Institute by the Town Council.

On motion of Mr. Hilliard, seconded by Mr. Edwards, Mr. O'Beirne was reappointed secretary.

Messrs. Edwards, J. M. Smith, Edmison and Cox were appointed Committee on Finance.

Messrs. Toole, Hilliard, McLelland and Rutherford Property Committee.

Messrs. A. Smith, Rutherford Edwards, Hilliard Committee on appointments.

Messrs. McLelland, Cox, Rutherford and Robinson, Building Committee.

On motion of Mr. Toole, seconded by Mr. McLelland, Mr. Stratton was reappointed Inspector of Public Schools.

Messrs. J. J. Hall and J. A. Hall were appointed auditors.

Moved by Mr. McLelland, seconded by Mr. Robertson.—That inasmuch as the board has given out a contract for the erection of a new Ward School House in the South part of the Town which will cost $6,000, the secretary be instructed to provide the necessary funds as early as possible.

The Secretary was requested to communicate with Mr. Black respecting the gas bag, chemicals, &c., under his charge in the school, said articles being now missing.

The Property Committee were instructed to purchase the necessary seats, desks and blackboard for the school near the Auburn Mills as suggested by the Principal.

On motion of Mr. Cox the secretary was instructed to communicate with the Education Department and ascertain the cost of a set of chemical apparatus.

On motion of Mr. Toole the Janitor was allowed $15 compensation for this year and was instructed to have the wood cut and placed in the shed by the 1st of June.

Visiting committee for the year.

February—Messrs. Hilliard & Cox.
March—Messrs. Toole and McLelland.
April—Messrs. Stephenson and J. M. Smith.
May—Messrs. Davis and Grayson.
June—Messrs. Rutherford and Cox.
August—Messrs. Edwards and Hilliard.
September—A. Smith and McLelland.
October—Messrs. Toole and Stevenson.
November—Messrs. Davis and J. M. Smith.
December—Messrs. Rutherford and A. Smith.

Mr. Stevenson was appointed chairman.

Several subs were referred to the Finance Committee.

PRINCIPAL'S REPORT FOR 1873.

To the Trustees of the Peterborough Collegiate Institute and Public Schools

GENTLEMEN:—

During the month of January, the attendance was as follows—

PRIMARY.

	Average.	Aggr'te.
Miss M. Borrowman's d'v'n	36 (b'ys.	46
Miss Jenkin's division	26 (girls)	37
Miss Boucher's division	51	63
Miss Leete's division	55	60
SECOND AND THIRD FORMS.		
Miss Stratton's	54	66
Mrs. Flavelle's	53	66
FOURTH FORM.

COLLEGIATE INSTITUTE.		
Form I. Miss Borrowman's	29	33
" Mr. Earl's	37	40
Form II. Mr. Findlay's	19	20
Form II. & III. Miss Landy's	30	32
Form III. Mr. Shepley's	16	20
Form IV. and V. Principals	20	20
Music, Miss Mitchell's, about	20	20
Total Collegiate Institute	170	185
Total in Collegiate Institute and Public Schools	619	734

In visiting the school at Auburn Mills I found the Desks and Blackboards very poor; I therefore recommend that the school be furnished as soon as possible with new desks and suitable blackboards.

I have also to ask you to procure for the Collegiate Institute a set of chemical apparatus, as we have scarcely anything with which a teacher of chemistry can illustrate the leading principles of this important science.

Respectfully yours,
J. BYRON DIXON, M.A.,
Head Master.

DUMMER COUNCIL.

Jan. 17th, 1874.

Council met at the old Town Hall at 10 a.m.

Present—T. G. Choate, Esq., and Messrs. Spence, Wigmore, Smith and Ritchie.

Minutes of last meeting read and confirmed.

A By-law to authorize the payment of certain accounts and claims for 1873, and Returning Officers for 1874, read in Committee of the Whole and passed.

The following accounts were ordered to be paid, viz.:

W. Darling, Postage and Stationery, $4.46; M. Hanson, abatement of taxes 1873, $0.88; Thos. Burke, advertising road, $3.75; Jas Morrison, as License Inspector, $10.

Mr. Jas. Morrison filed his Report as License Inspector.

Mr. Morrison made a Statement on behalf of Wm. Clapper, claiming that Clapper was assessed for a lot in which he had no interest, demanding the taxes, $3.10, to be refunded, and $1.50 as expenses.

Moved by Mr. Ritchie, seconded by Mr. Wigmore,—That Mr. Clapper's account of $4.60 be paid.

Moved in amendment by Mr. Smith, seconded, by Mr. Spence,—That the matter of Mr. Clapper's account be left over to next meeting of Council.—Amendment Carried.

Moved by Mr. Spence, seconded by Mr. Wigmore,—That the Collector receive an advance of $10, on his salary of $40 as Collector.—Carried.

Robt. Luky made application about taxes of '72 and '73 against south half of lot 25, 2nd con.

Moved by Mr. Spence, seconded by Mr. Smith,—That the sum of $6.12, arrears of taxes against south half of lot 25 in 2nd con., be remitted in case Mr. Luky is unable to collect it from the recent occupant thereof.—Carried.

Moved by Mr. Ritchie, seconded by Mr. Spence,—That all that part of a motion in Council, made the 11th Oct. last, relating to $8 chargeable against Road Division 2 be rescinded, as the amount has been settled by payment out of appropriation of 1873.—Carried.

Calvin Murray applied about arrears of taxes on lot 10, con. 8 claiming there should be none.

Moved by Mr. Wigmore, seconded by Mr. Ritchie,—That Calvin Murray be allowed to do work on the 9th line to the amount of $10, as part payment of taxes for 1873 and arrears, the work to be performed under the Committee to be appointed for his division for 1874, and that an order be issued for the amount, Mr. Murray being unable, through recent losses to pay his whole taxes.—Carried.

Council adjourned, the members elect to meet at the Town and Agricultural Hall, Warsaw, on the 19th inst.

Jan. 19th, 1874.

The members elect for A.D. 1874, convened at the Town and Agricultural Hall, Warsaw, at 11 o'clock, a.m., when Thos. G. Choate, Esq., as Reeve, and Messrs. Alexander Smith, Thos. Ritchie, Daniel Wigmore, and Archie E. Kidd, as Councillors, made and subscribed the Declarations of Qualification of Office before the Clerk, and organized as a Council.

Minutes of last meeting read and signed.

Moved by Mr. Kidd, seconded by Mr. Smith,—That E. Mallowne be appointed Auditor to audit Treasurer's Accounts of 1873.—Carried.

The Reeve nominated J. White, as Auditor.

Moved by Mr. Ritchie, seconded by Mr. Wigmore,—That the road work undertaken by Mr. Calvin Murray, to be performed on the 9th line, under motion of Council of Saturday last, be sanctioned.—Carried.

Moved by Mr Kidd, seconded by Smith, That the Auditors, in order to find the correct balance to be handed over to the new Treasurer, be requested to audit the accounts from 1st January inst, up to date of their audit, and report to this Council.—Carried.

A By-law to appoint Auditors, James Wasen, Assessor, and Enoil Rose, Township Treasurer, passed.

Moved by Mr. Smith, seconded by Mr. Wigmore,—That an order be paid by the Reeve to John Wasden for clearing out 3rd line, to be confirmed by Council, and charged to the money By-laws charged to Division 2.—Carried.

Moved by Mr. Smith, seconded by Mr. Wigmore, —That the Reeve be authorized to memorialize the Ontario Government for a grant to supplement the Council Grant of $1200, towards building a bridge at the narrows of Stoney Lake.—Carried.

Petitions from Jacob White and 16 others, asking Council to divide School Section No 4, read by the Reeve.

Moved by Mr. Wigmore, seconded by Mr. Ritchie,—That in the matter of the petitions of Jacob White and others, touching the division of School Section No 4, no action be taken by this council.

Moved in amendment by Mr. Kidd, seconded by Mr. Smith,—That the Reeve and Councillors be a Committee of the whole to report at next meeting of the Council, on the advisability of re-modelling the School Sections in the Township.

Amendment Carried.

Moved by Mr. Smith, seconded by Mr. Kidd,—That in the matter of the sect of Wm. Clapper no action be taken.—Carried.

Moved by Mr. Kidd, seconded by Mr Wigmore,—That the Reeve be instructed to accept as sureties for the Treasurer any two of the following names, Daniel Kidd, Charles Calder and Washington Reid, and to have the bonds executed by the time the accounts are audited.—Carried.

Moved by Mr. Wigmore, seconded by Mr. Smith,—That Mr. Ritchie be appointed to have a patent drum stove put up stairs in the old Town Hall, and have the room cleaned out by next meeting of the Council.—Carried.

Accounts ordered to be paid. To R. McFadden, house for election, $2. Edmund Long, Road Commissioner, one day, $1.50. P. Kennedy, repairing road scraper, $3. D. Kidd, wood for Hall, 50 cents. Robert Lukey, wood for hall, $2.75. William Scalgrove, dinners, $2.

Council adjourned to meet at the old Town Hall on Saturday, the 28th of February next.—COPY.

THE CANAL AND RAILWAY POLICY.

Writing immediately after the dissolution, we said it would not be right to assume that the new Government would let the elections pass over without a declaration of policy. The Premier seized the occasion of issuing an election address to his old constituents to make public the policy of his Government. We shall confine our observations to that part of it which relates to the great material interests of the country—the canal and railway policy. Beyond an assertion of the intention of the Government to fulfil the obligation come under when the Confederate union was formed, no information is given on the canal question. Though no time is named for the commencement of the work, the announcement that it will be vigorously set about seems to imply that no great delay need be expected to take place. For several years past the trade of the west has shown a marked tendency to fall into the St. Lawrence route; and it is important to encourage that tendency before any serious attempts are made in the States to carry into effect any of the various schemes devised for the purpose of arresting it; for if we develope the capacity of our great water-way to nearly its full extent, we may safely defy the rivalry of all artificial channels.

The Pacific Railway policy of the Government is in the main sound, and as such has been accepted by the country. One of its principal features lies in the postponement of the section that would pass over the rugged and difficult country north of Lakes Huron and Superior, the most expensive to construct, and at present the least needful. The north shore can be penetrated by means of the rivers with which it is interested, as far as the agriculturist, the miner, or the lumberer will need to go for some years to come. In the meantime, we are to utilize the navigation of these great inland seas in summer, and to reach Fort Garry in winter through the States, as we now reach the Atlantic seaboard. From the east we are promised a section of road connecting the mouth of French River with the south-eastern point of Lake Nipissing; and thence eastward another railroad is to be extended till it connects with railroads already in existence. We do not know, of course, on what information the practicability of a railroad south of Lake Nipissing is assumed. It is a point of contention; and the question is, whether there be in existence reliable evidence by which it can be settled. From the west end of Lake Superior a railroad is to be made to Fort Garry, and another from Cambina, both of which will be collateral branches of the main line, when the whole work is completed. When Fort Garry is reached progress is to be made towards the Rocky Mountains, at such rate of speed as the circumstances and the finances of the country may require. Work is to be commenced on the Pacific section at the same time as on the eastern sections. The section most urgently demanded is that from Pembina to Fort Garry. The next in order would naturally be the section from Lake Superior; and next after that, if it be not, as it probably will, be going on at the same time, the connection east of Lake Huron, from the mouth of French River. This road, as we understand it, is to be built by a private company, aided by a subsidy from the Government, either in land or money, or both. If land, the Government of Ontario will be required to make a grant. British Columbia will have to be asked, the Premier informs us, to extend the time—now only eight years—for completing the whole work. The request may be supported by the argument which the burning of the railway records at Ottawa supplies. When we once reach Fort Garry, the interior of the country can be penetrated, by navigating the Saskatchewan, to near the Rocky Mountains. Over the mountains we believe the building of a waggon road, as suggested, would be pure waste. Whenever we set to work to obtain the means of crossing the mountains, the railroad is the only instrument worth thinking of for this purpose.

When we have achieved what is here sketched out, we must remember that, with the exception of the Pembina road, we shall have only the means of summer communication. But we believe this action will suffice for enable us to throw populous settlements into the Valley of the Saskatchewan. The only difficulty will be in winter. Water carriage for produce is so much more economical than railroads that we count on its continuing to be used for long distances after the railroad has been completed.

Now that it is decided that the Government shall build the road, without employing the agency of a private company, some decided measures will have to be taken to prevent members of Parliament being interested in the contracts. Much noise has been made over the discovery that a member of Parliament was interested as a stockholder with one of the Halifax tenderers appointed by the late Government. If the possession of that interest would have been liable to influence the member in his vote on this question—and we always contended that the would be the effect—Sandfield Macdonald has been guilty; but made fair accounting the arrangement as if it were the Dominion branch of law. A sum of a high order of honor might have refused to put himself in the position condemned; but few many of the censors who are making a cheap display of virtue would have refused to take advantage of a like opportunity? As there will be no public money to be handled by the Local Government, the members of Parliament becoming interested in the contracts. Men have stood up in the Senate and the House of Commons and declared that if members of Parliament were not legally allowed to be stockholders, they would demand to the note of the smuggler and defy the law. That is no reason why the law should not be made a stern, but the laws charged to Division 2.—COPY.

Moved by Mr. Smith, seconded by Mr. Wigmore, —That the Reeve be authorized to memorialize the Ontario Government for a grant to supplement the Council Grant of $1200, towards building

STATE OF TRADE.

It is well understood that the degree of depression felt in trade, and which in some sections is a good deal complained of, is due, in a great measure, to the hitherto open character of the winter, and the consequent delay in reaching marked with produce. Stocks of produce in farmers' hands mean unpaid store bills, and that again implies the nonpayment of accounts with the importer, the renewal of notes at the bank, heavy demands for accommodation on all sides, and general inconvenience in business circles. Added to the adverse influence of this cause, is the general elections which have to a large extent, diverted attention from other matters. Both of these causes have, now ceased to operate. The turmoil of Thursday last ended the political struggle; and the severe frost and snow within the last ten days, have put the roads in good condition. Grain, pork, lumber, etc., may now be moved to market; and it would be little short of criminal folly to neglect the present favorable opportunity. Country merchants should bring the strongest pressure to bear on their customers; and they in turn should be spurred up to duty by the wholesale trade. Excuses are now out of order. A settlement should be required, and a general squaring off insisted upon. Fair prices are offered in the markets for every marketable commodity, and any 'holding back for higher figures' is a species of folly that ought not to be countenanced.

In this connection it is appropriate to suggest to country merchants the necessity in opening new accounts of drawing the reins of credit a little tighter. If insisting on the cash system is regarded as to rude a jerk-up for the feelings of their customers, let them go as far in the direction as possible. If every trader would become a missionary of sound views on the evils of credit, and the benifits of ready cash, we are convinced that numerous converts would be made. The present is no time for expansion. Within about five years the imports at Toronto have risen from about seven to more than fourteen millions of dollars, and what is true of this port is true in a degree of the whole country. In 1867-8, the total imports of the Dominion were $71,995,306, while in the year ended 30th June last, the total was $126,586,523. These figures show a rapid expansion in trade; whether more rapid than the general progress of the country is a question about which it would be useless dogmatize, but respecting which every one may form his own opinion. It must be apparent, however, that in the face of such facts further extensions of credit are are not to be thought of. The commercial safety of the Dominion lies within keeping credit within better limits; and we are convinced that trade has already been kept fully up to those limits for years past. A large consumption of foreign goods, it paid for, indicates growing wealth, and might afford cause for congratulation; but if represented by debts the reverse is true. *Monetary Times.*

LEGISLATURE OF QUEBEC.

THE PROROGATION.

THE SPEECH FROM THE THRONE.

QUEBEC, Jan. 28.

Mr. Speaker took the Chair at 11 o'clock, a. m.

The House attended the passage of bills in the Legislative Council, and took recess until about half-past one o'clock.

After recess

Mr. Speaker took the chair at half-past one o'clock

Several bills were reported as passed from the Legislative Assembly Chamber, was admitted by the Sergeant-at-Arms, armed with the Mace.

On approval of Mr. Speaker,

Black Rod intimated that His Honour, the Lieutenant-Governor desired the immediate attendance of Mr. Speaker and the members of the Legislative Assembly in the Chamber of the Legislative Council.

Whereupon Mr. Speaker and the Legislative Assembly proceeded to the Legislative Council Chamber.

There was a large assemblage in the Council, the Judges of the District occupying seats on the floor of the House. His Honour was seated on the throne, surrounded by a brilliant staff.

The Clerk of the Crown in Chancery then informed His Honour what bills had been passed by the Parliament; to all of which His Honour gave his assent.

After whie His Excellency, the Lieut. Governor was pleased to close the third session of the second Parliament of the Province of Quebec with the following

SPEECH:

Honorable Gentlemen of the Legislative Council: Gentlemen of the Legislative Assembly:

It is with great pleasure that I find myself in a position to bring your legislative labors to a close, and to allow you to return to your families to renew your ordinary vocations.

This session though comparatively short, has produced several important measures, which, upon being properly carried out, cannot fail to develope the resources of our Province, and to materially increase its prosperity and the well-being of its population.

This result, which is a cost of gratification to me, and upon which I congratulate you is due to the zeal and assiduity displayed by you in the fulfillment of your duties, and to the harmony generally prevading your deliberations.

Gentlemen of the Legislative Assembly.

I thank you, in the name of Her Majesty, for the supplies which you have voted, and shall I make it my duty and use my best endeavors that they be used with proper economy, and for the best interests of the Province.

Honorable Gentlemen of the Legislative Council: Gentlemen of the Legislative Assembly:

In bidding you farewell, and in tendering you my best wishes for your welfare I invite you to co contribute, in your respective localities, as much as lies in your power, both by word and example, towards aiding in the carrying out and good working of the new laws which you have just added to the Statute Book.

Elihu Burritt on Canada.

The "learned blacksmith," in writing to the *Christian Union*, speaks of the New Dominion as follows:—

At Portland one sees with some surprise how the British Dominion projects itself into the heart of this border state. Portland seemingly wears the livery of the flag—the rays and stripes and the British union Jack. In winter especially it is virtually a British port, substituted and almost monopolized by the Grand Trunk Railway. It is said of equal length in the world with that great international relations and functions as this great iron-shod thoroughfare. The magnificent Victoria Bridge at Montreal gives it a most important advantage over other lines that run into the Western States. It is doubtful if any other road can carry freight so far without breaking bulk. The premium upon it, therefore, for such transportation is almost prodigious. As an illustration of this a single fact will suffice. The day I passed through Portland there were "six hundred" car loads of freight waiting at that port for ships to convey it to Europe. In fact there was not room enough at the terminus for all those loaded cars, so that they had to be shunted at distance each in the country. Although the Allan line of steamers could carry over three hundred car loads per week, they could not pretend to keep pace in transportation with the immense number of vessels, or the capacity of the country to bring up to the front of its ever increasing freight.

The present is an interesting period in the history for a geographical and economical investigation of the Dominion. Its vast territory, its boundless resources, its rapidly increasing population, its political organization, its commercial relations, its financial condition, its future prospects, and its present position in the family of nations, are subjects of profound interest to the statesman, the political economist, the capitalist, the emigrant, and the general reader. Mr. Perry, Inspector of Public Schools in the Hamilton Times, which, under his good business management, became a paying concern and on Mr. Perry's death a few years ago he became sole proprietor. He was also a member of the Hamilton Board of Education, and was a warm and consistent supporter of Knox church.

THE ROYAL MARRIAGE.

The Marriage of the Duke of Edinburgh to the Grand Duchess Maria was solemnized last week. The day was observed as a holiday, and early in the morning salutes were fired and the streets were crowded with people. The festivities in celebration of the event were continued several days. The city was gaily decorated, and illuminated, Saturday and Sunday nights. On Monday a grand military review took place in front of the Winter Palace; the troops participating consisted of 41 Battalions of Infantry, 37 Squadrons of Cavalry, and an artillery force of 140 guns. The weather wrs delightful and the sleighing splendid.

FEARFUL EXPLOSION.

Stouffville, Jan. 30.

A melancholy accident occurred here at noon to-day, by which two men were killed instantly, and one fatally injured. While the large double-headed locomotive of the Nipissing railway was standing at the station, it exploded with terrific force, blowing one man 160 yards over a building, and killing him, and blowing another, named Wm. Carruthers, of Toronto, about sixty yards against another building, killing him instantly also. The poor fellow was sadly shattered, his legs and arms being broken, his side torn away, and the back part of his head shattered. The other man was fatally injured. We believe the other two men were residents of Toronto, but their names were not ascertained. The body of Carruthers was sent to Toronto on Saturday evening. He was acting as fireman on the engine, and he was only twenty years and six months old. It is said that the water was all right in the boiler at the time of the explosion, and that no cause is assigned for the accident.

DEATH OF A JOURNALIST.

Hamilton, Jan. 28.

Mr. C. E. Steward, proprietor of the Hamilton *Times*, died in Toronto very suddenly last night. He had been suffering for over a year with necrosis of the foot, which, for months, kept him confined to his room, and for months more prevented him from any active motion. His general health was necessarily injured by the long confinement, and his system liberated. A few weeks ago he was removed to Toronto. There an operation was performed, which, though it might have been successful in itself, was more than his weakened strength could endure. He sank rapidly, and died last night. Mr. Steward was born in the year 1837, in the township of Ops, near Barrie, in the county of Simcoe. About nearly ago he went to Brantford, where, by his energy, business ability and energy he soon became a partner with the late Mr. Hiram Range, in the Brantford *Expositor*, a leading Reform journal. In 1871 he disposed of his interest in the *Expositor* and became connected with Mr. Perry, formerly proprietor of the Hamilton *Times*, which, under his good business management, became a paying concern and on Mr. Perry's death a few years ago he became sole proprietor. He was also a member of the Hamilton Board of Education, and was a warm and consistent supporter of Knox church.

SUNRISE THE DAY THEREFORE.

Good people of this Riding,
Ye loyal men and true,
By the cause you have stood to-day
Must ever stand for you.
And the' conquered lately sitting sent the state,
Thrush for freedom, rights, and cheer again.

The "Charter sellers" routed,
And scattered far and wide,
And Canada once more
Holds up her head with pride.
Now hurrah, for Bonar who rallied on this plain,
Hurrah, for noble Bonar, cheer, and cheer again.

Our captain is victorious!
Let virtue crown her head
And shame her head upon the graves
Of the ignoble dead.
Every township fought to-day the cause of which we prized,
Demonstrate your demands a cheer, let's give it long an loud.

From north and east and the shanty
Comes with a mighty swell,
The long triumphant cheering
That sounds the Tory knell.
For Aspinall we'll not forget to give a hearty hurrah,
Hurrah for noble Aspinall, hurrah, hurrah, hurrah.

The "Charter sellers" been conquered
To meet the dreaded poll,
From east to west we've swept them
To where the corpses roll.

MORAL:

To coming voters of our land, this lesson we display
If Reformerships should tempt you, be guided by to-day.

Otonabee, Feb. 2, 1874. E

To the Editor of the Examiner.

Dear Sir—Will you allow me a small space in your valuable paper to say a few words about the Independent Brass Band.

I was agreeably disappointed on the evening of Thursday last when the good Reformers of the West Riding met in the Hinde Hall to do honor to Mr. Bertram on his glorious victory, I say I was agreeably disappointed to listen to such good music as the band discoursed that evening. Whether it was the great victory we gained which raised my spirits or not I will not say, but certainly I never heard such good music in the Hall before.

Your readers are aware that this Band has kept together through many difficulties and opposition.

Since Mr. Walker, their present leader joined, they have made wonderful progress and are a credit to this town, therefore the duty of the people is to sustain and encourage them as far as lies in their power.

Yours truly,

J. M.

GREAT BRITAIN.

It is impossible at present to conjecture what will be the numerical strength of the two great parties in the next British Parliament. The Government has lost its head on some important constituencies, while others represented in the last House by Conservatives have in this contest returned candidates pledged to support the Ministry. Among recent Liberal gains was Dreitwich, where Mr. Corbett has defeated Sir John Pakington, for several years its member; Westbury has also returned a Liberal. Warrington, Cheltenham, one of the two Greenwich seats, Knaresborough, Peterfield, Scarborough, Winchester, and one of the two Lincoln seats, are numbered among the Conservative gains. The Right Hon. Messrs. Gladstone, Lowe, Childers, Vernon, Harcourt, and E. Cardwell have been returned. Bribery is said to have been extensively employed in Whitefield. Mr. Hughes, yielding to the advice of prominent Liberals, has withdrawn from the contest in Marylebone, and thus prevented a split. Rioting is reported from all parts of the Kingdom; in Tiddcoln the military had to be called out, and the authorities at Dudley had to telegraph for assistance in quelling the disturbances. Similar outbreaks occurred at Nottingham, Greenwich, and Wolverhampton, as well as in the metropolis.

ELECTION ROWDYISM.—It seems as if Canada was in a position to give the old country a lesson in maintaining order and decorum through the exciting campaign of a general election. With the exception of some disturbance at Toronto, which was suppressed by the police, and the reported throwing some snow-balls at Sir John Macdonald as he paraded the streets of Kingston in triumph, nothing of a disorderly nature has been reported so far, which, considering the excitement, shows that the country has been wonderfully peaceful. In England, on the other hand, we hear and day of Odgers followers breaking up and dispersing by force a meeting of Conservatives who merely exercising a constitutional right, while the conservative candidate at Abingdon has been stoned. On Friday Mr. Ayston's meeting at the Mewer Hamlets was interupted by fighting among the audience, while at Greenwich a Conservative meeting were attacked and the speakers compelled to stop. In this last named borough also extraordinary precautions were to be taken to prevent apprehended disorder at Mr. Gladcone's meeting on Saturday, such as closing the thoroughfares one hour beforehand and [illegible] the soldiers to barracks; but so far as appears no disorder appeared. A disorderly meeting is also reported at Deptford. Apparently there still remains in British election contests a great deal of the Batmarsill tactics graphically described by Dickens. Witness.

LATEST FROM OTTAWA.

The following verdict was rendered this afternoon by the jury in the fire investigation.—"The jury are of opinion from the evidence before them, that the fire which occurred on the night of the 16th of January, in the building occupied as the offices of the Intercolonial and Pacific Railways was occasioned by some means unknown to this jury. The following facts are prominent features in the evidence viz—That the fire in the grate in the room occupied by Messrs Carre, Sherwin, and Ferrett, and designated as room No 8 on a plan submitted by Mr. Fleming, Chief Engineer was quite low, in fact almost out and it does not clearly appear that a fire could originat from that grate although the fire occured in that room; that the supervision of the building, which contained very valuable documents, was altogether defective in fact, the evidence proves that no such means to have supervision and that there was no provision against fire; that it was quite possible for an incendiary to have designed access for the purpose of carrying out his nefarious design, and that this jury are fully convinced that the Department of Public Works is deserving of censure for culpable negligence; that in the opinion of this jury, from the evidence before us, all the public buildings within our knowledge in the city are in the same dangerous condition; that evidence has been given showing an improper use of the space in the departmental buildings for purposes foreign to the original intention for which the building were constructed, and also in reference to the entire absence of safe-exits, resulting in ashen buckets constantly thrown about to the great danger of fire; and this jury recommend that all the public buildings on Parliament Square be placed under one supervision, and that the party in charge be held responsible for fires occurring therein."

AGRICULTURAL ASSOCIATION OF ONTARIO.

The Dairymen's Association of Ontario, will hold their Annual Convention in the new Town Hall, Belleville, on Wednesday and Thursday, the 11th and 12th of February, 1874.

Professor Bell, of Albert College, will deliver the Annual Address, followed by the Hon. X. A. Willard, M. A., President of the New York State Dairymen's Association, Little Falls, N. Y., and Professor L. B. Arnold, Secretary of the American Dairymen's Association, Rochester, N. Y.

During the Session the following questions will be discussed:

1st. Cause and Prevention of Floating Curds.

2nd. Best methods of handling Milk at the Farm and House, and hauling to the Factory.

3rd. To what extent is it desirable to color Cheese, and what Annatto is best.

4th. Best methods of Marketing Cheese.

5th. Best method of Curing Cheese, construction and Temperature of Curing Rooms and frequency of Turning.

6th. Question Drawer.

Arrangements have been made with the leading Railways to secure return Tickets at reduced rates. Parties wishing to take advantage of the reduced rates must write in time to the Secretary, J. C. Hegler, Ingersoll, who will forward Certificates, which will have to be presented to the Railroad Ticket Agent at the commencement of the journey.

The hearty co-operation of all Dairymen is respectfully solicited.

J. C. HEGLER,
Secretary.

IMPERIAL PARLIAMENT DISSOLVED.

London, Jan. 24.

Parliament is dissolved by Royal decree. Mr. Gladstone has issued an address to his constituents at Greenwich, asking for re-election, announcing that the Queen has been pleased to accept the advice of her Minister and to dissolve the present Parliament immediately, and summon a new one to meet on the 5th day of March, 1874. In his address Mr. Gladstone gives as a reason of this measure, that since the defeat of the Government upon the Irish Higher Education question by the concurrent effort of the leader of the Opposition and the Catholic prelacy in Ireland, the Government has not been possessed of sufficient authority to carry out great legislative measures; its experience during the recess of Parliament has not indicated that any improvement in its position was probable, the chief of the Opposition having refused to accept office on the defeat of the Government. The Cabinet feeling that they have not that support which every Ministry ought to enjoy, an appeal to the people in the proper remedy for such a state of things. The advantage of dissolution at this present moment is, that the estimates are so far advanced that the Government is able to promise a surplus of £5,000,000 sterling, with which intends to abolish the income tax, and to relieve local taxation. Among matters likely to come before Parliament are the readjustment of the Educational Act, the improvement of Local Government, and of the Land, Game, and Liquor Laws. The address promises a large measure of relief from duties on articles entering into general consumption, and expresses hope for the speedy assimilation of the country with the borough franchise.

The *Times* commenting on the address of Mr. Gladstone announcing the dissolution of the Parliament says that document reflects the characteristics of the genius of its author. The *Times* also doubts the wisdom of the repeal of the Income tax promised by the Premier. The *Post* says the address almost amounts to a *coup d' etat*. The *Standard* is confident of a Conservative majority in the elections, and severely condemns the suddenness of the announcement of dissolution. All the journals agree upon the popularity of the financial measures promised in the address.

DEATH OF DR. LIVINGSTONE.

London, Jan. 26.

Intelligence has just been received here of the death of Dr. Livingstone in the interior of Africa. He died of dysentery, while travelling from Lake Bemba to Unyanyembe. His body has been embalmed, and is being conveyed to England by way of Zanzibar.

Herr Brenneer, the German explorer of Gotha, dated Zanzibar says:—Livingstone died on the 25th of August. The date differs from that of a previous report, but all doubts have been set at rest by an official despatch received by the Government to-day from Bombay, which states the circumstances. Dr. Livingstone died in Tanganyika, reaching the marshes, with the water at one times for three hours consecutively, above the Coast. The sufferings of his whole party were terrible, and of them killed in consequence. The members of Cameron's expedition were suffering from fever and opthalmia, but would await the arrival of the Doctor's remains, and bringing them to Ujiji; from the latter place they would be conveyed to Zanzibar where it is expected they will arrive next month.

IN MEMORIAM.

Lines written in memory of Mrs. Donald Cameron, who died on the 8th of August, 1873.

For the Peterborough Examiner.

[illegible]

GLORIOUS VICTORY.

The Peterborough Outrage Avenged.

MR. BERTRAM ELECTED BY A MAJORITY OF 91.

The Charter Sellers Routed.

Thursday was a great day in West Peterborough. The storm were closed by general consent. The whole day was devoted by both parties to the intent of securing the election. The friends of Mr. Bertram were confident from the very first that right and victory were on their side. Mr. Scott's friends were energetic—although, evidently, not hopeful—until about eleven o'clock, when their hopes and energy showed signs of falling off. At twelve o'clock Mr. Bertram was ahead all over the town, with good news from the townships. At one o'clock Mr. Scott was two ahead, and by two o'clock this had increased to six. The scale immediately began to turn and by three o'clock they were about tied in town, with news from all the polling places showing Mr. Bertram largely ahead all over the Riding. Very little change took place till the close of the poll, when it was found that Mr. Bertram had a majority of One in town. This was unexpected by the Charter Sellers, they confidently boasted of having a majority of sixty in the town alone, and one hundred from Ennismore but were doomed to disappointment.

During the evening the greatest enthusiasm prevailed around Mr. Bertram's committee rooms. Crowds were assembled there waiting returns, who on every fresh intimation of victory cheered lustily. The greatest good nature prevailed everywhere.

The following is the state of the polls at the close.

	BERTRAM	SCOTT
Ward No 1, Scott's office	36	51
Ward No 1, Shaw's office	21	45
Ward No 2, Council Chamber	58	96

Ennismore		16
North Monaghan	1	
South Monaghan		16
	215	124
	124	

Majority for Bertram ... 91

When this became known the cheers were deafening.

Mr. Cox, Chairman of the central committee, then announced that there would be a public meeting held in the Music Hall at 7:30.

THE MEETING IN THE MUSIC HALL

Beggars all description. The hall was crowded as is never had been before; there was not even standing room. The The Independant Band was present, and also the Scotch Bag Pipes. On the platform were Mr. Bertram and Messrs. Donoble, Walton, W. Hall, J. Moloney, W. Tierney, James Harty, G.T. Leonard, Bleecker, J. B. Dixon, A. Rutherford, Ed. Kerr, J. W. McBain, H. Cochrane, M. Sanderson, A. Smith, T. G. Hazlitt. Mr. Cox ably filled the chair.

Mr. Bertram oddressed the large audience in a telling speech. After he had spoken, the other gentlemen on the platform congratulated Mr. Bertram on his victory, and the electors on the success standing the day. Between the speeches, the Band and Bag Pipes enlivened the whole with appropriate airs. Mr. Gallesly being loudly called for, sang in his humorous style, "The Laird o' Cook pen." Mr. Quincy following, sang "I love to sing my country's song." Dr. Hodge, Mr. Hall and Mr. Galvin of Lakefield, spoke, from their standing places as they could not get near the platform through the mass of people.

The people were so pleased with their victory they could scarcely be separated.

The committee of Smith then sent in a request to have a formal parade on Saturday in honor of the triump, but Mr. Bertram's engagement caused the demonstration to be postponed till further notice.

The Result

We have met the enemy, and they are routed. Eighty-three constituences in Ontario have made their choice, and of these we have returns from seventy-seven. Six remain to be heard from—Halton, North Wellington, Centre Wellington, East North, Lanark, and South Leeds. Of the five which have not yet made their choice are North Huron, South Huron, East Peterborough, Muskoka, and Algoma. Of the seventy-seven of which returns have been received, the Ministry have carried sixty-one, the Opposition fourteen, and there are two Independents. If we give the Opposition all the remaining [illegible] they have but [illegible] and the Government eighty-eight but we apprehend that a Majority of these will fall to the Government.

From the Province of Quebec we have forty returns. Of these, the Administration have carried thirty, the Opposition eight, and there are two Independents.

There are ten returns from New Brunswick. Of these the Administration have carried nine, and the Opposition one.

There are five returns for Nova Scotia, all of which belong to the Administration.

There are two returns from Prince Edward Island, both of them Ministerial.

Of the two hundred and six members of the House of Commons, one hundred and thirty-four have been elected. Of these, the Administration have one hundred and seven—a clear majority of the whole House, and a present majority over the opposition of eighty-four. It is not probable that the same proportions will be maintained to the close, but it is a very moderate estimate indeed that the present majority of between eighty and ninety will be attained on a test vote at the opening of Parliament.

There has been great slaughter among the more prominent supporters of Sir John A. Macdonald. Mr. O'Connor, one of his late colleagues, has been defeated by a large majority in Essex; Mr. Carling has been rejected by London for the first time by a majority of sixty-five; Mr. T. N. Gibbs, also a colleague, has been rejected by South Ontario; and Mr. W. H. Gibbs, his brother, has lost his seat in North Ontario. Mr. Cockburn, the late Speaker, has been defeated by Mr. Kerr by a large majority. Sir John A. Macdonald, with a majority of thirty-six, and Mr. John Hillyard Cameron, with thirty-one, are about the only prominent men left in the ranks of the corruptionists. The Reformers have carried, after a most ardnous struggle, the three seats in Toronto, and the two seats in the city of Hamilton have gone Reform by very large majorities. The "ambitious city" has certainly been nobly redeemed. The capital of the Dominion has returned a Reformer, De St. Jean; and although the melancholy death of Mr. Lewis has deprived the Government of another firm supporter, Mr. Currier, the re-elected member, is a "fair trial" man, and will probably fall into the ranks. The neighbouring county of Russell has been carried by Mr. Blackburn, defeating Dr. grant, who made a remarkable wheel in the matter of the Pacific Scandal. The following seats have been redeemed by Reformers:—Essex, Hamilton, (two), West Hastings, Lincoln, London; South Norfolk, East Northumberland, West Northumberland, South Ontario, North Ontario, Ottawa, (one), South Renfrew Russell, East Toronto, West Toronto, North Victoria, and North Hork. Against these gains we have to place the loss of North Renfrew and Monck. Mr. McCallum has, by force of money, defeated Mr Edgar by a majority of twenty-five; but we apprehend that Mr. Edger, should he desire it, will very soon obtain a seat in the House. —*Globe.*

THE SNOWDON IRON MINE.

We understand that the proprietors of the Snowdon Iron Mine, encouraged by the very favorable reports of the Scientific men who have investigated the prospects of the Mine and analysed the ore, have decided to push the enterprise vigorously and that arrangements are now being made to form a Joint Stock Company with a view to raising sufficient capital to fully develop the property. It is proposed, in the first instance, to build a cold blast furnace of sufficient capacity to smelt ten tons of iron per day, and to erect all the necessary works for carrying on a smelting operation to that extent These works, and the furnace, would cost about thirty thousand dollars. It is, of course, intended to use charcoal for fuel, and this can, no doubt, be obtained in the required quantities from the settlers in the vicinity. The total production of the furnace may be estimated at between 3,000 and 4,000 tons of pig iron per annum, and it is calculated that it could be delivered on a Lake Port on Ontario for $20 per ton, the market value at present prices being about $25. The transport of the iron is one of the difficulties, but it is not as we understand the matter, proposed to take any action in this direction, at present. The Port Perry Railway Company, we are informed, have undertaken to carry either iron or ore from Bobcaygeon to Whitby for $1 per ton, and the Nipissing Railway Company have intimated that they could carry it from the mine to Toronto for $2 per ton upon their line being extended from Coboconk into Snowdon. Until other means of transport are available the produce of the furnace will be conveyed by teams either to Coboconk or Bobcaygeon, but it is obvious that immediately the fact is established that the furnace can be worked at a remunerative profit a railway to the mine will be soon constructed.

A comparison of the ore with that from other places is exceedingly gratifying, showing that the ore is probably the richest and the most free from deleterious substances of any yet discovered in Canada. The advantages of the locality are also great, the situation of the mine being such that the ore can be run on trucks to the mouth of the furnace without any elevating power being required.

It is noticeable that the ores of Marquette on Lake Superion, though not so good as that from the Campbell mine, resemble it in some particulars, and those ores are conveyed in large quantities to the smelting establishments on Lake Ontario and Erie, a distance of 1,500 miles, and even then give a fair profit. Considerable quantities of iron ore are smelted at Marquette by charcoal, and wood in the locality is comparatively scarce, one acre in Snowdon yielding as much as six in Marquette.

It is probable, then, there will be a large export of ore to the States from the Snowdon mine, quite independent of what may be smelted on the spot, the ore being saleable to mix with the poorer American ores and improving the quality of the produced.

The Joint Stock Company that it is proposed to form will probably be brought out with a capital of $300,000 will be made to a sufficient extent to build the necessary furnaces and works, and to give the capital required to carry on the business. On the operations proving successful the extent will be increased to such a point as may be deemed advisable. We hear that a Directory is now being formed and we hope and believe that the shares will be taken up in a liberal spirit by all those who are really confident to add the Mineral Wealth of Canada developed and the country itself progress in prosperity.

Auction Sale of Oil Paintings and Chromos.

It will be seen by reference to an advertisement in another column that there is to be an Auction Sale of Oil Paintings, Chromos, &c., on Saturday next. This will afford a good opportunity for our citizens to possess themselves with valuable ornaments for their dwellings at a very moderate expense.

When A. B Mattoon was brought into court on Saturday morning at Galveston, Texas, on trial for murdering J. Ferguson, the latter got quietly close up between the railing and table and presenting a pistol to the prisoner's head, and killed him instantly. Ferguson was arrested.

Sorry for them.

The defeat of the Liberal Conservative party of Union and Progress in the Riding is enough to excite the friends of good government to rejoice. We will not forget however, that the defeat—not glorying in it—satisfies us. We can afford to pass the matter over, without dueling, and to return to our usual avocations with cheerfulness, and at the same time allow our opponents to rest in peace. Their defeat is as much as they can bear at once. We will wish them more quietude than they have enjoyed during the past few weeks, and fondly hope that no word will drop from us to increase any feeling that may have originated during the heat of the contest.

The Result.

The contest so far has been most satisfactory, as will be seen by reference to another column. The victory for Reform is complete. The Supporters of John A. have found hardly a resting place for the soles of their feet. The people of the Dominion have vindicated their character by condemning the men who were guilty of selling the charter for money to corrupt the people. John A. has narrowly escaped defeat by means that will likely unnest him. The man, who, to the most unheard of extent, has used undue influence to maintain his position, is about to fall into the pit he has made for himself. A few men who ally themselves with the Great Liberal Conservative party have been elected but too few of them to make more than a show of opposition. That there should be a healthy opposition no one will gainsay, but they should be men untainted suspicion in regard to their political associations. We cannot in this issue give comparison of results of this with former contests. There is no doubt of the great gain to the Reform ranks. The most remarkable feature in this election is the change manifested by a majority for Mr. Bertram in the town of Peterborough. This is enough to convince us that the people are not blind to any immorality in their representatives, and that they will not support men whose principles are no higher than office or calculated to demoralize the electors.

Auction Sale.

To be sold by Public Auction on

Thursday, February 5th,

At BRADBURN'S NEW STORE, opposite Mathias & Reid's Bookstore, GEORGE STREET, a large and valuable collection of

WORKS OF ART

COMPRISING

Oil Paintings, Oil Chromos,

Together with

Elaborate Gold Leaf Frames,

The same being copies of the

Louvre, Dusseldorf and other European Galleries.

The whole collection will be

On Exhibition

On Saturday, Monday, Tuesday, Wednesday and Thursday morning, and will positively be

SOLD WITHOUT RESERVE!

On THURSDAY, 5th FEBRUARY, at 3 P. M.

This is a rare chance for connoisseurs being the finest collection ever brought into the Dominion. Ladies specially invited.

On TUESDAY the third day of FEBRUARY next, at One o'Clock, P.M., "The Trustees of the Bible Christian Church, Meeting House or Chapel, Parsonage Ground, and Minister's Residence in the Township of Dummer," will offer for sale by PUBLIC AUCTION at CALEDON HOTEL, in the Town of Peterborough, All that certain parcel or tract of land situated in the Township of Dummer, in the County of Peterborough and Province of Ontario, containing by admeasurement TWO ACRES, more or less, which said parcel or tract of land is bounded and described and more particularly described as follows, that is to say: Commencing at the south west angle of Lot No. 17 in the 2nd Con. of the aforesaid Township of Dummer, [illegible] thence [illegible] north, [illegible] chains [illegible] thence [illegible] chains [illegible] thence [illegible] chains [illegible] thence [illegible] chains more or less to the place of beginning.

TERMS AND CONDITIONS OF SALE.

No person shall advance less than $10 at any bidding and no person to retract his bidding. The highest bidder shall be the purchaser, and if any dispute arise as to the last or highest bidder the property shall be put up at a former bidding.

The Trustees are to be at liberty to bid in the land if in their judgment an adequate price be not offered for it.

The purchaser shall at the time of sale pay down a deposit of $[illegible] and shall pay the remainder of the purchase money with interest thereon, from the [illegible] day of [illegible] A. D. 1874, and the purchaser to secure the payment of such remainder by a [illegible] on the premises, or on some part thereof, on the 1st day of May A. D. 1874, and the purchaser to secure the payment of such remainder by a mortgage on the premises, and on giving such mortgage the purchaser shall be let into possession for the completion of the purchase.

If the purchaser fails to comply with the conditions aforesaid or any of them the deposit and all other payments made thereon shall be forfeited and the property may be resold, and the deficiency, if any, on such resale, together with all charges attending such resale, shall be made good by the defaulter.

Any further information regarding the sale may be had on application to Geo. Jackson, Esq., at his law office in Peterborough.

Dated this 1st January 1874. By order of the Trustees.

GEO. JACKSON, GEO. PAYNE,
Trustees.

January 1st, 1874. 2-3ins.

The above Sale is postponed till the 10th of February, at the same hour and place.

LOST!

A SEAL FUR CAPE, with [illegible] and [illegible] on the [illegible] of the Town [illegible] Monday [illegible] Finder will be rewarded on leaving the same at this office or at [illegible]

Official Report, Vienna Exposition, Sewing Machines, &c.

(PAGE 13, SEC. 8 a.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 300,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is so regulated that each completed machine may be used as a sample for exhibition. This firm produces 600 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This convenient machine sews the heaviest leather harness and the finest gauze with a truly great stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows :—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

Peterborough, September 2nd, 1873.

VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonic complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation as its wonderful cures have become known, its manifest character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous pulmonic complications. As a preventive [illegible] of croup, it should be kept on hand by every family. [illegible] and should be used as soon as the first symptoms of the disease appear. [illegible] and hoarseness, and often wholly [illegible] by taking the Cherry Pectoral [illegible] Sold by Druggists everywhere.

CANADA: } In the County Court of
Province of Ontario, } the County of Peterboro'.
County of Peterborough, }

TO WIT:

In the matter of WILLIAM J. LARMOUR, an *Insolvent*

On the Tenth day of the month of MARCH next, the undersigned will apply to the Judge of the said Court for a discharge under the said Act.

W. J. LARMOUR,

by J. B. DIXON,

his Attorney ad Litem

Dated February, 2nd 1874. 6-6tw.

TUBERCULAR CONSUMPTION. My health has been declining since 1857; during the whole time I was unable to do any work. In February, 1873 I was taken with a dreadful cough The amount I raised in twenty-four hours was incredible to tell. The doctors only gave temporary relief. I was advised to use Fellows, Compound Syrup of hypophosphites. I commenced using them freely, and I can say, with a clear conscience, it has effected wonders. I am now able to work, which for eleven years I was incapable of

Hammond river N. B. JAMES JOHNSTON

"Fellows, Hypophosphite" must not be confounded with other preparations of Hypophosphite. It differs from all others.

A Beautiful Horse. There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition Powders and Arabian Heave Remedy" it has been used by many persons who own valuable carriage and other horses with decided success, and so pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada Sold by all medicine dealers.

POND'S EXTRACT. It has passed on its own merits, from obscurity to a world renowned popularity.

For over twenty years "Bryan's Pulmonic Wafers" have maintained their reputation for curing coughs, colds, and pulmonary diseases. Those suffering or threatened with any of the symptoms of bronchitis, or any of the pulmonary complaints, should at once give them a trial. They give almost immediate relief, and if taken in time generall effect a cure. Remember that a common cold or cough if not attended to in time, often leads to that distressing and fatal disease—Consumption. Sold by all druggists and country dealers. Price 25 cents per box.

Useful Information.—It is said that olive oil administered internally is an excellent remedy for the gout, and is also beneficial in paralysis and epilepsy; but for the cure of rheumatism, neuralgia, colds and colic, and the removal of pains generally, there is nothing like the Canadian Pain Destroyer," it is the most reliable remedy. For sale by Druggists and country dealers. Price 25 cents per bottle.

We noticed in one of our exchanges this week the statement of Dea. John Hodgkins, of South Jefferson, Me., whose son was cured of incipient consumption by the use of Jones's Kanga-roo Liniment. We refer to this at the time as tending to corroborate the statement we made last week in relation to this Liniment as applied to consumption.

Right and Wrong.—It is wrong to jest with your wife upon a subject in which there is danger of wounding her feelings, and it is wrong to speak of great virtues in another man's wife, to remind your own of fault; but it is not wrong after trying the "Canadia Pain Destroyer" and feeling its wonderful effects, to recommend it to your neighbors, for the cure of rheumatism, neuralgia, cramps, cholera, &c., it has no equal. For sale by Druggists and country dealers. Price 25 cents per bottle.

VOL. XIX. PETERBOROUGH, THURSDAY FEBRUARY 12 1874. NO. 7

$1.50 PER ANNUM, IF PAID IN ADVANCE] "Prove all things—Hold fast that which is good." [$2.00 PER ANNUM, IF NOT PAID IN ADVANCE.

DISSOLUTION!

The partnership heretofore existing between the undersigned, under the name and style of

T. Donnelly & Co.,

in the Town of Peterborough, is this day dissolved by mutual consent, T. Donelly having disposed of his entire interest in the business to

Messrs. SHORTLY & HASLEHURST

who assume all Liabilities of the late firm, and will collect all debts due the same.

THOS. DONNELLY,
BENJAMIN SHORTLY.

Peterborough, February 5th, 1874.

I take this opportunity of thanking those who so kindly extended me their patronage during the past sixteen years, and would bespeak a continuance of the same to my successors, Messrs. Shortly & Haslehurst.

T. DONNELLY.

With reference to the above the undersigned beg leave to state that they will carry on the business in all its branches as formerly, and use all their endeavors to merit a share of the public patronage.

SPECIAL INDUCEMENTS given to those wishing to purchase during this and the following month, as we wish to clean out the stock to make room for Spring purchases.

SHORTLY & HASLEHURST,

P. S.—All Accounts by Book or Note due the late firm, must be paid at once to save costs. S. & H.

PRIVATE BILLS.

PARTIES intending to make application to Parliament for Private Bills, either for granting executive privileges, or conferring corporate powers for commercial or other purposes of profit, or for doing anything tending to affect the rights or property of other parties, are hereby notified that they are required by the rules of the two Houses of Parliament (which are published in full in the Canada *Gazette*) to give TWO MONTH'S NOTICE of the application (clearly and distinctly specifying its nature and object) in the Canada *Gazette*, and also in a newspaper published in the County or Union of Counties affected, sending copies of the papers containing the first and last of such notices to the Private Bill office of each House.

All Petitions for Private Bills must be presented within the first three weeks of the Session.

ROBERT LEMOINE,
Clerk of the Senate.

ALFRED PATRICK,
Clerk of House of Commons

December 24, 1873 52-tf

NOTICE

IS HEREBY GIVEN that an application will be made to the ensuing Session of the Legislature of Ontario for an Act to incorporate the Peterborough Gas Company, and for other purposes.

Dated at Peterborough this 29th day of November 1873.

DUMBLE & BLEECKER,
Solicitors.

49-tf

By-Law No.—

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls.

WHEREAS the Corporation of the Town of Peterborough have resolved to grant aid by way of bonus to the Cobourg, Peterboro and Marmora Railway and Mining Company, to assist them in extending their Railway northward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars upon the terms and conditions hereinafter mentioned.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such By-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extention of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2. That the said Debentures shall be made payable in twenty years at furthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debentures shall bear interest at the rate of six per cent. per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg, Peterborough and Marmora Railway and Mining Company or to whomsoever they may appoint to receive the same in the manner at the times and subject to the conditions hereafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Cobourg to the Village of Bobcaygeon provided that it be so completed and in running order by the First day of January one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, providing it be so completed and in running order by the First day of January, one thousand eight hundred and seventy-seven. Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned, But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall not become payable as provided by this By-Law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough obliging the said Company in a penalty of the sum of ten thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be commenced, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable to comply with the same—that is to say.

(1) That the said Railway Company shall run or cause to be ran at least one train a day —a regular freight and passenger train—each way between Cobourg and the northern terminus for the time being, of the said Railway.

(2) That a solid embankment and bridge shall be constructed over the Rice Lake with in a period of five years from the passing of this By-law according to the plans of Walter Shanley, Esq., Civil Engineer.

(3) That the said Company shall not nor will amalgamate with or enter into any arrangements with any rival company whereby a tariff shall be agreed to be mutually charged by both companies or for the apportioning of trade between them.

(4) That a regular Passenger and Freight Station of the said Railway shall be maintained in the Town of Peterborough,

(5) That the Mayor of the Town of Peterborough for the time being shall always be made a Director of said Company.

(6) That the tariff of the said Railway shall not in any case exceed the ordinary current tariff of the Midland Railway for the year 1871 and that the said tariff shall include a rate for the carriage of raw material from the front by the car load to Peterborough for the purpose of manufacture, twenty-five per cent. lower than the ordinary tariff.

(7) That the line of the said Railway shall touch Chemong Lake at some point navigable for steam and other vessels, and that the Company shall provide and maintain ample harbour and station accommodations for forwarding lumber where the said line may so touch Chemong Lake.

(8) That none of the said Debentures shall be so delivered or deliverable until a good and sufficient release to the Town of Peterborough of and from all liability under the By-law granting the sum of $40,000 to the Peterboro and Haliburton Railway Company shall have been given to the said Town.

(9) The said Company shall never charge less for the conveyance of goods or passenger from any point south of Peterborough to any point north of Peterborough than from any such point south of Peterborough to Peterborough nor shall they ever charge less from any point north of Peterborough to any point south of Peterborough than from any such point north of Peterborough to Peterborough.

(10) In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to touch Chemong Lake on that side thereof next the Town of Peterborough.

7. That unless work on the extension of such proposed Railway from Chemong Lake northward be actually and bona fide commenced and thereafter continuously proceeded with on or before the the first day of January, one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this By-law, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end.

8. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the tenth day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the wards of the Town, at the places of polling therein respectively at the last Municipal elections, that the poll shall be opened at nine o'clock in the forenoon and closed at five o'clock in the forenoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jas Edwards for the Second Ward, Jno. Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By-law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The 10th day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein at the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward after taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough Examiner newspaper the date of which first publication was on Thursday, the Twelfth day of February, one thousand eight hundred eight hundred and seventy-four.

TO OUR READERS.

The difficulty of getting paper of the right size this week compels us to issue a half sheet, which, we trust, our readers will excuse for once.

South Victoria.

The Fenelon Falls *Gazette* says: "It is reported that Mr. McQuade is about to resign his seat as M.P. in order to find a resting place for Mr. John Carling, of London. It may be true, but Mr. Carling would find it easier to get Mr. McQuade out of the way than to get the electors to follow him.

Alleged Plagiarism.

The Bobcaygeon *Independent*, or rather we should say, the editor thereof, is a peculiar member of the fraternity of the "Black militia of the pen." We have often pardoned his peculiarities, and are still inclined to do so. It is more than difficult, however, to get rid of idiosyncracies, it is impossible, as our confrere of the *Independent* will admit. During the last two weeks the foreman in this office was left to himself largely, in the heat of the election contest, and finding himself without copy he clipped a piece to fill in with. This piece the *Independent* claims as the product of his fancy at some time. Perhaps it was, well we did not use it as editorial matter, merely to stuff a nook with in a storm. Will our dear friend always give us credit for what he copies from the *Examiner*. For our part we don't care. If he thinks scraps from the *Examiner* good mental pabulum for *Independent* readers he is welcome to use them, as he has been doing. And in return he should not complain if, by mistake, we should clip from the *Independent*.

Lakefield.

The people of Lakefield are petitioning the County Council to be incorporated.

Cheap Store.

Messrs. Macdonald & Elder are selling goods cheaper—cheaper, they tell us, than any house in town. Intending purchasers would do well to call and examine the goods and learn their prices. Money saved is money earned.

James Fowlds, Esq.,

Reeve of Percy, is Warden of Northumberland and Durham this year.

Newfoundland.

A dispatch received from Newfoundland states that the Bennett Government has been defeated. Mr. Carter, who is favorable to union with Canada, has been called upon to form a new Government.

Belmont

The Reeve of Belmont and Methuen, P. Pearse, Esq., has called a meeting of the ratepayers of his Township to consider the best method of disposing of their proportion of the Municipal Loan Fund.

Orange Social.

The members of L.O.L. No. 49 would call the attention of their brother Orangemen and friend to a Social which they intend holding on Friday evening the 13th inst, in the Good Templars' Hall. A good evening's entertainment will be provided, consisting of speeches, readings, songs, music and refreshments. Brothers and other gentlemen from a distance will address the meeting, and a regular social evening may be expected. Admission only 25 cents.

Church Anniversary.

The Anniversary services of the George Street W. M Church will (D.V.) be preached on Sunday next, the 22nd inst., by the Rev. Thos. W. Jeffrey, of Toronto. Mr. Jeffery is highly spoken of as a very able and original preacher, and we are assured that those who do not hear him will miss a treat. Collections will be made on behalf of the Trust Fund both morning and evening. A Socie and Literary Entertainment is announced for Monday, the 23rd inst. Mr. Jeffrey will deliver an address. Choice singing will add not a little to the interest of the gathering. Refreshments, consisting of oysters, &c., will be furnished at reasonable rates during the evening. Tickets of admission 25 cents

The Conservatives

Of the West Riding are quite unanxy over a rumor of their own that T. M. Fairbairn, Esq., M.P.P., had tendered his resignation, or is about to do so. They may possess their souls in patience. He intends nothing of the kind. It is with much pleasure that we hear of the improvement of his health. He is now on leave of absence from the House, and is rapidly gaining strength. He will not resign till the end of the Parliament, unless some change takes place not at present anticipated. They need not worry themselves yet awhile

Personal.

Our Bobcaygeon contributor has quite deserved the thanks of Mr. Collins, Reeve of North Monaghan, on the opening of the County Council. He pointed out that their approach to the town, in consequence of their Railway not having been completed to the town, was in a most disgraceful condition, and that the Council should take steps to have the matter remedied. Mr. Collins promised that the matter should receive the attention of the Council.

Mr. R. B. Wardle Majority

In West Durham was 926. Newcastle and Cartwright gave small satisfaction against him. Darlington and Clark large majorities for him.

Mr. Bowes's Majority

In East Northumberland was 165.

The Cobourg Sentinel's

Composure of mind has been disturbed by the result of the elections. He says money, money did it. It certainly is amusing to hear this cant about money in the mouths of those who were most unscrupulous in the use of it while they could get it. But they are not so accustomed to the use of it, that they foolishly imagine that copses can only be obtained by means of it. Can they not see that the abuse of it encouraged reaction in the Dominion as now does the exuberance of the people out of power.

Accident.

On Monday, as the boys were going down stairs at the Union School for recess, Master Wm. Jopling of Ashburnham, slipped and fell, and we regret to learn broke his right arm near the elbow. He was immediately taken to Dr. Kincaid's office, who attended to the injury. We trust that he will not long be detained from his place in the school. We understand that the Board intend recommending taking in school during the winter while the steps are icy at 9:30 and doing away with intermission, so as to prevent the rush that must necessarily take place where so many boys are getting out. Not that any particular blame is attached to any one in this case, other than the hurry to get out.

Kingston.

The entire vote polled in Kingston out the 30th of January was—John A. Macdonald, 838; Mr. Carruthers, 802, or 1640 in all. This must be a small vote for the city of Kingston. There must be about an equal number unpolled, otherwise the Limestone City cannot have prospered under the rule of John A. Macdonald, as it ought to have done.

SABBATH SCHOOL CONVENTION.

On Wednesday the 4th instant, a Union Sabbath School Convention of the Townships of Smith and Douro, was held in the Bible Christian Church, Lakefield.

At 10 o'clock A.M. several ministers and sabbath school workers from the two townships, together with a considerable number of the inhabitants of the village having assembled, the opening session was commenced by devotional exercises, after which the following officers were elected for the ensuing year,—John Sherin, President, Dr. G. Hodge and J Hull, Vice Presidents and Geo. Crook Secretary.

After the President was called to the chair, verbal reports of Sabbath schools were received from S. S. Superintendents and others. The number of schools reported from Douro was three; number from Smith, eight; number not represented, three. The reports received were on the whole very favorable, several were especially cheering.

The convention then entered heartily into the discussion of the several subjects mentioned in the programme. The following are the subjects which were discussed at the different sessions. 1st, Best means of awakening an interest in parents in Sabbath Schools. 2nd, Should rewards be offered in Sabbath Schools. 3rd, Best method of teaching a Sabbath school lesson. 4th, On the encouragement to labor in the Sabbath school. 5th, Preparation for Sabbath school work. 6th, The relation of the Sabbath school to the Church.

The following gentlemen took an active part in the discussions—Revs. C. Fish, W. L. Scott, S. H. Ries, N. Clark, T. Gough and T. Dyall and Messrs. D. Pentland, Mason, Wrigh, G. Crook, J. Sherin, Dr. G. Hodge, J. Moore, T. Elliott and D. Smith. At the afternoon session the following resolution was passed,—"That in the opinion of this Convention it is injudicious to give rewards or prizes in Sabbath schools." Several gentlemen from the town of Peterborough, especially Revs. C. Fish and T. Gough rendered very efficient service to the Convention. The mass meeting of the scholars held at 3 p'clock P.M. in the Wesleyan Church was a great success. Four very able and interesting addresses were delivered to the scholars by the Revs. T. Gough, S. H. Ries, T. Dyall and C. Fish. The questions put to the scholars by these speakers were very suitable and pointed, to which very prompt and correct answers were given. Several very suitable Sabbath school pieces were sung by the choir and the scholars with good taste.

At the evening meeting there was a large attendance, and the subjects were handled in a very able and edifying manner by the different speakers. After passing several votes of thanks to the officers of the Convention and others, the meetings were brought to a close by the pronouncing of the benediction, with the understanding that the Convention meet again in 1875.—Com

ASSESSMENT COUNCIL.

The Council met on Monday evening, Present, the Reeve, R. D. Rogers, Esq., and Messrs. Burnham, Stanton and Bamburgh.

The minutes of the previous meeting were read and confirmed.

Messrs. F. C. Taylor and T. O. Bell were appointed auditors for the year, with instructions to audit the accounts and statements and enquire into all complaints laid by the clerk or Assessors.

Mr. John Howden was appointed Inspector of Skewers, with instructions to grant certificates only according to the Tavern and Shop Licence Act.

Messrs. John Howden and John Wood were appointed Health Officers.

The following accounts were ordered to be paid:—

J. E. Rogers, plank and nails $26 67
T. Manton, for stationery..... 1 50
J. Stanton, printing & expenses going to Toronto..... 21 50
Returning officer for 1873-74.. 4 00
Clerk, for registering births, deaths &c..... 2 00
The Reeve was instructed to expend to the amount of $20 in relieving persons deserving it, who require aid during the winter.

A motion was passed that all moneys to paid out the order of the Reeve, signed by the Clerk, and that a book be kept to enter all such payments for easy reference by the Council.

The Treasurer was instructed to have the Market Stalls and Weigh Scales leased the same as last year.

The Council will meet on the first Monday in March, at 7:30 P.M.

TOWN COUNCIL.

The Town Council met on Monday evening. Mayor Cox in the chair. Present—Messrs. Hamilton, Cahill, Hicks, Patterson, Romaine, Hopkins, Dixon, Robertson, Toole, Beal and Rutherford.

The minutes of the previous meeting were read and confirmed.

Communications were read from W T. Riordan and T. Beavis asking to be appointed License Inspectors. Referred to committee on appointments.

From J. W. Sheridan and others asking a gr

purpose.

The anniversary meetings held in connection with the Wesleyan Methodist Sabbath School held on Monday were very successful.

Baptist Church.

We understand that twelve persons have been immersed and received as membership in the Baptist Church in town during the past month.

The Victorian "Guardian."

This is the title of a new paper published in the Village of Uxbridge. The second number is now before us, and is a credit to its promoters. It is liberal in politics, and we trust will receive enlightened patronage to make it a success.

Both the same

Have been rented from the Corporation. That noble country has fully redeemed its character, and will no doubt sustain it unstinted in the future.

The same

After the elections is remarkable. We have not heard a word except a good natured acceptance of the situation. The Heaven-born Conservatives are hopeful that "at 'one' Gladstone will be defeated. This is their only hope to save the world from a general dissolution, and the sobering in of the general judgment. The signs of the times don't warrant the latter. Although Gladstone might fall under the weight of his education legislation before completing the work. If he should succumb, another will arise ere long to finish what he has begun.

Protestant Home.

The annual public meeting of the Peterborough Protestant Home will be held on Wednesday next, the 11th inst., at 3 o'clock p.m. in the Committee room. All friends are respectfully urged to attend.

"Intoxication" Rampant.

Official returns of the Kingston election give Sir John A. Macdonald's majority as 25, but a recount has brought to light more than that number of bad votes. Mr. Ryan's return for Montreal Centre has been protested, and the case will be heard on Monday. Mr. Girouard, a Montreal advocate, and the unsuccessful candidate in Beauharnois, has brought an action for assault against his opponent, Mr. Robillard. The damages are laid at $2,000.

Inquiries.

The first meeting of the first council of the city of Winnipeg met on the 16th of January, 1874. Mr. F. E. Cornish is the first mayor.

Cold Weather in Minnesota.

The cold in Minnesota, 200 miles south of Fort Garry, has been marked by 42 degrees below zero. The greatest cold at Fort Garry is about the same as here, 30 to 36 degrees below zero.

Fire in Hamilton.

The Bahe House belonging to the Fort at Winnipeg, was lately destroyed by fire. Loss, $800.

Grand Trunk.

At the different polling places in the East Riding of this county will confer a favor by sending the check books to this office. There are two for the town missing, will the parties having them, also, have the kindness to leave them at this office.

The Elections in Britain.

The greatest excitement prevails over the elections in Great Britain. In England the Conservative gain is considerable, but the Times thinks the Gladstone Government yet safe, believing the Liberal gains in Scotland and Ireland will counterbalance the Conservative gain in England. Riots have occurred at various places, especially in towns and cities. These are no doubt the result of whiskey.

The Atlantic Way

Is at an end. The terms of Sir Garnet Wolsey have been accepted. The king has agreed to pay $200,000 as indemnity.

Ontario Parliament.

There is no important legislation yet carried through the Ontario House. The School Bill has been distributed but we have not space this week to refer to the changes proposed.

Spain.

The Carlists have suffered a severe defeat near Lerida with heavy loss in killed and wounded.

London, Ont.

Mr. Carling talks of protesting the election of Mr. Walker, and Walker is gathering items of interest against Mr. Carling. The defeat of Carling is of some importance, but the election of Walker cannot be considered a gain. He was just as deep in the mud of the scandal as Carling was.

The Elections of the Dominion

So far show the Ministerialists to be 153, the Opposition 47, Independent 6, with about 26 elections to take place. In all, 206 members have been elected Of the 34 constituencies which remain 2 are in Ontario, 2 in Quebec, 2 in New Brunswick, 5 in Nova Scotia, 4 Prince Edward Island, 6 in British Columbia, and 4 in Manitoba. The Ministry are promised the whole 6 in British Columbia, and three in Manitoba. The Ministry will have a large majority in every Province, and we shall probably have heard the last of the cry that Ontario Reformers have "no allies" in the "other provinces."

The Lower Provinces

Have elected almost all Liberals. Dr. Tupper is the only one of the late Government or their supporters elected.

Bailiwick.

The water in the Metro has been driving some of them living near it out of their dwellings.

The River here

Has not been known to be so high at this season of the year before. This is caused in part by the anchor ice, and in part by the construction of extra piers at Whitby's Rapids, and by the construction of sixty or seventy feet of wing dam not before made.

The Navy Papers

Of the Dominion not long ago affected to sneer at Reform Associations and Reform Conventions, and even went so far as to declare they were "un British." Now, however, a change has come o'er the spirit of their dreams, and these same journals are fain to call upon their blue-blooded leaders to become sociable, and to meet the rank and file in Associations formed for the purpose of organizing their forces.

Position Right

Is to be interpreted. The Sydney for the purpose in the County Cobalt is not likely to be opposed.

The Riding: Official Returns

	Total on List.	Total Poll.	Total Majority.

Belmont	39
Burleigh	57
Douro	77
Dummer	77
Dysart	39
Galway, &c	10
Harvey	29
Minden	25
Otonabee	26
Smith, &c	16
Stanhope	11
Total not polled	622

Of the votes cancelled, viz., 625, about 100 may be struck off as dead or out of the country on double votes, leaving about 520 votes unpolled.

Mr. Hall obtained	903
Mr. Rogers "	870

Leaving about one-fifth of the entire vote of the Riding unpolled, and more than one half the number polled for any one candidate. The back townships which formerly gave large majorities for Mr. Grover and also for Read, gave large majorities for Mr. Hall. Douro remains about the same as at last election, the majority being 6 less than in 1872, while Dummer has done as well as anticipated, and Asphodel, that gave Mr. Grover a majority of 121, now gives a majority of 20 for the Reform candidate. There is a change in Otonabee, largely brought about by two influences,—Mr. Rogers is almost a local man, and was long a resident of the Township, the other one is of a nature that need some no grounds for hope to the Conservative party.

The elections on both sides were conducted in a way not to engender personal or ill feelings or party bitterness, and now that they are over all will be able to return to their business with little to regret, and much to hope for from the new Government; and we feel confident that no one will be disappointed, except those conservatives who foolishly imagine that they only are fit to rule the country. They will find at the end of five years that Messrs. A. McKenzie and Edward Blake with their colleagues from the other provinces can govern the country wisely, and they will find, also, that the great Disposer of all events will still send his rain on the just and on the unjust, on Reformers and on Conservatives, and that seed time and harvest will still annually afford honest and thrifty Canadians an opportunity to sow, and reap the reward of their industry.

EAST DURHAM.

From the Port Hope Times.

The contest in this Riding on Thursday last was decidedly cum-sided. Mr. Ross' committees working like beavers all over the Riding, polling every possible vote, while Mr. Beamish worked hard for himself, but having no organization of any kind—no committees—and no money—ran a very unequal race and was badly beaten—Mr. Ross' total majority being 657. No one will be surprised at the result, for the most sanguine of Mr. Beamish's friends could not have hopes to accomplish anything, as Mr. Ross had thoroughly canvassed the Riding before Mr. Beamish's name had been mentioned, and the former had his committees in every ward organized and at work long before the day of nomination. Indeed we can positive Mr. Ross would not have been opposed at all had he acted in a less objectionable manner towards men whom he could not expect to support him. Two contest was one in which Conservatives could feel but little interest, both Messrs. Ross and Beamish being Reformers, and both coming out in support of the present government. Hundreds did not vote at all, many voted, not for Mr. Beamish, but against his opponent, and a few cast their votes for Mr. Ross.

The following are the official figures of the state of the poll at the close on Thursday, which we have taken some trouble to compile :—

PORT HOPE.

HOPE TOWN.

"We cannot tell who is the successful candidate as a returning officer has not been appointed for the township of Hope. The votes would have been taken in the Township had you sent us a Returning Officer."—*Reporter Times.*

This demonstrates exactly what we have always stated, that the citizens of Municipalities, through councils of no, do habitually exhibit no these Municipalities.

Municipal in between 200 and 300 in number, the Reporter thus Port Carry, and yet they have already experienced further Legislation in their municipal affairs than we have had in this country. This being the case enough to the Government to think that legislation has been carried to excess, and that municipal institutions have been over, it is time a policy of economy and retrenchment was introduced in the administration of affairs. Congress of every kind, and more especially of the Republic of the north's territory, having a policy of economy in the administration of affairs, and their municipal councils appointed to discharge the ordinary routine business, from the fact that they are composed of men who have a practical knowledge of the wants of the people, from the fact that they are elected by ballot, voted directly, and are easily called to account by their constituents, are free from the influence of party politics, and are not subject to the whims and caprices of a Governor. Would that we could see that this is accomplished. Would that we could see that this is accomplished. Would that we could see that this is accomplished. Would that we could see that this is accomplished.

Of the Montreal Gazette, was defeated in Prescott, by 6 votes. He was defeated at the elections in '67 in Westworth by 4 votes.

MEMBERS ELECTED.

A Georgia editor was bitten by a dog, being evidently mistaken for a bone.

Springfield, Mass., has the ordinance which imposes a fine on any one who "swears out loud."

The young man who boasted he could marry any girl he pleased, found that he couldn't please any.

It was bad enough for the Boston *Advertiser* to say of Wilkie Collins as a lecturer : "The London intonation is unmistakable in the fluttering of the vowels." But it was worse when a Western correspondent made it read "a fluttering of the bowels."

Noble Lives.

There are hearts which never falter
If the hearts for the right;
There are sights which never alter,
Watching through the darkest night:
And the agony of shorting
In the fiercest of the strife,
Only gives a nobler bearing—
Only makes a grander life.

These are those who never weary,
Hearing suffering and wrong;
Though the way is long and dreary,
It is vocal with their song;
While their spirits in Go.l's furnace,
Resulting to His gracious will,
Are fashioned in a purer mould
By a loving motionless skill.

There are those whose loving mission,
'Tis to bind the bleeding heart;
And to teach the calm submission
Where pain and sorrow smart.
They are angels hearing to us
Love's rich missionary of peace;
While the night is nearing to us,
And life's bitter trials cease.

There are those who battle slander,
Envy, jealousy and hate;
Who would rather die than pander
To the passions of earth's great;
No earthly power can crush them,
They stand not the tyrant's frown;
No fear nor favor hush them,
Nor bind their spirits down.

The Savings of Science.

Doubtless many of our readers have perused Dickens' excellent novel, 'Our Mutual Friend,' and hence are, in a measure, familiar with the London dust heaps. Perhaps it will be remembered how the great writer describes their contents, and, in his inimitable style, sketches the queer people who often spend their lives among them looking for treasures. Those patient searchers are creations of the past, their soil-some occupation is gone; for Science, with her inventions and processes, has extended her sway even to the worth-less dust heaps, and from the filthy waste brings out the shining gold. The ordinary waste of a single household may be roughly estimated at a barrel-ful per day, and London, it is said, contains five hundred thousand houses. Hence, the reader may form some idea of the wonderful ingenuity which contrives to utilize the enormous aggregate of one hundred and eighty million barrels of refuse in the course of a single year.

The local authorities of London sell the privilege of removing dust and garbage from each district to a con-tractor, who carts it away to a large yard in the suburbs. There hill women sieve in hand, separate the mass, by a rude analysis, into component portions. The most valuable of the latter are the waste pieces of coal, and the 'breeze' or coal dust and half burnt ashes. The amount of waste of the latter may be measured by the fact, that, after selling the larger pieces to the poor, the refuse 'breeze' is sufficient to bake the bricks that are rebuilding London. The material is used by the contractors who generally combine the builder's trade with their regular calling, for the purpose of imbedding the newly made bricks into compact squares. The coal dust having been fired, the mass burns with slow com-bustion for two or three weeks, aided by the circulation of air which is kept up by the method of stacking. The other constituents of the dust heap are separated by the sifters with the ut-most rapidity; bones, rags, paper, old iron, glass, and broken crockery, and even bread, as they are eliminated from the mass being piled in separate heaps. The bones are put to a score of different uses. Of the several tons of bones that are picked out of the dust in the course of a week, some go immediately to the boiling houses, where every portion of fat and gelatin they can yield is extracted; the for-mer substance is bought by the soap-maker, the latter is utilised to make the patent preparations employed in cookery, photograph, etc. The larger bones are used by the turners and are converted into hundreds of knick-knacks, and that the bone you may have picked at dinner again enters your mouth, after many changes, as a toothpick or toothbrush, while the smaller pieces, for aught you know, have been calcined, and form the very charcoal toothpowder on your toilet table. Fragments that cannot other-wise be employed are ground very fine, and treated with sulphuric acid, con-stituting an excellent artificial fertiliser. Bone dust is also sometimes used by bakers for purposes of adulteration, so that the poetical remark of the giant in the fairy tale,—

"I'll grind his bones to make my bread."

is fulfilled both figuratively and literally. Another important product extracted from phosphorus, for which there are an endless number of uses; and, finally, the fat that is saved in the process of boiling, is employed to make the commoner kinds of soap.

Scraps of paper abound in the dust heaps. These are all carefully sorted, the white from the colored and the printed. The soiled pieces, which cannot profitably remanufactured, are used to make "papier mache" orna-ments, dolls' heads, etc.; the clean paper is returned to the mill, and even the printed paper has the ink dis-charged from it, and goes again into circulation. Old rags, of course, are valuable to the paper maker, although the discovery of other materials, ren-ders this form of waste not quite so important as formerly. Glassy dish cloths cannot go to the mills again, so they are sent to the hop grower, to whom they are valuable as fertilisers. Woollen rags, if they happen to be dyed scarlet, are treated for the recov-ery of their cochineal, which is used as a dyeing material; and other valu-able colored rags are ground up to make flock paper.

The great markets for all woollen fabrics in England is the town of Batley and its neighborhood, in York-shire, the great shoddy metropolis. A writer says, regarding this manufac-ture: "reduced to filaments and greasy pulp, by mighty toothed cylin-ders, the mash vexed fabric re-enters life in the most brilliant forms, from the solid pilot cloth to silky mohaire and gleamant tweeds."

Cotton and woollen rags are both valuable when separate, but of late years it has been the custom to weave the cotton and woollen together, the warp being made of the latter material and the weft of the former; thus mixed, however, the fabric cannot be converted into paper or cloth. Many endeavors have been made to effect a separation, and at present the rags are placed in a cer receiver and subjected to steam at a very high temperature. The result is that the cotton comes out pure and fit for the paper maker; the wool is reduced to a dark brown pow-der, known on the shoddy of commerce, and is employed to enrich manures which are poor in nitrogen.

A very important constituent of the dust heap in the old iron, battered saucepans, old pails, rusty hoops, horseshoes, and nails from the road. All soldered articles have the solder extracted from them, as it is more valuable than the iron, and the cheaper metal is then melted. The horseshoe nails are not mixed with the common cast iron, as they are much sought after by gunmakers for the purpose of making stub twist barrels. Scraps of iron, it is found, may be made very useful in securing the copper in the streams washing veins of copper pyrites. Pieces of battered iron are placed in tanks, into which these are collected; the copper quickly incrusts the iron, and in process of time entirely dissolves it, so that a mass of copper takes the place of the iron. The residuum, in the shape of a colored deposit, is at times taken out, dried and smelted.

The savings of science, however, are not all made in the dust heaps of Lon-don, though in the brief outline we have given, of the mode of utilising some of the constituents of the waste of the great city, a vast economy is indicated. A singular and recent French discovery is that sheep draw a considerable amount of potash from the land on which they graze, much of which is ultimately excreted from the skin with the sweat. It was pointed out by Chevreul that this peculiar potash compound (suint) forms no less than one third of the weight of raw merino wool, while of ordinary wools it constitutes about 15 per cent of the weight of fresh fleece. As the 'suint' may be extracted by mere immersion in cold water, it is easy for the manu-facturers to produce more or less con-centrated solutions from which the potash may be recovered by appropri-ate treatment. The developement of this new industry is principally due to MM. Maumene and Rogelet, and their process consists in evaporating the solutions, which are sent to them, until a perfectly dry and somewhat charred residue has been obtained. This is placed in retorts and distilled very much in the same manner as coal at gas works, and the result is that, while much gas is evolved which can be used for illuminating the factory, and much ammonia is expelled which can be collected and utilized in many ways, there remains a residue which chiefly consists of carbonate, sulphate and chloride of potassium. These three salts are separate by the usual method, and then pass into commerce. Curi-ously enough, they are remarkably free from soda.

The wool manufacturers of Rheims, Elbeef, and Fourmies annually wash the fleece of 6,7000 sheep, and the amount of potash, reckoned as carbon-ate, which these fleeces would yield if all were subjected to the new process, represents a value of $400,000. The by-products of gas works are so valu-able now that factories are actually set up beside such establishments for their utilization. The most important is alum, which, like sal ammoniac, once came at a great cost, from Egypt, but is now mainly produced from an alum-inous shale, which forms the roofs of coal mines, and which has to be brought to the surface before the coal can be gained. This was for a long time a perfectly refuse material, cover-ing acres of ground, like the scorine and cinder heaps; but chemistry has found it out, and now obtains the pro-duct by setting fire to the shale, the carbon and sulpher which it contains being sufficient for the purpose. The friable porous residue are afterwards heated in iron pans with sulphuric acid, to which is added the ammonia from the gas liquor, and the three bodies combine with water to make common or ammoniacal alum.

Nearly every article of the toilet bottle or the 'sachet' is made from waste sometimes from fouily odorous matters. A peculiar fetid oil, termed fusel oil, is formed in making brandy and whisky. This fusel oil, distilled with sulphuric acid and acetate of potash, gives the oil of pears. The oil of apples is made from the same fusel oil by distillation with sulphuric acid bichromate of potash. The oil of piuceapples is obtained from the pro-duct of the action of patrid cheese on sugar, or by making a soap with butter and distilling it with alcohol and sul-phuric acid. Oil of grapes and oil of cognac, used to impart the flavor of French cognac to common brandy, are little elses than fusel oil. The artificial oil of bitter almonds is prepared by the action of nitric acid on the fetid oils of gas tar. The wintergreen oil of New Jersey is artificially made from willows and a body procured from a distillation of wood.

Dyes, like perfumes, are often deriv-ed from the most repulsive sources. The waste heaps of spent madder were formerly a great nuisance. It is now found that this hitherto waste can be used, and at least one third can be saved by treating it with hot acid. Prussian blue is made from pieces of horse hoofs or refuse woollen material by fusion with iron and alkali.

Perhaps the most important refuse product that can be mentioned, as pro ceeding from a systematic manufactur-ing process, is that known as soda waste. Large quantities of this sub-stance are rejected as useless by most alkali works, and it has been, for many years, a problem and a reproach to chemistry. It is a great loss; and, if we can but recover it, no small vic-tory will be achieved.

The Leisure Time of Boys.

Every father of a family knows that there is a time in the life of his sons that gives him much trouble and some anxiety. We allude to the period of boyhood, when exuberance of spirits and thoughtlessness are at their height, and when the studies imposed by school discipline are entirely insufficient to find adequate employment for their too active minds and bodies. And it is not possible, or even desirable, to in-crease the already considerable applica-tion of all well bred boys to the study of books and the acquirement of learning. It is not to be wished that a youth of twelve should grow up to be a consumed would-be prodent of twenty, and a bookworm of thirty years of age. Thus the task of finding fitting occupation for the leisure hours of a boy is no inconsiderable one, as few pursuits into which a boy would plunge with eagerness are suited for putting in the way of so much impul-siveness and want of consideration as most boys possess. The question then of how to amuse our boys, is one of paramount importance and difficulty.

We would suggest, to the many par-ents who have been perplexed with this difficulty, to give their lads every possible opportunity of acquiring a mechanical trade. The industry and ingenuity of a boy of average ability may easily be made to flourish him with a never failing source of amuse-ment of the best order. The boy who can produce or make something is ready begins to feel that he is somebody in the world, that achievement of result is not a reward reserved for—grown people only. And the education of mind, eye and hand, which the "fit" of tools and mechanical appliances for-nished by of a great and real value, beyond the good resulting from the acquisition of leisure time. Having nothing to do or no pre-ference to the young is it is to be full of harm; and no greater benefit can be conferred, on youths than to teach them to convert time that wasted, and otherwise than wanted, into pleasant means of recre-tion and mental improvement.

We say, therefore, to all parents: provide your boys with mechanical apparatus and tools. There is no greater pleasure to most boys than the handling of a tool; and many great men and ingenious inventors look back with gratitude and delight to the day when they were first allowed to use the lathe, the saw and the plane.

The boy, whose time and mind are now occupied with marbles and kites, may be a Watt, a Morse or a Bessemer in embryo; and it is certainly an easy matter to turn his thoughts and mus-ings into a channel which shall give full scope to their faculties. And to most boys the use of mechanical tools is the most fascinating of all occupa-tions.

As logic and mathematics have a value beyond accuracy in argument and the correct solution of problems, in that they teach men the habit of using their reflecting powers systematically, so car-pentry, turning, and other arts are of high importance. These occupations teach boys to think, to proceed from initial causes to results, and not only to understand the nature and duty of the mechanical powers, but to observe their effects; and to acquire knowledge by actual experiment, which is the best way of learning anything. All the theories culled out of books leave an impress on the mind and memory, which is slight compared to that of the practical experience of the true mechanic.

Our advice is, to all who have the great responsibility of the charge of boys; Give them a lathe, or a set of carpenter's or blacksmith's tools. Give their minds a turn towards the solid and useful side of life. You will soon see the result in increased activity of their thinking capabilities, and the direction of their ideas towards practi-cal results; and, still more obviously, in the avoidance of idle mischief and nonsense (to omit all reference to abso-lute wickedness and moral degradation) which are, to too great an extent, the the pastime of the generation which is to succeed us.

Systematic Thinking.

People who think unsystematically are slovenly minded people. The facts and ideas stowed away in their upper chambers are all topsy-turvy. No sooner do they turn over something in the hope of finding another something than they cover over another some-thing, which, in its turn, will soon be wanted and rummaged after. Their heads are not well arranged libraries, but garrets filled with rubbish. If they commence to think upon any subject, they shift it about, taking only a glimpse of it here and there. They do not, like the systematic thinker, take a subject to pieces as a watchmaker does a watch, and lay the parts all in order under glass covers, but pitch them into all sorts of by places and corners, and generally getting bewild-ered in trying to replace them, become hopelessly muddled and give it up.

A great deal said now-a-days about the power of modern thought; but it would be well to remember that all the thinking which bears fruit is systemac thinking. Many a young man imag-ines himself to be thinking when he is merely day dreaming. Thinking im-plies an active state of mind, calling up images, holding them fast, and ar-ranging them in order; not a passive condition in which troops of ideas, or shadows of ideas, flit across the men-tal vision like figures in a kaleido-scope.

Thinking, worthy of the name, is work—systematic, calm, and connect-ed; and the man who has not got his mind so disciplined that he can thus command it is not yet a thinker.

That systematic thinkers are so few is attributable in a great degree to early bad training. Not one teacher in fifty in our primary schools deems it of importance to teach children how to study, and a less proportion are com-petent to do this if they would. The most of them think their duties are comprised in keeping an orderly school hearing recitations, assisting pupils to do hard sums, and allotting tasks. Especially in the latter do they excel. Memorising is with most of them a name for mummery—a thing to be done by holding the head on one hand, swinging first one foot and then the other, and forcing the lips to repeat a formula until they will run of themselves long enough to get through a recitation by very force of momentum. And this laborious, meaningless task, they think, is study. In other words, study is to them the teaching of the lips to move from force of habit, while the mind may be wandering anywhere and every-where.

Thus a vacant, wandering habit of mind is secured with the spelling les-son, and ground in with the rules of grammar and sums, by rare good chance, the unfortunate over-tasked and mentally disgusted young intel-lect meets in its onward progress some one who can show it the mis-take, or has native genius to discover it without help, it grows into habitual slovenly mindedness.

After all, teachers are no more to blame than parents who demand that progress shall be measured by pages of a book rather than by power to think.

A Question.

In a Scotch country parish a church officer filled that office and that of grave-digger for the long space of fifty years. Suspicion had long been enter-tained that he was in the habit of helping himself out of the collection plate whenever opportunity permitted. It was difficult, of course, to prove this. At last, however, the sum of one pound was abstracted from a missionary box which stood in the vestry, and every-thing combined to point out this man as the culprit. The oldest child the minister that something must be done. The minister said, 'Leave him to me and I'll see what can be done.' The following Sabbath, after the fore-noon service, the minister was talking of his grave and hands, and being alone in the vestry with the suspected man, he thought the opportunity was too good to be lost, so he said, 'Andrew, have you heard of the money that is missing from the box?' 'Yes, sir,' said Andrew, 'I was hearing something about it.' 'Andrew,' continued the other, very gravely, 'the matter lies between you and me. We are the only two who have access to the box. Either you or I must be the thief.' 'Deed, sir,' replied the imperturbable Andrew, 'its just as you say—we're the only two that has access to the box, and I think the best way'll be for you to pay the bill and I pay the siller, and say nae mair about it.'

The Death-Watch.

Not many years ago, the "Death-Watch," struck terror to the hearts of many who gave up to the superstitious fear when it chanced to be about and produce a ticking noise like a watch. When this ticking noise was heard it was received as a forerunner of death, and many a poor fellow lying upon his bed, sick and helpless, was startled, and the heart of the nurse made to palpitate at the tolling or ticking of the death watch. When, however, after suffer-ing this dread for a great many years, sufficient courage was mustered to in-vestigate the cause of this ticking, it was found to be a tiny little insect about the size and something the appearance of a louse, had sought shelter, in the wainscot or wall, against which these little gray insects struck their trunks, the same as a woodpecker strikes his bill against the tree, producing the ticking noise before described, and thus many a timid heart was made glad by the good tidings that the death watch which they were wont to believe sound-ed their death-knell, had suddenly fall-en from its exulted station to small and insignificant family of insects, the louse.

Wealth.

We all want it

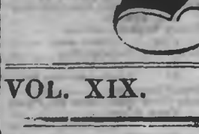
THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. Because they are found to possess all the qualities claimed for them.
2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. Because no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. Because the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. Because the never tire the eyes and last many years without the necessity of change.
6th. Because being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.
Sole Agent for
PETERBORO'
Corner of George and Hunter Streets.
February, 29, 1872.



GEORGE ALLEN
GUN & WHITE-SMITH
Hunter Street, Peterborough,
BEGS to inform the public eat all kinds of repairing is done on the shortest notice, such as Guns, Stocking, &c., Pistols and White smithing. Sewing Machines also neatly repaired.
Shop and Residence adjoining the Union Hotel.
Peterboro, October 25, 1865. 43

PIANOS
MELODEONS, ORGANS
D. PENTLAND
Is now Agent for A. & S. Norheimer for the sale of the following celebrated Pianos:—Oblickering & Sons'; Steinway & Sons'; Dunham & Son's; Haines Brothers'; Ernest Gabler; and J. W. Yose's.
Also, for the world-wide Celebrated Organs and Melodeons—Geo. A. Prince & Co., Buffalo; Mason & Hamlin's, Boston.
Instruction Book for Piano & Organ sent Music, &c. always on hand.

Select Poetry.

Only a Woman's Heart.

Only a woman's heart, wherein—
You have trod in your careless haste—
A thing at best that was easy won,
What matters how dreary a waste
Her life may be in future years?
What matters it—do not start,
It is only the sound of falling tears
Wrung out of a breaking heart.

It has lost its worth, for it cost you naught
But a honeyed word and smile:
Was the fault not here if she easy have thought
That you were truer than truth the while?
What if the weeds of a life long woe,
From its crushed shrine may start?
It lies at your feet in the dust so low,
And 'tis only a woman's heart.

Only a heart to throw away,
With recklessness that a boy
Who, careless of pleasure and weary of play,
Would throw down a broken toy.
The world is fair, and the world is wide,
And there's many in its busy mart,
There consolence aside, and nurse your pride,
It is only a woman's heart.

Aye, powerless s'en is your boasted will
To vanquish the ghosts of sin!
Thus did it speak—these speaks it still,
Through the voice of your self within—
"In the drama of our life, you know,
You have acted a villain's part,—
For you struck a hard and cruel blow,
And it fell on a loving heart."

Only a woman's heart! Ah, well!
Dare you say it was nought to you
Whether that heart was false as hell,
Or as heaven itself as true?
You may hug the thought to your selfish breast,
That you're skilled in deception's art,
But I brand you thief for the peace and rest,
That you stole from a woman's heart.

Choice Literature.

Perfectly Heartless.

'Pretty; yes, rather pretty, but perfectly heartless!' said old Mrs. Holmes to Dr. Stanley, with whom she was conversing at a large brilliant party.

'Heartless! with that sensitive mouth, and those eyes, so full of expression,' said the gentleman musingly.

'I don't admire her style of beauty at all. She looks like a wax doll, and her heartlessness is proverbial. Since her uncle left her so wealthy, she has had lovers by the score, and she flirts with every one. Why, just look at her now.

Dr. Stanley's eyes followed the direction in which the lady waved her fan, and rested on the central figure of a group around the piano. It was a lady, young and fair, with a tall, exceedingly graceful figure, pure Greek features, and large blue eyes. Her hair was short, but the soft, full curls made a lovely frame for the fair face. Her dress was of a dark lace ornamented with flowers and dark green leaves. She was conversing quietly with a knot of gentlemen, and Mr. Stanley sauntered over to the group.

'Miss Marston,' said one gentleman, 'what has become of Harold Graham, lately?'

Her hands swept over the ivory keys of the grand piano in a measure of a brilliant waltz, when another of the group, supposing that Miss Marston did not hear the question, said:—

'Perhaps—perhaps he has committed suicide!'

'It is three weeks since he disappeared,' said another.

'Ah! I hope not,' said Miss Marston, we want his tenor for our next musical soiree. It would be too provoking for him to be so rash as to commit suicide.'

'Mrs. Holmes was right,' thought Dr. Stanley, 'she is perfectly heartless. Poor Harold.'

He turned from the piano, but stopped as the full rich voice broke out into song. Miss Marston was singing Schubert's 'Last Greeting,' and in the mournful words she poured forth such wailing energy and deep pathos, that group after group in the large rooms ceased their gay converse to listen to the music.

'Can she sing so, without heart or feeling,' muttered the doctor, again drawing nearer to the place.

'Etta,' said a young lady, as the last note of the song died away, 'Etta, do play a polka now.'

A contemptuous smile quivered for a moment on Etta Marston's lips; then nodding good naturedly, she dashed off into a lively polka, which soon melted the group round the piano into the merry dancers; and Dr. Stanley with the rest.

The next morning Miss Marston sat in her room writing a letter. Peep over her shoulder at one sentence:—'All hollow and heartless. Miriam, you blame me for flirting; you are not here to see how they follow me merely for my money. Not one true heart among them all. There was one, Harold—

A knock at the door interrupted her

'Come in,' and a woman enters with a large basket of washing.

'Good morning,' said Etta, pleasantly, 'how is Terrance this morning.'

'Oh, Miss, it's beautiful he is to-day. Sure, marm, I'm sorry ye had to wait so long for the wash.

'Never mind that. How could you wash with that poor fellow so sick.?'

'Sure, Miss, it's many a one as expects their clothes, sick or well; and isn't Terry sitting up to-day. playing with the toys ye sint him, and Pat, that I kept from school, minding him.'

'How many pieces, Mary,' said Etta, taking out her purse.

'Oh, Miss, you don't owe Mary Ginnis a cint. There's the money ye left to pay the doctor with, and the wood you sint, and the praties, and milk, and the money you gave me last week; sure, Miss, it's in your debt I am for washing the rest of my life.'

'What I gave Terrance has nothing to do with my washing bill,' said Etta rapidly counting out the pieces.

'Miss Etta,' said Mary, and then she stopped.

'Well, Mary?'

'Sure, Miss, you do so much good with your money, I am ashamed to tell you—

'Tell me what?'

'Well, Miss, it's about the young man that's rinted my room. Ye mind where the widder died last fall. He came a week back, Miss, and he never came down stairs for three days back, Miss, so this morning I wint up and he is sick with the fever, out of his head entirely, Miss. If you would come now.'

'Wait, Mary, I'll go with you.'

Throwing off her rich silk wrapper Etta put on a dark gray dress and cloak, and added a close silk bonnet with a thick veil.

'Come, Mary,' and they both left the house together.

In a low, close room, on a pallet bed, lay Mary Ginnis's lodger. The face, which lay against the coarse tibking of the pillow, was such as one fancies for that of his favorite poet. The hair was dark, waving over a broad white forehead, and the deep set eyes were hazel, large and full, and the features delicate. Usually the face was pale, but now it was crimson with fever. The eyes were fierce and wild. But even with all this the face was beautiful with an almost unearthly beauty. In that poor, lone room Etta came like a saving angel. She gave one glance at the sick man's face, then crossed the room to his side.

'Etta!' said the sick man. 'Etta.'

'He knows me,' she murmured, drawing back. But the young man moaned her name again, and then broke forth into wild, delirious ravings.

'Mary' said Etta, 'send Patrick to me.'

Mary left the room, and Etta turned to the table to find paper and pencil. She wrote hasty notes one to be housekeeper for pillows and sheets, and another to Dr. Stanley, who did not guess the friend who sent him so much practise among the poor patients and saw that he was well paid.

Having dispatched Patrick with her notes, Etta tried to make the desolate room look more home-like. Lifting from the table a waistcoat, something dropped from the pocket to the floor. It was a small miniature case, open, and painted on the ivory was Etta's face,

A smile, gentle and pitying, came to her lips.

He did love me then, really love me and would not seek me with the fortune hunters who follow me. This is the reason I have missed him so long.

'Arrah, Miss, here's the doctor.'

'Stop him, Mary, I will go in here. Remember, Mary, you don't know my name,' and Etta went into another room, a vacant one adjoining that of the invalid's. The door was ajar and Dr. Stanley's first exclamation reached her.

'Harala! Have I found you at last and in such a place.'

Etta's eyes ranged over the capacity of the room in which she stood, and she nodded to herself, saying. 'It will do; it is larger and better than the other, but a poor place at the best.'

The next day when Dr. Stanley called to see the patient, Mary, with a pardonable pride, ushered him into the room that had been vacant before. A soft carpet was on the floor, and a small fire in the grate, the latter screened from the bed by a neat shade. Soft white muslin curtains draped the windows. The bed could hardly be recognised with its white pillows, counterpane and sheets. A little table stood beside the bed, with the medicines he had ordered, and an excellent goblet of cooling drink.

'The lady, ye mind, I told you of, that sint you to Teddy,' said Mary, 'sint all the nice things and helped me to fix them yesterday; and my good man and I moved him in to-day, so she'll find him here when she comes, it's asleep he's been for better than two hours.'

Two hours! Harold was still sleeping, but he soon woke and looked with surprise about him. The cold, cheerless aspect of the place was changed as if by enchantment, and — Harold thought he was dreaming—an angel face bent over him with pitying eyes and a smile tender as a loving mother's over her darling child.

'Etta!' he whispered; 'Oh that I could die in such a dream.'

Was it a dream—that sweet voice answering him?

'Harold, you will not die; you will live for me. Your genius shall be recognised, your pictures sought. No more struggling for life, but only for fame.' And the tears fell as she spoke.

Dr. Stanly, standing in the doorway, recognised the ball-room belle, the object of his friend's long, silent, and hopeless love.

Sadly he glided down the stairs, for he knew that a better medicine than he could have prescribed was within the patient's grasp.

A short time after, the world said: 'Just to think of Etta Marston, rich and such a belle, marrying Harold Grahame, the poor artist!'

Is It Right?

BY JOHN W. KIRTON, AUTHOR OF "BUY YOUR OWN CHERRIES," ETC.

Is it right for men who profess and call themselves Christians to pray, 'Lead us not into temptation,' and then needlessly expose themselves to the influence of drinks which have tempted and ruined thousands?

Is it right for men to ask God to 'Give us this day our daily bread,' and then support a system that licenses men to destroy the good grain by converting it into body and soul destroying drinks?

Is it right to build churches, chapels and schools to help to save people and at the same time to license men and women to open shops in which liquors are sold which will destroy the people?

Is it right to license a man to sell drink which will make people drunk, and then fine men and women for getting drunk?

Is it right to license men to make paupers and criminals, and then support and vigorously punish people to keep them?

Is it right to [illegible] a system which demoralizes and debases the people?

Is it right to force a public house or beershop upon a neighborhood when the people who live there are opposed to its being opened?

Is it right to profess to be sorry for the evils which spring from intemperance, and at the same time to take no steps to bring them to an end?

Is it right for people to wish the temperance cause a success, and at the same time continue to drink and support the liquor traffic?

Is it right for any man or woman who wishes well to their country to stand aloof from the only certain cure for our national intemperance?

Is it right for a Sunday-school teacher to teach scholars to beware of the dangers of the public house, with breath smelling strong of the drink which comes from such places?

Is it right for a minister of religion to preach against drunkenness, while he continues to use the drink which alone produces it?

Is it right to admit into Christian churches, as members, liquor-sellers, who, by their business, are constantly hindering the spread of the Gospel and leading professors of religion astray?

Is it right to hold fellowship with the works of darkness, and expect the light of life to shine into men's hearts?

Is it right to do wrong and expect wrong to produce right?

Is it right to ask these questions, and if so what answer can each reader give to them?

The Privileges and the Duties
OF A CHURCHMAN.

A FAREWELL SERMON
Preached in the Church of St. John Baptist, North Deore, November 16, 1873, By the
REV. VINCENT CLEMENTI, B.A.

Farewell! a word that must be, and hath been—
A sound which makes us linger;—yet—Farewell.

"Finally, brethren, farewell."—2 Cor. XIII. 11.

How widely different, brethren, must be the feelings of every Minister of the Gospel who makes use of the words of the text, on the occasion of his addressing, for the last time, those who have been committed to his spiritual charge, from the days of St. Paul up to the present hour, from the feelings which pervaded the heart of the great Apostle of the Gentiles, when, while visiting the Churches in Macedonia, he wrote them to his Corinthian converts. And it is no instance can that immeasurable difference have been more painfully recognized, than in that of him whose connection with this Parish, as its Incumbent, has now arrived at its termination. Had it not been that the words I have selected enable me, on the present occasion, to be somewhat more discursive than has been my wont,—and therefore to bring before your notice various matters, each one of which had otherwise my only availed for a separate discourse, I should have shrunk from using them, in the fear that I might, haply, be supposed to venture, though but in imagination, to compare myself with him, whose example it behoves us all, as far as in us lies, to imitate, but to whose high attainments in holiness you may scarcely hope to reach.

It is my object, with all plainness of speech, and in all sincerity, to lay before you; this morning, a brief summary of the privileges you enjoy, and of the duties correspondent to those privileges, and to offer you a few parting words of advice; and may God's Holy Spirit—that Spirit Who alone can enable us to form a right judgment in all things—be with us to sanctify us and to bless.

Your privileges, brethren, how great, how glorious they are! You have been born in a Christian country; a country where the Sacred Scriptures may be read "without let or hindrance." You have been baptized, at least I trust so; you have been baptized, in accordance with our Saviour's express command, and by the appointed Minister of His Church, in His Name, in His Father's Name, and in the Name of the Holy Ghost; and at that Baptism your hearts first became the dwelling-place of the Comforter, you became regenerate; for what said St. Peter when, as he was preaching on the Day of Pentecost, he was asked by those who heard him what they were to do? "Repent," the Apostle answered, "Repent, and be baptized and ye shall receive the gift of the Holy Ghost. For the promise is unto you, and to your children, and to all that are afar off." And should an infant, at its birth, be of so weakly a constitution that but little hope can be entertained of its surviving, there is a ministration of private Baptism in houses; so that the child may not only be "sealed," as it is said, but that more, it may be made a member of Christ, an adopted child of God, and, should it die in its infancy, an inheritor of God's Covenanted promises. Or, again, should any of you, through the culpable negligence of your parents, have remained unbaptized for any length of time, there is still a ministration to such as, being of riper years, are able to answer for themselves.

There is, too, the Church's teaching, founded on that of Christ and His Apostles, afforded you in the Catechism, wherein you learn what you should believe, what you should do, and what you should leave undone,—your duty to God, your neighbor and yourself. And remember, brethren, you have now an opportunity of having you children taught what some among you may not have the ability or the leisure to teach them yourselves. You have the opportunity of sending them to a Sunday School, where they may learn those lessons, which, if acted up to through His will, it is finally treated, be the means of leading them, through God's assisting Grace, to a state of everlasting happiness.

Again, you have been confirmed; most of you, I fain would hope, if not all, who have been baptized, and have come to years of discretion, have had the Bishop's hands, the hands of the successors of St. Peter and St. John and St. Paul, and the other Apostles, laid upon you besides: and you have ratified the solemn vow, the solemn promise, that had been previously made in your name by your Godfathers and Godmothers, when you were too young to make that promise, and to record that vow for yourselves. And you have received again the heavenly gift, the gift of the Holy Ghost. For we read that when St. Peter and St. John "laid their hands on" the baptized Samaritans, "they received the Holy Ghost. And when Simon," the sorcerer, "saw that through laying on of the Apostles' hands the Holy Ghost was given, he offered them money, saying, give me also this power, that on whomsoever I lay hands he may receive the Holy Ghost." This was the power upon a power peculiar to the Apostles, as it is peculiar to the successors of these Apostles, in the present day, the Bishops of the Church, that the rite of Confirmation should not

[illegible]

Blood of Christ," received, to their unspeakable advantage, by all such as are "religiously and decently disposed," in remembrance of His meritorious Cross and Passion, whereby alone we obtain remission of our sins, and are made partakers of the Kingdom of Heaven.

Our marriages have been sanctioned by the Church, and hallowed by the Church's blessing. In times of sickness, and at the approach of death, you have a Minister at hand, ready, at a moment's notice, to hasten to your bedside, with the offers of spiritual consolation and advice, to whosoever wards of tranquil peace and holy hope in the case of the departing penitent. And during all this period you have had a Church sufficiently near to your houses to enable you to attend without inconvenience, the public worship of God in God's own house.

And, finally, when the hour of your departure has arrived, when the soul has left its earthly tabernacle; and the body has cold and senseless, that body will be committed to the ground—ground consecrated by the Bishop for that purpose—with decency and respect; the Church's solemn, and beautiful, and comfortable services will be celebrated, and the sure and certain hope expressed of the Resurrection to eternal life through Jesus Christ our Lord.

And now, brethren, that I have set before you, briefly and inefficiently, but still faithfully, the privileges you enjoy, suffer me to remind you of the duties the devotion the possession of those privileges imposes upon you. For you must be well aware that to every one among us some talent has been committed by Him who is our ultimate Lord and Master, for the use or abuse of which we are responsible; and that there is a day approaching, a day how near at hand God only knows, a day for which above we are taught to pray in the Burial Service of our Church, we beseech Him that it may please Him of His "gracious goodness" "shortly to accomplish the number of" His "elect, and to hasten" His "kingdom,"—a day when we shall have to render a strict account to that omniscient, unerring Judge of how he treated the talent to us, of the manner in which we have disposed of it; and when he who has placed his talent out to the best advantage, who has made the most of it, will receive the highest reward, will wear the brightest crown; and when the misimproved talent will sink the unprofitable servant down to the abyss of hell; for you must be aware, I repeat, that to each of us some talent has been confided—to a few ten talents, to others five, but to every one who hears me, one talent at least.

You have reason to be most thankful that you have been born in a country where your duties to your God and to your neighbor, in however scant a degree that may be practised, are yet so well defined and understood; if therefore, you fail to discharge those duties, you cannot plead ignorance as an excuse. You have the happiness, too, to live not only in a Christian, but in a Protestant country, a country where the Bible may be read by all classes, by the lowest as unreservedly as by the highest in the land. This is your privilege; what is the corresponding duty? Why, clearly, to make the most of that privilege: to read the Bible reverently, faithfully, prayerfully: and not so let it

Official Report, Vienna Exposition. Sewing Machines, &c.

(SEWING MACHINE NEWS.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 500,000 of their Sewing Machines into general use. The immediate production of the parts by machinery is so regulated that each machine, as it may be found on a sample for exhibition, is a counterpart of every other machine. The firm purchases only the most approved machinery.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This improved machine sews with the finest lumber buttons and the finest grasses with a truly pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Fall Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

THE BEAST.—"Of the great number of animals under the control of man, the horse is unquestionably the most serviceable;" but is it not strange that so many who own horses, and who are dependent on their labor for a living, should neglect to give them that care and attention which their own interest no less than the safety and comfort of the horse demands. The best medicine for horses is Darley's Condition Powders and Arabian Heave Remedy; of the there can be no doubt—it is safe and easily given. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Newcastle, Ont., proprietors for Canada. Sold by all medicine dealers.

POND'S EXTRACT. It has passed on its own merits, from obscurity to a world renowned popularity.

Farm for Sale.

Peterborough Examiner.

PETERBORO', FEB. 19, 1874.

Editorial Items.

Personal.

We have to thank the Honorable W. J. Armstrong, Minister of Finance and Public Works, British Columbia, for several valuable maps of explored territory in that Province, and for returns of income and expenditure, and other valuable Parliamentary papers.

Decennial Census of 1871.

We have received the 2nd volume of the Report of the Census of 1871. It is now three years since the Census was taken, and we have just received the 2nd volume. There is to be a 3rd volume. If the McKenzie government does no better than the late government, they may prepare for the taking of the next census, as the last volume of relating to the late one shall be completed.

Cobourg.

W. J. Stanton Esq., has been appointed Police Magistrate for the Town of Cobourg. The appointment is regarded as a good one.

The Duke of Edinburgh has taken to himself a wife, daughter of the Czar of Russia. The British Parliament has settled an annual grant on the Duke of £75,000, and the Queen has added £50,000. The Czar has given his daughter $700,000 and provides for a yearly payment of $40000,000. These four items ought to keep the happy couple from pecuniary difficulties.

Manitoba.

Riel is again elected for Provencher, Manitoba. It is not known whether he intends taking his seat in the House, and await results.

Bishop Guigues, R. C., of Ottawa is dead.

I Alone have escaped to tell thee.

Dr. Tupper is the only member of the late parliament from Nova Scotia, who returns to tell the evils that have befallen the John A McDonald Government, in that distant province. "The fire" of justice has fallen on them and consumed them, and only Dr. Tupper returns or "remains" to tell his master, the sad fate of his associates. Let us hope that the Doctor will in future, keep good company, and be one of the number.

Government Grant to the Collegiate Institute.

We are pleased to be able to state that the Grant from the Government to the Peterborough Collegiate Institute, for the last half of 1873, was no less a sum than $1,583—$83 more than Queen's College, Victoria, or Trinity used to get when they received "State Aid". This Grant is for the Institute proper; for the Public School Department there is another grant, but of far less amount, and from a different fund. The sum granted to the Public School for 1873, we have not yet ascertained; but we were informed that the Daily Average Attendance was about 320. The grant is now between 5 and 6 times as larger as it was when Principal Dixon took charge of our Schools at the beginning of 1868.

Assessment Law.

The Assessment is being again amended. The principal change is the exemption of Bank Stock from taxation, and a provision for taxing the "interests, dividends and income accruing therefrom," if held by parties living in the Province. There will be a difference of opinion on the wisdom of this amendment, according as parties are or are not holders of Bank Stock. A much better plan would have been to tax the business of each bank, taxing the *branches* where they exist. The tax would then come out of the whole business, just as the tax comes out of any mercantile house, the balance of gains being held as net profits for dividends, rests, &c. That the stockholder does not receive any benefit from Local improvements is not strictly according to facts, but perhaps it is not so direct as in the case of men residing in the place. If, however, any number of men had $100,000 or $500,000 in business, they will be taxed on their stock in trade, why not tax them on their interest, dividends or income? The only answer given is, it might drive capital out of the Province and perhaps this is a sufficient reason for the present change in the Assessment law. It would perhaps be as well to pass an Assessment Law and then let it alone. Too much patching as oft makes the rent worse-as to be of any advantage, while very important things escape the attention of the most careful Legislators.

Orange Social.

The Orange Social under the auspices of L. O. L. No. 49, held in the Good Templars' Hall, on Friday evening was very successful. The Hall was crowded with members of the order accompanied by their wives, sisters and other ladies, whose attractions to some at least, were just as effectionate and tender. Mr. H. Nesbit, Master of the Lodge, occupied the Chair. Speeches were made by Bro. R. Weir, District Master, Bro. J. P. Brown, Deputy Reeve of Asphodel. Bro P. Pearce, of Belmont, Bro. Blezard, District of Otonabee, Bro. Stratton and Bro. Kennedy. Appropriate pieces were sung by an excellent choir under the leadership of Bro. H. Friend, which enlivened the proceedings. Mr. D. Haggart read an Irish letter which caused bursts of laughter. The evening was very pleasantly spent and all appeared so well pleased that they were promising themselves another Social soon. After the proceedings in the Hall were terminated by singing the national anthem, many of those present retired to the Orange Hall, to enjoy themselves further in the waltz or schottische, but the older and more serious to the quiet retreat of the arms of Morpheus.

New Hotel.

Mr. Hutchings, of Port Hope, has rented the new hotel lately erected by Mr. Hamett in Hunter street, and is fixing it up in first class style. The building is new and very commodious, and with new furnishings and a first class host as Mr. Hutchings is, the new hotel will be a first class one.

The Port Hope Times favors the proposal of the Midland Railway Company, with a view to raising funds to extend the line to Midland. From their stand point, they seem to see in the "interests of Port Hope irrespective of party or personal feelings." If this were always done there would be more contented progress perhaps in our Town.

Dominion Parliament.

We understand that the Dominion Parliament will meet for dispatch of business about the 10 or 12th of March.

Change in Ministry.

Wheat fell to $1.25 for Spring, and $1.10 to $1.15 for Fall, on Friday last. Wood is ranging $3 to $4 a cord, sawed, according to quality.

Mr. Blake retired from the Ministry.

Hon. Mr. Blake has given up his position in the Ministry, but will still remain in the House the warm advocate and friend of the McKenzie government.

The Editor of the "Christian Guardian" and his Accusers.

We clip the following from the *Guardian*: "In the partisan strife of the late elections in Toronto, many false rumours were started that had no foundation to rest upon. Anonymous statements have been made about the Editor of this paper, that he has not thought it worth while to contradict. It is not true that he in any instance canvassed or asked any elector to vote for or against either of the candidates in East Toronto or anywhere else. Some other allegations are equally false.

The Warden.

And Messrs Pearce, Choate Peck, Wells and Millar, members of the County Council left yesterday for Toronto, to press on the Government the wisdom of giving a grant of money to Colonization Roads and for the Bridges at the Narrows of Stoney Lake, and of reducing the price of lands in Galway and Methuen.

Caught and Fined.

For fast driving over the Iron Bridge, Mr. Reynolds caught two parties driving fast over the new Iron Bridge on Tuesday. The first one Robert Mc Millan, was fined $1 without costs. The second party John Lentick was fined $5 and $2 costs, both got off for less than anticipated.

Farm for Sale.

Persons desirous of purchasing a good farm, in one of the best Townships in Canada, the Township of Smith, would do well to attend the Auction Sale a Cassie's Hotel, on the 17th of March next at 2 o'clock, p.m. The farm is on the shore of Mud Lake and contains about 140 acres. See advertisement in another column.

Shot by her lover.

A young man named Rourke of Salem Coy, N. J., lately shot a young lady in a fit of jealously. They had been affianced. The occasion of the unfortunate affair was there being at a party, when his suspisions of her affection for some other caused jealously to take possession of his mind, he then left for home, short ly after Miss Lloyd also left for home in a carriage with two gentlemen, while passing through a piece of woods, a rifle shot was heard and immediately Miss Lloyd said she was shot. The ball entered near the shoulder blade, and lodged in the region of the right Lung. Rourke was arrested but maintained that the pistol was discharged by his slipping on the ice. They are both about 17 years of age.

WHAT SHOULD BE DONE.

In 1872 an Elector thoughtlessly voted twice against Mr. Claxton, and immediately after the election Mr. H. H. Smith, took action against him and was almost implacable. Mr Smith was the Attorney who took action, on behalf of another person. The matter was settled after incurring considerable costs.

In 1874 another unfortunate elector in his zeal has voted twice for Mr. Scott, and to this breach of the law, we are informed took the oath the last time, thus adding perjury to the crime of voting twice. Now what should be done to this latter over-zealous elector? To follow the example set in 1872, the man should be tried for breach of the Election Law, and also indicted for perjury. This would be following the Conservative example set us. After all are they worthy of imitation? Is it not better to leave the man to the remorse such ill conceived acts generally bring in their train? In the Election of 1871, the Reformers passed over a similar offence, and they cannot loose now by forgiving this one.

ANOTHER SET OF CRIMES.

We are informed that, two or three wrong votes were polled in Otonabee for Mr. Rogers by parties personating absent electors, and others were in time prevented doing the same thing. We cannot charge Mr. Rogers with being a party to these acts, but we may ask who paid for the whiskey which made men so drunk that they so far forgot themselves? We do trust that no act of this kind was attempted by Reformers. Indeed if it has been done we will soon hear it.

PORT HOPE AFFAIRS.

The reception of the circular from Mr. Hugel President of the Midland Railway, on the connection of the Railway, with that Town and its harbour will be sufficient excuse for a word or two on matters peculiarly affecting our sister Town.

Mr. Hugel intimates a desire to have a Harbor on Lake Ontario not subject to any charge, entirely under the control of the company as is their Harbor on the Georgian Bay, and for this purposes to buy the Harbor at Port Hope. It appears that the harbor debt is about $136,000, the interest of which is $9,650 annually. The present income is not stated, but we suppose it must be in excess of this sum. He proposes to give the Town for the harbor $115,000, over and above the present Harbor debt, equivalent to $6,900 a year. The Railway Company proposes to get the necessary Legislation to assume the debt; and to give a bond to pay the purchase money in five years guaranteeing the interest in the mean time. The Company proposes then to get power to issue $400,000, Midland Railway Harbor Bonds, to the amount of $260,000 to pay off all the debt and and purchase money. To spend $75,000 in erecting an elevator on the Harbor, and $75,000 to be expended in farthering the completion of the Omemee, Bobcaygeon and North Peterborough Junction Railway.

In the circular reference is made to the offer of Mr. Hugel to the Council of the Town of Peterborough to make this the terminus of the exhibition, on condition of receiving a large bonus. If we rightly understand the circular, the terms offered to Port Hope would appear to Her interests, but the portion referring to Peterborough, so far as this town is concerned requires full consideration before in any way committing ourselves to it.

The interests of the Town of Port Hope and the Midland Railway are mutually dependent. The one cannot prosper without affecting the other, but the Town is most dependent on the prosperity of the railway. It may be necessary to appears its prosperity that the town should concede to the reasonable wishes or offers of the Railway Company, and if found necessary the people should not hesitate about trifling obstacles. These things are best known to the parties themselves.

The Midland Railway must become a great carrying through fare as soon as it reaches Midland. The trade will no doubt be of great disadvantage to Port Hope, but at this distance we cannot carefully calculate the advantage and corresponding advantages so as to form an intelligent judgement, so far as the town of Port Hope and Mr. Hugel's proportions are concerned, but there can be no doubt as to the course the Town should pursue, if the health of the Railway demands sacrifice, or assistance. As advocates of the principle of non interference by outsiders, we can only advise liberality as the best means of securing progress through the prosperity of the Railway. The interests of Peterborough are peculiarly ours, and any propositions that does not appear to us well calculated to benefit us in the first place it will be received with caution, or opposed.

The interests of Port Hope may not be to the interest of Peterborough. Indeed in Mr. Hugel's propositions to Port Hope there is much to recommend them for acceptance, if not for immediate and complete acceptance at least for consideration, and perhaps, modification.

The portions of the circular having special reference to Petrboro we may more fully discuss as Railway matters develope themselves.

COUNTY VALUATORS.

The County Council at its late session appointed two Gentlemen as County Valuators. The gentlemen are Mr Fisher late Warden of Northumberland and Durham and Mr. Staples late Warden of Victoria The object of the Valuators will be to value Real Estate throughout the whole County, so as to secure an equitable basis for equalization for County purposes.

Gentlemen residing outside of the county were selected so as to prevent charges of partiality, if men residing in the county had been chosen.

The cost of the valuators will depend largely on the work and the manner of performing it. If the men should merely drive through the County making comparative appraisements in districts, and leaving the Township Assessors still to do their work as they have been accustomed to, the money will be as bad as lost. In our advocacy of County Valuators we supposed that men would be selected and directed to carefully value each lot in the county, and this valuation would be taken for Townships, as well as for the County purposes. The Township Assessors merely valuing the chattel and personal property. The great source of complaint has been the unequal Assessment both in the Townships and in the same Municipalities when compared with each other, and it was thought the appointing of the same men for the County would obviate these unequal assessments.

In some instances Land was found assessed at only three per cent of its cash value. While property in the same municipality would be assessed at 60 to 75 per cent of its cash price. If the appointment of valuators for the county remedy this irregularity they will have done good service, but if they do not, the cause of complaint remaining, the injustice will remain. The Warden and advisory committee will, no doubt, give them the best instructions they can, and we must await their returns when we may be able to judge more justly of the result of their labors. The men selected are said to be fit persons for the work.

COUNTY COUNCIL.

WEDNESDAY.

The Council met on Wednesday. All the members present, except Messrs. Powell and Calvert. Isaac Garbutt, Esq., Warden, in the chair.

The minutes of yesterday were read and approved.

Moved by Mr. Choate, seconded by Mr. Brown, that the Warden and Messrs Millar, Pearse and the mover be deputed on behalf of this Council to proceed to Toronto, to urge a grant in favor of the several Colonization Roads within the County and the proposed bridge at the narrows of Stoney Lake and also to represent the views of the Council touching Railway Legislation.—Carried.

Moved by Mr. Brown, seconded by Mr Blewett, that this Council grant the sum of seventy-five dollars in aid of the Norwood brass and reed band and that this resolution be referred to the Finance Committee.—Carried.

On motion of Mr. McCarthy, seconded by Mr. Blewett, Col. Poole addressed the Council on behalf of the 57th Battalion Band, asking a grant of a sum of money to aid in keeping up the Band.

On motion of Mr. Collins, seconded by Mr. Galbourne, the Committee on appointments to office reported. The Report was given in last issue.

On motion of Mr. Peck, seconded by Mr. Brown, J. P., the report was referred back to the Committee, with instructions to strike out that clause recommending the appointment of two Councillors as a committee to act jointly with two Commissioners appointed by the Town Council to take charge of any repairs of the Iron and Locks Bridge, over the Otonabee.

Moved Mr. Peck seconded by Mr. Sanderson, that the report of the Committee on appointments to office having been referred back to the Committee that it be instructed to recommend the appointment of two members only as an advisory Committee.

Moved by Mr. A. Brown, seconded by Mr wells, that the Council memoralize the Lieut.-Governor in Council that no further powers be granted having for their object the compulsory grouping of any of the Townships in the North of this County, for the purpose of obtaining Railway aid for the issue of Debentures therefor, or in any other way, without having obtained at least a majority of the ratepayers of each of the Municipalities affected thereby and that a memorial to this effect be read a first time, The Council went into Committee of the whole on the second reading of the memorial. Mr. A. Brown in the chair. Memorial read in council of the whole without amendment.

On motion of Mr. A. Brown, seconded by Mr. Wells, it was read a third time and passed.

On motion of Mr. Pearse, seconded by Mr. Galborne, the County Inspector of Schools reported.

On motion of Mr. Pearse, seconded by Mr. Brown, J.P., the report was fyled.

On motion of Mr. Pearse, seconded by Mr. McCarthy, the Council went into Committee of the whole to discuss a petition from John Graham and others praying for the erection of a bridge over the Otonabee River at Young's Point. Mr. Choate in the Chair.

The Committee arose, reporting referring the whole matter to the Road and Bridge Committee.

On motion of Mr. Sanderson, seconded by Mr. Collins, the Council adjourned until ten o'clock on Thursday.

THURSDAY.

The Council met.

All the members present except Messrs Powell and Calvert.

The minutes of yesterday were read and approved. The Warden in the Chair.

Moved by Mr. Collins, seconded by Mr. Galborne, that the Committee on Appointments be allowed to report.—Carried.

The Report was read.

AMENDED REPORT.

The Committee on Appointments to Office beg leave to report recommending the following appointments for the current year—

That John A. Butterfield and W. H. Stephenson be Trustees for the Norwood High School.

That Messrs. Collins and Millar be the advisory Committee.

That Messrs. Peter Pearce and J. Stratton be a Board of Audit of Criminal and County Accounts.

All of which is respectfully submitted.

HENRY COLLINS, Chairman.

On motion of Mr. Galborne, seconded by Mr. Blezard, a By-law appointing County officers was read a first time.

On motion of Mr. Galborne, the Council read the By-law in Committee of the Whole, and amended it.

On motion of Mr, Blezard, seconded by Mr. Millar, the By-law was then read a third time, as amended, and passed.

The Committee on Petitions reported, and was received.

THE REPORT.

The Committee on Petitions beg leave to report

That they have examined the Petitions of Mr. T. Burke, on behalf of the Norwood Band and of T. D. M. Croley, asking for a further sum on accounts of work done on the Registry Office, viz., $200, and recommend that both Petitions be referred to the Committee on Finance.

All of which is respectfully submitted.

JAMES MILLER, Chairman.

Mr. Moloney moved, seconded by Mr. Galborne, the adoption of the Report.

Mr Brown moved in amended, seconded by Mr. Galbourne, that the Report be amended by referring the petition of Mr. Croly to the Committee of the whole Council and that Mr. Croley receive notice to appear before the Council. The Report was adopted with this amendment.

On motion of Mr. Moloney, seconded by Mr, Pearse the propriety of granting a sum of money for the purpose of erecting a Lock-Up House at the village of Lakefield was referred to the Finance Committee.

Mr. Collins addressed the Council on the question of privilege.

On motion of Mr. Pearse, seconded by Mr. Moloney the petition of Samuel Sherin and 119 others was received and read.

On motion of Mr. Pearse, seconded by Mr. Moloney,—That the deputation from Lakefield on the subject of incorporation of the village was heard.

Moved by Mr. Peck, seconded by Mr. Pearse,—That the proper steps be taken to comply with the prayer of the petition of the village of Lakefield with regard to the incorporatiion of the said village and that the Warden and Messrs. Pearse, Moloney and Choate be a special committee to prepare the necessary By-law. —Carried.

The Warden submitted a letter from Mr. O'Beirne, Deputy Clerk of the Crown and Clerk of the County court respecting his office and want of vault accommodation. Also a letter from the Clerk of the County of Carleton, including copy of a memorial to his excellency the Lieutenant Governor of Ontario, praying that provision be made for the erection in the Eastern Section of this Province of an Idiotic Asylum.

On motion of Mr. Sanderson the letter from Mr. O'Beirne was referred to the Committee on County Property.

Moved by Mr. Blezard, seconded by Mr. Moloney,—That the motion passed yesterday appointing a deputation to Toronto be so amended that the Warden and Mr. Choate be the deputation.

In amendment, Moved by Mr. Peck, seconded by Mr. McFarlane,—That the name of Mr. Wells be added to the deputation in regard to colonization roads and that the said deputation press upon the Government the necessity of complying with the Memorial of this Council in regard to the deduction in price of lands in Galway and Methuen.

The amendment proposed by Mr. Peck was carried on the following division for the amendment.

Yeas—Messrs. Choate, J. P. Brown, Blewett, McFarlane, Peck, Wells, A. Brown, Pearse, Millar, Galborne, Rogers. Nays— Messrs. Blezard McCarthy, Moloney, Collins and Sanderson.

On motion of Mr. McFarlane, seconded by Mr. McCarthy,—The name of Mr. Peck was added to the Toronto deputation,

Moved by Mr. Pearse, seconded by Mr. J. P. Brown,—That Messrs. Roxburgh and Moore address the Council on the subject of the Norwood High School. Carried.

Messrs. Roxburgh and Moore then addressed the Council. Mr. Brown, Inspector of Public Schools also addressed the Council in favor of a grant to the Norwood High School.

The Council then adjourned till 10 o'clock to morrow.

FRIDAY.

The Council met pursuant to adjournment.

The Warden, I. Garbutt, Esq., in the chair.

All the members present except Mr. Powell.

The minutes of yesterday were read and approved.

On motion of Mr. Peck, seconded by Mr. Pearse, the Reeve of Emmemore was added to the Finance Committee.

Moved by Mr. Peck, seconded by Mr. Miller, that there be two County valuators appointed to make a valuation of the County, for the purpose of forming the basis of County rates for the next five years.—Carried.

Yeas—Messrs. Moloney, Choate, Blewett, McCarthy, McFarlane, Peck, Miller, A. Brown, Calvert, Pearse, Galborne. Wells, Rogers and Sanderson.—14. Nays—Messrs. J. P. Brown, Blezard and Collins.—4.

Moved by Mr. Peck, seconded by Mr. Miller,—That the valuators be chosen from persons residing outside of this County, not being property owners in the County.—Carried.

Yeas—Messrs. Moloney, McFarlane, Peck Wells, A. Brown, Calvert, McCarthy, Blewett, Pearse, Blezard, Wells, Rogers, Sanderson. — 13. Nays — Messrs. Choate, Brown, J. P. Brown, Galborne, Collins.

Moved by Mr. Rogers, seconded by Mr. T. B. Brown—That whereas a House of Refuge or Asylum for such persons as are unable to provide their own living is much required in this County, be it resolved,—That a committee be appointed to make enquiries respecting the erection and management of such institutions and report the result of their enquiries to the next meeting of the Council.—Carried.

Moved by Mr. Peck, seconded by Mr. McFarlane,—That the Warden and Messrs. Rogers, Pearse, Choate, Millar, J. P. Brown, A. Brown, and McCarthy be a committee to prepare instructions prescribing the duties of the County Valuators, and also to name persons to be appointed Valuators.—Carried.

On motion of Mr. McFarlane, Mr. Peck's name was added to the Committee and the motion was adopted as amended.

Moved by Mr. Rogers, seconded by Mr. Collins,—That the Warden and Messrs. Moloney, Sanderson, Blezard, and the mover be a committee to investigate and report upon the subject of a House of Refuge.—Carried.

Moved by Mr. Pearse, seconded by Mr. Collins,—That a By-law to appoint certain persons for the purpose of taking a census of the proposed village of Lakefield be read a first time.

The By-law appointing Mr. G. J. Galvin and S. Sherin to take the census was read a second and third time and passed.

On motion of Mr. Rogers, seconded by Mr. Peck, the Report of the Special committee appointed to nominate County Valuators and to define their duties was read and adopted.

THE REPORT.

That the said valuators make the same declarations of office and make their returns in the same way as is required by law from Assessors.

That the said valuators proceed to make their valuation of real property in the same way and under the same laws and restrictions as are now in force for taking the annual assessments by the Township Assessors or any By-laws or regulations which may become in force before the completion of their duties.

That Mr. Fisher, late Warden of the county of Northumberland and Durham, and Joseph Staples, late Warden of Victoria be and are hereby nominated as valuators.

That the said valuators commence their duties as soon as convenient after the 1st day of May, next, and complete the same as soon as possible.

Signed, R. D. ROGERS, Chairman.

On motion of Mr. Peck, seconded by Mr. McFarlane Mr. T. M. D. Croley addressed the Council asking for an extra grant for the completion of the Registry office.

Moved by Mr. Peck, seconded by Mr. Pearse,—That an extra grant of $200 be made to Mr. T. M. D. Croley as a final settlement for the erection of the Registry office in consequence of the many difficulties under which he labored and over which he had no control.—Carried on the following division. Yeas, Messrs. McFarlane, Peck, Wells, Calvert McCarthy, Pearse, Galborne, Collins. Nays—Messrs Moloney, J. P. Brown Blewett, Millar, Choate and Sanderson.

Moved by Mr. Pearse, seconded by Mr. Blezard,—That a By-law to appoint certain persons for the purpose of taking the census of the proposed village of Lakefield be read a third time and passed. The By-law was read.

On motion of Mr. Rogers, seconded by Mr Peck, a By-law appointing County Valuators was read a first time. It was also read a second time and passed.

Moved by Mr. Galborne, seconded by Mr. Pearse,—That a memorial be presented to the Lieutenant Governor in Council in respect to certain lands in the Free Grant Townships of this County known as "Pine Lands," asking for the said lands to be examined, and so much thereof as is fit for settlement to be located as other lands in the Free Grant townships. -Carried.

The memorial was read a second and third time and passed.

The Council adjourned till 9 o'clock on Saturday.

SATURDAY.

The Council met pursuant to adjournment. The Warden in the chair.

All the members present except Mr. Powell.

The minutes of yesterday were read and confirmed.

On motion of Mr. Pearse, seconded by Mr J. P. Brown the Road and Bridge Committee reported.

THE REPORT.

The Committee on Roads and Bridges beg leave to Report—

With regard to the petition of John Graham and 191 others praying for the erection of a Bridge across the river Otonabee at Young's Point, your Committee recommend that a sum of money equal to one half the cost of its erection be granted by this Council provided the Municipality and individuals particularly interested raise the other half and provide the right of way to the approaches, the said appropriation not to exceed $1500 and to be paid when the said bridge and approaches are completed to the satisfaction of the Warden.

From the Report of the Engineer, your Committee learn that the Nassau Bridge has been completed at a cost of $3,901.70 being $101.70 above contract price.

And that the Locks Bridge has also been completed at a cost of $6041.25, being an excess over the contract price of $341.25, which was caused by an extra pier, iron prisms and bandrailing.

The slabs at Beckhorn Bridge have been removed and a bridge built to replace them at a cost of $445.30. The Engineer further reports that he has examined the Iron Bridge and found that the links are sound, The stones on which the arches rest are split and some stones in the piers are also split; that he does not apprehend any immediate danger to the Bridge, but would suggest that the masonry be repaired as soon as the weather will permit.

With regard to the application from the Warden of the County of Victoria asking joint action with his Council to repair the Lancaster Bridge. This Committee is of opinion that this matter belongs to the local Municipalities adjoining.

Your Committee would recommend that application be made to the Council of Victoria to assist in keeping the Pigeon Creek Bridge in repairs it being strictly a boundary line Bridge.

All of which is respectfully submitted.

PETER PEARCE, Chairman.

On motion of Mr. Pearse, seconded by Mr. J. P. Brown the report was adopted.

On motion of Mr. Pearse, seconded by Mr. Rogers, a By-law to assist in erecting a Bridge at Young's Point was read a first time.

On motion of Mr. Blezard, seconded by Mr. Pearse, the By-law was read a second time in committee of the whole.

On motion of Mr. Sanderson, the By-law was read a third time and passed.

On motion of Mr. Rogers, seconded by Mr. Sanderson, the report of the Finance Committee was received and read.

The Committee on Finance beg leave to report, recommending the payment of the account of the following claimants and fyling

Your Committee are pleased to learn by the letter from Messrs. Boulbee, Fairbairn and Peapette, that the suit of Peck vs Peterborough has decided favorably to the County.

The communication from T. T. Huffman being a matter in which the Township of Harvey alone is interested the Clerk will please refer it to the Corporation of that township.

That the report of the Committee to whom was referred the claim of Thomas Eggleton is very satisfactory and your Committee are glad to find that the matter has been finally and satisfactorily settled by the payment of $250 to Mr. Eggleton and recommend the confirmation of the report.

Your committee would recommend that in future the accounts of the School Board of

To the Editor of the Examiner.

Sir, the members of the Belmont Star, and Pride of Blairton, B Templars held a successful Temperance meeting at Youngs School House Belmont, on Thursday the 5th of February 1874.

Able addresses were delivered on behalf of Temperance; by Messrs G. W. Holcomb, James B. Peoples, James S. Meikle and the Rev J. A. Jewell, with readings by Messrs J. C. Hawkesworth J. Stratton.

The Music and singing was all that could be desired, Miss Annie Bell presided at the Melodeon, after which Mr. J. S. Meikle, went round and obtained the names of twenty tarve persons willing to enroll themselves as members of a new Lodge to be held at Young's school house the first meeting to be held on Wednesday the 18th of February, when the new lodge will be organized, there will be then four lodges of British Templars in Belmont. One at the Orange Hall, one at Blairton, one at Garrisons and one at Young's. There were about one hundred present; after singing the National Anthem the Benediction was pronounced by the Rev. J. A. Jewell, and the meeting adjourned till Wednesday the 18th of Febrbary, after having spent a very pleasant evening.

AN EYE WITNESS.

Mr. Thomas Houston, merchant Taylor of Toronto, has made an assignment. He assigns also his reasons. He has suffered from certain classes of the. Community by non payment. But let us give his own words, they are Pungent.

"With bolts and bars, aided by the vigilance of the night watchmen, we can generally protect ourselves from the depredations of the prowling thief and burglar, but they are gentlemen (save the mark) of distinction from ordinary mortals, who sneak in under the shade of an apparent respectability, who are a greater curse to the business community than the former, whose acts, if detected, cannonly consign them to a term in the penitentiary, where they should certainly, if the Vagrant Act was properly enforced, be accompanied by the latter whose absence in community would neither be measured nor lamented. These gentlemen will bear classification. There is the "fast young man," whose limited means and leisure hours are generallyspent in amusements of a trifling character, and who would blush to acknowledge that he was in debt for "the drinks," cigars, or billiards or had failed to pay that small bet on the late race or game made with his fellow companion, and who at the same time willboast of his having, gone through,' such and such a tailor, shoemaker, or gents furnisher. Then comes what is commonly known as the "howling swell," whose intelect is so small that by it he never could create an impression, hence the necessity of draping his manly form far beyond his means. Next there is what I would call the "table bodied loafer," or what he might be pleased to consider the *gentleman*, whose birth and parentage debar his engaging in any manual occupation that would ensure to him an honest living. Last but not least in the category will come the miserable creature, who, in his early days, was impressed with the idea that he was born to be a professional man, (solicitor, for example), whose best energies were spent in gaining the title he afterwards so much degrades, and whose natural abilities, if rightly directed and applied, would have made him a burning and shining light as a feeder of hops, rather than a counsellor of men. Now sir, I have no doubt the question would naturally enough occur to many who are unacquainted with the wiles used by these parties for the purpose of obtaining credit, Why do you trust them? Because under the system we so much complain of, it is often hard to discriminate. As I am one of those who have suffered severly, I would recommend for the benefit of those engaged in the business and I am sure my recommendation; if not adopted, will at least meet with the approval of a majority, if the credit system must be continued, that an association be formed for protection against the false representation of the sharks referred to; but as the buisness is one which to carry on, requires a large cash outlay, the sooner it is reduced to a cash basis the better it will be for all concerned.

Daring and successful Burglary.

THE COUNTY TREASURY RIFLED.

A daring and completely successful burglary was accomplished in the county Treasure's office, at some hour between Saturday evening last and yesterday morning. The precise moment is not of so great consequence on the facts which follow. The Treasure's offices are on the corridor on the ground floor. The door of the outer room was burst open by breaking the bolt of the lock which was apparently no dificult matter as no serious injury had been done to the door in the effort. Then they proceeded to an inner room, from which the door to the vault led off. The vault between this inner room and the vault is probably 30 inches in thickness, which is the depth of the passage between them. There are two doors, as in the ordinary construction of such places, an outer and an inner, leaving the space between the two so large that a man can comfortably stand in it. The robbers did not appear to have touched the outer of these doors at all, but had dug a hole in the solid brick masonry of the 30 inch wall from the outside, throuth to the space between the doors big enough for a man to stand and use the tools with which he pryed open the padlock that held the band and staple which were the only fastenings of the inner door. All the difficulty was over now and they commenced harvesting. There one of the rooms, but it does not appear that the burglars had used any of it for any of their purposes. The property of value, which was taken, was placed in a number of ordinary small cash boxes—as there is no safe in the vault. Those were lying on the floor, and it had been an easy operation to break them open. The loss is on the part of the Treasury, two City of Toronto debentures, recently purchased by the county for $1.000 each, numbered respectiqly 2954 and 2955, dated july 1st 1863, and due 1st July 1863. about $1.50 in cash, and money belonging to Mr, Sinclair, a clerk, amounting to about $40. There were also, belonging to Mr. McLean Howard, clerk of the Division Court, about $300 in cash a diamond pin worth probably as much more, and a gold watch of high value, at a low computation, the whole loss not less than $700. A bag of silver, containing $65, was left lying on the floor of the vault unnoticed, a fact which the rascals will notice with painful regret. The theory is that they got over the wall at the rear, thence by a ladder that is placed against the roof to an upper window, from which the way down is easy. The whole work shows marks of skilled labour, and it will be a work of laudable emulation for our detectives to track the robbers and bring them to justice. *Globe.*

BRIDGE STREET SCHOOL, LAKEFIELD PUBLIC SCHOOL.

The following items of the monthly report of the Lakefield Public School, has been kindly furnished us

During the month of January the attendance was as follows:

PRIMARY DIVISION.

Total number on Roll 62
Aggregate attendance 695
Average 30

INTERMEDIATE DIVISION.

Total number on Roll 59
Aggregate attendance 580
Average 34

SENIOR DIVISION.

Total number on Roll 44
Aggregate attendance 472
Average 27
Total number of names on School Register, of which 14 are non-residents 164
Average attendance of whole School 101

As there is no *Blackford* in the Primary Department, a request was made that one will be provided immediately, and that the teachers be furnished with desks

NORTH MONAGHAN COUNCIL.

January 19th, 1874.

The members of the new council met in pursuance of the statute, when H. Collins, Esq., Reeve, and councillors Birney, Robson, Brownscombe, and Leary, made and subscribed to the necessary qualifications of office.

Minutes of last meeting read and signed. In his official capacity the Reeve named Saml, J. Carver, Esq. as the first auditor of township accounts for 1873, and the Council Jas. Edwards, Esq. as the second. A By-law confirming same received its several readings.

A By-law to appoint certain township officers was read a first time.

ORDERS OF TREASURER.

Mrs. Keef $6.50, charity to purchase flour; Robt. Northcott $9, for repairing culvert and drawing clay; Chas. Braley $6, for collecting Drain Tax; A. Goodfellow $8, for work done on boundary line.

On motion of councillor Leary, Mr. Birney was directed to purchase a stove for the use of the Town Hall, and the Clerk to return certain papers to the township Clerk of Cavan.

Council adjourned to the call of the Reeve.—COM.

Mr C. J. Brydges, General Manager of the Grand Trunk Railway, has been committed on a charge of man slaughter arising out of the corner's inquest upon the accident on the railway crossing at Levis. Bail was accepted, and the *venue* changed from Quebec to Montreal. The case will come on at next term of the Court Queen's Bench.

Eggs have sold as high as $1 per dozen in Winnipeg. The manitobans *must raise more* chickens if they want to have a supply of fresh eggs.

MARRIED.

ROSE—PATTERSON—At St. Andrew's Manse, on Saturday, 14th inst., Mr. William Rose, Farmer, Cavan, to Ellen Patterson, of the same place.

DIED.

ROBINSON—Peterborough—At Peterborough on the 11th inst., Mr. Edward Robinson, Merchant, in the 43rd year of his age.

TUBERCULAR CONSUMPTION. My health has been declining since 1857; during the whole time I was unable to do any work. In February, 1873 I was taken with a dreadful cough The amount I raised in twenty-four hours was incredible to tell. The doctors only gave temporary relief. I was advised to use Fellows, Compound Syrup of hypophosphites. I commenced using them freely, and I can say, with a clear conscience, it has effected wonders. I am now able to work, which for eleven years I was incapable of

Hammond River N. B. JAMES JOHNSTON

"Fellows, Hypophosphite" must not be confounded with other preparations of Hypophosphites. It differs from all others.

A Beautiful Horse. There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desireable, as "Darley's Condition Powders and Arabian Heave Remedy;" It has been used by many persons who own valu able carriage and other horses with decided success, and so pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name, and see that the signature of Hurd & Co, is on each package. Northrop & Lyman Newcastle, Ont., proprietors for Canada Sold by all medicine dealers.

For over twenty years "Bryan's Pulmonic Wafers" have maintained their reputation for curing coughs, colds, and pulmonary diseases. Those sufferings or threatened with any of the symptoms of bronchitis, or any of the pulmonary complaints, should at once give them a trial. They give almost immediate relief, and if taken in time generally effect a cure. Remember that a common cold or cough if not attended to in time, often leads to that distressing and fatal disease—Consumption. Sold by all druggists and country dealers. Price 25 cents per box.

Useful Information.—It is said that olive oil administered internally is an excellent remedy for the gout, and is also beneficial in paralysis and epilepsy; but for the cure of rheumatism, neuralgia, colds and colic, and the removal of pains generally, there is nothing like the Canadain Pain Destroyer," it is the most reliable remedy. For sale by Druggists and country dealers. Price 25 cents per bottle.

We noticed in one of our exchanges this week the statement of Dea. John Hodgkins, of South Jefferson, Me., whose son was cured of incipient consumption by the use of Jonas on's Anodyne Liniment. We refer to this at this time as leading to corroborate the statement we made last week in relation to this Liniment as applied to consumption.

RIGHT and WRONG.—It is wrong to jest with your wife upon a subject in which there is danger of wounding her feelings, and it is wrong to speak of great virtues in another man's wife, to remind your own of fault; but it is not wrong after trying the "Canadain Pain Destroyer" and finding its wonderful effects, to recommend it to your neighbors, for the cure of rheumatism, neuralgia, cramps, cholic, &c., it has no equal. For sale by Druggists and country dealers. Price 25 cents per bottle.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Then in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small of Oils which they may contain.

The Great Female Remedy.

Job Moses' Perdocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, or the Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel nor antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1 00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail

Sold in Peterborough by A. W. Kempt, Wm. Coulter, and Ormond & Walsh In Keene by A. Campbell, Campbell McNeil & Co., C Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, uncerpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Headache, Rheumatic and Kidney Complaints, Acid Stomach Phithisic or Asthma, and restores to vital activity the *system debilitated by suffering and disease.*

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceeding all other preparations of the kind

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is the best tonic in use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and healthy nutrition. All cases of general debility, arising from wasting disease, such as consumption, scrofula, all diseases of the skin, diseases of the blood, prostration of the *nervous system*, caused by protracted mental exertion, anxiety, over-work, or bad habits, will derive immediate benefit from it, frequently beginning with the *first dose.* It is a delightful cordial to take, and its use may be protracted for an indefinite period, without becoming disagreeable to the patient.

Dr. J BELL SIMPSON'S

SPECIFIC AND TONIC PILLS.

THE GREAT ENGLISH REMEDY FOR Nervous Debility, Spermatorrhœa, Nocturnal Emissions, Weakness of the Generative Organs, Palpitation of the Heart, Trembling, Sleeplessness, the effect of over-indulgence in alcoholic stimulants and tobacco, &c. Dr. J BELL SIMPSON'S Pills are the only effectual cure for the above diseases, and are never known to fail. They have already cured hundreds in this country. Robert Arthur, machinist, Hamilton, *testifies to his recovery* by their use Safe, certain, and rapid in action, a short trial will prove their efficacy. No sufferer need despair of being relieved from the frightful effects of SELF-ABUSE. The Specific Pills are sold by Druggists at $1.00 a box, and the Tonic Pills at 50c. a box, or they will be sent by mail, postage prepaid, and securely wrapped from observation, on receipt of $1.00 for the Specific, and 50c. for the Tonic Pills, by

Peterboro, June 1, 1870.

By-Law No —

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls.

WHEREAS the Corporation of the Town of Peterborough have resolved to grant aid by way of bonus to the Cobourg, Peterboro and Marmora Railway and Mining Company, to assist them in extending their Railway northward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars upon the terms and conditions hereinafter mentioned.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such By-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extension of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2 That the said Debentures shall be made payable in twenty years at furthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debentures shall bear interest at the rate of six per cent per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4 That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg, Peterborough and Marmora Railway and Mining Company or to whomsoever they may appoint to receive the same in the manner at the times and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said projected Railway shall have been completed and in running order from the Town of Cobourg to some navigable point on Chemong Lake and provided that it be so completed and in running order before the first day of March one thousand eight hundred and seventy-five, and another portion thereof, namely, to the amount of the sum of Twenty Thousand dollars to be issued and delivered to the said Company when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Bobcaygeon provided that it be so completed and in running order by the first day of January one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, providing it to so completed and in running order by the first day of January, one thousand eight hundred and seventy-seven Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned, But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall not become payable as provided by this By-Law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough obliging the said Company in a penalty of the sum of ten thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be commenced, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable to comply with the same—that is to say.

(1) That the said Railway Company shall run or cause to be run at least one train a day —a regular freight and passenger train—each way between Cobourg and the northern terminus for the time being, of the said Railway.

(2) That a solid embankment and bridge shall be constructed over the Rice Lake within a period of five years from the passing of this By-law according to the plans of Walter Shanly, Esq., Civil Engineer.

(3) That the said Company shall not nor will amalgamate with or enter into any arrangements with any rival company whereby a tariff shall be agreed to be mutually charged by both companies or for the apportioning of trade between them.

(4) That a regular Passenger and Freight Station of the said Railway shall be maintained in the Town of Peterborough,

(5) That the Mayor of the Town of Peterborough for the time being shall always be made a Director of said Company.

(6) That the tariff of the said Railway shall not in any case exceed the ordinary current tariff of the Midland Railway for the year 1871 and that the said tariff shall include a rate for the carriage of raw material from the front by the road to Peterborough for the purpose of manufacture, twenty-five per cent. lower than the ordinary tariff.

(7) That the Head of the said Railway shall reach Cobourg harbour at some point navigable for steam and other vessels, and that the Company shall provide and maintain ample harbour and station accommodations for forwarding lumber along the said line way to reach Chemong Lake.

(8) That some of the said Debentures shall be so delivered or withdrawable until a good and sufficient railway to the Town of Peterborough of and from the liability under the By-law granting the sum of $40,000 to the Peterboro and Haliburton Railway Company shall have been given to the said Town.

(9) The said Company shall never charge less for the conveyance of goods or passengers from any point south of Peterborough to any point north of Peterborough than from any such point north of Peterborough to Peterborough nor shall they ever charge less from any point north of Peterborough to any point south of Peterborough than from any such point north of Peterborough to Peterborough.

(10) In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to touch Chemong Lake on that side thereof next the Town of Peterborough

7. That unless work on the extension of such proposed Railway from Chemong Lake northwards be actually and bona fide commenced and thereafter continuously proceeded with on or before the the first day of January one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this By-law, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end

8. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed by-law on the tenth day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the wards of the Town at the places of polling therein respectively at the last Municipal elections, that the poll shall be opened at nine o'clock in the forenoon and closed at five o'clock in the afternoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jas Edwards for the Second Ward, Jno. Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The 10th day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein of the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough EXAMINER newspaper the date of which first publication was on Thursday, the Twelfth day of February, one thousand eight hundred eight hundred and seventy-four

J. EDWARDS, Town Clerk.

Peterborough, February 10, 1874.

NOTICE

IS HEREBY GIVEN that the Municipal Council of the Township of Dummer intend at its first sitting to be held at the TOWN HALL, on the THIRD MONDAY in JANUARY, 1874, to pass a By-law to legalize the following Road, viz:—

Commencing at the centre of allowance for road between the East halves of Lots 16 and 17 in the second concession of said Township; thence North 71 degrees, West 4 chains and 4 links; thence South 56 degrees and 30 minutes, West 2 chains and 30 links more or less, to the north side of the allowance for road, between the West halves of aforesaid lots; being in all 12 chains and 91 links in length, the described line to be the centre of the Road, and the Road to be 66 feet wide.

WILLIAM O'BRIEN, Township Clerk.

Dummer, December 30, 1873. 1-4in

NOTICE.

APPLICATION will be made at the next session of the Ontario Legislature for an act to construct a Railway from Peterboro, by way of Lindsay, Uxbridge, Newmarket, Orangeville, Arthur and Durham to Goderich harbor, with a branch from Bramale to Sunderland and Barrie, to be called the Ontario and Quebec, Goderich and Barrie Extension, with power to amalgamate or make running arrangements over the Whitby and Port Perry, Northern, Hamilton and Northwestern, Orangeville and Guelph, Credit Valley, from Orangeville to Toronto; Wellington, Grey and Bruce, Stratford and Huron, London and Huron, or any other Railways in the Province of Ontario. Also to run or charter ships steamers.

NOTICE.

Notice is hereby given, that application will be made to the Legislative Assembly of Ontario at its next Session, for an Act authorizing the Midland Railway of Canada to guarantee the interest on such Bonds, not exceeding nine thousand dollars per mile, on the Commence Bobcaygeon and North Peterborough Junction Railway shall issue, and for other purposes.

November 14. 1873. 47-6ins

NOTICE IS HEREBY GIVEN

That application will be made to the Legislative Assembly of Ontario, at its next Session, for an Act, authorizing the Commence Bobcaygeon and North Peterborough Junction Railway Company to commence their Railway at some point on the line of the Midland Railway at or near the town of Peterboro' such to change the name of the said Company, and for other purposes.

November 14th, 1873. 47-6ins.

PRIVTE BILLS.

PARTIES intending to make application to Parliament for Private Bills, either for granting exclusive privileges, or conferring corporate powers for commercial or other purposes of profit, or for doing anything tending to affect the rights or property of other parties, are hereby notified that they are required by the rules of the two Houses of Parliament (which are published in full in the Canada Gazette) to give TWO MONTHS NOTICE of the application (clearly and distinctly specifying the nature and object) in the Canada Gazette, and also in a newspaper published in the County or Union of Counties affected, sending copies of the papers containing the first and last of such notices to the Private Bill office of each House.

All Petitions for Private Bills must be presented within the first three weeks of the Session.

ROBERT LEMOINE, Clerk of the Senate.

ALFRED PATRICK, Clerk of House of Commons.

December 26, 1873 52-tf

LOST!

A BLACK PUP, white spot on Breast, and answers to the name of Rollo. Any person giving information that will lead to the recovery of the above will much oblige the owner by leaving same at the store of JOHN CAMERON, George Street, Peterboro.

January 22th, 1874. -tf

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favorable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully, EDWARD S. FRANKS, M.D., of Manchester, Lancashire, England, Lecturer on the human eye and ear and their diseases, inventor and patentee of Improvement in spectacles.

$5 REWARD.

LOST OR STOLEN

On Saturday, the 31st of January. A BLACK COLLIE DOG, (young) Brown feet and brown spot over each eye, hair slightly curled, any person giving information that will lead to its recovery will receive the above reward. Any person detaining him after this notice will be prosecuted.

FRANK SLOMAN, 10th Concession Otonabee.

February 2nd, 1874. 6-4ins.

Card of Thanks.

I HEREBY desire to thank all my young friends in Smithtown and North Monaghan for the very valuable assistance rendered me on Election Day by coming into town with their teams, and to the young Reformers of the town of Peterboro for the noble work they did on the 29th ult.

JOHN BERTRAM.

The lowest or any tender not necessarily accepted.

D. W. DUMBLE, Chairman Building Committee.

Peterboro, Dec

How to Succeed in Life.

I am always sorry for a man that knows how to do but one thing. I have seen many such men. I gave ten dollars to one who could speak and write five or six different languages, and translate beautifully; but in the middle of a hard winter he could not get a living. I remember another man who preached for twenty-five years, until his throat failed him, and used to go around looking very blue and sad until people pitied him, and made up little donation parties for him, because he was good for nothing but to preach. I knew a lady once who had taught school for twenty years, till she was a poor nervous, broken-down woman. I know a man that wants to keep store, and he sits with his thumb in his mouth waiting to be kept. I heard of a minister who, when his people gave him a horse and buggy, had to wait for the deacon's wife to come over and show him how to harness the horse, for he didn't know the bits from the crupper. Now, boys and girls every real man should know how to do several things tolerably well. Every wise farmer has a principal crop, but he puts in a little something else so that it his main crop fails he will have something to live on. Don't carry all your things in one basket. Don't put all your money in one pocket. If you want to get along right well, learn one sort of thing to get a living by, and all sorts of work to get along with when your one sort gives out.

At West Point, where they take boys and teach them to be perfect soldiers, they have to learn among other things to cook, to make bread, and their own beds, and to do their own sewing, and sweep and dust, for you know a soldier or a sailor never knows where his duty may call him, and the man who knows how to do the most things is the best sailor, the best soldier—that is to say the best man.

I never saw a woman do a man's work handily, but I liked her all the better for it; and I never saw a man do a woman's work neatly but I thought the more of him. For you see, that work is something that needs to be done, and he that knows how to do most, will have the best chance to make money, or which is better still, make himself feel like a useful man. For you see if a man feels himself to be of no use in the world, except to be a bug in a crack, and if the crack widens, be scared and drop, or if the crack closes be pinched; he is always anxious about the crack, for fear that something is going to happen and that he will be left out in the cold or else jammed.

Such a man can never be happy, because he can never feel that he amounts to much. But if a man feels that he cannot make shoes, he can curry horses, lay sidewalks, rake stones out of the road, spade in a garden, take care of sick people, or scour old coats; he is always sure he can do something.

The man will never feel scared.

So, then, what do you say boys? Suppose hereafter, you do as the cadets at West Point—make your own beds every morning, till you can do it better than your own mother can. And, girls, do you learn to harness a horse till you can do it as quickly as your brother. And, boys, learn how to make bread; and, girls, learn how to sharpen a knife and whittle, and drive nails without splitting the board; and boys learn how to hem towels, run stocking heels, and patch your trousers, and girls learn to grease boots and wagon wheels, to lay shingles and ease the doors when they stick. Keep your eyes and ears wide open. Learn to do all sorts of work; any word for it you will grow hearty and lump, handsome and happy.

Lay Preaching.

On this subject, upon which some high churchmen are so sensitive, Mr. Beecher says in one of his lectures:—"This leads me to speak of the lay element in churches. I am satisfied that we are never going to have professional ministers enough to convert the world—never. We have got to have the whole church preach, or we shall never cover the ground. The population increases a great deal faster than ministers do, especially in outlying territories. Think of attempting to follow the rush of emigration, and the opening of those vast intermediary and far-away states and territories with schools and churches and professional ministers! You never can do it. In this intellectual age, I do not understand why a layman has not just as much right as a minister. He knows as much, he averages as well. He does not undertake to conduct an organization in all its details, but in his sphere he is prepared to preach the gospel. There are many men in the law, in medicine, in mercantile business, many teachers in schools, many men retired from active business life, who are competent to take this, that, or the other neighborhood, and maintain service from sabbath to sabbath. Able lecturers they are upon education, able lecturers they may be on temperance; and they may just as well preach also sermons that have in them the root of the Gospel."

Hardening Steel Tools.

The following composition, suggested by the chemist Kulick, has been employed with success at Saar brucken for restoring burnt steel to its primitive condition; and as it affords a peculiarly hard metal, it is also used for tempering steel tools that are too soft, or may have become so by use, as chissels, saw blades, etc. Burnt steel, heated to a cherry red and forged somewhat on an anvil, is plunged into a well mixed doughy mass (in a box near by) composed of tartaric acid, 6 ounces; cod oil, 30 ounces; charcoal powder, 2 ounces; bone black, 8 ounces; bone black, 8 ounces; beef tallow, 10 ounces; yellow prussiate of potash, 5 ounces; and burnt hartshorn, 3 ounces and is then completely treated.

Small article of cast iron, such as wheel boxes, axle bearings, etc., may be successfully case-hardened by being plunged red hot into ten buckets of urine, five pounds of whiting, and four pounds of salt.

An Anxious Mother.

"Ephrahem, come to your mudder, boy, whar you bin?"

"Playin' wid de white folks' chillun."

"You is, eh! See here, chile, you'll broke your old mudder's heart and brung her gray hairs in sorrow to de grave wid yer recklumness and carrings on wid ebil associashuns. Haba't I raised you up in de way you should ought to go?"

"Habn't I bin kind an' tender wid yer and treated ye like my own chile, which ye is!"

"Yesum."

"Well, den, do ye spose I'se gwine to hab your morals raptured by de white trash? No sah! You git in de house dis instep; an' if I ever cotch ye 'municatin' wid de white trash any mo', nigga, I'll broke yer black head wid a brick!"

"Yesum."

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL

PURE CALIFORNIA

DR. WALKER'S

VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorator that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore, Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

A Tale of Two Cities.

Twelve years ago this month a notice in the Chicag paper announced the admission of a new member to the firm of ——— Brothers, Smith & Co., who were then doing the heaviest grain business in that city. The head of the house, a gentleman prominently identified with the history of the city, was an old friend of a wealthy citizen of Boston, and it was the son of the latter who became interested in the firm, his interest being one hundred thousand dollars. The young man was an only son; was loved as only sons usually are; had been sent abroad to finish his education, and now on his return, was given the best possible start in business. He was Irish, nervous and sanguine, and the spirit of the young city pleased him at once. He displayed considerable ability, was zealous in his duties, and became a great favorite with the senior partner. The head of the house took him to live with him and introduced him into society, where he 'took' at once, and was regarded by match making mothers as a prize much to be desired. Among the old residents of the city was a man who may, for convenience, be called Smith. Smith was not particularly wealthy in the goods of the world, but he had a large family of daughters, who were very beautiful. They all bore striking resemblance to one another, and their graces and accomplishments were very marked. They were known in Chicago to everyone as 'old Jake' Smith's beautiful daughters. One after another they were married off until but one remained single—a girl just entering into womanhood, well educated, naturally brilliant, and her qualities heightened by the charm of good society. She met the junior partner of the leading grain house, and became engaged with the full concurrence of all concerned, and when they were married the ceremony was an event even sufficiently notable to be described at length in the various papers of that city.

About this time the junior partner lost his father, who left him the remainder of his fortune. His wife shortly before had lost the parent yet remaining to her. This money did not go to increase his interest in the house; he he thought he was doing well enough there, and was anxious to test his qualities for speculation. He joined in a pool to 'corner' wheat, and had he sold out in time could have realized largely. But he was too covetous and when finally the 'corner' broke he was a heavy loser. He now went in to get back what he had lost, but instead of recovering he lost again. His father's friend urged him strongly to keep aloof from commercial gambling, but his advice was unheeded. Again and again the young man tempted fortune with varying success, but gradually with losses exceeding the gains. He led a fashionable life, lived in a fine house, and spent money lavishly. Gradually he acquired a taste for drinking, and the fever of speculation gained complete ascendancy over him. One night when a gambling-house was seized he was discovered among the inmates, and the next day the matter became known publicly. His father's friend had often given him judicious advice, and on this occasion sought to bring him back from the courses he had entered. A stormy interview was followed by his withdrawing from the firm. He now went downward fast. He became so infatuated that he could not wait for night to hide his movements, but in open daylight walked into houses of gaming. He was plucked without mercy. His horses were sold, his fine establishment passed into other hands, and society, which had encouraged his gran speculations, turned against him, now that he was known only as a common gambler. Four or five years ago he drifted away from Chicago, and a short time since the writer saw him one evening walking on Broadway, flashily dressed, with unsteady gait, and his once fine features bloated and marked by evil passions. On night of last week this man's wife was picked up in the Street by an officer. Her appearance was awful. Her face was wan and her forehead was scared with wrinkles. A mass of dirty rags covered her form. An old beaver hat covered the head that once shown with jewels, and her hair hung uncombed and tangled. Her condition was imbecile and her mind gone. She was taken to a police-house, then brought before a police-court justice. On Saturday a sister arrived from Chicago and took her from the station-house, intending to place her in an asylum.

This tale is a true one. Its details are known to many. There is gambling and gambling. Human life depends to an extent upon chance. So does success and misery. How many are there who give themselves up to chance, to drift through life. In drifting there are many dangers worse than death. A man is born to struggle and what of satisfaction and happiness he experiences comes by struggling. Drifting through the world trusting to blind fortune, these too often lead to the maelstrom of despair.

A Career of Crime.

A man was lately brought up for trial at Aylesbury, for robberies committed at Eto College, where he professed to be a surgeon in the Russian navy. His history is a curious record of crime. In 1863, under the name of Max Grief *alias* Goeler, he was sentenced at the Oxford assizes to ten months' hard labour for committing a robbery in one of the colleges. In 1864, under the name of max Solbeiski, he was convicted at Cambridge as a rogue and a vagabond, being found in the college for an unlawful purpose, and sentenced to three months' hard labor. In July 1864 the prisoner takes up his residence at Tunbridge Wells, and there passed himself off as Count Sobeiski. He entered into good society, and succeeded in swindling a great number of people—tradesmen and others. He is next heard of at Exeter in December, 1564, when he was tried at the Quarter Sessions these for fraud and felony, and sentenced to eight months' imprisonment. In January, 1566, he was again in custody but was acquitted at the Gloucester Quarter Sessions for fraud. In July, 1866, at the Maidstone Assizes, in the name of Bertrand Ashley, the prisoner was convicted on three charges of felony and sentenced to seven years' penal servitude. He was released from Chatham Convict prison on the 9th of May, 1873, and again commenced a series of robberies for which he was tried on Monday. Visiting Woolwich Barracks he, during the absence of Capt. Milner, managed to get access to his quarters and stole several valuable silver articles. He afterwards took up his residence in Windsor, and his plausible address and gentlemanly appearance got him introductions to several officers here, and frequently dined with them, they having little idea that their amiable foreign friend was a returned convict. He here, as he has several times during his career, made an impression amongst the ladies, Indeed, he had already begun to pay his addresses to a lady of very considerable means. Fortunately, his career for a while has been stopped. After committing several robberies at Eton College, he was traced to a house in London, but escaped from the house with a revolver. He is next traced to Burton-on-Trent, where he was apprehended.

A Novel Steamer.

The saloon steamship designed by Mr. Bessemer, to make sea sickness impossible, is well under way at Hull, England. The framing is nearly complete, and a good part of the outer plating has been put on. The steamer is 350 feet long, 40 feet broad, inside of her paddle boxes, and of 2,774 tons burthen. She will be driven by two sets of paddle wheels, situated 100 feet apart, the aggregate power of the engines being no less than 4,600 horse-power. The two ends of the ship are alike, and each will be furnished with a rudder. Her most characteristic feature is her saloon, which will be 70 feet long and 30 feet wide and suspended upon massive pivots at the centre and extremities. Thus supported, it will be brought under the control of powerful hydraulic gear, worked by the principal boilers, of the ship. This gear will be so arranged that it is expected a man will be able to impart to the saloon a rolling motion in relation to the ship precisely the reverse of that which the ship herself receives. The engine, it is anticipated, will drive the vessel at a speed exceeding 20 miles an hour.—*Scientific American.*

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent Baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

PRICE $1.00.

NORTHROP & LYMAN,

General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this unrivalled remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a sure shield protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most efficient remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are exposed subject to colds and coughs, all should be provided with this antidote for them.

Although settled consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*, its complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the testimonials of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from the malarious, marsh, or miasmatic poisons.

As the above medicine is quite Tasteless and does not require sugar to disguise it, it is the cheapest, the most speedy, and the most certain remedy known for Fever and Ague, Chills and Fever, Dumb Ague, Periodical Headache, Bilious Headache, Bilious Fever, Bilious Pleurisy, Bilious Inflammations, and for the whole class of complaints originating in Biliousness, Malarious Poisons, Miasm, Marsh Poisons, Impure Air, Unwholesome Water, Change of Climate, Fatigue, Exposure, Inattention to Regimen, Indolence, Dissipation, Nervousness, Sick Headache, Jaundice, Dyspepsia, Sour Stomach, Loss of Appetite, Nausea, Heartburn, Colic, Flatulency, Spasms, Worms, Piles, Costiveness, Irregularity of the Bowels, Blotches, Humors, Eruptions, Scrofula, Rheumatism, Gout, Neuralgia, Tic Doloureux, Erysipelas, Dropsy, Dropsical Swellings, Tumors, Ulcers, Diseases of the Kidneys, Female Complaints, Nervous Debility, Sleeplessness, Mercurial Diseases, Poisoning from Mineral Substances, Poisons of all kinds, Decay, Premature Old Age, Blood Diseases, Impurities of the Blood, Scurvy, Canker, Mumps, Sore Throat, Quinsy, Tetter, Salt Rheum, Scald Head, Ringworm, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

DISTINCT RACES OF SCOTLAND.

From Tytler's History.

VOL. I.

We come now to the consideration of an important subject; to make a few remarks upon the different races of men which appear originally to have settled in Scotland, and the division of orders and ranks in society into which they came to be separated during this remote era of our history. At the death of Malcolm Canmore, in 1093, four distinct races were discernible in Scotland. There was first the Gaelic or Celtic people, speaking the Erse language, and inhabiting Argyle, Galloway, Inverness, and nearly the whole of Scotland to the North of the Frith of Forth. Beyond them the hardy and warlike Norwegians had seized upon the Western Isles, and colonized the extreme districts of Ross and Caithness. In the richer lowland counties were the Saxons, a Gothic race, from whom Malcolm Canmore had chosen his Queen, and whom he highly favoured and encouraged, while the convulsion in the sister country at the great era of the conquest had driven many opulent Normans to desert the service of the conqueror, and to carry their arms and their allegiance to a foreign prince, by whom they were warmly welcomed. During the long era of a century and a half, which elapsed between the death of Malcolm Canmore and the accession of Alexander the Third, these materials became insensibly blended and mixed into each other; but the process was extremely gradual, and during the whole period we can discern distinct marks of the different races. At the death of Malcolm Canmore, an event took place which exhibited in strong colours the animosity of the Gaelic people to the Saxons and Normans. Donald Bane, who had taken refuge in the Hebrides, upon the usurpation of Macbeth, having emerged from his northern asylum, seized the throne; and his first exertion of power was to expel from the country all the foreigners who had intruded into his dominions. The frequent residence of David the First, previous to his accession to the Scottish throne, at the court of England, and his possession of the extensive district of Cumberland, which was exclusively occupied by a Saxon and Norman population, must have contributed to soften the lines of distinction between the different classes of his subjects when he became king. Yet his anxious efforts could not altogether extinguish their jealous animosities, or prevent them from breaking out on most occasions when they were compelled to act together. For example at the battle of the Standard, Malise, earl of Strathorn, a Gaelic chief, remonstrated with the Scottish king against his design of placing his squadrons of Norman soldiers, who were clothed from head to foot in steel, in the front of the battle. "Why," said he to the king, "will you commit yourself so confidently to these Normans? I wear no armour, yet none of them this day will go before me in the battle." Upon which David, to prevent a rupture between the two divisions of his army, found himself compelled to give the post of honor to the Galwegians, whom the Norman historians represent as a nation of absolute savages. An attention to the arrangement of the Scottish army in this memorable battle, and to the circumstances under which it was fought, will throw some light upon the various tribes which at this time composed the body of the nation After the Galwegians, who insisted on forming the first line, and were led by their chiefs, Ulric and Donald, came the second body, composed of the Norman men-at-arms, the nights and the archers, commanded by Prince Henry, whilst the soldiers of Cumberland and Teviotdale fought in the same line, and beneath the same banner. In the third division were drawn up the men of Lothian, along with the Islanders and Katherans; and the King himself commanded a reserve, in which he had placed the Scots and the natives of Moray, with a select body of Saxon and Norman knights which he kept near him as a body guard. There were at this time in the English army two Norman barons, Robert de Brule and Bernard Baliol, who possessed estates in Galloway, which they held of David as their liege lord. Before the battle, Bruce, who had been an old and dear friend of the Scottish king during his residence in England, requested an interview, and anxiously advised him to desist from further hostilities and to consent to a peace. In the arguments which he employed, as given by a contemporary historian, the enmity between the Scottish and the Norman race is strongly insisted upon. He paints the Scots as rejoicing in the opportunity of avenging themselves upon a nation which was odious to them, and accuses the king of extreme folly in making war on that people by whom he had supported his power against the attacks of his Scottish subjects. "Think not," says he "that one part of these savage tribes will be a sufficient defence against the rest; that the Scots will be barrier enough against the Scots; and raise not your banner for the destruction of those whose faithfulness in your defence has made them to be hated by the Scottish race."

The two races in david's army, thus strikingly described, seem to have been the Galwegians, the Islesmen, and the Ketherens, on one hand; the Normans and Saxons, the men of Lothian, Teviotdale, and of Cumberland on the other hand. Nor is it difficult to discover the cause of their animosity. The first just mentioned, that Bruce & Baliol, two Norman barons, possessed lands in Galloway, will guide us to it. It was the policy of this monarch to encourage the influx of Normans into his dominions, by conferring upon them estates in the districts which his Gaelic subjects considered exclusively their own; and out of this policy arose a mutual jealousy and hatred, which it required centuries entirely to eradicate. The arms, the appearance and the manners of these Galwegians, are marked by the same author as essentially different from the rest of the Scottish army. When compared with the Norman men-at-arms, they were little less than naked savages. Their swords and a buckler of cowhide were their only weapons of defence against the steel casques, the chained mail shirts, the cuirass, vantbrace, greaves, and iron gloves of the English army; but their first attack, in spite of these disadvantages, was so fierce as to be frequently successful. On the other hand, the Saxons and the men of Teviotdale, Cumberland and Lothian appear to have been a civilized race, in comparison with the Galwegians, the Islesmen and the Katherans.

The distinction, indeed, between the Saxon and the Gaelic people was as strongly marked as that between the Normans and the Galwegians. Malcolm's Queen was a Saxon princess, and the sister of Edgar Atheling, the heir of the Saxon line in England. She spoke only her own language; and when she communicated with the Gaelic chiefs or clergy, employed as her interpreter the king, her husband, who was saquainted with his own language and that of the English people.

At the coronation of Alexander the Third, we have seen that the Gaelic portion of his subjects claimed a part in the ceremony, by the appearance of the Highland bard or sennachy, who repeated the genealogy of the King, and during the long wars of three Edwards, the animosity of the same people to the new race of the Saxons and the Normans is manifested by the constant rebellions of the Gallwegians and Northern Scots; and thes apparent facility with which the English monarchs, on all occasions, separated the lords of the isles and the northern chiefs from the common cause of liberty. Bruce's expedition against the Western Isles in 1315, which was followed by a temporary reduction of the chiefs, evinces the continued feelings of hostility; and almost the only occasion on which David the Second evinced a spirit worthy of his father, was in the suppression of a serious rebellion of the northern provinces of his dominion. As to the traces of the Norwegian or Scandinivian race in the body of the Scottish people, they were, although perceptible, partial and evanescent. Their settlements upon the mainland in Caithness and Ross were destroyed, and the Western Isles wrested from them by Alexander; so that, were it not for the impression which they have left in the Scandinavian names and superstitions which are prevalent in those remote regions, and the instruction communicated to the Islesmen in the art of navigation, we should not be able to discover that the children of Odin had ever penetrated into our country.

In the period of a hundred and twenty years, between the Accession of Alexander the Third and the death of David the Second, the Norman and Saxon population became so intimately blended together as to appear one and the same people; and their superior power and civilization had gradually gained from their fierce competitors, the Gaels, the greater and the fairer portion of Scotland. Even in those northern provinces, which had long exclusively belonged to them, barons of Norman and Saxon extraction were settled in possession of immense estates; and the constitution of the government, which, there is little doubt, had been under Malcolm Canmore essentially Celtic, was now as decidedly feudal, including certain orders and ranks in society which were clearly and strongly marked.

The king, under the feudal form of government appears to have been superior to the highest nobility, in their great characters. He was the leader of the army in war, and possessed of the supreme military command; he was the great judge or administrator of justice to his person or by deputy; and the fountain of honour, from whose will and authority all distinction and pre-eminence were thought primarily derived. It would be a great mistake, however, to suppose that his power was anything approaching to the despotic: for it was controlled by that of the higher nobles, whose estates and, numerous vassals enabled them almost singly to compete with the sovereign. At the same time there is decided proof that ample provision was made for the due maintainance of the royal dignity, both in the person of the king himself and his eldest son, who, at a very early period, we find was considered entitled to the crown by hereditary right.

Edgar in 1106, being then on his deathbed, bestowed on his younger brother David, afterwards David the First, a large portion of his dominions, which included the ancient kingdom of Strathclyde, and nearly the whole of the country to the south of the Firths: with the exception of the earldom of Dunbar; a proof that the personal estates of the Scottish king was at that time great. Many other incidental notices, which are scattered in the pages of our early historians, may be brought to corroborate the same fact.

In the year 1152, the prospects of the kingdom were clouded by the death of Prince Henry, the only son of David the First; upon which that monarch, anxious for the stability of the throne in his own family, commanded his grandson Malcolm, the eldest son of Henry, to be proclaimed heir to the crown; whilst his second son William, afterwards William the Lion, he bestowed his territories in Northumberland as the appanage of the heir-apparent. We know, also, that David, earl of Huntingdon, brother of William the Lion, held at the time of his death, which happened in the year 1219, the earldoms of Garioch and Lennox, the lordship of Strathbogie, the town of Dundee, with the lands of Innerbervie, Lindores, Longforgrund, and Inchmartin, in consequence of a grant from the king his brother.

In addition to these facts, which prove the power and personal estate of the king under the feudal government in Scotland, the riches of the royal revenue are evinced by various pecuniary transactions of William the Lion. It is well known that this monarch paid to Richard the First the sum of ten thousand marks for resigning the homage extorted by Henry the Second. Upon another occasion, he gave Richard two thousand marks to make up the heavy ransom which was exacted from the English monarch by the emperor. Upon John, king of England, he bestowed the marriage of two of his daughters, with fifteen thousand marks; and, if we may believe Hoveden, the same king offered fifteen thousand marks for Northumberland. Allowing ten pounds of modern money for every mark of ancient, we find from these insulated instances of the sums paid by this monarch that he dispursed, out of the royal revenue, two hundred and seventy thousand pounds; and was ready, in addition to this, to have paid a hundred and fifty thousand to Northumberland.

Upon the marriage of Alexander the Second with the daughter of Lord Ingelram de Coucil, the portion of the youthful bride amounted to seven thousand marks, which was given her as a third of the royal revenue; so that in 1239, the date of this marriage, the annual revenue of the King of Scotland, proceeding from the crown lands and other sources, amounted to 21 thousand marks, somewhat more than two hundred thousand pounds. The same monarch, notwithstanding the drain of the royal treasury, in his father's time, gave ten thousand marks, besides lands, as a marriage portion with his second sister; and, on one memorable occasion, when the Scottish sovereign paid a Christmas visit to Henry the Third at York, in the mutual interchange of gifts between the two kings, Alexander for the purpose of fitting out his royal host for the continent, made him a present of two thousand marks, or twenty thousand pounds of our present money, taking from him, at the same time, an acknowledgement, that the gift was never to be drawn into a precedent, but proceeded solely from his liberality.

Under Alexander the Third, the riches of the royal revenue appear to have kept pace with the general prosperity of the kingdom. We have seen that monarch obtain the kingdom of Man and the Western Isles by purchase from the King of Norway, paying down for them the sum of four thousand marks, with an annual payment of a hundred marks for ever; and not long after this transaction, the same monarch, at the marriage of his daughter to Eric, King of Norway, assigned as her dower the sum of seven thousand marks in addition to lands worth seven hundred marks a year. To give an exact account of the various sources of the royal revenue in those early times would require a careful and lengthened investigation. The rents and produce of the royal lands and manors throughout the country; the dues payable under the name of *can* on the products of agriculture, hunting, and fishing; the customs on the exports of wool, wolfels, and hides; on articles of domestic manufacture, on foreign trade and shipping; the fees and fines which arose at this period in all countries where the feudal system was established, from the administration of justice upon the wardship and marriage of heirs, and in the escheats of estates to the crown; the temporary aids which the tenants and vassals of every feudal sovereign were bound to pay on great occasions, such as making the king's son a knight, the marriage of his daughters, his own coronation, or marriage, or his return from captivity: these, amongst others, formed some of the principal sources of the revenue of the crown.

If we make allowance for the rudeness of the period, the personal state kept up by the Scottish sovereign was little inferior to that of his brother monarch of England. The various officers of the royal household were the same; and when encircled by those dignitaries, and surrounded by his prelates, barons and vassals, the Scottish court, previous to the long war of David the Second, was rich in feudal pomp. This is proved by what has already been observed as to the condition of the royal revenue, when compared with the inferior command of money which we find at the same era in England; and some interesting and striking circumstances, which are incidentally mentioned by our ancient historians, confirm this opinion. As early as the age of Malcolm Canmore, an unusual splendor was introduced into the Scottish court by his Saxon queen. This princess, as we learn from her life by Turgot, her confessor, brought in the use of rich and precious foreign stuffs, of which she encouraged the importation from distant countries. In her own dress she was unusually magnificent; whilst she increased the parade attendant on the public appearance of the sovereign, by augmenting the number of his personal officers, and employing vessels of gold and silver in the service of his table. Under the reign of Alexander the First, the intercourse of Scotland with the East, and the splendid appearance of the sovereign, are shown by a singular ceremony which took place in the High Church at St. Andrew's. This monarch, anxious to show his devotion to the deceased apostle of that name, not only endowed the religious house with numerous lands, and conferred upon it various immunities, but, as an additional evidence of his piety he commanded his favorite Arabian horse to be led up to the high altar, whose saddle and bridle were splendidly ornamented, and housings of a rich cloth of velvet. A squire at the same time brought the king's body armour, which were of Turkish manufacture, and studded with jewels, with his spear and his shield of silver; and these along with the horse and his furniture, the king, in the presence of his prelates and barons, solemnly devoted and presented to the Church. The housings and arms were shewn in the days of the historian who has recorded the event.

On another occasion, the riches of the Scottish court, and, we must add, the foolish vanity of the Scottish monarch and his nobles, were evinced in a remarkable manner. Alexander the Third, and a party of a hundred knights, were present at the coronation of Edward the First; and in the midst of the festival, when the king sat at table, and the walls and fountains were running the choicest wines, he and his attendants dismounted, and turned their horses, with their embroidered housings, loose among the populace, to become the property of the first person who caught them,—a piece of magnificent extravagance, which was imitated by Prince Edmund, the king's brother, and copied by the English nobles.

From these facts considered may be traced of the wealth of the royal court of Scotland. Like the other contemporary feudal monarchs of Europe, the sovereign was surrounded by certain great ministers of state, under the names of the justiciar, the chancellor, the constable, the marshal, the seneschal, the chamberlain, and the butlerius or steward. These offices were held by the richest and most powerful nobles, whose wealth enabled them to keep up a train of vassals which almost rivalled the circle round the sovereign; and who, in their own court and castle, mimicked the royal pomp, and were surrounded by their own cupbearers, constables, seneschals, and chamberlains. Next to the king, therefore, such great officers held the highest rank in the nation; and no correct picture of the feudal government of Scotland, without briefly considering the respective duties which devolved upon them.

In the history of our legal administration, during that long period which occupies the interval between the accession of the First Alexander and the First James, the office of great Justiciar holds a conspicuous place; although, from the few authentic records of these times, it is difficult to speak with precision as to its exact province.

It has already been remarked that, in this early age, the king was the fountain of justice, and the supreme judge of his people. We are indebted to a contemporary historian for a fine picture of David the First in this great character. "It was by custom," says Ethelred, "he sat on certain days, at the gate of his palace, and to listen in person to the complaints of the poorest suitors who chose to bring their cause before him. In this employment he spared no labor to satisfy those who appealed to him of the justice of his decision; encouraging them to enter into argument, whilst he kindly replied, and endeavored to convince them of the justice of his reasons. Yes," adds the historian with great complacency, "they often shewed an unwillingness to acquiesce in his mode of argument.

The progresses which were annually made by the King, for the purpose of redressing grievances, and inquiring into the conduct of his officers throughout the realm, have been already noticed under the reign of Alexander the Third; but the general administration of justice, at an early period, seems to have been intrusted to great judges,—the one embracing within his jurisdiction the northern, and the other the southern part of the kingdom. Under these supreme officers, a variety of inferior judges appear to have enjoyed a delegated and subordinate jurisdiction, who borrowed their designations from the district in which they officiated, and were denominated by the judge of Gowry, the judge of Buchan, the judge of Strathern, the judge of Forth; but of whose exact authority and jurisdiction no authentic record remains. The existence both of the *supreme and of the inferior judges can be* traced in authentic muniments, preserved chiefly in the Cartularies, throughout the reigns of Alexander the First, David the First, and Malcolm the Fourth, during a period of nearly sixty years, from 1106 to 1165. William the Lion, who assumed the crown immediately after Malcolm the Fourth, appears to have changed or new-modelled these offices, by the creation of two great judges named Justiciars; the one the Justiciarius Laudoniæ, whose authority extended over the whole of the country south of the two Firths; and the other the Justiciarius Scotiæ, embracing within his jurisdiction the whole of Scotland beyond the Forth. The series of justiciars of Scotland from the reign of this prince, during a period of nearly a century, has been traced through documents of unquestionable authenticity; but that of the judiciaries of Lothian cannot be so accurately ascertained, *while there is a third officer of the* same high dignity, the Justiciarius ex parte boreali aquæ de Forth, whom we had incidentally mentioned at the same period; upon whose authority and jurisdiction the utmost research of our antiquaries has not succeeded in throwing any distinct light. There can be little doubt, I think, that the judicial authority of these officers was preeminent, and that it embraced a civil and criminal jurisdiction

DRUG WAREHOUSE.

Dr. McCAMUS

HAS opened out in Coulter's Old Stand, George Street, with a First Class

STOCK OF

Dissolution of Partnership.

The Partnership heretofore existing between A. W. Lasher, D. Lowry and E. Lowry, under the name of A. W. Lasher & Co., has this day been dissolved by mutual consent. The business in future will be carried on by A. W. Lasher and D. Lowry, under the name of LASHER & LOWRY, who are responsible for all the liabilities, and to whom all the debts due the late firm are to be paid.

A. W. LASHER,
D. LOWRY,
E. LOWRY,

Peterboro, Feb. 12, 1874. 7-tf

A HAND LOOM [complete]

ALMOST NEW,

FOR SALE!

Apply at this Office or to

Mrs McGREGOR,

Ashburnham, Feb 9, 1874 7-3in Ashburnham.

Notice to Builders.

TENDERS will be received on or before the 2nd March, next, for the erection of a Receiving Vault in the Little Lake Cemetery. Plans and specifications to be seen at the office of

J. H. BELCHER,

Archt & C.E., Simcoe street.

Peterboro, Feb 11, 1874 7-3in

STRAYED

CAME into my Premises about the 15th of December,

A HEIFER CALF

The owner is requested to prove property, pay expenses and take her away, or she will be sold to defray expenses.

GEO. ALLAN,

Temperance House, Peterboro.

January 31, 1874 4-3in

Parliamentary Notice.

THE Port Whitby and Port Perry Railway Company will apply to the Parliament of Canada at its next session for an Act enabling the Company to extend their Railway from some point in its present line to some point on the French River or Lake Nipissing, and for power to amalgamate with or lease any other Railway whose line or proposed line is near or connect with, also to extend their Railway to the Village of Haliburton and Northerly therefrom, also to build a branch to the Village and Harbour of Oshawa, also to acquire or construct such vessels, harbour wharves, elevators and other works as the Company requires, and for other powers.

Toronto, 16th February, 1874.

WILLIAM MULOCK,

9-3in Solicitor for the above named Company.

TERRIBLE COMMOTION at HYSLOP'S NEW CHEAP STORE IN WESTWOOD.

PEOPLE are daily finding out the secret where to buy their TEAS, &c.

NO WONDER!

He is selling good pound Tea for 40 cents per pound and splendid Teas for 45 and 50 cents, better than they used to have to pay 75 and 60 cents for. His special qualities only absent that price. Black Teas of fine qualities always on hand.

Always on hand No. 1 Labrador Herrings of finest quality.

His Cottons are a wonder. Good useful cotton 9 and 10 cents, yard width 11½ and 12 cents, extra heavy 12½ and 13 cents, good washing Prints from 9 cents upwards. His stock of Woolen Goods will now be thrown out at once to make room for new arrivals for Spring.

J. B. Hyslop having paid very high for learning the Tea Trade, especially, is thoroughly versed in the selection of the same and will use his all endeavour to give his customers the full advantage. Therefore farmers and others laying in large supplies will do themselves a greater favor than they will confer on him to call on him before purchasing elsewhere.

His fifty cent Tea is very nice,
One only needs to try,
For if they do best come it never
They'll take a large supply.

Parties calling at his place in his absence will be courteously and honestly treated by his Clerk.

ONLY ONE PRICE! NO HUMBUG.

All kinds of trade taken in exchange for Goods at Hyslop's Giant Tea Store in Westwood.

February 26, 1874 9-3in

UNITED SPECIAL PRAYER MEETINGS!

Meetings for special prayer, for the

Conversion of CHILDREN,

will be held (the Lord willing) in the

TEMPERANCE HALL, GEORGE ST.,

EVERY FRIDAY EVENING,

Commencing punctually at 4 o'clock p.m. The attendance of all parents is earnestly desired.

Wanted.—Macdonald & Elder.
United Prayer Meeting.

Peterborough Examiner.

PETERBORO', FEB. 26, 1874.

New Book.

Just issued from the press, "Leisure Hour Musings" by Alex. Graham, Esq., of Otonabee. The book consists of 226 pages containing original pieces by the author, composed at various times, when leisure permitted. Mr. A. Graham is a thorough Scotchman and his poetry breathes of his national love of Country and will be read with pleasure by all his countrymen. It is now ready for delivery to subscribers, who can obtain their numbers either at this office or from Mr. Graham.

A New Exchange.

This week we received a new paper neatly got up by Mr. James Mann at Tiverton, Co., Bruce. It bears the name of "Watchman," and we wish him every success which his enterprise deserves.

Too near the Railway.

The good people of Uxbridge are too near the Railway, as the locomotives are often on the street crossings, cast their discharge of steam is no small annoyance to teamsters.

Parliament.

The Dominion Parliament will meet for despatch of business on the 26th of March

British Parliament.

The Gladstone Ministry has resigned, and Mr Disraeli has been called to form a new Ministry, in which he has succeeded. The cause of the present Conservative gain is easily understood. Mr. Gladstone had touched the Irish Church. Poor Inflexence was likely to be interfered with and the English Church, too. The people were determined to oppose these reforms. The comparative strength is, Conservative 341, Liberal 332, or about 47 of a Conservative majority.

Burglaries.

Are very common in every part of the Province. Parties would do well to secure valuables, as information has been received that Peterboro is to receive a visit, perhaps sooner than we care for.

Firemen's Social Ball.

The Firemen intend holding a Ball and Dinner in Haslitt's New Building, Hunter Street on Friday evening March 6th at 6.30. They have changed their annual Concert this year to a Ball and Dinner. Tickets $1.50. They will no doubt have a large crowd, and to them a pleasant time.

THE NEW SCHOOL BILL.

The evils of late legislation in connection with the school Law have been that there has not been sufficient information of the proposed change in time to discuss it or to offer any advice on the matter. It is just so again. The Bill in some form will become Law before anything can be done to point out the defects that may be evident enough. It appears to us, therefore, useless to do anything more than chronicle the fact that the law is being amended, and will be consolidated. This last step is a wise one, for very few of late years knew what this law was. The Department of Education in all future Manuals should give the act itself in its entirety, accompanying each clause with any remarks thought necessary for fair understanding of its verbiage and spirit. In this way only can these called upon to carry it out be prepared to do so intelligently

Taxes in New York.

The Bank of Montreal in New York was taxed $8,000 on business for 1873. The stockholders pay for their profits there.

Discouraging.

The Manitoba *Gazette* says:

"It is a notorious fact that the Province is almost bankrupt. The continued steady drain that is going on from outside sources, is gradually leaving Manitoba very much in the position of a squeezed orange with nothing but the rind left, and if it continues much longer like the orange it will only be fit to be thrown to one side and passed by for more prosperous places. This state of things of course will not last after we have railway connections, when our farmers will be encouraged to grow grain etc., for foreign exportation, and Manitoba will begin to send out her products in exchange for the merchandise of various kinds that she receives, and thus a healthy ebbing and flowing of the money tide will be kept up, but until the means to do this is placed at our disposal, things in general will remain in a very depressed state.

It may be that this is a dark picture for the purpose of securing some better terms.

Northumberland-Durham.

At the late session of the united Counties of Northumberland and Durham, a memorial praying for Prohibition was passed and ordered to be forwarded to the Governor-General in Council. Another memorial praying that the High School Law be not amended so as to compel counties to pay an amout equal to the Government Grant, as, in the opinion of the United Counties, they now pay proportionally to the direct benefits obtained. The Auditors of the Counties got $25 each; the Solicitor, $80, and the Jail Surgeon $80. The following resolution was also passed:

Moved by Mr. Ferris, seconded by Mr. J. E. Proctor,—"That inasmuch as the boundary between the Township of Seymour, in the County of Northumberland, and the Township of Belmont, in the County of Peterborough, is not well defined, that it is difficult, if not impossible, to find the true boundary line, if any such was ever run, as questions of disputes are frequently arising from the line aforesaid not being accurately defined, that this Council petition the Commissioner of Crown Lands to appoint some competent person to define the said boundary line at the expense of the Crown Lands Department."—Carried.

Majorities.

It is a remarkable fact that the combined majorities of the candidates in the five constituencies, claimed by the Opposition as having been taken from the Ministry make less than 150. Monck was lost by 36; Halton, 23; Leeds, 2; Centre Wellington, 40; East Middlesex, 44. Cameron's majority over Gibbs was greater than the entire Opposition gain, and McGregor's vote over O'Connor was five times more than the combined Tory gain in Ontario. Major Walker could have spared enough votes to defeat the Opposition candidates in Monck, Halton and Leeds, and then have had three times as many left for his majority over Carling as the charter sellers' candidates could boast of in South Leeds. Kerr, in Northumberland, could have walked off with the whole batch of victorious Oppositionists and Speaker Cockburn in the bargain, and then have been able to discount John A. and Hilliard Cameron with what he had to spare.—*London Advertiser.*

Markets.

Lindsay—Wheat brought $1.15 to 1.20 for fall; $1.10 for spring; about 300 bushels brought $1.27 to 1.30. Barley, $1.15 to 1.20. Peas, 50c. to 60c. Oats, 30c. to 33c. Potatoes, 20c. to 25.

Millbrook—The wheat market ranged the same as Lindsay.

Bobcaygeon—Wheat, fall $1.10 to 1.15; spring $1.05 to $1.10. Barley 75c. to 90c. Oats 33c. to 35c. Peas 50c to 55. Potatoes 30c. to 35c.

Fenelon Falls—Wheat was as high at Fenelon Falls last week, as it was here,

Lindsay.

Lindsay is to have fourteen taverns in 1874, and four saloons, by a resolution of Council.

Colborne Smith.

Telegraphed a friend at Ottawa a congratulation over the result of the recent elections. He says: "I may now speak of Canada as a country in which the people are not afraid to crush the political vipers who with poisonous breath would pollute the very atmosphere."

Weights and Measures.

For the general information of our readers we give them a clause this week from the Statutes of the House of Commons of last Session on the subject of Weights and Measures:

"And from and after the first day of January, one thousand eight hundred and seventy four, all the above articles when bought or sold by weight shall be specified by the central and parts of a central. It is held that although no special penalty is provided for making contracts or delivering articles by the bushel, still such contracts would be illegal and could not be enforced. That a bushel of wheat, even if specially mentioned in an agreement, would not mean sixty pounds, but only a bushel by capacity, that is to say, 2150.42 cubic inches, and so of all other articles mentioned in sec. 2, or sec. 3. It may be proper to add that the legal way of buying or selling irnin and certain other articles, is by the "cental" or 100lbs. avoirdupois."

Somewhat Bloody.

Did you see Johnston? (Mr. Johnston, chief constable) was the enquiry on Tuesday evening, as passing along Hunter Street. Curiosity led to enquire What's the matter? For what do you require Mr. Johnston. When information was given that while a man was quietly sitting in his neighbor's house in the village of Ashburnham, two others rushed in and attacked him, gave him a few blows, drawing some blood and leaving a mark as of iron knuckles. The matter came before Mr. Hatton and cost the parties. It all arose out of some old stories retold and improved in the telling. How delightful, associations like these!

Seeds for 1874.

As the time for purchasing flower and vegetable seeds will soon be here, we call the attention of our readers to one of the most extensive catalogues that we have had the pleasure of examining. Among the many dealers who are and have been catering to the wants of our people, there are are none who "put in an appearance" to exceed that of Mr. George McIlroom, London, Ont. We are assured that the seeds from this establishment are first tested before being sent to purchasers, and if the directions on cultivation are followed, no one will be disappointed in possessing a fine flower and vegetable garden. Very liberal inducements are offered to individuals and clubs requiring vegetable and flower seeds, especially the latter. Catalogue are mailed *gratis* and post free to all who are interested. To such we would say, do not fail to send for a copy at once.

W. M. SOCIAL.

The Wesleyan Methodist Social on Monday evening was very successful. It was at first expected that the Rev. Mr. Joffery, of Toronto, would deliver a lecture or address, but other arrangements prevented this. The evening's amusement consisted of Music, Readings, and Refreshments, and the reading of the Treasurer's Report of the state of the "Church Extension Fund."

Mrs. J. B. Fowler sang several pieces in her beautiful way, delighting the audience, Miss Kennedy playing the accompaniments.

Mrs. Scobell also sang one of her best pieces.

Mr. Gallettly added much to the pleasures by singing several pieces, and a Choir under the leadership of Mr. McClelland added to the musical treat.

Mr. Christie, of the Collegiate Institute, read the "Wreck of the Hesperus," and some other pieces, and the Rev. Mr. McLennan gave a reading, as did also Mr. W. Mason. They are all beautiful readers, and the pieces were very appropriate.

The refreshment rooms were the northern class rooms, and were presided over by Miss Matthews, Miss Hilliard, Miss Edmonds, and other young ladies. It is needless to say that this room was the attraction of the evening. We will not pretend to assign motives for this, as we cannot judge of the thoughts or intents of the heart in the numerous persons who resorted thither.

Mr. Hilliard, Treasurer of the "Church Extension Fund," read a financial statement showing that there is a subscription fund of over $21,000. This, by other means, has been increased to above $22,000. Between $6,000 and $7,000 have been paid in. Over $4,000 has been paid the contractor for the basement portion of the large church on George Street, and a considerable sum has been appropriated towards the erection of the beautiful church on Charlotte Street. As might be expected, there is yet a large portion of the subscription list to be collected.

After reading the report and making some remarks on the prosperous state of the church, Mr. Hilliard moved, seconded by Mr. Lilley, a resolution to the effect that the church be called together to discuss the propriety and wisdom of urging the Building Committee to push forward the George Street Church with all haste.

Rev. Mr. Fish showed that altogether the Charlotte Street Church was now completed, and in consequence several members had their sittings there. Pews were still being enquired for, and he expressed his belief that when the beautiful church now in part under contract should be completed, there would be an increased demand for pews. He believed they would be so great that the church could easily carry a considerable part of the debt or cost without feeling it.

Mr. Mason moved a vote of thanks to the Ladies and Gentlemen who had added so much to the evening's pleasures by their delightful music and readings, coupling also the name of Dr. Pentland, who had kindly lent the piano for the occasion, and the ladies who attended to the physical wants of all requiring their assistance.

The pleasures of the evening were brought to a close by the Choir singing the National Authem, and Mr. McLennan pronouncing the benediction. The ladies promise another entertainment in a month or so, and it is expected that Mr. Joffery will return and deliver his lecture.

The proceeds are to be applied to the Building Fund. The work, therefore, is a good one and deserves every encouragement. Young people will meet somewhere, and there can be no better way of spending an evening than at a social similar to the one given on Monday evening, where the heart and mental faculties can all be duly cared for, and the grace of giving to a good cause cultivated.

THE VICTORIA RAILWAY.

The promoters of this scheme are again before Parliament soliciting favors. They are very modest men; they must be, judging from their very modest demands from the Ontario Legislature. They ask for a money grant of $6,000 per mile from Port Fury to Fenelon Falls, and for $5,000 from Fenelon Falls to Haliburton. They also intend, they say, to extend to the Ottawa Valley for which they want a money subsidy and a land grant, amounting to $9,000 a mile. They are modest men, really. The road would be of great advantage to the section of country through which it might pass, but it cannot be of such national importance as to deserve such liberal subsidies. Indeed the necessity for the first portion of the road appears too doubtful, although a road from Bobcaygeon or Fenelon through the back country is desirable. While such efforts are being put forth by the Toronto, Port Perry, Lindsay and other municipalities what are the people of Peterborough doing? The road from Peterborough to Bobcaygeon might have been completed long since, and in running order to-day but for our own madness and opposition. The road once there might fear no opposition or competition, and its extension would have been certain. Our folly in bearing fruit in the wheat market, the driving away the trade to Port Hope and Cobourg, and the result on our trade is felt. Should the Victoria Road take the lead in getting behind us, another branch of our trade will be carried off to Lindsay and Toronto. A little Liberality would have prevented even the attempt to build the Victoria road, and would have also ensured another outlet for all our grain and other produce requiring to be removed to eastern or southern markets.

The people of Smith, too, are not being exempt from the consequent losses. In Port Hope wheat is worth $1 30 a bush in Peterborough $1.10 to $1.15 per bushel. The farmers of North Smith cannot drive to Port Hope, it is too far. The consequence is that they lose largely. Freight should be about 5 cents, storage 1 cent; deducting this from the 15 cents to 20 cents of higher prices that might be secured if we had better means of inducing buyers, there is a margin still of 9 to 14 cents per bushel. Let us say an average of 10 cents. The farmers north of us, therefore, are losing 10 cents a bushel—$10 00 on every 100 bushels. This sum on the growth of wheat in the Townships of Smith and Douro in one year, if given as a bonus, would have secured the Cobourg road long since, and thus would have induced competion, which would have repaid the farmers in a year. At present the farmer loses the money, and the Town of Peterborough loses the increased trade that always accompanies good prices.

The very large difference in prices between the front and here induces many of the farmers to drive out, and when there they do their marketing instead of here, so that our penuriousness in the past is now telling against us very materially.

On the 10th of March another opportunity is being afforded to redeem ourselves in part, and we trust that by this time the eyes of the people are being opened to their own interests, and that they will not stand in their own light any longer, but do what they can to secure the speedy and successful completion of another line of railway to the front and its extension *immediately* to Bobcaygeon and northward.

Mr. Laidlaw is indefatigable. He is paid by the companies that employ him, and thus stimulated he works incessantly while we are asleep. Action on our part now may secure for us all we want and if secured in time, we will reap the reward.

THE WHEAT MARKET.

The wheat market here is again out of gear. Last week it was 20c. higher in Port Hope and Cobourg than in Peterborough. Mr. Cluxton pretended a year ago, that wheat raised in this County is not within ten cents a bushel of being as good as the wheat grown in Cavan, Emily, and South Monaghan. Yet the farmers in Otonabee have been driving to Port Hope and getting $1.25 to $1.31 for the very wheat they can only get $1.10 to $1.15 for in Peterboro. This destroys Mr. Cluxton's philosophy.

The loss to the trade of Peterborough, caused by farmers going to Port Hope, Cobourg, Omemee, Lindsay, and Millbrook, is very great. Where they sell they buy more or less, and the trade is done in another town. We do not mean to say that buyers here are not aware of this, but a reason assigned for it is, cars cannot be obtained to take wheat away to suit the markets. If this is so we require another road as soon as possible, so as to retain the trade of our own neighborhood. We believe the mills and stores here are full, or nearly so, and that this affects the market. Then we require more store room and more enterprise, and store room is useless without means of shipping. Is this not a reason and a strong one for encouraging the Cobourg road. We venture to say that every man going to another market with his wheat leaves from $20 to $100 of his money in the place. If one hundred farmers go to Port Hope, Cobourg, Lindsay, or other places, we may safely calculate that they leave $5,000 in those places. Would not this amount add materially to the trade of this town at a time when money is required, at the close of the year? For several years we have directed the attention of the people to this one item of loss, not at all reflecting on grain merchants, but with a view to securing better means of shipping grain to suit the markets and merchants' wants. The Loss that may occur to a grain buyer through one day's delay may be very great and tend to deter liberality in prices. This might be remedied largely by affording better means of outlet, without interfering with profits, which must be taken into account in every legitimate transaction. If the present road is driving away $10,000 a year of trade, is it not time the thing was put an end to in some reasonable and prompt manner? Let us see after our interests.

TOWN COUNCIL.

MONDAY, Feby., 23.

The Council met on Monday evening, pursuant to adjournment.

Present—His Worship the Mayor, in the Chair, and Messrs. Toole, Beall, Robertson, Hopkins, Paterson, Romaine, Helm, Cahill, Hamilton, Rutherford.

The minutes of the former meeting were read over and confirmed.

Communications were read from Dennistoun Bros. & Hall in reference to the Bond of the late John Sheddon, and asking to take the Bonds of the new company in place of that of the late Mr. Sheddon.—Referred to Finance Committee.

Also, from W. H. Scott, Esq., Town Solicitor, in reference to the matter of the Corporation vs. R. Smith, submitting Mr. Smith's proposal.—Referred to the Finance Committee

This is a case of the Town vs. the company owning the old mill property on Water Street. The Company proposes to restore the bottom of the sluice to its former dimensions as soon as it can be done. The water to be shut off the race head as soon as it can be done and kept closed until the race is properly repaired. The damage, or holes, caused by the water company, to be repaired, and the costs they propose to pay not to exceed $6,000.

From J. D. Armour, suggesting that Railway By-law published, asking to extend the time for completing the Railway to Bobcaygeon and Fenelon Falls.—Received.

The communication asks that the time for completing the Bond to Peterboro be 1st July, 1876, and to Bobcaygeon, 1st July, 1876, instead of 1st January, in each case.

Petition was read from Mr. Cluxton and others, and from Fenelon Mechanics and others, asking for a subscription of Tavern Licenses.—Referred to the Licenses Committee.

From Michael Hoffman, asking the Council for assistance as he is disabled by rheumatism.—Referred.

From W. R. Wrighton and others, asking the Council to amend the Market By-law.—Received.

From Letitia Ware and Justice Dunn, asking a refund of taxes.—Referred to Finance Committee.

From Messrs. Nicholls & Hall and others, asking the Council, in view of the recent burglaries elsewhere, to put on night watchers, to protect life and property.

From Fred J. Walker, and others asking the Council to pay $900 to McDerald & Elder to pay for the band uniform got from them.

Application from J. C. Kennedy, for the office of Inspector of Licenses and building.—Referred to Committee on Appointments to Office

Moved by Mr. Toole, seconded by Mr. Romaine,

"That, whereas the persons composing the Independent Brass Band, has with some difficulty succeeded with the aid given them by this Council of $125, and some trifling subscription in paying for the instruments, and also in keeping the salary of their teacher paid, but as they were obliged to incur a further indebtedness for an outfit of clothing to Messrs. McDonald & Elder, amounting to about $200, which they are really unable to pay. Be it therefore, resolved,—That the Treasurer be directed to issue his cheque for $200, being payment in full of the claims above mentioned.—Carried"

Moved by Mr. Romaine, seconded by Mr, Beall,

"That the Mayor and Mr. Toole be authorised to see that protection be engaged in compliance with the petition of Messrs. Nicholls & Hall and others, for the time they deem necessary."

Mr. Romaine, as chairman of the Water and Gas Committee read and submitted a report, which, on motion, was received and adopted. The Report recommended the payment of an account of Breens & Hutchison for putting up an illuminated clock, at Mr. Ormond's, Jeweller.

Mr. Rutherford, chairman of the Printing Committee, reported, recommending the tender of the EXAMINER office for the printing for this year.

Mr. Beal, Chairman of the Finance Committee, reported, recommending the payment of the following items:—D. Henthorn, $8; W. H. Scott, Town Solicitor, 358.09; to the House of Providence, Kingston, $50. But stating that they had not yet made satisfactory arrangements for the $6,000 required by the School Trustees.

Moved by P. Hamilton, seconded by Mr. Helm,

"That the Street and Bridge Committee be instructed to examine the southern extremity of George Street, and report to this Council what they think necessary to prevent the Little Lake washing it away. Also to have that part of Water Street, washed away by the mill race, examined, and take what steps they think necessary to prevent further injury."—Carried.

Moved by Mr. Choate, seconded by Mr. Beal,

"That Messrs. Helm, Hopkins, Dixon and Beal be a Special Committee, whose duty it shall be to consider the market By-law and report to this Council as to whether the advise any change in the market By-law as well as the mode of selling the Tolls."

Moved in amendment by P. Hamilton, seconded by T. Cahill,

"That Messrs. Toole, Paterson, Robinson and Helm be a Committee to accept tenders for the market Tolls, and the Clerk be instructed to advertise for the same."

The amendment carried and the original motion was lost.

DUMMER COUNCIL.

FEBRUARY, 7th, 1874.

A special meeting of the Council, called by the Reeve, touching the disposal of the Municipal Loan Fund money, coming to the Township, and for other purposes, met at the Town and Agricultural Hall, in Warsaw, at 10 a. m.

Members all present, except Mr. Wigmore.

Minutes of last meeting read and signed.

The Reeve reported verbally that he had the bonds of the Treasurer, with the names of W. Reid and C. Calder, as sureties executed.

Moved by Mr. Kidd, seconded by Mr. Smith, That the Treasurer having submitted the names of D. Kidd, C. Calder, and W. Reid as his sureties and that the bonds of Messrs. Calder and Reid, having been executed, this Council request that Mr. Kidd's name and bond be added to those executed.—Carried.

Moved by Mr. Ritchie, seconded by Mr. Kidd, That in the matter of the account of $6, of Wm. Chapter, presented by Mr. Morrison, no action be taken by this Council, and that the account be tyled.—Carried.

On motion, John Calder was appointed an officer to enforce the provisions of the Tavern and Shop License Act.

An order issued in favor of Mr. Morrison for $50, for his salary as Collector.

Moved by Mr. Kidd, seconded by Mr. Smith, That the Reeve and Clerk be instructed to memorialize the Lieutenant Governor in Council, praying that the Council shall have authority to pass a By-law to invest the money accruing from the settlement of the Municipal Loan Fund in Dominion Stock, County Debentures, or such other safe investments as they deem expedient, the interest in every case to be applied towards the Municipal or School obligations as may accrue from time to time.—Carried.

Moved by Mr. Smith, seconded by Mr. Ritchie, That a motion in Council authorising the payment of seventy dollars to Geo. Little for mare lost in defective crossway, passed on 6th December, 1873, be and is hereby rescinded, that the part of By-law No. 362, authorising the payment of the same be repealed, owing to information touching said matter since received by the Council, that Mr. Little receive forty-five dollars as payment in full, and that the Reeve give an order to Geo. Little for $5, in addition to $40 already paid.—Carried.

On motion, James Robb and James Morrison were appointed officers to protect the timber on the road allowance of the Township.

BY-LAWS.

One to appoint an officer to enforce the provisions of the Tavern and Shop Licenses Act. One to appoint Bush rangers and one to provide for the payment of [illegible] Wards and passed.

Council adjourned to meet at the Town and Agricultural Hall in Dummer Paterson, instant, to have Treasurer's [illegible] settled, &c.

[illegible]

FROM OUTSIDE EVENTS IN THE CANADIAN MONTHLY.

The ghost of the strangled Orange Bills stalked into the Legislative Assembly during the debate on the Address. The opening speech of the Lieutenant-Governor, referring to the fate of these Bills, promised a general measure under which all societies not illegal should be able to obtain incorporation. This was the signal for an amendment to the Address, censuring the Government for advising the reservation of the Bills. The real question involved, though it was almost missed in the debate, was, whether the Provincial Legislatures have larger powers than the Parliament of the Dominion in respect to measures of such unusual and extraordinary nature that, if passed at Ottawa, it would be the duty of the Governor-General, an Imperial officer, acting upon his instructions, to reserve them for her majesty's consideration. A Bill for the incorporation of the Orange Society was reserved by the Lieutenant-Governor of Prince Edward Island, previous to that Province becoming part of this Confederation, under the clause of his instructions which refers to Bills of an unusual or extraordinary character, and the reservation was followed by disallowance The practice followed in this case gives us the Imperial interpretation of the clause in question. Imperial statesmen, by whom these instructions are drafted or continued in force, would, we are warranted in assuming, from their position towards the Orange Society in Ireland, regard these Bills as unusual and extraordinary; though the words which qualify or in some measure define the term "unusual or extraordinary" make it otherwise doubtful whether the clause, taken as a whole, brings those Bills within its range. These instructions, though not addressed to the Lieutenant-Governor of the Provinces at present, as they were previous to Confederation, must nevertheless be taken as indicating a general policy for the Colonial Empire, from which a single Province could not be more entitled to claim exemption than the nation at large. The Lieutenant-Governor of Ontario, it is beyond dispute could not of his own motion assume to act upon instructions which are not addressed to him; the analogy between his position and duty and those of the Governor-General is incomplete. In default of Imperial instructions, he is thrown back upon the advice of the Minister. The effect of the reservation so made is to bring to the notice of the Ottawa Government measures which, if regarded as unusual and extraordinary, can be annulled by the exercise of the veto which, in such case, it is the function of that Government to wield; or if not regarded, the Royal assent should follow as a matter of course. To return the Bills with the remark that they were within the competency of the Legislature by which they were passed, was to annul them by a side wind instead of a direct veto. The effect of returning them was the same as that of disallowance would have been.

We can easily understand that neither Government wanted the responsibility of advising either disallowance or assent. Perhaps the inception of the Bills concealed a strategic motive. However desirable incorporation may have been considered, to perplex the Government by introducing a question on which perhaps no possible Government could agree was not less tempting. It happened the Premier, of all the Ministry, was in favor of the Bills. The question was necessarily an open question, on which Ministers were not bound to be united. But the Bills having once passed, the Ministry would have been bound, if there had been nothing unusual in them, to advise the Lieutenant-Governor to pronounce the Royal assent. It was only because the Bills were of an exceptional nature, and seemed to conflict with the policy of the Empire, that their reservation was justifiable. If there had been no obstacle to the Bills at once receiving the Royal assent, Mr. Howe's colleagues could not have suffered in public estimation for joining him in advising assent. They had opposed the Bills while they were in the Assembly. When an ordinary measure passes the formal stages there, assent to it becomes a matter of course. When the Bills were sent to Ottawa their fate should have depended upon the alternative of veto or assent; to return them with the remark that there was no reason why they should not receive the Royal assent, while withholding that assent was in the Ottawa Government alike irregular and inconsistent.

A FIFTEEN MILLION FIRE.

THE ROYAL PANTECHNICON COMPANY'S BUILDING BURNED.

Taylor's Pantechnicon and Furniture Repository in Belgravia, London, covering an acre of ground, was burned on Friday evening. The fire broke out at 6 P. M., and raged until midnight. The fire was only stopped by engineers demolishing walls, preventing its progress. The building alone was insured for $1,000,000. The total loss, including the contents of the burned structure, consisting of pictures, mirrors, 500 carriages, and a vast amount of other goods of various kinds, is estimated at $15,000,000. Five houses and several large stables adjacent were partially destroyed. There were a number of accidents and two firemen were killed. The fire attracted an immense and unruly crowd and it became necessary to call out the military to preserve order.

The Royal Pantechnicon Company was organised in 1863, and was similar to our Security and Trust Companies. The building itself was an imposing block, eight stories high, fronting Hyde Park, and in the immediate neighborhood of the palatial residences of Baron Rothschild, the Duke of Wellington, Sir Robert Peel and others. The front walls were of granite, elegantly sculptured. The building cost one million pounds sterling. The basement which was lined with iron, was carefully guarded by watchmen; while each safe had an iron grating before it. Here were locked up the valuable silverware of the old families of England, who rarely used it except on state occasions. These priceless collections were carefully examined, the company giving bonds for their safe keeping, and charging according to the valuation of the property.

The first floor was a magnificent art gallery, in which were deposited the rarest pictures of Turner, Reynolds and other galleries. Persons going out of town often left their private collections of gems of the fine arts for safe keeping. Besides these were pianos filled with costly jewelry and valuable collections of coins. Admittance to the Pantechnicon could be obtained only from a depositor or a director. In the rear of the first floor were collections of equipages, mostly of Foreign make, which were considered so costly that the owners feared to trust them on their own premises. On the floors above, besides several art galleries and marbles were collections of costly furniture, requiring complete suits and attendant to keep in order. The Pantechnicon was also used for the safe keeping of landed titles, mortgages, and other valuable papers, the company sometimes advancing money on the Collaterals deposited.

Every day during the London season rows of carriages could be seen standing in front of the building while their occupants were viewing the collections inside. It was said that the young Queensbury, who visited the Pantechnicon, were often shocked to find that their [illegible] wealth thus demonstrated.

The company owned a large number of vans and carts, and employed many a thousand persons. By this extent its operations were widely spread, and it was said that they could run up a large unit here or there, thus doing away with the necessity of competition.

The company was [illegible] in all parts of the country. By this branch offices in all the principal cities of Great Britain. The destruction of this building will strike many blows at rare manuscripts and plate.

[illegible]

The ladies for the northern tells will be opened on Saturday at 12 o'clock. Mr. Grout has those very well in past years and is well liked by all who do business on the season. He deserves favorable consideration.

STRICTURES

OF A SERMON PREACHED IN THE CHURCH OF ST. JOHN BAPTIST, NORTH DOURO, NOVEMBER, 16TH, 1873, BY THE REV. VINCENT CLEMENTI, B. A., AND PUBLISHED IN THE PETERBOROUGH "EXAMINER," FEBRUARY 19TH, 1874.

After reading the above mentioned sermon we were not a little surprised that such a text as "Finally, brethren, Farewell," should have been chosen as its issue. We read it again, and failed to see, scarcely, the slightest connection between the text and the sermon.

We have neither time nor disposition for controversy; meanwhile we have a feeling of profound pity for a minister of the gospel, who can at this the nineteenth century of the Christian era, give utterance to such sentiments from the pulpit, and scatter them broadcast to the world. The responsibility of such a minister is something fearful to contemplate; for if the shepherd goes astray (we hope in this case ignorantly and not wilfully) what shall become of the flock

The Doctrine of Baptismal Regeneration occupies a prominent position in the sermon, as it is very manifestly taught, both under the head of "privileges" and "duties." Mark the following quotations: "You have been baptized, at least I trust so, you have been baptized in accordance with our Saviour's express commands and by the appointed Ministers of His Church in His name, in His Father's name, and in the name of the Holy Ghost; and at that baptism your hearts first became the dwelling place of the Comforter, you became regenerate." "It was at that Font that your little ones have been presented by their sponsors, and made members of Christ, children of God, and inheritors of the kingdom of heaven." We infer from this teaching that should a child be without baptism it must be inevitably lost. How can any minister in his right senses promulgate such a cruel doctrine as this? How different from the words of Christ—"Suffer the little children to come unto me."—"for of such is the kingdom of Heaven." Further, let us suppose, with all charity, that those who become sureties for an infant are all true Christians,—have they not their own salvation to work out? We grant that the "effectual fervent prayer of the righteous man availeth much," but can the holiest man living be responsible for the salvation of another? If so, we presume that the children of many Christian parents would pursue a very different course. But it is a well known fact, that many who become sponsors are living at enmity with God, and have never prayed for themselves. How, then, are they to become sureties for the godly conduct of others? We have no hesitancy in saying that such teaching is a burlesque and a libel on the pure teachings of the gospel. From all such doctrines may the Church speedily be delivered.

The rite of confirmation also stands out very saliently.

Read the following: "Most of you, I am would hope, if not all who have been baptized, and are come to years of discretion, have had the Bishop's hands, the hands of the successors of St. Peter, St. John and St. Paul, and the other Apostles to the present day the Bishops of the Church." If we allow all the Rev. Gentleman claims for this rite, we are completely in the dark with regard to the Bishops of the Anglican Church being the true and only successors of the Apostles. It is well known that this Church was the outgrowth of the reformation in the sixteenth century. If the Church of Rome had become corrupt, necessitating the founding of another Church, this power must have been lost by it, and could not be delegated to another. If the Church of Rome retain the purity and power of the Apostles, another cannot have it, as all who hold opinions contemptible are heretics. A marvellous difference exists between Christ, who

SPRING CIRCUIT, 1874.

THE HON. MR. JUSTICE GWYNNE.

The Courts of Oyer and Terminer and General Jail Delivery, and of Assize and Nisi Prius, in and for the several counties of the Midland Circuit, after the present term, will be held as follows:

Napanee—Monday, 9th March.
Whitby—Tuesday, 17th March.
Belleville—Monday, 30th March.
Cobourg—Monday, 13th April.
Peterboro'—Wednesday, 22nd April.
Lindsay—Tuesday, 28th April.
Picton—Tuesday, 12th May.

To the Editor of the Examiner.

SIR,—I noticed in the last *Examiner* that the Town Council had submitted the By-law to be voted on by the ratepayers for a bonus to the Cobourg N. R., which I consider are well done, if the town does its duty to do its own interests.

I also noticed an article respecting Mr. Hugel's offer of the Midland Railway Company to purchase the Port Hope Harbour, and no doubt last year remembrance correct respecting the benefit it would be to Port Hope to have the Midland extended to Georgian Bay. But there are a great many obstacles in the way at Port Hope.

The first is: what would Mr. Hugel do with the money after he got the harbour mortgaged and the bonds turned into cash? If he did as the other two Presidents have done before him, he would put a great part of the money into his own pocket and walk off. It is well known that when Covert was President he got the bonds negotiated, and if the reports are true, put about $400,000 into his own pocket and retired, of which he never put an penny cents into the road. Then D. O. Bunbar became President, and besides getting a thousand pounds a year for his services, put about $400,000 into his pocket, and walked off; and it has been openly said at Port Hope that Mr. Hugel wanted to sell out and leave the concern, and I have been told by some of the leading men of Port Hope, if I would publish one of a party to buy him out. My answer was that I thought the road was on its last legs, as the business was getting can on all sides.

The Northern Railroad, I have been informed, has got the Another from Thompson's Mills in Essex, which is about ten millions a year, or $6.50 per thousand that is $65,000. The Whitby Gathering up another load— when time the Midland ought to have, and the Whitby Gathering in the grain alone in the Midland will, which will at once be extended to Lindsay and Georgian Bay in a short time. Also the Bowmanville Railroad will be built to Lindsay, Omemee Falls, and Georgian Bay, which will cross over the Midland, as far as money brought is concerned. Besides the Midland has got such a heavy mortgage on it, that I consider it is overpowered.

In the first place, it got a Bill passed three years since, to mortgage it for $1,600,000; and last year it got another Bill passed to mortgage it a second time for $800,000, making in all, debts on the road of 2400 pds., with a yearly debt attached to build the whole length, which it has to pay 6 per cent. a year on, besides interest on $80,000 in the Township of Thora, as well as interest to Peterborough on $100,000, and the yearly amounts to not less than $1,01,000 a year, besides what, the unfortunate payment to first down on loan has to pay annually, which will run it up to $400,000 a year; I do not believe the road will ever earn such an enormous debt, which I have no doubt they will do at a very short time.

Recently, when has become of all this money? The Company are only now back up, at least they pay the coupons on the bonds, and are running a train, but first they were more than paying for them or some where else, before they got their Georgian Bay. Now, I say that the road is insolvent indeed. I do not believe that Covert had a right to take $800,000 from the pockets of the Bondholder; D. E. Bunbar $400,000 and walk off. I should not be at all surprised to hear of the Bondholders calling on those two gentlemen to refund what they have taken from the road, without giving anything in return. My opinion is if the proceeds of the first mortgage bonds had been honestly spent on the road, it would have been finished long ago, and built to Georgian Bay many years since, and if Hugel either Bickerdyke is in second time, or calling on Port Hope to give up the harbour.

I know, by what the Port Hope people say to me, that they would willingly assist the road again, but they have had enough confidence in the present management, but will do by it as an honest, whether it is Bishop or not they wish they had not heard on the road, and that if I had never lent it the road would have been to Georgian Bay years since, neither should I have got considerable into my own pocket and walked off with it, as Covert did, but I should have been too anxious to push the road on wherever their was likely to be business for it. I was surprised to see the last *Review* call attention to the abandoning of the road from Millbrook to Omemee, which is a thing the Company could not do if they wished, without getting a charter to do it, and I think the Legislature would never grant it. But however, the *Review* perhaps has reasons for advocating such a scheme which I cannot be well to let the world know.

YOURS Truly,
JOHN BOWLE.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL

Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and rendering effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil 6 chemical bleeps takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing effects in the cure of all diseases of the throat, lungs, chest, stomach, bowels, kidneys, nerves, rheumatism, and all forms of soreness, whether internal or external. There is no appeal that can be made from the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small of Oils which they may contain.

Peterboro, Jan. 1, 1874

By-Law No —

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls.

WHEREAS the Corporation of the Town of Peterborough have resolved to grant aid by way of bonus to the Cobourg, Peterboro and Marmora Railway and Mining Company, to assist them in extending their Railway northward to Bobaygeon and Fenelon Falls by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars upon the terms and conditions hereinafter mentioned, and

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the Commissioners mentioned in the said Act, impose an assessment upon the taxable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the [illegible] year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes," the said Company [illegible] for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such By-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extension of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation, for the said sum of [illegible] such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to all intents and purposes whatsoever as if the provisions of the said Act were herein and hereby enacted in the words thereof.

2. That the said Debentures shall be made payable in twenty years at furthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debenture shall bear interest at the rate of six per cent. per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg, Peterborough and Marmora Railway and Mining Company or to whomsoever they may direct in that behalf from time to time as the same may be required by the said Company, but only in the manner and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Peterborough to the Village of Cobourgeon provided that it is so completed and in running order by the First day of January one thousand eight hundred and seventy-six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, providing it be so completed and in running order by the First day of January one thousand eight hundred and seventy-seven. Provided further that the said respective portions of the said Debentures shall not be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Sturgeon Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned, But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall not become payable as provided by this By-Law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough obliging the said Company in a penalty of the sum of ten thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be commenced, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable thereunder to the same—that is to say.

(1) That the said Railway Company shall run trains to be run at least one train a day —a regular freight and passenger train—each way between Cobourg and the northern terminus for the time being, of the said Railway.

(2) That a solid embankment and bridge shall be constructed over the Rice Lake which is a portion of the said Railway, the location of which by-law authorizing the Commissioners of this By-law authorizing the Commissioners of the Township of Otonabee-South Monaghan Railway Company to commence the same and to complete the same on the line of the Midland Railway at or near the town of Peterborough, to change the name of the said Company, and for other purposes.

November 14th, 1873. 47-6ins.

PRIVTE BILLS.

PARTIES intending to make application to Parliament for Private Bills, either for granting exclusive privileges, or conferring corporate powers for commercial or other purposes of profit, or for doing anything tending to affect the rights or property of other parties, are hereby notified that they are required by the rules of the two Houses of Parliament (which are published in full in the Canada Gazette) to give TWO MONTHS' NOTICE of the application (clearly and distinctly specifying its nature and object) in the Canada Gazette, and also in a newspaper published in the County or Union of Counties affected, sending copies of the papers containing the first and last of such notices to the Private Bill office of each House.

All Petitions for Private Bills must be presented within the first three weeks of the Session.

ROBERT LEMOINE,
Clerk of the Senate.

AN APPRENTICE TO THE DRUG BUSINESS.

Apply to

A. W. KEMPT & SON,
Feb. 20th, 1874. 8-tf. George Street.

granting the sum of $40,000 to the Peterboro and Haliburton Railway Company shall have been given to the said Town.

[10] The said Company shall never charge less for the conveyance of goods or passenger from any point south of Peterborough to any point north of Peterborough than from any such point south of Peterborough to Peterborough nor shall they ever charge less from any point north of Peterborough to any point south of Peterborough than from any such point north of Peterborough to Peterborough

[10] In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to touch Chemong Lake on that side thereof next the Town of Peterborough

7. That salem work on the extension of said proposed Railway from Chemong Lake northwards is actually and bona fide commenced and thereafter continuously proceeded with on or before the the first day of January one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this By-law, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end.

8. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the [illegible] day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each o. the wards of the Town at the places of polling therein respectively at the last Municipal elections, that the poll shall be opened at nine o'clock in the forenoon and closed at five o'clock in the afternoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jas Edwards for the Second Ward, Jno. Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The [illegible]day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein of the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough Examiner newspaper the date of which first publication was on Thursday, the [illegible] day, the Twenty-fourth day of February, one thousand eight hundred and seventy-four.

J. EDWARDS,
Town Clerk.
Peterborough, February 19, 1874.

NOTICE

IS HEREBY GIVEN that the Municipal Council of the Township of Dover intend at its first sitting to be held in the HOPE HALL on the THIRD MONDAY in JANUARY, 1875, to pass a By-law to legalize the following Road, viz :—

Commencing at the centre of allowance for road between the East halves of Lots 15 and 16 in the [illegible] concession of said Township; thence North 78 degrees, West 5 chains and 4 links; thence South 16 degrees and 30 minutes, West 2 chains and 30 links more or less, to the north side of the allowance for road, thence to the West to intersect the lots; being in all 13 chains and 34 links in length, the described limits to be the centre of the Road, and the Road to be 66 feet wide.

WILLIAM O'BRIEN,
Township Clerk.

Dover, December 30, 1873. 1-3in

NOTICE.

APPLICATION will be made at the next session of the Ontario Legislature for an act to construct a Railway from Peterboro, by way of Lindsay, Uxbridge, Newmarket, Orangeville, Arthur and Fergus to Goderich harbor, with a branch from Brussels to Sarnia and Sarnia, to be called the Ontario and Quebec, Goderich and Sarnia Extension, with power to amalgamate or make running arrangements over the Whitby and Port Perry, Brighton, Hamilton and Northwestern, Orangeville and Guelph, Credit Valley, from Orangeville to Toronto; Wellington, Gray and Bruce, Northern and Hamilton, London and Huron, or any other Railways in the Province of Ontario. Also to raise or charter a loan Company.

NOTICE.

Notice is hereby given that application will be made to the Legislature of the Province of Ontario at its next Session for an Act to authorize the Midland Railway of Canada to guarantee the interest on such Bonds, not exceeding nine thousand dollars per mile, as the Omemee Bobcaygeon and North Peterborough Junction Railway may issue, and for other purposes.

November 14th, 1873. 47-6ins.

PRIVTE BILLS.

NOTICE IS HEREBY GIVEN

That application will be made to the Legislature of the Province of Ontario at its next Session for an Act authorizing the Omemee Bobcaygeon and North Peterborough Junction Railway Company to commence the same and to complete the same on the line of the Midland Railway at or near the town of Peterborough, to change the name of the said Company

Choice Poetry.

THE EMBARKATION OF THE "BLACK WATCH."

Oh, what is the news? Why glengarries and trews!
Ou, a e are the tartan, the kilt, and the feather?
Just laid up for a bit, since they say they're not fit
For the African jungle and African weather.
And whate'er may befall, 'tis not they, after all,
That strike such a terror to every beholder.
Oh, no! 'tis the men from the mountain and glen,
When the Watch-word is—"Highlanders shoulder to shoulder.

And when the pipes blow, and they march on the foe,
To the tune of the "Big lander over the Border,"
The lads from the North will step gallantly forth,
As if on parade, without haste or disorder.
And the backs will find out, when it comes to a bout,
Though in all their fierce tribes none are stouter or bolder,
What stern courage is shown when the bibroch is blown,
And the Watch-word is—"Highlanders, shoulder to shoulder.

When the moment is ripe, to the skirl of the pipe,
The gallant "Black Watch will dash into the battle,
And silent and strong, cut their way through the throng,
And grimly will slaughter the foes and the cattle.
And the next time the blacks are expecting attacks—
At the sound of the pibroch their hearts will grow colder—
For they'll know it denotes—that there's slitting of throats,
When the Watch-word is—"Highlanders, shoulder to shoulder!

Boys will be Boys

Never lose heart because your boys are a little wild. While you sadly call to mind the things they have forgotten you are ignorant of the things they remember. It is the fashion for boys to appear indifferent to the counsels of parents. They have an idea that it is rather the manly and handsome thing to take good advice in a dogged sort of way, just as they take medicine, and a very brave thing to dare your threat. All this is written in the code of boyhood. We can't quite say with Emerson that it is the bad boy who makes the good man; and yet we have a great deal of sympathy with that overflowing spirit of youth which is sometimes a little reckless, and which frequently leads into mischief.

Just sit down, if you have such a son, and recall your own early days. It may be difficult for you just now, when you are in the middle of life to see the fun which the boy finds in what appears to you to be utterly foolish, or perhaps wanting only evil; but if you will turn to the early chapters of your own biography, you will find yourself stopping up the spouts of the old country house, just to see the rain pour ever like a waterfall, and you will recall the fun of the old gentleman's embarrassment, as he rushed out into the rain bareheaded, to find the cause of the trouble, and thereby got an attack of the rheumatism which laid him up for a couple of weeks.

Well, your boy is going through the same experience, and, by-and-by, he will regard it as you do now, as an unutterably foolish thing, and wonder where in the world the fun was. The truth is, that all these pranks are as necessary to boyhood as the measles. They are the result of natural animal spirits, which can no more be repressed than can the waters which come bubbling up out of the sand.

We remember when a very wild colt presented his heels to us in such a forcible manner that, before our surprise had vanished, we found ourself in a little disgusted heap on the other side of a five rail fence. At the time, we thought it an unhorsely thing to do, and felt exceedingly like pelting the creature with stones. But he came up to the fence with such a demure and abashed look, and put his head beneath the rail and snuffed at us in such a repentant mood, that we concluded it was part of the necessary experience of the animal, and cheerfully forgave him. Now, boys are coltish. They never think of consequences. They only have the fun of the thing in view.

Don't stop praying, and praying hopefully, for your children at such times. By keeping close to the boy's heart, and trying to appreciate his side of the matter as well as your own, you will keep control of him.

The Dog and the Shilling.

A gentleman who had a splendid Newfoundland dog, was riding with a friend one day, when the dog became the subject of conversation. Having praised the qualities of his favourite very highly, the owner assured his companion that Nero would, upon receiving the order, return and fetch any article he should leave behind from any distance. To confirm this, a marked shilling was first shown to the dog, and put under a large square stone at the side of the road. The gentleman then rode three miles, when the dog received the signal from his master to return for the shilling he had seen put under the stone. The dog turned back, the gentlemen rode on and reached home, but to their surprise the hitherto faithful messenger did not return throughout the day. It afterwards appeared that he had gone to the stone under which the shilling was placed, but it being too large for his strength to remove, he stood howling at the place till two gentlemen on horseback, hearing the noise made by the dog, stopped to look at him, when one of them alighting, removed the stone, and seeing the shilling, put it into his pocket, not at the time thinking it to be the object of the dog's search. The dog followed their horses for twenty miles, remained quietly in the room where they supped, followed the maid into the chamber, and hid himself under one of the beds. The possessor of the shilling hung his breeches on a convenient nail by the bedside; but alas, when the travellers were both asleep, the dog took the breeches in his mouth and leaped out of the window, which was left open on account of the heat, reached the house of his master at four o'clock in the morning with his prize, in the pocket of which were found a watch and money, which, upon being advertised were returned to the owner, when the whole mystery was explained to the admiration of all parties.

There was, says the Halifax *Chronicle*, a colored marriage in Guysborough last week. The parties interested were not well posted in the marriage ceremonies, and the bridesmaid and groomsman managed to get into the places of the bride and groom. The services proceeded, and the minister was just about pronouncing the "second best" partien man and wife, when a lady spectator who, like all of her sex and color, knew the ceremony well, stepped up and explained the state of affairs. What a narrow escape that bridesmaid and groomsman had!

VINEGAR BITTERS

PURELY VEGETABLE FREE FROM ALCOHOL

WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are a perfect, Diaphoretic, Chemicating, Nutritive, Laxative, Diuretic, Epispastic Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably preceded by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Select Poetry.

DON'T FORGET ME.

BY JOHN READE.

Don't forget me!—Sweet and soft,
Were those whispered words of thine;
Like the voice of flowers at eve,
When they fold each little leaf,
And to sleep their life resign
Till the sun awakes them glad.

Ah! but I am not to thee
As the sun is to the flowers—
They live only in his light,
They live only in the night
Of the brightness that he showers
From his golden majesty.

Bright and gentle, pure and good,
Ever in mine eyes thou art.
Far too good and pure for me—
I can only worship thee!
Keeping thee within my heart,
Goddess of my solitude.

—*New Dominion Monthly.*

Canada's Relation to England

Canada, at this moment, is like a young scion of an ancient and honored family; who had just come to an age when he feels his strength. The blood of many past generations is circulating through his veins, and during his own short lifetime he has had his full share of the discipline and buffeting which wise men agree to be so good for youth. He has been snubbed when he began too self confident; and of cuffs and blows administered with hearty goodwill (in the spirit of kindness doubtless) he has had a plentiful share in his younger days. The parental treatment has not always—truth to say—been of the wisest. The discipline suitable to a child was continued until he was a strong and lusty boy, and tutors and governors drew the bands so tight that they burst at last, and the young hopeful broke into open rebellion. A crisis like this brought about the result usual in cases where there is after all a real respect on both sides. A liberty more suitable to the age and present circumstances of the lad was granted. The vast and wild domain set apart for his future inheritance, was reserved more and more to his use and benefit; and as he grew older year by year he was encouraged to explore it, stimulated to subdue it, consulted about its boundaries, and made to feel that it was largely his own. At one time, indeed, this policy was carried somewhat too far. Hints, broad hints indeed, were conveyed to him that he was old enough and strong enough to set up an independent establishment, and that the heads of the old house at home would be rather pleased than otherwise at his doing so. Some circumstances favored the idea. The young man had developed marvellously since the bands were relaxed. He had shown himself, on more than one occasion to have the great qualities of the families from which he derived his descent. He had become ambitious and bold; he had done wonders with his money; he had large ideas of the future. But with a wisdom, perhaps beyond his years, he knew his position better than to take the hint to separate, and gradually the notion faded away from the parental imagination.

The two never understood each other better than at present. A high filial respect on one side is accompanied by considerable parental pride on the other. The parents view with unconcealed gratification the growing manliness and vigor of their stalwart son, and think with pride of his achievement in building, and planting, and cultivating—achievements which, as they well know, are but the earnest of what is to be done by and by. And the son glories in the great historic fame and mighty deeds in arms and arts, in verse and song, in law and learning, in commerce and colonizing, of the two great lines of ancestry whence he derives his descent. All that is wise and great and good in them he is proud to reproduce, and he uses the large liberty now wisely conceded to him, to adapt, select and reject, according to his own judgment of what is best. Seldom has their been a happier political position; we may, perhaps, use the stronger word—never; let all, therefore, who wish Canada well join us in the hearty and fervent aspiration, *Esto perpetua.*—From "Review of the Times," in *New Dominion Monthly for February.*

Pickpockets in Paris.

Among the English visitors to Paris during the gay season of the new year were several pickpockets, who were, however, in most cases, received by the police of the festive city. There were some of the "elite" of the English practitioners—who are, however, rivalled, if not excelled, in dexterity and ubiquity by their French compeers. The following story is told of the latter by a French journal:

A physician, officially connected with the prison of La Force, and much beloved by his light-fingered patients, perceiving on leaving the Varieties one night that his pocket had been picked, and that his opera glass was gone. Next day, on meeting the denizens of La Force, he expressed his displeasure at the occurrence. "It is all very well," said he, "for you to say I am popular among you, but I am treated just us others are. Some of your friends contrived to relieve me of my opera glass last night at the Varieties." "That was because they did not know you, doctor," replied a prisoner. "Who was on duty at the Varieties last night?" he inquired, turning to comrade. The answer was given in a whisper. "You shall have your glass to-morrow," he added. Next day a person called on the physician's wife. "Here," said he, "are all the opera glasses stolen at the Varieties two nights ago; please to point out the doctor's." The lady having done so, the obliging pickpocket handed it to her, restored the others in their cases, and disappeared.

Civility.

A courteous man often succeeds in life, and that even when persons of different. The experience of every day furnishes frequent instances where ordinary manners have made the fortunes of physicians, lawyers, divines, politicians, merchants, and, indeed, individuals of all pursuits. In being introduced to a stranger, his affability or the the reverse, creates instantaneously a prepossession in his favor, or awakens unconsciously a prejudice against him. To men, civility is, in fact, what a pleasing appearance is to women; it is a general passport to favor; a letter of recommendation written in a language that every person understands. The best of men, have often injured themselves by irritability and consequent rudeness, whereas men of inferior abilities have frequently succeeded, by their agreeable and pleasing manners. Of two men, equal in all other respects, the courteous one has twice the advantages, and by far the better chance of making his way in the world.

Peterboro, July 9, 1873 30-3m*

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, derived from its cures, most of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and renovated by it. Without a doubt, it is the most effectual antidote for the various diseases of the blood which afflict humanity. Its introduction into any community is followed by the public demonstration of its virtues. Every one has heard of some one of the most remarkable cures it has effected. Its wonderful power to overcome the most obstinate and dangerous disorders, and its thorough purifying effect upon the blood, make it the best spring medicine that can be used. Every body should take it in the spring, to expel the impurities which have accumulated during the winter, and prepare the system for the change of season. Many people suffer terribly from Spring Diseases, which could be avoided by the timely use of this remedy. For Purifying the Blood, Ayer's Sarsaparilla is the best medicine you can take. For Liver Complaint, Dyspepsia or Indigestion, Biliousness, Jaundice, Rheumatism, Gout, Neuralgia, Heart, and other diseases of the kidneys, Ayer's Sarsaparilla has been found a specific benefit, and in many cases a perfect cure. For Ulcers, Eruptions, Tumors, Boils, Carbuncles, Blotches, and Sores, you will find it an excellent alterative, and the use of it will be followed by a clear skin and vigorous health. For Female Complaints, it is unequalled by any other medicine. Indeed, we might say much more in favor of this unrivalled remedy, but the space we can afford in this paper is too limited. Those who have tried it, know what it is, and those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of its remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. They are sugar coating preserves them ever fresh and make them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

General Agents for Ontario.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody to a certain time, but was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a sugar coated, tasteless and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any deleterious drug, they may be taken with safety by anybody. They are sugar coating preserves them ever fresh and make them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. Because they are found to possess all the qualities claimed for them.
2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. Because no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. Because the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. Because the never tire the eyes and last many years without the necessity of change.
6th. Because being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

Choice Poetry.

A CERTAIN YOUNG WIDOW.

She is modest, but not bashful,
Free and easy, but not bold,
Like an apple, ripe and mellow,
Not too young, yet not too old.
Half inviting, half repelling,
How adorning, well I ween,
There is much of her charms,
There is danger in her eye.

She has studied human nature;
She is schooled to all its ways;
She has taken her diploma
As the mistress of all hearts,
She can tell the very moment
When to sigh and when to smile.
Oh, a world is sometimes charming,
Such a widow all the while.

Are you sad? How very serious
Will our handsome Lou become,
Are you merry? Shade o' Venus,
Lou's, I dare say, just as glad.
Are you melodious? How her laughter,
Silver-sounding, rings out wild,
She can hum, or she can whistle,
She can play, and she can pout,
As an angler does a worm.

You old backs'ers of forty,
Who have grown so sage and wise;
You my T'irty-years of twenty,
With an love-look in your eyes;
You may pass me all the lassies
Tonight by Or'ed since the Fall!
But I'll save a little widow
Who could win a lad 'eel you all.

DISTINCT RACES OF SCOTLAND.

From Tytler's History.

VOL. I.

Continued from last week..

A superior baronet in these ancient time was thus in every respect a king in miniature Surrounded by the officers of his little feudal court, he possessed the privilege of dispensing justice, or what he choosed to term justice, amongst his numerous vassals; he was the supreme criminal judge within his far-extended territories, and enjoyed the power of life and death, of imprisonment within his own dungeon, and of reclaiming from the court, even of the high justiciar, any subject or vassal who lived upon his lands. Can we wonder that, in the course of years, men, possessed of such high and independent privileges, became too powerful for the crown itself? It was in consequence of this that Bruce, in the disposition of many immense estates, which were forfeited for their determined opposition to his claim to the crown, bestowed them in smaller divisions upon new proprietors, who rose upon the ruins of these ancient houses. The frequent grants of these estates by Bruce diminished the strength of the ancient aristocracy; but it is evident, at the same time, that, as the new charters frequently conveyed along with the lands the rights of holding their own court, the power which had controlled the crown during the struggle of this great prince for his kingdom was rather divided than diminished; so that the new barons, under the weak reign and long captivity of his successor, became as independent and as tyrannical as before.

When we come to consider the origin of the royal burghs, and the privileges conferred upon them by the sovereign, we shall discover a different and inferior judicial power, which exteaded to the determination of all causes arising within the limits of their jurisdiction.

In this brief sketch of our civil history it is impossible to enter into details upon the great subject of the law of the kingdom, as it existed during this remote period; but it may be generally remarked that in the courts of the great justiciaries, as well as in those held by inferior officers of justice throughout the realm, most causes of importance appear to have been determined by the opinion of an assize, or an inquest; a mode of legal decision which we can discern as early as the reign of William the Lion. I the year 1148, we find an inquest appointed to decide a dispute regarding the pasturage of the king's forest, which had arisen between the monks of Melrose and the men of Wedale. The inquest, which consisted of twelve "good men," *fideles homines*, and Richard Moreville, the constable, were sworn on the relics of the Church, and sat in presence of the king, his brother David, earl of Huntingdon, and the prelates and nobles of the court. It is probable, although it cannot be affirmed with certainty, that, even at this early age the opinion of the majority of this jury of thirteen decided the case, and that unanimity was not required.

In an inferior dispute, which seems to have arisen between the monastery of Soltre and the inhabitants of the manor of Crailing, in the year 1271 regarding the right of the monks to a thrave of corn every harvest out of the manor, the course was determined by a jury summoned from the three contagcous manors of Eckford, Upper Crailing, and of Hetum, who, under the title of *Antiquiores patriæ*, decided it in favor of the monks of Soltre.

The office of constable, which appears in Scotland as early as the reign of Alexander the first, was exclusively military, and undoubtedly of Norman origin. This great officer was the leader of the military power of the kingdom. In England, we find him in 1163 denominated indiscriminately constabularius and princeps militiæ; and there is every reason to believe that the province of the constable, as head of the army, was the same in both countries. What was the exact distinction in our own country between the office of the mareschal and the constable it is not easy to determine. That they were different appears certain from the fact that we find a mareschal and a constable under the same monarch, and held by different persons; but we have no authentic record which describes the nature of the duties which devolved upon the mareschal, although there is no doubt both offices, at an early period, became hereditary in certain great families. The of the constable, or high steward, and of the chamberlain, belonged to the personal estate of the sovereign; and those who held them enjoyed the supreme authority in the management of the king's household, and in the regulation of the royal revenue. Both are as ancient as the reign of David the First; and the rolls of the royal expenditure, and receipts of the various items and articles of revenue, which were kept by the chamberlain, in his capacity of treasurer, still fortunately remain to us,—a most curious and instructive monument of the state of the times. The offices of inferior interest though of equal antiquity—the panetarius, or royal butler; the hostarius, or keeper of the king's door; the pincernæ, or cupbearer; to which we may add the keepers of the king's hounds, the royal falconers, the keeper of the wardrobe, the clerk of the kitchen, and various other inferior dignitaries—sufficiently explain themselves, and indicate a considerable degree of personal state and splendour.

To whatever spot the king moved his court, he was commonly attended by the great officers of the crown, who were generally the richest and most powerful nobles of the realm. It will be recollected also that such high barons were, in their turn, encircled by their own seneschals, chamberlains, constables, and personal attendants, and brought in their train an assemblage of knights, squires, and inferior barons, who regarded their feudal lord as a master to whom they owed a more paramount allegiance than even to their king. To these officers, knights, and vassals, who, with their own soldiers and martial dependents, constituted what was termed the "following" of every great baron, his voice was, in the most strict and literal meaning, a supreme law, his service their only road to distinction. This has been sometimes called the principle of honour; but as their neglect was sure to be visited with punishment, if not with utter ruin and degredation, it was, in truth, a lower principle—of selfishness and necessity, which limited their duties to the single business of supporting their liege lord against those whom he chose to esteem his enemies. None, indeed, can attentively read the history of these dark times without being aware that the immense body of the feudal vassals and military retainers throughout Scotland regarded the desertion of their king, or their leaguing themselves against the liberty of their country, as a crime of infinitely lighter dye than a single act of disobedience to the commands of their liege lord; and, considered in this light, we must view the feudal system, notwithstanding all the noble and romantic associations with which it has invested itself, as having been undoubtedly, in our own country, a principle obstruction to the progress of liberty and improvement. We shall conclude our remarks upon the distinction of ranks in Scotland by some observations upon the state of the lower classes of the people during this imporiant period of our history.

These classes seem to have been divided into two distinct orders. They were, first, the free farmers, or tenants of the crown, of the church, and of the greater or lower barons, who held their lands under lease for a certain rent, were possessed of considerable wealth, and enjoyed the full power of settlement in any part of the country which they chose to select, or under any land lord whom they preferred. This class is generally known in the books of the Chamberlain Accounts by the title of "*liberi formarii*," and a convincing proof of their personal freedom at an early period is to be found in the fact, which we learn from the same curious and instructive records, that the farmers of the king possessed the full power of removing from the property of the crown to a more eligible situation. During the minority of the Maiden of Norway a sum of money was advanced to the farmers of the king, in order to prevail upon them to remain on the crown lands of Liberton and Laurencetown, which they were about to desert on account of a mortality amongst their cattle. It was, I conjecture, this free body of feudal tenants, who were liable to be called out on military service, and formed the great proportion of the the Scottish infantry, or spearmen, in the composition of the army.

Verydifferent from the condition of this first order was the second class of cottars, bondsmen, or villeyns. Their condition forms a marked and extraordinary feature in the history of the times. They were slaves who were sold with the land; and their master and purchaser possessed over their persons the same right of property which he exercised over the cattle on his estate. They could not remove without his permission; wherever they settled his right of property attached to them; and, whenever he pleased he could reclaim them, with their whole chattels and effects, as effectually as he could seize on any animal which had strayed from his domain. Of this state of slavery innumerable examples are to be found in the Cartularies, establishing beyond controversy, that a considerable portion of the labouring classes of the community was in a state of absolute servitude.

We find, for example, in the Cartulary of Dunfermline, that three bondsmen, Allan, the son of Constantine, with his two sons, had in 1340 transferred themselves from the lands of the abbot of this religious house to some other habitation, under pretence that they were the villeyns of Duncan, earl of Fife. On being ordered to come back to their own master they had refused, upon which an inquest was summoned, for the purpose of determining to whom Allan, the son of Constantine, and his sons, belonged; when it was found that they were the property of the abbot.

So early as the year 1178, William the Lion made a donation of Gillandreas M'Southen and his children to the monks of Dunfermline for ever. We find that David the First, in 1144, granted to the abbot of Kelso the church of Lesmahago, along with the lands of the same name, and their men; and still later, in 1222, the Prior and the convent of St. Andrews, by an express charter, which is still preserved, permit a bondsman and his children to change his master, and to carry his property along with him. In the year 1258, Malise, earl of Strathern, gave to the monks of Inchaffray, for the safety of his own soul and the souls of his ancestors and successors, John, surnamed Starnes, the son of Thomas, and grandson of Thor, with his whole property, and the children which he had begotten, or might beget; and this for ever.

When a grant of land was made by the king, or by any of his nobility, either for military service or to be held blench for the payment of a nominal fee-duty, it carried along with it to the vassal the power of removing the tenants, with their cattle, provided they were not native bondsmen. The right to these, and the power of reclaiming them, remained in the person of the lord of the soil, or feudal superior. Thus, in a valuable collection of ancient papers, we find a charter by which one of the Roberts confers upon Maria Comyn certain lands, "cum licentia abducendi tenentes, cum bovis suis, a terris, si non sint nativi et ligii hominen."

In consequence of this certain and acknowledged right, in the feudal landlord or baron, to the property of his bondsmen, with children and children's children for ever, it became a matter of great consequence to ascertain with exactness, and to preserve, the genealogy of this unfortunate class of men, in order that, upon any diversion of removal, the power of reclaiming them might be exerted with certainty and success. Accordingly, the Cartularies present us with frequent examples of genealogies of this sort. The names of these bondsmen are essentially different from the freeborn vassals and tenants, who commonly took their names from their lands. In an ancient deed, entitled a perambulation to determine the boundaries between the lands of the abbot of Dunfermline and those of David Doorward, which took place in the year 1231, under Alexander the Second, the names of the landholders and miner barons, and of the bondsmen who attended upon this occasion, are easily distinguished from each other. We meet with Constantine de Locher, and Philip de Loch, and many others, after which occur such uncouth appellatives as the following:—Gillecostentin, Bredinlamb, Gillescarfnac Rolf, Gillecolmmacmelg, John Trodi, Riscoloc, Beth MacLood, Gillepatric Macmanethin; and it may be noticed as a singular circumstance, which proves how different were the habits and customs of this degraded class, from the freemen of the same country, that the father does not seem to have thansmitted his name or surname to his children, or, at least, that this did not necessarily happen. In the genealogy of John Scoloc, which is preserved in the Cartulary of Dunfermline, the son of Patrick Sturmarauch, was Allan Gilgrewer, and the son of Alllan Gilgrower was John Scoloc. It seems certain that no change in the situation of these bondsmen, by which they rose in eminence or opulence could have the effect of removing them from their original degraded condition. They might enter the Church and become clerks, or continue laymen, and pursue a successful career as artisans or merchants, but they were still as much slaves as before; and till the time they purchased or procured their liberty by the grant of their master, these persons profits, and whole estate belonged exclusively to him. This is strikingly exemplified in a convention preserved in the Cartulary of Moray, which took place between Andrew, the bishop of that see, and Walter Comyn. It was agreed, in this deed, that the Bishop of Moray and his successors in the see, should have all the clerks, and two laymen, whose names were Gillemalavock Macnakengello, and Sythach Macmallon; these clerical and lay bondsmen, the deed proceeds to say, are to belong to the bishop and his successors, with their cattle, possessions, and children forever; while the Lord Walter Comyn *is to have all the remaining lay bondsmen* of the lands of Logykenny and Inverdrummyn. It may perhaps be doubted whether the *clerici nativi* here spoken of do actually mean bondsmen who have become clerks, or may perhaps merely signify bondsmen belonging to Church lands. Yet the words of the deed, and the marked opposition in which we find the words *clerici et laici nativi*, seem to favor the meaning here attached to it.

In England, under the Government of the conqueror, it was the mark of freemen that they could travel where they chose; and exactly the same criterion was established in our own country. In Doomsday Book, a Norman baron, Hugo de Port, is mentioned as the master of two tenants, who, in the days of Edward the Confessor, might go where they pleased without leave. In like manner Robert Bruce, in the year 1320, grants a charter to Ade, the son of Aldan, in which he *declares that it had been found*, by an inquest held before his chamberlain and justiciary, that this person was not the king's slave or bondsman, but was at liberty to remove himself and his children with their goods and chattles to any part of the kingdom which he might select, as his own will and pleasure, without molestation by any one: on which account the king declares the said Ade, with his sons Beth, John, Ranald and Duncan, to be his freemen, and as such not subject to any yoke or burden of servitude forever. As the master could not reclaim his fugitive bondsman from any place to which he had transferred himself, so it was in his power alone to make his slave a freeman whenever he pleased. Thus by a charter, dated at Perth on the 28th February, 1369, David the Second intimates to all concerned that he has made William, the son of John, the bearer of these letters, who was his slave and bondsman, his freeman, and had emancipated all his posterity; so that he had full right, without trouble or molestation, to travel with his property and his children to whatever place he chose, and there take up his abode. Many examples of the manumission of such unfortunate persons by their baronial masters, and still more frequent instances of the gift of freedom, conferred by the rich ecclesiastics and religious houses, are to be found in records of undoubted authenticity. But the progress of freedom amongst the laborers of the soil was exceedingly slow and gradual; the names which are indicative of this degraded condition, such as nativi, servi, villani, bondmen fugitivi, bondi, mancipii, occur throughout, the whole period of the thirteenth and fourteenth centuries; nor is it prior to the fifteenth that we can discern the extinction of slavery, and the complete establishement of individual freedom. In Scotland, Bondage appears to have been sooner abolished than in the sister country. It continued in force in England as late as the year 1136; and its last traces are still discoverable in 1574, when a commission was issued by Elizabeth for the complete manumission of the last relics of bondsmen and bondswomen in her dominions.

The Trousseau of H R. H. the Duchess of Edinburgh!

The Grand Duchess Marie's trousseau has been displayed in the White Hall of the Winter Palace. Without being guilty of exaggeration one may say that it equals in quantity an entire season's stock in trade of any of the monster shops of Paris. To make use of a tradesmanlike expression, "the quality is unrivalled." It has been erroneously stated that many of the ball and other dresses were "brand new from France." The truth is that, whatever countries were ransacked for the costly fabrics which enter into the composition of the Imperial bride's wardrobe, all the mantua making and millinery has been done here at St. Petersburg, where the most skilled artisans are gathered from the different capitals and manufacturing towns of Western Europe. For a description of the apartment in which the trousseau of the Duchess of Edinburgh was exhibited I shall refer your readers to the ubiquitous "Murray," contenting myself with saying that is far more spacious than Westminster Hall. On seven tables of vast length, running parallel to each other and cornered with striped holland, where displayed the wedding paraphernalih of the Czar's only daughter. In obedience to a rule laid down by the Empeior Nicholas, who thought it unsafe to let the toiling classes see how sumptuously the governing ones fare, admittance to the unique exhibition in the White Hall was refused to every one, whether of native or foreign birth, who did not come in evening dress, and provided with a chamberlain's ticket. The Czar, it would appear, it would appear, wished for a single day to allow, his subjects, without distinction of class, to feast their eyes on the gorgeous apparel of the Grand Duchess. But the Czarina was of another mind, Her Imperial Majesty thinking that the lot of Russian Gibeonites is already hard enough without sowing the germs of envy in their breast and making them a ready pray to discontent.

The table nearest to the door, by which the privileged bearers of the Chamberlain's tickets entered, was covered with shoes, boots, slippers, and hosiery. If the Imperial bride live to the age of fourscore, it is impossible to contemplate her wearing out the different articles which were exhibited on this table. There were shown not by the dozen, but by the gross, Louis Quatorze, Louis Quinze, and Marie Antoinette boots and shoes to fit her Imperial Highness's foot. The possibility of her discarding high for low heels is also contemplated. Parental forethought, moreover, anticipates excursions in Swiss and Scotch mountains, hunts in Thuringian forests, probable visits, in the winter season, to Russia, and reviews of the regiment of which the Grand Duchess is a colonel. Her snow and military boots are stiched with an elaboration of detail which might be thrown away in Western Europe. In this connection a few words about the colonel's uniform of the Grand Duchess which figures in the tailoring department. It is charmingly designed and executed. Arrayed in it her Imperial Highness (who is a blonde of exquisite fairness) must have the air of a pocket Pedthesilea. Her helmet is of cunning Muscovite workmanship. It is a beautiful product of the Russian artificer's skill in blending gold, steel, and silver. Those who visited the Paris Exhibition of 1868 may form an idea of its peculiar merits as a work of metallurgy from the Muscovite vases which were then on view in the Russian department. As a matter of course so great a personage as the Czar's only daughter has a right to appear at reviews with her breast cocqered with decorations, which enhance the effect of gold lace and brandenburgs.

But to return to our starting point in the White Hall. Should it be possible to exhibit the entire trousseau in a drawing room of Buckingham Palace I would recommend novelists in quest of local color for a

By-Law No —

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls or some other point northward or north eastward of Bobcaygeon.

WHEREAS the Corporation of the Town of Peterborough have received to grant aid by way of bonus to the Cobourg, Peterboro and Marmora Railway and Mining Company, to assist them in extending their Railway northward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars upon the terms and conditions hereinafter mentioned.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayer, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such by-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extention of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls or some other point northward or north eastward from Bobcaygeon by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2 That the said Debentures shall be made payable in twenty years at furthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debentures shall bear interest at the rate of six per cent. per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg Peterborough and Marmora Railway and Mining Company or to whomsoever they may appoint to receive the same in the manner at the times and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Cobourg to some navigable point on Chemong Lake and provided that it is so completed and is running order before the first day of July one thousand eight hundred and seventy-five, and another portion thereof, namely, to the amount of the sum of Twenty Thousand dollars to be issued and delivered to the said Company when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Bobcaygeon provided that it be so completed and is running order by the First day of July one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, or to some other point northward or north eastward of the said village of Bobcaygeon and distant twelve miles therefrom providing it be so completed and in running order by the First day of July, one thousand eight hundred and seventy-seven. Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned. But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall not become payable as provided by this By-Law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough obliging the said Company in a penalty of the sum of ten thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be commenced, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable to comply with the same—that is to say.

(1) That the said Railway Company shall run or cause to be run at least one train a day—a regular freight and passenger train—each way between Cobourg and the northern terminus for the time being, of the said Railway.

(2) That a solid embankment and bridge shall be constructed over the Rice Lake within a period of five years from the passing of this by-law according to the plans of Walter Shanly, Esq., Civil Engineer.

(3) That the said Company shall not nor will amalgamate with or enter into any arrangements with any rival company whereby a tariff shall be agreed to be mutually charged by both companies or for the apportioning of trade between them.

(4) That a regular Passenger and Freight Station of the said Railway shall be maintained in the Town of Peterborough,

(5) That the Mayor of the Town of Peterborough for the time being shall always be made a Director of said Company.

(6) That the tariff of the said Railway shall not in any case exceed the ordinary current tariff of the Midland Railway for the year 1871 and that the said tariff shall include a rate for the carriage of raw material from the front by the car load to Peterborough for the purpose of manufacture, twenty-five per cent lower than the ordinary tariff.

(7) That the line of the said Railway shall reach Chemong Lake at some point navigable for steam and other vessels, and that the Company shall provide and maintain ample harbour and station accommodations for forwarding lumber along the said line may on reach Chemong Lake.

(8) That none of the said Debentures shall be so delivered or deliverable until a good and sufficient release to the Town of Peterborough of and from all liability under the By-law granting the sum of $40,000 to the Peterboro and Haliburton Railway Company shall have been given to the said Town.

(9) The said Company shall never charge less for the conveyance of goods or passengers from any point south of Peterborough to any point north of Peterborough than from any such point south of Peterborough than from any such point north of Peterborough to any such point south of Peterborough to Peterborough.

(10) In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to touch Chemong Lake on that side thereof next the Town of Peterborough

7. That unless work on the extension of such proposed Railway from Chemong Lake northwards be actually and bona fide commenced and thereafter continuously proceeded with on or before the 1st first day of January one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this By-law, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end.

8. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the THIRTY FIRST day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the wards of the Town at the places of polling therein respectively at the last Municipal elections, that the poll shall be opened at nine o'clock in the forenoon and closed at five o'clock in the afternoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jas. Edwards for the Second Ward, John Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By-law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The 31st day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein of the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough EXAMINER new paper the date of which first publication was on Thursday, the Fifth day of March, one thousand eight hundred eight hundred and seventy-four.

J. EDWARDS,
Town Clerk.

Peterborough Examiner.

PETERBORO', MARCH 5, 1874.

Young Canadians L. O. L.

The regular monthly meeting for March of the Young Canadians L. O. L. No. 1316 will be held next Tuesday evening, 10th March.

Toronto Markets.

Tuesday—Fall Wheat from $1.24 to $1.30; Spring Wheat, $1.13 to $1.14; Barley, $1.38 to $1.40. Spring wheat brought $1 to $1.05 here. This is fully as good as Toronto prices, taking freight to the front into consideration. Prices are declining.

Two Persons Burned to Death on a Railway Train.

On Saturday night, about seven miles west of London Ont., a car on the Great Western R. R., took fire and ten persons in it were burned. It was caused by a lamp falling on the floor of the closet and exploding There was no bell rope, and the train could not be stopped until too late. There must be sad neglect, when so many lives are lost by the carelessness of a Conductor.

Changed.

The vote on the $80,000, will be taken on the 31st of March not on the tenth as previously published.

The Biggest Load yet.

On Friday last Mr. Angus Davidson of North Monaghan, took to Port Hope a load of Spring Wheat which weighed 143 bushel and 10 lbs. of grain. This load contained 8,590 lbs, or 4 tons, 5 cwt and 90 pounds. That was 19 bushels and 45 lbs. more than Mr. Young's load, and nearly 25 bushels more than Mr. Preston's load. This, we believe, is about the largest load of grain ever taken from Smith or Monaghan to Port Hope, or perhaps to any other place. One of the horses is only 4 years old.

Mr. J. Garbutt

Has been drawing his wheat from Lakefield to Port Hope.

Killed.

We regret to learn that Mr. John Curtin, of Ennismore, was killed on Friday, while chopping at Mr. John Bell's, of North Smith. Dr. Kincaid held and Inquest in the evening on the body. It was elicited that Mr. Curtin was chopping a log elevated from the ground. When chopped through it fell, throwing him forward on his head on a log. After the fall he never spoke. A verdict was given in accordance with these facts. The deceased leaves a wife and nine children unprovided for. We understand that he bore an excellent character.

The Market Tolls.

There was keen competition for the Market Tolls this year. There were 6 tenders. Mr. Wm. McBain was the highest, and in consequence he is Market Clerk this year. The tenders were:

Jas. Walsh	$755
E. Green	800
J. G. Hudson	850
Lowry C. Best	856
John Sawers	930
Wm. McBain	950

Remember the Auction Sale

Of Broken Lots 4 & 5, Con. 5, township of Smith, on the 17th March at Caisse's Hotel See advertisement in another column.

Temperance.

The ladies of Ohio have undertaken a crusade against the liquor traffic. They take possession of the bar room and hold prayer meetings, and in this way induce the keeper to give up the trade. The ladies are likely to win. In one place the keeper rolled out his barrels and taking an axe smashed them, letting the contents flow down the street. If some of our loafers had been there, they would have fallen down and worshipped the flowing liquor; if not, they would certainly have licked the dust very soon.

Hastings.

Mr. David Mennion is Returning Officer to hold the first election for a Reeve and Councillors on the village after their separation. The separation yields position of the Township of Asphodel will be probability, as they elect the Reeve in future.

Are Coming.

The Alleghanians Vocalists and Swiss Bell Ringers, as a Quartette, Quintette, and Sextette, (greatly augmented with a Ladies' and Gent's Silver Orchestral Band), first organized twenty-six years ago, and whose name has become the household word of the music-loving people of all nations, and whose continuous travels have extended to all parts of the civilised globe, will appear at Music Hall, Thursday evening, March 12, and every one who enjoys good home music—music that will take you back to the "good days of yore," and make you forget dull care, should attend their concert. Their Repertoire embraces a large collection of Vocal Quartettes,, arranged in their own peculiar style; also a variety of the sweetest English, Irish, Scotch, German, and Spanish ballads extant; Humerous Songs, Duetts, etc., Arias, Cavatitas, choice selections of Vocal Music, they will play several pieces on their new Swiss Bells, accompanied with their Silver Band. The Alleghanians present free to every lady and gentleman on entering the hall with a "Musical Programe," which is fully worth the price of admission and is a new feature in their concert. Tickets for sale at Menzie's Book Store.

One Item.

A farmer of North Monaghan assured us on Tuesday that he has this season taken five loads of grain to Port Hope, and left in that town $70 for goods, independent of travelling expenses and refreshments. The gentleman referred to lives about three and a half miles from Peterborough. One hundred such men going to Port Hope would leave there $7,000, Yet they can buy more cheaply here.

Another Item.

A farmer from Otonabee on Tuesday met us and was pleased with our remarks about the grain market. He sustained the remarks of the Monaghan farmer. He takes his grain to Port Hope, and when there buys a large portion of his supplies for the year.

Item No. 3.

Mr. Garbut, who lives nine miles north of this town, took his grain this year to Port Hope, and perhaps brought home his plaster, salt, groceries, &c. This is taken out of the pockets of the merchants of Peterborough, while trade is dull and money stringent. Some of the wheat buyers here think our remarks are a thrust at them, and ask us to point out one man in Peterboro who has made money buying grain. We do not reflect on dealers in grain or millers, but to point out facts, one of which is that wheat has brought more in Port Hope than here. Another is that every man going to Port Hope with his grain, leaves a considerable portion of it there for his necessary wants, and perhaps for luxuries. The blame has been laid on the Midland railway Company for not supplying means of shipping grain to suit the markets. This may be true, and be largely the cause of the whole matter. If so we can do something for ourselves by getting another outlet in the Cobourg Railway We have been informed that on Saturday last good White Wheat brought, $1.20 a bushel here, now this is just as good as Port Hope, taking everything into account. But yet it is not generally known. The difference in Spring Wheat on Saturday between this and the front was only 9 to 10 cents.

Hon. E. B. Wood.

It is reported that the Hon. E. B. Wood will shortly be appointed Chief Justice of Manitoba.

Collegiate Institute.

The Inspectors of High Schools have confirmed the admission of all the pupils admitted by the Examiners to the Collegiate Institute after the late examinations—being 17 in all. The Inspectors Report also adds that "the style of answering is good."

Caution.

The public are hereby cautioned that in order to prevent annoyance of the doors, and in order to secure seats for the Alleghanians and Swiss Bell Ringers Concerts (which has been greatly augmented with the Ladies' and Gent's Silver Band), that they should purchase Tickets for Reserved Seats at the place where they are left for sale. The *Globe* and *Mail*, of Toronto, says that during their concerts in that city hundreds of people had to turn away from the doors unable to gain admission; therefore, all who wish to attend should positively secure tickets and seats early, as those who come late only find standing room. Tickets can be obtained at Menzie's Book Store.

Dummer.

A new Cheese Factory is about being established on the Farm of Mr. Thomas Ritchie. The *Register* says that Mr. Jas. Elliott is going to carry it on. The factory is about to start with about 450 cows. The name of Mr. Elliott is a sufficient guarantee both for the success of the enterprise and an honorable discharge of the business connected with it. The people of the neighborhood have good reason to congratulate themselves, that they have succeeded in getting Mr. Elliott to take hold of it at first.

Just So.

The Bobcaygeon *Independent* is truly Conservative. The name should be changed so as not to bear false witness in its very first line.

IMPERIAL GOVERNMENT.

The following is the composition of the new Ministry:

First Lord of the Treasury—Right Hon. Benjamin Disraeli.
Chancellor of the Exchequer—Right Hon. Sir Stafford Northcote.
First Lord of the Admiralty—Right Hon. George Ward Hunt.
Secretary of State for the Home Department—Richard Asheton Cross.
Secretary of State for the Foreign Department—Earl of Derby.
Secretary of State for the Colonial Department—Earl of Carnarvon.
Secretary of State for War—Right Hon. Gathorne Hardy.
Secretary of State for India—Marquis of Salisbury.
Lord High Chancellor—Lord Cairns.
Lord Privy Seal—Earl of Malmesbury.
Lord President of the Council—Duke of Richmond.
Postmaster-General—Right Hon. Lord John Manners.

The remaining appointments to the Ministry as far as known are:

Chief Secretary for Ireland—Sir Michael Beach.
Vice-President Committee of Council—Viscount Sandon.
Secretary of the Treasury—William [illegible]
Secretary of the Admiralty—[illegible]
Under Secretary Home [illegible]
Under Secretary [illegible]
Under Secretary [illegible]
Chancellor Duchy [illegible]
Paymaster General [illegible]
Judge Advocate [illegible]

Burns' Anniversary.

GALLETLY'S CONCERT.

Mr. Galletly's Annual Concert came off on Tuesday evening. The weather was most unfavorable, as the rain commenced about five o'clock, and continued till a late hour. Notwithstanding this the Music Hall was well filled.

The programme was a really good one, the pieces being well selected, and those who took part in it, almost outdid their former efforts on such occasions.

The opening piece, "Afton Water," was sang by Mr. Galletly, in which he more than maintained his past reputation as a singer of such beautifully pathetic pieces.

Miss Stephens, of Cobourg, sang "La Stella Waltz." This young lady has a very fine voice, full of melody, of good modulation, and great compass. To hear her alone would fully repay a journey to the Music Hall through any storm. She charmed the whole audience with the delightful melody of her song.

Mr. Galletly then sang "The Thorn."

Mrs. Scobell and Miss Kenedy sang "Maids of the Green Wood," a duett, in which they also sustained well themselves and were encored.

Mr. Christie read "The Island of the Scotts." Mr. C's reading requires only to be mentioned, as Peterboro audiences are fully aware that he has few to surpass him as an elocutionist, except professional readers.

Mrs. Fowler sang "Gloomy Winter's nooo awe'," and was loudly encored when she sang "Jock o' Hazeldean." Mrs. Fowler is a favourite with Peterborough audiences at all times, but her singing on Tuesday evening was more enrapturing than ever.

"The Minute Gun," by Messrs. Galletly and Quincey, was deservedly encored.

Miss Stephens sang another piece in her captivating manner.

Mr. Telford read an original piece of poetry composed for the occasion by himself, in which he displayed his poetic genius, claiming no mean place among Canadian poets. We hope to be able to give it next week.

The second part even surpassed the first. "Excelsior," by Mr. Galletly, was very fine and finely executed. This is one of Mr. G's best pieces, and was beautifully rendered.

Mrs. Scobell and Miss Kennedy sang, "I've wandered in Dreams," in their exquisite style.

Mr. Quincey then sang "The steam ship." Mr Quincey is a good singer, and did himself full justice in this piece. He was encored.

Mr. Galletly followed with "A wee bird cam' to oor ha' door."

Mrs. Fowler sang "Cathleen O'Roon," after which she was loudly encored, and on return gave "Coming thro' the Rye."

"Castles in the air," by Miss Stephens was sung in her charming manner, and being compelled to return by continuous calls, she sang. "Where is my wild rover gone."

Mr. Galletly, by request, sang "The Laird o Cock Pen."

"Auld Lang Syne," followed by the National Anthem, concluded the excellent programme.

This concert was one of the best with which Mr. Galletly has favored the people of Peterborough, and for which he deserves the thanks of the citizens, and we trust that his next concert, on whatever occasion he may may favor us again with one, will have more favorable weather, although we are aware that no matter how choice his musical selection may be, or how varied and inviting the talent to assist him, he must run his chance in selecting the evening. But we are sure that if Mr. Galletly should be fortunate enough again to secure the assistance of Miss Stephens, no kind of weather will deter the people from going to hear her. And when we get the Cobourg and Peterborough Railway re-opened, we fondly hope that we shall be favored with many visits from Miss Stephens, and be stirred to rivalry by the musical and literary talent of those of our sister town.

BOARD OF SCHOOL TRUSTEES.

The Board met on Tuesday evening.

Present—The Chairman and Messrs. Toole, Robertson, Hilliard, Davis, Cox, A. Smith, A. Rutherford, J. M. Smith.

The minutes of the previous meeting were read and confirmed.

Communications were received from Miss Leete, tendering her resignation; from Miss Lundy, also tendering her resignation, and expressing her thanks to the Principal for his unvarying kindness and advice to her. Both wish to be relieved at the Easter vacation. From Miss Dowling asking for an increase of salary.

Account from Messrs Stratton and Langford were referred to the Finance Committee.

Mr. Edmison, having entered, took his seat,

Moved by Mr. Edmison, seconded by Mr. Davis that the committee on appointments be also a committee on Revision of Salaries for the current year.—Carried.

The Principal read and submitted a report which was received.

Mr. Christy has one hundred pupils in French, and 20 German.

On motion of Mr. Toole, seconded by Mr. Robertson—"The secretary was requested to make application to the municipal to appoint an officer whose duty it should be to look after truant pupils and to keep the school grounds clear of boys not attending school.

On motion of Mr. J. M. Smith—"[illegible] Miss [illegible] be appointed [illegible] at a salary of [illegible] per annum.

[illegible]

ASHBURNHAM COUNCIL.

The Council met on Monday evening. All the members present.

The minutes of the previous meeting were read over and confirmed.

The auditors submitted their report in detail and also an abstract.

Moved by Mr. Stratton, seconded by Mr. Burnham, that the report of the Auditors be received, and that the abstract be published in the usual way, according to law, and that the Treasurer be authorized to pay them the sum of eight dollars each for their services.—Carried.

Moved by Mr Stratton, seconded by Mr. Burnham, That Jonathan Stephenson be assessor for the current year at the same salary as for 1873.—Carried.

Moved by Mr. Burnham, seconded by Mr. Rombough, That the account of D. Henthorn against Mr. Stratton for horse hire, amounting to $6, be paid, the same having been incurred in going to Toronto in relation to the Act of Parliament to unite Ashburnham to Peterboro.—Carried.

Moved by Mr. Stratton, seconded by Mr. Bennets, That the following abatements be allowed the collector for 1873, viz.:—

Abatements before granted	$ 87.15
Non-residents reported now	22.90
J. V. Gravely	5.33
J. Tarver	2.33
Mrs Kempt	4.95
Mrs. Law (T. Jameson)	3.41
Total	$126.07

And that Mrs. Kempt and Mrs. Law be allowed the abatement of their taxes in full.—Carried.

Moved by Mr. Burnham, seconded by Mr. Bennett, That A. Ingram be collector of the Village for 1874.—Carried.

Moved by Mr. Stratton, seconded by Mr. Bennett, That the Reeve and Mr. Burnham be a committee to draft a By-law, appropriating the portion of the Municipal Loan Fund to this Village according to the terms of the Act respecting the Municipal Loan Fund debt and respecting certain municipalities." The money to be appropriated to pay off the indebtedness of the municipality for school extension &c., and report at next meeting of Council.—Carried.

Moved by Mr. Burnham, seconded by Mr Rombough, That the Collecter and Treasurer each give security to this municipality for the due performance of their duties, such security to consist of the Bonds of the Treasurer or Collector as the case may be, with responsible sureties to the satisfaction of this Council, the principal to be found in $2,500 and each surety in $1,250, and that this resolution be embodied in the By-law appointing them, and that the Clerk give a copy of this resolution to the officers who may be appointed.—Carried.

Moved by Mr. Burnham, seconded by Mr. Stratton, That the Treasurer be authorized to pay Mr. W. Leahy the sum of ten dollars for keeping a man named John McIntyre, ill of erysipelas during the month of January.—Carried.

Moved by Mr. Stratton, seconded by Mr. Bennett, That the Treasurer be authorized to pay the Collector the sum of fifty dollars, his salary for 1873.—Carried

Moved by Mr. Burnham, seconded by Mr. Rombough, That the petition of John A. McWilliams and others be received and the consideration thereof deferred until the next meeting of this Council.—Carried.

Moved by Mr. Rombough, seconded by Mr. Burnham, That Daniel McDonald be the Treasurer of this Village.—Carried.

The Council adjourned till Monday 16th inst., at 7:30 p. m.

TOWN COUNCIL.

The Council met in special session.

Present—His Worship the Mayor in the Chair, and Messrs. Toole, Beal, Robertson, Rutherford, Hopkins, Romaine, Paterson, Helm, Cahill, Hamilton.

The minutes of the previous meeting were read and confirmed.

Communications were read from Jas. Bird asking to be appointed Town Engineer.—Referred to the Committee on Appointments to Office.

From John Sawers, asking to be appointed Inspector of Licenses

From W. H. Perdy, asking payment of an account of Shortly & Hazlehurst of $3.50 for repairing hose.—Referred to Finance Committee.

Mr. Dixon, as Chairman of the Committee on appointments to office, read and submitted a report which was received.

Mr. Patterson, in the absence of the Chairman of the Committee on Licenses, read and submitted a report, which, after considerable discussion, was, on motion, received and adopted on the following division:

YEAS—Messrs. Hopkins, Paterson, Romaine, Helm, Cahill, Toole, and Hamilton.

NAYS—Cox, Dixon, Robertson, Rutherford.

A By-law was introduced to amend the Licence By-law, No 272, and read a first time.

The Council went into Committee of the Whole on the second reading of the By-law.

Mr. Hamilton in the Chair.

On the first clause being read repealing clause No. 3, (to do away with grades of taverns) Mr. Cox moved, seconded by Mr. Rutherford, that Nos. 2 and 3 be repealed. This would have had the effect of doing away with saloons, as with the grading of taverns.

In amendment it was proposed merely to do away with No. 2.

This amendment was lost on the following division:

YEAS—Messrs. Cox, Dixon, Robertson, Rutherford.

NAYS—Messrs. Toole, Hopkins, Paterson, Romaine, Cahill, Helm.

Clause No 3 was passed on the same division reversed.

Clause No. 4 was amended, fixing Tavern Licenses at $180; Shop Licenses, $160; Saloons, $110; Billiard Tables, $40, additional ones, $20 each; Pigeon Tables, $20; Bagatelle Tables, $20.

Moved by Mr. Toole, seconded by Mr. Romaine,—That the By-law entitled a By-law to amend By-law No. 272, was read a third time and passed.

By-law to appoint

ANNUAL COUNCIL.

The Township Council met in the Town Hall in Norwood on Saturday, 11th of February.

All the members of the Council present, except the Reeve. The minutes of the previous meeting were read and approved.

Deputy Reeve in the Chair.

The clerk read the resignation of J. Foval, Esq., as Reeve.

It was moved by T. Howson, seconded by D. Hurley, that the resignation of John Foval be accepted, and that the clerk be and he is hereby authorized to hold an election at once to fill the vacancy.—Carried.

A motion was also carried appointing the same returning officers as held the last municipal election, and to hold at the same places.

Mrs. Rogers having applied for assistance to keep her family, it was moved by T. Rourke, seconded by D. Hurley, that Mrs. Rogers be allowed $8 out of the charitable fund.—Carried.

It was moved by D. Hurley, seconded by T. Howson, that Thos. Burke be paid 10.50 for printing, over last account rendered up till 31st December.—Carried.

On motion of T. Howson, seconded by Thos. Rourke, the returning officers were allowed cash the sum of $4 for holding the last Municipal election.

Application having been received from W. E. Roxburg, secretary A., B. and D. Agricultural society, asking aid for said society, it was moved by Thomas Howson, seconded by T. Rourke, that the above be received and laid over for further consideration.—Carried.

The auditors presented their report for the past year, it was moved by T Rourke, that the auditors' report be received and adopted, and that the clerk be and is hereby authorized to get the abstract statement published in the *Reg[ister]*, and 100 copies of the detailed statement printed.—Carried.

On motion of D. Hurley, seconded by T. Howson, the auditors were allowed $6 for making report.

On motion of T. Howson, seconded by T. Rourke, Timothy Hurly, Treasurer, was allowed $6, for horse hire, stationery, &c.

On motion of D. Hurley, seconded by T. Howson, Wm. Boyd was allowed the sum of $2 for attendance on returning officer in taking votes on railroad by law in 1872 -Carried.

On motion of D. Hurley, seconded by T. Howson, Mrs. S. Wilcox got an abatement of $4.45, tax for 1873.

Samuel Spence appeared on behalf of G. Trousal, claiming compensation for two days' statute labor performed in 1872 representing that he had been assessed in the township of Dummer, and proving certificate from paymaster, as having performed statute labor for the same.

It was moved by D. Hurley, seconded by T. Howson, that the above applicant, G. Trousal, get no compensation for the above, believing that he had a right to perform statute labor in this Township, he having resided the time sufficient to entitle him to do the same before he moved out.—Carried.

On motion of D. Hurley, seconded by Thomas Rourke, the resignation of Jas. Stephenson, as special inspector under the new act, was received.

On motion of T. Howson, seconded by T. Rourke, Isaac Powel was appointed special inspector, under the tavern and shop license amendment act for carrying out the provisions of the same—salary $10.

It was moved by D. Hurley, seconded by T. Rourke, that J. Breckenridge be appointed assessor for 1874 at a salary of $80.

Deputy Reeve declared a tie.

It was moved by T. Howson, seconded by J. P. Brown, that Ed. Patterson be appointed assessor for 1874 at a salary of $80.

Again declared a tie by the Deputy Reeve.

On motion of T. Rourke, seconded by T. Howson, the above two motions were rescinded.

It was moved by T. Rourke, seconded by T. Howson, that Matthew Knox be appointed Assessor for 1874.—Carried.

The following applied for tavern license—Michael Mullins, Robert Hill, Hugh Beckett and G. B. Galvin.

It was moved by D. Hurley, seconded by T. Howson, that the above applicants receive a certificate for obtaining license.

On motion the council adjourned till the second Saturday in March.—*Register.*

SMITH COUNCIL.

The newly elected members of the Council of Smith for the present year, viz.:—Isaac Garbutt, Reeve; Michael Sanderson, Deputy Reeve, and Thos. E. Fitzgerald, Andrew Montgomery and Francis J. Bell, Councillors, met at the Town Hall, Bridgenorth, on Monday, the 19th January in conformity with the provision of the Provincial Statute in that case made and provided.

After making and subscribing the declarations of qualification and office, the Reeve took the chair and appointed John Black as one of the Auditors.

A By-law was passed providing for the appointment of the following officers and fixing the remuneration they are to receive, viz:

John Black and Lewis Davis, Auditors, remuneration four dollars each.

Richard Waram, Collector, remuneration eighty dollars.

Richard Waram, Inspector, remuneration twenty dollars

A petition was presented and read from Jacob Brumwell and others, praying that the Council would cause part of the 7th concession line, and part of the line east of the Communication lots to be opened up for winter travel.

Messrs. Montgomery and Fitzgerald were instructed to examine said lines and report to the Council at its next meeting, the propriety and expense of the same.

Council then adjourned.

FEBRUARY 1st.

The Council met. All the members present.

The minutes of last meeting were read and adopted.

A petition from Andrew Tully and others praying that the allowance for road, between lots 6 and 7 in the second concession be opened up for publ ic travel was read. Said allowance was formed into a new road division and Andrew Tully was appointed overseer of the same and he and Michael Sanderson were authorized to dispose of the timber thereon, and to apply the proceeds thereof to, aid in opening said allowance.

Messrs. Fitzgerald and Montgomery made a report of their examination of the road allowance petitioned to be opened up for winter travel by Jacob Brumwell and others. Said allowance was established a new road division and Jacob Brumwell appointed overseer of the same and the timber thereon allowed him as remuneration for opening said allowance to the West of lot 13, providing he cuts such timber during the next five years.

A By-law received its several readings providing for the appointment of H. B. Dean, assessor for the current year and fixing his remuneration at $80.

The following road divisions were established:

Division No. 100, to commence at the roads between lots 37 and 38, on the 14th concession line, thence east to the line between lots 29 and 30.

Division No. 104, to commence at the river road on the 14th concession line thence west by the road leading through lot 38.

Division No. 105, to commence east of lot 33, on the 14th Concession line, thence west to the road between lots 36 and 37.

The Council then adjourned until the third inst.

FEBRUARY, 3rd.

The Council met pursuant to adjourn ment. All the members present.

The minutes of last meeting were read and confirmed.

The Clerk was instructed to advertise the passing of a By law to establish a new line of road on lot 37, in the 13th concession of Smith, as provided for section 434 of 30 Vic., cap 51.

A By-law to provide for dividing the Township of Smith into pound divisions and the roads therein into road divisions and to appoint overseers of highways, pound keepers and fence viewers for the current year, received its several readings and was passed.

Petitions from John Pope, Richard Merthey and others praying for a certificate to obtain a tavern license, were read and adopted and the clerk was instructed to grant said certificates upon the applicants presenting him with proper certificates signed by the Inspector of Houses of Public Entertainment of the Township.

The Treasurer was instructed to pay the following sums, viz: To M. S Dean, the sum of $8 for 160 lbs. of flour furnished John Quinn. To John Black, $8 for 160 of flour for Brennan and to T. E. Fitzgerald the sum of $6 for Mrs. Rodgers.

THE PROTESTANT HOME ANNUAL REPORT.

The following is the Secretary's Report of the Peterborough Protestant Home for the year ending February, 1874:—

President, Mrs. Romaine; Vice-Presidents, Mrs. Kempt and Mrs. W. G. Thompson; Treasurer, Miss Patton; Asst'-Treasurer, Miss Edwards; Secretary, Miss Roger. Committee—Mrs. A Smith, Mrs. G. Shaw, Mrs. Fish, Mrs. Wallis, Mrs. Haultain, Mrs. Hilliard, Mrs. Clements, Mrs. Mack, Mrs. J. A. Hall, Mrs. J. Campbell, Mrs. Winyett, Mrs. Herklotts, Mrs. C. Ormond, and Mrs. Carrol.

The Committee of the Peterborough Protestant Home, in once more presenting their report to their friends and supporters, would desire, first, to thank God for his many mercies through the past year; there having been comparatively little sickness among the inmates, and only one death, Jane Lowry, who had been in the Home for two years. One woman, Mrs. Knight, was brought in in a dying condition, and died next day

The Committee thank their many friends for much kindness and many useful donations of clothing straw for beds, vegetables, &c.

They would again acknowledge the kindness of the medical men who so regularly visit the Home; also that of the clergymen who meet the inmates each week, and Mr. Erskine, whose Sabbath visits were much enjoyed; of the editors who kindly insert the donations, acknowledgments and advertisements without charge; and of Mr. Romaine, for the *Review* each week.

Thanks are due to the different churches for their donations, to the County Council for a grant of $300 towards finishing the upper part of the building, and to the Town Council for their annual grant of $200. The lady collectors desire to thank the friends who kindly gave their annual subscriptions, and hope the 'hard times' may not touch the Home nor its contributors, as the harder the times the more necessity there is for assistance.

During the past year there have been twenty-six persons admitted, and as many have gone out. There are now the same number of inmates there were last year at this time, viz.: ten persons—five adults and five children. There are only nine names on the list for outdoor relief; most of these have families.

At the Annual Meeting, held on the 11th inst., the following elections took place:—Mrs Romaine, re-elected President; Mrs. Kempt and Mrs Haultain, Vice-Presidents. Miss Patton, who had for many years been a most efficient Treasurer, resigned from ill health, and her assistant, Miss Edwards, being unable to attend regularly, Mrs. W. G. Thompson was unanimously elected in their stead. The Secretary was re elected. Miss Patton and Miss Edwards remain on the Committee; Mrs. Kennedy's name was added to the list.

ISABELLA ROGERS,
Secretary.

SPECIAL GRANTS

Peterborough County Council, re rent of the upper flat of the Home into rooms, etc	200 00

J. Patton, Treasurer, in account with the Protestant Home for the year ending 24th July, 1873:

Balance on hand last audit	$ 231 72
Month and Annual subscriptions	278 00
Sundries	111 85
Donations	350 41
Total	$1,001 48
Expended in Insurance, repairs, salaries, fuel, clothing and incidental expenses	$ 732 59
Druggists' Bills and other expenses, &c.	68 54
Out door relief	44 90
Balance on hand	155 45
Total	$1,001 48

A sum of $200 additional is at the credit of the Home account in the Bank of Toronto, which does not appear in the above statements, it having been granted by the County Council to enable the Committee to add to the accommodation of the Home, and not to be used for its ordinary expenses.

Examined, and found correct.

J. EDWARDS,
C. CAMERON, } Auditors

The Fair.

The spring quarterly fair was on Tuesday. There were crowds of people in Town and in one case a set-to near Mitchell's corner and some blood spilt. It didn't last long, as steel knuckles, it is said, were more than could be long endured by either parties. The principals will be before the grand cadi in a day or so, as chief constable Johnston knows their names and will attend to Nothing else remarkable took place through the day.

Leisure Hour Musings

Mr. A. Graham's neat little work is now being disposed of rapidly, subscribers and others would do well to call and get their numbers early, as there are only 900 copies printed.

BIRTH.

At Norwood, on the 19th instant, the wife of W. H. Stephenson, Esq., of a daughter.

At Ashburnham, on the 3rd of March the wife of Mr. Peter Glover of a daughter.

Dissolution of Partnership.

The Partnership heretofore existing between A. W. Lasher, D. Lowry and E. Lowry, under the name of A. W. Lasher & Co., has this day been dissolved by mutual consent. The business in the future will be carried on by A. W. Lasher and D. Lowry, under the name of LASHER & LOWRY, who are responsible for all the liabilities, and to whom all the debts due the late firm are to be paid.

A. W. LASHER,
D. LOWRY,
E. LOWRY.

Peterboro, Feb. 12, 1874. 7-tf

A HAND LOOM [complete]

Norwood, Feb. 10, 1874. 5-tf. Norwood.

TERRIBLE COMMOTION at HYSLOP'S NEW CHEAP STORE IN WESTWOOD.

PEOPLE are daily finding out the secret where to buy their TEAS, &c.

NO WONDER!

He is selling good sound Tea fo. 40 cents per pound and splendid Teas for 45 and 50 cents, better than they used to have to pay 75 and 80 cents for. Rich Teas of fine qualities always on hand.

Always on hand No. 1 Labrador Herrings of finest quality.

His Cottons are a wonder. Good useful cotton 9 and 10 cents, good width 11¼ and 12 cents, extra heavy 13½ and 15 cents, good washing Prints from 6 cents upwards. His stock of Woollen Goods will now be thrown out at cost to make room for new arrivals for Spring.

J. R. Hyslop having paid very high for learning the Tea Trade, thoroughly, is thoroughly posted in the secrets of the trade and will not be at all backward to give his customers the full advantage. Therefore farmers and others buying in large supplies will do themselves a greater favor than they will confer on him to call on him before purchasing elsewhere.

The Big cent Tea is very nice,
One only needs to try,
For if they do just taste it twice
They'll take a large supply.

Parties calling at his place in his absence will be courteously and honestly treated by his Clerk.

ONLY ONE DOOR! NO ENDING.

All friends of trade taken in exchange for Goods at Hyslop's Great Tea Store in Westwood.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the smell of Oils which they may contain.

S. N. THOMAS, PHELPS, N. Y.

And NORTHROP & LYMAN, Newcastle, Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and at last unprecedeing all other preparations of the kind

It is also an effectual and prompt remedy for *scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.*

Price 25 cents per bottle.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is the best tonic in use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and healthy nutrition. All cases of general debility, arising from wasting disease, such as consumption, scrofula, all diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, over-work, or bad habits, will derive immediate benefit from it, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period, without becoming disagreeable to the patient.

Dr. J BELL SIMPSON'S

SPECIFIC ANTI TONIC PILLS.

THE GREAT ENGLISH REMEDY FOR Nervous Debility, Spermatorrhœa, Neuralgia Rheumatism, Weakness of the Generative Organs, Palpitation of the Heart, Trembling, Blood pleasures. the effect of over-indulgence in alcoholic stimulants and tobacco, &c. Dr. J. BELL SIMPSON'S Pills are the only effectual ones for the above diseases, and are never known to fail. They have already cured hundreds in this country. Robert Arthur, apothicist, Hamilton, testifies to his recovery by their use. Safe, certain, and rapid in action, a short trial will prove their efficacy. No sufferer need despair of being relieved from the frightful effects of SELF-ABUSE. The Specific Pills are sold by Druggists at $1.00 a box, and the Tonic Pills at 50c. a box, or they will be sent by mail, postage prepaid, and securely wrapped from observation, on receipt of $1.00 for the Specific, and 50c. for the Tonic Pills, by

J. BELL SIMPSON & Co.,
Drawer 91, P. O. Hamilton.

Sold by all Wholesale and Retail Druggists. Pamphlets sent post-free on application

Official Report, Vienna Exposition, Sewing Machines, &c.

(EXTRA 12, SEC. 2 R.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 800,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is so regulated that each complete machine may be used as a sample for exhibition. This firm produces 600 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This universal machine sews the heaviest leather harness and the finest gauzes with a truly pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

February 2nd, 1874. 6-3ins.

CHANGE OF BUSINESS.

Having disposed of my Tin and Hardware Business to Mr. HENRY BEST, I would take this opportunity of thanking my old customers for the liberal patronage extended to me during the last twenty-five years. Mr. Best

THE MINSTREL'S TENDER.

BY A. LARKIN.

Were I the tiniest little flower
That e'er in garden grew;
I'd glow with pride neath sun and shower
Did I but bloom for you!

Were I the sweetest bird that sings
Upon the blossom'd tree;
I'd come from far on weary wings,
And warble, aye, to thee!

Were I the gentlest fragrant breeze
That fills the summer air;
I'd come across the golden seas,
And linger round thy hair!

Alas! I'm but a minstrel boy,
Who sings his lote away,
With not a rose of hope and joy
In his sad roundelay!

Oh! quatrain thou my wanted stanzas
With thy dark, glancing eye;
Or bid me seek for distant plains
To sing and fight and die!

Court Etiquette.

Among the most perplexing questions to which European Courts have been subject in the past are those of etiquette and ceremonial. We find much curious information on this subject in a recent article in an English magazine. The Spanish Court was the most punctilious, and many absurd tales are told of the extent to which scruples of etiquette were indulged in. Among them we have that of the origin of the death of Philip III, who, finding the fire too hot for his royal well being, told the Marquis de Probar to put it out. But the Marquis could not presume to do so, because fire extinction was one of the attributes of the Marquis d'Uceda, who, most fortunately, was at that moment hunting in Catalonia. So the king, who of course could not condescend to give way to fire—fire being bound by etiquette to give way to kings—sat majestically and scorchingly still, grew far too warm for health, got erysipelas, and thereby died.

French etiquette was almost as extreme as that of Spain. Arm-chairs, backed chairs, and stools were, for centuries, as Voltaire says, "important objects of politics and illustrious subjects of quarrels." He explains with his usual epigrammatics, that the etiquette of chairs came from the barbarians, our grandfathers," who had only one arm-chair, which was solely used by the people who were ill. This latter view is borne out by the people who were ill. This latter view is borne out by the fact that there were provisions in France where the piece of furniture in question was called a *chaise de do leance*; and that the Germans have from all times, denominated it *krankensessel*—a sick chair. Voltaire goes on to say that Mademoiselle spent a quarter of her life in the mortal tribulation of disputes about her seats; ought she to sit in a certain room, upon a chair or upon a still, or not sit down at all? The whole court was in emotional perplexity about these insoluble difficulties Even the king himself was not free from the obligation of sitting according to regulation. If he condescended to pay a visit to a courtier ill in bed, etiquette constrained his majesty to lie down too, for it was impossible that a sovereign could permit a subject to indulge in unshared recumbency in his presence; so when the king was coming to a sick room a second bead was prepared before bond, and the conversation was conducted in mutual horizontality. Louis XIII visited Richelieu in this way at Tarascon, and Louis XIV did the same when he went to see Marechal de Villers, after he was wounded at malplaquet.

In England, questions of precedence are determined by reference to a statute of Henry VIII. Doubtful cases are referred to the crown; and the crown refers them to Heralt's College A catalogue of persons entitled to precedence and the order of their precedence has been published. It begins with the king and queen, and ends with burgesses and their wives; it includes ninety-eight ranks of man, and sixty-six ranks of women.

In 1506, Pope Sulius II endeavored to establish the rules of precedence for the embassadors of the European powers, His list comprised twenty ranks, beginning with the Pope, and ending with the nephews of the pope and the legates of Bologna and Ferrara. It is subject of remark that of all the titles of sovereigns on this list only three exist in the same same at this day.

Amusing stories are told of the struggles of individual ministers to settle the question of precedence with other. In 1661 a Spanish envoy attacked the carriage of the French embassador in the street of London and had his horses hamstrung, in order that he might reach court first.

When Mazarin and Don Louis de Haro met to settle the conditions of the marriage between Louis XIV and Maria Theresa, in order to preserve the full dignity of their nations by yielding nothing to each other, the two ministers stepped together, with the right foot, side by side, into a council chamber hung in corresponding halves with their respective colors, and sat down at the same instantly precisely opposite each other at a critically square table, on two mathematically equevalent arm-chairs.

Bielfeld tells a story of two envoys, one from Genoa and one from Bradenburg, who, being unable to come to terms as to which of them should present themselves first to the French king, stipulated that whoever reached Versailles soonest on the day of their reception should take precedence of the other. The cunning Prussian went down the night before the audience and sat on a bench in the palace until dawn. The Genoese, not suspecting this activity, arrived in the morning early, saw that he was beaten, but with the perfidy which Italian proverbs attribute to the children of his native town, slipped surreptitiously through the door of the king's bedroom, which had been left ajar, and instantly commenced the requisite salutations. The German rushed indignantly after him, pulled him back by the skirts, and began pouring out his own harangue.

Two ambassadors met face to face on the bridge at Prague, and stopped there for the entire day, because neither of them would disgrace his country by letting the other one go by.

In 1768, at a court ball in London, Ivan Czernicheff, Ambassador from Russia, sat down audaciously next to the Imperial Envoy, in the very place which belonged to the Comte de Chatelet-Lomon, representative of France. The latter came in a few minutes later, did not say a word, passed quietly behind the Russian; affected to sit down on a bench of the second row, and suddenly, with a bound, sprang in between his two colleagues, and on that way reconquered his legitimate position. A duel was the consequence of this, and Czernicheff was wounded.

Have Courage.

It conduces much to our content, if we pass by those things which happen to our trouble and consider what is pleasing and prosperous, that, by the representation of the better the worse may be blotted out. If I be overthrown in my suit at law, yet my home is left me still, and my land, or I have a virtuous wife, hopeful children, kind friends, and good hopes. If I have lost one child, it may be I have one or two still left me. Enjoy the present, whatsoeve it may be, and not be solicitous for the future; for, if you take your food from the present standing, and thrust it forward toward to-morrow's event you are in a restless condition; it is like refusing to quench your present thirst by tearing you shall drink the next day. If to-morrow you should want, your sorrow would come time enough, though you do not hasten to it. Let your trouble tarry till its own day comes. Enjoy the blessings of this day, if God sends them, and the evils of it bear patiently and sweetly for this day is ours. We are dead to yesterday, and not yet born to the morrow.

Men without Hearts.

We sometimes meet with men who seem to think that any indulgence in an affectionate feeling is weakness, They will return from a journey, and greet their families with a distant dignity, and move among their children with the cold and lofty splendor of an iceberg surrounded by its broken fragments. There is hardly a unnatural sight on earth than one of these fathers without a heart. A father had better extinguish a boy's eyes than to take away his heart. Who that has experienced the joys of friendship would be robbed of the hidden treasure of his heart? and values sympathy and affection, would not rather lose all that is beautiful in nature's scenery? Cherish, then, your heart's best affections. Indulge in the warm and gushing emotions of filial, paternal and fraternal love.

VINEGAR BITTERS

PURELY VEGETABLE — FREE FROM ALCOHOL

DR. WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

A REPLY TO "IT MIGHT HAVE BEEN."

'Tis sweet, for no sorrow around
And nothing to fill you have not lost,
And nothing for one that we've scorned.

'Tis sure, too, where days are bright,
And a mood rejoicing in you love,
To think a real trouble light,
And sincerely ideal woes.

But come and tarry, friend! with me,
Where air is heavy, sunlight pales,
And for your Bobolink's carol free
Hear me, a captive nightingale's.

Each morning rains a sweet rapture,
A tender balm forever dwells,
And through the long day's loneliness
Wait for the steps that never come.

When evening shades press dimly on,
Bread o'er the embers' flickering light,
And watch the sparkles one by one
Die, like my joys, in lonesome night.

Your fortunes, then, with mine compare,
The fancied with the real scene,
And tell me if the joys that were
Denser than all that might have been.

ODDS AND ENDS.

What will keep a man dry better than an umbrella?—A red herring.

You may know an old bachelor by the fact that he always speaks of a baby as "it."

What exclamation of three words could a cockney make on seeing a fire which would give the names of three eminent authors?—Dickens. How-it Burns.

A Vermont newspaper announces that its minimum charge for a first class marriage notice will be fifteen pounds of dried apples. Notices with "poetry" will cost more.

Minister—"Peggie, what lightened the world before the sun was made?" After thinking for a minute, Peggie said, "Deed, sir, the question is mair curious than edifeing."

At a spiritual circle the other evening a gentleman requested the medium to ask what amusement was most popular in the spiritual world The reply was. "Reading our own obituary notices."

Sentimental Laura (after a general silence of one minute for digestion) "Ah, an angel must have passed!" "Stupid George—"N-n-no! I think it was the c-c carrier's cart!"

Lavish!—Absent man o' business—"O, Mr. —— (forgets his name), will you excuse me one minute? Take a seat—Pray take a chair—take a——" Meek client—"Thank you. I have one——" Man o' business—"That's all right—take another!"

Peter Van Dyke, an old chap who died in New Hampshire the other day worth $140,000 in cash, requested in his will that no one "should snuffle and shed crocodile tears at his funeral, but cover him over and then hurry home to fight over his money."

Our Cousins at the Cattle Show.—British farmer—"There that the one I fancies—'Class one—highly commended—shorthorn cow—sold for sixty guineas.'" Yankee friend—"Sixty guineas! Why, we think nothing on 'em in our country under eight thousand!"

A pensive young man sang most pathetically at an amateur concert. "Where are the friends of my childhood?" Before he retired from the side of the accompanist at the piano, he heard a "friend" say quite furiously to a lady sitting by his side, "The friends of his childhood are probably in a lunatic asylum if they listened much to such a singer.

A few years ago in a village in Scotland, might be seen the following inscription on a blacken b's sign-board:—

Johnny Samson, jobbing smith,
Works on this close wi' a' his pith;
He'll do our job baith weel and sune,
And hopes you'll pay when e'er its done.

A cockney sportsman, who carried a flask of brandy with him to the moors, but did not ask his Scoth gamekeeper to taste, was about to set out the second day. Turning up the flask, which was of glass, and showing it still half full, "How long will this last, keeper?" "I'se be bound, said Geordie, with a leer, "it'll last lang eneuch if ye keep the cork in't."

A Scotch minister recently in discoursing of a certain class of persons who were obnoxious to him, concluded with this singular peroration—"My freens, it is as impossible for a sinner to enter the kingdom of Heaven as for a coo to climb up a tree wi' her tail foremost, and harry a craw's nest; or for a scon to sit on the top of a thistle and whistle like a laverock"

A writer in the Cornhill Magazine sums up the religious belief and opinion of Goethe in the following words, which might also serve for Carlyle:—"Do what thou hast to do with all thy might; but be calm, be patient, and never be dismayed. Look at nature, listen to her, follow her, obey her; do thine own part, and the end will be that in the salvation of the all thou will find thine own."

A well known astronomer says there are about six thousand stars visible to the naked eye, but with the telescope the number may be increased to half a million. We dislike having words with a man who is in the business, but the last time a friend of ours sat down on the sidewalk—on the back of his head—he counted over seven hundred thousand, and it wasn't much of a night for stars either.

Wife and I, says a friendly correspondent, were looking at some pictures in which little naked angels were quite conspicuous. She called the attention of our wee daughter to them, and remarked—'Lizzy, dear, if you are a good girl, and go to heaven, you will be like those angels.' Lizzy looked up, with a lip that told at once that one didn't appreciate the promise, and said—"I want to be better dressed than that when I go to heaven!"

The Earl of Kellie was relating an account of a sermon which he had heard in Italy, in which the preacher described the alleged miracle of St. Anthony preaching to the fishes; and in which his hearers were so much entranced by his eloquence that they actually held their heads up out of the water. "I can believe the miracle," said Henry Erskine, "if your lordship was at church" "I was certainly there," replied the Earl." "Then," said Erskine, "There was at least one fish out of the water."

Thomas Nasgergus, in Pollish Kingdom, a Latin poem written in 1563, and Englished by Parnabe Googe, after remarking on days of the old year, urges this recollection:—

The next to this is Newe-Year's day,
whereon to every frende
They costly presents in do bring,
and Newe Years giftes do sende.
These giftes the husband gives his wife,
and father eke the childe,
And master on his men bestowes
the like with favor milde.

It is a common error in politics so confound means with ends. Constitutions, charters, petitions of right, declarations of right, representative assemblies, electoral colleges, are not good government: nor do they, even when most elaborately constructed, necessarily produce good government. Laws exist in vain for those who have not the courage and the means to defend them. Electors meet in vain wher want makes them the slaves of the landlord, or where superstition makes them the slaves of the priest representative assemblies sit in vain, unless they they have at their command, in the last resort, the physical power and will, necessary to make their deliberations free, and their votes effectual.—Macauley.

Mr. Geo. Paul, who was reported to have been murdered in the township of of Fullerton about ten years ago, returned last week, and looks as hale and hearty as he did before his departure. Notwithstanding the fact that Mr. Hanson and friends produced the most conclusive evidence of the man's existence, many who were blinded with malice refused to believe it; but his visit will doubtless have the effect of dispelling the scepticism of Mr. Hanson's most bitter enemies. —Herald.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, when the system seemed saturated with corruption, have been purified and raised by it. Scrofulous affections and disorders, which lie congenitated by the scrofulous contamination of the blood, they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen atom is the tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting the suspicion of its presence. Or, it may be seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it betrays its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, in time, a cure, by the use of this *SARSAPARILLA*: *Tic Douloureux, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterine* affections of the nervous and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing those obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations* and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

General Agents for Ontario.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient, purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does cure is done always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and constitutions in all climates; containing neither calomel or any dangerous drug, they may be taken with safety by anybody. Their sugar coating preserves them in any climate, and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. Because they are found to possess all the qualities claimed for them.
2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. Because no guessing or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. Because the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. Because the never tire the eyes and last many years without the necessity of change.
6th. Because being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.

IN MEMORIAM.

JOHN CAMERON, ESQ., ADVOCATE, WHO DIED JANUARY 19TH, 1874, AGED 60 YEARS.

For the Examiner.

By death, who takes and spareth none,
Another old settler has gone,
Who hath been, by accounts we see,
Years in the country, fifty-three.
He's gone whom neighbors, all will miss,
He's gone so long time in the place.
Not only Farmer, mong the throng,
But was the school teacher for long;
But reading much made him sense
In argument and deep discern.
One upon whom all loved to call,
Probate loved to converse with all,
He to his family, from the heart,
Acted a loving brother's part;
The' left with all his father's care,
Of his estate kept the lone share.
He from extravagance was free,
For plain and humble aye was he;
He was a man all throughout life,
Who's loved ones and friend aside,
In his department, generous, kind,
Benevolence seemed to rule his mind;
Homeless travellers, rich or poor,
Were welcomed guests within his door.
Religion in his heart been all through,
Doing as he would be done to.
The Reader's said to been the same
Since o'er they to the country came.
May there kind spirit never cease,
But be at those who fill the place
Of friend that's gone whose feeling mind
Were to their fellow creatures kind.
That Cameron may be ever found
For hospitality renowned.
A. GRAHAM.
Otonabee, Feb. 1874.

Sober Second Thought.

BY THE AUTHOR OF "TEN NIGHTS IN A BAR-ROOM."

'I must have it, Charles,' said the handsome little wife of Mr. Whitman, 'so don't put on that sober face?'

'Did I put on a sober face?' asked the husband, with an attempt to smile that was anything but a success.

'Yes, sober as a man on trial for his life. Why, it's as long as the moral law. There, dear, clear it up, and look as if you had at least one friend in the world. What money lovers you men are.'

'How much will it cost?' inquired Mr. Whitman. There was another effort to look cheerful and acquiescent.

'About forty dollars,' was answered, with just a little faltering in the lady's voice, for she knew the sum would sound extravagant.

'Forty dollars! Why, Ada, do you think I am made of money? Mr. Whitman's countenance underwent a remarkable change of expression.

'I declare, Charles,' said his wife, a little impatiently, 'you look at me as if I were an object of fear, instead of affection. I don't think this is kind of you. I've only had three silk dresses since we were married, while Amy Blight has had six or seven during the same period, and every one of hers cost more than mine. I know you think me extravagant, but I wish you had a wife like some women I could name. I rather think you'd find out the difference before long.'

'There, there, pet, don't talk to me after this fashion! I'll bring you the money at dinner time; that is, if—'

'No 'ifs' or 'buts,' if you please. The sentence is complete without them. Thank you, dear! I'll go this afternoon and buy the silk. So don't fail to bring the money. I was in at Silkskin's yesterday, and saw one of the sweetest patterns I ever laid my eyes on. Just suits my style and complexion. I shall be inconsolable if its gone. You won't disappoint me?'

And Mrs. Whitman laid her soft white hand on the arm of her husband and smiled with sweet persuasion in his face.

'Oh, no. You shall have the money,' said Mr. Whitman, turning from his wife, as she thought, a little abruptly, and hurrying from her presence. In his precipitation he had forgotten his usual parting kiss.

'That's the way it is always,' said Mrs. Whitman, her whole manner changing, as the sound of the closing street doors came upon her ears.—'Just say money to charles, at once there is a cloud in the sky.'

She sat down pouting and half angry.

'Forty dollars for a new dress!' mentally ejaculated the husband of vain, pretty, thoughtless Mrs. Whitman, as he shut the door behind him. 'I promised to settle Thomson's coal bill to-day, thirty-three dollars, but don't know where the money is to come from. The coal is burned up and more must be ordered. Oh, dear!—I'm discouraged. Every year I fall behindhand. This winter I did hope to get a little in advance, but if forty dollar silk dresses are in order, there's an end to that devoutly to be wished for circumstance. Debt! debt! How I have always shrank from it; but steadily, now, it is closing its Briserian arms around me, and my restricted chest labors in respiration. Oh, if I could but disentangle myself now, while I have the strength of early manhood, and the bonds that hold me are weak. If Ada could see as I see—If I could only make her understand my position rightly. Alas! that is hopeless, I fear.'

And Mr. Whitman hurried his steps because his heart beat quicker, and his thought was unduly excited.

Not a long time after Mr. Whitman left his house, the postman delivered a letter to his address. His wife examined the writing on the envelope, which was in a bold, masculine hand, and said to herself, as she did so, 'I wonder who this can be from?'

Something more than curiosity moved to her. There intruded on her mind a vague feeling of disquiet, as if the missive bore unpleasant news for her husband. The stamp showed it to be a city letter. A few times of late, such letters had come to his address, and she had noticed that he had read them hurriedly, thrust them without remark into his pocket, and became silent and sober faced.

Mrs. Whitman turned the letter over and over again in her hand in a thoughtful way. As she did so, the image of her husband, silent and sober-faced as he had become for the most of the time of late, presented himself with unusual vividness. Sympathy stole into her heart.

'Poor Charles!' she said, as the feeling increased; 'I'm afraid something is going wrong with him.'

Placing the letter on the mantelpiece, where he could see it when he came in, Mrs. Whitman entered upon some household duties; but a strange impression, as of a weight, lay upon her heart—a sense of impending evil—a vague, troubled disturbance of her usual inward self-satisfaction.

If the thought of Mr. Whitman recurred, as was natural, to the elegant silk dress of which she was to become the owner on that day, she did not feel the proud satisfaction her vain heart experienced a little while before. Something of its beauty faded.

'If I only knew what that letter contained,' she said half an hour after it had come in, her mind still feeling the pressure which had come down upon it so strangely, as it seemed to her.

She went to the mantle-piece and took up the letter, and examined the superscription. It gave her no light. Steadily it kept growing upon her that its contents were of a nature to trouble her husband.

'He's been a little mysterious of late, she said to herself. This idea affected her very unpleasantly. 'He grows more silent and reserved,' so thought, under a kind of feverish excitement, became active in a new direction. 'More indrawn, as it were, and less interested in what goes on around. His coldness chills me at times, and his irritation hurts me.'

She drew a long, deep sigh. Then with an almost startling vividness, came before her mind, in contrast, her tender loving, cheerful husband of three years before, and her quiet, sober-faced husband of to-day.

'Something has gone wrong with him,' she said aloud, as feeling grew stronger, 'What can it be?'

The letter was in her hand.

'This may give me light,' And with careful fingers she opened the envelope without breaking the paper, so that she could seal it again if she desired to do so. There was a bill for sixty dollars, and a communication from the person sending the bill. He was a jeweller.

'If this is not settled at once,' he wrote, 'I shall put the account in suit. It has been standing for over a year, and I am tired of getting excuses instead of my money.'

The bill was for a lady's watch which Mrs. Whitman had almost compelled her husband to purchase.

'Not paid for! Is it possible?' exclaimed the little woman, in blank astonishment, while the blood mounted to her forehead.

Then she sat down to think. Light began to come into her mind. As she sat thus thinking, a second letter came in for her husband by the penny postman. She opened it without hesitation. Another bill and another dunning letter!

'Not paid! Is it possible!' She repeated the ejaculation. It was a bill of twenty-five dollars for gaiters and slippers, which had been standing for three or four months.

'This will never do,' said the awakening wife—'never—no, never!' And she thrust the two letters into her pocket in a resolute way. From that hour until the return of her husband at dinner time, Mrs. Whitman done an unusual amount of thinking, for her little brain. She saw the moment he entered, that the morning cloud had not passed away from his brow.

'Here is the money for that new dress,' he said, taking a small roll of bills from his breast pocket, and handing them to Ada, as he came in. He did not kiss her, nor smile in the old bright way. But his voice was calm if not cheerful. A kiss and a smile would have been more precious to the young wife than a hundred silk dresses. She took the money, saying:

'Thank you, dear! It is kind of you to regard my wishes.'

Something in Ada's voice and manner caused Mr. Whitman to lift his eyes, with a look of inquiry, to her face. But she turned aside so that he could not read its expression.

He was graver and more silent than usual, and ate with scarcely an appearance of appetite.

'Come home early, dear,' said Mrs. Whitman, as she walkes to the door with her husband, after dinner.

'Are you impatient to have me admire your new silk dress?' he replied, with a faint effort to smile.

'Yes. It will be something splendid,' she answered.

He turned off from her quickly, and left the house. A few moments she stood, with thoughtful face, her mind indrawn, and her whole manner completely changed. Then she went to her room, and commenced dressing to go out.

Two hours later and we find her in a jewelery store on Broadway.

'Can I say a word to you?' She adressed herself to the owner of the store, who knew her very well.

'Certainly,' he replied, and they moved to the lower end of the long show case.

Mrs. Whitman drew from her pocket a lady's watch and chain, and laying them on the show-case, said, at the same time holding out the bill she had taken from the envelope addressed to her husband.

'I can't afford to wear this watch; my husband's circumstances are too limited. I tell you so frankly. It should have never been purchased; but a too indulgent husband yielded to the importunities of a foolish young wife, I say this to take the blame from him. Now, sir, must the case, if you can do it in fairness to yourself. Take back the watch, and say how much I shall pay you besides.'

The jeweller dropped his eyes to think. The case took him a little by surprise. He stood for nearly a minute; then taking the bill and watch, he said—'Wait a moment,' and went to a desk near by.

'Will that do?' He had come forward again, and now presented her with the receipted bill. His face wore a pleased expression.

'How much shall I pay you?' asked Mrs. Whitman, drawing out her pocket-book.

'Nothing. The watch is not delivered.

'You have done a kind act, sir,' said Mrs. Whitman, with feeling trembling along her voice. 'I hope you will not think unfavorable of my husband. It's no fault of his that the bill has not been paid. Good morning sir.'

Mrs. Whitman drew her veil over her face, and went, with light steps and a light heart, from the store. The pleasure she had experienced on receiving her watch was not to be compared with that not felt in parting with it. From the jeweller's she went to the boot-maker's and paid a bill of twenty-five dollars; from thence to her milliner's, and settled for her last bonnet.

'I know you're dying to see my new dress,' said Mrs. Whitman, gaily, as she drew her hand within that of her husband, on his appearance that evening. 'Come over to our bed-room, and let me show it. Come along! Don't hang back, Charles, as though you were afraid.'

Charles Whitman went with his wife passively, looking more like a man on his way to receive sentence, than in expection of a pleasant sight. His thoughts were bitter.

'Shall my Ada become lost to me?' he said in his heart—'lost to me in a world of folly, fashion, and extravagance?'

'Sit down, Charles.' She led him to a large cushioned chair. Her manner had undergone a change. The brightness of her countenance had departed. She took something, in a hurried way, from a drawer, and catching up a footstools, placed it on the floor near him, and sitting down, leaned upon him, and looked tenderly and lovingly into his face. Then she handed him the jeweller's bill.

'It's receipted, you see.' Her voice fluttered a little.

'Ada! how is this? What does it mean?' He flushed and grew red.

'I returned the watch, and Mr. R—— receipted the bill. I would have paid for damages but he said the watch was uninjured, and asked nothing.'

'Oh, Ada!'

'And this is receipted also; and this;' handing him other bills which she had paid. 'And now, dear,' she added quickly, 'how do you like my dress? Isn't it beautiful?'

We leave the explanations and scene that followed to the readers imagination. If any fair lady, however, who like Ada, has been drawing too heavily upon her husband's slender income, for silks and jewels, is at a loss to realize the scene, let her try Ada's experiment. Our word for it, she will find a new and a glad experience in life. Costly silks and jewels may be very pleasant things, but they are too dearly bought when they come at the price of a husband's embarrassment, mental disquietude and alienation. Too often the gay wife wears them as the signs of these unhappy conditions. Tranquil hearts, and sunny homes are precious things; too precious to be burdened and weakened by the love of show. Keep this in mind, oh ye fair ones, who have husband's in moderate circumstances. Do not let your pride and pleasure oppress them. Rich clothing, costly laces and gems, are poor substitutes for smiling faces and hearts overshadowed by care. Take this lesson and live by it, rather than offer another illustration, in your own experience, of the folly we have been trying to expose and rebuke.

Mr. Beecher on Preaching God.

HIS THIRD LECTURE ON THE PREACHER'S TREATMENT OF DOCTRINES—GOD REALIZED TO MEN TO BE THE GREAT UPBUILDER OF CHARACTER—METHODS OF THIS REALIZATION.

New-Haven, Feb. 18.—The Rev. H. W. Beecher delivered his third lecture on 'The Preacher's Treatment of Doctrine' in the Chapel of the Yale Divinity School, this afternoon, his theme being "The Mode of Preaching God." He mapped out the general aim, and postponed the method of its practical application till to-morrow. His line of thought was as follows.

God was presented as the supreme object of love; He was to be loved beyond kindred and friends, with the whole mind, soul, strength; it was to be an exercise of the highest feeling in the strongest and most all persuasive way. Such a love was to go out towards an Unseen Person which added difficulty. The whole Old Testament an unfolding and commentary upon this. Therefore the great work, a preacher was to present God, to preach God. And this preaching was to make God altogether lovely, despite the things in man not in accord with Him; were to find the deeper things in man which were made to come in accord with God, and to develope them.

In going out to such preaching there would be found first here and there one who had a large idea of God and a perfect love to Him, so that He was ever present and ever a joy to them. Next would be found a well educated class who had a good intellectual idea of God, and, under peculiar circumstances, come up temporarily to the position of first-class. There would be found, sturdily, a great middle class to whom God was a Great Functionary, little thought about or realized. There would be found a substratum of those to whom God was nebulous, an Object only known by name and avoided in thought as much as possible. The number of this latter class was much larger than would be supposed, and was much larger in New England, where those who kept away from God were crowded towards badness by having to resist God so persistently.

How to realize to these differing classes was the problem. First of all was needed a weighing of men, and a bringing of God to them in their places rather than in one's own place.

There would have to be observed and allowed for especially the differing capacities of men for truth. Then the thing was not to guess; great weight never remains a fact. But nothing people feel the truth would a Beethoven symphony rendered all out doubtful as proofs pro or con. Then the church has to preach God as a Person. It would say "would that you could see the beautiful eyes of God!" Some people,' said Mr. Beecher in a recent sermon, 'if they get out of bed on the wrong side, or see the new moon over the wrong shoulder, or put on a stocking wrong side out, interpret it as a sign of something or other. When I was a lad and went chestnutting, you couldn't have induced me to crawl through the bars because that was a sign I wouldn't get any chestnuts. *Does God sleep on Friday?* Why, if I should call up all these superstitions that cling to you it would make you blush. Now, I don't deny that even these superstitions are better than cold scepticism. I had rather rub off the uneatable parts of corn with my hands, as the disciples did, than to have no corn to rub. But my conceptions is that 'lack' means the right operation of causes to produce good effects. That little devil called 'Luck' doesn't go flying about blindly, dropping gold on some people and pewter on others." Speaking of dreams and their significance, he said:—'I imagine that many of the dreams to which men attach so much importance come from overeating or over-drinking. I do not believe either that a man's dreams are a reflection of his real nature. I have broken open more houses and stolen more money in my dreams than I ever expect to see awake, yet I believe I had rather die than steal. I have been a murderer in my dreams, and started up trembling out of a vain effort to hide the body. My idea is that when the upper higher part of your brain is asleep, the lower, baser part is half awake—unrestrained—and your dreams are a report from your animal faculties. When the lower part of your brain is asleep, and the upper part active you dream such dreams that when you awake you try to go asleep again to finish them. All this stuff about dreams, luck, signs, an omens, I class as outgrowths of conscience not guided by clear perceptions.' This brought him to a discussion of phases of conscience. 'I know men,' he said, 'who would shave on Sunday, but wouldn't black their boots. And I know others who would not do either on Sunday but would shave their neighbors awfully on Monday.'

How to Make an Ice-house.

To the Editor of the Canada Farmer.

SIR,—Ice-houses are certainly a *seasonable* topic at present, and if the luxury of ice is to be enjoyed next summer the preparations must be made now. Very few farmers think that they can afford the time and trouble necessary to secure a supply, imagining it to be too expensive for them, and that only denizens of towns and cities can have it furnished at a large outlay of money, but I can assure your many readers that no one need be without an unlimited supply of purest ice, and at expense so trifling as to be within the reach of all.

No excavations are needed, nor d'ble walls with expensive roofing for an ice house, however cheap, may be used. In fact for two years, I have used a part of an outer wood-shed, and my ice has kept perfectly.

Now, for the manner of storing. Sprinkle the earthen floor with sawdust and you are ready for operations. Saw the blocks of ice as large as can be conveniently handled, and as nearly square as possible. Place them neatly together, leaving a space of ten or twelve inches from the boards. Eight feet, by ten or twelve feet is large enough for an ordinary family. When one layer is completed, fill all the cavities with pulverized ice, then place another tier, and so on until your block is four or five feet high. Then enclose the remaining two sides, leaving, of course, the space from the ice

Insolvent Act of 1869.

In the matter of WILLIAM H. MITCHELL, *an Insolvent.*

THE Insolvent has made an assignment of his Estate to me and the Creditors are notified to meet at my office in Peterborough on Tuesday the 24th day of March, instant, at three o'clock p.m. to receive statements of his affairs and to appoint an Assignee.

D. W. DUMBLE
Interim Assignee.

Peterborough, 6th March, 1874.

DISSOLUTION.

THE Partnership heretofore existing under the name and style of BRADEN & KANE is this day dissolved by mutual consent, Mr. Braden having disposed of his interest to Mr. Kane, who assumes all the liabilities and will collect all the accounts.

JOHN BRADEN. WM. KANE.

Peterboro, March 6, 1874.

IN reference to the above, Mr. Kane begs to inform the public that he will continue the business as heretofore and hopes by strict attention to merit continued public patronage.

11 WM. KANE.

Situation Wanted.

Wanted, a Situation as HOUSE-KEEPER or COOK, by a middle aged Widow, no family, good references. For particulars apply to

Mrs. MAJOR WOOLDRIDGE,
Norwood, Feb. 16, 1874. 8-tf. Norwood.

TERRIBLE COMMOTION at HYSLOP'S NEW CHEAP STORE IN WESTWOOD.

PEOPLE are daily finding out the secret where to buy their TEAS, &c.

NO WONDER!

He is selling good sound Tea to 40 cents per pound and splendid Teas for 45 and 50 cents, better than they usual to have to pay elsewhere for. His special quotation only about that price. Black Teas of fine qualities always on hand.

Always on hand No. 1 Labrador Herrings of finest quality.

His Oatmeal are a wonder. Good useful oatmeal 8 and 10 cents, yard width 13c and 17 cents, extra, heavy 15c and 18 cents, good washing Prints from 9 cents upwards. The Church of Wales Goods will now be thrust out at cost to make room for new arrivals for Spring.

J. R. Hyslop having paid very high for learning the Tea Trade, quarterly, is thoroughly posted in the selection of the same and will not be at all indifferent to give his customers the full advantage. Therefore, farmers and others buying in large supplies will do themselves a greater favor than they will confer on him to call on him before purchasing elsewhere.

His fifty cent Tea is very nice,
One only needs to try,
For if they do best teas is twice
They'll take a large supply.

Parties calling at his place in his absence will be courteously and honestly treated by his Clerk.

ONLY ONE PRICE! NO HUMBUG.

All kinds of trade taken in exchange for Goods at Hyslop's Giant Tea Store in Westwood.

February 25, 1874. 9-3in

INSOLVENT ACT OF 1869.—D. W. Dumble

Peterborough Examiner.

PETERBORO', MARCH 12. 1874.

Deputation.

Messrs Hall, Bertram, W. H. Scott and Toole, left for Toronto yesterday evening to watch Town interest in legislation now going on.

Temperance.

We have been requested to say that Thos. McNaughton, Esq., of Cobourg, will deliver a lecture, with special reference to a Prohibitory Liquor Law, under the joint auspices of the Temperance League and Good Templars, on Tuesday evening next 18th inst., commencing at 7:30 o'clock precisely in the Good Templars' Hall.

The Biggest Pine.

The *Independent* says the biggest pine that has been cut for some time past was felled by the sons of Mr. Ventriss, of Nogey's Creek, on Mr. Boyd's limits on Squaw River in Harvey. The butt log measured 48 inches in diameter, and the tree produced a little over twenty-seven standard logs. It was a forked tree and there were three logs to the fork. The tree was quite sound, and it is calculated that it will cut into 40,000 shingles

Engaged.

Mr. George Young, of North Monaghan, drew to Port Hope, in one load, last week, 123 bushel and 25 lbs. of wheat, for which he received the highest price in the Port Hope market. That was 7,380 lbs. of wheat, or 270 lbs. (nearly 5 bushels) more than the *Review's* big load; the distance drawn, too, is more than ten mile's farther. The whole was done on Friday, which our readers will remember was a very wet day. The team only stopped at Rice Lake to be watered, thus going the whole 28 miles literally without stopping or feeding, and as fast as teams with light loads. Beat this if you can.—*Examiner*

A Bigger Load Still.

Mr. George M.Hugh, of Ops, brought into town on Saturday last in one load drawn by his team a cord of stone, weighed on the market scales by the clerk, in three draughts, 12,970 lbs., exclusive of the sleigh. Mr. McHugh has laid a wager of $100 that his team will draw six tons of wheat from Messrs. Needlar & Sadler's Mill to the market. Close to the mill there is a pretty sharp hill, and the team must possess extraordinary strength to pull such an immense load but their hauling for four miles the above weight over several hills, is sure evidence that Mr. McHugh will be successful in his wager, if the state of the roads allow the trial of strength to take place.—*Victoria Warder.*

Religious.

A number of persons on the Ottawa have invited Bishop Cummins of the United States, to to that city, to establish a branch of the Reformed Episcopal Church there. Mr. Cummings on account of illness, is unable at present to visit Canada, but has sent the Rev. Mr. Gallaher in his place. He will remain in Ottawa for some time and then will proceed to Montreal for the season—it is presumed to promote the interests of reform in the Episcopal Church. This is a movement against Ritualism, and is likely to produce good in the Church in Canada. The laity is opposed to the Ritualist tendencies of the present day, but they were forced to remain in the church, because to go out from her, they had no resting place short of secession. The establishment of Reformed Churches will afford asylum for the discontented, and the fear of a general movement will prevent a great deal of clerical mummery and millinery. Bishop Lewis, of Ottawa, lectured lately on the new scheme, and threatened excommunication to all who favored the invitation to Mr. Cummings, and already he has excommunicated a gentleman named A. B. Stacey, who had signified his intention to support the Reformed Church movement. This act of the Bishop is a piece of folly, for no good has ever followed persecution. If the members are determined to go out, no excommunication will prevent them, as the days of stonehouses are happily gone.

The Weather.

Has been very fickle of late—not more than two days at a time in one mood. It would appear that through the affecting circumstances on the great Conservative party, we are going to have all the evils of ever-changing cold, heat, snow, rain, &c., to the end. This must be the fulfilment of the prophecy on account of the late elections. Since we have not, now Sir John's prayers; nor yet Sir Hugh's money to appease the offended deity.

Another Reason.

The Electors of West Durham are looking around them for a candidate. The Conservatives have a Liberal Conservatives Organization from which they expect great results. They are at work, but their opponents are not idle. The Port Hope *Times* says the names of Dr. McGill and J. D Edgar are spoken of as probable candidates.

Stewart House.

Mr. Reddy has succeeded Mr. Cain in the Stewart House. Mr. Reddy is well known her, and will, no doubt, prove himself an excellent host.

Hotel Changes.

Mr. H. Cain, of the Stewart House, has bought out the Cairns House and will remove to it in a few days. It is undergoing a complete renewing throughout. Mr Cain has succeeded so well in establishing a good name in the Stewart House that we can recommend the Cairns House under his management, to the favor of the public.

Auctioneer.

Mr. J. G. Huston is now a solicitor for popular favor as an Auctioneer, and is prepared to attend to business in any part of the County. He will be found reasonable in charges and obliging in business.

New Law Firm.

Our readers will see by a card in another column that Messrs. W. H Scott, and E. B. Edwards, have entered into partnership, under the name and style of Scott & Edwards. Mr. Scott is well known to the people of the County, and Mr. Edwards, son of Jas. Edwards, Esq., is a young man of more than ordinary ability. The new firm will be found at Mr. Scott's old office, Simcoe Street.

Protestant Home.

The Committee of the Protestant Home acknowledge with thanks, a donation of $20 from the St. Andrew's Society.

A Liberal Counsel.

Licenses granted this year already, 40; amount paid for them, $3,000. Expected to be taken at least 3. at $75, $225. Total, $3,225. Taken out last year, 43, amount, $4,307. Balance given away by this Council, $1,082.

Lovell's Gazetter.

We have just received from the enterprising publisher a copy of this valuable work. It contains a store of geographical and topographical information in relation to the Dominion not to be found in any other single publication. There is a descriptive account of 6,000 cities, towns and villages, their manufactures, population, the railway and steamboat connections of each place, postal or telegraphic facilities, and the locality and extent of over 1,500 lakes and rivers. There is also a succinct account of the early settlement of each of the provinces, and the trade, shipping, minerals and other resources are given. No merchant, teacher, or professional man should be without it. Mr. Lovell's agent will visit this section of country, at an early day, when we have no doubt it will find a ready sale, as it really deserves.

Personal.

We understand that Geo. Roger, Esq., Barrister, son of the Rev. J. M. Roger, of this town, has taken up his residence in Colborne, for the practise of his profession. The people of Colborne and vicinity will find in him a genial, upright, and worthy citizen, and as a Lawyer, one in whom they can place implicit confidence. He has the best wishes of a large number of friends for his success.

The Protestant.

This is the name of a new serial for public favor. It is published in Montreal by T. E. Grafton. As its name implies, it proposes opposition to the ultramontane principles of the Church of Rome, so far as they are hostile to civil and religious liberty, and the advocacy of the efforts of those who are resisting clerical assumption. It is also opposed to the Ritualistic elements in the Protestant Church. It is neatly printed and should be largely read. Price $1.50 a year in advance.

West Northumberland.

The friends of Mr. Cockburn have fyled a petition against the return of Mr. Kerr for this riding. The *World* remarks that the protest will effect nothing. It is amusing to find men who have been elected by the most glaring acts of bribery, now attempt to fasten similar acts on their opponents.

Navigation on Lake Ontario.

It is expected that the Norseman will commence her regular trips about the 20th inst. She is being fitted up at Port Hope.

Mr. Graham's Book.

Subscribers can have these books at the following places:—Peterborough—Mr. Erskine's store. Mr. Gallettly's store, EXAMINER office Auburn—Mr John Robertson's. Keene—At Messrs. Campbell & McNeils, and Mr A. Campbell's. They would do well to call early and supply themselves.

Religious.

A number of persons on the Ottawa have invited Bishop Cummins of the United States, to to that city, to establish a branch of the Reformed Episcopal Church there. Mr. Cummings on account of illness, is unable at present to visit Canada, but has sent the Rev. Mr. Gallaher in his place. He will remain in Ottawa for some time and then will proceed to Montreal for the season—it is presumed to promote the interests of reform in the Episcopal Church. This is a movement against Ritualism, and is likely to produce good in the Church in Canada. The laity is opposed to the Ritualist tendencies of the present day, but they were forced to remain in the church, because to go out from her, they had no resting place short of secession. The establishment of Reformed Churches will afford asylum for the discontented, and the fear of a general movement will prevent a great deal of clerical mummery and millinery. Bishop Lewis, of Ottawa, lectured lately on the new scheme, and threatened excommunication to all who favored the invitation to Mr. Cummings, and already he has excommunicated a gentleman named A. B. Stacey, who had signified his intention to support the Reformed Church movement. This act of the Bishop is a piece of folly, for no good has ever followed persecution. If the members are determined to go out, no excommunication will prevent them, as the days of stonehouses are happily gone.

The Weather.

Has been very fickle of late—not more than two days at a time in one mood. It would appear that through the affecting circumstances on the great Conservative party, we are going to have all the evils of ever-changing cold, heat, snow, rain, &c., to the end. This must be the fulfilment of the prophecy on account of the late elections. Since we have not, now Sir John's prayers; nor yet Sir Hugh's money to appease the offended deity.

Another Reason.

The Electors of West Durham are looking around them for a candidate. The Conservatives have a Liberal Conservatives Organization from which they expect great results. They are at work, but their opponents are not idle. The Port Hope *Times* says the names of Dr. McGill and J. D Edgar are spoken of as probable candidates.

Stewart House.

Mr. Reddy has succeeded Mr. Cain in the Stewart House. Mr. Reddy is well known her, and will, no doubt, prove himself an excellent host.

Y. M. C. A.

A meeting was held on Tuesday evening, according to announcement on Sunday from the different pulpits in Town, in the W. M. Sabbath School Room, for the purpose of organizing a Young Men's Christian Association. It would appear that a previous one had been held in the afternoon, when a Committee had been agreed upon for the work of organizing. Mr. J. M. Smith, of the Toronto Bank, presided at the evening meeting, in the absence of Mayor Cox. There was a pretty full meeting. Mr. Wilkie, Secretary of the Y. M. C. A. of Toronto, and Mr. Grey, Secretary of the Y. M. C. A. of Port Hope, addressed the meeting on the work been done in their respective towns. They spoke in eulogistic terms of the Christian Union of all the Churches in the work, and of the good work that is being done. Rev. Messrs. Carnal and McLennan also addressed the meeting on the nature of the work and the necessary qualification of members. Rev. Mr. Fish, and Rev. Mr. Quance, B. C., were also present. A subscription was taken up for the purpose of fitting up rooms, a for a library. It amounts to $64 5. One person alone giving $300 of that sum. A large Committee was then named to undertake the work of organizing. The re-formation therefore, of an association may be said to be certain.

There can be no two opinions as to the desirability and necessity for an association of the kind. There is plenty of work for it to do. There are numbers of young men, yes, and old men, to be induced to walk in the way of holiness; and to this end the present attempt to resuscitate the association deserves the active sympathy of all Christian people. In the formation, however, there is need for caution. The last attempt of the kind was a failure: not because the intentions of its originators were not good, but because of a false step in its management. It became more of a debating or literary society, where some men met to air their different *philosophies*, or to display their literary attainments, and thus turned it aside from the legitimate object of such societies, to a display of mens' vanities. If this should again be the result, it will not require a prophet to predict a failure. The chief theme of the speakers from Port Hope and Toronto was saving young men from drunkenness. In no fault finding spirit, we might ask, what christian union of the religious bodies is there to strike at the root of drunkenness? Let those who know of such union answer to themselves.

LEGISLATURE OF ONTARIO.

The obstructiveness of the Opposition at Toronto is becoming so glaring that the strongest censure is due to those gentlemen who take upon themselves to lead the Opposition.

Messrs. Cameron, Lauder, Rydert and now and then Mr. Boultbee, demean themselves to the discussion of the merest personalities instead of matters before the House. They propose nothing They introduce nothing, and the only object they appear to have in view is to oppose everything. Very few of the electors of Ontario will admire their course during the present Parliament. The first session was wasted hunting spittoons for slips of dirty paper, pasting them together and exhibiting them. Then "Proton" did service in their cause, the time of the House and of Committees being day after day, and night after night taken up with the discussion of imaginary doings and sayins of Mr. McKellar, and one Lucas, who may have been actuated by good or bad motives for aught we know, but these things ended in smoke—nothing "proven."

The next Session witnessed a partial repetition of these things, with the addition of what is known as the "Canoe Couch" affair, the whole of which did not equal $20, but the one chord was enough for the Opposition Quartette to fiddle on.

Weeks of this Session have been wasted and are being wasted over the paltry item of about $[illegible]08 paid to the workmen at Central Prison.

It has been customary for large employers of labor to give their men a half holiday, in election times, to allow the men an opportunity of hearing the candidates. Mr. N. Dickey went to Mr McKellar and solicited the half day for the men, Mr McKellar granted it, and permitted their pay to go on. What a dreadful crime! The pay for the half day amounted to about $208. Yet these friends of the working men make a great ad that they got pay, not that they got a holiday, but that they get pay for a few hours.

This is the sin of the Government, but like all their other sins, when investigated it amounted to nothing. Six times the amount has been wasted in investigating the scraps of paper picked out of E B Wood's spittoon, and nothing is said by the trio or quartette, for this is the whole Opposition.

Those men who waste the time of the house discussing trifles, who do not possess a single quality of a statesman; whose only political stock in trade is slander, will find when an appeal to the country is again made that their services are not appreciated, nor their presence in the house desired by the people.

An opposition properly conducted is an essential part of our Legislative bodies, but when they forget the Legislation introduced and indulge in personal or factious contention, they become a nuisance rather a benefit.

The present Ontario opposition have no Political Philosophy, eloquence, or principle: mere obstructionists.

THE MIDLAND RAILWAY COMPANY

The Port Hope *Times* says:

The offices of the Company have been recently removed from the old quarters to the property purchased a couple of years ago for station grounds. The old brick building which stood on the property is being comfortably fitted up, and as there is increased accommodation, and the offices more compact, it will be much more convenient for the heads of the departments. The station is also nearer the centre of the town, and only requires a sidewalk to Walton street to make it much more convenient and accessable to our business men and the travelling public. We understand Mr. Beamish's property on John Street has also been purchased by the Company, and that it is contemplated at no very distant day to erect a large and handsome station building to front on that street.

Active steps are being taken to have the guage of the road changed, and it is thought that all will be in readiness for the shifting of the rail by the first of May next. One of the engines sent to Portland last fall (the Col. A. T. H Williams) to be changed to the narrow guage, arrived here, and now stands on the siding. Mr. Taylor, the Superintendent, is at present in Portland making arrangements for the purchase of new engines and the immediate change of several of those at present in use, and we understand terms have been agreed upon with the Midland Car Works for the changing of the cars. This change will involve a large expenditure of money and we are highly pleased to learn the Company is in such a position financially as to enable the President to make these improvements at the present time.

It also affords us pleasure to be able to state that all arrears of wages due the employees of the road at the present time will shortly be paid off.

The *Times* also says that the propositions of Mr. Rugel for aid to extend to Georgian Bay will be brought before the Council in another form. The Midland Railway should receive all the encouragement the Town of Port Hope can afford. The prosperity of that town depends largely on the prosperity of the railway Any scheme, or any neglect of the Company, or indifference on the part of the people of Port Hope, that may cause the permanent diversion of Trade from that Harbour must injure Port Hope in a greater or less degree. The rumors that managers on the east have appropriated or succeeded in securing large sums of money for building, may serve to make the people more cautious in securing their own conditions but, when the money is needed, should not cause them to withhold it altogether.

The present winter has been a trying one on all branches of industry. Railway companies have not been spared the tightness of the times. We see that the Northern Railway is also straightened for funds, and other companies have acknowledged the stringency of the money market. The people of Port Hope need not wonder, therefore, if the Midland Company has not been exempted from the tightness of the markets. Port Hope, however, has been, and is still receiving the advantages of the road, and no one will deny, that with the line completed to Georgian Bay, increased traffic to their Harbour will follow. Indeed with the Nippissing, Port Perry, the Cobourg, and perhaps the Victoria Road soon, contending for the northern trade, the safety, perhaps the existence of the Midland road depends on the completion of the road to Georgian Bay, when a through traffic will take the place of any defect in way traffic. These and other good reasons should induce the people of Port Hope to carefully consider their own interest before hastily dismissing any proposal for the extension of the road to Georgian Bay.

VICTORIA RAILWAY.

As lately intimated, the above Railway Company is seeking large land grants from the Ontario Government, as well as money, to assist them in building their road through to the Ottawa Valley.

Hon. Mr. Mowat is not prepared to grant the land, as asked for He wished for more time for consideration before recommending this course to Parliament. It is no part of our policy to delay a road to the back country, so long as the company does not seek to compel us to grant aid beyond our ability and contrary to our desires. All the money this Town and county can spare will be needed to secure railways leading from our own centre—the town of Peterboro.

The road may be an important one to the whole country to the portion of territory through which it would pass, it would be important. Indeed it would be of great advantage. Notwithstanding the advantages we are convinced that large grants of lands should not be made till after mature consideration, and then only when the object cannot be attained without such grants.

We are certain that the Mowat Government will give the scheme full consideration, and therefore we can allow the matter to remain in their hands, and await the maturing of the scheme. There can be no two opinions as to the benefits of any railroad penetrating our unsettled regions. But knowing that the present is an era of railways bordering on a mania, we need not feel alarmed for its advocacy. It is involved only the usual government aid, the matter might be left with its promoters and the Government, but a land grant involves a principle that has not been favorably received by the people of Ontario in regard to the Pacific Railway, and therefore cannot be easily admitted in this case, unless it appears that this is an exceptional one. In the advocacy of railway progress, we must not lose sight of principles It is reasonable to recommend the scheme to the favor of the Government, as one calculated to open up a large section of country, which, if fit for settlement, would soon be taken up, if the railway was once built, besides recommending it to liberal treatment by the Government, it is dangerous to go, unless we wish to barter consistency for railway advantages, which may be very great, but at present are remote. It is fair that no obstacles be thrown in the way of this railway enterprise towards the Ottawa Valley—on the contrary encourage it, but our resources should be husbanded to aid the Ontario and Quebec Railway when a favorable opportunity for its being constructed shall arrive.

NEWSPAPER POSTAGE.

The Press is unanimous in advocating the abolition of Postage on newspapers. There are good and sufficient reasons why the Government should entertain such a proposition. The necessity for more liberal treatment towards newspaper publishers must have attracted the attention of the leaders of both parties in the country. While newspaper circulation is on the increase, it is not yet one fourth what it ought to be. And this is caused largely by the unwillingness to pay the twenty cents a year of postage. It is true that, perhaps the very men who refuse to take a paper, rather than pay the extra 20 cents, may spend that much every time they go to the neighbouring town or village in a less profitable way. Yet that makes little difference so long as they refuse to take a paper on that account. It is not out of the way to say that not one half of the people take a local paper on this or similar grounds. It is small for our knowledge should be done away with, as it largely falls on a few publishers.

We trust that when the new House of Commons meet they will take steps toward allowing papers to circulate in the county in which they are published at least, free of postage. If the people are educated in everything that concerns the public interests, Newspapers are the best means of doing so, at a very moderate outlay.

The introduction of the ballot, amendment to Assessment and Municipal Laws, general matters of great importance to the country, have to be disseminated This is done through the newspapers, and it is not asking too much that the information required to enable all to become acquainted with the proper working of the Law, should be free of postage to the people. Country papers labor under difficulties city weeklies do not, as all that appears in the city weekly has done service in the daily previously, and, therefore, is produced again without cost. Although not of so much local interest to the local reader, because larger, it takes the place now and then of more important local items or news. The doing away with the small matter of twenty cents a year would place the local paper on better terms, and while it would not affect the city weeklies as they are largely delivered by persons getting up clubs it would materially increase the circulation of local papers.

LIBERAL.

The sum of $3000 has been appropriated by the Ontario Government towards rebuilding the Burleigh bridges. The present Reform Government has spent more on roads and bridges of this county in the last few years than was spent by the governments that preceded in ten years.

Last year a large sum was spent on the Buckhorn road, the Burleigh road, parts of the Bobcaygeon Road, and a considerable sum will be expended this year on the roads in the back Townships. The land in Harden in addition to the Government, has also been placed in the same position as free grant lands in other Townships.

The greatest willingness is manifested by the Government to do all in their power for the advancement and prosperity of the new settlements of our country and of this county. The cheese paring policy of the John Sandfield Government was injurious to progress and settlement of our wild lands. The present Reform Government believes that the money in the Treasury belongs to the people, and they are wisely, and cautiously spending it for the interest of the people. The miserly policy of hording up surpluses is more injurious to the welfare of the province than even the free expenditure of it. The Mowat Government is neither miserly nor extravagant, for, while they are ready to use a part of the surplus for improvement necessary, especially permanent improvements, they are carefully retaining a surplus large enough to meet future exigencies, or demands. The wisdom of their policy will be seen here *after* in the progress and prosperity of this province, and in the advantages offered to young men and others to settle on our wild lands. Every dollar spent in making means of ingress and egress to the new settlements will abundantly repay the outlay in inducing Canadians to remain at home rather than cross to the Western States to seek homes.

SOUTH MONAGHAN COUNCIL.

The Municipal Council of the Township of South Monaghan met in the Council Chamber on Monday the 23rd day of February, 1874, at 11 o'clock, A. M.

Members all present. The Reeve in the chair.

The minutes of last meeting were read and on motion, received.

The petition of D. King, and 42 others, with regard to the New Town Hall at Baillieboro was then taken up

Moved by Mr. Waterman, seconded by J. Wood, That a public meeting of the Township be held in the Council Chamber. Centreville, on Monday, the 2nd day of March, 1770, at 2 o'clock p. m., for the purpose of taking into consideration the propriety of building a Town Hall, in the Village of Baillieboro.—Carried.

Moved by Mr Pue, seconded by Mr. J. Waterman, That the Council do now adjourn for dinner.—Carried.

At 1:45 the Council resumed.

The Reeve presented an account from Dr King for attendance on John Bateman during the summer of 1873.

Moved by J. Waterman, seconded by W. Rutherford, That this account be paid.—Carried.

John Waterman presented By-law No. 184, being a By-law for the purpose of selling the timber on the side line between lots 18 and 19, on the 3rd and 4th con., cessions of this Township

By-law No. 134 passed through its various stages, in which the Reeve was authorized to sell the timber on said side line on Tuesday, the 3rd day of March 1874. at 2 o'clock, p. m., and was finally passed and signed.

Robert Pue presented By-law No. 185, being a By-law for the purpose of appointing Pound-keepers, Fence-viewers, and Pathmasters.

By-law No. 135 passed through its various stages and was passed and signed.

Moved by R. Pue, seconded by J. Wood, That the Clerk be authorized to get 100 copies of the Abstract of the Treasurer's account printed on small sheets.

A reply to the address to Joe Barnard, senr., was then read.

Moved by W. Rutherford, seconded by Robert Pue, That the Clerk be authorised to advertise for tenders for 14,000 feet good pine or hemlock plank, ten feet long and three inches thick, to be delivered on Squirrel bridge.

Said tenders to be handed in on or before the 2nd day of March 1874, at 2 o'clock, P. M.—Carried,

Moved by R. Pue, seconded by J. Wood, That R. McClelland, a blind man receive a grant of six dollars.

Moved by W. Rutherford, seconded by J. Waterman that he receive a grant of four dollars—Amendment carried.

Moved by W. Rutherford, seconded by R. Pue, That the Reeve do issue his order on the Treasurer for the following amounts, vis.:

Dr. King, attendance on Bateman, $20; J. W. Treasurer, salary, $20; Councillors, $10; R. McClelland, charity, $4—Carried.

Moved by J. Waterman, seconded by R. Pue, That this Council do now adjourn until the Reeve see fit to call them together.

JOS. BARNARD,
Reeve.
J. A. TURNBULL,
T. Clerk.

COUNTY COUNCIL.

The Council met on Saturday, Feb. 28th, 1874.

All the members present.

The minutes of the previous meeting were read and signed.

BY-LAWS.

One to appoint overseers of highways, one to appoint poundkeepers and fence viewers, and one to establish and legalize a line of Road between the east halves of lots 15 and 16, in the second concession of the Township were read in the Committee of the Whole and passed.

The Clerk and Reeve were instructed to give the necessary certificates to parties applying for tavern or shop license Michael Torpy was appointed Inspector of Tavern license, instead of James Hogan who was formerly appointed but declined to act.

The Reeve issued the following orders on the Treasurer, vis:—Michael Torpy, $20, part of salary as Assessor for the year 1874. W. C. Sanders, $1, for service as constable at last Municipal Election Thos Menzies $3.05 for Stationery, being amount in full up to January 1st 1874. Wm. Reynolds $2, for statute labor charged against him on the Collector's Roll of 1873, the same having been performed Trustees of School Section No 10, $3.50, for use of Schoolhouse for holding the Municipal elections in 1873 and 1874. Thomas Leslie, for work done on Indian River Bridge, under the superintendence of Henry Carruth. R. Orde, $4, for statute labor charged against him on the Roll of 1873, the same having been performed. Clerk, $25, being part of salary for the year 1874.

SUPERANNUATION.

Patrick Wynne, $9; Michael Mahony, $6, being interest for purchase property which he did not retain.

Martin Coughlin and Michael Fitzpatrick, the balance of statute labor for charged against them on the Collector's Roll of 1873, as it appears the same have been performed.

The Clerk was authorized to have the By-laws published by him and his Manager registered, and the Treasurer was instructed to pay the cost of registration.

The Collector was authorized to receive a joint note from Irwin Cochrane, payable on the first day of May 1874, in payment of the taxes charged against him on the Collector's Roll of 1873, against the east half of Lot 4, in the 6th concession, the Treasurer to receive said notes as cash from the Collector, when the Roll is being returned.

The Deputation of the school trustees of S. Section No 10, was heard, with regard to the settlement of the Municipal Loan Fund. The matter was laid over for further consideration till next meeting of Council.

The propriety of granting a sum of money to be expended on the road known as the suffrage road, in the 6th concession, was laid over for further consideration, and till such time as appropriations are usually made for Roads.

The Collector was authorized to have the taxes collected by the 14th day of March, 1874, and the Roll completed and returned to the Treasurer.

Council adjourned to the 14th day of March, 1874, then to meet at 10 o'clock A. M.

WM. O'BRIEN,
Township Clerk.

RAILWAY SCHEMES OR SCHEMING.

Last week, Messrs. Hagel, of the Midland, Brooks, of the Grand Junction, and Brydges, of the Grand Trunk, visited Peterboro, having taken a drive, we understand, along the line of the proposed Grand Junction. It is rumored, we do not know with what degree of correctness that Mr. Brydges is about buying out the Grand Junction, extending it to Omemee, and thence, by agreement with the Midland Company, proceeding to the Georgian Bay. This is about the best scheme yet for the Grand Junction, and also for the Grand Trunk, as it will afford a direct and short means of communication with the Georgian Bay and hence secure a large portion of the Western trade. It is also a very feasible scheme and cannot receive any opposition from any quarter. Peterboro has never looked upon the Grand Junction, as of such importance as to grant it aid by way of bonus, nor have the people changed their minds in this respect. There is no rival ry, however, that would intervene to oppose its construction by the people of Belleville, or by the Grand Trunk, and we wish the promoters of the road all success in maturing a scheme that will eventuate in the construction of their road, either to join the Midland or the Georgian Bay. The trade of the Great West will require all the outlets that we are able to constru

The Act to amend the Acts relating to the Victoria Railway Company now before the Legislature.

WHEREAS, the Victoria Railway Company have petitioned for an Act to amend the several Acts relating to the said company, and it is expedient to grant the prayer of their petition:

Therefore Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. From and after the erection of the Judicial District of ..... it shall constitute a municipality under the name of the Municipality of the Judicial District of ..... for the purpose hereinafter mentioned, and the affairs of such municipality shall be managed by a municipal council composed of the Reeves of the townships, or united townships, comprising the district, and the said municipality and the council thereof shall have and possess all the rights, powers, liabilities and incidents of a county corporation and county council for the purpose hereinafter mentioned, and the Municipal Law and Statutes of Ontario applicable to counties and county councils, and to the members, officers and servants thereof, and their duties and responsibilities, shall apply to the said municipality and council, and the members officers and servants thereof for the purpose following, namely, for the purpose of giving aid by way of bonus to the said company: Provided however, that such law and statutes shall not apply to matters otherwise and differently provided for by this or any of the said recited Acts.

2. It shall not be necessary in any by-law framed under this Act to set out the amount of ratable property

3. It shall be lawful for the said municipality to submit a by-law in aid of the said company to the extent of sixty thousand dollars, to be voted upon by the duly qualified voters in the following townships or localities, namely: Galway Cavendish, Snowdon, Glamorgan, Bo mouth, Dysart, Dudley, Harcourt, Guilford, Harburn and Bruton all that part of the townships of Minden and Stanhope, east of the side road or road allowance between lots fifteen and sixteen in those townships respectively, and all that part of the township of Lutterworth, lying to the east of the side road between lots fifteen and sixteen, and north of the road allowance between concession ten and eleven: and the said council shall pass the same and do everything that may be necessary to give effect thereto, if the by-law shall have received a majority of the votes cast.

4. It shall also be lawful for any township or portion of a township in the said municipality, or for any two or more of them, or portions of them, to give aid in addition to or in substitution of the aid which may be given under the third section of this Act by way of bonus to the said company, provided the granting of such aid shall not involve the levying of a higher rate than three cents in the dollar.

5. In addition to the case means contained in the fifth section of chapter sixty of the Statutes of Ontario, passed in the thirty-fifth year of Her Majesty's reign it is also enacted that the council of any county or township municipality, (including the said municipality of) shall upon petition of the said company, and within three weeks after the same shall have been left with the warden, clerk, reeve, or any principal officer of the municipality, submit a by-law or by-laws to be voted on by the duly qualified voters in that behalf, and shall pass such by-laws, if they receive the majority of the votes cast; provided the said company shall at the time of or before leaving such petition, deposit to the credit of such municipality called to pass such by-law, in a chartered bank of the Province, within or at some place convenient to such municipality, the sum of three hundred dollars in the case of groups and two hundred dollars in the case of single municipalities, or portions of municipalities, to cover the expense of submitting such by-law, in case the same may not be carried, and shall deliver with the petition a certificate of such deposit.

6. In any case in which such by-law may be passed, the said company shall be entitled to repayment of the amount deposited on demand made to the treasurer, warden, reeve clerk or other principal officer of the municipality, and when such by-law shall not have been passed, the said company shall be entitled to have any balance which may remain after paying expenses, returned on demand.

7. The fifth, sixth, seventh and eighth sections of chapter sixty-seven of an Act of the said Province, passed in the thirty-sixth year of Her Majesty's reign, are hereby repealed, as well as anything in the said several Acts contained which may be construed as rendering the Corporation of the County of Peterboro' subject to any liability or obligation in respect of bylaws under the said Act.

8. It shall be lawful for any municipal corporation which may pass a by-law to levy a rate on the section embraced in the by-law for the purpose of discharging the indebtedness created thereby.

9 The shareholders of the company may by resolution come to at the annual or any meeting of shareholders specially called for the purpose, give the directors power to sell stock of the company at reduced rates, to allot and hand over paid up stock and bonds of the company in payment of right of way, plant, rolling stock or material of any kind; and also for the services of contractors engineers and other persons, whether directors or not, who may be or may have been engaged in promoting the construction, equipment and undertaking of the said railway; provided that no allowance shall be made to directors without the express sanction of the shareholders, and that directors not appointed by the shareholders shall not interfere in the issue or sale of stock or bonds of the company

10 And whereas the shareholders of the company have unanimously resolved that the interests of the company would be best promoted by giving the company power to enable one or more of the directors to act for the company in several particulars, be it enacted that it shall be lawful for the said company with such consent to give such power.

11 The fourteenth section of chapter sixty of the Act passed in the thirty-fifth year of Her Majesty's reign, is hereby amended by exempting the company from any obligation to carry corn raised from any township, or portion of township which may not have given aid by way of bonus acceptable to the said company; and such aid shall be conclusively taken to be acceptable if it has been accepted by the company.

12. It shall be lawful for the corporation of the town of Lindsay and the said company to make any alteration in the agreement between them, having reference to the bonus granted by the town to the company, without affecting the by-law under which the said bonus was granted.

DUMBLE COUNCIL.

Town Hall, March 9th, 1874.

Council met at 10 a. m.

Present—Messrs. Spence, Smith, Ritchie and Wigmore, Councillors.

Council opened by appointing Mr. Smith Chairman.

Minutes of last meeting read, amended and signed.

The Council went into Committee of the whole on the appointment of Pathmasters, Pound Keepers, and Fence Viewers, and passed a By-law for that purpose.

The petitions of the Trustees of School Section No. 3, and Thos. Handbidge were further laid over to next meeting.

The License Inspector presented certificates, and made application for certificates for a Tavern License for Wm Bridgeware and a Shop License for John Wason.

Moved by Mr. Spence seconded by Mr. Ritchie,—That the necessary certificates be granted.—Carried.

An order for $2 50 was issued in favor of John Speers for dinners and wood for Tow Hall

Moved by Mr. Ritchie, seconded by Mr. Spence,—That this Council adjourn to the first Saturday in May next, then to meet at the Town and Agricultural Hall, Warsaw, at 10 o'clock a. m. as a Court of Revision, and that the Clerk advertise the first meeting of the Court of Revision in the Peterboro Examiner and Norwood Register.—Carried.

A newspaper has made its appearance in Toronto, under the name of "The National." "Samuel Briggs," formerly of the Mail, is editor-in-chief. He alludes to Mr. Blake's withdrawal from the Cabinet and the tone of the tory press in reference thereto, in the following caustic manner:

"The Tories are gleaning over the idea that they can now secure Blake. They feel so cheerful over his leaving the Cabinet as if they had elected some man for the Local Legislature by a majority of two and a half. They are thankful for mighty small favors these days. It is surprising how rapidly the Hon. Edward has risen in their estimation. A short time since he was a harsh, caustic unsociable, haughty, cynical, morose, pedantic hair splitter and Chancery quibbler. Now he is the only man on the Government benches who ever possessed the slightest qualification for ruling this distracted country. I suppose they know best about this. "Lazarus has given us manna on our thankhs," said a cynical Frenchman, and the Tories have concealed their ideas about Blake most effectually until a few days since. They always did so idolize the talented Edward!

By-Law No —

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bob uggeon and Fenelon Falls or some other point northward or north eastward of Bobcaygeon.

WHEREAS the Corporation of the Town of Peterborough have received to grant aid by way of bonus to the Cobourg, Peterboro and Marmora Railway and Mining Company, to enable them in extending their Railway north ward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Corporation of Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the Corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor. which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such by-law to impose such conditions upon which such aid should be granted as the said Corporation also did deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extension of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls or some other point northward or north eastward from Bobcaygeon by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2 That the said Debentures shall be made payable in twenty years at furthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debentures shall bear interest at the rate of six per cent per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg, Peterborough and Marmora Railway and Mining Company or to whom-ever they may appoint to receive the same in the manner at the times and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Cobourg to some navigable point on Chemong Lake and provided that it is so completed and in running order before the first day of July one thousand eight hundred and seventy five, and another portion thereof, namely, to the amount of the sum of Twenty Thousand dollars to be issued and delivered to the said Company when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Bobcaygeon provided that it be so completed and in running order by the First day of July one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg foresaid to the Village of Fenelon Falls, in the County of Victoria, or to some other point northward or north eastward of the said village of Bobcaygeon and distant twelve miles therefrom providing it be so completed and in running order by the First day of July, one thousand eight hundred and seventy-seven Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times before limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said lake as will be suitable for ordinary traffic over such Road as if such permanent embankment shall have been completed as hereinafter mentioned. But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall no become payable as provided by this By-Law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough obliging the said Company to a penalty of the sum of ten thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be commenced, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable to comply with the same—that is to say.

(1) That the said Railway Company shall run or cause to be run at least one train a day—a regular freight and passenger train—each way between Cobourg and the northern terminus for the time being, of the said Railway

(2) That a solid embankment and bridge shall be constructed over the Rice Lake within a period of five years from the passing of this by-law according to the plans of Walter Shanley, Esq., Civil Engineer.

(3) That the said Company shall not nor will amalgamate with or enter into any arrangements with any rival company whereby a tariff shall be agreed to be mutually charged by both companies or by the apportioning of goods between them.

(4) That a regular Passenger and Freight Station of the said Railway shall be maintained in the Town of Peterborough,

(5) That the Mayor of the Town of Peterborough for the time being shall always be made a Director of said Company.

(6) That the tariff of the said Railway shall not in any case exceed the ordinary freight tariff of the Midland Railway for the year 1871 and that the said tariff shall include a rate for the carriage of raw hardwood from the front by the one land to Peterborough for the purpose of manufacture, twenty-five per cent lower than the ordinary tariff

(7) That the line of the said Railway shall round Chemong Lake at some point navigable for steam and other vessels, and that the Company shall provide and maintain ample harbour and station accommodations for forwarding lumber where the said line may so touch Chemong Lake.

(8) That none of the said Debentures shall be so delivered or deliverable until a good and sufficient release to the Town of Peterborough of and from all liability under the By-law granting the sum of $40,000 to the Peterboro and Haliburton Railway Company shall have been given to the said Town.

(9) The said Company shall never charge less for the conveyance of goods or passengers from any point south of Peterborough to any point north of Peterborough than they may any such point south of Peterborough to any point north of Peterborough to Peterborough nor shall they ever charge less from any point north of Peterborough to any point south of Peterborough than from any such point north of Peterborough to Peterborough.

(10) In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to touch Chemong Lake on that side thereof next the Town of Peterborough

7 That unless work on the extension of such proposed Railway from Chemong Lake northwards be actually and bona fide commenced and thereafter continuously prosecuted with on or before the 1st day of January one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this By-law, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end

8 That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the THIRTY FIRST day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein of the last Municipal election that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Canning shall be returning Officer in the First Ward, Jas. Edwards returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, as is that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough Examiner now paper the date of which first publication was on Thursday, the Fifth day of March, one thousand eight hundred eight hundred and seventy-four

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL

Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time One of these is Thomas' Eclectric Oil, purely a preparation of six of some of the best Oils that are known, each one possessing virtue of its own. Hence physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Then in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, Phelps, N. Y.

And NORTHROP & LYMAN, Newcastle, Ont., Sole Agents for the Dominion.

Note.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

HARMED LABEL

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the back and Limbs, or all, Exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed and although a powerful remedy, do not contain Iron, calomel antimony, or anything hurtful to the constitution.

Full Directions in the pamphlet around each package, which should be carefully preserved.

$1 00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction when the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach, Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing Sudden colds, sore throat, coughs, diarrhoea, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceeding all other preparations of the kind

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
Newcastle, Ont.,

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is the best tonic in use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promotes a vigorous appetite and healthy nutrition. All cases of general debility, arising from wasting disease, such as consumption, scrofula, all diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, over-work, or bad habits, will derive immediate benefit from it. Sold by all druggists. It is a delightful cordial to take, and its use may be protracted for an indefinite period, without becoming disagreeable to the patient.

Dr. J BELL SIMPSON'S

SPECIFIC ANTI TORIC PILLS.

THE GREAT ENGLISH REMEDY FOR Nervous Debility, Spermatorrhœa, Neuralgia, Rheumatism, Weakness and Gleet, Nervous Organs, Palpitation of the Heart, Trembleings, Sleeplessness, the effect of over-indulgence in alcoholic stimulants and tobacco, &c. Dr. J BELL SIMPSON'S Pills are the only effectual ones for the above diseases, and are never known to fail. They have already cured hundreds in this country. Robson Arthur, Ashphiel, Hamilton, testifies to his recovery by their use Safe, certain, and rapid in action, a short trial will prove their efficacy. No sufferer need despair of being relieved from the frightful effects of Self-Abuse. The Specific Pills are sold by Druggists at $1.00 a box, and the Tonic Pills at 50c. a box, or they will be sent by mail, postage prepaid, and securely wrapped from observation, on receipt of $1.00 for the Specific, and 50c. for the Tonic Pills, by

Official Report, Vienna Exposition, Sewing Machines, &c.

(Issue 13, sec. 2 n.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 800,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is so regulated that each complete machine may be used as a sample for exhibition. This firm produces 600 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This noiseless machine sews the heaviest leather harness and the finest gauzes with a twin thread stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished and above:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of the County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favorable. I shall bring with me a large stock for sale, many also, is considered as all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRANKS, M.D.,
of Manchester, Lancashire, England,

Lecturer on the human eye and ear and their allied diseases and patentee of improvement in spectacles.

CHANGE OF BUSINESS.

Having disposed of my Tin and Hardware Business to Mr. HENRY BEST, I would take this opportunity of thanking my old customers for the liberal patronage extended to me during the last twenty-five years. Mr. Best, who recently carried on an extensive Tin and Hardware business in Lindsay, and who thoroughly understands the trade succeeds me. I can confidently recommend him to my former patrons.

JAMES STEVENSON.

Tenders to state price including and without spire. Plans and specifications may be seen and further information obtained from Mr. Hilmer, architect, Peterboro.

The lowest or any tender not necessarily accepted.

D. W. DUMBLE,
Chairman Building Committee.

Peterboro, Dec 30, 1873 1-tf

A FIRST CLASS

"Not Any for Me."

When I see my friends drinking,
I cannot help thinking,
How foolish it is to get on a spree;
And it seized to persuade,
For constantly's sake
My answer is, "Not any for me!"
That's me

Now Cards and riotry,
This is merely at whisky;
In these times at least, you all agree:
The latter's a bad one,
In truth, 'tis a mad one,
And for one I can say, "Not any for me!"
That's so.

It is poisonous stuff,
And you know well enough
'Twill kill you in time and why not agree;
To stop this mad thirsting,
Here you find yourself thirsting,
And say when your asked, "Not any for me!"
Why not!

While my friends progress play,
I gallantly accept,
For gaming with me, in whatever degree,
Is diminished at best;
And I never can succeed,
For they know I will say "Not any for me!"
They do.

'Tis a terrible practice,
And, although 'tis the fashion,
Yet from its enjoyment 'tis better steer free;
Whether at form or studio
'Tis a shame that double—
And for one I can say, "Not any for me."
You bet.

It take hold of all classes,
And ever serves the ladies
Themselves from the vice are usually free,
They will not stain in gloved
With their brothers or "lovers,"
But the vice I detest—"Not any for me."
Not any.

When I see our young ladies
With whom showy parade is
Paramount to anything else I can see
Doing nothing but playing
The piano—entertaining—
I think to myself, "Not any for me."
Not any.

With the girls of to-day
It's no work and all play,
And they'd scorn if you ask them how to make tea;
They are far too good looking
To meddle with cooking,
And for that is the case, "Not any for me."
Not any.

No, I'd rather live single,
And with bachelors mingle,
Than wed one of those; yes I'd rather be free:
Yet my friends they say "Harry,
Pray, why don't you marry?"
But I coolly remark, "Not any for me."
That's me.

The Adoration of Woman.

That adoration which a young man gives to a woman whom he feels to be greater and better than himself, is hardly distinguishable from a religious feeling. What deep and worthy love is not so? whether of woman or child, or art or music! Our caresses, our tender words, our still rapture under the influence of Autumn sunsets, or pillared vistas, or calm, majestic statues, or Beethoven symphonies, all bring with them the consciousness that they are mere waves and ripples in an unfathomable ocean of love and beauty; and emotion in its keenest moment passes from expression into silence; our love at its highest flood rushes beyond its object, and loses itself in the sense of divine mystery. If any worldliness, any to be wrought on by exquisite music? to feel its wondrous harmonies searching the subtlest windings of your soul, the delicate fibres of life where no memory can penetrate, and feeling together your whole being, past and present, in one unspeakable vibrance, melting you in one moment with all the tenderness, all the love that has been scattered through the toilsome years, concentrating in one emotion of heroic courage or resignation all the half-learned lessons of self-renouncing sympathy, blending your present joy with past sorrow, and your present sorrow with all your past joy? It not, then neither is it a weakness to be so wrought upon by the exquisite curves on a woman's cheek and neck and arms, by the liquid depths of her beseeching eyes or the sweet childish pout of her lips. For the beauty of a lovely woman is like music, what can one say more? Beauty has an expression beyond and far above woman's soul, that it clothes, as the words of praise have a wider meaning than the thought that prompted them; it is made thus woman's love that moves us in a woman's eyes—it seems to be a far-off mighty love that has come near to us, and made speech for itself there; the rounded neck, the dimpled arms move us by something more than their prettiness—by their close kinship with all we have known of tenderness and peace. The expression in beauty (it is needless to say that there are gentlemen with whiskers dyed and ardyed who see none of it whatever), and for this reason the noblest nature is often the most blinded to the character of the woman's soul, that the beauty clothes. Whence, I fear, the tragedy of human life is likely to continue for a long time to come, in spite of mental philosophers, who are ready with the best receipts for avoiding all mistakes of the kind.—George Eliot.

Attacked by Vampires.

What an awful item this is for the worshipers of mere Nature. Is it meant to excite the self-protective industry of Man—"He who looks upward" to the destruction of the horrible creatures? or to incite him to the disgust of mere Materialism, the thing called "common sense?"—

"A gentleman states that, while in Surinam, he awoke about four o'clock one morning, and was considerably alarmed by finding himself weltering in congealed blood, and was unable to account for this, as he felt no pain whatever. This mystery, says he, was that I had been bitten by a vampyre, or spectre of Guana, which is also called the flying dog of New Spain. This is no other than a bat of monstrous size, that sucks the blood from men and cattle while they are fast asleep, even, sometimes, till they die; and as the manner in which they proceed is truly wonderful, I will endeavour to give a true account of it. Knowing, by instinct, that the person that they intend to attack is in a sound slumber, they generally alight near the feet, where, while the creature continues fanning with his enormous wings which keeps one cool, he bites a piece out of the great toe, so very small indeed that the head of a pin could scarcely be received into the wound, which is consequently not painful; yet through this orifice he continues to suck the blood until he is obliged to disgorge. He then begins again and thus continues sucking and disgorging until he is scarcely able to fly, and the sufferer has often been known to pass from time to eternity. Cattle they generally bite in the ear, but always in places where the blood flows spontaneously. Having applied tobacco ashes, as the best remedy, and washed the gore from myself and hammock, I observed several heaps of congealed blood all around the place where I had lain, upon the ground, on examining which the surgeon judged that I had lost about fourteen ounces of blood."

Postal Changes.

In accordance with a new regulation of the Post Office Department, the mails for Australia, New Zealand and Fiji Islands, hitherto forwarded by way of England, will in future be sent by way of San Francisco, U. S., the first despatch being made by a steamer leaving San Francisco on Saturday, the 31st January, and others to follow by steamers sailing on every fourth Saturday counting from that date. The following are the rates to be charged on the various descriptions of correspondence forwarded by the above route:—

NEW ZEALAND AND NEW SOUTH WALES.

Letters.....15c. per ½oz.
Newspapers.....2c. each
Printed matter.....6c. per 4 ozs.

OTHER PARTS OF AUSTRALIA AND THE FIJI ISLANDS.

Letters.....10c. per ½ oz.
Newspapers.....2c. each.
Printed matter.....5c per 2 ozs.

The fee for registered letters to New Zealand and New South Wales is 13 cents, but no provision is made for registering correspondence to other parts of Australia and the Fiji Islands.

The rates above given prepay correspondence in full to New Zealand and New South Wales; but correspondence for the rest of Australia, and for the Fiji Islands, will be liable to a further charge on delivery.

Short paid letters, &c., addressed to the places above mentioned will not be forwarded, but will be sent by first mail to the Dead Letter Office.

Over three hundred Virginia babies have been named after R. E. Lee, and still the work goes on.

VINEGAR BITTERS

D. WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Ten Thousand a Year

We present this bit of wrapped-up philosophy to our feverish wealth hunters, who sacrifice every good of life in their mad desire for sudden fortune. It is from a London comic paper:

If I had ten thousand a year
I think I could manage to spend it,
Could consider the half very near,
And, as for the rest—I could lend it.

Could consider that half, I should say,
On folly, on vice and on sorrow,
On dress, debauchery to-day,
Repentance and headache to-morrow.

Could purchase with half of my wealth,
Or less, if I cared to disdain it,
Bad morals, bad conscience, bad health,
And a bad-ish brain-out at the finish.

And the rest of my gold I could lend
The friend who in need had stood by me,
And lose both my money and friend—
For then, afterward forever he'd shy me.

If I had ten thousand a year,
The sentiment may seem chap-trappy,
I'm blest if I think it's so clear,
I should not be rich and unhappy.

At present I've friends—very dear—
Health and comfort, as long as I'm thrifty;
So I don't want ten thousand a year,
I'm content with my hundred and fifty.

A Burst of Eloquence.

Western eloquence continues to improve. A Wisconsin reporter sends the following sketch. A lawyer in Milwaukee was defending a handsome young woman who was accused of stealing from a large, unoccupied building in the night time, and thus he spoke in conclusion:—

"Gentlemen of the jury, I am done. When I gaze with enraptured eyes on the matchless beauty of this peerless virgin, on whose resplendent charms suspicion never dared to breathe; when I behold her radiant in the glorious bloom of lustrous loveliness, which angelic sweetness might envy but could not eclipse; before which the star on the brow of night grew pale, and the Brazils are dim: and then reflect upon the utter nakedness and folly of supposing that so noble Beauty would expose itself to the terrors of an empty building in the cold dead of night, when innocence like hers is hiding itself among the snowy pillows of repose; gentlemen of the jury my feelings are too overpowering for expression, and I throw her into your arms for protection against this foul charge, which the outrageous malice of a disappointed scoundrel has invented to blast the name of this lovely maiden whose smiles, shall be the reward of the verdict which I know you will give!"

The jury acquitted her without leaving their seats.

Queen Victoria.

When Queen Victoria delivered her first speech from the Throne, on the first opening of Parliament in 1838, after her accession, the scene in the House of Lords, as witnessed from the Ambassador's Box, was extremely brilliant and striking. As the youthful Queen, then still in her teens, advanced, there was a very slight nervousness perceptible in her countenance while the utmost stillness prevailed through the House. When about to accend the steps of the Throne, her foot caught in her robes and she tripped slightly, causing a momentary suffusion, but regained her foothold in an instant, and took her seat with perfect ease and self possession, after which, in the sweetest tones, she signified to their Lordships to be seated. There was still a breathless silence. As the Queen proceeded with her Speech, the Premier, Viscount Melbourne, who stood by her side in his robes and dress, holding upright the sword of State, and who was thought to be sometimes a little absent, was observed to follow or rather anticipate every word in the apparently involuntary movement of his lips, and an occasional inclination of the head from side to side, as though keeping time. Every word that the young Queen uttered, every syllable fell from her in tones that were captivating by their softness and musical, with the clearest and most beautiful enunciation, while her voice was modulated in the most perfect manner, yet all so natural without the slightest shade of affectation. When the royal speech was concluded, and an evident and universal feeling of satisfaction seemed to pervade the House, and one of the young men of the Diplomatic Corps, whose eyes and ears had been riveted to the Throne, and who stood near the writer, turned to a friend, exclaiming in a suppressed whisper, while bobbing his head with excitement, *Perfectment bien!* The writer subsequently heard the young Queen announce from the Throne, on a similar occasion, her approaching marriage to Prince Albert—a trying moment; yet the announcement was made with a mixture of regal dignity and feminine modesty, composure and timidity, that commanded universal admiration.

The Difficulties of Prospective Matrimony.

It is said that Sir Walter Campbell, who was lately in a mercantile firm in New York, wished to marry a young American young lady, of good position, in the Empire State. Upon his aspiring to the young lady's father, the parent stated that he always referred all those questions to his wife. The mother in her turn stated that she must refer it to the Duke of Argyll. The Duke pleaded that, considering his connection with royalty, he must consult his eldest son. The marquess could do nothing without the Queen's consent. Her Majesty felt that the case must be referred to the Duke of Saxe-Cobourg-Go ha, as head of the family. The Duke rejoined that, since the recent changes in Germany, he looked upon the Emperor William as his sovereign, and must bow to his advice. The Emperor said he could do nothing without Prince Bismarck's opinion; and Prince Bismarck declared he had no opinion at all, one way or the other; and so the question—to marry or not to marry—was brought to a dead lock.

Why Potatoes Run Out.

A New York farmer says, "Some one asks why it is that potatoes so soon run out. There are two grand reasons. There are but few potatoes in a hill that are fit for seed. Some are overgrown coarse, rank, and will not transmit the original quality. Others are undergrown, and not full developed seed. A potato of medium size, perfect in all its parts, with change of ground, will produce its like, ad infinitum. One other reason, cutting potatoes between stem and seed end continually, is wrong. It requires the stem and seed end to make perfect seed. It eat, eat lengthwise. Single eyes will run out any potato. There is no other seed that will bear cultivation like the potato; the only wonder is, that it does not run out completely.—*Prairie Farmer.*

Probably the oldest timber in the world that has been subject to the use of man, is that which has been found in the ancient temples of Egypt. It is found in connection with stone-work which is known to be at least 4,000 years old. This wood, and the only wood used in the construction of the temple, is in the form of ties, holding the ends of one stone to another in its upper surface. When two blocks were laid in place, then it appears that an excavation about an inch deep was made in each block, into which an hour-glass-shaped tie was driven. It is, therefore, very difficult to force any stone from its position. The ties appear to have been thin quarter & circular wood, of which the ark was constructed, a carved tree in ancient Egypt, and now very rarely found in the valley of the Nile. These dovetailed ties are just as sound now as on the day of their insertion. Although fuel is extremely scarce in that country, those bits of wood are not large enough to make it an object with the Arabs to heave off layer after layer of heavy stone for a small prize. Had they been of bronze, half the old temples would have been destroyed years ago, as previous would they have been for various purposes.

A wilful man had need be very wise.

Plenty contains in the power to curb your wants.

What fine illusions an stepping stones they often prove to stumbling blocks.

There is a comfort in pride—it makes some unhappy persons, but preserves others from becoming so.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and subtle tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and a thorough, permanent cure, by the use of the *SARSAPARILLA*: *St. Anthony's Fire, Blotches, Erysipelas, Pimples, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also, those more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the female sex, and nervous systems.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing those obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Ulcerous Sores, White, Tumid, or Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Dyspeptic, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the *Nervous* symptoms of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and constitutions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can result from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action, remove the obstructions of the stomach, bowels, liver and other organs of the body, restoring them to healthy action, and thus the cause of disease is expelled.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will retain sights adopted by the scientific glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed perfect before to the Eye that from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the nerve tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

The Reformed Episcopal Church.

LETTER OF THE REV. JAMES A. LATANE,

Rector of St. Matthew's Church, Wheeling, West Virginia,

TO BISHOP JOHNS,

Resigning the Ministry of the Protestant Episcopal Church.

ST. MATHEW'S CHURCH,
WHEELING, W. VA., Jan. 12, 1874.

MY DEAR BISHOP,—It is with sincere grief that I write to announce to you my purpose to withdraw from the Ministry of the Protestant Episcopal Church.

I know that this announcement will cause you both surprise and pain; but I beg you to believe that the decision has not been reached without much reflection and prayer, and that the step is taken with the utmost reluctance, and only from imperative convictions of duty. Every earthly consideration is against it. My relations to you and to Bishop Whittle, and to many dear brethren in the ministry in the Diocse of Virginia, my affection for the Church in Staunton, where I commenced my ministry and labored for fourteen years; my many obligations to the people of my present charge, my desire, attested by my whole ministry, to do the Lord's work in quietness and peace, the natural shrinking which every manly heart must feel from entering upon a course which will cause me to be esteemed a fool by many whose good opinion I value, and the uncertainties of the future, both as to the field of my labor and the support of my family, are all against the step, and have all been calmly and deliberately weighed.

On the other hand I have nothing to plead in favor of it, and nothing to sustain me in taking it but a clear conviction of duty to God and to the cause of His truth in the earth.

Let me say further, that in deciding the matter I have not taken council with others. For obvious reasons, until my mind was made up I could have, and up to this moment I have had, no communication, directly or indirectly with Bishop Cummins or any of his adherents. And I beg you to believe that had I felt that the case admitted of it, I would most gladly have sought counsel of you and of some of my brethren in the ministry. But when the matter was not a new one, when all the facts of the case were before me, and when it was a simple question of duty in view of the facts, and felt that I could most safely decide it where I have at least sought to decide it, in my secret chamber on my knees before God.

REASONS FOR LEAVING THE CHURCH.

Let me then state distinctly my reasons for leaving the Episcopal Church. They are just those difficulties which have been for some years past a burden and a grief to many in the Church.

I. The first is *the unhappy division of the Church into what are known as the High-Church and Low-Church parties.*

I will not say that in the Church there are two seeds, the seed of Romanism and the seed of Protestantism; but I will say that the Church as it now is, is an army with two banners, justification by the sacraments inscribed by the one, and justification by faith on the other. And there never can be any cordial union between the parties arranged under these two banners. It has been tried in the church time and again, tried in missionary operations, in Theological seminaries, and in Church-book Societies, tried honestly and by good men on each side, and, in every instance has lamentably failed. The two parties are not agreed and cannot walk together. Their differences are real, and are irreconcileable. The Low Church party cannot co-operate with the High Church Party without being false to what it has ever held to be the doctrines of the Reformation, and without sacrificing what it believes to be the first principles of the Oracles of God. The division in the Church, therefore, with the unhappy strife and discord attending it, is one which cannot be healed.

II. The second is *the countenance apparently given by certain expressions in the Prayer-book to these "erroneous and strange doctrines contrary to God's word," out of which the division in the Church has grown.*

Those doctrines pertain to the effects of Baptism, to the nature of the Lord's Supper, and to the office of the Ministry.

There are expressions in the Baptismal Service which seem to teach that every infant, when baptised, is thereby "regenerated with the Holy Spirit." And, though I am satisfied that this doctrine was not held by the framers of the Prayer Book, nor intended to be expressed in the service, and therefore is not really the doctrine of the Church, yet the expressions are so liable to be misunderstood, and so hard to be satisfactorily explained, and as a matter of fact, are so constantly misunderstood, and do practically educate and confirm so many in a false view of the effects of Baptism, that they ought to be altered. Regeneration is stated in the word of God to be essential to salvation; the mode and means of regeneration are things which concern the way of salvation; and to affirm that Baptism invariably effects regeneration, and that every person who has been baptised has, therefore, been regenerated, is dangerously to delude human souls, and that, too, in a particular essential to salvation. And yet this doctrine, contrary as it is to God's word, is distinctly and constantly taught and believed in the Church, and finds countenance at least in that service where the minister in the case of every child and every adult baptised by him, is required to say, after the act of baptism, this child, or this person, is now regenerate. And so long as the Baptismal service remains in the Prayer-book in its present form, that teaching will go on, as it has done so shockingly of late, to increase and prevail more and more in the Church.

THE DOCTRINES OF A PRIESTHOOD AND A SACRIFICE IN THE SACRAMENT NOT SCRIPTURAL.

Again, there are expressions in the Prayer-book which give countenance, at least, to the notion of a priesthood in the Christian Church, and of a sacrifice in the Lord's Supper.

Now, if there is any truth plainly taught us in the word of God, then it is there plainly taught, especially in the epistle to the Hebrews, that our Lord and Saviour, Jesus Christ, is the one perfect, everlasting, ever sympathising, and all-sufficient Priest of His People, and that they need no other, that His death upon the Cross was a full, perfect, and complete sacrifice for the sins of the whole world, offered once for all and never to be repeated, and that priests and sacrifices have been distinctly and forever abolished in the Church on earth.

And yet the opposition notion, unscriptural as it is in doctrine and corrupting in practice, finds countenance at least in the Prayer book, in the following instances:

First of all, it constantly applies to the ministers of the Church the name, "Priests."

Then, in the service for ordaining them the Bishop uses this language: "Receive the Holy Ghost for the office and work of a Priest in the Church of God, now committed to thee by the imposition of our hands. Whose sins thou dost forgive, they are forgiven; and whose sins thou dost retain, they are retained." (There is here an alternate form allowed, but a majority of the Bishops use the form I have given.)

Then, in the stated services of the Church there is a "Declaration of absolution or remission of sins, to be made by the Priest alone, standing: the people kneeling."

And then, in the service for the "institution of ministers into Parishes or Churches" (a service adopted by the General Convention of the Churches, and now found, whether rightly or not, in every Prayer-book), the tables used for the administration of the Lord's Supper is spoken of as an "altar," the minister's relation to the people of his charge is described as a "sacerdotal connection between him and them," to perform every act of sacerdotal function among them."

Now in regard to the form of words quoted above from the ordination service let it be remembered that no such words were used in the Church of Christ, in the ordaining of her ministers, for more than a thousand years after the Apostles' time and that it was not until the Church of Rome had begun to assert her high claims and in the days of her grossest corruption, that she impiously presumed to use them.

In regarn to the word *Priest*, let it be remembered that the inspired writers of the New Testament seem scrupulously to have avoided applying the term in any way, directly or indirectly, literally or even figuratively, to the ministers of Christ. So true in this, so divinely guided were they in guarding this point that no writer of any age, so far as I know, has ever claimed to have found one passage in the New Testament which even in the remotest way, applied the term priest or Priesthood to the Christian ministry. Yet in the face of this fact, and contrary to God's word the Prayer book constantly calls them Priests.

I know that the word Priest is said to be a contraction in the Prayer-book for Presbyter. But Priest is a plain English word, and has a plain English meaning. It means one who has verily a "sacerdotae function to perform," an expiatory sacrifice to make, and the real blood of some slain victim to offer unto God. The word is never used by any English speaking people, or in any English book, except the Prayer-book, in any other sense.

Can we be surprised, then, when the Prayer-book calls the ministers of the Protestant Episcopal Church, *Priests*, and uses such language in regard to their office, that many of them come to look upon themselves, and their people to look upon them, as really Priests, and their office as a priestly office, and the Lord's Supper as a sacrifice, and the Lord's body and blood as in form "offered" in that sacrifice? Or can we wonder when such language is used in the Prayer-book, in investing the ministers of the church with the office of Priest, that the doctrine and practice of priestly confession and absolution should claim a rightful place in the Church? Or can we hope to get rid of the teaching and the error until we get rid of the language which teaches the error?

THE HOPELESSNESS OF THE CONTEST WITH THE HIGH-CHURCH ELEMENT.

III. The third is *absolute impossibility of getting rid of these objectionable expressions in the services of the Prayer-book.*

I use the expression "absolute impossibility" advisedly, and am indebted for its use in this connection to Bishop Potter, of New York. In 1869, when certain innovations in doctrine and usage of Romanish character, were being boldly propagated in the Church, and were fast bringing its Protestant and Scriptural character into distrust and reproach, and when, in consequence, there was a movement on foot which, if not arrested, must end in a disruption of the Church, nine of the Bishops met in New York to confer together as to what was to be done to avert the danger. The result of their conference was "the conviction that if alternate phrases or some equivalent modification, in the office for the ministration of baptism of infants were allowed, the pressing necessity would be met." They therefore undertook to secure such alternate phrases or equivalent modification, and with this view addressed to the other Bishops the paper known as the "Propositions of the nine Bishops."

The proposition was a modest one. It did not involve the change of one word in the Prayer-book. It did not require any clergyman to omit one word, in the Baptismal service as he had always used it. It only asked that any minister who desired it might be allowed to omit from the service that single clause which makes him assert to children of every infant, after he had baptised it, this infant is now regenerated with God's Holy Spirit.

And the proposition was a "reasonable one. All that is essential to baptism, I mean outwardly, is the application of water "in the name of the Father, and of the Son, and of the Holy Ghost." This is the formula given by our Savior Himself, and the baptism is perfect and complete when the water has been applied and those words pronounced. The liberty asked for could, therefore, in no possible way affect the validity or efficacy of the sacrament. And as it would have been a great relief to many in the Church, it ought, in brotherly kindness and charity to have been allowed them.

And then the proposition was couched in the "most becoming terms." The nine bishops put it in the form of a "respectful and affectionate request of their brother Bishops."

And what was the result? The proposition was subly scouted. Bishop Potter at once made it the subject of a pastoral letter, in which he declares that he is "not entirely assured of what the General Convention must be, 'to feel the smallest concern,' save for the character and well-being of certain number of individuals;" that "the movement will end in a *mortifying discomfiture*;" that "very nearly the whole Church will stand amazed that any respectable body of churchmen, not to say Bishops, could have been found to give countenance to such propositions," and that "it is indeed astonishing that they did not see that the thing to which they were urged to give their countenance was an *absolute impossibility*." Not satisfied with this, he went very kindly taken the trouble to point out to the nine Bishops, and to their friends, that, with their friends, that, with their views and wishes, they can have no interest in asking our General Convention to undertake the task of revising the Prayer-book;" and lest this should not have the desired weight with them, he boldly threatened them that whenever such revision shall take place, then, "if two-thirds of the Bishops and three-fourths of the Dioceses may be expected to act according to their principles," it would result in such changes (and he distinctly specifies them), as would make the Prayer-book teach unmistakeably the doctrine of priestly absolution, and the doctrine of the presence of our Lord's body and blood, "verily and indeed," in the Lord's Supper.

And for one, I honestly believe that in this matter Bishop Potter has stated nothing but the truth. When at the last General Convention (Baltimore, 1871) the majority voted down every Canon that could be framed against Ritualism in the Church, when respectful petitions for alterations in the Baptismal service in the Prayer-Book were so easily disposed of, without even the formality of a discussion, and especially when such a modest and reasonable proposition as that of the nine Bishops, not really altering one word in the Prayer-book, failed so signally to accomplish anything, and the movement ended, as Bishop Potter so confidently predicted it would end, in a mortifying disconfiture, I cannot hope for the success of any new movement in that direction.

I know that it will be claimed by some that the "Declaration of the Bishops," touching the Baptismal service was gained at that Convention. I wish I could regard that Declaration as in any sense "a gain" to the Low-Church party. But I cannot. Churches of Protestant, Christendom was, after all, the real question involved in Bishop Cummins' communion act at the recent meeting of the Evangelical Alliance. The right or the wrong, the lawfulness or the unlawfulness, of his conduct, turning solely on this point. That meeting was a noble gathering of the great Protestant household of faith. It was a goodly and a pleasant sight to see Christian brethren from almost every land, and nation, and people, and tongue, meeting together and dwelling together in blessed unity. And it was surely most appropriate that, at the close of their meeting, and before parting never to behold one another's faces again in this world, they should gather as the members of one great and blessed family around the table of their Common Lord. And yet for taking his place at that table and uniting with Christian brethren of other Churches in that sacred service, Bishop Cummins was denounced in the most unmeasured terms, was accused of having violated the Constitution and Canons of the Church, and was charged with having been unfaithful to the most solemn vows a human being can assume.

Now, were these charges false or were they true? I do not discuss this question so far as Bishop Cummins is concerned. He needs no defence at my hands. His character as a Christian man and a christian minister stands unimpeached before the Christian world. In the freshness and strength of his early manhood he took upon him the vows of God and devoted himself to the service of God in the ministry of the Gospel of Christ; and sacredly, faithfully, and with his whole heart, so far as the eye of man can see, and with signal marks of Divine blessing upon his work in every station he has occupied, has he from that day to this remembered and kept those vows to God. And in now laying down his office in the Episcopal Church, and in going forth to labor in a new field, where, as he honestly believes, he may yet more faithfully serve God and His cause in the earth, he has done what as a Christian man, he had a perfect right to do, has done it in the most manly, and honest, and straightforward way, and has done only what the Reformers of the Church of England did when they came out of the Church of Rome.

But I ask the question because of its bearing on the attitude of the Episcopal Church to the other Churches of the Reformation. And on this point there is and and significant fact: *While Bishop Cummins was so loudly condemned for that Communion act, there was, so far as I know, but one paper in the entire Episcopal Church in this country which spoke out in a fearless, and honest, and hearty terms in defence of him and in justification of his act.* Surely this single fact clearly marks how far the Episcopal Church has already drifted from her ancient Protestant moorings, and no one who has watched for the last few years the course of the current of public sentiment in her communion can question that she is destined to drift on yet further and yet faster in the same direction. It cannot be otherwise. It follows as a logical necessity from that division in the Church and from those unscriptural views of the effects of Baptism and of the nature of the Lord' Supper and of the office of the Lord's Supper and of the office of the ministry, to which reference has already been made. Just in proportion as these views spread and prevail in the Church, will the Church become more exclusive in its character and more unchuring towards other bodies of Protestant Christendom.

PATIENCE AND FAITHFULNESS OF THE LOW-CHURCH MEMBERSHIP UNDER THESE TRIALS—CONFIDENT WITNESS THE CHURCH USETH.

And I must say that when, in the last few weeks, I have gone over all these difficulties in the Protestant Episcopal Church, and looked them calmly in the face, the result has been a feeling, not of surprise at the weakness and restlessness many of the Church have felt for years past, but of amazement that so many of us have been to the dear old Church, and to the Lord of her peace, and still hoping for better things have borne them so long and so patiently. And when I have seen so clearly, as it seemed to me, that the whole tendency of things in the Protestant Episcopal Church, as it is to-day, was not for the better but for the worse, I have felt constrained that Bishop Cummins has at last felt himself verily "called of God" to take the lead in organizing a Reformed Episcopal Church and still less do I wonder that many, in different parts of the Church, are, in their secret hearts, anxiously considering the question whether they too are not called of God to join hands in the good work.

The main difficulty, I have no doubt, with many, as for days it was with me, is the question whether a reformation cannot, in the end, be effected in the Church: and, therefore, whether it is not a matter of duty to "fight the battle in the Church.' A careful review of all the facts of the case has left me utterly without hope in that quarter. In the Church the battle has been fought; and in the Church the battle has been lost. Thirty five years ago when the "Oxford Tracts for the Times" began to seriously endanger the Protestant teaching and the Protestant character of the Church in this country, open war was declared, and from that day to this has raged all along the lines. And as the matter stands to-day in the Church, as the result of a thirty-five years' struggle, that one party has gained complete ascendancy, has a majority of three-fourths in the House of Bishops, and perhaps nearly as large a majority in the Lower House, has absolute control of the entire machinery of the General Convention, and, as a party, is thoroughly disorganized, dispirited by defeat, uncertain what to do, and like a man who cannot find his hands in the day of battle.

And more than this; in the Church the struggle is hopeless for another reason. The High-Church has on its side the great educational power of the Church. It uses readily and easily, for the inculcation of its views, the catechism, and the baptismal and other services; and these are read, and heard read, many times a year, by parents, and sponsors, and children and the congregation generally, and that, too, on the most interesting occasions, and when they make the deepest impression. While the Thirty-nine Articles of the Church, which were designed to be the standard of doctrine for the Church, and which sustain the Low-Church party in its teaching, and prove conclusively that it holds to-day the doctrines held by the framers of the Prayer-book, cannot be used efficiently either in the education of the young or the instruction of the congregation generally, and, as a matter of fact, are not read, or heard read, by one Episcopalian in ten, more than once in ten years.

With the parties thus unequally matched and with the contest to be waged on these unequal terms, it can see nothing in the future of the Low-Church party, if it continue in the Church, but further decline, further disintegration, and in the end the surrender of what it has ever held to be truth of God.

1st. *It had no authority*; being merely an informal and unofficial expression of opinion on the part of most of the Bishops, or if of any authority, the greatest was a most dangerous one for the minority in the Church. 2nd. *It meant nothing*; some of signers declaring afterwards that it made a *moral* anomaly rather than anything else.

THE POSITION ASSUMED TOWARDS OTHER PROTESTANT CHURCHES.

The third another reason is *the attitude in which the Episcopal Church stands in the present day to other Protestant

Dissolution of Partnership.

Notice is hereby given, that the Co-Partnership existing between ROBERT NICHOLLS, WILLIAM HALL and PETER CONNAL as Grocers, in Peterborough, expired on the 1st of March last. All parties indebted to the firm at this date, will please call and settle without further notice, in order to wind up the affairs of the late firm.

In reference to the above the undersigned would respectfully inform the Public and the patrons of the late firm, that on the first of March they entered into partnership to carry on the business in all its branches as usual, under the name and style of PETER CONNAL & Co., and from their intimate knowledge and experience in the business they feel warranted in saying that they will always be prepared to give their customers the very best value.

PETER CONNAL.
WILLIAM G. FERGUSON.

March 18, 12-tf.

DISSOLUTION.

The Partnership heretofore existing under the name and style of BRADEN & KANE, is this day dissolved by mutual consent, Mr Braden having disposed of his interest to Mr. Kane, who assumes all the liabilities and will collect all the accounts.

JOHN BRADEN. WM. KANE.

Peterborough, March 6, 1874.

In reference to the above, Mr. Kane begs to inform the public that he will continue the business as heretofore and hopes by strict attention to merit continued public patronage.

MM. KANE.

Situation Wanted.

Wanted, a Situation as HOUSE-KEEPER or COOK, by a middle aged Widow, no family, good references. For particulars apply to

Mrs. MAJOR WOOLDRIDGE,
Norwood, Feb. 26, 1874. 9 tf. Norwood.

TERRIBLE COMMOTION at HYSLOP'S NEW CHEAP STORE IN WESTWOOD.

PEOPLE are daily finding out the secret where to buy their TEAS, &c.

NO WONDER!

He is selling good mixed Tea for 40 cents per pound and splendid Teas for 45 and 50 cents, better than they need to have to pay 70 and 80 cents for. His special quotation only about that price. Black Teas of fine qualities always on hand.

Always on hand No. 1 Labrador Herrings of finest quality.

His Oatmeal are a wonder. Good mottled cotton 9 and 10 cents, yard width 11/4 and 12 cents, extra heavy 10/4 and 12 cents, good washing Prints from 9 cents upwards. His stock of Woollen Goods will now be thrust out at once to make room for new arrivals for Spring.

J. R. Hyslop having paid very high for buying the Tea Trade, spatially, is thoroughly posted in the selection of the same and will not be at all indifferent to give his customers the full advantage. Therefore farmers and others buying in large supplies will do themselves a great favor when they will consider on him to call on him before purchasing elsewhere.

He fifty cent Tea is very nice,
One only needs to try,
For if they do but taste it once
They'll take a large supply.

Parties calling at his place in his absence will be courteously and honestly treated by his Clerk.

ONLY ONE PRICE! NO HUMBUG.

All kinds of trade taken in exchange for Goods at Hyslop's Grand Tea Store in Westwood.

Peterborough Examiner.

PETERBORO', MARCH 19, 1874.

St. Patrick.

The anniversary of Ireland's patron Saint passed off very quietly. Were it not for the races there would not have been even a stir on the streets. This is just as such days should pass off.

The Races.

The weather was very unfavorable for the races. The ice was dangerous and the whole place sloppy, nevertheless a good many were to see them. Men who ought to have been at home setting their house in order for departure to another world were there as bent on fun as any young fellow. These races afford splendid opportunities for a "bender," and not a few avail themselves of it. At least three persons got a cooling by getting through

Temperance.

Thos. McNaughton, Esq., of Cobourg delivered an admirable address on Tuesday evening, in the Temperance Hall, on the subject of prohibition, the Hall was well filled. The Rev. C. Fish, W.M., and the Rev. Mr. Paull, Pres: of Dummer were present and delivered short but earnest appeals to those present to work in the good cause. In the absence of the President of the League, Mr. Stratter was called to preside. This is the second time this season that Mr. McNaughton has visited Peterboro on the work. His address was clear, logical and scriptural

Rev. Mr. Jeffery of Ferrans

Delivered a Lecture in the W.M. school room on Monday evening, as previously announced. There was a large audience and the lecture was both amusing and instructive. Mr. Jeffery is a clear, forcible speaker, original in style, and by this means keeps the attention of his audience.

Macdonald & Elder

Are receving their new spring goods. The stock is fashionable in style and of best quality. Their selections will be found especially attractive. The Millinery department will contain all the novelties to suit the most fastidious lady. Gentlemen can be well suited in their Tailoring department as they have a varied stock to select from. Call and examine their new styles. They offer special inducements for cash.

The New Registry Office

Cost $5436. The contract price was $4090 As good a building for the purpose could have been built for less than half the amount by enlarging the old office.

Concert.

The Young Ladies of the George street W. M. Church intend giving another entertainment on Tuesday evening the 24th inst., in the Lecture Room. Their object is to assist the Building Committee to prosecute the work of the new church and we think that an object so laudable and praiseworthy on the part of the young ladies that they should receive the hearty and cordial support of all. They are to have the assistance on this occasion of several gentlemen who will give select readings; choice music, both vocal and instrumental may be expected. We trust that the same patronage which has been given to these entertainments on former occasions will be extended to this one also.

Personal.

We have much pleasure in announcing that George T. Leonard, Esq., has returned to town and resumed the practice of his profession among us. Mr. Leonard is well and favorably known here, being a native of Peterboro, and now that he has settled, we may say at home, we feel cetain that his energy an talent will secure him a large patronage. He be found in Scott's Block, opposite the office of Messrs. Dumble & Bleecker.

Lakefield Correspondence.

The Good Templars of this village held a Social and Litterary Entertainment on Wednesday evening the 11th instant. After tea the Rev. W. L. Scott took the chair. Interesting and amusing readings were given by the Rev. Clark, Dr. Hodge and Messrs McIntyre and Robertson. Rev. Mr. Craig delivered an address well suited to the occasion. The proceedings were much enlivened by choice music by the Temperance choir.

A Masonic Lodge was instituted here on the evening of Tuesday, 10th inst. The name to be Clementi Lodge; but number not yet known.

Personal.

We are glad to be able to inform our readers that the health of T. M. Fairbairn Esq., M.P.P. is much improved since his removal to Florida a few weeks ago. On his arrival there he appeared to be somewhat worse, and Mrs. Fairbairn was suddenly called to be with him. His brother Mr. Robert Fairbairn, however, received the pleasing intelligence on Tuesday that he is again improving.

New Goods.

W. G. Thomson is just opening a large stock of new and fashionable goods of latest styles.

Dead.

Ex-President Filmore, and Senator Sumner of the United States are dead.

Toronto Grain Market.

Fall Wheat $1.23 to $1.30, Spring do $1.15, Barley $1.35, Peas 70c, Rye 70c. Oats 45c. Eggs 18c. to 20c.

A Cold Bath.

On Tuesday, while witnessing the races on the little lake Hugh Fisher and Jas. Swanston went through the ice. The horse and cutter and Fisher were in a considerable time before released, as the ice was too brittle to allow a near approach. A boat had to be brought from Mr. Peak's, after which the whole were brought out safely. Nothing except a chill was the consequence. Jas. Swanston got out easily at first. They got in near the centre where the current had worn the ice thin. Yesterday evening one of the sports got in and narrowly escaped.

Prohibition.

Mr. Greenbow, who has been employed to get signatures in Peterborough to a petition for the prohibition of the manufacture, importation and sale of intoxicating liquors, has got the names of about 1,000 persons. Three persons high in the Church and at the bar refused to sign only three.

New Dominion Monthly for March.

The contents of this magazine for the present month are varied, and exceptionally much that must both interest and instruct. The second instalment of the "Review of the times" more than fulfils the expectations arising from the February instalment. An article entitled "Canada's Early Marines," contributed by Mr. J. B. A. Kingston, contains much information not generally known concerning the rise and progress of shipbuilding and shipping in the Dominion, and must contribute towards the strengthening of that love of country so necessary for the welfare of any nation. Among other things in this number worthy of note is a hymn entitled "Come I to Thee," the music by Rev. R. A. Temple, and the words by Bonar The illustration for the month is a well executed engraving of Edward Jenkins, M. P. for Dundle, Scotland, author of "Ginx's Baby," and other works.

The Illustrated Annual of Phrenology and Physiology for 1874.

Contains eight large octavo pages, with more than fifty engravings. representing Heads, Faces, Mouths, Noses, good and bad, with "Signs of Character;" also, My Schoolmates, and What Became of Them; A Good Memory; The "Leak; or, a Hole in a Pocket through Bad Habits;" and How to Save Money! One Thousand Boys Wanted; Bad Breath, Its Cause and Cure; A Fascinating Face; What the Savans are Doing for Mental Science, etc. The best Annual ever issued. Agents wanted. Newsmen have it. Sent pre-paid, by first post, for 25 cents, by S. R. WELLS, Publisher, 389 Broadway, New York.

New Map.

Mr. Romaine, proprietor of the *Review* is publishing a new map of the Town and Ashburnham. It is according to actual survey by Messrs. Fitzgerald & Bolger. The latest changes of property by sale or subdivision will be indicated. It will be in first class style, fully mounted, the price to be $15. A work of such limited sale must necessarily be costly, but we have no doubt that it will be a credit to the publisher.

Meetings.

The Races brought an unusual amount of swindlers, gamblers and black-legs to town. There was a sharp look out for them and we trust it will be kept up for a few days. Those who might be burglarious in their intentions will be likely to hang around for a few days before attempting anything. Parties should look out for pedlars of Yankee notions with an American twang or ring about them. Just now sharpers from the other side of the lines are not uncommon in Canadian towns and cities.

Rogers & Co

Are offering bargains in Ready Made Clothing, Dress Goods, Boots & Shoes. See their advertisement.

Port Hope Markets.

Wheat—Fall, $1.30 to 1.31; spring, $1.12 to 1.15. Barley $1.10 to 1.12. Oats 35c,

THE LOCAL LEGISLATION

The Session of the Local Legislature is fast drawing to a close. The government is hurrying the business as fast as possible with a due regard to the interest of the country.

The Opposition have been foiled in every attempt to make capital out of the Central Prison Accounts. Their little scheme to raise a fuss over a half holiday to the working men has recoiled on themselves. *Grip's* cartoon of the Opposition Quartette, fiddling on one chord, is appropriate. The only imaginary evil that could be ferreted out, was the payment of $204.17 to the workmen at the Central Prison for a half holiday to go to the nominations.

If rightly informed, the cost per hour of the Ontario Legislature if about $166. Cameron, Lander, Rykert & Co. have taken up several days of the house discussing these $204.17. The cost per day is no less than $1000. Not less than $6000 of the people's money have been wasted in idle clap trap over $204.17. How long will the country permit these men to occupy a position for which nature has unfitted them?

Mr. Lauder took exception to the appropriation for a Normal School at Ottawa. Although it was the inception of the Sandfield Government, as Mr. Mowat pointed out to him. it is of no consequence to them that their inconsistency is obvious in every act so long as they can have the credit of opposition.

The lack of statesmanship is so palpably evident in their whole course since the commencement of this Parliament, that the Conservatives will have to look for other leaders before they can hope for even a respectable following in the House.

The debates are not of such importance as to take up our space in detail. They consist in daily attempts of two or three members to find fault with everything. The same matters are again and again introduced The same reckless assertion of fraud on the part of McKellar and the meaningless and foolish attempts to injure him.

The man whom they persistently sought to take a seat in a combination Cabinet but who consistently refused, has now become the target of their rancour and the object of their venomous diatribes.

The result of the Session will soon be before the people, and while it would be too much to expect that all they have done will be perfect, it will be found to be for the general interest of the country and with a view to the advancement of the Province in material progress.

The proposed Legislation in reference to the judicial district in the back part of this County we have not seen yet, and therefore cannot form an opinion in reference thereto. We understand that it is intended to form a regular county for assizes and judicial purposes except as to the higher legal tribunals, for which it will be attached to Lindsay. If this is the case, we can only say that we must have had men in Toronto not friendly to this town, on whose advice this action has been carried out. We did not expect that Legislation so important, would have been carried into effect without full discussion. It is of no importance so far as the county is concerned, but the interest of Peterboro town appear not to have been so fully considered as it ought to have been. It is not fair I over to say much until the details of the Bill be received.

COMPLIMENTARY SUPPER TO JAMES HARTY, ESQUIRE.

The numerous friends and admirers of James Harty, Esqr., entertained him at at a supper on Monday evening in view of his leaving Peterboro.

The spread was got up in Mr Fenelon's best style, reflecting great credit on Mr. catering abilities.

About forty gentlemen sat down. John Bertram, Esq., M. P., presided. On his right was the guest of the evening, Mr. Harty, Mr. John Malonee occupied the vice chair.

D. W. Dumble, Esqr., H. H. Smith, Esq., R. G. Mathes, Esq., G. T. Leonard, Esq., other legal gentlemen, were present. The medical profession was represented by Dr. Kincaid. The mercantile and manufacturing interests were also represented.

After doing justice to the good things provided, Mr. Bertram called on all to prepare for the chief business of the evening. He then proposed the usual loyal toasts:

The Queen, the Prince and Princess of Wales and Royal Family, the Army and Navy and Volunteers, all of which were handsomely proposed, and rightly heartily received After The Queen, Mr Quinsey sang the national anthems, and after The Army, Navy and Volunteers, the Red, White and Blue. Dr. Kincaid replied on behalf of the Volunteers. After introductory remarks, he rather severely criticised the volunteer force, said it was represented only by a portion of the people and did not answer the end for which it was intended fully. It ought to be, but was not, composed of the bone and sinew of the country and required to be remodled before any great results could be anticipated. With all these irregularities he was proud to belong to the volunteers. They were ever ready to answer their country's calls and deserved the warmest support of the people. He concluded by thanking them for the hearty manner in which the toast had been received.

Mr. Knapp also responded on behalf of the volunteers.

The Chairman then gave the toast of the evening, 'Our Guest.' He remarked that all were met to do honor to Mr. Harty, a gentleman who was highly respected by all who had the pleasure of making his acquaintance. It was a pleasing feature of the entertainment that all classes were there to take part in the honor, and this was a proof of the merits of the gentleman and of the respect in which he was held. He (the Chairman) had the pleasure of the acquaintance of Mr. Harty's respected father and relatives who had also lived in Peterboro, and he felt that although Mr. Harty was leaving town just now, that, like many others who had done so, he would yet return to it. He referred to the many friends Mr. Harty had made and to the respect and esteem in which he was held and said he had great pleasure in proposing the toast, "Our Guest." The toast was enthusiastically received.

Mr. Harty replied in fitting terms, acknowledging the honor done him. He could not but feel intensely the honor when he saw so many met on the occasion He said that the meeting and the good wishes expressed would prove strong incentives to him in whatever field or place his lot might be cast in the future, so that he might prove worthy of the continued good will so warmly manifested toward him, and he expressed an earnest wish that all present would enjoy the utmost happiness in all life's journey.

The Vice Chairman then gave the "House of Commons and Local Legislature

Mr. Bertram responded in very happy terms. He referred to the unexpected honor conferred on him in raising him to the exalted position of a representative of the people. He remarked that it would be his evident duty to learn quietly, see how things were done at Ottawa, and judge of the course wisest to pursue. He remarked that although elected by a party he would endeavour to represent all fairly, without respect of persons, and that if any of those who were opposed to *him in politics* wanted a friend at Ottawa they had only to write to him and he would do his utmost for them. His position was not to be the representative of his friends, but of the whole country.

Dr. Kincaid responded on behalf of the Local Legislature. He did not know why he was called on, as he had no aspiration in that direction. He had a good living from his profession, in which he intended to remain. He had done all he could to defeat Mr. Bertram, for which he was now sorry. [We were under good and wise laws, and should accept results with good grace.

Mr. Dumble also responded on behalf of the Local Legislature. He humorously remarked that he was not at home at after dinner speeches. He referred to the progress of the country in his short day, the strides of science, of mercantile and manufacturing interests, as well as political; to the happy associations of the evening, to the happy state of things in Canada, and expressed a wish that some such Local Government as ours would yet be instituted to remove the grievances of Ireland. He did not know what yet might take place, what luck was in store for Mr. Harty—strange things were taking place daily. The Duke of Edinburgh, poor boy! had to take a Rooshan to wife, and another of the Royal family had to take a Scotchman. (Laughter.) He concluded by wishing the guest of the evening good speed in his future.

"The Bar" was proposed by Mr. Stratton, and responded to by Mr. Dumble, and Mr. H. H. Smith.

"The Medical profession" was given by Geo. T. Leonard, Esq., and responded to by Dr. Kincaid.

"The Mercantile Profession," was given by Mr. Hatton, and replied to by Mr. P. Hamilton, Mr. Quinsey, and Mr. Moloney.

Song by Mr. Harty.

"The Town Council" was proposed by Mr. Hyman, and responded to by C. McGrah, R. White, John Doherty and Councillor Hamilton.

"The Ladies" was given by Mr. Moloney, and responded to by Mr. Jordan, Mr. Donovan and Mr. Quinsey.

"The Press" was given by Mr. H. H. Smith, and replied to by Mr. Stratton, Mr. Knapp and Mr. Elliots.

Mr. Hatton then proposed the health of the Chairman, to which Mr. Bertram replied.

Mr. Dumble proposed "Our Host and Hostess." Mr. Quinsey replied on behalf of Mr. Fenelon.

"Speed the parting guest," was then given, when the party separated.

The evening was pleasantly spent, all present feeling that in doing honor to Mr. Harty they were doing honor to a good citizen, an honorable gentleman, and a kind friend.

PETERBOROUGH PAPER.

The Peterborough Turf Club held their Annual Meeting on the Little Lake on Tuesday and Wednesday. Owing to [illegible] they had to enclose this [illegible] the number of Clubs. The ice was very soft and [illegible] was given, which [illegible] the horses to [illegible] There was a good crowd of spectators.

DUMMER COUNCIL.

FEBRUARY, 12, 1874.

Council met in special session to have Township accounts audited, at 10:30 A.M.

All the members present, except the Reeve.

Moved by Mr. Wigmore, seconded by Mr. Ritchie, That Mr. A. R. Kidd be appointed Chairman.—Carried.

Minutes of last meeting read and confirmed.

Moved by Mr. Wigmore, seconded by Mr. Ritchie, That, as it appears, the late Treasurer, John Rose, Esq., paid to the order of the trustees of S. Section No. 4, Dummer, the sum of $31.12 in 1865, for which he appeared to have given himself no credit, the Auditors be empowered to take that matter into consideration and allow the same on being satisfied that it is correct.—Carried.

Moved by Mr. Smith, seconded by Mr. Ritchie, That the Township Treasurer's accounts, from Jan. 1st, to date of audit, be rescinded, as said audit is not deemed necessary.—Carried.

Moved by Mr. Wigmore, seconded by Mr. Smith, That Calvin Murray be allowed to do Statute labor on the 9th line, for amount of taxes against his place for 1873, and that a copy of this motion be forwarded to the Collector.—Carried.

ORDERS.

To Wm. Snelgrove, $2; E. Mellvere, Auditor, $3; Jacob White, Auditor, $3. Council adjourned.

FEBRUARY, 26, 1874.

Council met at 10 a. m. at the old Town Hall.

Present—Thos. G. Choate, Esq., Reeve, and Messrs. Wigmore, Kidd and Ritchie. Absent—Mr. Smith.

Mr. D. Lewis heard, respecting cedar cut by him on the road between Belmont and Dummer. Mr. Morrison, bushranger heard respecting the same.

Moved by Mr. Kidd, seconded by Mr. Ritchie, That in the matter of timber taken off the Dummer side of the boundary between Belmont and Dummer opposite lot 5, by David Lewis, he not knowing there was any Township By-law protecting the same, no charge be made therefor, provided Mr. Lewis furnish twenty five cedar trees for road purposes, when required.—Carried.

Moved by Mr. Kidd, seconded by Mr. Wigmore, That the application of James Lynn, and also that of John Hubel, for Tavern Licenses be fyled, and both applications granted on receiving the proper certificates of the License Inspector as to Mr. Lynn's premises. And that the Clerk notify the Inspector to examine the premises of Mr. Lynn.—Carried.

Petition from John Crow and thirty three others, asking the Council to divide School Section No. 4, received and fyled.

Moved by Mr. Kidd, seconded by Mr. Ritchie, That Richard Hutton be appointed License Inspector during present year.—Carried.

On motion of Mr. Wigmore, seconded by Mr. Ritchie, That Elijah Hubel, and Lewis Lewis, were allowed to commute their statute labor for the year for the work [illegible] on the [illegible] Lots.

Clerk instructed to carry this resolution into effect by a by-law legalizing a road across the [illegible] lot 17, in the 3rd concession and report to Council next meeting.

Moved by Mr. Ritchie, seconded by Mr. Kidd, That the bonds of the Collector and sureties be handed over to the Treasurer, with instructions that he collect up the same in the Collector on the final settlement of the Roll.—Carried.

ORDERS.

To Miss Bell, to provide clothing for Mrs. Graham, $6. Samuel Wigmore, assessment of [illegible] John Elliott, distance, $4.50. Andrew Fawcett, assessment [illegible] Ritchie, assessment [illegible] Jacob White, assessment [illegible] Wm. Snelgrove, assessment [illegible] Wm. Graham, assessment [illegible] Thos. Graham, assessment [illegible] Wm. Graham, assessment [illegible] Wm. Graham, assessment [illegible] Wm

By-Law No.—

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars to Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls or some other point northward or north eastward of Bobcaygeon.

WHEREAS the Corporation of the Town of Peterborough have resolved to grant aid by way of bonus to the Cobourg, Peterborough and Marmora Railway and Mining Company to enable them in extending their Railway northward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand Dollars upon the terms and conditions hereinafter mentioned.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." it was enacted that for the purposes and in the manner therein particularly mentioned and set out and by the assent therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act mentioned to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such By-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extension of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls or some other point northward or north eastward from Bobcaygeon by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2. That the said Debentures shall be made payable in twenty years at farthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debentures shall bear interest at the rate of six per cent. per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures so required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg, Peterborough and Marmora Railway and Mining Company or to whomsoever they may appoint to receive the same in the manner at the times and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Cobourg to some navigable point on Chemong Lake and provided that it be so completed and in running order before the first day of July one thousand eight hundred and seventy-five, and another portion thereof, namely, to the amount of the sum of Twenty Thousand dollars to be issued and delivered to the said Company when the said Railway shall have been completed and in running order from the Town of Cobourg to the Village of Bobcaygeon provided that it be so completed and in running order by the First day of July one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, or to some other point northward or north eastward of the said village of Bobcaygeon and distant twelve miles therefrom providing it be so completed and in running order by the First day of July, one thousand eight hundred and seventy-seven. Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the case of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned. But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall not become payable as provided by this By-law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough whereby the said Company in consideration of the sum of two thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be continued, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable to comply with the same—that is to say.

(1) That the said Railway Company shall run or cause to be run at least one train a day —a regular freight and passenger train—each way between Cobourg and the northern portions for the time being, of the said Railway.

(2) That a solid embankment and bridge shall be constructed over the Rice Lake with a gauge of five yards from the passing of this By-law according to the plans of Walter Shanley, Esq., Civil Engineer.

(3) That the said Company shall not nor will amalgamate with or enter into any arrangement with any rival company whereby a tariff shall be agreed to be mutually charged by both companies or for the apportioning of trade between them.

(4) That a regular Passenger and Freight Station of the said Railway shall be maintained in the Town of Peterborough.

(5) That the Mayor of the Town of Peterborough for the time being shall always be made a Director of said Company.

(6) That the tariff of the said Railway shall not in any or to exceed the ordinary current tariff of the Midland Railway for the year 1871 and that the said tariff shall include a rate for the carriage of new material over the front by the way land to Peterborough for the purpose of constructing the said Railway not exceeding the said ordinary tariff.

(7) That the line of the said Railway shall touch Chemong Lake at some point navigable for steam and other vessels, and that the Company shall provide and maintain ample harbour and suitable accommodations for forwarding lumber where the said line may so touch Chemong Lake.

(8) That none of the said Debentures shall be so issued and handed over to the said Company until at least one-fifth of the whole of the said Debentures shall be issued and delivered to the said Company for the construction of the said Railway from the Town of Peterborough to the Village of Bobcaygeon.

(9) That the said Company shall never charge less for the carriage of goods or passengers from any intermediate point of Peterborough to any point south of Peterborough than from any such point south of Peterborough to Peterborough nor shall they ever charge less from Peterborough to any point north of Peterborough than from any such point south of Peterborough to Peterborough.

(10) In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to cross Chemong Lake on that side thereof next the Town of Peterborough.

7. That without work on the extension of said Railway northward from Chemong Lake to Bobcaygeon shall be actually commenced and proceeded with on or before the first day of January, 1875, and that eight hundred and seventy-five thousand dollars of the said Town of Peterborough under this By-law, shall not be the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall come and be at an end.

8. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the Twenty-First day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the wards of the Town at the places of polling therein respectively at the last Municipal election, that the poll shall be opened on the said day at nine o'clock in the forenoon and closed at five o'clock in the afternoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jas Edwards for the Second Ward, Jno. Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By-law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The 31st day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein at the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough Examiner newspaper the date of which first publication was on Thursday, the Fifth day of March, one thousand eight hundred eight hundred and seventy-four.

J. EDWARDS,
Town Clerk.

Peterborough, March 2, 1874.

Farm for Sale.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL
Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are many preparations of medicine which have without the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of one or three of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Should the proportions, of this Oil a combination takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, and possessing the most astonishing range of application and wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop, whereas with other preparations nearly all the alcohol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, Sempro, N. Y.

And NORTHROP & LYMAN, Toronto, Gen. Sole Agents for the Dominion.

Note.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, Saml Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.
Job Moses' Periodical Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

Sold by Saml Ormond.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on abortion—carefully, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Box 957, Lyman, Newcastle, Ont., general agents for the Dominion, will enclose a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past few years, never failing in a single instance to give immediate relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver complaints, Indigestion, Diarrhœa, Sick Headache, Kidney Complaints, Acid Stomach Pathsic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diphtheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last supercseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is the best tonic in use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promotes a vigorous appetite and healthy nutrition. All cases of general debility, arising from wasting fevers, acute diseases, consumption, scrofula, all diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental anxiety, over-work, or bad habits, will derive immediate benefit from it, frequently performing a radical cure in a short period, without the assistance of any other medicine.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Box 957, Lyman, Newcastle, Ont., general agents for the Dominion, will enclose a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

Dr. J. BELL SIMPSON'S
SPECIFIC ANTI TORID PILLS,

THE GREAT ENGLISH REMEDY FOR Nervous Debility, Spermatorrhœa, Nocturnal Emissions, Weakness of the Generative Organs, Palpitation of the Heart, Trembling, Sleeplessness, the effect of over-indulgence in alcoholic stimulants and tobacco, &c. Dr. J. BELL SIMPSON'S PILLS are the only effectual cure for the above diseases, and are never known to fail. They have already cured hundreds in this country. Robert Arthur, merchant, Hamburg, testifies to his recovery by their use. Their action is safe, and rapid in action, a short trial will prove their efficacy. No sufferer need despair of being relieved from the effects of SELF-ABUSE. The Specific Pills are sold by Druggists at $1.00 a box, and the Tonic Pills at 50c. a box, or they will be sent by mail, postage prepaid, and securely wrapped from observation, on receipt of $1.00 for the Specific and 50cts for the Tonic Pills, by

J. BELL SIMPSON & Co.,
Hanover St., P. O. Hamilton.

Sold by all Wholesale and Retail Druggists. Pamphlets sent post-free on application.

Official Report, Vienna Exposition, Sewing Machines, &c.

(CLASS 12, SEC. 2 D.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 200,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is an experiment that such complete machines may be used as a sample for exhibition. This firm produces the well adjusted machines only.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 8 Sewing Machine. This universal machine owns the highest leather hemmer and the finest gourmet with a true pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

Office of the Clerk of the Peace,
Peterborough, March 16th, 1874.

C. A. WELLER,
Clerk of the Peace.

Continued from first page.

God, as the sole rule of faith and practice.

2. It adopts a Scriptural Liturgy, in which no countenance is given to the [illegible] Regener[illegible] and the Ministry, and it allows Christian liberty in the use of that Liturgy.

3. It retains Episcopacy, not as a divine right, but as a very ancient and desirable form of Church government.

And [illegible] as Christian brethren, who love our Lord Jesus Christ in sincerity, and as sister Churches all the [illegible] that hold the faith once delivered to the Saints.

WHAT WILL VIRGINIA DO?

But though [illegible] entirely to m[illegible] I shall [illegible] it until [illegible] Church [illegible] do in th[illegible] many [illegible] sed [illegible] Romanist innovation in doctrine and usage which are fast undermining the Protestant [illegible] which give countenance to such things, stricken out or altered, and who almost despairing of any reformation in the Church must now be anxiously considering their duty in regard to this movement for [illegible] reformed Church. And I cannot help remembering, and dwelling upon the thought that the Church in the Diocese of Virginia occupies *to-day*, in the providence of God, not only a peculiar position but one of peculiar responsibility. As yet, by God's grace, and happily for her, she has been able to keep back many her own borders the rising tide of Romish error, and maintains her Protestant and Scriptural faith, as no other Diocese in the land has begun to do. And now, with three godly Bishops (Yourrell, and Bishop Whittle, and Bishop Payne) within her limits, and a band of true men in ranks of her clergy and her laity, she is a Church equipped in her self and can enter on this needful work of reform as no other part of the Church in England or this country can. Let her undertake it, and none dare question her right to do so; let her consummate it, and none dare impugn the validity of her action; and no living man can foretell the great work which, under God she may thereby accomplish. And I honestly believe, if all the facts of the case, and all the dangers of her longer connection with the Protestant Episcopal Church in the United States, as at present constituted, could be laid before the minds of her people, and a fair representation of their sentiments be had, that nine tenths of her laity and two-thirds of her clergy would be found uniting their voices in one glad shout: Let us end this discord in the Church; let us separate from those with whom we cannot dwell in peace; let us stop this tampering with our convictions of truth and duty in the use of expressions which dangerously deceive human souls; let us throw down from the walls of our Zion these coverts and hiding-places for Romish errors, and Ritualistic sacrifices, and priestly confessions, and absolutions; and let us see our Church with her old, bold walks and then old towers, standing against the [illegible] place, in the very centre of Protestant Christendom.

THE PROBABLE FUTURE OF THE NEW CHURCH.

A reformed Episcopal Church, thus inaugurated, would attract to itself, sooner or later, all the elements of Protestantism in the present Episcopal Church. It would command, at once, the confidence and sympathies of the [illegible] body of Evangelical Protestant Christians. It would gather into its [illegible] all those [illegible] length and breadth of [illegible] the an Episcopal Church, with an orthodox faith, a scriptural liturgy, and a Christian spirit. It would take its place, among other Protestant Churches, not as a rival sect, but as a Church of peace. It would [illegible] principles of direction to [illegible] essential, of liberty in [illegible] of non-essential, and of charity towards all the different households of the great Protestant family. It would be a living witness for their essential unity in the faith, and a standing protest against all [illegible] and exclusive forms of spirit. It would, so far as in it lay, sheathe the sword of controversy, and give itself to the great and glorious work of preaching Jesus and saving souls. And it would be a great step towards bringing together in closer sympathy the new divided of Protestantism, and preparing them to present a united front in that dread struggle with Romanism and infidelity, which, if the language of prophecy and the signs of the times have not been strangely misread, is to come upon the Christian Church throughout the Christian world.

Would to God that I could hope to see the Church in the Diocese of Virginia *accede herself*, and rise to the dignity of her position, and meet the measure of her responsibility in this crisis of her history, and in the history of the Protestant Episcopal Church in this country, no one, it seems to me, can honestly question. The movement of Bishop Cummins is but a new phase of an old question, but a new spark from a long hidden fire, and in fact but one of the signs of the times. However, the Church papers may, "pooh pooh" it, and affect to despise it, the authorities of the Church have shown, by their hasty action in the matter, how differently they think and feel about it. It is as yet, it is true, the day of small things with the movement; but what sane man, in the light of scripture, or reason, or history, will despise it on that account. When waters have been long dammed up and are ready to overflow, a little child may let them out; with one of its little fingers may make a hole across the dam, along which the waters will begin first to trickle, then to flow in a little stream, then to deepen and widen a channel for themselves, and in the end become a mighty and resistless torrent. And so this movement may yet be [illegible] the letting [illegible] waters. Certainly the Low-Church party cannot much longer maintain its present position, as one of defense and toleration in the Church; cannot much longer maintain its existence as a party by mere negatives in the Church, denying baptismal theories, and denying [illegible] offerings, and denying priestly assumptions; cannot much longer afford to be wasting its time, and consuming its energy, and wearing out its spirit, in needless controversies about unscriptural words and expressions in the Prayer-book; cannot much longer be expected to go on, using language which seems to teach one thing and needs to be explained to mean a very different thing, and so countenancing errors which could be cut up by the roots in a single day, effectually eradicated from the Church, by the change of a dozen words in the Prayer-book; and in a word cannot much longer be confined in a Church which imposes such a yoke, and must and will continue to impose it because a large majority in the Church has at length come to hold and teach, and means that the Church shall hold and teach, just those errors, which, contrary, as they are to the word of God, and to Thirty-nine Articles of faith in the Prayer-book, and to the real doctrines of the Church, find their countenance and their only countenances in those few expressions in the Prayer-book. The movement which already carried Bishop Cummins and others out of the Church, is, therefore, under God, as sure to go onward in some form, as waters flow downward.

THREE QUESTIONS THAT PRESENT THEMSELVES IN THIS CRISIS.

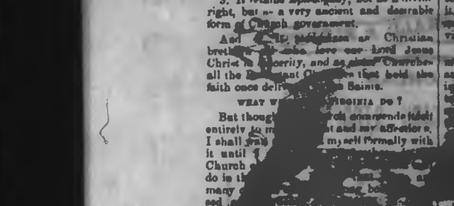
And the great and solemn questions before the Church in the Diocese of Virginia, as it is to-day, in the Providence of God, occupying so favored and so responsible a position, are these three:—

Will it remain in the Protestant Episcopal Church, with the almost certain prospect of the final overthrow and surrender of its principles?

Or will it withdraw as a body, as a Church complete in itself, and thereby secure at once a Reformed Episcopal Church?

Or will it leave many of its members to withdraw one by one, "as people, being ashamed, steal away when they flee in battle?"

I know it will be said that in taking the step I have taken I have passed this last course, and already fled space in the day of battle. But it is, it has surely not been from any fear of man, or man's reproach. It has been purely on the principle that a man's [illegible] will



a sunk louder than his words, and simply [illegible] Lord, [illegible] the [illegible] and distinct, and emphatic way possible, my feeble testimony to the necessity for a Reformed Episcopal Church. Had I [illegible] and God helping me, fearlessly have proclaimed it. And surely the struggle the step has cost me, could my brethren in the ministry and other friends only know it, and the sacrifice it involves, ought to satisfy them of the strength of my convictions and [illegible] of my motives.

And now, in [illegible] this letter, permit me, my dear Bishop, to add, that if there should be wanting [illegible] to be wanting [illegible] duties, I beg you [illegible] moment, have [illegible] and admiration [illegible] faithful preacher [illegible] I have ever heard in any [illegible] Church of Christ, my per[illegible] to you for so many [illegible] at your hands, and [illegible] heart, would forbid [illegible] thing of the kind. When I commenced [illegible] letter, I had no idea of the length or the range of discussion it would assume. But as I [illegible] the [illegible] has been [illegible] have come out clear and strong, and I have felt that as a servant of Christ, and in furtherance of what I believed to be for His glory, I ought to be neither afraid nor ashamed to utter them. If aught has been written which may displease Him, pardon and overrule it; if aught according to His will, may He bless and prosper it.

With since veneration and affection, I am, my dear Bishop,

Very truly, yours, etc.,

A. J. LATANE.

TO THE RT. REV. JOHN JOHNS, D. D., Bishop of the P. E. Church in the Diocese of Virginia.

From the Episcopalian, Philadelphia.

We are informed that the Rev. James A. Latane has resigned St. Matthew's Church, Wheeling, W. Va., and also his Ministry in our Church, and intends to join the Reformed Episcopal Church as organized by bishop Cummins and his associates. The Rev. Mr. Latane is stated to be a man of great "weight of character. He is a graduate of the University of Virginia, a ripe scholar, a sound theologian, an excellent preacher, strictly conscientious in all his acts, and remarkable for directness and honesty." [illegible] such a man to be numbered with the laborers in the Reform movement, our brethren in that communion may justly feel encouraged.

PROCLAMATION.

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of the County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot as heretofore still most certainly do so in the spring, when the weather is more favorable." Shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,

EDWARD S. FRANKS, M.D.,

of Manchester, Lancashire, England,

Lecturer on the human eye and ear and their diseases, inventor and patentee of improve-

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

Choice Poetry.

THE LAY OF A LUCKLESS ONE.

I've written poems without end,
Of every sort and kind,
But nearly everything I've penned,
Has been returned "declined."
These Editors are wrong, no doubt—
Rejected I yet shall win—
But still it always puts me out,
If they don't put them in.

My cherished rolls are very dear,
I much distrust the dough;
My rent is raised from year to year,
And my expenses grow.
My butcher too,—that rascal vile,
(To-day as me he grinned!)
Has raised his fancies prices, while
I cannot raise the wind!

My mind with sorrow, too, it fills
To see the rapid pace
At which my Piers runs up bills,
In this confounded place.
I tell her then "it will not do"—
"My finances are out of joint"—
[illegible]
Which isn't to the point!

My children are a sturdy lot—
In number they are eight—
Astounding twists they all have got,
And quickly clear the plate!
The baby is a lively elf,
And has begun to crow!
I'm not inclined that way myself
For I'm "dew-dew," you know!

So this I've grown from anxious fears,
With minded groans and sighs,
I've sent three suits to Mr. Simers.
To be reduced in size.
But oh! his bill—that worst of sum,
It's length I fear to tell:
He took my garments in—but then
He took me in as well.

Select Literature.

Romance of a Convict Girl.

THE PRETTY PICKPOCKET WHO MIGHT HAVE BEEN A FASHIONABLE BELLE.

Ten years ago this month a refined and pretty young girl was sent to Blackwell's Island for picking the pocket of a lady on Broadway. Day before yesterday the same girl, now a lovely woman of twenty-four was convicted of theft and sentenced to four years' hard labor in State Prison. The story of this unfortunate woman is a most interesting one. Born in Lexington avenue of wealthy and respectable parents, she nevertheless inherited that unfortunate temperament known as the hysterical or emotional. When the young girl was convicted for the first time the mother pleaded hard for the misguided daughter, but it was hoped that the discipline of two years would be of advantage to her, and so the sentence was carried into execution. Thoughtless and gay as a child she donned the convict's dress. She utterly refused to work, and considerable liberty was given her. Everybody liked her, for she was pretty and winning—more like a spoiled child than a dangerous woman. To the son of the warden, a tall youth of eighteen, she seemed a veritable angel, with her soft hands, deep blue eyes, and her volatile ways. It took him about three months to arrive at the conclusion that she was the most admirable being that this earth contained, and six more to decide that it was wrong for such a refined little lady to be kept in such a place. He was serving an apprenticeship as a gas-fitter in New York. He began to neglect his work on the plea of illness, and to stay upon the island instead of going over to the city. It was astonishing what an interest he took in all that related to the affairs of the prisoner.

Never was so grand a chance offered for a gallant hero to strike a grand blow to captivate his lady. If Pauline Deschapelles had been a convict instead of a merchant princess, Claude Melnotte would not have had to resort to the subterfuge of personifying a prince. "If I get you out, will you marry me?" said the Claude of Blackwell's Island; and his Pauline responded,—"Yes, you or anybody else; only be quick about it." In broken words, caught through grating or behind iron doors, the fugitive lovers planned it. She should get away and leave the island alone, remain in New York three weeks and then he would join her.

A proper opportunity was long in presenting itself, but it came at last. The warden had left for a time his son on guard alone. The sister of the young man was in her room above; and was called down on some pretext and sent to a neighboring building. Quick as a flash the pretty jail bird dashed up-stairs, tore of the convict garb, and donned the sister's best suit. She did not forget the veil and parasol with which to shield her features, and she had the wit to sober down her usual airy gait to the more staid motion of the one into whose shoes she had stepped. Our Claude was waiting "Here, I want you to row my sister over to New York," he said to the men, and they did so.

It is not known how he fixed matters with the family, but certain it is that three weeks later he promised to cherish and protect for life that liberated jailbird and she to love him, to honor, and to obey.

A couple aged respectfully fourteen and eighteen were rather young to begin house keeping, so they lived in a hotel. His love for her was a real passion; she was his angel no matter what she did, and he worked hard all day and every day to support her. As for her, she certainly respected her husband, she was grateful to him, she had kept her promise, but the stained, dark hands of the gas-fitter, were always a horror to her; it was to-wards the light-fingered gentry that she gravitated gracefully, and naturally.

Having the whole day to herself, in the midst of the great metropolis the hereditary dormant passion was surely and speedily roused to life. Thieving is a disease. With this poor girl it assumed the chronic state. Before she had been a wife two years she was arrested for grand larceny, tried, convicted and sentenced to Sing Sing for three years. When she came out she thought herself cured, the husband, like Douglas, ever tender and true, took her home again. Unfortunately for her she never loved him, and she was incapable of keeping the promise to be honest.

A last she did fall in love. She tried to pick the pocket of a rich Southerner, and he caught her in the act and chivalrously forgave her. Again a yearning for something nobler and better took possession of her, and again she promised never to yield to temptation; but she now love awakened in her heart made her ashamed of her husband. Soon she was again on trial for larceny, and the father of her husband came forward and did not spare his evidence in full. She received another term in Sing Sing. In time the warden's son was divorced and married again.

Adelaide came from prison the third time to stand beside the death of her mother. "If you are again tempted to yield to the fatal passion, my child, think how much your poor mother loved you," said the dying woman; and again the daughter took the pledge of abstinence. She went to live with a sister in Brooklyn. At the age of twenty-three she was more a child than she had been at fourteen.

"I am going up to my home," she said yesterday, "Sing Sing—I call it my home, I have been there so much. I believe I like it better than New York, I suppose it's because I am so hardened," and the eyes filled with tears. Her last pledge is broken; the panic came with its great excitement especially calculated to aggravate a malady like hers. She for four more years must occupy a prison cell.—*N. Y. Graphic.*

A Sad Double Tragedy.

A HUSBAND MURDERS HIS WIFE AND THEN KILLS HIMSELF.

Four children, the oldest of whom is a lad of but ten years, were the only witnesses to a tragedy in Brooklyn on Sunday takes from them both father and mother. Dennis and Elizabeth Delaney have lived at 382 Hicks street for fourteen years. The house, a three-story brick, is occupied by several other families, and is one of the better class of tenemento. Delaney has been sobre and industrious, and the neighbors all speak of his excellent habits and irreproachable reputation. His family has always been well provided for, and his rent has been promptly paid. His wife, an estimable woman, took excellent care of her children and was a model housekeeper.

About three o'clock last Sunday morning the boy was awakened by the sound of blows. With the three young children he slept in a pallet on the floor in the room with his parents. The baby slept in a crib. He opened his eyes and saw his father on his knees on the bed striking his mother with a hatchet. "I thought mother was asleep," he said afterward, "for she did not stir or make any noise as father struck her blow after blow.

The boy was so terrified that he was unable to move or cry out, but he watched his father strike the unconscious woman, first with the edge of the hatchet, and then with the head of it. How many times he struck he cannot tell, but it seemed a great many. Then his father dropped the hatchet and stepped to the mantle shelf, and a moment afterward the boy heard a heavy fall, and saw that his father was lying gasping. His head touched the foot of the pallet as he fell.

The lad's stupor was soon over. He darted to the hallway, and by his shrieks aroused the neighborhood. Officer Creamer of the Washington street police is a resident of the house, and was off duty. He summoned two policemen, and with others they entered the room. The boy was again speechless and could furnish no information. The three terror-stricken children were sobbing dismally, and were straining their eyes toward the body of their father. The officers found that the man had nearly severed his head from his body with a razor. The face was half buried in the bed clothing that had covered the children's feet, and streams of blood had saturated the bedding and the carpet. He firmly clutched the razor in his right hand. They lifted him and found that he was dead.

On the bed, which was partially hidden by the door when it was opened, lay Mrs. Delaney. She was still breathing, but the sight was so horrifying that it was some time before the officers could examine her. Her head and face seemed a network of gashes. Blood dyed the white pillows and sheets and had been spattered on the headboard and the wall. She was taken unconscious to the hospital, and Dr. Atkins says that she has not a chance for life.

There are nine terrible wounds on her face and head. The four worst were made with the blade of the hatchet. One, cut diagonally across the bridge of the nose is about three inches long, and crushed into the jaw bone. There are two on the left temple on the bone, and on the right temple a ragged, irregular gash, shows that the blade penetrated the skull. Of the other wounds some were made with the edge and some with the back of the hatchet. They are mostly on the left side and show that she was lying on her right side with her face from him when he began the assault. Her hands were bruised, as if she had tried to ward off the murderous blows. It looks as though he had turned her head to strike the last blow on her right temple. In the hospital she could not be aroused to consciousness.

The family occupied the rear rooms on the street floor. They were small and comfortably furnished. Everything was neat as wax on Sunday, save the ugly blood-stains which were on the carpet and furniture. On the walls were pictures of a religious kind. Vases and ornaments were tastefully arranged on the shelves and bureau. Everything gave evidence of comfort and a happy home. On the table were the provisions that Delaney had brought from the market for the Sunday dinner. There was a large, nice joint of beef and a quantity of vegetables. The neighbors say that he returned home, as usual on Saturday night sober, and seemingly happy. The boy still fixes he saw nothing unusual in his father's actions, and the family went to bed at the usual time in the usual manner. What closely questioned the children

reaffirmed that Delaney did not drink liquor. The landlord, Mr. Dunn, has known him during the fourteen years of his residence in the house, and scouts the notion that the man was never drunk.

There is but one clue to the cause of this terrible tragedy. Mrs. Delaney, in speaking to a neighbour of her husband a few weeks ago, said that he had once or twice of late acted strangely. A month ago she awoke suddenly at dead of night and found him up and examining a revolver. She asked him what he was doing, and his answer was that he wanted to see whether it was loaded and all right. Nothing was thought of the circumstance until Sunday's horror recalled it. The only supposition is that the man was taken suddenly insane. Everybody speaks confidently of his love for his wife and children and deny that he ever had trouble with them or anybody.

Late on Sunday night Mrs. Delaney caught gleams of consciousness, and her words show that she must have been asleep when assaulted, and does not know that her husband attempted her life. She asked that her father and husband be sent for. She also asked for a priest.—She spoke but a word or two and then relapsed into unconsciousness. She evidently knows nothing of what has happened.

Of the happy family who were together on Saturday night, the father lies dead in his coffin, the mother is lying in the hospital, and the children, the youngest a babe of seven months, have been separated and taken to different homes by relatives.

How They Farm in Other Countries.

Do we fully comprehend the great straits of the people in some of the civilized countries of the Old World, from the narrow limits by which they are enclosed? Thus we can have some idea of the great inducements our Dominion holds out to those desirous to find room in a new world, for millions of coragcous hearts and strong arms, for whom there is plenty of work and abundance of food. The undeveloped wealth of the country in her tens of thousands of leagues of land teeming with fertility and the incalculable wealth of her mineral resources is almost illimitable. But we do not gather from her stores anything approaching to what we might, even with our insufficient numbers. No urgent necessity compels us to turn to good account every rod of land, and to ransack earth and sea for fertilizers to force the soil to yield its heaviest crops as in Europe. The absence of such necessity makes us more careless of improvements in agriculture than we would be if less favourably situated; hence there is on our best cultivated farms a need of still further improvement.

We have from time to time spoken of the high farming in many parts of England; we now give from an address on agriculture in the Old World, a brief sketch of that

AGRICULTURE OF HOLLAND.

Holland, not including the Zuyder Zee, has an area of 3,287,463 hectares, or 8,193, 696 acres with it, 3,818,539 hectares. It has a population of 3,500,000 constantly becoming denser, having increased eight per cent. in ten years. Of this number 218,115 men and 35,730 women are actually employed in agriculture. Nearly four-tenths of this area is occupied in pasturage and fodder production, showing the prominence of meat, butter, and cheese, in the farm economy of the country. The tilled area is about 25 per cent of the total. The cereal production last reported was about 9,000,000 bushels of oats, nearly as much of rye, and 4,500,000 bushels of wheat. The cattle are the best meat producers of continental Europe, and in the flocks runs the best blood of English mutton breeds. In all the operations of the dairy, and of the farm as well, the extreme of neatness is the rule. The soil itself, originally was a waste of sand, has been reclaimed by patient labor, a part of it literally from the domain of Neptune, and kept in generous productiveness by a liberal application of fertilizers; and new it is proposed to drain the Zuyder Zee an area of 1,240,000 acres and transform its bed into fruitful fields, at an expense almost equal to the cost of construction of our completed Pacific Railroad line.

From this brief report we can see how much may be accomplished in agriculture—how much is actually done—what products are raised—how great an agricultural population is maintained in this, almost the least of the kingdoms of Europe. In Holland as in England, the greater profits to be realised from stock feeding is known and acted upon, and besides the market value of the products of their stock farms they know, stock and dairy farming makes the soil fat.

The estimate of the value of land as the basis of national as well as individual wealth is exemplified by the vast undertaking now in progress to convert 1,250,000 acres, till now a salt sea, into fields soon to be rich with crops of golden grain and herds and flocks.

We give a succient account of this great work;—

HOW LAND IS MADE IN HOLLAND.

A map of the Province of North Holland, made 300 years ago, shows a bare net-work of marshy land, protected from the North sea by a range of sandhills, and enclosed within its meshes vast bodies of navigable waters. The mere outline of the country unpromising for habitation, and affiliated with a most rigorous climate. This whole province is now a smiling fertile land, busy with every form of industry, and one of the centres of the world's prosperous activity. In a few years when the works now in hand shall be completed there will remain no water in its wide boundaries, save in the enbanked canals, where high above the level of the land the lifted waters flow to the sea and afford canals for the vast commerce of the country. Arrangements are already made for the drainage of the Zuyder Zee, a work which will cost over $50,000,000, and which will cost twenty years for its prosecution alone. When the commerce of that basin have been built and [illegible]

Literature.

Canadian Pacific Railway.

There is no diversity of opinion as to the necessity of a Canadian Pacific Railway. Mr. Mackenzie has never thought of anything else. Nobody dreams of stopping the surveys in British Columbia or relegating the idea of having a railway pushed through that province to some unknown period indefenitely in the future. The question is simply which is the best and most feasible plan for ultimately and successfully accomplishing the great national enterprise which all have at heart? That of Sir John, with all its indefinable crudeness and impracticability, or that of Mr. Mackenzie, which within a few years will give direct communication through Canadian territory to the very heart of the fertile belt, for all the summer months at any rate, when the chief part of all the travel and traffic will be done and thus afford the very best means possible for pushing the line east and west with all practicable expedition, as the knowledge of the country and the exigencies of traffic require. Sir John says that is proposed will only be a summer route. So is the St. Lawrence and yet we have used the Portland line for a winter route, as well as the New York roads, without any great injury, while the country was developing and maturing for a Canadian line to an eastern winter port in our own Dominion. The mixed route now proposed will not be useless, even when there is an entire land road farther north, no more than the St. Lawrence has been superseded by the Grand Trunk, or than the Grand Trunk will be superseded by another line some fifty or sixty miles farther back. We must do things prudently and as our means and wants will justify. This is what Mr. Mackenzie proposes, and the more his plan is examined and known, the more it will commend itself to the sober judgment of the country.

Sir John sneers at the idea of Mr. Mackenzie alleging that his plan will save sixty million of dollars and 1,300 miles of railway. Sixty millions of dollars are not to be sneered at, and if, in the meantime 1,300 miles of railway can be saved, while regular and satisfactory communication between all parts of the Dominion can be maintained and our carrying requirements met, so much the better—so much the more likely that a scheme involving such a saving, and accomplishing such a result, will commend itself both to capitalists and to Canada; and that whether the work were made a Government one or given out to a company, the necessary funds will be easily secured on favorable terms. Sir John says that because Sir Hugh failed to float his scheme, therefore every other attempt to organise a company or raise funds in Great Britain for it, if organised, would be futile. The absurdity of such a statement lies on its very face. Because, a reckless, ill-considered, impracticable scheme falls to the ground, therefore every other, however wise, practicable, and prudent must share the same fate! The honourable leader of Her Majesty's Opposition pays a very poor compliment to the people of Kingston in particular, and to the people of Canada generally, when he utters such nonsense, and fancies that his hearers and readers will receive it as the inspired utterances of a Heaven-given statesman.

The German Emperor and Earl Russel.

The following letter has been received by Earl Russell from the German Emperor:—

"DEAR LORD RUSSELL

ABSTRACT of Receipts and Expenditure for the Township of NORTH MONAGHAN for the Year 1873.

1873. RECEIPTS.	$ c.	1873. EXPENDITURE.	$ c.
Jan. 1, Cash on hand	1752 35	Paid County Rate '72, '73	2664 51
Amount Licenses	26 00	Councillors allowance	63 00
Land Sold	50 00	Schools	510 00
Clergy Reserves	84 70	Roads and Bridges	1749 91
Drainage from Department	1060 02	Miscellaneous expenses	93 45
Assessments 1873	3016 35	Printing and Stationery	94 90
		Salaries	325 50
		Cash on hand 31st Dec. 1873	356 05
	$6086 42		$6086 42

WE, the undersigned, having examined the accounts and books of the Township Treasurer and compared the payments with the vouchers, find them correct. We find a balance in the hands of the Treasurer on the 31st day of December, 1873, of Three hundred and fifty-six dollars and five cents, ($356.05.)

Respectfully submitted,

J. EDWARDS, S. J. CARVER. } AUDITORS.

Peterborough, 21st February, 1874. 13-1in

Dissolution of Partnership.

Notice is hereby given, that the Co-Partnership existing between ROBERT NICHOLLS, WILLIAM HALL and PETER CONNAL as Grocers, in Peterborough, expired on the 1st of March last. All parties indebted to the firm at this date, will please call and settle without further notice, in order to wind up the affairs of the late firm.

In reference to the above the undersigned would respectfully inform the Public and the patrons of the late firm, that on the first of March they entered into partnership to carry on the business in all its branches as usual, under the name and style of PETER CONNAL & Co., and from their intimate knowledge and experience in the business they feel warranted in saying that they will always be prepared to give their customers the very best value.

PETER CONNAL.
WILLIAM G. FERGUSON.

March 18, 12-tf.

DISSOLUTION.

The Partnership heretofore existing under the name and style of BRADEN & KANE, is this day dissolved by mutual consent, Mr. Braden having disposed of his interest to Mr. Kane, who assumes all the liabilities and will collect all the accounts.

JOHN BRADEN. WM. KANE.

Peterborough, March 6, 1874.

In reference to the above, Mr. Kane begs to inform the public that he will continue the business as heretofore and hopes by strict attention to merit continued public patronage.

MM. KANE.

11-tf.

SEASON 1874

DAILY LINE —TO— ROCHESTER,

COMMENCING ON OR ABOUT THE 1st of APRIL.

THE NEW LAKE STEAMER

"Norseman,"

(R. CRAWFORD MASTER.)

Will make her regular trips on this route, leaving Cobourg every morning, at 7.30, and Port Hope at 9 o'clock, for Rochester, connecting there with the New York Central and Erie Railways for all points East, West and South.

RETURNING, will leave Charlotte, (Port of Rochester) daily at 2 o'clock p.m. except Sundays, when she will leave at 2 p. m. for Brighton.

Dealers in stock will find this the cheapest and most expeditious route to Boston, Albany, New York &c.

For further information address,

R. CRAWFORD, Port Hope, or to C. F. GILDERSLEEVE, Kingston.

Port Hope, March 20th, 1874. 12-tf.

Mail Contract.

TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday 1st of May, for the conveyance of Her Majesty's Mails, on a proposed Contract for four years, six times per week each way, between KEENE and PETERBOROUGH, from the 1st July next.

Conveyance to be made in a Public or other vehicle

The Mails to leave Keene daily, Sundays excepted, at 8 a. m., and to arrive at Peterborough at 10.30 a.m.

To leave Peterborough daily, Sundays excepted, at 4.30 p. m., or after the arrival of Mails from Port Hope by train, and to return to Keene within two and a half hours afterwards.

Printed notices containing further information as to conditions of proposed Contract may be seen, and blank forms of Tender may be obtained at the Post Offices of Keene and Peterborough.

R. W. HARKER.

Post Office Inspector's Office, Kingston, 20th March, 1874. P. O. Inspector. 12-3in.

Valuable Farm FOR SALE.

Will be sold under and by virtue of a power of sale contained in a mortgage, which will be produced on the day of sale, at the Court House Peterborough, on Saturday, the Eleventh of April, 1874, at 12 o'clock Noon, by Alexander Moffatt, Auctioneer, Lots number Seven and Eight, in the Twelfth Concession of Chandos, containing 186 Acres more or less, situated within Three miles from Chandos P. O., Forty acres cleared, watered by a small stream, log house and barn on the premises.

TERMS, ten per cent on day of sale, balance within one month, or if required a portion of the purchase money may remain on Mortgage for a term of years.

For further information apply to D. W. Dumble, Barrister Peterborough, or to the Auctioneer.

DUNCOMBE & MATHESON
Barristers Etcetera,
Dated this day of March 1 Peterborough. 13-tf.

WANTED

A Strong, Well-Educated Boy to Learn the Printing Business,

Apply at the

"EXAMINER OFFICE."

March 20th, 1874.

NEW ADVERTISEMENTS.

25th March 1874. 13-3in.

HURON TRENT VALLEY CANAL.

A Public meeting to consider the Petition to the Legislature for the incorporation of a company to construct the Huron-Trent Valley Canal, on

Thursday April 2nd,

At 7.30 p. m. will be held in the Music Hall.

(Signed) GEO. A COX,

March 15th 1864. 13-tf Mayor.

Peterborough Examiner.

PETERBORO', MARCH 26, 1874.

Maple Leaf C. Club.

A meeting of the Maple Leaf Cricket Club will be held in the Band Room, Bradburn's Block, on Wednesday, 1st April, for the purpose of electing officers for the ensuing year. All parties wishing to become members will attend or send in their names to E. Bradburn, Secretary.

Livingston.

The great African explorer is really dead. His body has arrived at Aden on the east coast, to be removed to England.

Prorogued.

The Local Legislature was prorogued on Tuesday. The Lieut.-Governor gave his assent to all the Bills passed. No less than 92 in all.

Trust Society.

This society holds its annual meeting to-night in the St. Andrew's Church, commencing at 7:30

Agricultural Implements.

Mr. E. E. Bowie has opened an extensive Stock of Agricultural implements at his agricultural warehouse, south of the English Church—Peterborough.

The Weather.

An exchange says that we have more than our usual quantity of weather this season. Assuredly there has been more than the usual changes in the weather. Nearly one every day.

Town Matters.

Mr. Scott, Town Solicitor, recommended issuing Mr. Bradburn for damages, and also to compel him to put up the new Town Hall on the Market block. The matter was referred to him for advice.

Personal.

Messrs. Hall and Bertram, the members for this county left on Tuesday for Ottawa. The House will open to-day at 3 o'clock.

Mr. Read,

Member of the Local House, returned home on Tuesday from Toronto. He doesn't look much jaded.

That Shooting Case.

On Friday the Town was up in alarm on account of a report that a young man named Carter had attempted to shoot Mr. Croft and a man named Chapin, who stops at Phelan's Hotel. Proceeding to the Police Magistrate's office we found Carter on trial, and elicited the following facts: Carter had been in Phelan's hotel on Sunday and got several drinks. For some reason or other (it is said a quarrel) he informed the License Inspector, who summoned up Mr. Phelan for selling whiskey on Sunday. Chapin met Carter through the day and offered to shake hands with him, but carter had been warned of an intention to mob him for informing, and had provided himself with a revolver. He refused to shake hands with Chapin, but was followed up towards Dr. Taylor's Drug Store. He then told Chapin to take care, and pulled out and showed a revolver. A crowd by this time gathered round, Chapin, it is said, still following Carter. Carter then told him if he did not stay back if he pulled the trigger he would shoot him. Chief Constable Johnston hurried to the scene, when a general stampede took place, Carter going to Mr. Johnston's house and there awaited him, giving himself up. Chapin went and obtained a warrant for Carter, and on the above facts as near as can be ascertained. Carter was committed to take his trial for threatening to shoot with intent of doing bodily harm, but bail was accepted. A part of the result is Mr. Phelan was fined $20 and costs for violation of the liquor law. Whiskey again at the bottom of the whole affair. But what evil is there of which that is not the root?

To the Point.

An exchange says: "Compare the publisher of a newspaper, who has to go all around the country to collect his pay, to a farmer, who sells his wheat on credit, and not more than a bushel to any person. If any farmer will try the experiment of distributing the proceeds of his labor over two or three counties, with an additional one to two or three distant States, for one year, we will guarantee that he will never, after that year's experience, ask a publisher to supply him with a paper a year or two without the pay for it.

The Wheat Market

In Toronto remains unchanged.

Reciprocity.

The Honorable George Brown is on a mission to Washington to endeavor to effect a favorable Reciprocity Treaty. He has been selected by the Imperial Government, and the wisdom of the appointment cannot be disputed Mr. Thornton, British Ambassador to washington has telegraphed for Mr. Brown to proceed at once to that city to watch Canadian interests. We need not fear that he will sacrifice them for personal honor or reward.

Landlord Tyranny in England.

Four agricultural laborers, of whom three are well known delegates of the National Union, have been committed for trial by the Pewsey magistrates on the charge of riotously assembling, after being cautioned by the police that their were illegal. The accused were liberated on their own recognizances.

West Durham.

Mr. Burke, Reeve of Darlington, has been selected as the Reform candidate for West Durham, in the place of Mr. E. B. Wood, who has received the appointment of Chief Justice to Manitoba.

Napoleon the 4th.

Chislehurst was lately the scene of a grand fete on the occasion of the son of the late Emperor of the French retaining his majority, in reference to affairs in France, now about to be referred to a *plebescite* or vote of the people. He said he was in favor of it, and ready to accept it. Marshall McMahon is still loyal to Bonaparte family.

Riel.

Bishop Tache has published a pamphlet on the amnesty promised Riel. We may hope to get at this difficulty soon. The admirers of Sir John do not deny a verbal promise. What *they say is*, it was not committed in writing If Sir John hopes to rise from his own ashes, it is not by such subterfuges as this. Should not the word of the Premier of Canada be as good as his writing, even his oath.

Burglars

Are still at work in different parts of Ontario. They may visit Peterboro.

The Speaker of the Commons.

An exchange says that it is now stated upon good authority that Mr. Anglin will be speaker of the next Parliament. The argument in support of this statement is the fact in the arrangement of the benches Mr Anglin's name is entirely omitted.

Appointments

An extra of the *Official Gazette* issued on Wednesday, gives notice of the appointment of the Hon. R. W. Scott to the Senate, *vice* the Hon. Samuel Mills, deceased; of Mr. E. G. Penny, of the Montreal *Herald* to the Senate, *vice* Hon. James Leslie, deceased; and of the Hon. E. B. Wood, as Chief Justice of the Court of Queen's Bench of Manitoba.

The present Opposition

Is exemplified in this way by two sons of Africa, who were discussing politics: "Sambo," said one, "what's all dis yeah talk about de guberniment an' opposition? I can't git dat froo my wool." "Well, Johnsing," replied the other, "s'pose dar was a trough full eb corn, an' a drove of mules cum 'long an' commenced to eat it, dat's the guberniment. An' den after a while a lot horses, an' cows, an' hogs, was to come dat way an' try an' crowd out de mules—dat's de Opposition."

The Steamer "Norseman"

Will commence her regular trips to Charlotte on the first of April, leaving Cobourg at 7:30 a m., and Port Hope at 9 o'clock.

Our Railway.

Col. Chamblas, we regret to hear, is not very well, the result, we fear, of his severe wounds during the American war. He will in consequence, be compelled to go to a warmer climate for a few weeks. But upon his return our Railway will be pushed through to Peterboro as fast as men and money can do it.—*Cobourg Sentinel.*

The Budgets

Of the Cobourg Harbor still commenced immediately, in preparation for improving the Cobourg Harbor by the Ottawa Government.

Barley.

Canadian Barley sold in Chicago last week for $2.55 per bushel.

Mr. T. Chisholm,

A merchant of Chicago, became embarrassed through grain speculations lately, and lost everything he had. He made another attempt to rally his fortune but fortune frowned on the attempt. Shortly afterwards he went to New York, and it is believed in despair drowned himself. His body has been found. He was a man of great energy and generally sound judgement, but over-reached himself in his desire to make money too fast.

North Hastings.

A complimentary dinner was lately given to Mr. O'Flynn, who so nobly contested that riding against Mr. McKenzie Bowell. The affair was a grand successes. Mr. O'Flynn deserves praise for his noble fight, and for reducing the majority of 200 in 1872 to 90 in 1874. Mr. O'Flynn is a Protestant, perhaps an Orangeman, notwithstanding these things. The other faction stated where he was not known that he was a Catholic so as to influence Orange votes. How vile?

Personal.

P. Pearse, Esq., has removed to Norwood, at which place he is now a citizen. Letters addressed to him there will find him readily.

Prison Labor.

For many years it has been felt that committing persons to jail and to hard labor was a mere farce, as there was nothing for prisoners to do in county jails except to cut their own wood and keep their own fires going. Under the Sandfield Government, a central prison was determined on, with a view to mend this state of things, and with a view to providing labor by which convicts might be compelled to earn their own living, and not be supported even in prison by the people. The wisdom of the course is admitted by all right thinking men. The central prison at Toronto will be ready for its occupants by July next. The Government, too, has made arrangements for utilizing their labor, at the rate of fifty cents per day. Those committed will therefore be able to support themselves, and a little more, besides being compelled to work, instead of loitering in jail yards and cells clothed and fed by the very people against whom they have offended. Notwithstanding this wise and beneficial arrangement, the Conservative papers are decrying it. The Cobourg *Sentinel* calls on mechanics to think of it. Mechanics would do well to think that heretofore they were taxed to pay jailors and turnkeys, and build jails, &c., and to maintain and retain a worthless set of creatures who were too lazy to work and ashamed to beg, and hence lived by plunder when at large. Hereafter they will be compelled to support themselves, and put a little to the credit of the state. The *Sentinel* should be ashamed to use such clap-trap as arguments in favor of a cause that has sunk under the weight of his own incapacity to meet the wants of the State, and its unfitness to battle with any principle except selfishness, and retention of office.

The one song Party.

The Opposition at Toronto are just about "played out," to use a common expression. The only song Messrs. Cameron, Lauder, and Rykert could attempt was one that will never become popular, that of anti-half-holidays to workingmen. They succeded in setting it to a very indifferent air, and the result is that it is not meeting with public favor. They may hang their cracked jews harps up for a year longer. When the time comes to test its popularity they will find that the working men won't play to their time. It cost Ontario over $6,000 to get it printed in the windy speeches of the quartette.

CONSERVATIVE PRINCIPLES.

The last number of the Bobcaygeon *Independent* contains the following contemptible threat under the head of "Haliburton," in a kind of semi-correspondence. We would not dare to insinuate that a single honest Conservative defends such a course:

SIR,—The Judicial District agitation is still kept up here, and great dissatisfaction is expressed at the turn things have taken. The movement was obviously intended solely for the purpose of rewarding Peck, whose recent Bankruptcy placed him in need of pecuniary help, and whose sudden change in politics entitled him to political reward. But no one ever supposed that the Government would be so utterly dead to all sense of shame as to take a store keeper out of the Insolvent Court and clap him straight on the Judicial Bench. Nor has Government made a greater mistake than the officers of the English Company who have evidently been consulting their own, not the Company's interests. They have taken an active electioneering part, and even the Company's horses were used at the last election and kept at work at electioneering, and as a natural consequence the Company though supported by one side has excited the bitter animosity of the other. A vigorous effort will be made to increase the taxation of the Company as a punishment, and should the party now defeated obtain power the English Company will have little mercy shown them. In writing this I am giving expression to the feelings, I believe, of every one on the beaten side, and for the future no opportunity will be lost by them of obstructing, opposing, and punishing the Company. It is but just that this sould be known, and for myself I consider it only fair, for if Corporations, like the English Company, take an active and unscrupulous part in politics, they must not shrink from the consequences. At the same time it is deeply to be regretted that the Company's representative should have taken such a course. The best thing the Company can do is to throw up the sponge and give the land back to the Government, for now that it has fairly got into politics its chances are hopeless.

Passing over the personal abuse of Mr. Peck, which, by the way, is really beneath the journalist, and this the more when it will be seen that this quada correspondent assumes the role of a Conservative; while we could point to scores of insolvents placed in office by the late Sandfield Macdonald, and by John A. Macdonald. Indeed, it might be found that the correspondent who launches into such personalities against Mr. Peck has some other person standing between himself and the officers of the law and justice.

But inasmuch as we do not know the parties, we cannot be considered personal.

The most contemptible feature of the whole is the threat to increase the taxation of the Company as a punishment for some of the officers of that Company taking part in the late election contest. Would the Conservatives deserve a man of his inalienable right to vote for whomsoever he pleases? Is it come to that pass that for fear of persecution a man must vote and not contrary to his sense of right and to the best interests of the county, because forsooth some unprincipled creature attempts intimidation or punishment by honored families. If threats and vengeance are to take the place of law and equal rights good bye to liberty and honor and justice.

But mark the cause of this iniquitous threat: "*In writing this I am giving expression to the feelings, I believe, of every one on the beaten side.*" Here in the whole matter Are Conservatives so lost to justice and fair play that no man shall dare to vote against them under fear of tyranny to his personal property or to his person. If this is so, then the sooner it is known the better, that all right thinking men may unite to frown down sentiments so completely at variance with the rights of every elector and repugnant to the higher instincts of every true citizen, and subservive of good Government. The agent of the Company, Mr Blomfield, is a Conservative, —what is known as one dyed in the wool. He did not and could not conscientiously support a Reform Government. He was not in the back country during the elections, nor do we believe that he used his influence to aid the election of Mr. Hall, although he had a perfect right to do so if it pleased himself, without the impudent dictation or threats of unprincipled demagogues. If any one under Mr. Blomfield did work for Mr. Hall, it only goes to show that Mr. B. did not seek to exercise any influence to the contrary, which should command praise rather than condemnation. We have no interest in defending the company or its agents, but as lovers of fair play and equal rights, we condemn the use of a journal to injure any man on account of his political views, or because of his having voted for this candidate or party or that one—and this case deserves the greater condemnation, as the evident object is to injure Mr. Blomfield because of the acts of some one over whom he would not, did not, and should not attempt any influence. The writer in the *Independent* will be found to have very little stake in the back country or he would frown down threats of recourse to unjust means to compel support. If the Conservative cause cannot command the support of the electors, resort to injury to person or property cannot enforce or secure support, especially in a country where every man has an inalienable right to vote for whatever party he may dispose. And in that Mr. Blomfield did not seek to interfere with the officers under him—he deserves the highest praise instead of censure.

OYSTER SUPPER TO MR. BERTRAM'S TOWN OR CENTRAL COMMITTEE.

The evening previous to the departure of Mr. Bertram and Mr. Hall for their legislative duties at Ottawa was made the occasion of an oyster supper to Mr. Bertram's Central Committee. Mr. John Ludgate, during the election campaign, while in committee discussing the probable results in the Town, was told by several young men that there would be a Reform majority. As this had never been the case previously, Mr. Ludgate said that if the committee secured a majority, after the election he would treat them to an oyster supper. It turned out that there was a majority in Town of one, at least sufficient to satisfy Mr. Ludgate that he must carry out his promise, and the evening before the members left home for Ottawa was considered the most opportune.

The supper was provided by Mr. R. Roddy now proprietor of the Stewart House, and right well did Mr. R. meet the expectations of all present. The whole was got up in a manner reflecting credit on him and affording a guarantee that he will provide good fare for travellers selecting the Stewart House.

The large dining room, extending from Hunter Street completely across the building was filled, and yet there was not room at the first tables. Mr. A. Smith presided. On his right were John Bertram, Esq., M P., and Mr. Ludgate. On his left, Jas. Hall, Esq., M. P., Mr. Moir, and Mr. Wm. Hamilton. Mr John Moloney and Mr. Dumble occupied the vice chairs.

After removing the cloth (not literally) the usual loyal toasts, The Queen, The Prince and Princess of Wales and Royal Family, and the Governor General and Lieutenant Governors were given from the chair and received as only Reformers can do these things. After The Queen, Mr. Gallelly sang the national anthem, and after the Governor General, &c., Mr. Ball sang an Irish air. Mr. John Moloney then proposed the Army, Navy and Volunteers in fitting terms. Mr. Lieutenant Dixon ably responded.

Mr. Dumble gave the House of Commons and Local Legislature, during which he took occasion to refer to the Commons of England as the firm advocates of the rights of the people ever since the *magna charta* from John, till the present, and as the Commons of Canada was an outgrowth of the English House, we might safely leave our political rights in the hands of our representatives in the Commons in the Dominion.

Mr. LePoint sang the Marseillese hymn

Mr. Bertram responded. After referring to the occasion of their being met together, and to the noble army who be done veteran duty for him in the last campaign, and referring to the blending of Englishmen, Irishmen, Scotchmen and and Frenchmen in the work of reform, he did not now wonder that he was elected. He was going to Ottawa to carry out their wishes, for he felt that it will be/cause his own views and those of a majority of the electors were in accord that he had been elected. He did not hope, nor need any one hope, to get his own way in everything, but he would try and get the nearest thing to it and he hoped to be always found on the side of equal rights and justice to all.

Mr Hall also responded on behalf of the Commons, congratulating the Committee on their success as well as the success east of the river. Reformers had long contended for the rights of the people and step by step had gained, until now in Canada they had attained to the control of her legislation, and he felt sure they would wisely use their position and power for the welfare of the country and the people.

Mr. Edmison gave the "Dominion of Canada," referring to its progress, the extent of its natural and mineral and mercantile wealth, and to the bright future that is in store for her under a wise and enlightened and Liberal policy.

Mr. Elder responded to this toast in an excellent speech, recounting the advantages of soil, climate, sources of wealth, extent of territory and means of water and railway communication, and predicting a glorious future for our young Dominion.

Mr. Quincey sang, "The Maple Leaf forever."

Mr. Stratton proposed The Young Reformers of the Dominion, recounting their youth and energy, their hopefulness [illegible] their adaptability to [illegible] the glorious principles of Reform from ocean to ocean.

Mr. Taylor, Mr. Quincey and Mr. M. Hall responded to this toast, each of them charming Mr. Bertram as a young man and expressing their confidence in his ability and integrity to represent their interests in the Commons.

Mr. Moir gave the Learned Profession. Mr Dumble briefly responded.

Mr. Dumble gave the Mercantile and Manufacturing interests. Messrs. Duran, P. Hamilton, R. Moir and W. Hamilton responding for their several branches of trades, &c.

The Ladies and the Press, although last, are not least in their influence on the country, were duly honored.

Mr. Bertram then proposed the health of Mr. Ludgate, who had been the innocent cause of that great meeting. This was received with continued cheers.

Our Host and Hostess concluded the sentiments of the evening, which was pleasantly spent.

Messrs. Galletly, Millar and Quincey sang several appropriate songs during the evening.

Mr. Roddy succeeded in pleasing every one present and all separated, each one, no doubt fully pleased with the part he had taken in the election and determined to continue to maintain the good old reform principles which had led them to victory.

NORTH MONAGHAN TOWNSHIP COUNCIL.

February, 23th, 1874.

The council met pursuant to adjournment. All the members present. The Reeve in the chair. Minutes of previous meeting confirmed.

A petition was received from Mrs. Scot asking to have her house situate on S. W Corner of Lot 1, in the 11th concession of the Township, licensed as a tavern for the present year. Referred to the license Inspector. The following appointments were made under Bye Laws 217 and 218 which were finally passed overseers of Highways. W. Lockie, W. Laing, Geo. Hosey, G. Birney, J. Bennett, W. Spilsbury, U Payne, C. Brasly, I. Lillico, T. Beavis, O. Currain, C. Leary, J. Brown, W. Brownscombe, J. Whitfield, R. Goodfellow, Capt. Dundass, R. Dunlop, Geo. Young, W. Tully, W. Collins, R. Lillico, M Walton and M J. Johnston.

Pound keepers, J Tully, W. Laing, J. Brown, F. Bradshaw. Fence viewers, J. Howden, R. Nonthcott, O. Currain, C Brasly, G. Young, I Lillico, G. Lockie, R. Patterson, R. Thompson, J. Hughes G. Hosey, and J. Campbell.

The township accounts for 1873 were finally audited by the council, and 100 copies of Detailed Statement ordered to be printed for distribution.

On motion of Mr. Brownscombe seconded by Mr. Robson, the clerk was directed to write to Mr. John Dobbin informing him that unless certain fences were removed the council would have it done at his expense. Orders on Treasurer, W. Best for $12, for stove for Town Hall, S. J. Carver and J. Edwards, Esqrs., for $3 each, for services as Auditors of town ship accounts for past year.

On motion of Councillor Brownscombe the council adjourned to the 15th of May then to meet as a Court of Revision on the Assessment Roll, and for other township purposes.—COM.

TOWN COUNCIL.

The Council met on Monday 23rd inst, Present His Wordship the Mayor in the chair. Messrs Toole, Beal. Denne, Robertson, Hopkins, Romaine, Helm, Hamilton. Rutherford.

The minutes of the last meeting were read over and confirmed.

Communications were read from W. Cayley, Auditor of Ontario, in reference to the distribution of the Municipal Loan Fund to portions of Smith, Monaghan and Douro, annexed to the Town and enclosing a blank certificate to be filled with the population annexed.

From W. H. Scott, Town Solicitor on the matter of the Town vs R. C. Smith, enclosing an agreement between the parties.

From the same giving an opinion as to the matter submitted to him by the petition of Elias Burnham and others asking the Council to compel Mr. Bradburn to erect the new Town Hall on the Market Square in compliance with his lease. Referred to the Town commissioners.

From J. B. McWilliams asking the Council to repair the side walk on Brock Street opposite his dwelling as he wishes to make improvement. Referred to the committee on Streets and Bridges.

From George Hilliard Esq., in reference to the sum of $40 granted to Mrs. Bird, and asking to give her the same without restriction.

From Ivan O'Beirne secretary of the Board of School Trustees inclosing copy of a resolution passed in the Board asking the council to appoint a "Truant" officer. Received.

Moved by Mr. Beal seconded by Mr. Toole, that the Treasurer be instructed to pay the amount of the Bill from the General Hospital Kingston in full, if correct, for the care of James Metheral, and to inform the Steward of that Institution that the Town will not be responsible for any further amount incurred in this behalf.—Carried.

Moved by Mr. Toole, seconded by Mr. Beal—That the motion passed by this Council on the 12th of January, 1874, appropriating a further sum of $20 to aid Mrs. Bird in purchasing a lot of land providing the title would revert to the Town after her death, which condition she feels unable to comply with, be it therefore resolved that the above motion be, and it is hereby rescinded, and that the sum of $20 be paid by the Council to George Hilliard to be expended by him in aiding in the construction of a house for Mrs. Bird, without conditions.—Carried.

Mr. Rutherford as chairman of the Charity Committee, read and submitted a Report, which on motion was received and adopted, showing that the expenditure to 1st inst. was $306,75.

Mr. Beal as chairman of the Finance Committee reported—With reference to the communication from Messrs. Dennistoun, Bros., & Hall asking the Council to relieve the Auburn Woolen Manufacturing Company from the bond of the John Sheddon, Esq., of Toronto, and accept in lieu thereof the Bond of late aforesaid Company. We would not recommend the Council to adopt such a course, as we consider it would be unfair to be giving up the [illegible] of the Bye-law of the Auburn Woolen [illegible] favor of accepting [illegible] of the late John [illegible] of the Stockholders of [illegible] that in the event [illegible] that the Town [illegible] the Engine [illegible] John [illegible] ambers [illegible] ting [illegible] of [illegible]

Shortly & Hamilton's account of $9.00 for work done in repairing hose.

Your committee cannot recommend the payment of Messrs Robertson & Walsh's account for printing, as they can find no evidence of an order given to them for inserting the advertisement for which they charge.

In regard to the complaint of Justus Dunn of overcharge of Taxes. Your committee find that no wrong has been done to Mr. Dunn, as the property was assessed at the same value as the two preceding years, viz., $2,100 and that the the duis left by the assessors of $2,000, wasfilled up by mistake

Your committee cannot recommend compliance with the request of Mrs. Ware, asking for the return of Taxes paid on Bank Stock, as all assessment for such stock not struck off by the Judge has been paid. All of which is respectfully submitted.

The Report was adopted.

Moved by Mr. Romaine, seconded by Mr. Hopkins, that in view of seeing the necessity of attending to the interests this town feels in the projected Ontario and Quebec Railway, a deputation be appointed to go to Ottawa to consult in conjectare with our Dominion members with the parties now about to meet there for the purpose of furthering the object mentioned, and that the Mayor and Mr Scott be that deputation.

The Council then adjourned for two weeks.

A PROPOSED PETITION IN REFERENCE TO THE HURON-TRENT VALLEY RAILROAD.

To the Honorable, the Senate of the Dominion of Canada.

To the Right Honorable the Earl of Dufferin, Governor-General of Canada, &c., &c.

To the Honorable the House of Commons of Canada:

The petition of the undersigned humbly sheweth—

That, from the greatly increasing trade of the far West, and the necessity for opening up other avenues for its transports, your petitioners, with others who have agreed to join them, desire to form themselves into a Company to open up and render navigable by canals and locks the line of inland waters between Georgian Bay and the Bay of Quinte, with power to impose reasonable tolls to reimburse the cost of the work, and generally with full corporate powers to complete and utilize such line of navigation.

That the aforesaid interior line of navigation has been repeatedly surveyed and favorably reported on by eminent engineers employed by the Government, and that the construction of impressive works under appropriations voted by Parliament towards the completion of the said line was amended and provided with provisions to the union between Upper and lower Canada. That since that time for various public reasons the persecution of the work has not been passed as a public work.

That the reasons which existed at those early times for the construction of these works have been increased ten fold from the great volume of trade seeking an outlet eastward to the European Market.

That much explanations and a more thorough knowledge of the country from the operations of lumbermen through the northern parts have established the important fact that there is an enormous supply of water from lakes, natural reservoirs and rivers to the north of the proposed line of navigation, which could all be utilized at small expense so as to preserve and keep up a constant supply of water for the purpose of navigation.

That your petitioners think that for the reasons aforesaid this great national work should not be longer deferred, and they are willing to undertake as a Company in connection on such terms, with such powers, and subject to such conditions as your humble House shall be advised to grant and dictate.

Your Petitioners, therefore, pray that an act be passed to incorporate your petitioners and others under the name of "The Huron-Trent Valley Canal Company," and your petitioners will ever pray.

March 25th, 1874.

Musical and Literary Entertainment.

The social, music and literary entertainment in the Wesleyan Sabbath School room on Tuesday evening was very successful. The programme was a good one and well carried out. Miss Matthew deserves especial praise for its success.

The Choir, under the management of Mr. Joseph McClelland rendered valuable aid in carrying out the programme

Mrs. Fowler, Mrs. Chambers and sister, and Miss Bletcher also added much to the entertainment by singing several pieces, as also did Mr. Shepley, who sang the "White Squalls with great effect.

The reading by Mr. Rose was very good. "Beautiful Snow," by F. C Taylor, was a beautiful selection and beautifully rendered. 'Eugene Arams' Dream.' by Mr. W. H. Scott, and a portion of "Hiawatha," by the Rev. Mr. Macleenan were well rendered, both of these gentlemen being gifted with clear delivery and rare advantage in elocution. Mr. Quincey sang "The Pilot." Mr. Quincey's singing always elicits applause. The national anthem by the choir, concluded the programme. Mr. J. Coyle Brown, by request, gave a reading during the first part. The "Bachelor's Dream." Mr. B's reading was humorous and well received.

THE RESULT OF BRITISH ELECTIONS.

The *Spectator* calculates the exact result of the elections, now complete, to be as follows:—

ENGLAND.

	LIB.	CON.	TOTAL.
Counties	27	145	172
Universities	1	4	5
Boroughs	145	137	282
Total, England	173	286	459
Conservative majority in England, 113.			

WALES.

Counties	6	9	15
Boroughs	13	2	15
Total, Wales	19	11	30
Liberal majority in Wales, 8.			

SCOTLAND.

Counties	17	15	32
Universities	1	1	2
Burghs	24	2	26
Total, Scotland	41	19	60
Liberal majority in Scotland 22.			

IRELAND.

Counties	66	32	
Universities	—	2	
Boroughs	[illegible]	—	
[illegible]	[illegible]		

MIDLAND RAILWAY.

In the Local Legislature on Saturday last, Hon. Mr. Crooks moved that this House doth ratify the Order in Council, approved by His Excellency the Lieut.-Governor on the 17th day of March, 1874, with reference to the Midland Railway Company, which Order is to the following effect:—

The Committee of Council have had under consideration the memorandum of the Honorable the Treasurer, dated the 14th day of March, instant, with reference to the application of the Midland Railway Company, for grant of aid from the Railway Fund for the portion of its line between Orillia and Midland Bay.

The Committee advise that, subject to the ratification of this Order in Council by resolution of the Legislative Assembly (in default of which ratification this Order in Council is inoperative), payment be authorized to be made out of the Railway Subsidy Fund to the Company of the sum of $216,70 per mile for that portion of the line between Orillia and Midland Bay, such sum to be payable by even half-yearly payments of $109,35 each on the 30th day of June and the 31st day of December in every year during the period of 20 years, to be computed from the 1st day of January, 1872, and to the full end thereof, or in one sum of $3,250 per mile, should His Excellency in Council see fit, and that such payment be made on fulfilment of the requirements of the Railway Aid Act.

The Committee further advise that (subject to ratification of the Order in Council as aforesaid) payment be otherwise authorized to be made to the Company, in lieu of the first mentioned grant at the rate of $257,88 cents per mile of the said portion of their railway by even half-yearly payments of $128,79 each, payable as aforesaid during the period of 20 years, to be computed from the said 1st day of January, 1872, and to the full end thereof, or in one sum at the rate of $2650 per mile, should His Excellency in Council see fit, upon condition that the Midland Company do on or before the 1st day of July next, enter into an agreement satisfactory to the Grand Junction Railway Company for the haulage of its freight and passenger cars for through business over the Midland Company's line of railway from the point of junction at Lindsay or south-east of Lindsay to Midland Bay, or upon terms to be settled by arbitrators to be appointed by the Lieutenant-Governor in Council, in case the two companies should fail to agree upon the terms of such arrangement.

Your Committee further advise that payment be authorized in respect of any portion of the said railway, not less than twenty miles in length, on the fulfilment of the conditions of the said Act as to such portion, and on proof to the satisfaction of the Lieutenant-Governor in Council of the existence of a *bona fide* and sufficient contract for the completion of the works on the remainder of the line between Orillia and Midland Bay."

He explained how the former Order in Council granting aid to this road had fallen through, that it had been subject to certain conditions which had not been carried out. These conditions were that the Company should give running powers to the Grand Junction Railway over a section of their line, but the Company afterwards refused to do so.

Mr. Boulton looked upon the Order in Council as breaking faith with the Midland Railway.

Hon. Mr. Mowat defended the course of the Government, showing that it was impossible for them to enforce the conditions of the original Order in Council.

After some discussion the resolution was carried.

SUICIDE IN TORONTO.

A FOOLISH BELIEF.

A suicide of almost unparalled coolness and determination was committed on Saturday night last, about seven o'clock, in this city, by Mr. Israel Newman Winstanley, barrister, for some time past residing in Toronto. The act was committed at the office of Messrs. Reeve & Platt, barristers, No. 18 King street east. The following facts were disclosed at the Coroner's inquest which was held yesterday at the office of Mr. J. E. Robertson, which adjoins that of Messrs. Reeve and Co. The coroner was Dr. Riddell, and the foreman of the jury, Mr. J. T. Smith.

Mr. Reeve produced the following letter which deceased had left for him at his office:

"TORONTO, 21st March, 1874.

"My Dear Reeve,—

"I have often expressed to you my opinion that as soon as it became a burden to himself and of no use to any one belonging to him, a man had a perfect moral right to divest himself of that life which has been bestowed upon him without his consent or concurrence. My life is to me like the gift of a white elephant. I cannot keep it, and if I could I do not know what to do with it; consequently, whether it offends the (unknown) King or not, I am about to dispose of it. I must beg for your forgiveness for having fixed upon your office as the place to draw my last breath; I have fixed upon it as being the most convenient, inasmuch as after you have left it for the evening, I shall not be likely to be interrupted.

"Having some hours left before the time I have appointed for carrying out my intentions, I shall devote them to the consideration of my feelings on approaching what is facetiously called King of Terrors, and shall place them on record here. I have fully made up my mind on the matter, and I now tell you what I have often told you before, that I have not the slightest fear for the consequences hereafter. Of course, my first thought is, am I right or wrong in taking away my life when I have a wife and family whom I ought to support? My answer is, that not having been able to assist them for a long time, and seeing that there is no prospect of

INDIGNATION IN PITON.

We find the following in the Kingston *News*: Picton, March 12.—Great indignation is expressed here by the church people on the Bishop of Ontario sending the Rev. E. Loucks to be rector of this parish, the same being done in the face of a petition signed by nearly every church member of Picton in favor of Mr. Lewis, the present curate. The injustice of this appointment is more apparent as the people pay for the rector, but have no choice of the person. An invitation is to be extended to Dr. Gallagher to lecture here on the Reform Church movement in consequence of the above decision.

SAD AND SUDDEN DEATH.

On Tuesday afternoon last, Emma Arnold, aged 26 years, wife of Mr. George Arnold, of this town, closed her earthly career; and her death was of such a sudden nature as to cause considerable remark, resulting in the summoning of a jury by Coroner Christie to enquire into the cause of death. An inquest was accordingly held on Wednesday morning at Mr Arnold's residence—the jury being composed of the following gentlemen:—W. Windatt, foreman, Benj. Warry, Richard Phillip, James McClellan, James Chapman, John Rose, Thos. Bellman, Ed. Bellman, John Dunsheath, James Heal, Jason Stone, Wm. Nichols.

The evidence of witnesses—Mrs. Saml. Arnold, Mrs. E. Bellman, George Arnold, Dr. Davidson, and Samuel Arnold—showed that deceased was in good health on Monday, and washed some clothing. In the afternoon she went from the house and was gone a short time, and returned with blood on her hands; her sister-in-law eased her what she had been doing, and was answered, "nothing." Subsequently, deceased told of having used violent means and taken medicine to produce abortion. Dr. Davidson was called about eight p.m. on Monday night, and found deceased in a very low condition, suffering violently. Medicine was administered to relieve purging and cramps, but the patient continued to grow worse, and expired on Tuesday afternoon. The verdict of the jury was, "that deceased came to her death by using violent means to procure abortion."

Two young children are left motherless by the tragical occurrence.—*Bowmanville Statesman.*

A Dutchman was relating his marvellous escape from drowning when thirteen of his companions were lost by the upsetting of a boat and he alone saved. "And how did you escape their late?" asked one of his hearers. "I did not go into de boje," was the Dutchman's placid reply.

For the Peterborough Examiner.

THE DEATH OF AN EARLY SETTLER.

John Cameron, who settled in Asphodel, 1820, and died January 18th, 1874.

The winter and snow is all over the land,
Bedecking each object with fair jewelled hand
And nature's fair drapery enamels the eye,
Bejewelled with brilliance like stars in the sky.
Concerning this brightness in solemn array,
In a large mourning crowd slowly moving away,
And many friends follow the remains of their friend
To his last resting place to his life's journey's end.

Tread softly, walk slowly, though frosty the air,
Bear gently his body, though an spirit's there;
now lower the cords and fill up the grave,
Upraising your thoughts to One mighty to save—
Ashes to ashes and dust back to dust,
Till the trumpet shall call his soul with the just
On Pentecost hills with anointed once more—
Years threescore and ten was his pilgrimage here.

In the unbroken forest of lone Asphodel
The Cameron family name is to dwell.
Our friend just departed and one or two more,
The strange sturdy wilderness oft did explore,
Oh! thank of the joy and the heart thrilling love
Awe inspiring their minds to the Ruler above.
As each day's outgoing unfolded to view
Some deep wonderful secret marvellous and new.

In the dark stilly glades of the primeval wood,
Where the ash and the maple in rivalry stood;
From the high reaching pine to the low-spreading Lunk,
All, all in the freshness of nature's first bloom.
In the far distant wood a new echo woke.
The nimble deer ceased not its prime, sturdy stroke,
Causing the wild beasts in hiding to keep
While wolves' dismal howlings hills fired once to sleep.

They marched to the frontier with musket in hand
When overseas neighbors invaded the land;
But just as his hopes were filling his heart
Came the dark-robed angel, bidding them part
With a father beloved, who in Jesus did die,
Leaving his eldest his place to supply.
And mighty he did it, no selfishness grew
Round a heart ever generous, kindly and true.

His greeting to all was humorous and free,
His wit only equalled by sharp repartee—
Conflicting your theory for argument's sake,
Your blunt into stoker his reasoning would make.
As member, he ever was zealous and kind,
Improving old training the youthful mind.
He spent his best years, his life's mother sunset,
Many blossoms and flowers he passed by spent.

In Chemistry's laws few him could excel,
For into the midnight his neighbors would tell
Of nitrate and acids, chlorides and gas,
Or, soaring still higher, to Astronomy pass.
In political strife he knew such calm and storm,
From the P. Seminal to McKenzie's Reform.

He lived just to see his own cherished land
Remove her banner from robbery's hand.
And oh! it was worth years of suffering and pain
To witness the downfall of *Sir John A.'s mad reign.*
Back to the mane ship 'er Atlantic proud wave.
Came, and their best interests to Canada gave,
One fell down disgraced from his high niche of fame,

The other went up to receive a new name

ELIZABETH BECKET.

Chemahra, March 19th, 1874.

By-Law No —

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls or some other point northward or north eastward of Bobcaygeon.

WHEREAS the Corporation of the Town of Peterborough have resolved to grant aid by way of bonus to the Cobourg, Peterboro and Marmora Railway and Mining Company, to assist them in extending their Railway northward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars upon the terms and conditions hereinafter mentioned.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario, passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such by-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of so much of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls as commences at some point northward or north eastward of Bobcaygeon by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said Corporation for the said sum of Eighty Thousand dollars, each Debenture to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2 That the said Debentures shall be made payable in twenty years at farthest from the time or times when they may be respectively issued as hereinafter provided.

3. That the said Debentures shall bear interest on the rate of six per cent. per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other sums, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg Peterborough and Marmora Railway and Mining Company or to whomsoever they may appoint to receive the same in the manner at the times and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Cobourg to some navigable point on Chemong Lake and provided that it be so completed and in running order by the first day of July one thousand eight hundred and seventy-five, and another portion thereof, namely, to the amount of the sum of Twenty Thousand dollars to be issued and delivered to the said Company when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Bobcaygeon provided that it be so completed and in running order by the First day of July one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, or to some other point northward or north eastward of the said village of Bobcaygeon and distant twelve miles therefrom providing it be so completed and in running order by the First day of July, one thousand eight hundred and seventy-seven. Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned. But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall not become payable as provided by this *By-Law*, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of January, one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this *By-law*, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end.

6. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

7. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the THIRTY-FIRST day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the wards of the Town at the places of polling therein respectively at the last Municipal elections, that the poll shall be opened at nine o'clock in the forenoon and closed at five o'clock in the afternoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jas Edwards for the Second Ward, Jno. Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The 31st day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein of the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough Examiner newspaper the date of which first publication was on Thursday, the Fifth day of March, one thousand eight hundred eight hundred and seventy-four

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL

Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of *six* of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, PERLEE, N. Y.

And NORTHROP & LYMAN, Newcastle, Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. *C. Brittos, Lindsay,* and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1.00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. *C. Brittos, Lindsay,* and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpasses in the history of medical preparations, it seldom fails to cure *Dyspepsia, Liver Complaints,* Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by sufferine and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and as last superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Brittos, Lindsay, and all Medicine Dealers.

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND CALISAYA is the best tonic in use, because it is the most physiological, being composed of ingredients absolutely essential to the development of the system. It speedily relieves indigestion, promoting a vigorous appetite and healthy nutrition. All cases of general debility, arising from wasting disease, such as consumption, scrofula, all diseases of the skin, diseases of the blood, prostration of the nervous system, caused by protracted mental exertion, anxiety, over-work, or bad habits, will derive immediate benefit from it, frequently beginning with the first dose. It is a delightful cordial to take, and its use may be protracted for an indefinite period, without becoming disagreeable to the patient.

TERRIBLE COMMOTION

at HYSLOP'S NEW CHEAP STORE IN WESTWOOD.

PEOPLE are daily flocking out the nearest ways to buy CHEAP TEAS, &c.

NO WONDER!

He is selling good mixed Tea for 40 cents per pound and splendid Teas for 45 and 50 cents, better than they need to have to pay 75 and 80 cents for. His special quality only costs that price. Black Teas of fine quality always on hand.

Always on hand No. 1 Labrador Herrings of finest quality.

His Cottons are a wonder. Good unbleached cottons 9 and 10 cents, yard width 114 and 12 cents, prints heavy 11½ and 12 cents, good flannel 25 cents. Prints 6 cents upwards. His stock of Woollen Goods must be cleared out at once to make room for new goods for Spring.

J. B. Hyslop having paid very high for buying the Tea Trade, specially, is thoroughly posted in the selection of the same and will not be at all inditferent to give his customers the best possible value for their money and guarantees satisfaction in every case. Call and examine his stock before purchasing elsewhere.

ONLY ONE PRICE! NO HUMBUG.

All kinds of trade taken in exchange for Goods at Hyslop's Great Tea Store in Westwood.

Official Report, Vienna Exposition, Sewing Machines, &c.

(SECT 13, SEC. 2 R.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 900,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is so regulated that each complete machine may be used as a sample for exhibition. This firm produces 650 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This universal machines sews the heaviest leather harness and the finest gauzes with a truly pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as others:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co operators received Medals of Merit for Superior Ability.

WITH a small Capital, to

The Old Man's Yesterday.

What is yesterday? Was it was yesterday,
It must have been yesterday morn:—
I stood on the bank of the River Bay,
Where the eyebrows of mayrtle.
Their silken bonnets had just unfurled
To the breeze by the singing stream,
When a vision of beauty, all golden curled,
Grew into my waking dream.

I knew it was yesterday,—ah, now
The rustle I seem to hear
As the tall ones parted right and left,
And a voice rang soft and clear,—
"Wait, Willie, wait! I am almost there,
I said I would grant your wish,—
So I've made a line of my golden hair,
And am coming to help you fish!"

Yes, why do I doubt?—It was yesterday,
For I see the soft tassel there
Seeming themselves in a worshipful way,
In the light of her yellow hair,—
While a voice rang merrily o'er the cove,
"Oh, Willie! come help me through,
For I am a maiden all forlorn,
And my feet are wet with dew.

"And you know I am coming to help you fish—
But you'll thank me a silly girl,
For I haven't a bit of bait—but, wish!
I'll bait with a tiny curl;
And, Willie, say—do you think they'll bite—
And then what shall I do?
I've got it off and pull with all my might!—
But I'll wait and look at you?"

Ah, me! ah, me! was it yesterday!
It seems but a day ago,—
Yet those silver years of yesterdays
Have whitened my head with snow
Since we sat in that sweetest of summer times.
I and my beautiful May,
Counting our love into wedding chimes
On the bank of the River Bay.

ODDS AND ENDS.

Poverty is no sin, it ever is it should not make one unhappy.

Custom may lead a man into many errors but it justifies none.

Love often re-illumines his extinguished flame at the touch of jealousy.

When is a young lady like a part of a wood? When she is a lilly belle.

When is an umbrella like a person of valorous? When it is re covered.

He is a good father who can lead his children to obey when out of sight.

Paradoxical:—The globe dealer is best satisfied when his stock is "on hand."

What constitutes the genuine trotter costume? The outskirts of civilization.

Young ladies use powder, perhaps, because they think it will make them go off.

Men like to see themselves in print. Ladies like to see themselves in silk and velvet.

Why are clergymen like railway brakesmen? Because they do a good deal of coupling.

When does rain seem inclined to be cautious? When its coming over a book stall.

Why is the letter S like the end of dogs? Because it is the beginning of sausages.

Why is a chicken just hatched like a cow's tail? Because it was never seen before.

A michigan man oils woman's rights by turning out eighteen thousand broom handles a month.

If a man talks of his misfortunes depend upon it they are not altogether disagreeable to him.

There would be a marvellous reformation if the world could throw open its iron gates to Love.

Conversation is vastly better than debate. The former evokes ideas; the latter evokes party spirit.

It is suggested that many wives do not appreciate the difference between housekeeping and home keeping

The Western girl who spelled euchre "you-cur," was evidently thinking of the bow-wow ere.

They say crocodiles do not really weep; we know a sailor, though, who has seen whale's blubber.

The best performing animal for the theatre is evidently the blindman's dog—he is accustomed to the "leading business."

A man who has travelled through New Jersey says he saw some land there so poor that you couldn't raise a disturbance on it.

What kind of a dram is that which is always best when it cannot be beaten? A conundrum.

Sam, why am de hogs de most inteligent folks in de world? Because dey nose everything.

O Brien, Indiana, boasts of weather "cold enough to make a polar bear wear arctic over-shoes."

The storekeeper that don't advertise, may well be compared to the man that carries a lantern, but is too stingy to buy a candle.

"Grandma, why don't you keep a servant any longer?" "Well, you see, child, I'm getting old now, and can't take care of one as I used to, you know."

A private in the army recently sent a letter to his sweetheart, closing with "May Heaven cherish and keep you from yours truly, John Smith."

A Western editor asks the following question: "If a fellow has nothing when he gets married, and the girl has nothing, is her things hisen, or his things hern?"

"No one would take you for what you are," said an old gentleman to a silly fop. "Why," was asked. "Because they can't see your ears."

"What comes after T," asked a teacher of a small pupil who was learning the alphabet. He received the bewildering reply: "You go—to see Liza."

A girl hearing her mistress ask her husband to bring "Dombey & Son" with him when he came home to dinner, set two extra plates for the expected guests.

"Building castles in Spain, Mr. S.?" said the landlady to Spicer, who was thoughtfully regarding his breakfast cup. "No, Ma'am," said Spicer, "only looking over my grounds in Java."

"Owing to John Robinson's circus being in town, the regular Thursday evening prayer meeting has been postponed," said a recent number of the Enterprise, Dallas, Texas.

"Shall I cut this loin of mutton saddle-wise?" said a gentleman. "No," said one of his guests, "cut it bridlewise, for then I may get a chance to get a bit in my mouth."

Mr. Jones carries his money in his hat, and the other day, when he saw the entire supply going off on the winds of heaven, he bitterly remarked, "That's what you get with your internal inflation."

The Herkimer Democrat asks: "Who is there that is not chained to some rock of the past, with the vulture of Memory tearing at his vitals, screaming forever in the ear of Conscience?"

"If the jury convicts my client," said a Missouri lawyer, rolling up his sleeves and displaying his ponderous fists, "I shall be compelled to meet each one and hammer justice into his soul his head." Verdict not guilty.

You needn't come on Saturday night, or any other night," was the soothing remark written in delicate female characters on a postal card which winged its way through the leavenworth Post Office the other day.

That was good advice which an old man gave to his sons: "Boys, don't you ever speculate or wait for something to turn up. You might just as well go and sit down in the meddler with a pail 'twixt your legs and wait for a cow to back up to be milked."

There is said to be an economical cat in Massachusetts, which picks up all the pins she finds on the floor and sticks them one by one into a paper. When she has accumulated a hundred she takes them to a neighborhood butcher, and receives in return a considerable bit of veal. There's a possibility that this story is not true, but even supposable, it is pleasing and instructive.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

The Minister.

He read a scripture sermon one spell,
But when they meant we couldna tell;
He mayb. didna ken himself"—
The minister.

What funny dogs we used tae draw
Upon our slates, an' ships an' a',
Till learnin' roond wi' fright we saw
The minister.

He grad on frae a fearfu' pet,
Said he was feelin' me black an' blue;
I dout he wasna try that nee—
The minister.

We mind frae wool his hoary thack leuves,
They nippit sair, like parten's claws;
A crabbit little man he was—
The minister.

He birled roo round like Nanny's wheel;
Said he was tellin' tae Nick aw cool;
He seemed tae like to hear me squeal—
The minister.

His plump round cheeks, as red's the rose,
His twinklin' een and rudder nose,
Showed till he supplt more than brose—
The minister.

He opened ay the schools wi' prayer,
An' psalms and questions gied us mair
Than what we thought was proper there—
The minister.

An' after time and sillor spent,
We left as wise as when we went.
It was na muckle that he kent—
The minister.

Its forty years noo since that day,
An' time, whase bosom's aye at play,
'Mang other things has swoopt away
The minister.

Where the Surplus has Gone.

A few days ago we made some general remarks in regard to the cry of extravagance raised by the Opposition against the Government of Ontario. We showed that the time for retrenchment had not come; that a large surplus in hand and prudence dictated, not the curtailment of expenditures and the heaping up of a surplus which is always a source of danger to any country, besides being a public loss; but a judicious outlay of the money on hand as a merchant or farmer would do under similar circumstances. The policy of piling dollar on dollar and setting it away, after the manner of the proverbial miser who hides his horde in a stocking and hides it under the stones under the hearth or under the earth in the cellar is not the policy of prudence or thrift, but the reverse. It is not the policy of thrifty individuals as it is not the policy of thrifty Governments. Great Britain, our great model, has pursued an entirely different course and so, also, have all the other nations of Europe. They have acted on the principle that a nimble sixpence is better than a slow shilling, and instead of having a surplus they have persistently from year to year anticipated receipts and thrown to the wind their fears of the final result. It is true they have not always pursued this course wisely. The debt of England to day, although principally contracted through exigencies which no prudence could have controlled, is an evidence of that, and if we turn to France or Germany or even the United States we find the same cause of regret. But regrets for misspent resources have never convinced statesmen of the advisability of holding in reserve a large surplus. Merchants never keep large balances at their credit in the banks. They press on and as fast as their profits accumulate they find new channels for their employment, making their balance outstrip their previous efforts and compound their profits with the same diligence exhibited in the use of their original capital. This is a principal of commercial economy that cannot be gainsayed, and yet we find exception taken to it by the Opposition at Toronto with as little regard to the reputations of the carpers as though, having defeated the Government, which is their single aim, they were to strut off the stage of time, never again to face the reputation made while in Opposition or be forced to remember the policy they have advocated. It does not require a long head to see that the record these men are now making must, in the course of time, if they ever to realise their ambitious aspirations, rise to plague them and push them from their stools. They are, however unmindful of this contingency as only reckless characters could be; forgetting of what is due to themselves in point of character and reputation—only bent on one object, viz: to damage the reputation of the present Government with the unreasoning masses who hold the votes and through whom they hope to make a nest for themselves, without considering whether it is to be a nest of down or a nest of whips that will lash them to fury.

We have returned to this subject to-day because we have before us the report of the Minister of Agriculture and Public Works wherein is given in detail the expenditures of the year 1872 and 1873 in plain position. It will be seen from these figures where the surplus has gone, the proportions for each enterprise and other suggestive hints which to a reflecting mind are sufficient answer to all the slanderous statements that have been made from the opening of the Session until the present time. But we go back a little further and the lesson becomes more convincing still. The whole amount expended for this department are as follows:

1868 for Public Works		$ 125,346.93
1869	"	248,620.72
1870	"	407,734.29
1871	"	432,071.65
1872	"	266,684.54
1873	"	549,620.60

Here it will be seen that not only has there been a gradual increase from the first Ontario Parliament to the present time, with the bare exception of 1872; but the expenditures on public account for 1873 were more than three times as great as in 1868 and more than twice as much as in 1869 and 1872. It, therefore, we are asked where the surplus has gone we have only to refer to these figures. But after all these figures only serve as an illustration, for the amounts disbursed or appropriated towards the settlement of the Municipal Loan Fund swallowed up the larger proportion of the surplus. It went or is going directly back to the people. Why does not Mr. Lauder deal with the figures from this point of view? Why does not the Opposition point out some specific item of disbursement and say to the public—"This is what we object to; we object "to this appropriation or this item of ex- "penditure. We, as a party, dissent "from the policy of erecting this public "institution or assisting that charity, or "fostering this educational enterprise." It would then be known where they stood and the country could judge between the policy of Mr. Mowat's Government and the policy of the Opposition which seeks to supplant Mr. Mowat. This would be statesman-like. This country would honor them in this course if it did not agree with them in there views; but do they do this? We know to the contrary. Their whole policy is detractive, which is no policy at all—which is demagogueism, depravity and must end in confusion. The country must ultimately see this and judge it according to its worth.—*Ontario Chronicle.*

A gentleman at a dance remarked to his partner, a witty young lady, that the room was so close he must go out and get some air. After an absence of half an hour he returned, when she asked him if he had been to the graveyard, as his breath smelt of the beer.

There are many fruits that never turn sweet until the frost has touched them. There are many nuts that never fall from the bough of the tree till the frost has opened and ripened them. And there many elements of life that never grow sweet and beautiful till sorrow touches them.

In a very ancient Florentine manuscript appears the following curious legendary description of drunkenness: "When Adam first planted the vine, Satan came and watered it, first with the blood of a peacock, then with that of a monkey, next that of a lion, and finally with that of a pig. This is why the vine's fruits bear all the characteristics of these four animals When a man takes his first glass of wine he is exalted, and his vanity (the peacock) comes to the surface; as his reward, the fumes of the liquor mount still higher, and he is so gay, and at the same time so silly, that he at once reminds people of a monkey; then he guzzle still more deeply, loses his temper, and is a lion in his rage; lastly, he falls on the ground, and wallows in the dust like a pig."

(3 Doors North of Johnson & Co's Store.)

Special attention given to the treatment of diseased Teeth and Gums, and to all the finer class of Operations in Gold.

Peterboro, July 9, 1873 28-26*

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were growing gradually by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal disease, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, in time, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions of visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterine* affections of the nervous and *nervous systems.*

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Obstructions*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion or Inflammation of the Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Lowspirited* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections symptomatic of *Weakness* will find immediate relief and convincing evidence of its restorative power upon trial.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; constituted of the most active, yet safe remedies drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, when it is the cause of disease. Minute directions are given in the wrapper on each box, for the following complaints, which these

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

Choice Poetry.

Jack Martins Pledge.

BY ANNIE R. JOHNSTON, W. V.

"For you see that tear did fall."

He had told the story simply,
While the careless, motley crowd
One by one had gathered round him,
And the laugh and cursings loud,
Dropped in silence—as a something,—
It seemed very like a tear,—
Rose in eyes blood shot and heavy,
While they thronged around to hear.

"Some of you may know my feelings
When I came home from her grave,
To my home so mark and empty,
Ah! how wildly did I crave
For some death that would have buried
All my memory and thought,
Would have stilled the fiend that whispered
'By your own hand was this wrought!

"So I my this was a reason
That the silence fell so dead.
As I sat and rocked "our Angelie,"
While her pretty baby-head
Lay so bright upon her shoulder.
As she said in childish tone,—
Softly stroking my hot forehead,—
'Poor, dear papa's all alone!'"

"Then the winds without wailed sadder,
And my heart took new despair,
Till I murmured in my anguish,—
'This is more than I can bear!'
So I caught up hat and baby,—
Though she pleaded,—"Pa, don't go!"
But I shook her speaking roughly,
As I rushed out through the snow!

Do you know where I was going?
Well, she too had guessed—for mark!
As I rushed on with bee wildly,
Rushed on madly through the dark,
She grew very still, and somehow,
This seemed hard for me to stand,
For I knew I had been savage,
When—a tear fell on my hand?

"It was dark—I can't describe it!
'Twas too much—enough to know
That, though very near the drame-shop,
I turned backward through the snow,
And half that night bowed pleading
For God's strength to quit the bowl,—
Till at last I felt my pardon,
And His peace fell on my soul!

"Then next day I signed the paper,
['Twas like this one I hold now!]
For I knew 't would help restrain me,
Help me keep that solemn vow!
But "our Angelie,"—God soon took her—
Heaven grant I may not fall!
She was my sweet guardian-angel,
For you see that tear did all!"

* * * * * * * *

'Twas the inside of a drink-hall
Where they gathered round to hear,
This plain story of Jack Martin,—
Strange sweet story of a tear!
And God blessed the simple telling
As he oft had done before,
For, ere he had left, the paper
Had been signed by six hands more.

The truth is that there is not an earnest, ardent teetotaller, who must not come to this position sooner or later, to be a thoroughly consistent total abstainer it is absolutely necessary that I should vote down the liquor traffic, as well as talk and write, and pray against it.—*James Alexander Mowatt.*

Select Literature.

THE CENSUS OF CANADA

SECOND TOLUME.

The second volume of the Census of Canada has appeared very tardily—so tardily that people generally had begun to lose interest in the subject. It is one, however, of importance,—and there are some facts contained in the volume before us which merit consideration. To better enable us to understand what follows, it will be well to bear in mind that the total population in 1871, was 3,485, 761, as stated in the first volume.

There were in all the chief provinces (which are alone embraced in the census) 1,085,276 married persons. Of this number it is stated 542,037 were males, and 542,339 females, a discrepancy somewhat singular and not a little suggestive. The largest number of married men embraced in one decade were between the ages of 31 and 41, and of females between 21 and 31; the latter, however, were but slightly more numerous than in the following decade No less than 79,865 persons are set down as widowers, whilst only 37,487 appear as widows. Judging by these figures, does there not seem to have been a far greater mortality (i) among the latter than the former? The school master has still an ample field through out the Dominion, for no less than 299 576 persons over twenty years of age couldn't read, and 412,142 couldn't write. To this last Quebec contributed pretty well on to two-thirds, having 191 862 who are unable to read, and 244 731 unable to write! Ontario contributes the least compared with its population. The total number of deaf and dumb was 3,789; of the blind, 2,576; and of unsound mind, 9,424.

The occupations of the people are very fully given in this volume; but we fear that, as in some other particulars, the statistics are only approximately correct. Agriculture is shown to be, as everybody well knows, the chief occupation of the Dominion: but the numbers of persons engaged in the ordinary trades, as well as in manufacturing, are very considerable. We cannot make room for the whole table on occupations, but we select therefrom the principle branches of industry, which are as follows:—

Advocates	2,212
Blacksmiths	15,694
Butchers	2,598
Cabmen and Carters	4,951
Cabinetmakers	2,200
Carpenters	32,361
Clergymen	4,436
Clerks	19,040
Coopers	4,449
Dressmakers	8,374
Dealers and Traders	4,972
Engineers	2,043
Farmers	676 923
Fishermen	16,382
Foundrymen	3,457
Gentlemen with means	8,908
Government employees	2,088
Grocers	2,997
Innkeepers	6,372
Hunters	2,548
Laborers	124 922
Lumbermen	9,889
Manufacturers	6,207
Mariners	16,539
Mechanics	4 899
Merchants	13,405
Millers	7,134
Miners	2,678
Nuns	2,207
Painters	4,110
Doctors	2,702
Plasterers	1,582
Printers	2,200
Railway employees	3,700
Sailors	2,800
Surveyors	1,500
Tinsmiths	1,900
Servants, male	11,422
Do female	39,690
Shipbuilders	4,250
Shoemakers	9,662
Stonemasons	16,132
Stonecutters	2,540
Tailors	7,722
Tanners	1,795
Teachers	13,466
Weavers	2,735

Besides the foregoing list, there are a good many minor occupations given but a very good idea of the whole can be obtained by throwing them into classes Men divided in this way, the apportionments is as follows:—

Agricultural pursuits	do	679,512
Commercial	do	70,201
Domestic	do	60,104
Industrial	do	111,568
Professional	do	39,144
Not classified	do	143,079
Total		1,090,848

Table No. VII. treats on the births and ages of the people, and is quite interesting. It speaks volumes for the healthfulness of our canadian climate that so many aged people should be returned. No less than 175,851 persons were 61 years of age and over—a percentage of over 19 of the whole population. It is quite evident from this fact that if our winters are cold, they are at least healthful and invigorating. The climate of this Province will compare favourably for longevity with any other part of the Globe. Nearly 150 persons were enumerated over 100 years old. We are a little sceptical as to any large number of persons reaching so great an age as an century, but as the proportion given in the census of the United States is considerable greater, our returns may not be far astray. We make the following classification as to ages:—

Under 11 years of age		1,096,669
From 11 to 21 years		811,792
" 21 to 31	"	570,449
" 31 to 41	"	374,483
" 41 to 51	"	271,231
" 51 to 61	"	181,613
" 61 to 71	"	112,783
" 71 to 81	"	51,423
" 81 to 91	"	13,130
" 91 to 101	"	1,389
Over 101 years of age		141
Not Given		1,709
Total		3,485,761

There were over 40,000 more males than females throughout the Dominion and on turning to the births during 1871, we find that the relative proportion of the two sexes shows no signs of materially changing. The number of births in the United States in 1870 was 1,210,920, and as their total population was shown to be 38,658,371, the increase was nearly one in 31. It will be observed by the following statistics that the number of births in this country, in proportion to population, is somewhat larger, but it is not so much greater as many probably expect to find it:—

	Births.	Ratio.
Ontario	80,451	1 in 31
Quebec	46,386	1 in 36
New Brunswick	9,179	1 in 31
Nova Scotia	11,645	1 in 33
Total	117,561	1 in 30

We have not taken into account the fractions, but the foregoing, without them, would make the average increase in Canada about 1 in 30, as against 1 in 31 across the lines. This difference is trifling, and may arise, in fact from the returns not being accurate. Of the 117,561 children born in the Dominion in 1871 the males are returned as 60, 575, and the females 56,858—a difference against the latter of no less than 3,717.

The tables referring to deaths show the different sexes, the months when death occured, the conjugal condition, age, place of birth, religion, and the nature of the disease. We cannot enter into all these details. The number of deaths in each Province, and the ratio of deaths to the population of each was as follows:—

	Deaths.	Ratio.
Ontario	18,063	1 in 89
Quebec	20,873	1 to 57
New Brunswick	2,560	1 in 80
Nova Scotia	4,818	1 in 80
Total	47,314	1 in 76

There are good grounds for believing that the death-rate must be greater that appears from these figures, for it is hardly probable that one in 89 died throughout Ontario during 1871. But waiving this point, it is sad to reflect that no less than 12,375 died in infancy and 6,226 before they reached their third year! This is not very far from one-half of the whole deaths, and is certainly a startling fact, which casts a dark shadow on modern society. This awful mortality among children mainly takes place in the cities, and specially in the city of Montreal, where nearly 30 per cent. of all the infants born would appear to die before their first year. The returns for 1871 give for that city 4,505 births, and 1,338 deaths of children under twelve months of age. For Toronto the births are stated at 1, 620, and the deaths of infants at 176, being about 10 per cent.

The months of March, July and August appear to be the most fatal of the year in Canada, the former having the most deadly of any. In Ontario 12 per cent. died in died in 1871 of that malady, 9 per cent in Quebec, 16 in New Brunswick, and 18 in Nova Scotia—the Maritime Provinces suffering most severly. Other lung diseases, and range about 5 per cent., and heart disease, scarlatina, diarrhœa, typhoid, bowel and brain diseases, and inflamation about 3 per cent. In the latter classes of disease, Ontario has a larger mortality than the other Provinces, and particularly Nova Scotia and New Brunswick, where the number and fatality of those complaints are not large In the United States, no less than 22 per cent. Consumption is therefore, by far the most fatal disease which afflicts humanity on this continent.

In the third volume the public are promised important details about our manufacturing establishments, which will, we hope, embrace the capital invested and employed, as well as the numbers of persons engaged therein. The public would also like to know when it is probable the volume will make its appearance. It is now several years since the census was taken, and yet the second volume has but recently come to hand. The work is admittedly laborious, but surely it might be pushed forward with a little more energy without overstraining the official constitution.

Pond's Extract has a reputation of twenty-five years standing, and has become a national medicine.

The Royal Marriage.

The State banquet given in honor of the Royal couple who have just got spliced, in the nautical dialect of the bridegroom, was a very magnificent affair, and, with lots of guests, etc., is fully described in the London *Times* of the 10th inst. It was given in St. George's Hall, at Windsor Castle. It is not very wide, but is of great length, with a lofty oak-pannelled roof, crowded with small shields emblazoned with the arms of the Knight of the Garter, from Edward III, himself down to this day. On one side a range of tall windows looks on to the great quadrangle, on the other portraits of the sovereigns from James I. to George IV. are panelled in the wall, the Charles I., by Vandyke, being a famous picture. Between the pictures are trophies of arms and armour, and below them and also between the windows opposite, are fixed more shields of the knights. The names of the knights are painted on the wainscot of the windows, a number referring you from each to its shield on the wall or roof. At each end of the hall is an oak gallery for musicians, and a high buffet of red baize in a gold gothic framework for the gold plate. One very broad table runs the whole length of the hall, and there is a large fireplace with a handsome grey marble mantlepiece in the centre, opposite to the windows.

Over this mantlepiece was fixed for the banquet the famous Celtic Shield, one of the of the most valuable art treasures of its kind in the world, its beautiful workmanship equalled only by its historical interest, for it was given by Francis I. to Henry VIII. on the Field of the Cloth of Gold. Behind the shield was arranged a trophy of swords, each of them a precious relic. One of them was worn by Columbus, another by Charles at Naseby, another by John Hampden, another by John Hampden, another by John Sobieski, of Poland. The great feature of the dinner, of course, was the service and display of gold plate for which Windsor Castle is famous. The buffets and the tables were heaped and laden with salvers, shields, vases and cups of every description. One hundred and thirty-six persons dined.

The most conspicuous piece of plate at the buffet at the west end of the hall was the Eau-de-Cologne fountain, designed by the Prince Consort and made by Gerrard.

Silver steeds, models of horses given to the Queen by the Sultan of Muscat and the late King of Prussia, drink from a golden fountain of Moorish design. On this buffet stood a jewelled George IV. Coronation Cup, two beautiful cups in gold and ivory, one of them an exquisitely carved Rape of the Sabines, a Sabines, a salver bearing the arms of Elizabeth of Bohemia, and many other salvers, plates, vases, and cups. On the centre of the lowest shelf of the buffet at the east end of the hall was placed the tiger head taken from Tippo Sahib's throne at the storming of Seringapatam. Above it stood the jewelled peacock, once an ornament in Tippoo's state umbrella, and above the priceless bird was Flaxman's Shield of Achilles, and many other precious and beautiful pieces of plate. A number of silver gilt candelabra were also placed upon the buffets. On the great table, 150 feet long, the dinner service of gold plate was laid out upon snowy damask, and a number of gold centre-pieces, many of them with vases planted with beautiful flowers, stood upon the glass and guilt plateaux. Innumerable wax lights were fixed in gilt candelabra all along the table, and their light sparkled against the gold. The Queen's chair was set exactly in front of the gray marble fireplace, and on the table in front of Her Majesty was the wedding cake. The 24 gold finger-glasses were set 12 on each side of the table, in the centre of the long line of seats. The band of the 2nd Life Guards was stationed in the corners of the buffets, and on each side of the hall, six picked Life Guardsmen were posted singly, and in the armory was stationed in the Throne-room, and played a selection of music after the banquet. Among the State-liveried footmen who waited was conspicuous the tall form of the Queen's jager in a very gorgeous dress, and several servants in full Highland costume stood around the tables. In addition to the countless wax lights on the table and buffets, the room was lighted by groups of oil lamps fixed on emblazoned shields along the walls. The effect of the light was beautiful, for, while there was brightness on the table, there was a shadow under the lofty roof that consorted well with the Gothic architecture.

How to Make Money.

A horse dealer residing in the vicinity of Keyport, N. J., and who buys up horses for the New York market, purchases "Darley's Condition Powders and Arabian Heave Remedy" by the dozen and feeds it to his horses; he says it is superior to anything he has ever used as a condition medicine, that the horses are so much more improved by its use as to sell more readily and command higher prices. Two other horse dealers, one residing at Huntingdon and the other at Glen Cove, L. I., also purchase it by the dozen and for the same purpose: them men as well as many others similarly engaged, know too well the value and importance of this medicine ever to be without it.—Remember the name, and see that the signature of Hord & Co., is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

When the harrassed man of business tires his brain—

The toiling student 'with visage sicklied o'er with the pale cast of thought,' becomes more gaunt and careworn—

When the victim of neuralgia is racked by excruciating torment—

The palpitating, burden and grief-stricken heart succumbs to the pressure—

When weakness subdues the body from any cause, and when additional strength is required, the most grateful and beneficial effects will ensue from the use of Fellow's Compound Syrup of Hypophosphites.

Whooping Cough.—The most stubborn cases of Whooping Cough are cured in a few days by Hollister's Compound Syrup of Hypophosphites. The old time of this disease running a protracted course has exploded.

The public are hereby assured, through the columns of the Examiner, that Parsons Purgative Pills contain no injurious principle, but that they may be administered to children and the most weak and shattered constitutions in equal doses, with great certainty of cure.

Dr. A. Johnson, one of the most successful practitioners of the time, invented what is now called Johnson's Anodyne Liniment. The great success of this article in the cure of Rheumatism, all diseases of the throat and lungs, will make the name of Johnson and less familiar, if less widely known, than that of Louis Napoleon.

REMOVAL! REMOVAL!

For want of Room and Convenience to meet the increasing wants of our trade in Field and Garden Seeds, &c., we have been compelled to Vacate our old stand on Simcoe Street, and remove to

No. 3, MARKET BLOCK,

One Door North of the "Review office," where we are Opening Out a Large and Choice Assortment of

FIELD, GARDEN AND FLOWER SEEDS,

From our Nursery. We will be happy to fill all orders for

FRUIT TREES, GRAPE VINES, FLOWERING SHRUBS, &C.,

GILES & MASON.

JAMES HARTY'S OLD STAND,

—ON—

Saturday next, April 4th.

INSPECTION INVITED

Peterborough, April 1st, 1874. 14-1y.

Dissolution of Partnership.

Notice is hereby given, that the Co-Partnership existing between ROBERT NICHOLLS, WILLIAM HALL and PETER CONNAL as Grocers, in Peterborough, expired on the 1st of March last. All parties indebted to the firm at this date, will please call and settle without further notice, in order to wind up the affairs of the late firm.

In reference to the above the undersigned would respectfully inform the Public and the patrons of the late firm, that on the 1st of March they entered into partnership to carry on the business in all its branches as formerly, under the name and style of PETER CONNAL & Co., and from their intimate knowledge and experience in the business they feel warranted in saying that they will always be prepared to give their customers the very best value.

PETER CONNAL.
WILLIAM G. FERGUSON.

March 18, 12-tf.

DISSOLUTION.

The Partnership heretofore existing under the name and style of BRADEN & KANE, is this day dissolved by mutual consent, Mr. Braden having disposed of his interest to Mr. Kane, who assumes all the liabilities and will collect all the accounts.

JOHN BRADEN. WM. KANE.

Peterborough, March 6, 1874.

In reference to the above, Mr. Kane begs to inform the public that he will continue the business as heretofore and hopes by strict attention to merit continued public patronage.

11-tf. WM. KANE.

Peterborough Examiner.

PETERBORO', APRIL 2, 1874.

Queen Victoria

Has appointed the Rev. Dr. Taylor, the Scotch Presbyterian Minister from whom she received the communion, a Royal Chaplain. She is not a strict Episcopalian.

Brock Street.

There is more agitation to complete the repairs of Brock street. We sincerely hope that the Council will this year finish the grading of George Street between Brock and Murray Streets, so as to provide a fall for the pools of water that gather between Murray and McDonnell Streets. The work is needed.

McDonald & Elder's

New Suits and new styles are said to surpass anything of their kind. They are paying great attention to their Tailoring Department.

New Firm.

Messrs. Peter Conal and W. G. Ferguson have entered into partnership in the grocery business. They continue in the stand occupied by Mr Connal. We can recommend intending purchasers to give them a call. Mr. Connal has long been noted for his agreeable manner and liberal dealing, which will be found undiminished by Messrs. Connal & Co.

At Home.

Special Religious services have been going on in the Rev. J. M. Roger's (Presbyterian) Church during the past two weeks.

Trent Valley Canal.

There will be a meeting in the Music Hall to-night to discuss petitioning for a charter to build the canal. If the money can be got, by all means build it.

The Asbestos

Soldiers are home again. They have been most enthusiastically received.

Assault of an Editor.

J. P. Thompson (Jimuel Briggs) was assaulted on the 21st ult., by Joseph Kirby of Niagara. Kirby was at once brought before the Police Magistrate and fined. Served Kirby right.

Insane.

Thos. Bedhead, of North Monaghan, was committed to jail on Monday by Jas Edwards, Esq., as dangerously insane For some time he has been exhibiting signs of dethroned reason. On Sunday evening he became more than usually disturbed, and threatened to kill his father and mother, a very frail old couple. When Chief Constable Johnston went to the place at the urgent request of neighbours, he found the young man sitting with a butcher knife in his hand. The old man was shut up in a room, and the old woman was in a state of terror, fearing that he might at any moment carry out his threat to kill her; imagining that he had already got the old man disposed of. He had taken the cat and cut it open, turning out the entrail, and throwing the dead animal outside and he held the knife in readiness for operating in the same way, especially on the old man, as he believed that his father was trying to deprive him of some property. The knife was taken from him and he was brought away, and is now in jail. He is about 23 to 25 years of age, very stout, being nearly 200lbs weight. The cause of his derangement is supposed to be sunstroke received when at Kingston with the volunteers two years ago. If placed under proper treatment he may recover his reason.

A nest of unclean birds.

Chief Constable Johnston cleaned out a very filthy nest that was kept on Murray street, by a man and woman calling themselves Dalliwort. He is an Englishman the woman is from the Emerald Isle, and their method of housekeeping combined the worst characteristics of the two. They are both in jail for sixty days. They claim to be citizens of Belleville or vicinity.

Cobourg.

There is now an agitation to erect a new building for the Collegiate Institute of our sister Town. By all means let our neighbors have a school house equal to their town Hall. A school building is surely of more importance to the people generally.

Whitby

Is having a case for damages arising out of charges of crim. con against a Mrs. Campbell of that town. From reported evidence the unfortunate lady appears to be innocent of the accusations. The promoter of the falsehood should be punished. She has received a verdict of one thousand dollars damages against her brother-in-law.

Y. M. C. A

The managing committee have rented Mr. Bradburn's building, next door to the Queen's Hotel, George Street, and are having them fitted up for their purposes. Officers have not yet been elected. In the choice of these the success of the association depends.

Kingston.

It is said that a general and genuine revival is being enjoyed in the city of Kingston. It has extended to several of the churches. Better things may yet come out of that city. Although not a few would ask "Can any good thing come out of it?"

Another Fire.

The residence of Mr. S. Watson, near Cobourg, was destroyed by fire on Thursday night. Loss $1,000. No insurance.

Professor M. Chandless,

Of the Model farm, last week at Elora, bought two fine span of horses. One at $370; the other at $360. This will be considered outrageous by the opposition press. If he had come to this section of country, he could have bought a good span for $400. Several Conservatives in this county raise fine horses.

Very Polite.

The Napanee *Standard* in detailing on an article that had appeared in the *Express* against Mr. Lapane says:—"Why the article ever appeared, we can only assign their reasons, viz: That the editor of the *Express* is paid for it, or he is actuated by malice, or *he is a fool. After* considering the two first reasons, of the third he says "Is he a fool?" The are certain things which we take for granted, which no man disputes, because they are patent to everybody. Such are the axioms of Euclid. Such are the evidences of our senses. Under this head we feel it unnecessary to say anything further, but we conclude that all three reasons conclude that all three reasons combined have actuated the *Express* in giving vent to the malignant, and unfeeling sentiments expressed in the article which we have quoted." Query? Does the *Standard* prove his own sanity by writing as above?

Stanhope.

The school-house, Section No. 3, Stanhope, was destroyed by fire last Saturday night. The work was evidently that of an incendiary of tender conscience as the school Bible was removed from the building and placed in a secure position.

Midland and Grand Junction Railway.

The Ontario Legislature has authorized a grant to the Midland Railway of $257. 58 per mile of its Georgian Bay extension for a period of twenty years, or otherwise an immediate sum of $2,650 per mile, upon condition that the Midland Company do, on or before the first day of July next, enter into an agreement satisfactory to the Grand Junction Railway Company for the haulage of its freight and passenger cars for through business over the Midland Campany's line of Railway from the point of junction at Lindsay to Midland Bay, or upon terms to be settled by the arbitrators to be appointee by the Lieutenant-Governor in Council, in case the two Companies fail to agree upon the terms of such arrangement. This favours the idea of some other power gaining the control of the Grand Junction and extending it to the Midland, say at Omeemee. This would be advantageous to Belleville. But how about Port Hope? Would it not be better for Port Hope to aid the Midland and control the traffic.

Personal.

We clip the following from the Iowa State "Register." Mr. Sherin is a son of Mr. Sherin, of Emily, and brother to Mrs. D. Kennedy, of Otonabee.—"Among the names of those elected to Deacon's orders, that of Rev. S. Sherin, late of Canada, is a young man of great literary ability, a good preacher and one who has the push and energy to make him a success in our young and growing West. Rev. Sherin attended Victoria University, and comes with certificates of his superior literary ability signed by Rev. Wm. M. Punshon, D. D., President of the Conference. He also has certificates of his theological attainments given him in Canada. The West has need of such young men—men who are qualified by education and natural ability to stand erect among men, and who, wherever they go, will leave their impress for good.

North Ontario.

Mr. Gibbs will not protest North Ontario

Immigration.

From a perusal of English papers kindly sent us by Chas. Ormond, Esq., we learn that there is a general emigration movement in England. A large number of those emigrating may be expected in Canada, and perhaps some of them may even come to Peterboro. Would it not be well reorganize the Immigration Committee, so that there might be some one to whom they could apply for information on their arrival? Will the mayor call a meeting and take the matter up.

The first book sale.

The first books sold in England were sold by the yard or foot. The following is the form of an order to a book seller: "In the first place I want six feet of Theology, the same quantity of Metaphysics, and nearly a yard of old civil law folio." Books must then have been in the shape of the prophet's scroll.

Union Schools.

The new School Law does not provide for the separation of Union Schools. It only provides that no more unions shall take place. In some instances it might be well to dissolve the unions, but we have good testimony that where a dissolution has taken place, the parties interested regret the separation.

Affrays.

Was the scene of a shameful fight on Tuesday evening. Two parties from the country met there on that evening, and having an old grudge and the effects of Canada both in, they succeeded in disfiguring themselves pretty badly. We hope the village constable will succeed in making them pay for their conduct on the public streets.

Cobourg.

Has had one wedding of late, as the *Times* rejoices in being the recipient of a piece of wedding cake. The *Times* further regrets to learn that Messrs. Smith & Ball's saw mill, near the Severn Bridge, was totally destroyed by fire early on Tuesday morning. The loss is estimated at $12,000; no insurance. The fire is supposed to have originated from the boiler. They have also had an attempt to commit suicide by a man named Tirchant. He tried laudanum, but did not take enough. He then tried his pen knife, but did not get deep enough to cast of the mortal coil. It is thought that his mind is deranged. No doubt of it. He is now in Barrie jail for safe keeping. The stables and sheds of the Dominion House were burned on Sunday morning; the work of an incendiary.

Team Lost.

Mr. Robert White, of this town, lost a fine team in Rice Lake last week, by breaking through the ice. Fortunately no person got in, although there were four in the carriage when it went through. Mr. Henthorn's team had just gone over before Mr. White's, but the passengers had taken the precaution to get out and walk. Mr. Whites loss cannot be less than $300, as the carriage was very much broken when taken out next day with the harness. The team was worth over $225.

Religious.

This week very interesting union prayer meetings are being held in the different Protestant churches here. To-night it is to be in St. Andrew's Church. To-morrow evening it will be in the Baptist Church.

The By-law

Granting a bonus to the Cobourg road was carried on Tuesday by a majority of 84. The vote was a small one. The people, feeling that they were pledged to the By-law, did not come out to oppose it. The vote stood: No. 1, for 14; against, 12. No. 2—for 29; against 6. No. 3—for 36; against 5. No. 4—for 28; against. Total for 107; Total against 23. Majority for By-law 84.

Messrs. Giles & Masson

Have removed their seed store to the store lately occupied by Baillie & Geimel, next door to the *Review* office. They have on hand a large assortment of seeds. Those intending to purchase would do well to call at their store and see their stock.

Mr. R. W. Thompson

Has opened a gent's furnishing house in the store lately occupied by Green & Fowler. The cloth and tailoring department is under the management of Mr. E Bakewell. Look out for their advertisement next week.

Easter Beef.

Mr. W. Millar, of Otonabee, sold a beef on Saturday, to Mr. Wainright, butcher, which weighed 1,880 lbs at $5.50 per hundred weight, live weight, netting $103 40 for one animal.

Harvey.

On Thursday last Mr. Nelson Vannier, saw the track of a bear on lot 25, near the shanty of Mr. Wm. Bennett, and he says that for ten years he has never known bears to leave their dens so early. Four wolves were also seen on Big Island on Wednesday last in a very bad condition and looking extremely gaunt. There has been so little snow that the deer could beat the wolves in a race.

On Monday last, Mr. John Burns and Mr. Bill McCoy had a difference of opinion. It occurred in the shanty. Mr. *John Burns has two ribs* broken, and a black eye, and experiences great pain from his hand, which is badly burned in consequence of Mr. Bill McCoy having thrown him into the shanty fire. He is recovering, and we hear intends to go for Mr Bill McCoy at an early opportunity. *Bobcaygeon Independent.*

Lakefield Correspondence.

Considerable dissatisfaction is evinced here in consequence of a recent act in the Douro township Council. Mr. Dench, Inspector of Taverns for last year, was reappointed this year and duly sworn into office. Since his last appointment application was made to him for a Tavern License by a person residing in Lakefield, but finding the requirements of the law not fully complied with, Mr. Dench refused to grant the license. Shortly afterwards a motion was passed in the Council, in the absence of Mr. Dench, whereby he was removed from his office, and Mr. Steele appointed in his place. Mr. Steele has been sworn into office and granted the license. Perhaps the requirements have been met. Here is determination to grant the License, and it has succeeded. A cold water temple has been instituted here with a membership of about 50. Mr. Patman's tender for fencing the school grounds has been accepted; amount $37.

New Dry Goods Store.

Read Mr. Dolan's *advertisement*. He opens a new dry goods store on Saturday, in Mr. Harty's old stand.

Messrs. Lasher & Lowry

Have received their spring goods. Call and see them. Their clothing department is complete.

North Ontario.

Mr. Gibbs will not protest North Ontario

Messrs. Mason & Bradburn

Also advertise the arrival of their new Stock, which is both large and well selected.

Poor Man's Friend.

Cameron, Rykert and Boultbee are opposed to the clause in the Franchise Bill by which the sum of $400 income gives a vote. They declare that every working man in the country will thus be able to exercise the Franchise. It is now seen who are the poor man's friends. The mock sentimentality and sympathy of the Charter Sellers to the working man during the late contest has been exposed. There is no affinity between the poor men and the Opposition, either at Toronto or Ottawa, and the quicker it is fully understood the better.—*Cornwall Freeholder.*

The Cobourg Star

Professes to be Independent but not neutral, yet in the last issue this select morceau appears: "These proceedings show to what straits the party of purity is driven, when they can only raise such quibbling objections." Doesn't this show the cloven foot still. We shall want to see an instance of using a decisive word against the charter sellers. By its articles it must be judged.

North York.

The name of the Mr. Woods, which appears to the petition against the Return of Mr. Dymond, member for North York, was obtained fraudulently. Mr. Wood was not aware what kind of document he was signing. [illegible] and was induced by misrepresentation to get his signature [illegible] obtaining [illegible] this is [illegible]

"Grip."

This excellent caricaturist is every day becoming more popular. The last one has its lesson which deserves to be pondered well. In the front is Mr. Prince, with his arm around Mr Boultbee, who is attired somewhat as a lady, but with the beard. Lauder, Cameron, and Rykert are following close after, and behind them are Mr. Mowat and Mr McKellar, apparently marching out in quick time. Messrs. McKenzie, Blake, Brown and others are just entering with John A. at one side and a leer on his countenance (one eye shut), watching the exit and entrance. "Grip's" moral is. "They have their exits and entrances." John A. appears to be soliloquising thus, "Ye who listen with credulity to the whispers of fancy and pursue with eagerness the phantoms of hope, who expect that age will perform the promises of youth and that the deficiences of the present day will be supplied by the morrow; attend to the history of ——." Grip should be patronized.

Spain.

The Republicans have gained decided advantages over the Carlists before Bilboa. General Serrano was pushing the retreating rebels. One or two sharp encounters and defeats may teach them the wisdom of letting Don Carlos fight his own battles.

Canada.

A Mr. Pocket claiming to be from England, was taken into custody on Monday, in Toronto, for endeavoring to pass a forged cheque on the Bank of England, on C. A. Morse & Co. Pocket is about 23 years of age. Although young he is not to be allowed to spend his youth at large. He will no doubt spend a portion of it at Kingston.

The Weather.

It is simply a piece of uncalled for information for editors to tell their readers that the weather has been very cold for a week. Every person around here knows it already.

La Creme de la Creme.

A collection of music for advanced players. The collection for March is now before us, and contain the following select pieces:—On the Sea, Barcolle; The Break of Day, Revere; La Ballerina Polka; When the Swallows Homeward fly; Espieglieres caprice. These five pieces are worth $2 in single numbers, while "La Creme de la Creme" costs only $4 a year. Twenty-four dollars worth of choice music can thus be obtained for $4 by taking the collection for a year. It is published by I. L. Peters, 599, Broadway New York, but can be ordered through any book seller. If each number should contain but one popular piece it would be worth the money.

Bellerville.

The *Intelligencer* has been informed that the country people are afraid to visit that town, on account of the prevalence of Typhoid fever, but a Board of Health is being appointed to take steps for proper sanitary regulations.

Donald A. Smith

Has been superseded as agent for the Hudson Bay Company. His salary was $7,5000 a year.

Dominion Deficit.

It now appears that Mr. Hincks, on retirement, left Mr Cartwright to meet a deficit. The cause of this is easily understood. Too great a desire to spend and waste, so as to make friends of the mammon of unrighteousness, and an unwillingness to meet these things squarely. *The manufacturing interests are crying* for protection. They may find ere long that they will have a little too much protection unless some wiser and better means be devised for meet general expenditure If the Macdonald Government could not make ends meet when there were no public works being constructed (for it is well known that the money to build the Intercolonial was borrowed) what may be expected if the Pacific is undertaken, as it will be? The people will find themselves well taxed ere the road be completed.

LICENSES.

Mr. Beavis, we understand, is carrying out the law very fairly, perhaps some will be ready to say strictly. In one or two cases where parties were retailing by the gallon and barrel under a Tavern License, he has compelled those parties to take out Shop Licenses also. The new law provides for a third division of the License, that is, *wholesale* Licenses. The new law provides that shop keepers can sell only from one quart to five gallons. If any wishes to sell by the barrel, he must take out a wholesale or government License. An exchange says:

"Yesterday Mr John McKeown, the Government issuer of licenses, visited the several shops in St. Catharines to which licenses had been granted for the current year, and inquired whether they sold by wholesale as well as by retail; and informed the wholesalers that their present license only entitled them to sell in quantities from one quart to five gallons. If they wished to make larger sales than the latter (that is by the barrel) they will be required to take out and pay for a government 'wholesale license' in addition to the one they already possess. Mr. McKeown says this is the interpretation placed upon the law by the Attorney General. So says the St. Catharines *Journal.*

Section 4 of the new Act is as follows: A "License by wholesale" shall be construed to mean a License for selling, bartering or trafficking by wholesale only in such Liquors in warehouses, stores, shops or places other than inns, ale or beer houses, or other houses of public entertainment, in quantities not less than five gallons in each cask or vessel, at one time, to be wholly removed or taken away at one time from the same warehouse, store or shop, or other place in which the same liquor is sold in casks or vessels containing not less than five gallons each."

Bottled ale, porter, beer, wine, or other fermented or spirituous liquors cannot be sold in quantities less than one dozen bottles of three half pints, or two dozen bottles of three-fourth pints, and not less than one dozen or two dozen bottles, as the case may be at a time."

The law is strict, indeed. The next law may be prohibition.

RIGAR.

The following note has been received by Thos. Reynolds, Inspector of Distillery, &c., Toronto, from the Hon. Minister of Inland Revenue, Ottawa:—"Mr. Rigar, of Belleville, has been appointed Inspector of Distillery, &c., in the room of Mr. Wood, who has been dismissed from the service for [illegible] and was arrested [illegible] morning to get his signature [illegible] obtaining [illegible] this is [illegible]

Riel and his Whereabouts.

On Monday Louis Riel presented himself to the Clerk of the House of Commons at Ottawa, took the necessary oaths of office, registered his name, and stepped out, and hid himself awaiting results. He is not a timid man or he would not attempt such a course under the peculiar circumstances in which he is charged with the crime of murdering Thomas Scott. A jury has found a true bill against him, and he, therefore, is a fugitive from justice. There can be no alternative but to bring him to trial if found, and if a jury of his countrymen find him innocent acquit him. If not innocent, what right has he to claim more favors than other men guilty of the monstrous crime of taking a fellow being's life without sufficient provocation. How could the High Court of the Dominion permit a man charged with murder to take part in enacting laws for the Government of a country whose laws he now sets at defiance? If he has the promise of an amnesty, why does he not give himself up to the authorities, and claim their protection, until this vexed question is settled? There are several men living who can give evidence to the truth on falsity of the promise. Let these men be appealed to, and on their evidence decide the matter.

The people of a portion of Manitoba and also a portion of Lower Canada, are making this a question of nationality. The crime of ordering the execution of an innocent person, without the formality of even a trial, cannot be condoned on account of nationality. To do so would render life insecure and Laws nugatory. It is not a matter of nationality or religion. It is the safety of person and property, which concerns every subject of the Dominion, nor can the laws of our country be trampled on or set at defiance by any man, whether of English, Irish, Scotch or French or other extraction, and no matter what his religion may be. If Louis Riel should to-morrow change his faith and become a member of the Orange Society, he could not, should not escape the penalty of violated law if found guilty.

If there are extenuating circumstances they will appear at the trial, and have their effect on the court and jury, and if John A Macdonald promised him pardon it will be discovered and a due respect had to the promise.

Union School Changes.

We regret to learn that Miss Leete, teacher of the Primary department in the Union School, has made up her mind to leave Peterborough. She has been over three years in the division, and during that period has succeeded in endearing herself to her pupils, and and giving entire satisfaction to the Principal, and Board of School Trustees and Parents, as well as gaining the esteem of her fellow teachers. She has also the esteem of a large number of friends here. Miss Leete was brought here to introduce the Pestalozzian system of teaching into our school which is generally admitted to be the best system of impressing the memory and forming the judgement in elementary education.

On the occasion of her leaving now at the Easter Holidays, her pupils presented her a very handsome Silver Salver, and Napkin Ring, and the following address. The address was read by Miss Stapleton, and the presentation made by Miss Morgan.

DEAR MISS LEETE,

We have met here this afternoon to say good bye to you.

We are sorry that you are not going to be our teacher any longer, for we like you very much.

We are sorry that you are going away, and it makes us more sorry when we think how often we have vexed and teased you, while you have been so kind and good to us. Please forgive us.

Although you are not to be our teacher any longer we trust that you will not forget us, and we beg you to accept this Salver as a token of our love and good wishes.

Miss Leete replied in very appropriate terms, although extempore.

Miss Lundy, the teacher of the Senior Department of girls, was also the recipient of a beautiful and valuable Writing Desk, and two copies of poems. Miss Lundy has not been long in the Union School, but during her stay has made numerous friends and has had the name of being a superior teacher, accompanying the presents was this address. To which she made a very fitting reply.

DEAR MISS LUNDY,

We have assembled here on the eve of your departure from Peterboro, to express the regret which we feel at the severance of the ties which have bound us together as teacher and pupils, and to mark in some degree our appreciation of your untiring exertions in our behalf.

During the short time that you have been with us, we have learned to re-pect and love you as a teacher and as a friend, but we have never fully realised your true worth until now that we are about to be deprived of your invaluable counsel and assistance.

The grief, which, under any circumstances, we should feel at parting from one who has shown so much affectionate concern for our welfare, is rendered more intense by the reflection that our thoughtlessness must many times have caused you pain and increased the difficulties of your situation.

We sincerely regret that our conduct has not at all times been such as to merit your approval and to cause you to carry away none but pleasant memories of your stay in Peterboro.

As a slight token of our affectionate regard we beg your acceptance of this Writing Desk and these Books accompanied by our sincere wishes for your future happiness and prosperity.

It must be a matter of regret, to the Board to lose the services of two excellent teachers. In the case of one more important arrangements have induced the necessity for the change we understand The best wish of many friends are with her for her future happiness. Miss Lundy we understand leaves to take charge of a branch of the Whitby School, better remuneration, being the incentive.

A Miss Blaisdell of Washington County, N. Y. State, is engaged to take charge of the Primary Department, and a Miss Panton of Oshawa, to take Miss Lundy's place. Both ladies come highly recommended.

THE Orange Hall at Newburgh narrowly escaped destruction by fire on Saturday evening last, the 21st inst.

ALDERMAN McCarthy, a prominent lumberman of Hamilton, has assigned, leaving debts to the amount of $150 000.

Miss Rev. John Pomeroy, [illegible] a pamphlet entitled [illegible]

The Governor-General's Speech.

The Speech of the Governor-General at the opening of the present Parliament was as follows:

Honorable Gentlemen of the Senate:
Gentlemen of the House of Commons:

I have convoked Parliament at the earliest moment consistent with the delay entailed by the recent dissolution.

Your attention will be invited during the present Session to measures having reference to the Representation of the People in Parliament embracing the system now prevailing in Great Britain and in most other countries enjoying Constitutional Government of taking votes by Ballot, and to the establishment of a General Court of Appeal.

Measures will also be submitted to you for the amendment of the Laws relating to controverted Elections, the Militia and Insolvency.

The enactment of 1872 respecting the Canadian Pacific Railway having failed to secure the prosecution of that great enterprise, you will be called upon to consider what plan will be best and most speedily provide the means of Trans-continental communication with British Columbia. A report of the Chief Engineer will be laid before you, showing what progress was made during the past year in the surveys connected with the proposed line. The destruction of the Railway Offices by fire involved a serious loss of maps, plans and papers, the possession of which would have made the report more complete.

The Canal and Harbor improvements are being vigorously prosecuted with a view to ensure adequate accommodation for the rapidly growing trade of the country.

The report of the Chief Engineer of the Department of Public Works on the proposed Canal between the Gulf of St. Lawrence and the Bay of Fundy will be submitted for your consideration.

With the progress already made in the construction of the Intercolonial Railway, another year will be required to complete it. A report indicating its actual condition will be laid before Parliament, and measure will be introduced to vest in the Department of Public Works the powers now exercised by the Board of Railway Commissioners.

The question of compensation due to the Dominion for the Fishery privileges conceded to the United States by the Treaty of Washington, has given rise to a renewal of negotiations tending to widen reciprocal trade relations with that country. At the instance of my Government, the Imperial authorities have given directions to the British Minister to discuss the whole subject with the Administration at Washington and have associated with him for this purpose a Canadian Commissioner.

Gentlemen of the House of Commons:

The accounts of the last financial year will be laid before you, as well as a statement of the receipts and expenditure of the present year to the latest practicable period.

I regret to state that the receipts of the current year will not be sufficient to meet the expenditure. It will therefore be necessary for you to consider the best means to be adopted for making good the anticipated deficiency.

The Estimates for the ensuing year will be laid before you. They have been prepared with as much regard to economy as is consistent with efficiency of the Public Service.

Honorable Gentlemen of the Senate,
Gentlemen of the House of Commons:

The combined efforts of the Dominion and Provincial Governments to promote Immigration have met with a reasonable measure of success, thus adding a considerable number of desirable persons from other countries to our industrial population.

Notwithstanding the commercial depression which, through exceptional causes, prevailed to some extent during the past year, it is satisfactory to know that the general prosperity was not thereby seriously affected. I do not doubt but as the great natural resources of the Dominion become more widely appreciated, the results will be a healthy stimulus to the enterprise and energy of our people and a still larger accession to our numbers.

I trust that your deliberations may be directed by wisdom and aided by Divine Providence.

By-Law No.—

A BY-LAW to provide for the granting of a Bonus to the extent of Eighty Thousand dollars in Debentures of the Corporation of the Town of Peterborough, to the Cobourg, Peterborough and Marmora, Railway and Mining Company to aid in the construction of the Railway of the said Company northward to Bobcaygeon and Fenelon Falls or some other point northward or north eastward of Bobcaygeon.

WHEREAS the Corporation of the Town of Peterborough have resolved to grant aid by way of bonus to the Cobourg, Peterborough and Marmora Railway and Mining Company, to assist them in extending their Railway northward to Bobcaygeon and Fenelon Falls, by giving to the said Company Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars upon the terms and conditions hereinafter mentioned.

AND WHEREAS by an Act of the Parliament of the late Province of Canada passed in the twenty fourth year of the reign of Her Majesty Queen Victoria, entitled "An Act to consolidate the debt of the Town of Peterborough and to authorize the issue of Debentures upon the security of Town property and for other purposes." It was enacted that for the purposes and in the manner therein particularly mentioned and set out and to the amount therein mentioned it should be lawful for the commissioners therein named to issue Debentures under the seal of the said corporation to be signed by the Mayor, countersigned by the Treasurer of the said Corporation and by the Secretary of the said Commissioners and that the Council of the said Town of Peterborough should annually, upon the application of the said Commissioners raise upon the rateable property of the Town the interest and sinking fund requisite for the ultimate redemption of the said Debentures.

AND WHEREAS by an Act of the legislature of the Province of Ontario passed in the year of our Lord one thousand eight hundred and seventy-two, entitled "An Act to authorize the Cobourg, Peterborough and Marmora Railway and Mining Company to extend its line of Railway and for other purposes." It was amongst other things enacted that it should be lawful for the corporation of the Town of Peterborough by By-law duly submitted to and approved by the ratepayers of the Town in the manner required by Law, and notwithstanding the provisions of the Act hereinbefore recited to grant aid by way of bonus to an amount not exceeding One Hundred Thousand dollars to the said Company and to issue Debentures therefor, which Debentures should be subject to the same provisions as those authorized under the said recited Act, and further that it should be lawful for the said Corporation of the Town of Peterborough by such by-law to impose such conditions upon which such aid should be granted as the said Corporation should deem expedient, which conditions upon the acceptance by the said Company of the aid so granted should be binding upon the said Company.

BE IT THEREFORE ENACTED by the Municipal Council of the Town of Peterborough:

1. That it shall and may be lawful for the Corporation of the Town of Peterborough to aid and assist by way of Bonus in the construction by the Cobourg, Peterborough and Marmora Railway and Mining Company of an extension of their Railway northward to Chemong Lake, Bobcaygeon and Fenelon Falls or some other point northward or north eastward from Bobcaygeon by giving to the said Company the Debentures of the Corporation of the Town of Peterborough to the extent of Eighty Thousand dollars and that for that purpose it shall and may be lawful to issue Debentures of the said corporation for the said sum of Eighty Thousand dollars, such Debentures to be issued in the manner provided by the said recited Act of the Twenty-fourth Victoria and to be otherwise subject to the provisions of the said Act.

2. That the said Debentures shall be made payable in twenty years at furthest from the time or times they may be respectively issued as hereafter provided.

3. That the said Debentures shall bear interest at the rate of six per cent. per annum from the date thereof which interest shall be payable half yearly at the office of the Secretary of the said Commissioners of the Town of Peterborough.

4. That the necessary rate for the payment of the interest and sinking fund for the ultimate liquidation of the said Debentures as required by the said recited Act of the Twenty-fourth Victoria shall, in addition to all other rates, be raised, levied and collected in each year upon all the rateable property in the said municipality during the continuance of the indebtedness created by the said Debentures.

5. That the said Debentures shall be so issued and handed over to the said Cobourg Peterborough and Marmora Railway and Mining Company or to whomsoever they may appoint to receive the same in the manner at the times and subject to the conditions hereinafter next named and not otherwise; that is to say a portion thereof, namely to the amount of Forty Thousand dollars to be issued and delivered to the said Company when the said proposed Railway shall have been completed and in running order from the Town of Cobourg to some navigable point on Chemong Lake and provided that it is so completed and in running order before the first day of July one thousand eight hundred and seventy-five, and another portion thereof, namely, to the amount of the sum of Twenty Thousand dollars to be issued and delivered to the said Company when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Bobcaygeon provided that it be so completed and in running order by the First day of July one thousand eight hundred and seventy six, and the remaining portion thereof, namely to the amount of Twenty Thousand dollars when the said Railway shall have been completed and in running order from the Town of Cobourg aforesaid to the Village of Fenelon Falls, in the County of Victoria, or to some other point northward or north eastward of the said village of Bobcaygeon and distant twelve miles therefrom providing it be so completed and in running order by the *First day of July*, one thousand eight hundred and seventy-seven. Provided further that the said respective portions of the said Debentures are only to be issued and delivered as aforesaid in the event of the said respective portions of the said Railway being so completed and in running order by the times hereinbefore limited, and provided further that the completion of the Road above mentioned for the purpose of entitling the said Company to the said Debentures shall not include the permanent embankment over Rice Lake hereinafter mentioned, but shall include such a construction over the said Lake as will be suitable for ordinary traffic over such Road until such permanent embankment shall have been completed as hereinafter mentioned. But it is nevertheless hereby further provided that the said two sums of twenty thousand dollars respectively last above mentioned shall no become payable as provided by this By-Law, and this By-law as to the said sums shall become inoperative and void unless the said Company shall on or before the first day of September, now next, have entered into a binding agreement with the said corporation of the Town of Peterborough obliging the said Company in a penalty of the sum of ten thousand dollars, that the construction of the said proposed Railway northward from Chemong Lake, shall be commenced, proceeded with and completed within the times and in the manner hereinbefore mentioned.

6. That the said Bonus so to be given as aforesaid and in every part and parcel thereof shall be and is hereby made subject to the conditions hereinafter next mentioned and subject to the said Company entering in to a good and sufficient contract with the corporation of the Town of Peterborough before any of the said moneys shall become payable to comply with the same—that is to say.

(1) That the said Railway Company shall run or cause to be run at least one train a day —a regular freight and passenger train—each way between Cobourg and the northern terminus for the time being, of the said Railway.

[2] That a solid embankment and bridge shall be constructed over the Rice Lake within a period of five years from the passing of this By-law according to the plans of Walter Shanley, Esq., Civil Engineer.

[3] That the said Company shall not nor will amalgamate with or enter into any arrangements with any rival company whereby a tariff shall be agreed to be mutually charged by both compabies or for the apportioning of trade between them.

[4] That a regular Passenger and Freight Station of the said Railway shall be maintained in the Town of Peterborough,

[5] That the Mayor of the Town of Peterborough for the time being shall always be made a Director of said Company.

[6] That the tariff of the said Railway shall not in any case exceed the ordinary current tariff of the Midland Railway for the year 1871 and that the said tariff shall include a rate for the carriage of raw material from the front by the car load to Peterborough for the purpose of manufacture, twenty-five per cent lower than the ordinary tariff.

[7] That the line of the said Railway shall touch Chemong Lake at some point navigable for steam and other vessels, and that the Company shall provide and maintain ample harbour and station accommodations for forwarding lumber where the said line may so touch Chemong Lake.

[8] That none of the said Debentures shall be so delivered or deliverable until a good and sufficient release to the Town of Peterborough of and from all liability under the By-law granting the sum of $40,000 to the Peterboro and Haliburton Railway Company shall have been given to the said Town.

[9] The said Company shall never charge less for the conveyance of goods or passengers from any point south of Peterborough to any point north of Peterborough than from any such point south of Peterborough to Peterborough nor shall they ever charge less from any point north of Peterborough to any point south of Peterborough than from any such point north of Peterborough to Peterborough.

[10] In constructing their Railway northward from Peterborough the said Company shall, if practicable, so construct it as to touch Chemong Lake on that side thereof next the Town of Peterborough.

7. That unless work on the extension of such proposed Railway from Chemong Lake northwards be actually and bona fide commenced and thereafter continuously proceeded with on or before the first day of January one thousand eight hundred and seventy-five, the obligation of the said Town of Peterborough under this By-law, except as to the said sum of forty thousand dollars payable when the said road shall have been completed to Chemong Lake aforesaid shall cease and be at an end.

8. That this By-law shall take effect and come into operation on the first day of July one thousand eight hundred and seventy-four.

9. That the votes of the electors of the said municipality shall be taken on this proposed By-law on the THIRTY-First day of March, one thousand eight hundred and seventy four and in the following places, that is to say in each of the wards of the Town at the places of polling therein respectively at the last Municipal elections, that the poll shall be opened at nine o'clock in the forenoon and closed at five o'clock in the afternoon of the same day—that William Cumming shall be Returning Officer for the First Ward, Jno Edwards for the Second Ward, Jno Irwin for the Third Ward, and Wm. Lee for the Fourth Ward.

NOTICE.

Take Notice that the above is a true copy of the By-law of the Municipality of the Town of Peterborough and that the votes of the Electors of the said municipality will be taken on

The 31st day of March 1874,

and in the following places, that is to say in each of the four Wards in the said Town and at the places of polling therein of the last Municipal election, that the polling shall open at the hour of nine o'clock in the forenoon and close at the hour of five o'clock in the afternoon of the same day. That William Cumming shall be returning Officer in the First Ward, Jas. Edwards Returning Officer in the Second Ward, John Irwin Returning Officer in the Third Ward, and William Lee Returning Officer in the Fourth Ward for taking the said vote, and that the said By-law will be taken into consideration by the Town Council of the Town of Peterborough after one month from the first publication thereof in the Peterborough Examiner newspaper the date of which first publication was on Thursday, the Fifth day of March, one thousand eight hundred eight hundred and seventy-four.

J. EDWARDS,
Town Clerk.

Peterborough, March 2, 1874.

COMMERCIAL MATTERS.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best Oils that are known, each one possessing virtue of its own. Scientee physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small ct Oils which they may contain.

S. N. THOMAS, Prescott, N. Y.

And NORTHROP & LYMAN, Newcastle, Ont., Sole Agents for the Dominion.

News.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Hoses' Peridocal Pills.

This lavalable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1 00 and 13¼ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

Official Report, Vienna Exposition, ewing Machines, &c.

(SHOOT 13, SEC. 2 R.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 300,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is so regulated that each complete machi e may be used as a sample for exhibition. This firm produces 600 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This noniversal machine sews the heaviest leather harness and the finest gauzes with a truly pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co-operators received Medals of Merit for Superior Ability.

Draining the Dregs.

Drink! drink! terrible drink!
In whose dark slough bright intellects sink.
To rise no more.
The lab'rer's serpent-curse.
Crushing in Habit's fold
The brave, the good, and the noble old
Content and store.
Weakening the brawny arm,
Filling the early hearse;
Turning the happy home,
Which, in Youth's dream, with flowers was strewn,
Into an earthly hell!
Making that angel girl
View with disgust the churl
Once loved so well.
Spreading shroud above;
Raising the deadly knife
In the midnight brawl against the life
Of perhaps a friend!
Losing respect, and she
Who tenderly rocked him on her knee—
Her heart to rend.

Dying without one tear
To dew his resting place:
A wife's child's, sorrowmany a year
The Drunkard's only trace.

Thirty Reasons.

David Paul Brown, recently made an argument in favor of prohibition, in which he most completely set aside all constitutional and financial objections, and gave the following thirty reasons why intoxicating liquors as a beverage should be prohibited by law. We would like to see some apologist for liquor-selling attempt to offset them with the same number on the other side of the question. Mr. Brown asks all to join in the practical enforcement of the doctrine that the sale of intoxicating drinks as a beverage should be prohibited by law, because:

1. They deprive men of their reason for the time being.
2. They destroy men of the greatest mental energies.
3. They lower and discourage every species of immorality.
4. They bar the progress of civilization and religion.
5. They destroy the peace and happiness of millions of families.
6. They reduce many virtuous wives and children to beggary.
7. They cause many thousands of murders.
8. They prevent all reformation of character.
9. They render abortive the strongest resolutions.
10. The millions of property expended in them are lost.
11. They cause the majority of cases of insanity.
12. They destroy both the body and the soul.
13. They burden sober people with millions of paupers.
14. They cause immense expenditures to prevent crime.
15. They cost sober people immense sums in charity
16. They burden the country with enormous taxes.
17. Because moderate drinkers want the temptation removed.
18. Drunkards want the opportunity removed.
19. Sober people want the nuisance removed.
20. Tax payers want the nuisance removed.
21. The prohibition would save thousands now falling.
22. The sale exposes our persons to insult.
23. The sale exposes our families to destruction.
24. The sale upholds the idle and vicious at the expense of the industrious and virtuous.
25. The sale subjects the sober to great oppression.
26. It takes the sober man's earnings to support the drunkard.
27. It subjects numberless wives to untold sufferings
28. It is contrary to the Bible.
29. It is contrary to common sense.
99. We have a right to rid ourselves of this burden.

Boys' Names.

As a general rule, people give names without knowing or caring what they signify. For the amusement of curiosity hunters, here is a small list of masculine names with their definitions:

George—Husbandman.
Albert—Nobly bright.
Charles—Strong and valiant.
Richard—Great heart.
Herbert—Glory of the army.
William—Helmet of resolution.
Frederick—Rich peace.
Hugh—Rich, lofty.
Isaac—Laughter.
Patrick—Nobleman.
Robert—Famous in council.
Edward—A truth keeper.
Edwin—Wins all hearts.
Joseph—He trusts in God.
Gilbert—Light of many.
Samuel—Called of God, answer of prayer.
Frank—Indomitable, self-willed.
Henry—A hero.
Thomas,—A sun god.
John—Gracious in the sight of the Lord.

PROVING A THEFT.—Two "neebor wives" quarrelled one day, and one called the other a thief. Feeling determined to remove such an unjust stain on her character, the aggrieved woman went to a lawyer. "Mrs——ca'd me a thief," she cried; "dae ye think I should gar her prove her words?" "No," replied the lawyer, "I would not advise you to make her prove what she said, for you might get thirty days' imprisonment if she did."

The Oswego *Times* has a good story in connection with the literary piracy in which the students in some colleges and academies indulge. The late D. P. Page, the first principal of the Albany State Normal School, remarks to the following purport: He said that a few years previous, while travelling in Massachusetts, his wife at a hotel, found an article in a magazine that impressed her so favourably that she copied it in her scrap book. He read it at the time and had not thought of it since till the evening before, when the same article had been handed him by one of the students for correction, as an original composition. He sincerely regretted that young ladies and gentlemen aspiring to the honorable position of teachers, even one should be found who would do such a dishonorable thing as to try to pass off as his or her own the production of another, and his first impulse was to expose the fraud in open school. But he presumed that was the first thing of the kind that had occurred in that institution, and as there might be extenuating circumstances, he felt disinclined to forgive the offender, provided that individual should call at his room within three days, confess the fault and promise not to repeat it. In the statement Mr. Page gave no intimation as to the character of the "pieces," or the personality of the offender, and before the expiration of the three days more than two-thirds of the students had called upon him acknowledging the offence, and apologized, "and," said he, while relating the circumstances "the right one did not come at all." The story needs no comments, and embodies its own conclusions.

Twenty years experience in using "Bryan's Pulmonic Wafers" have proved them to be the most effectual remedy for coughs and irritation of the throat, caused by cold or unusual exertion of the vocal organs; public speakers and singers will find them most beneficial. The entire freedom from all deleterious ingredients renders "Bryan's Pulmonic Wafers," or Cough and Voice Lozenges a safe remedy for the most delicate person, and has caused them to be held in high esteem by all who have used them. Sold by all medicine dealers at 25cts per box.

If a person faints place him instantly flat on the floor, or bed, on his back, and let him lay quietly for ten minutes or so; it is simply a fainting fit, and the blood flowing on a level will speedily equalize itself through the system. If you are troubled with rheumatism, pleurisy, pain in the side or back, cramps in the stomach, burns, frost-bites, &c., procure at once a bottle of "Canadian Pain Destroyer," which is a certain cure for all such complaints. Sold by all medicine dealers.

VINEGAR BITTERS

PURELY VEGETABLE — FREE FROM ALCOHOL
DR. J. WALKER'S CALIFORNIA
VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked. "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Folk Lore and Fashion.

A Sleeping Beauty in the wood,
Her locks in golden order lay on her mossy bed,
Would half a pound of Chignon, good,
Have pilfered stealth upon her head.

On Beauty's crown a beer-rick towers;
A thing of grace, O Christian friends,
Adorned with artificial flowers,
And sprigs, and shrubs, and ribbons' ends

Forms of an ilder fame, some,
Would in her locks not find a lair;
The little birds and dormice come,
And build and nestle in her hair.

ODDS AND ENDS.

Steam is a servant that sometimes blows up its master.

The narrow way of life is broad enough for men, who carefully, gently, evenly, walk in it.

It is noticeable that when a patient begins to feed more, the doctor always feels less.

Here is a coocoo bat Cupidal love-letter written by a Colorado miner: "Loves yours is rather long to kort a gal, but He have you yit, Cate."

ANOTHER LIBEL.—A Wisconsin editor takes it upon himself to say that "cows, elephants, or rhinoceroses may run gracefully, but women never."

Sabbath school teacher—"What was St. Paul bound with at Cesarea?" First Pupil—"A girdle." Teacher—"What is a girdle?" Second pupil—"An iron thing for fixin' bannocks."

"Sarah," said a young man the other day, "why don't you wear ear rings?" "Because I haven't had my ears pierced." "I will bore them for you." Thank you—you have done that enough."

"What an idiot I was," cried a housemaid who had just taken a new place, "not to learn to read when I was gal! Why, master and mistress leaves all their letters about!"

Uncle James, won't you perform some of those juggling tricks for us to-night that you learned in China?" "No, my dear, I'm not in the vein." "What vein, uncle?" "Why the juggler vein, of course."

CONSOLATION.—Housemaid—"I'm sorry to hear you've lost your uncle, Mary." Mary—"Yes, it was quite sudden. But—ain't it a real comfort as I got that black dress, instead of the green one you wanted me to buy?"

A recent visitor to Rhode Island has made the discovery that Napoleon was mistaken when he said "that Providence was on the side of the heaviest artillery," for the heaviest artillery is at Fort Adams, and Providence is on the other side.

In these lives of ours, tender little acts do more to bind hearts together than great deeds or heroic words, since the first are like the dear daily bread that none can live without, the latter but occasional feasts—beautiful and memorable, but not possible to all.

THE LAST THING OUT.—We understand that the Chancellor of the Exchequer, having failed in taxing the poor people who make matches, intends next year to tax the poor people who don't make them, and thus all bachelors will be matched in strict proportion to their eligibility.

"Will you hae a swap o' kail, Mr. Brown?" asked a lady of one of her guests, at a good substantial Scotch dinner. "Ou, ay, mem, thank ye. I aye like a pickle kail. If they're guide kail they're worth seppin'; and if they're no guide it's a sign there's no muckle to come after."

A gentleman, in speaking of a nobleman's wife of great rank and fortune, lamented very much that she had no children. A medical gentleman who was present observed that to have no children was a great misfortune, but he thought he had remarked it was "hereditary" in some families!

The first thing a young man does when he sees a friend with a new hat on is to take it off and serenely try it on his own head. When a young lady sees one of her acquaintance with a new bonnet, she just lifts up her nose and serenely wonders "where the thing got that fright from."

JAPAN TRAITS.—Sarah—"The Japanese are not allowed to wear beards, mum, are they?" Mistress—"What an extraordinary question, Sarah. I never saw one with a beard. I think, perhaps, it's more the custom to shave." Sarah (of rather mixed ideas)—"Lor, mum, I shouldn't think they'd go and do that. Take all the Japan off, mum, wouldn't it?"

A STRANGE TIP.—English Tourist—"My good man, will you please inform us the shortest way to the railway station?" Pat—"Bedad, an' aint Donly too delighted; ye' go on sthrath until ye git to Pat Doolan's Well; go on then till ye reach Long Biddy's Turn; turn thin, an' beyant that, you'll see the Divil's Nightcap, past Tim O'Flaherty's, against Dan O'——" &c.

A USEFUL CAUTION.—A farmer, the elder of a rural parish in Forfarshire, was suggesting to his lately appointed and youthful pastor, how he should proceed in his ministerial visitations. "When ye ca' on John Ramage o' the Hillfoot, sir, ye may speak aboot onything but ploughin' and sawin'. John, ye see, sir, is sure to notice your deficiency on thae matters; and if he should find out that ye dinna ken aboot ploughin' and sawin', he'll no gie ye credit for understanding onything else."

A lot of minstrels started on a tour recently. They went to a town not far away, and advertised to give a performance for "the benefit of the poor, tickets reduced to sixpence." The hall was crammed full. The next morning a committee for the poor called upon the treasurer of the concern for the amount said benefit had netted. The treasurer expressed astonishment at the demand. "I thought," said the chairman of the committee, "you advertised this concert for the benefit of the poor?" Replied the treasurer, "Didn't we put the tickets down to sixpence, so that the poor could all come?" The committee vanished.

—A QUESTIONABLE COMPLIMENT.—A wealthy tobacco lord, who in early life had been a soldier, was one day passing the "plainstanes" of Glasgow, when he was accosted by a poor woman. Turning to her disdainfully, he said—"Don't speak to me here, woman; I gie nae charity on the street." "It was no charity, Sir Bailie, that I was seeking," said the woman; "I was only wanting to thank you for the great service you did to my laddie." Somewhat mollified by the unexpected praise, the scarlet cloaked aristocrat stopped and said—"And what did I do for him good woman?" "Oh, Sir Bailie," she replied, "when you were fetching at the head o' your company at the battle of Dettingen, and ran awa', my son, who was next you, ran after you, and so saved his life!"

AN UNSOPHISTICATED SERVANT.—A notable lady had long been annoyed and fretted by her town servants, and being no longer able to bear their mannold tricks and malpractices, she intimated to her friends her purpose of getting an unsophisticated girl from the country, whom she could train to her mind. She was fortunate enough in securing a young woman from a remote corner of the land, thoroughly recommended for activity, honesty, and good nature. How the process of training went on, may be judged from the following specimen. The girl having seen something very wonderful going on in the street, in a tone of unsophisticated familiarity called to her mistress—"Eh! mannam, come here and see this." "Woman! do you presume to call me, your mistress, a woman?" "Ay—if ye are no a woman, what are ye? Are ye a reporrt.

WHAT CONSTITUTES A CAR LOAD.—Below will be found a statement showing what constitutes a car load, and though it may not exactly suit everywhere, it approximates so closely to a general average that shippers will find it a great convenience as a matter of reference:—As a general rule, 20,000 pounds or 70 barrels of salt, 70 of lime, 90 of flour, 60 of whiskey, 200 cooks of flour, 6 cords of hardwood, 7 cords of softwood, 18 to 20 head of cattle, 50 to 60 head of hogs, 80 to 100 head of sheep, 2,000 feet of inch boards, 17,000 feet of shingles, 12,000 feet of flooring, 40,000 shingles, one half load of hand loads, one fourth load [illegible], 240 bushels of [illegible], 400 of barley, 500 of oats, 600 of buckwheat, 800 of [illegible], 1,000 bushels of corn.

Ayer's
Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the glow and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a nasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.
NORTHROP & LYMAN,
Newcastle
General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so firmly upon the confidence of mankind, as this our last remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its unlimited character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the distressing affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed, as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of those here, or prove them, assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

[illegible]

THE REASONS WHY LAZARUS, MORRIS & Co's Perfected Spectacles; AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. Because they are found to possess all the qualities claimed for them.

2nd. Because they will reclaim sights abused by the cheap-jack glasses, and will often be found to restore failing sight to its natural state.

3rd. Because no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

4th. Because the system of fitting is an unerring guide to the true requirements of each purchaser—our agents are furnished with this system—solely our own.

5th. Because the nerve tire the eyes and last many years without the necessity of change.

6th. Because being the best they are the cheapest.

Innumerable testimonials might be here given but the one of those Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

WM. H. TAYLOR, M.D. Sole Agent for PETERBORO'

Peterborough Examiner.

PETERBORO', APRIL 9, 1874.

Young Canadian L. O. L.

The regular monthly meeting of the above Lodge for April will be held next Tuesday evening, 14th inst.

Orange Musical and Literary Entertainment.

On Monday evening the members of L. O. L. No. 180 will give a Literary and Musical entertainment in the Temperance Hall. A pleasant evening is confidently expected.

Sale of Building Lots.

An excellent opportunity will be offered on the first day of May, when the lots west of Mr Hill's residence will be offered for sale. Terms very easy.

Personal.

Mr. John Howden, we understand, is about commencing the Butchering business in Lindsay, to which place he intends moving in a short time. Mr. Howden has been Chief Constable in Ashburnham for the last two years, which position he filled creditably. Previously he had also acted as Constable for the Town, and was an efficient officer, being an enemy to evil doers. We wish him all success in Lindsay, whither he is removing.

County Valuators.

Messrs. Staples and Fisher, the gentlemen appointed by the County Council as Valuators, arrived in Town on Monday, and met the Warden and Advisory Committee on Tuesday. After discussing the terms of the By law, and the charges in the county, all parties agreed that it would be difficult to carry out the provisions of the By-law. It was therefore agreed to drop the matter for the present. The people, we believe, will bear the Warden and Advisory Committee out in this The expense would have been about $6 a day, and it would have required about six months' work. The cost attending it would have been $1,248, if not more. If one sixth of this sum be spent in prosecuting Assessors who do not do their duty according to law, a remedy for irregular assessment will soon be provided. It is certainly doubtful whether Valuators would remedy the evils unless they actually valued each parcel of real estate in the county, which was not provided for in their appointment. And anything less than this would be a useless outlay of money.

The Whistle-Wing

Will commence running on her old route, about the beginning of next week, or shortly after. She has been completely repaired, painted, &c., and fit for the season's work. Mr. Calcutt has spared no pains in the past to accommodate the public, nor will he cease to be as obliging and civil for the future. We trust that a good season's patronage will be the recompense of his enterprise.

Sir John and Riel.

This interesting accession to the House of Commons, it is stated, will take his seat behind Sir John Macdonald, and as *La Nouveau Monde* says that the subject of the Amnesty is sure to come up in course of the debate upon the Address, which commences this afternoon, one can imagine the ex-Premier casting furtive and uneasy glances at the sinister presence behind him, and mayhap bitterly regretting the weak and vacillating policy on his own part which has enabled such a man to enter the august sanctuary of Parliament.—*Witness.*

Yesterday the status of Riel was discussed, but as we go to press we have not full information of the results. He will not be allowed to take a seat in the House.

Strong Drink at Public Dinners.

On this subject the Napanee *Standard* says, in alluding to the dinner to Mr. Penny of the Montreal Herald ;—The elevation of Mr. Penny to the Senate was on all hands acknowledged to be a party transaction, and the dinner is to be viewed in the same light. But all party movements are not necessarily to be condemned, and, therefore, we note the fact that, as the elevation of Mr. Penny was not offensive to the leading Conservative Journal of Montreal and many others,—so the dinner was graced by the presence of Mr. Ryan, M. P., and Mr. T. White, of the *Gazette*. The cobbler must have been very good, and as to the drinks, the "old mid the better for us, as we are, hostile to all drinks which intoxicate, so are we hostile to all public dinners where they constitutes a part of the programme.

The policy of the *Standard* on this question is sound. Would that all our journals, Reform and Conservative, were bold enough to avow these principles and condemn every position they hold to defend humanely.—Ed. *Examiner.*

TOWN COUNCIL.

The Council met on Monday evening. Present—Reeve Smith, Deputy Reeve Burnham, Councillors Bennett, Robinson, Dunsford, Hall, Ridenbrook, Dunlop, Macdonell, Hamilton, Toole and Cahill. In the absence of the Mayor, Mr. Ridenbrook was called to the chair.

While the minutes were being read, Mayor Cox entered and took his seat.

The minutes were read and confirmed.

The clerk read his certificate of the passage of the by-law granting aid to the Cobourg, Peterboro and Marmora Railway.

Communications were read from H. H. Smith, asking the Council to refund a portion of the taxes paid by Bailie & Gemmel.—Referred to the Committee on Finance.

From F. W. Hamtain, Esq., asking the Council to supply the Registry office with a correct plan of the Town.—Received.

From Dr. Kincaid in reference to his salary as M. D. for the Town.—Referred to Finance Committee.

From Lewis H. Orde, of the Auditor's office, stating he would be in Peterboro to obtain the Mayor's signature to the Debentures due for the Municipal Loan Fund.—Referred to Mayor and Town Solicitor.

From E. Pearce, County Clerk enclosing copy of a resolution which passed the County Council appropiating $200 to improve the Court House square, provided the Town appropriate a like sum.

From Angus Williams asking to be appointed Inspector of Streets and Bridges —Referred to the Committe on Appointments.

From Mr. Loch asking the Council to grade Chamber Street.

Petitions were read as follows:

From George Munroe and others,
From John Babb and others,
From Jas. A. Hall and others,
From John Gillespie and others,
From Henry Richman and others,
Severally asking for sidewalks —Referred to the Street and Bridge Committee

From B. White, asking leave to open a butcher shop on Simcoe and Charlotte Streets.

From R. Wainwright praying that the prayer of the petition of B. White be not granted.

On discussion it was finally agreed to allow B. White permission to open on corner of Charlotte and Stewart Streets.

Mr. Romaine, as Chairman of the Gas Committee, subsitted a report which was received and adopted.

Mr. Boyd was heard before the Council in reference to a meeting about the Trent Valley canal, giving an interesting description of the magnitude and importance of the work.

On motion of Mr. Romaine, seconded by Mr. Hamilton, The thanks of the Council were voted to Mr. Boyd and conveyed to him by His Worship the Mayor.

The motion of Mr. Rutherford, seconded by Mr. Robertson, of which notice was given, was read.

That in future no moneys on accounts should be paid unless recommended by the Finance Committee, except when appropriations have been made for Streets and Bridges and chargies, and when such appropriations have been made it shall be the duty of the Treasurer to furnish to this Council from time to time the amount of money thus expended, and vouchers for the same, and when the amount thus appropriated for the different works shall be expended and found insufficient to complete the work, application must be made again to this Council,

In amendment.

Moved by Mr. Toole, seconded by Mr. Beal, That it shall be the duty of the Treasurer through this year to submit to this Council at every regular meeting, a statement of the amount of money paid out by any committee authorised to expend money, so as to enable the Finance Committe to strike the rate to cover the whole liabilities of the year.

The amendment was carried.

Moved by Mr. Toole, seconded by Mr. ——, That the Street and Bridge Committee be authorized to comply with the request of Mr. McWilliams and others so far as to enable him to change his trees. Carried.

An account from Dr. Kincaid for $37. 5 was referred to the Finance Committee.

Mr. Romaine gave notice of a motion to grant $500 as preliminary expenses on the Huron and Trent Valley Canal.

The Council then adjourned for one week.

Ashburnham Council.

The Council met on Monday evening.

Present—The Reeve and Messrs. Bennet, Rombough, Burnham, and Stratton.

The minutes of the previous meeting were read and confirmed

Communications were read from the Secretary of the Protestant Home, intimating the claim against the Council for the keeping of Mr. & Mrs. Waters.

From Charles Crowe, asking aid to pay a doctor's Bill incurred on account of a severe illness.

On motion of Mr. Stratton, seconded by Mr. Burnham, a By-law to provide for the appropriation of the portion of the Municipal Loan Fund due said village was read a first time. It was also read a second and third time and passed.

The By-law appropriating $1,500 of the Fund be used to pay off the debt of the municipality, and the balance, $1,304, be used to enlarge the present School Building.

On motion of Mr. Stratton, seconded by Mr. Burnham, that Reeve was instructed to issue his cheque for $5 in favor of J. F. Donnistoun, Esq., for advice in reference to a By-law of said village, providing money for erecting a new school building, and paying a part of the Town Steam Fire Engine.

On motion of Mr. Burnham, seconded by Mr. Stratton, the sum of thirty dollars was granted to the Protestant Home, and the Clerk was instructed to inform the Secretary that the Council did not entertain any responsibility for the keeping of Mr. and Mrs. Waters, beyond after the 1st of April, instant.

On motion of Mr. Graham, Mr. John A. McWilliams was heard before the Council, in reference to obtaining signatures to a petition. He stated that all the names on the petition were honorably obtained and that the person who said he had not put his name on it had positively written his own name.

On motion of Mr. Burnham, seconded by Mr. Rombough, a memorial to the Lieutenant-Governor in Council was read praying that the portion of the Municipal Loan Fund due to said Village be granted, in terms of the By-law of the Village passed on that behalf.

On motion of Mr. Bennett, seconded by Mr Rombough, the sum of $5 was granted to Mr. John Bentham, for pulling down and removing the dangerous chimney of the burned brick building.

On motion of Mr. Bennett, seconded by Mr. Burnham, a By-law to appoint certain officers was read and passed.

Mr. John Craig was appointed constable and overseers of highways and pound-keeper, salary $200.

Mr. D. McDonald, Treasurer.
Mr. Ingraham, Collector.
Mr. J. Stephenson, Assessor.

The salary of each officer being $50 a year.

On motion of Mr. Bennett, seconded by Mr. Stratton, the sum of $20 was granted to Charles Crowe, towards paying a doctor's bill.

The Reeve stated that the sum placed in his hands to meet pressing charity was expended.

On motion of Mr. Stratton, seconded by Mr. Bennett, the Treasurer was instructed to place $20 in the hands of the Reeve to meet absolutely necessary charities.

The council adjourned.

PUPILS ADMITTED TO THE COLLEGIATE INSTITUTE.

It must be exceedingly gratifying to those who are interested in the progress and prosperity of our Schools to know that all the pupils who were considered by the Local Board of Examiners to be qualified to enter the Collegiate Institute at the examination held in January last, have been admitted, without a single exception, by the Central Board of Examiners at Toronto. The time which most of the pupils had to prepare for this examination was very short, as the previous one, at which about 80 entered, was held near the close of the month of October. The number of pupils who passed the last Entrance Examination in connection with the High Schools and Collegiate Institutes of the Province was, on this account, comparatively small. Of these admitted by the Local Boards, many were disallowed or rejected by the Examiners at the Educational Department. It, therefore, speaks well for the efficiency of our Public School Department that all the pupils sent up from it passed so creditable. Let it be born in mind that the examination papers are prepared at Toronto by the Central Board of Examiners, that they are quite difficult for children at least, and that a general average of fifty per cent must be obtained by a candidate to secure admission. Three or four weeks ago, the Deputy Superintendent of Education for Ontario, Dr. Hodgins, sent a letter to one of the members of the Local Board of Examiners for the admission of pupils to the Collegiate Institute, informing him not only that *all* the pupils whose names had been forwarded by the Peterboro Board to the Central Board, had been admitted by the Education Department and granted certificates of admission, but also that the Central Board of Examiners had declared in regard to the papers sent by the Peterboro pupils that "the style of answering was good." It is evident that whatever may be the case in other Collegiate Institutes or High Schools, no attempt has been made here to crowd unqualified pupils out of the Public Schools into the Collegiate Institute, but on the contrary there seems to be a strong desire on the part of all concerned to have the pupils well qualified in all the subjects of study required for entrance before the are allowed to present themselves as candidates for promotion to the higher Department. The names of the candidates who passed and received certificates are :

Addie Dawson. Alexander Dawson, Kate Dawson, Walter Farrand, Frank Hilliard, Fred Hughes, Maggie Hamilton, Wm. Jupling. Douglas Lundy, Maggie McGee, Maggie McDonald. John Miller, Wm. Sherwood, Ellen Sherlock, Kate Ulliott, Clara Ulliott, Mary Yelland.

LOUIS RIEL.

At a late meeting of L. O. L. No. 80. the following resolution was passed, and sent us for publication :

Moved by Brother John Britton, seconded by Brother John English—

That whereas Louis Riel, the murderer of our brother Thomas Scott, has signed the roll of Parliament, and whereas it is difficult to believe that he can have done so and remained in the City of Ottawa for many days unapprehended without the connivance of the Government; and whereas it is currently reported that the Government have come to some understanding with the French members and the said Riel, whereby, and in accordance with such understanding, he is to submit himself to a trial, more or less formal in its character, and if found guilty on such trial he is to receive a full pardon.

Be it therefore resolved, that this Lodge is of opinion that should the Government in any way facilitate the escape of the said Riel from the just consequence of his crime, it would be an unpardonable outrage against the public feelings of Ontario, and of every loyal man in the Dominion, and should be visited by the condemnation of every man who detests a brutal murder in cold blood."

We have no objections to such resolutions as the above, but they should be according to taste.

The difficulty of believing anything depends on the political credence of the individual, and the report of Government connivance comes from a doubtful source. Why draw on imagination.—Ed *Examiner*

UNION SCHOOL.

The Board of School Trustees met on Tuesday Evening.

Present—Messrs. A. Smith, J. M. Smith, Edwards, McClelland, Rutherford, Robertson, Davis.

In the absence of the chairman, Mr. A Smith was asked to take the chair.

Mr. O'Beirne being absent through severe illness, Mr. Edwards acted as Secretary.

The minutes of previous meeting were read and confirmed.

Communications were read from Chas. Potter, Toronto, in reference to chemical apparatus. From Miss Panton, accepting the offer of the Board to fill Miss Lundy's position. From Mr. Finlay asking for increase of salary. From Mr. Mitchell of the Auburn school, asking for increase of salary, and for repayment of expenses incurred in heating and cleaning the school room for the last quarter.

Mr. Smith, chairman of the Committee on appointments, submitted a report that the committee had succeded in filling the vacancies caused by the resignation of Miss Lundy and Miss Leete, Miss Panton, who takes Miss Lundy's place at a salary of $300. Miss Blaisdell, who takes Miss Leete's place at $400. The report was received and adopted, on motion of Mr. McClelland.

Mr. J. M Smith asked if the committee was prepared to report on the revision of salaries as referred to it last meeting.

The chairman said the committee did not exactly know what had been referred to them and, therefore had no report.

Mr. J. M. Smith thought the revision of the salaries of all the teachers was referred.

Mr. Davis, as seconder of the motion was of opinion that only applications for increase of salaries were referred as they might occur.

Messrs. Stevenson, Cox and Toole took their seats at the board, Mr. Smith vacating the chair for Mr. Stevenson.

Accounts were submitted from Mr. Romaine for printing, and from Mr. Best for stoves, repairs, coal oil, &c., and referred to Finance Committee.

Mr. J. M. Smith thought that the best way to dispose of applications for increase of salaries would be for a committee to report yearly as to what they would recommend and have their report fixed for the year. If teachers then wished to resign let them.

Mr. McClelland reminded the Board that a committee had revised and reported last year and still there was not entire satisfaction ; indeed continual revision would not satisfy all.

Mr. J. M. Smith moved, seconded by Mr. Rutherford, That the Committee on Appointments be also a Committee to take into consideration the salaries at present given to the teachers and report at next meeting of the Board, what increase, if any, should be granted. He thought that teachers should be made to feel that they were being fairly dealt with and then there would be no reason for complaints.

The motion was carried.

On motion of Mr. Toole, the claim of Mr. Mitchell for expenses ($6) for cleaning the school room was ordered to be paid

On motion of Mr. Davis, seconded by Mr. Smith, the Property Committee was instructed to get the outside doors of the school buildings made to open outward as provided by law.

The Board adjourned.

Archbishop Taché on the Amnesty Question.

We have seen how Lieutenant-Governor Archambeault on the strength of the Ottawa Government's promise, undertook the responsibility of promising a full amnesty for all the Red River troubles down to the time of his return there on his mission from the Canadian Government. He had, he said, studied the matter to the best of his judgment, conferred with persons eminent in the Governor-General's letter, and come to a perfect understanding with them as to the gravity of events and the necessity of doing something to prevent further complications of an even worse nature. It appeared to him that one only possible remedy was—the continued availability of the provision in the Governor's proclamation now forthcoming, to grant, here and there amnesties and pardons to the misled breeds, had the effect of weakening the influence of any subsequent proclamations with the latter. In consequence Mgr. Taché had to strengthen the Governor-General's proclamation which he brought with his word of honour that it would be certainly carried out, and that all without distinction would receive the benefit of the promises contained therein. That he did nothing rash or unwise in acting thus he appeals to a letter written him after explanation by the Secretary of State for the Provinces, dated Ottawa, 27th May, 1870, containing the following paragraph :

"I have received orders from His Excellency the Governor-General to express his sympathy with your troubles and his warm appreciation of your efforts in the cause of peace and moderation."

Mgr. Taché claims to have other direct and official proofs that he was not deceived in thinking that the events that had occured while he was on his way from Ottawa to Fort Garry had in no way altered the disposition of the Imperial authorities.

The delegation from Red River to treat upon the terms of the entrance of the territory into the Confederation is shown to have been a subject of difficulty to Lord Granville, the Colonial Secretary, whose courtesy, as shown in the official documents in connection with the North-West troubles, appears to have been to compel the Dominion to adopt a rather humiliating attitude towards the rebels, on the ground that mistakes by the Canadian Government had something to do with the inception of said trouble. His Lordship requested the Governor-General to send him frequent word by telegraph as to the starting, progress and arrival of the delegates, and among the other telegrams, His Excellency sent the following, dated in April, 1870 :—

"Smith has arrived here from Fort Garry bringing bad news A Canadian called Scott, has been, by order of Riel, judged by a Court martial and shot, with the view it is supposed, of compromising Riel's partisans before the arrival of Taché. It is said the delegates are on the way ; but it is very clear Riel will not yield but to force. Things have, in my opinion, a very bad look."

In regard to this, the important fact is to be noted that the Governor General dissociates Riel and the delegates. He expresses a fear that whatever the latter may do, the former will prove recalcitrant It is clear he did not recognise the delegates as representatives of Riel's Government.

The arrest of the delegates on a charge of participation in the Scott murder was duly notified to Lord Granville and, in answer to a question by him, it was stated that the Canadian Government was no way responsible for this arrest. The Abbe Richot, one of the delegates, wrote to the Governor-General, protesting against the arrest as a violation of the privileges according to a *parlementaire*, of being exempt from all hostile treatment until his return to a place of security In this protest Abbe Richot says (the italics are ours) :

"I am here in company of Mr. Judge Black and of Mr. Scott *as representing the North-West Territory*, on the ninth of a proclamation of your Excellency, on the assurance given by the Commissioners of the Government of your Excellency, and notably by Mr Smith and Colonel de Salaberry."

Although claiming the privilege of exemption from all civil or criminal jurisdiction while thus invested with the character of a *parlementaire*, Abbe Richot nevertheless feels bound to make the following declaration :—

"For my own satisfaction I declare to your Excellency before God and before men, that I have not any manner contributed to a man's death ; I know not the fact of Scott's execution (if it ever took place) except as the world in general knows or pretends to know it ; at this moment I would be incapable of giving the least evidence concerning this affair."

The delegates were afterwards set at liberty, and on the 3rd May, the Governor-General telegraphed to the Colonial Secretary that negotiations with them had terminated in a satisfactory manner, to which Lord Granville replied, expressing his pleasure to hear of the liberation of the delegates and the successful result of the negotiations with them His despatch terminated as follows :

"In making, in the House of Lords, a report of what has passed, I shall feel great pleasure in recognising publicly the fair judgment, decision and conciliation of which your Government has given proof in this unfortunate insurrection."

This, argues Monseigneur Taché, shows that Lord Granville comprehended the situation, and, despite the clamor raised throughout Canada, considered only the prosperity of the Confederation, and, above all, the Royal honor engaged by the word of its Representative ; and here he begins to style the delegates the authorized and accredited representatives of the Provisional, i. e. Riel's Government. The object of this is clearly to strengthen then the claim of Riel and his more immediate accomplices to an amnesty, by implicating the Dominion Ministry, the Governor-general and the Imperial authorities in a recognition of them as a *de facto* Government in consequence of receiving their delgates Some clear proof should be had on this important point, as, if after hearing of the Scott murder and other acts of Riel and his gang, the Dominion Ministry consented to treat with delegates from them as such, that of itself would practically amount to an amnesty. There does not appear to be any proof in the original documents that the delegates were received on any such footing, they seem rather to have been regarded as representing the people of the North-West generally, as is proved by the despatches from the Governor-General to the Imperial authorities, wherein he expresses his fear that no matter what the delegates may agree to Riel will only yield to force. It has also been seen that in his protest to the Governor-General Abbe Richot declares himself and his colleagues as representing the North-West Territory, i.e., the people there generally, and disclaims all connection with the Scott murder or its perpetrators. If he and his co-delegates represented Riel and his accomplices then they were implicated in the direst murder along with the latter, and instead of repudiating all knowledge of, or connection with it, they ought to have, for the sake of their principles, either defended the deed, or at least, have claimed, to say the least, include it in any definite terms, to secure to have done neither the one nor the other, and so far as yet appears the idea of calling themselves delegates of the "Provisional Government" was an afterthought for the purpose of extricating Riel from the difficulties Monck's creation has got him into. It is no matter what or how much share Riel may have had in the selection and committee-ing of the delegates; if they were only received at Ottawa on the footing of representatives of the North-West people generally, and not specially as commissioned by him, but after developments could change states ; The Dominion Government cannot be entrapped by latent facts not made known to them at the time of their reception of the delegates. In reference to Mr. Taché points to a great deal of correspondence between Sir George Cartier, Hon. Joseph Howe, Hon. Wm. McDougall, Hon. Wm. Macdougall, Hon. Wm. McDougall, Hon. Wm. Macdougall, Hon. Wm. McDougall, Hon. Wm. Macdougall

For the Peterborough Examiner.

DEAR SIR,—The interest that you manifest in the Reform party will permit me space to condemn the course of the Opposition during the session of the Legislature just closed. The time and money lost in foolish debates and in weak attempts to injure Mr. McKellar, the famous Legislator, deserves to be cast deemed by all honest farmers. If the Opposition expect to gain applause for their policy they will be mistaken. The dishonor attempted against him will be remembered. Farmers will not brook the insult offered him, and when they come to be re-elected Cameron & Co will be elected to stay at home.

Yours, &c.,
FARMER'S SON.

CANADIAN PAIN DESTROYER

A family medicine, well and favorably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach, Phthisic or Asthma, and restores to vital activity the system debilitated by sufferins and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

Official Report, Vienna Exposition. Sewing Machines, &c.

(Scene 13, sec. 2 n.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 900,000 of their Sewing Machines into practical use. The completeness of all of the parts by machinery is so regulated that each complete machine may be used as a sample for imitation. This firm produces 630 well adjusted machines daily.

"The latest productions of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This compact machine sews the heaviest leather harness and the finest of gauzes with a truly pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.,
6. Several co-operators received Medals of Merit for Superior Ability.

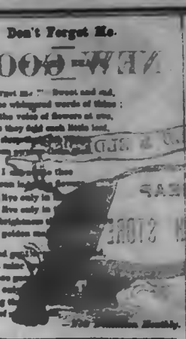
Don't Forget Me.



"Don't forget me," sweet and sad,
Were the whispered words of Willie;
Like the voice of flowers at eve,
When they fold each little leaf,
And to sleep on the
Till the Sun
Ah! but I
As the sun
They live only in
They live only in
Of the brightness
From his golden
Bright and gay
Ever in mine
For too
I am
Keeping
Goddess of

—Ohio Farmer, Monthly.

! ODDS AND ENDS.

The flax seed was first planted in England in 1533. The first flax water mill was invented in Scotland about 1750.

Last year in Java 186 men, 52 women and 85 children were killed by tigers, 158 persons by crocodiles and 33 by snakes.

Fire ships were first used in the sixteenth century. They were first employed by the English Navy in the engagement with the Spanish Armada, July 15[illegible].

The language of France was first introduced into England by William I. in 1066. Dow pleadings were changed from French to English in the reign of Edward III., 1362.

Funeral games are mentioned by most early writers. Among the Romans they consisted of processions and mortal combats of gladiators around the funeral pile. They were finally abolished by Claudius. A tax was laid on funerals in England in 1783.

Virginia was one of the United States, was discovered by Sebastian Cabot, sailing under the English flag in 1491. In 1763 Florida was ceded to Great Britain by Spain in exchange for Havana. The Spanish reconquered it in 1781, and ceded it to the United States in 1819. It was admitted into the Union in 1845.

The custom of crowning poets in contest on poetry (said). Frederick II. crowned the King of Verona at Aquileia in 1220. Petrarch received the laurel crown at Rome on Easter Day, 13[illegible]. Maximilian I. founded a poetical [illegible] Vienna in 1504. In England the [illegible] versifiers existed as early as 1251.

"Do try to talk a little common sense!" exclaimed a sarcastic young lady to a visitor—"Oh," was the reply, "but wouldn't that be taking an unfair advantage of you?"

The following question is respectfully addressed to the clergy:—Whether a person who sits in the gallery at church is responsible for deeds done in the body.

A California man tied one end of a rope around his waist, and fastened the other with the other. He thought he had the cow, but at the end of the first half mile he began to suspect that the cow had him.

"Please don't shoot the crow" is a sign on a farmer's fence on some marsh land a few miles from a town in Essex. The sign is intended for sportsmen who go out snipe shooting.

"You haven't polished your shoes to-day," said an Assistant adjutant to his Lieutenant; "you never saw me without a clean shirt on parade, when I was a corporal." "True, captain, but then your mother was a washerwoman!"

"Bill, where did you get them trousers?" asked Jim Lemon of a man who happened to be walking with a pair of remarkably short trousers on. "I got them where they grew," was the indignant reply. "There, by my conscience," said Paddy, "you've got them a year too soon!"

A good joke is told of Horne Tooke, whom the Tories in the House of Commons thought to crush, by imposing upon him the humiliating task of begging the House's pardon on his knees. Tooke went on his knees, begged pardon for the offensive expression which he had used, but, on rising up, he knocked the dust off his knees, and exclaimed, loud enough to be heard by the whole House, "it's a dirty House after all!" Roars of laughter followed this exclamation, and the Tories saw clearly enough that they had failed in the object they had in view.

Two Irishmen, Mike and Denis, returning home from market with a donkey, agreed that they should ride him by turns. Mike, walking behind when it was his companion's turn, threw a stone to urge the animal on, but, instead of striking him, hit his friend on the head. Denis, patting the blood to his head, turned round and said: "Dead, Mike, but that wicked wretch of a creature,' meaning the donkey, 'has gone and kicked me on the back of the head!"

Absent man of business—Sir, Mr. (forgets his name), will you excuse me for one minute? Take a seat—pray take a chair—take a—. Meek client—Thank you, I have one—. Man of business—That's all right—take another!"

We have lately found a man who speaks well of his mother-in-law. She died recently, and left his wife five thousand dollars. If mothers-in-law would get rate of habits of doing such things, how soon the prejudice against them would cease.

Two young men out riding, were passing a farm-house, where a farmer was trying to harness an obstinate mule. "Won't he draw?" said one of the men. "Of course," said the farmer, "he'll draw the attention of every fool that passes this way." The young men drove on.

"Your future husband is very exacting; he has been stipulating for all sorts of things," said a mother to her daughter, who was on the point of being married. "Never mind, mamma," said the affectionate girl, who was already dressed for the wedding "these are his last wishes."

THE THAMES.—The extraordinary rise in the tide of the Thames lately caused great damage along the banks. Lambeth and Rotherhithe were inundated, the sewers burst and the floats of many houses were forced up by the water. Several children and a number of horses were drowned in these places. At Wapping the lower stories of the houses were filled with water, and business on the wharves was suspended. Numerous families were compelled to abandon their homes. At Woolwich [illegible] the fires in the gun factories were extinguished, and the contents of the store sheds floated.

Breeding Horses For Farm Work.

A writer in the London *Mark Lane Express*, in discussing the points to be considered in breeding horses for farm labor, says: "The head should be comely, but [illegible] that of the she running [illegible] the animal to throw [illegible] the collar. He should be broad and flat in the forehead, have coat well set on ears, prominent-placed eyes, thin eye-lids, large nostrils, neat neck and be deep around the chest, not very high in the withers, with upright shoulders, broad fore arms, broad flat bone [illegible] the legs, rather short pasterns, good round feet, not too flat nor too upright, plenty of hoof, clean, straight back, with plenty loins, and ribs well arched. He should be long on the back rib and long in the quarter; the haunch should be strong—the hip [illegible] down, the hock joint [illegible] all and [illegible] Besides, no animal should be used that is not free from curb, hog or bone spavin, splint or ride bones. Horses with well developed muscles and good constitutions are easily kept, and can endure great fatigue."

THE LIVING man who saw Washington now resides, near Fredericksburg, and is 96 years of age. The continuance on this earth will terminate with the Philadelphia Centennial, where his [illegible] one of the [illegible] on exhibition. The old man's name is Forster. He has held Washington's horse, and hopes to see the Centennial to tie up collections of the General.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received, by me to professionally visit the villages of this County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favors able. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRANKS, M.D.,
of Manchester, Lancashire, England.
Lecturer on the human eye and ear and their diseases inventor and patentee of improvement in spectacles

SORREL.

The glow of hyssop is waning on my clouds,
And I, down Youth's calm stood, in a hill,
To the broad ocean swiftly sails to dusk,
Away from fairing leaves and chilly sighs
O song I new, our sense rides gloriously,
Hues sure Cherubims and tinselled wings unfurl,
And bold, o'er the supreme, still steadily heralds,
For golden shores, my frail and erring bark!
So, gliding onward for us we can see,
Veils my safe compass. Love my only chart,
Blown by Hope's winds from the receding strand
Shall I, long are the voyage done, moor be,
Near echoing voices hanging mine to greet,
And catch some glimpses of the Promised Land.

A Touching Story.

Many years ago—long anterior to the war—Hon. Alexander H. Stephens, then a leading member of Congress, was invited to address a meeting of Alexandria, called for the benefits of an orphan asylum and free schools in that ancient borough. In the course of his address, Mr. Stephens related the following anecdote: "A poor little boy, on a cold night, with no home or roof to shelter his head, no paternal or maternal guardian or guide to protect or direct him on his way, reached at night fall the home of a wealthy planter, who took him in, fed and lodged him, and sent him on his way with his blessing. To one kind attention cheered his heart, and inspired him with fresh courage to battle with the obstacles of life. Years rolled on. Providence led him on, and he reached the legal profession. His kind host had died, and the cormorants that prey on the substance of man had formed a conspiracy to get from the widow her estates. She sent for the nearest counsel to commit her cause to him, and that counsel proved to be the orphan boy, long before welcomed and entertained by her deceased husband. The stimulus of a warm tenacious gratitude was now added to the ordinary motive connected with the profession. He undertook her case with a will not to be resisted; he gained it; the widow's estate was secured to her in perpetuity; and, Mr. Stephens added, with an emphasis of emotion that sent an electric thrill throughout the house, "that orphan boy stands before you!"

Keep it to Yourself.

You have trouble—your feelings are injured, your husband is unkind, your wife frets, your home is not pleasant, your friends do not treat you fairly, and things in general move unpleasantly. Well what of it? Keep it to yourself. A smouldering fire can be found and extinguished; but when the coals are scattered, who can put them up? Bury your sorrow. The grain for seed and disgusting things is under the ground. A cut finger is not benefitted by pulling off the plaster, and exposing it to everybody's eyes; tie it up and let it alone; it will get well of itself sooner than you can cure it. Charity covereth a multitude of sins. Things thus covered are often cured without a scar; but, once published and confided to meddling friends, there is no end to the trouble they may cause. Keep it to yourself. Troubles are transient, and, when a sorrow is healed and past, what a comfort it is to say, "No one ever knew it until it was over!"

Go Home Boys.

Boys, don't hang round the corners of the streets. If you have anything to do, do it promptly, right off, then go home. Home is the place for boys. About the street corners, and at stables, they learn to talk slang, to swear, to smoke tobacco, and to do many other things which they should not do. Do your business and then go home. If your business is play, play, and make a business of it. I like to see boys play good, earnest, healthy games. If I were the town, I would give the boys a good, spacious playground. It should have plenty of soft green grass, and trees, and fountains, and broad space, to run and jump and to play suitable games. I would make it as pleasant, and as level as it could be, and I would give it to the boys to play in, and when the play was ended. I would tell them to GO HOME.

Death in the Cup.

"He that withholdeth the corn, the people shall curse him." Should this Scripture find a sudden fulfilment in the world when a scarcity of corn would be raised down upon the brewers and distillers of the lands.

What a terrible fact to contemplate, that $50,000,000 worth of breadstuffs is annually withholden from the people of the country,—enough to feed all the paupers of the land, and drive want from every home,—and made up into poison to fill the land with pauperism, crime, wretchedness and woe, annually murdering its 100,000 victims annually. God stored this food in nature's great store-house to feed his children and bring joy and gladness to the wife and children, and keep at a safe distance the ravenous wolf and hunger, but the harpies have plundered the storehouse of this divine blessing, and manufactured it into the blackest curse that man or devils ever invented for the ruin of men.

Who are more richly deserving of the curses of the people than the manufacturers and vendors of alcoholic drinks? The nutritious properties of the best Bavarian beer are so small, that it will take 720 gallons to contain as much as a five-pound loaf of bread: and it takes 1,200 pounds of barley to make 720 gallons of beer; here we see the wicked waste of bread. In 1869, England consumed 43,000,000 bushels of grain in her breweries and distilleries, and had 1,500,000 paupers, four-fifths of them made so by the poisons made from the grain. In 1846-7 when the famine raged in Ireland, and 500,000 people starved to death, there was then stored in her breweries and distilleries grain enough to have fed them all and saved their lives.

How long shall this murderous business go on? The Christian Church is largely responsible for the ram murders that fill all our public jourdals, and send red handed ruin through the land. Is this a Christian land that allows one hundred thousand human lives to be taken annually by the drink demon, and does not say to the lawmakers, stop this business?

Let the Christian Church say to day to every man nominated for office, 'Stop this business or be defeated,' it would very soon be placed in the condemned catalogue of other crimes. Until they say this, the families of 800,000 drunkards will hold them guilty for their brothers' blood, We send the gospel to the heathen of foreign countries and allow this heathen Moloch to destroy its millions in our own lands. Statistics recently taken in several towns in Connecticut, show that one-third of the men who die, die of intemperance. The whole church ought to arouse itself to this great work.—*Morning Star.*

Ruling Passion Strong in Death.

An old farmer up in all methods of making a good bargain, was very ill, and friends were expecting an early demise. His nephew and a man hired for the occasion had butchered a steer which had been fattened; and when the job was completed the nephew entered the sick room, where a few friends were assembled, when to the astonishment of all, the old man opened his eyes and turning his head slightly round, in a full voice, drawing out the words: "What have you been doing?" "Killing the steer," was the reply. "What did you do with the hide?" "Left it in the barn; going to sell it by and by." "Let the boys drag it around the yard a couple of times; it will make it supple beaver." And the good old man was gathered unto his fathers

Handing Over a Church.

At the crowded church of St. Mary Magdalene the collection was commenced with a ceremonial that was quite [illegible] extra. The incumbent, Mr. West, [illegible] at the church, and after a long [illegible] sermon, [illegible] the door closed. "Where are those?" The reply was "Why, you see, Dearly Beloved; therefore the door is closed." [illegible] Amen. [illegible] the end of the [illegible] edge of Sunday.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.
NORTHROP & LYMAN,
Newcastle
General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this open test remedy for pulmonary complaints. Through a long series of years, and among most of the races of men in fair from higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. When adapted to suitable forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the most prompt antidote of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept in hand in every family, and as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of those in the first and second stages, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the human throat, that the most obstinate of them yield to it. When nothing else could reach them, hundreds by Cherry Pectoral they entirely and dangerous.

Asthma and Bronchitis are often wholly cured by taking the Cherry Pectoral, as thousands have testified. Even those who have suffered for years, and who had given up all hope, will be surprised to find how speedily they are relieved by this remedy. Public [illegible] find great protection in it, whenever it is [illegible] and often wholly cured by it.

Ayer's Ague Cure,

Peterborough Examiner.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* they never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAVLOR, M. D.

Choice Poetry.

I Have Drank My Last Glass.

LOUIS A. UPHAM.

He comrades, I thank you, not any for me;
My limbs chain is riven, homeward I'm free!
I willgo to my home and my children to-night
With no fumes of liquor their spirits to blight,
And with tears in my eyes, I will beg my poor wife
To forgive me the wrack I made of her life!
"I have never refused you before?" Let that pass,
For I've drank my last glass, boys,
I've drank my last glass

Just look at me now, boys, in rags and disgrace,
With my blisured, haggard eyes, and my red blasted face!
Mark my faltering step and my weak, palsied hand,
And the mark on my brow that is worse than Cain's brand;
See my crestless old hat, and my elbows and knees,
All exposed to the sun or chilled by the breeze;
Why, even the hyenas will beat as I pass—
But I've drank my last glass, boys,
I have drank my last glass!

You would hardly believe, boys, to look at me now,
That a mother's soft hand was once pressed on my brow,
When she kissed me, and blest me, her darling, her pride,
Ere she lay down to rest by my dead father's side;
But with love in her eyes, she looked up to the sky,
Bidding me meet her there, and whispered "Good bye."
And I'll do it, God helping! Your smile I'll let pass,
For I've drank my last glass, boys,
I have drank my last glass!

Ah! I reached home last night—it was not very late,
For I'd spent my last expence and landlords won't wait
On a poor fellow who's left every cent in their till
And has pawned his last bed, their coffers to fill.
Oh! the torments I felt, and the pangs I endured;
And I begged for one glass—just one would have cured;
but they blasted me out doors!—I let that too pass,
For I've drank my last glass, boys,
I have drank my last glass!

As home, my pet Susie, with her soft golden hair,
I saw, thro' the window, just kneeling in prayer,
From her pale, bony hands, her torn sleeves were sunug down,
While her feet, cold and bare, shrank beneath her scant gown;
And she prayed—prayed for bread, just a poor crust
For one crust—on her knees, my pet darling plead;
And I heard, with no penny to buy one, alas!
But I've drank my last glass, boys,
I've drank my last glass!

For Susie, my darling, my wee six-year old,
Tho' fainting with hunger and shivering with cold,
There, on the bare floor, asked God to bless me,
And she said, 'Dont cry, mamma!' He will, for you see,
I believe what I ask for!" Then sobered, I crept
Away from the house; and that night, when I slept,
Next my heart lay the PLEDGE—You smile! Let it pass,
But I've drank my last glass, boys,
I've drank my last glass!

My darling child saved me! Her faith and her love
Are calm to my dear dikated mother's above!
I will make her words true, or I'll die in the race,
And sober, I'll go to my last resting place;
And she shall kneel there, and weeping thank God
No drunkard lies under that daisy-strewn sod!
Not a drop more of poison my lips shall e'er pass
For I've drank my last glass, boys,
I have drank my last glass!

Feminine Miscellany.

PEASANT MARRIAGES IN RUSSIA.

In Russia in every rank of life the great object of a girl is to get married as soon as possible, and of her parents to provide a dowry suitable to her rank and without which no husband could be found. "We ought to be paid for marrying them they are such a nuisance," is the well-known remark of the Muscovite on the fair sex; and certainly in the humbler ranks of life in Russia this principle is carried out. Directly a girl is known to have a good fit-out—as a bride should bring to her husband furniture, linen, plate, jewels, and what not—a suitor will present himself; but without some such a portion marriage is hopeless. Even the charitable institutions endow their protegees with a good dowry. An unmarried peasant wears her hair in one tail down her back, but immediately after the wedding ceremony and thence forward she braids it in two plaits, and wears a sort of tight cap tied behind, and leaving the ears exposed. There is an allusion to this in the "wedding song" which her companions sing while she is dressing for the ceremony.

"Ah my braid, my braid of maiden hair!
Ah, soon shall it be divided into two!"

THE BLIGHT OF NEGLECT.

Many a wife drags through life in a state of uncomplaining martyrdom, her happiness dying, dying surely for want of love. Perhaps the husband seldom spoke an unkind word to the wife. Yes, but did he remember now and then to speak a kindly word? Did he have a sympathy for her bodily or mental ails? Or was he blind and deaf to both, treating them with that cutting indifference which in time chills the most loving heart and silences its throbs forever? Men are very guilty in this respect. They take a young girl from the warm atmosphere of a cheerful, loving home, and after a few brief weeks of devotion, leave her to battle, single-handed, with new cares and duties and to bear sickness with what courage she may, and go their ways in into the tangled paths of life without a thought of the responsibilities they are shirking, or the solemn vows they have already broken. And yet they do not intend to be unkind; they do not understand the extreme sensibility of a woman's nature. The average wife not only desires her husband to love her, but is not satisfied unless he appears to regard and honor her as well as actually to do so. The order of flirts have a certain article of faith which comforts them mightily—that is, that a man's wife is always the most interesting woman in the room to him. If he does not know this, she does; and some act of graceful courtesy, some little word or motion, nothing in itself perhaps, but indicative of the tenderness he feels for her, gives the good wife a moment of triumph so innocent and sweet that no one begrudges it. A careless word, a little forgetfulness, quite pardonable or even unnoticed when they are alone, gives pain when watchful eyes, anxious to find a flaw in their wedded happiness, are upon the two who are bound to each other for life to each other. But men are singular creatures. Generally, it is at exactly such a moment that a husband chooses to give her the only sharp word he utters on the occasion; or to say something, quite unconsciously, which would lead any one to accredit them with a multitude of quarrels and bickerings. He does not improve her temper. Yet men generally love their wives better than all the other women they know put together. Those who have the grace to show this deficiency to others, are loved the best by women, who, of all living creatures, best appreciate kindly love.

Selfishness Rebuked.

A clergyman who lived in a New Jersey village which was not supplied with water works, was the fortunate possessor of a well of good water. Some of the wells in the neighborhood were not as good as his; and by common consent and long custom, many neighbors came into his lot and drew water from his well. It cost him nothing, except the tramping down of a little grass over which the people trod. But he got tired of accomodating the public, and nailed up his back gate, advising to it a sign warning all people against drawing water from his well. He had a right to do so; no reasonable person could dispute the legal correctness of his position. But soon afterwards when the neighbors (members of his congregation) began to say that he had done a small thing, he was startled to find on his gate a notice, erected by some critical unbeliever, and reading thus:

"COME TO JESUS."
BUT
DONT DRAW WATER
AT MY WELL.

The good man saw his mistake. He had not meant to be mean; but he had done an illiberal thing. If he was calling his neighbors to drink of the water of life was it the right thing to forbid them to fill their buckets at his well? He tore down the bars and threw open his gate, and let the people come and take of his well water freely. And he felt that the good-will of his neighbors was more than a compensation for the annoyance.—*Christian at Work.*

The Ancient Ring.

A man who wished to buy a handsome ring, went into a jeweller's in Paris, and desired to see some. The jeweller showed him a very ancient gold ring, very fine, and curious on this account, that on the inside is two little jaws. The buyer, while looking at the others was playing with this; at last he purchased another and went away. But he had scarcely reached home when his hand, then his side, then his whole body, became numb and without feeling, as if he had a stroke of the palsy; and grew worse and worse, till the physician, who came in haste thought him dying. "You must some how have taken poison," he said. The sick man protested that he had not. At length some one remembered this ring, and it was then discovered to be what used to be called a death ring, and which was often employed in those wicked Italian States three or four hundred years ago. If a man hated another, and desired to murder him, he would present him with one of them. In the inside was a drop of deadly poison, and a very small hole out of which it would not make its way except it was squeezed. When the poor man was wearing it the murderer would come and shake his hands violently, the lion's claws would give his finger a scratch, and in a few hours he is a dead man. Now see why I tell you this story. For four hundred years this ring had kept its poison, and in a few hours he was a dead man. Now see why I tell you this story. For four hundred years this ring had kept its poison, and at the end of that time it was strong enough almost to kill the man who had unintentionally scratched his finger with the claw; for he was only saved by great skill on the part of the physician, and by the strongest medicines. I thought, when I read this story, how like this poison was to sin. You commit a sin now, and for the present forget it; and perhaps 10 or 12 years hence the wound, you then, so to speak, gave yourself, may break out again, and that more dangerously than ever. And the greatest danger of all is lest the thought of committing sin, should come back upon us in the hour of death.—*Dr. J. McNeil.*

The Palace of Montezuma.

The ancient palace of Montezuma, in the heart of the city of Mexico, where that unfortunate monarch was seized and made captive by the treachery of the Spaniards under Cortz, is described as having been a place of great magnificence. It was was full of sculptured arches, pillars, and beautiful fountains. On the consummation of the Spanish conquest, it was converted into the Roman Catholic convent of San Francisco, and became one of the most wealthy and powerful religious institutions of the kind in the New World.

Church and State have, until within the past few years, been always united in Mexico; but a few years ago, under President Juarez, the Congress decreed a separation, and ordered the sale of all church property.

The American Methodists bought the palace last year for mission purposes, for the sum of $16,500, and, on last Christmas day, having cleaned up and repaired the building, it was publicly dedicated to Protestant worship. The walls are five feet thick, and it is built in the most strong and enduring manner. Much of the beautiful original sculpturing still remains, and it could not now be recut, it is said, for less than $100,000. The Methodists have room upon the premises for printing offices, schools, parsonages, etc., and expect on of these days, to make it the centre of a very extensive scene of educational operations.

Origin of the Dollar Mark.

A writer in the *Atlantic Monthly* has a curious paper on the origin of the dollar symbol ($). In brief his theory is that two parallel upright marks may be traced back to the pillars of Hercules, and the S-like figure is the scroll entwined around them. According to tradition, when the Tyrian colony landed on the Atlantic coast of Spain and founded the ancient city of Gades, now Cadiz, Melcarthus, the leader of the expedition, put up two huge pillars as memorials over which he built the temple of Melcarthus. In the temple hung, in wealth, the chief pillars were sculptured in various ways, but the body of these and gold, and

pillars became, in time, the emblem of the city, as a horse's head became that of Carthage. Centuries later, when Charles V. became Emperor of Germany, he adopted a new coat of arms, in which the pillars of Gades or Cadiz, occupied a prominent position in the device. Hence, when a new coin, the collonate was struck at the Imperial mint, it bore the new device—two pillars with a scroll entwined around them. This coin became a standard of value in the Mediterranean, and the pillars and scroll became its accepted symbol in writing.

The two horizontal bars which cross the symbol of the English pound sterling are also thought to have a similar origin. In the same paper the symbolic origin of the pillars of Hercules is traced far back into the remote era prior to the dispersion of the human race from its Asiatic birthplace. They are identified with the household pillars of the Scandinavians, and the idea from which the concrete embodiments spring is to be found alike in the Sanskrit Vedas, and in the glowing imagery of the Hebrew poets. They are the symbols of night and day, or night and darkness, which, to the dawning intelligence of the Arian races, were evidences of the Omnipotent, and to the Jewish patriarchs, the work of a revealed Creator.

Artemus Ward.

James Parton, the noted author, in an article on Charles Brown (Artemus Ward), closes thus, and he gives good advice to young men:—"I ought not to conclude this article without letting the reader know why this bright genial spirit is no longer here to add to the worlds amusement. Well this was the reason: Wherever he lectured, whether in New England, California or London, there were sure to be a knot of young fellows to gather around him and go home with him to supper, and spend half the night in telling stories and singing songs. To any man this will be fatal in time, but when the nightly carouse follows an evening's performance before an audience, and is succeeded by a railway journey the next day the waste of vitality is fearfully rapid. Five years of such a life finished Charles Browne. He died in London, 1867, aged thirty-three years, and he now lies buried in the home of his childhood in Maine. He was not a deep drinker. He was not a man of strong appetite. It was the nights wasted in convivality which his system needed for sleep, that sent him to his grave forty years before his time. For men of his profession and character, for all editors, literary men and artists, there is only one safety—teetotalism. He should have taken the advice of the stage driver on the plains, to whom he offered some whiskey, and I commend it strongly to the countless hosts who see this paper every week—"I don't drink; and I don't like to see anybody else drink. I'm of the opinion of those mountains—keep your top cool. They've got snow, and I've got brain—that's all the difference.'"

American Soda.

One hundred and eighteen thousand tuns of crude soda at fifty dollars per tun is reported to be about the annual importation of this salt, used as our readers know, in the manufacture of soap, glass, and other articles of general consumption. This will convey some idea of the importance of the great and wonderful natural deposits of carbonate soda, which have been found in the West six hundred miles beyond Omaha and forty miles north of the Union Pacific Railways. Deposits of soda are here found in all stages and conditions. In some cases alkaline lakes are encountered, the water saturated with the carbonate. One special deposit, of many acres in extent, consists of a crust of carbonate of soda more than six feet deep, under which is a strong alkaline liquid. This great deposit lies there, waiting for the people to come and take it away. In quantity there is enough to supply the wants of the world for an age In quality it is superior to the crude article now manufactured, as it contains twenty per cent more of carbonate of soda; while in cost it is very cheap, as it may be delivered in New York when the railway to the deposits is opened, for thirty dollars per tun. The soda trade is evidently destined to change. Instead of employing vessels to bring the product here, we shall soon fill them with improved cargoes of the article to go abroad.

The Canadian Ship Canal

The people of Canada do less talk and more work, when the interests of the people demand additional transportation facilities, than their cousins on this side of the line. For many years there has been much talk about the Niagara Ship Canal, but there has been nothing but talk, while the Canadians have gone forward and improved their canals and are to-day affording better facilities for the cheap transportation of American produce than are afforded by our own Government. Our attention has been called to this subject by a circular recently issued by the Chief Engineer of the Canadian Public Works and addressed to Boards of Trade, ship owners, and business men throughout the Dominion—men who are directly interested in the enlargement of the St Lawrence Canals—soliciting information respecting the propriety of enlarging the Canals between Prescott and Montreal to the dimensions of the enlarged Welland Canal, involving, it is estimated, the expenditure of ten millions of dollars or more. The Welland Canal, when completed, will have a bottom width of 1 0 feet, a depth of 12 feet, a sectional area of 1,256 feet, locks 270 feet long between the sides and 45 feet wide, with a depth of 15 feet of water on the sills. The circular also solicits information respecting the cost of carrying grain from upper lake ports to Montreal by sailing vessels of 300 to 500 tons burden, and by propellers of the same capacity, specifying the cost per bushel in each case, and the difference in time if the grain is transhipped at Kingston and delivered in Montreal by barges. Inquiry is also made as to the probable effect upon trade of the substitution of sailing vessels and propellers of 100 tons burden for those of 300 or 500 tons. This business-like method of treating the subject indicates a purpose to do that which will most surely the interests of the people, which is very flattering to Canada, and in this respect the Government set an example worthy of imitation on the part of the people of this country.

A Fellow-Feeling.

From the Chicago Times.

Last week a young german girl named Amelia Donnerschlag, having a trustful confidance in the laws of her country, as expounded by Banyon, went before that Justice and began a suit for $200 against August Behrens for breach of promise. She would have sued for more, but $200 is the limit of the jurisdiction of a justice, and that is the reason why she stopped at that figure, not but what she esteemed her lover to be worth a much higher sum. A warrant was issued and the case came up. The complainant stated that he had known the defendant in Germany, and had become engaged to him there. He had emigrated to this country in order to earn a home, and she had followed him in the course of a year. Soon after her arrival, finding him in good circumstances, she pressed him to fulfill his promise, but he refused to do so. Hence the suit. The Justice asked the young man if he had anything to say in his behalf, and he stated he had.

Mr. Behrens—As this young lady says, your Honor, I was engaged to her in Germany, where she was living with her father. I came to Chicago and boarded at the house of her sister and mother, who were living on North Division street, and I lived with them for nine months. During that nine months I had many opportunities to watch the ways of this young lady's mother, and I was not pleased with them at all.

At this point the brow of the Justice unbent. His manner, which had been particularly goomy, began to change, and he looked with something of friendliness upon Mr. Behrens.

"Excuse me," said the Judge, "I should like to ask you a few questions. Did this woman say she intended to live with you after you were married? Did she inform you that she was ready to take all the care of the household off your hands? Did she ask you to let her save up all your money? Did she say that she could take care of it a great deal better than you could?"

"Yes," said Mr. Behrens.

"Go on," said the Judge.

Mr. Behrens—When this young lady came over here from Germany she did ask me to marry her, and I was ready to, and I told her I was. But she said that her mother must live with us and keep house for us. I told her I had watched the ways of her mother, and that I was not pleased with them; that I loved her very deeply, and was ready to marry her, but did not wish to marry her mother also, who was a woman of lordly and unpleasant habits, and insisted upon feeding me too much upon cabbage, a vegetable I have always had a dislike for, I am ready. Your Honor, to marry her now, providing that she will leave her mother out in the cold; but I will not marry the old woman. I have made up my mind to that, no

Peterborough Examiner.

PETERBORO', APRIL 16th 1874.

Riot.

There is nothing yet heard of this gentleman, nor can anything be surmised as probable, at this distance from the capital.

Wrecked.

The S.S. Europe was lately abandoned at sea. No lives lost.

The Giant T.

Mr. Lannin has one of the largest stocks in his line ever offered in Peterboro. He has a splendid stock of cutlery electro-plated ware of best qualities, lamps, chimneys, and an endless assortment of everything required in furnishing those who wish to take advantage of Mowat's Marriage Bill. Stoves, furnaces, &c. Call and see him. He is always pleased to meet his numerous customers.

A New Map of the Town.

The Town Council has decided to provide a new map for the Town containing the extended limits. They can do nothing better than secure a few copies of Mr. Romaine's new map. It was got up from actual surveys, and is now being corrected according to the very latest changes. It has cost him a very large sum already, and while the Council can get a perfect map from him, at a moderate price compared with the cost of a new one, and at the same time encourage the publication of such an excellent work, no little jealousies of ours would prevent us advising the Committee to try and make arrangements for a few copies of Mr. Romaine's maps. It certainly will be a complete one when mounted.

A Large Egg.

Mr. McClelland has eggs from first prize birds which he advertises this week. One we saw weighed yesterday weighed a quarter of a pound. Mr. McClelland's poultry are all from choice stock.

The Show Rooms

Of Messrs. McDonald & Elder's Millinery department will be opened on Tuesday, 21st inst, with all the novelties of the season, to feast the wondering eyes, and supply the wants of the ladies.

W. G. Thomson

Is receiving his Spring Stock of Millinery. His establishment is popular in this line. His show rooms will be open in a few days.

Farmers Prospering.

The Bell Farm, North Monaghan, on the gravel road was sold on Saturday to a Mr. Patton at $40 an acre. This does not look like hard times with the farmers.

The Time Table

Of the Midland Railway changes today. The trains leave Lakefield, in future, at 7:50 a.m. and 1:20 p.m. Peterborough at 8:40 a.m. and 2:10 p.m Arrive at Peterborough, 12, noon, and 7:25 p.m.

Protestant Home.

The Committee of the Protestant Home acknowledge with thanks the following donations, Ashburnham Council $30; also, from the Citizens' Ball, per Mr. J. Elder, the sum of $15.40.

New Publication.

Professor Glass, late Principal of Woodstock College, N. B., has arrived in town, and is making arrangements for the sale of his new work "Stray leaves from Scotch and English History, with the Life of Sir Wm. Wallace," which we understand is deservedly popular. The Rev. Professor is a graduate of the University of Aberdeen, a Clergyman of the Presbyterian Church, and the author of other publications of merit. We believe his new work will receive a ready sale in this section of country.

The Nation

Is the name of a new paper published in Toronto and edited by Jimuel Brigge. It claims to be the organ of the Canada First party, a party with a good name Let us hope a good object. The Nation is well got up, and well edited. We wish it every success.

Religious Services.

Mr. Douglas Russel will hold a religious service in the Music Hall on Sabbath evening at 6:30 if continued announcement will be then made

Mr. Doran,

Of Messrs. Doran & Gibbons has just returned, having purchased a large stock of new stylish goods, which they offer at ten per cent under their usually low prices. See their advertisement.

Messrs. Lemay & Cadotte

Have largely increased their stock of ready made clothing, cloths, and staple goods. This establishment will well repay a visit to it. Their boys' and childrens' suits are good and fashionable Read their advertisement and give them a call

Fall Wheat

Appears to be irretrievably damaged by the late severe frosts. It is now so badly wilted that in many places it is believed killed It is best not to be too bold in asserting this, however, as a favorable spell of warm weather and refreshing rains might agreeably disappoint our fears.

Personal.

We regret to have to announce bad news of the health of T. M. Fairbairn, Esq., M. P. P. His friends received a Telegram on Monday that his doctor has very little hope of his recovery from a serious change for the worse. It is also said that if he should rally it will be but for a short time. We sincerely wish that before our next issue better news may be received from him. But the worst might be realized.

Concerts.

Mr Jas Millar gives two concerts next week, one at Lakefield on Tuesday evening, 21st inst., and one at Kelly's School House on Thursday evening, 23d inst. The programmes are good, [illegible] Orange Glengarry.

Almost thirty feet [illegible] Millbrook Rail[illegible] number from [illegible] Peterboro [illegible] Cobourg [illegible] Belleville [illegible] Lindsay [illegible] Bay. [illegible] [illegible] [illegible]

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times It's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the smell of Oils which they may contain.

E. N. THOMAS, PHELPS, N. Y.

And NORTHROP & LYMAN, Newcastle, Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1 00 and 12½ cents for postage, enclosed to Northrop & Lyman, Newcastle, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Phthisic or Asthma, and restores to vital activity the system debilitated by sufferins and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is last superceeding all other preparations of the kind

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

NORTHROP & LYMAN,
Newcastle, Ont.,
General Agents for Canada.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

Official Report, Vienna Exposition, Sewing Machines, &c.

(SEE P. 12, SEC. 2 &.)

"The greatest Sewing Machine Manufactory in the world is that of Wheeler & Wilson, New York, which alone has brought already over 900,000 of their Sewing Machines into practical use. The complete perfection of the parts by machinery is so regulated that each complete machine may be used as a sample for exhibition. This firm produces 650 well adjusted machines daily.

"The latest production of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This universal machine sews the heaviest leather harness and the finest gauzes with a truly pearl stitch.

"Wheeler & Wilson have received the highest prizes at all world's Expositions, and at the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knigat's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet or Full Cases.
6. Several co operators received Medals of Merit for Superior Ability.

A Sanitary Message.

Last night, above the whistling wind,
I heard the welcome rain,
A footfall upon the roof,
A tattoo on the pane:
The key-hole piped; the chimney-top
A warlike trumpet blew
Yet, mingling with these sounds of strife,
A softer voice stole through.

"Give thanks, O brothers!" said the voice,
"That He who sent the rains
Hath spared your fields the scarlet dew
That drips from purple stains:
I've seen the grass on Eastern graves
In brighter verdure fling;
But, oh! the rain that gave it life
Sprang first from human eyes."

I come to each weary as state
Upon your wasted lea;
I raise no banners, save the ones
The forest wave to me:
Upon the mountain side, where Spring
Her farthest picket sets,
My reveille awakes a host
Of grassy bayonets

I visit every humble roof.
I mingle with the low;
Only upon the highest peaks
My blessings fall in snow.
Until, in bridalings of the streams
And drainings of the sea,
My unspent bounty comes at last
To mingle with the pea."

And thus all night, above the wind,
I heard the welcome rain,
A footfall upon the roof,
A tattoo on the pane:
The key-hole piped; the chimney-top
A warlike trumpet blew;
But, mingling with the sounds of strife,
This hymn of peace stole through.

Milk for Hens.

We have generally had very good success in having our fowls to lay in winter, but an acquaintance has for three consecutive years beat us at that game. This season he has been doing it with our own fowls, that is with pullets procured of us, showing that it is management, and not breed that must account for it. We have visited his farm yard repeatedly, and made an observation, and he is very frank in describing his method, and we are convinced that an ample allowance of skimmed milk is all the magic there is about it. His fowls roost in a lean in, which is not exactly tight either. The only chance they have sun is free range out-of-doors, and the run of several long sheds, which, though facing the south, is unglassed, and entirely open on that side, and so high that the birds may be said to live day and night in an atmosphere nearly as cold as an open field. We mention these particulars to show that we are not to look to warm quarters as an explanation of the prolificness exhibited. We add, that they do not lay on account of being hatched extra early, but on the contrary, they came off last May. They commenced laying in October, and have been at it ever since, to the astonishment, if not envy, of the neighbors of the fortunate owner, who has been selling eggs for the past four months, for forty-five cents a dozen, and upwards. Not one particle of meat, or scrap is given, and but the veriest trifle of vegetable food is fed in the shape of a few boiled potatoes, about once a week. Abundance of grain is allowed, of various sorts, ground, and unground, but never cooked, and plenty of unburnt oyster shells, pounded, are at all times accessible. They have a pailful of skimmed milk every day, so that they can help themselves to all they want, no other drink being provided.

Now, there are other fowls, and plenty of them on hundreds of farms, of just the same breed as those of our friend, and of the same age which are allowed just as good rations of grain, potatoes, and powdered oyster shells, and just about the same sort of buildings and range, that do not lay from October to February. Moreover, it is not during one exceptional season that this has been done, but as we have said, it has occurred year after year. We are satisfied that it is the milk that accounts for it. Skimmed milk, and the whites of eggs are very much alike, and, though the cream has been emasculated, undoubtedly the full allowance of Indian corn supplies the oily constituents of the yolks. Some farmers think they cannot afford to give milk to hens, but must save it for the pigs. But if skimmed milk is worth 1½ cents a quart, to fed to swine, as some claim, it is worth 3 cents for poultry, if, by its use, winter eggs can be obtained, and sold at high prices.—*Poultry World.*

Machines to Make People Honest.

Time was, when almost every stage driver in New York was known to abstract a greater or less of all fares received, and his employer has no remedy and no sure means of detecting the rogue. But thanks to the ingenuity of the inventor, our Broadway Jehus have been transformed into honest men. They can't steal if they would. The patent money box, in which the passenger drops his fare relieves the driver of the duty of handling the money, and consequently none sticks to his fingers.

On the street railway cars, the pilfering conductor although not rendered wholly honest, is considerably interfered with and his stealings reduced by means of the patent bell punch. He is required by the rules to punch a strip of paper for every fare received. The punch contains a bell, a dial numbering register, and a receptacle in which the punched bits of paper are received The punch, paper, and money, are returned to the office of the conductor at the end of every trip. The dial pointer shows how many times the punch has been operated, and the count of holes in the paper, the punched bits within the punch, and also the money, should be found to agree. Any discrepancy is at once shown. But this device does not entirely answer the purpose of detection, because the conductor may take fares and not work the punch, especially, in a crowd, without being observed.

The money box is apparently the surest. There is a chance for some ingenious person to invent a portable box for conductors, which will be promotive of their integrity in crowded cars.

One of the latest dodges in this line comes to us from Constantinople. The driver or conductor of the car gives to every passenger a prize ticket bearing a number which is recorded on the company's books. A drawing takes place monthly, the company providing a certain number of prizes. We read of one passenger who lately drew a prize of one hundred dollars in this way. The hope of drawing a prize makes the passenger careful to send in his tickets: and if the money returns of the driver or conductor are equal to the number of tickets returned, there is a showing of honesty, and the particular culprits may be detected by comparing the return tickets with the records of tickets issued to the unregal conductors.—*Scientific American.*

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of the County with an assortment of my improved spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favorable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,
EDWARD S. FRANKS, M.D.,
of Manchester, Lancashire, England.

Lecturer on the human eye and ear and their diseases inventor and patentee of improvement in spectacles.

Remember Thy Mother.

Lead thy mother tenderly
Down life's stony decline;
Unto her arm was thy support,
Now she leans on thine.

See upon her loving face
Those deep lines of care;
Think, it was her toil for thee
Left that record there.

Ne'er forget her tireless watch
Kept by day and night,
Taking from her step the grace,
From her eye the light.

Cherish well her faithful heart,
Which, through weary years,
Echoed with its sympathy,
All thy smiles and tears.

Thank God for thy mother's love,
Guard the precious boon;
For the bitter, parting hour,
Cometh all too soon.

When thy grateful tenderness
Loses power to save,
Earth will hold no dearer spot
Than thy mother's grave.

ODDS AND ENDS.

A Portland editor speaks of an alderman of that city as "the wooden-headed lad from the Fourth Ward."

A western critic recently said of a new novel, "Its incidents follow each other like a shovelful of hot coals."

Why was the whale that swallowed Jonah like a retired milkman? Because he got a profit (prophet) out of the water.

"The ace thing," says Jean Paul, "which a maiden easily forgets is how she looks—hence mirrors were invented."

The Indians have invented a new method of scalping victims, so that now a bald headed man stands no more show than any one else. This is as it should be.

The scientific men have settled the matter beyond all question that it is a mistake to suppose that the sun is supported by its beams.

A passenger by rail, aroused from a severe slumber by the tooting of a whistle, exclaimed, "The train has caught up with those cattle again."

A teetotaler, the other day, asked a neighbor if he was not inclined to the Temperance Society, and he replied, "Yes; for when I see liquor my mouth waters."

Mr Oberon, a man about town, was lately invited to a sewing party. The next day a friend asked him how the entertainment came off. "Oh, it was very amusing," replied Mr. Oberon; "the ladies hemmed and hawed."

A raw countryman, gazing at a garden in the vicinity of Boston in which were several marble statues, exclaimed: "Just see what a waste! Here's no less than six scarecrows in this teen-foot patch, and any one of them would keep the crows from a five-acre lot!"

Kentucky has introduced a new feature into schools. Where one of the girls fails to spell a word correctly, the boy who spells it right is permitted to kiss her. Several girls are fast forgetting all they ever knew about spelling, while the boys are improving with unexampled rapidity.

A demure citizen of Portland was walking down town one morning last week, when a stranger addressed him: 'Do you know where the post office is?" "Yes, answered the Portlander, affably, and walked on without further parley. After proceeding for about ten steps he looked back and inquired in his turn "Why? Did you want to know?" "No," replied the victim, with great earnestness; and then, the composure having been balanced, the two shook hands gravely, and walked off toward the Falmouth.

At a musical party in New York city the other evening, one of the young ladies who was on the programme for a ballad lost her self-possession and courage at the eleventh hour, and said she "really could not sing before so many people." Whereupon her father, who was among the guests, entered into an angry altercation with her, which terminated abruptly by the daughter calling her farther father a fool, and announcing her intention of going "straight home." The rapid return of the demoiselle's self-possession and courage so startled the company that the party broke up soon after.

Some Startling Facts about the Sun.

An Armstrong gun fires a bullet at the rate of 400 yards per second. A bullet fired at this rate and maintaining it to the sun, would take it thirteen years to get there, and the sound of the explosion would reach the sun half a year later. In other words, those beings, those men who worshipped the sun and raised their voices in prayer to him, if their voices could have been heard and there was an atmosphere, a medium of intercommunication by which one sound of their voices could reach him, thirteen and one half years would have been needed before their prayers could have reached their God. If there were a steel rod connecting the earth with the sun, 2000 years would elapse before the strain would reach the earth. Another consideration—and this was suggested by Prof. Meadenhall of our country, and by Holmes and others—is this. Feeling is conveyed along the nerves ten times slower than sound travels. If, therefore, an infant were born having an arm of the somewhat inconvenient length of 91,000,000 miles, so as to reach the sun; and if in the cradle while in boyhood he were to stretch out his arm and reach the sun; and if in the cradle while in boyhood he were to stretch out his arm and touch the sun, that infant might grow to the three years and ten allotted to man, and even to four score, but he never would be conscious of the fact that the tip of his finger was burned; he should live 135 years before that would be expected.

The Local Editor's Vision.

Once upon a time a local editor dreamed that he was dead and in another world.

He approached the gate of a city before him and knocked for admittance, but no one answered the summons. Then he cried aloud for an entrance, but the only response was echoes of heads appearing above the wall, on each side of the gate.

At sight of him the owners of the heads set up a dismal howl, and one of them cried:

Why didn't you notice the big egg I gave you?

At this horrid and most unexpected interrogation the poor local turned in the direction of the voice to learn its owner, when another voice shrieked:

Where's the piece you were going to write about my soda fountain?

And close upon that was the awful demand.

Why did you write a piece about old Peddler's lines and never say a word about my new gate?

Whatever answer he was going to frame to the appeal was cut abruptly off by the astonishing query:

"What did you spell my name wrong in the programme for?"

The miserable man turned to flee, when he was routed to the spot by this terrible demand:

"Why did you put my marriage among the deaths?"

He was on the point of saying the foreman did it, when a voice madly cried:

"What made you put in my runaway and spoil the sale of my horse?"

And this was followed by a female hysterically proclaiming:

"This is the brute that botched my poetry, and made me ridiculous."

Whereupon hundreds of voices screamed:

"Where's my article? Give me back my article."

And in the midst of the horrid din the poor wretch awoke, perspiring at every pore, and swearing by the

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous constitution until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and subtle tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA*: *Salt Rheum, Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Pile, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous system.

Syphilis or Venereal and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa or Whites, Uterine Ulcerations, and Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of calcareous matter in the blood, yield quickly to it, as also *Liver Complaint, Torpidity, Congestion or Inflammation of the Liver, and Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer of the strength and vigor of the system. Thousands are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions or Fears*, or any of the affections characteristic of *Weakness* will find immediate relief and convincing evidence of its restorative power in a trial.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its compositions. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and constitutions in all climates; containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them perfectly sound in any climate, and renders them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate on the system in the most searching manner, purifying the blood and stimulating into healthy action the vital powers of the body, restoring its lost tone and energy. They remove the obstructions of the stomach, liver, bowels, and other organs of the body, from whatever cause they may arise, and by their gentle action on the digestive apparatus they relieve and cure headache, indigestion, dyspepsia, biliousness, jaundice, rheumatism, gout, neuralgia, dropsy, worms, erysipelas, scrofula, and other diseases that require an active purgative for their cure. Price 25 cents per box.

THE REASONS WHY

LAZARUS, MORRIS & Co'S

SPECTACLES

Perfected Spectacles,

AND EYE GLASSES,

have met with such extraordinary success and are so much in demand:

1st. Because they are found to possess all the qualities claimed for them.

2nd. Because they will reclaim sights abused by the common glasses, and will often be found to restore failing sight to its natural state.

3rd. Because no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.

4th. Because the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.

5th. Because the nerves view the eyes and last many years without the necessity of change.

6th. Because being the best they are the cheapest.

Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.

A full and complete assortment has been supplied to and always kept on hand by

THE BUDGET.

Hon. Mr. Cartwright moved the House into Committee of Ways and Means, Mr. Scatcherd in the chair.

Hon. Mr. Cartwright, before proceeding to the minor details of the Estimates, desired to say a word or two as to the position in which the Government found itself placed in the country. They were not unaware that there was a strong feeling of dissatisfaction existing in the country, but they must ask hon. gentlemen to look at the world now, compared for the most part of mankind, with what it was a few years ago. They had found themselves placed at the very commencement of their career confronted by financial difficulties which he was justified in saying were not the least prominent or the least embarrassing. In everybody knew the policy of their predecessors, particularly on financial questions, upon one to which every member of the present Government was determinedly opposed. So far as he could recollect, their general position was something of this nature. They found the resources of the Dominion were amply adequate for all ordinary and legitimate calls to be made upon it, but they found also that they had been committed to a system of progress which would tax the resources of the Dominion to the very utmost. They found themselves responsible for a vast number of undertakings which they were not disposed, nor would they assume, nor could their supporters in the House or the country expect them to assume, the responsibility of the close of which, or the danger against which they proceeded to the utmost of their abilities. They would be responsible for the measures they were about to bring down for the purpose of repairing these errors, if errors they were, but for the errors of their predecessors they would not be responsible. He wished it to be understood that the Government would carry out any of the measures which had been passed to the utmost of their ability, but they would not feel themselves bound to carry out such of them as they might not see their way to perform. They would not imperil the future of the Dominion; they must be content to go as far as their finances justified them. The House was aware that four or five months had elapsed since the present Government had taken office, and that four or five months they had scarcely been able to give more than two months attention to the functions with which they were charged, owing to the double election which had been necessitated. He would mention, therefore, that they might not be able to speak upon certain points with the perfect accuracy he had hoped they would have been, and with the confidence they would have had, had they had a few weeks or months more at their disposal. There was no doubt but that the statistics of Canada were not in a very perfect condition. There were many things they ought to know which there was no means of obtaining within a reasonable time. Therefore, for the present, he must submit matters upon the present occasion, he had no financial statistics, and they should be considered as merely approximate calculations. He proposed, for the first instance, very briefly to review the

FINANCIAL POSITION OF THE COUNTRY,

during the years 1873-3, which terminated on the 30th June last. He had caused to be prepared, for the convenience of the House, a summary statement, taken partly from the public accounts and partly from the estimates of the various departments, which would be found in the Journals of the House to the commencement of the Session. The receipts of that year were 20,813, 00, and the expenditure amounted to $19,174,000, leaving a net surplus of something over $1,600,000, a very satisfactory result, as must be admitted Now, although the apparent increase of the receipts in 1872-3 was not much in excess of 1871-2, it was only fair to state that, owing to the reduction of the ten duties, the increase became very much more apparent. There were not any large facts which might be extracted more attention than they did. If the hon. gentlemen would direct attention to the statement, they would find that the expenditure on Public Works, chargeable to the revenue in 1872-3, as contrasted with the preceding year, had enormously increased; while on the other side, they would find a very much smaller amount locomotive had taken place. Two explanations on Public Works chargeable to income, these amounts doubled, and it would also be seen that the proportion of the increase in this particular, was very much greater than the proportion of the increase in the receipts. The receipts from Public Works

CITY CLOTHING STORE.

Spring and Summer Importations!

H. LeBRUN,

Has just received his SPRING and SUMMER STOCK, to which he invites the inspection of the public. It will be found one of the most complete and well assorted ever imported. FOR CONSUMPTION AND ALL DISEASES THAT LEAD TO IT; SUCH AS

Coughs, Neglected Colds, Bronchitis, Pain in the Chest, and all diseases of the Lungs,

Allan's Lung Balsam

Is the Great Medicine Remedy.

It is warranted to break up the most distressing Cough in a few hour's time, if not of too long standing. It is Warranted to give entire satisfaction even in the most confirmed cases of Consumption. It is warranted not to produce constipation (which is the case with most remedies,) or attack the head, as its effects are Opium in any form. It is Warranted perfectly harmless to the most delicate child, although it is an entire and powerful remedy for counteracting the system. There is no other remedy for so many Maladies by consumption, than Allan's Lung Balsam will prevent it, if only taken in time.

Price $1 per Bottle.

Sold by all Druggists.

Peterborough Examiner.

PETERBORO', APRIL 23rd 1874.

Messrs. Nicholl's & Hall's Millinery and Mantle Rooms.

We invite attention to Messrs. Nicholl's & Hall's advertisement in this issue. A visit to their establishment will fully repay any one. Their Dress Goods Department, on the first flat, is replete,—embracing the newest designs in dress goods, silks, grenadines, lustres, printed and organdine muslins, linen tassos, in stripes and spots, prints &c. Their millinery and mantle department on the second flat, has been enlarged, and is now open with an extensive variety of pattern hats, bonnets, mantles, flowers, feathers, ornaments, &c., in latest styles, rich, beautiful and attractive. The lady having charge of this department has had long experience in the chief cities of the Dominion and cannot fail to suit the tastes of the most fastidious. Their goods have just been received from London, England. The carpet department is on the third flat and contains a splendid assortment of tapestry, Brussels, unions, and three ply wool carpets and oil cloths from one to five yards wide. The ladies would do well to call and make their selections early.

W. G. Thomson's

Millinery and mantle show rooms will be open on Tuesday next. Mr. Thompson's Millinery and mantle department has been a favorite resort for adepts of fashion. This season it is unusually extensive. His English, French and American pattern hats, bonnets, capes, &c., cannot fail to please, and his silks, dress goods, feathers, flowers, laces, &c., are of the newest styles and shades.

Grand Bargains.

Rogers & Co., Ashburnham, are offering bargains in dry goods, clothing, hats, caps, boots and shoes, and clothing made to order.

Riot.

Was expelled the House of Commons on Thursday last upon vote of 134 to 68 The French Canadian and Irish obstructionists unanimously voted for an amnesty.

Congregation.

A meeting of the Congregation of the Methodist Church on the 6th inst. was well attended, and under a quarterly

THE ASSIZES

Commenced here yesterday before Chief Justice Harrison, and will probably occupy the whole of next week.

The Grand Jury are:

Wm. Snyder, foreman, and Messrs. Wm. Hamilton, Adam Niven, Walter Scott, A. W. Dafoe, Jas Wasson, George Brown, John M. Fife, C. Dudman, Wm. Armstrong, Porter Preston, Jas. Blackwell, Thos. Blezard, J. W. Dixon, James Moore, John Roberts, W. M. Sharpe, Wm Scarlett, John Turner.

There are 13 cases on the docket. No appeal cases or criminal cases, there being no prisoners for criminal offence in the jail.

The Judge congratulated the Jury on this fact and, after telling them they would be required to report as to the state of the jail, referred to the large number of insane persons in jail and said that any report concerning them would be duly attended to. George Howden, jr., was arraigned on the charge of killing Robert Nicholson, late of the township of Smith, but the prisoner pleaded not guilty and was not ready for trial. Admitted to bail to next assizes.

Our readers will remember the particulars of this case. The prisoner, some years ago, was teaming from Wm. A. Scott, and coming to town one day went into Mr. Nicholson's orchard, about the latter part of October Mr. Nicholson, who was a very old man, went out to prevent him taking fruit, when the prisoner threw a stone at him, it was alleged, and broke his leg. Under the hurt he lingered till the next June when he died. An inquest was held and the hurt by Howden was held to be the cause of his death. A true bill for manslaughter was afterwards found against him, but he was not in the country until last fall. On advice he has given himself up for trial.

The first case was that of Oswald vs. Whyte & Davis, in reference to a bargain about a reaping machine.—Nonsuited.

Bunnings vs. Sedgwick, an action brought by P.W. Bunnings against Thos. Sedgwick, for slander. The Jury were sent in and directed to give a sealed verdict.

Quam Potens est Audacia.

A circular in reference to the Chaumont High School has been placed before us for perusal. Without note or comment we give these selections from it:

"Chaumont High School, Charles Black M.B., Principal, (Member of the faculty of Arts, McGill University, Montreal.) The Chaumont High School located in a retired and healthy section of the country, has been established to afford youth of both sexes the advantages of liberal education. To this end, a course of study sufficiently extended and practical to meet the requirements of all has been arranged and will be carried out as far as practicable. Pupils prepared for matriculation in any College or University."

"The Principal, who has been under the instruction of Oxford and Cambridge Masters, and has had several years experience as a teacher in the best High Schools in Canada, will give every attention to pupils entrusted to his charge."

We invite attention to this last paragraph, and especially to the clause, "has had several years experience as a teacher in the best High Schools in Canada." As these Schools are in Peterboro and Port Hope, we will allow those who once scribbled so much here to reconcile his circular and past conduct in reference to both Schools.

SPRING.

Winter is still delaying with us, at nights there are stiff frosts, but we have not had strong suns in the day except for a few days. Parties have attempted plowing in favorable spots, and in one instance, we have heard of grain being put in the ground, but spring work has not yet been commenced in earnest.

Farmers are supplying themselves with machinery of the most improved manufacture, in the way of Cultivators, Gang Ploughs, Seeders, Mowers, Reapers, &c.

Messrs. Whyte & Davis, Peter Hamilton, and E. E. Bowie, are daily sending away implements in every direction, each one of them having his favorite patrons, so that with even late Springs our farmers will be able to do more work than usual, in a shorter time, and thus provide themselves against unfavorable seasons.

Fall Wheat is not yet despaired of as intelligent farmers are of opinion that the roots are still uninjured and healthy and the late rains have been opportune in watering and moulding any that may have been heaved by the frosts. We may therefore still hope for the best.

PROHIBITION.

We regret to see the announcement in the reports of the House of Commons, that the Government do not intend introducing any measure to provide for prohibiting the sale of intoxicating liquors

The deficiency in the revenue will make them cautious in legislation that would do away with three to five millions of dollars, and thus leave them to provide for a deficiency of eight millions instead of three. Yet we believe the good sense of the people is prepared to bear with higher taxation on other articles so as to remove this evil. The deficiency that prohibition would entail would be about one dollar a head for the population of the Dominion. The drinking usage entails an annual outlay of ten to thirteen dollars a head for every soul in the country. The excise duties of the Revenue disposed of in this county (independent of beer or ale) amounts to more than $30,000 a year. The total cost is about one third more. The wholesale cost of whiskey drunk must reach $60,000 and the retail not less than $120,000 a year, for whiskey alone. Then add to this the cost of beer, ale and porter, &c., and the total cost of liquor must be enormous. Then Brandies, gin, Champagne and Irish whiskeys add that, and you have a long list of drinkables are not included yet they result in least one fifth of the whole cost; that is that he placed at $60,000 annually, the total cost of liquors of one of the kinds mentioned will be, whiskey $120,000, beer $120,000, brandy, &c., $60,000. Total $300,000.

And this is under rather than over the mark, as we have no means of ascertaining what liquors enter the county from Port Hope, Cobourg, Colborne and such and somewhat also from Lindsay via Bobcaygeon and Coboconk via Bobcaygeon and Minden, and which if known correctly would no doubt increase the cost of liquor. Then add to this the cost of those driven to the commission of evil by the use of liquor, and we have $300,000 a year and that equals $12 a head for every man woman and child in the county, and for every one over 7. He who is encouraging the waste of $300,000 in this Dominion and the people of this county waste $360,000, and think nothing of it. And this may be said of every county in the Dominion containing an equal population, as we know from statistics that the people of this county are not more given to strong drink than those of other localities in the Dominion. Would it not be wise, even politic, and better economy to tax the people in some other way, to supply the deficiency and rid the country of the evils of intemperance? Strong drinks costs the people of Canada over $60,000,000, nearly beside curse to society in every locality. Just think of it! $60,000,000 a year, worse than wasted.

OUR MAILS.

The Midland Railway Time table has been changed, and the new arrangement appears to have been made with a special view to injure Peterboro. The morning train leaves Peterboro at 8.40 a.m. connection with the Grand Trunk or by the Lake is therefore, to say the least, doubtful, indeed for the "Norseman" impossible.

The first train arrives at 12 o'clock on Monday, really at 38 minutes past 12, It takes 30 minutes to distribute the mail, and on days of English mail 45 minutes, merchants have therefore a little over half an hour to examine and reply to correspondence, leaving it an impossibility before the next day at 8.40 a.m and if connection with the Grand Trunk fails, letters cannot leave Port Hope till evening. Thus 24 hours are consumed between Peterboro and Port Hope, which with different arrangement would not require more than three hours Surely Mr. Hogel must have a single eye to the annoyance and injury of this town.

Steps are being taken to establish a Stage Line to meet the business wants of the Merchants, indeed the old stage system was little behind present Midland arrangements so far as Peterboro is concerned.

If our people had been true to themselves we would have had the road to Cobourg open ere this, now they are suffering for their shortsightedness.

THE RESULT.

The *Irish Canadian* of the 16th inst., discourses thus under the caption "Orange Howlings."

"The mainstay of Protestantism, the loyal Orange Order, the worshipful Master, Ogle R Gowan—blest the unholy mark!—in the chair, made its doleful lamentation over the defection of the Protestant Church of England to its dear old mother, the Catholic Church of Christ. Charles W. Cooper, barrister-at-law, and Mr. James Boyd Davis barrister-at-law and grand lecturer of British America, and other worshipful brothers and masters—who arrogantly claim to themselves a worship they refuse to others more worthy of it—loudly joined the howl. All these worshipful brothers may take things easy. They begin to see many Protestants understand what is meant by liberty—that is, that they can turn back to the old Mother Church which they deserted, when their conscience tell them so. Everybody knows the Queen's mother died a Catholic; that the *Duchess of Argyle*, mother to the Marquis of Lorne, was a long time a Catholic, and died a Catholic a few weeks ago; that the Queen's household is crowded with Catholics, that over two hundred Protestant clergymen gave up livings and wordly position during the past few years in England to join the Old Church; that 400 clergymen (that might be multiplied by ten to arrive at a proximate idea of others not included) have petitioned their Bishops *to introduce the Confessional. Is this* not a sign of the times—that England, so long blind, is beginning to see the Reformation of Henry VIII was a gigantic fraud, that causes a blush to the education of the present day.

Our dear brethren of the Orange line should know that at the commencement of this century there was in this country only two Catholic bishops and about forty priests. Now there are 86 Archbishops and bishops, 8,000 priests and 20,000 religieuse; and converts, the most respectable and educated, coming in by hundreds, whilst our noxious weeds are carefully transplanted to the garden of heresy, to the scandal of all honest minds.

We would recommend these benighted Orangemen to repent of their filthy sins, and perhaps they will get the grace of conversion also. Not many years ago we published a list of the noble converts of England. We may continue the publication to give them further reason to echo the lamentations of another place over the progress and triumph of the cause of truth.

The Canadian is hopeful, so say—ED EX.

Railway Meeting in Bobcaygeon.

A large and influential meeting of the inhabitants of Bobcaygeon and its neighbourhood, was held on Thursday evening, at Taylor's Hall, for the purpose of considering the position of railway matters affecting the neighbourhood. C. Fairbairn, Esq., the Reeve, took the chair. Mr. Geo. Bisk opened the proceedings in a speech showing the present railway situation, and he [illegible] Mr. Boyd, who said that after numerous efforts to obtain railway connections he now thought the best thing was to take the first opportunity that arose. He was not about to suggest any particular course, but whatever the meeting decided upon he would accept and support it. Mr. Stewart read a letter from the President of the Midland Railway regretting his absence, and advocating the extension of the Midland line from Peterborough. Mr. Stewart also explained that Mr. Armour was detained from the meeting by the Assizes. A lengthy discussion ensued, and the following resolution was moved by Mr. George Bisk and seconded by Mr. Sheahan:—

That this meeting approves of giving a bonus to the Cobourg Railway Company, and that the Reeve and Deputy Reeve be duly appointed as Delegates to consult with the Directors of the Cobourg Railway with a view to possible support to the Council at their next meeting on the 4th of May, and that a petition be presented to the Council to pass a By-law granting [illegible] to aid the said Depot [illegible] —Carried.

It was then considered advisable that a Petition should be presented to the Council, asking it to grant a bonus to the Cobourg Railway Company. The following Bobcaygeon gentlemen were elected a large number of signatures:—

To the Reeve and Council of the Municipality of Verulam [illegible] Municipal Council of Verulam [illegible] in case the Cobourg Railway Company [illegible] of the Company [illegible] of the municipality and [illegible] the Bobcaygeon Branch [illegible] Mr. Boyd, who said [illegible] Mr. Stewart read a letter from the President of the Midland Railway regretting his absence, and advocating the extension of the Midland line from Peterborough. Mr. Stewart also explained that Mr. Armour was detained from the meeting by the Assizes. A lengthy discussion ensued, and the following resolution was moved by Mr. George Bisk and seconded by Mr. Sheahan:—

That this meeting approves of giving a bonus to the Cobourg Railway Company, and that the Reeve and Deputy Reeve be duly appointed as Delegates to consult with the Directors of the Cobourg Railway with a view to possible support to the Council at their next meeting on the 4th of May, and that a petition be presented to the Council to pass a By-law granting [illegible] to aid the said Depot [illegible] —Carried.

It was then considered advisable that a Petition should be presented to the Council, asking it to grant a bonus to the Cobourg Railway Company. The following Bobcaygeon gentlemen were elected [illegible] and received a large number of signatures:—

To the Reeve and Council of the Municipality of Verulam [illegible] Municipal Council of Verulam [illegible] in case the Cobourg Railway Company [illegible] of the Company [illegible] of the municipality and [illegible] the Bobcaygeon Branch [illegible]

THE BUDGET.

(CONTINUED FROM OUR FIRST PAGE.)

He did not reproach his Ireland friends for the excellent bargains they had made with the Dominion. It was a credit to them to know when they came across a bit of real Canadian enterprise and keen sagacity on the alert. With the additional expense of working their railroad, he feared the season's rent of the inland for some time would reach about $700,000. He much doubted whether we could count on more than $400,000 from that source. All these matters, and they were read from the expenditure on the Pacific Railway, did constitute a very serious drain on the resources of the Dominion. He did not wish to discourage or condemn policy (cheers), the benefits of which would be felt in all sections to certain means of common perfectly clear and plain, which none can deny. We should, therefore, have no large expenditure for the year of the order of the year 1874-5 (cheers), 000. The means to be expended could be thirty pound at more than $25,000,000, made up as follows: Customs, $15,0 00, which was $600,000 more than Mr. Tilley's last estimate, and a little more than Mr. Cayley's more by about the amount $1,100,000, or considerably less than last year's estimate; from public works he feared he would not be justified in expending more than $2,000,000, instead of the two and a quarter millions of last year's estimate; from others, probably $300,000 in round numbers; interest on investments covering several items that the interest on the sinking fund, for $1,000,000. Mr. Tilley's computation was $600,000, but under previous circumstances not likely to occur again. Probably we should receive little more than nevertheless than the $600,000 he had estimated, namely, $600,000. He (Mr. Cartwright) did not say that they should be justified in expending a large sum in the present state of taxation than $22,000,000, and therefore it was quite clear that a very large amount of additional taxation would be necessary to enable the Government to meet heavy demands. We were pledged, taking the most favourable view of the situation, to a very large capital expenditure for the next half dozen years, and, therefore it was necessary and desirable in imposing taxation, that the whole proceeds of the tax we could for future emergencies in the shape of an interest of that large additional outlay. He was in hopes that p'th political parties would be inclined to abstain from requirements of this year, with a small margin over, partly from the gradual growth of the country, and partly from the reduction contemplated, we should be able to dispense with taxation for a considerable period. He feared it would be necessary to provide

ADDITIONAL TAXATION

to an extent not far short of three millions. He did not desire to disguise the gravity of the occasion, our present net revenue was very little, $18,000,000, from all sources. And our expenditure (from this estimated would be three millions necessary, although he did not pretend to say we could have avoided all taxation; but we were called upon now to confront errors and evils for which we were not responsible. They would desire, in imposing this taxation, to make it fall, as partly as possible on the whole community. Before presenting further, the (Hon. gentleman) Resolutions in the hands of the House, for which purpose he would sit down for a few minutes.

The resolutions, with the proposed changes in the duties were distributed.

CHANGES IN THE TARIFF.

The following are the tariff resolutions, front which it is expected that an additional revenue of three millions of dollars can be obtained:—

1st. That it is expedient to amend item No. 15 Vic., Cap. 44, and other items amending the same, and the tariff duties and exemptions, as the schedule annexed to said Acts.

2nd. That it is expedient to repeal so much of the said schedule "A" as imposes any specific duty on cigars or spirits and strong waters, and to substitute for such duties the specific duties in the next following resolution.

3rd. That it is expedient to impose on the several articles hereinafter mentioned, the specific and ad valorem duties of the terms set opposite to each, respectively, viz:—

Cigars, per lb, 70c.
Tea, Green and Japan, per lb, 6c.
Tea, black, per lb, 4c.
Coffee, green, per lb, 2c.
Coffee, ground or roasted, per lb, 3c.
Sugars, in addition to the *ad valorem* duty of 25 per cent. now imposed on all sugars equal to and above No. 16 Dutch standard, per lb, 1½c.

On all sugars equal to and above No. 13, and below No. 16 Dutch standard, per lb, 1¼c.

On other sugars as before.

Spirits and strong waters, viz: spirits and strong waters not having been sweetened or mixed with any article, so that the degree of strength thereof cannot be ascertained by Sykes' hydrometer, for every gallon of the strength of proof by such hydrometer and so in proportion for any less strength than the strength of proof, and for every greater or less quantity than a gallon, namely:—

Brandy, Geneva, Alcohol, Rum, Gin, Whiskey and unenumerated articles of the like kind, per gallon, $1.

Other spirits being sweetened or mixed as that the degree of strength cannot be ascertained as aforesaid, namely:

Rum, Shrub Cordials, Old Tom Gin Taffe, Schiedam Schnapps, Bitters and unenumerated articles of the like kind, per gallon, $1.50.

4th. That it is expedient to amend schedule "B" annexed to the said Act, by adding the following articles to the list of goods paying ten cent. *ad valorem*, viz:—

Locomotive engine frames, axles, cranks, hoop iron, or steel for tires of wheels cast and welded, crank axles, piston rods, guide and slide bars, crank pins and connecting rods. Machinery for mills and factories which is not manufactured in the Dominion.

5th. That it is expedient further to amend the said schedule "B" by adding the following articles to the list of goods paying five per cent. *ad valorem*: ship materials, viz: bracelet lamps, blocks, and patent leaders for blocks, bunting, cables, iron chains of all sorts, compasses, canal eyes, deal lights, dusk plugs, knees, iron masts or parts of iron, pumps and pump gear, riders, iron shackles, sheaves, signal lamps, steering apparatus, travelling trucks, wedges, wire rigging, cables, hemp, or grass cordage and cloth or canvas, varnish, black or bright iron scrapes, galvanized or pig iron, puddled blooms and billets, puddled or cast puddled, bolts and spikes, galvanized wire, steel wrought or cast in bars and rods, steel plates cut to ally form, but not moulded, copper in pigs, bars, bolts and bar shearing, yellow metal in bolts, bars and for sheathing.

6th. That it is expedient further to amend the said schedule "B" by repealing so much thereof as imposes any duty of customs on tobacco, or cu wives, and substituting the following in lieu thereof:

Tobacco and snuff 12½ per centum ad valorem; gold 25 cents per pound. Wines of all kinds, including ginger, orange, lemon, gooseberry, strawberry, raspberry, cider and currant wines, a specific duty of 60 cents per gallon, 6 quart and 10 pint bottles to be held to contain a gallon.

On all wines containing less than 22 degrees of proof spirit, by Sykes' hydrometer when imported in casks, on all other wines except sparkling, 60c. per gallon. When imported in casks on all wines, except sparkling wines imported in bottle, $1.50 per dozen of quart bottles, 3 whereof contains a gallon, and so in proportion.

7th. That it is expedient further to amend the said schedule "B" by imposing an ad valorem duty of 25 per cent. on the following articles:

Saltz, sodium, velvets and all manufactures thereof; gold, silver or plated ware, viz: gold and silver watch cases, enamelled or otherwise ornamented, gold and silver bullion, bullion of all kinds, ornaments of bronze, aluminum, terra cotta or composition, silver and gold cloth, tinsel and other articles enumerated with gold or for embroidering lasts and insertions, writing desks, fancy and ornamental cases and

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL

Worth Ten Times Its Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgment of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of oils of some of the best (the oils are hands), each one possessing virtue of its own. Eminent physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and possessing medicinal virtues which could never be found in the case of any one of them, or in other proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and heralds a wider range of applications than any medicine ever before discovered. When ever applied you get the benefit of every drop; whereas with other patent medicines nearly all the alcohol is lost in that way, and you get only the smell of oils which they may contain.

S. N. THOMAS, Perth, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McGeamis, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy.

Job Moses' Periodical Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

These Pills should not be taken by females during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysteries, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package which should be carefully preserved.

$1.00 and 181 cents for package enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McGeamis, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparations. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Pathosis or Asthma, and restores to vital activity the system debilitated by sufferings and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diarrhea, pains in the side, joints and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is now superseding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious colic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion of Inflammation of the Liver and Viscera in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Ayer's

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.
NORTHROP & LYMAN,
Toronto,
General Agents for Ontario.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deservedly upon the confidence of mankind, as this CHERRY PECTORAL for pulmonary complaints. Through a long series of years, the testimony in favor of the wonderful virtues of this medicine has been constantly accumulating, and it has become better known. Its unrivalled excellence and power to cure the most distressing and dangerous of the lung and throat, have made it a household word in all parts of the civilized world. When administered in the earlier forms of disease and to young children, before the system has become saturated with the scrofulous poison, it is almost a specific for the most distressing pulmonary complaints. And the dangerous affections of the throat and lungs, which, in their incipient stages, produce annoyance and anxiety, if allowed to go on, are sure to result in confirmed consumption, and the destruction of the sufferer. As a preventive of these fatal results, every family should have it in the house, and not neglect to procure it, on the first appearance of a cough or cold. Many a life would be saved, and many a bitter pang of anguish and sorrow be spared, if this remedy were always employed in season.

Asthma, or asthmatic affections, are generally induced by colds, and the great numbers of cases which have been completely cured by the CHERRY PECTORAL, attest its power over this class of complaints. Even those cases of Asthma which seem to be beyond the reach of medicine, are greatly relieved by the use of this Pectoral, and many such cases have been entirely cured by it. Public speakers find great protection from it.

Bronchitis is always relieved and often wholly cured by it.

Whooping Cough is speedily cured by taking the CHERRY PECTORAL in small and frequent doses.

So thoroughly are the virtues of this remedy known, that we need not publish certificates of them here, or even assert the positive claim for it which we fully believe it deserves.

Ayer's Ague Cure,

Peterborough Examiner.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common *glasses*, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dimness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirement of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable testimonials might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by
WM. H. TAYLOR, M. D.

Select Poetry.

The Coming Men.

BY ELLA WHEELER.

Hurrah! for the good time coming,
When the boys of to-day shall be
The noblemen you'll then think telling,
An entry of London, can be!

Some think on every other
Believing as men do today,
And thanks and smile at the reason
And girls who practised they?

No! we are the men that are coming—
We, the bold young band;
And we shall not grieve your wisdom,
I'll leave you to understand.

We are ashamed of the liberty,
Ashamed of those who sell for
And we hate old Alcohol.

Step call on the little children,
Where shop are so pealing by;
But if we are not nearer manhood
Than they, I'll ask you, why?

Is it purity, truth, and honor
That build up a manly man;
Now, which of us secures the title?
Just tell me if you can.

Do you think you'll find us smoking
Behind a painted screen,
Ashamed of the place we enter,
And hoping we won't be seen?

Yet this is the way these men do:
But I'd have you understand
That we set a better example—
We, the cold water band.

An Act respecting Voters' Lists.

Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

1. To prevent the creation of false votes: where any person claims to be assessed, as owner or occupant of any parcel of land, or as possessing the income which may entitle him to vote in the municipality at an election for the Legislative Assembly, and the assessor has reason to suspect that the person so claiming, or for whom the claim is made, has not a just right to be so assessed, it shall be the duty of the assessor to make reasonable enquiries before assessing such person.

2. In the alphabetical list or lists of persons appearing by the assessment roll to be entitled to vote in a municipality or in each of its sub-divisions (as the case may be), being the list or lists required to be prepared under the seventh section of the Election Act of 1868, if the qualification is in respect of income, the clerk shall, in the proper list, state that fact, and the place at which the voter resides in the municipality.

3. Immediately after the clerk has made the said alphabetical list, and at latest within thirty days after the final revision and correction of the assessment roll, the clerk shall cause at least two hundred copies of said list to be printed, and shall cause one of such printed copies to be posted up, and to be kept posted up in some conspicuous place in his own office; and shall forthwith also deliver, or transmit by registered letter, two of such copies to each of the following persons, that is to say:

Every member of the municipal council of the municipality except the reeve;

Every teacher of a Public School in the municipality;

Every post-master in the municipality;

The treasurer thereof;

The sheriff of the county;

The county judge, or each of the county judges in case there shall be more than one county judge in the electoral division;

The clerk of the peace;

(2) And the clerk of the municipality shall forthwith also deliver or transmit, by registered letter, ten of such copies to each of the following persons, that is to say:

The Member of the House of Commons, and the Member of the Legislative Assembly for the Electoral Division, respectively, in which the municipality lies;

The unsuccessful candidate, or each of the candidates (as the case may be), for whom votes were given at the then last election of a Member for the House of Commons, and for the Legislative Assembly, respectively;

The reeve of the municipality;

(3) Upon each of the copies so sent to each person, shall be a printed or written certificate, over the name of the clerk, stating that such list is a correct list of all persons appearing by the assessment rolls of the municipality entitled to vote at elections for members of the Legislative Assembly; and also stating the date upon which a copy of such list was first posted in the clerk's office; and further calling upon all electors to examine the said list, and, if any omissions or other errors are perceived therein, to take immediate proceedings to have the said error corrected according to law.

(4) The sheriff shall immediately upon the receipt of his copies cause one of them to be posted up in a conspicuous place in the court house; the clerk of the peace, upon receipt of his copies, shall cause one of them to be posted in a conspicuous place in his office; every public teacher shall in like manner post up one of his copies on the door of his school-house, and every post-master shall post up one of his copies in his post-office.

4. The Clerk shall also forthwith cause to be inserted in some newspaper published in the Municipality, or in case no newspaper is published in the Municipality, then in some newspaper published in the Municipality next thereto, or in the County Town, a notice, signed by him, stating the date of the first posting up of the said list in his office. One insertion of such notice shall be sufficient.

5. The said list of voters shall be subject to revision by the county judge, at the instance of any voter or person entitled to be a voter, on the ground of names of voters being omitted from the list, or being wrongly stated therein, or of names of persons being inserted on the list who are not entitled to vote; and upon such revision, the assessment roll shall not be conclusive evidence in regard to any particular, whether the matter on which the right to vote depends had or had not been brought before the Court of Revision, or had or had not been determined by that court and the decision of the judge appealed to, but, as regards the right of any person to vote, shall be final so far as regards such person.

6. A person complaining of any error in the said list shall, within thirty days after the clerk has posted the said list in his office, and transmitted or delivered the said copies, give to the clerk of the municipality a written notice of his complaint and intention to apply to the judge in respect thereof; and the proceedings thereafter by the clerk, judge, and parties respectively, and the respective powers and duties of the judge, clerk, and other persons shall be the same, or as nearly as may be the same, as in the case of complaints to the Court of Revision; but no deposit shall be required to be made before any such complaint is heard or disposed of.

7. In case no complaint respecting such list is received by the clerk of the municipality within thirty days after the first posting up of the same, the clerk shall apply to the judge to certify one of the copies received by the judge as being the revised list of voters for the municipality; and a duplicate of the list shall be retained by the judge; and the certified copy shall be delivered to the clerk of the municipality, to be kept by him among the records of his office.

8. Any party may obtain from the County Court a subpœna requiring the attendance at the court for hearing complaints as aforesaid, at the time mentioned in such subpœna, of a witness residing or served with such subpœna, in any part of this Province, and the witness shall obey such subpœna, provided the allowance for his expenses according to the scale allowed in Division Courts is tendered to him at the time of service; and any person complaining, or any person in respect of the insertion or omission of whose name a complaint is made, shall, if resident within the municipality, upon being served with a subpœna, obey the same without being tendered or paid any allowance for his expenses. If any person whose right to be a voter is the subject of inquiry, does not attend in obedience to such subpœna, the judge may, if he thinks fit, on the ground of the non-attendance of such person, strike his name off the list of voters, or refuse to place his name on the list of voters, as the case may require, or impose a reasonable fine on such person according to his discretion.

9. Immediately after the list has been finally revised and corrected as aforesaid, the judge shall make in writing and sign, a statement, in duplicate, setting forth the changes, if any, which he has made in the list; and shall in open court certify a corrected copy of the list, and deliver a correct copy to the clerk of the municipality; and the latter shall forthwith transmit to the clerk of the peace a copy of the said corrected list, accompanied with the proper oath or affirmation of the correctness thereof, as directed by the said Act. And no person shall be allowed to vote unless his name appears on the last list of the voters made, certified, and delivered to the clerk of the peace at least one month before the date of the writ to hold the election; and no question of qualification shall be raised at any such election, except to ascertain whether the party tendering his vote in the same party intended to be designated in the alphabetical list as aforesaid.

10. In case of errors being found in the said voters' list on the said revision thereof, whether such errors are in the omission of names, the inaccurate entry of names, or the entry of names of persons not entitled to vote; if it appears to the judge that the assessor was blamable for any of the said errors, the judge shall order the assessor, either alone or jointly with any other person, to pay all costs occasioned by the same; and in case of errors for which the clerk was to blame, the clerk, either alone or jointly with any other person, shall be charged with the costs; and in case of errors of the Court of Revision, the municipality shall, either alone or jointly with any person, pay the costs, subject to any claim which the municipality may justly have against the guilty parties; or the judge may order the assessor, clerk or municipality in any such case, to pay the costs, if any party fails to recover the same from any other party named and ordered to pay the same; and in all cases not herein provided for, the costs shall be in the discretion of the judge.

11. If a person not assessed, or not sufficiently assessed, shall be found entitled to vote, the municipality shall be entitled to recover taxes from him, and to enforce payment thereof by the same means and in the same manner as if he had been assessed on the roll for the amount found by the judge; and the judge shall make an order, setting forth the names of the persons so liable, and the sum for which each person should have been assessed, and the land or other property in respect of which the liability exists; and such order shall be transmitted to the clerk of the municipality, and shall have the same effect as if the said particulars had been inserted on the roll.

12. For every name erroneously inserted in or omitted from any list of voters, or duplicate required under this Act, the clerk offending shall pay and forfeit to any person who may sue therefor, the sum of one dollar, and shall also pay to any person applying to the judge to have any such error corrected, the costs incurred by him in respect thereof; and the payment of the penalty imposed by this section shall not relieve the clerk from any additional penalty attaching to any wilful and wrongful act.

13. Any Assessor who wilfully and improperly inserts any name in the assessment roll, or assesses any person at too high an amount, with intent in either case to give to any person not entitled thereto an apparent right of voting at any election, or who wilfully inserts any fictitious name in the assessment roll, or who wilfully and improperly omits any name from the assessment roll, or assesses any person at too low an amount, with intent in either case to deprive any person of his right to vote, shall, upon conviction thereof before a court of competent jurisdiction, be liable to a fine not exceeding two hundred dollars, and to imprisonment until the fine be paid, or to imprisonment in the common gaol of the county or city, for a period not exceeding six months, or to both such fine and imprisonment, in the discretion of the court.

14. No person shall make, circulate, accept or become a party to any bond, deed or other instrument, or enter into a party to any wilful arrangement, whereby a colourable interest in any land, house, or tenement is conferred, in order to qualify any person to vote at an election; and any person violating the provisions of this section, besides being liable to any other penalty prescribed in that behalf, shall pay and forfeit the sum of one hundred dollars with costs of suit, to any person suing therefor in any court of competent jurisdiction; and any person who induces, or attempts to induce another to commit an offence under this section, shall incur a like penalty.

15. This Act shall apply to the assessments and voters' lists of the present year only.

Agricultural.

Bots are the larval form of a fly-like bodies frequently found in the newly voided feces, and in the rectum examinations have formed adhering to the coats of the stomach. We believe they are sometimes present in the horse in nearly all cases, but become particularly numerous in the months of summer. Bots are the larvæ or grubs of the *Estons* or Gadfly, and several kinds have been found inhabiting the alimentary canal of the horse. For a description of the various kinds, and of their origin, we will refer to the remarks of the late Dracy Clark, who bestowed long and particular attention on their origin, effects, &c.

Mr. Clark has particularized three species of bots, viz., the '*Estons Equi*,' or large spotted bot, which are the most common and are generally found adhering to the cuticular coat of the stomach. The female Gadfly during the summer months deposits her eggs on the horse's leg or sides, which become firmly glued to the hair, and after remaining some days in this situation they become ripe, and at this time the slightest application of warmth and moisture is sufficient to bring forth the latent larvæ. At this period, if the tongue of the horse happens to touch the ova, their opercula are thrown open, and the contents readily adhere to the tongue, and with the food are conveyed to the stomach, and there being lodged and hatched, they cling to the cuticular coat.

In speaking of the *Estons hemorrhoidale*, or fundament bot, Mr. Clark says that the ova are usually deposited upon the lips of the horse, or some part of the body within reach of the tongue.

It may be stated in a few words that the ovum or egg which ultimately forms the bot is deposited on the leg or other parts of the body which the animal can reach with its tongue; and by the application of heat and moisture as in the animal licking himself, the egg is conveyed into the mouth, and from that into its proper abode the stomach, where it grows and finally adheres to the coverings of that organ, especially the cuticular portion.

In the spring months, it becomes detached, and is passed through the alimentary canal and expelled along with the feces, where from exposure it is changed into the state of chrysalis, out of which it finally changes into a fly.

Bots may adhere to any portion of the stomach, and in post-mortem examinations we have seen them in considerable numbers sticking to the termination of the œsophagus and to the beginning of the small intestines. These little bodies are very frequently blamed for causing diseases of the bowels, when the disease is produced by other and far more likely causes. No doubt if they are present in very great numbers, they may excite irritation of the stomach, and interfere with the process of digestion, and in some cases possibly setting up an inflammatory action of the coats of the stomach. But when they only exist in ordinary numbers and as they principally adhere to the cuticular portion of the stomach, we believe very little, if any harm results from their presence. In fact we may safely affirm that two-thirds of the horses of this country are infested with bots of a greater or less extent during the winter months, and at the same time they enjoy perfect health and are in excellent condition. In after-death examinations we often find bots in the stomach, when death had resulted from accidental causes, which could in no way be attributed to disease of the digestive organs, and where up to the time of the accident the animal had been in the most perfect condition. In nearly all the horses that are destroyed at the Veterinary College in this city, for the purpose of dissection, bots are found in the stomach. Very often when horses are suffering from colic or other diseases of the digestive organs which produce severe and violent symptoms, these symptoms are often erroneously supposed to be due to the presence of bots. Should the animal unfortunately die and an after-death examination be made by a party entirely ignorant of the structure and general appearance of the digestion trait, and any bots found, the cause of death is at once put down to the effects of these little bodies—when other well-marked appearances would show the cause of death to have been due to a common and well-marked disease.

Some people attribute certain milder symptoms as due to the presence of bots in the stomach, such as biting at his body, and rubbing against the stall or manger. Such symptoms we believe are more likely to be due to some irritation of the skin than to the effects of bots.

What may be called the natural effects of the stomach, the usual symptoms of indigestion will be present, such as an unhealthy coat, weakness, and a capricious appetite.

Various specifics and remedies are recommended for the removal of bots, but it is very questionable indeed if we possess any medicine in our pharmacopœa which has the effect of removing these beasts, without at the same time proving injurious to the animal within which they are lodged, because they hold so tenaciously by the coats of the stomach. However we can, at certain seasons of the year, when they are about to let go their hold and are about to be voided, assist the operation, their expulsion may be accomplished by certain medicines—such as a dose of purgative medicine or two ounces of oil of turpentine given in half a pint of new linseed oil, and at the same time a change of diet for a few days has a beneficial effect. The preparations of iron are also found useful as such, tinct. A favourite remedy in some parts of the country is one composed of sweet milk and molasses, which if it does not do any good, it cannot possibly do any harm—except in its administration. Some people very absurdly imagine that the drench is more effectual when poured down the nostrils than when given by the mouth, and we have known several fine animals destroyed from being drenched in the above manner! This method of drenching is highly dangerous and on no account should be resorted to.

Golden Rules of Life

All the air and the exercise in the universe cannot atone for irregular and liberal table, but poorly suffice between stamina, if we neglect the co-operation—namely the obedience to the laws of abstinence and those of ordinary gratification. We rise with the headache, and we set about purifying ourselves to find out the cause. We then recollect that we had a hard day's fag, or that we stayed up very late, or that we feasted over-bountiously—at all events we are inclined to find out the fault, and then we accuse ourselves unfairly for falling into it. Let any individual review his past life, how instantaneously the blush will cover his cheek when he thinks of the errors he has unknowingly committed—nay unknowing, because it never occurred to him, that they were errors until the effects followed, that betrayed the cause. All our sicknesses and ailments mainly depend upon ourselves. There are thousands who practice errors every day, and whose pervading thought is, that everything which is agreeable and pleasant cannot be hurtful. The slothful man loves his bed, the toper his drink, because it throws him into an exhilarative and exquisite mood, the gourmand makes his stomach, his god, and the sensualist thinks his delight is imperishable. So we go on, and at last we stumble and break down. We then begin to reflect, and the truth stares us in the face how much we are to blame.

A Husband's Confession

"Really, Mrs. Hope," exclaimed a maiden friend to the wife of a journeyman, "I can't make you out at all. Ever since I've come into the house you've smiled, and laughed, and bustled about as though some stingy old relative had died and left you a lot of money. Is it so?"

"No, Alice it isn't; but I'm in good spirits, for all that," and the happy wife smiled again.

"Then what's put you into such an enviable humor?"

"Well, I don't think I ought to tell you. So far it's a secret."

This rebuff only increased Alice Paine's desire to be enlightened, so she persevered till her friend, Mrs. Hope, promised to satisfy her curiosity.

"Another day," began the wife, "I had to take John's dinner to the office: and you know its one of those queer old buildings that have so many fine and outs about it."

"Yes, yes, I know that, Mrs. Hope," said Alice impatiently: "but do be quick and tell me the rest."

"And quite by accident I overheard my husband make a confession to one of the other workmen."

"The nicest thing you can do, *Harry*," I heard John say, "is to get acquainted with a healthy, sensible, industrious young woman, and marry her. I was as poor and miserable and as lost-like as a young fellow well could be before I got my gem of a wife; often without a sixpence when pay day came, and couldn't tell how the money slipped through my fingers. Like you, *I went in for pleasure and enjoyment*, but I never remember to have felt the better for it afterwards: in fact you may take my word for it Harry, that the most of that sort of thing's humbug and selfishness. At least, I found it so, and it's a wonder you haven't before now. Talk about turning over a new leaf, keeping steady and saving up—the only way to do that, Harry, is to get a good active wife, and love her with all your might, as I do. Though poor and plain, I'm never ashamed to bring anybody into my little cot, because I know it's always clean and orderly. Then there's the children—God bless 'em—how they warm a man's heart after a long day's work! And how cheerfully and quietly their mother manages to keep things straight and right, and cute about just like what she is—one of the best of wives and a real workman's friend. Get a help-mate, Harry, and depend upon it if she's of the proper sort, you'll soon be a better, a richer, and a happier man. You may think I'm speaking too warmly on the subject, but I assure you I feel more than I can put into words. Good wives are our best and noblest *returners*, Harry; and, though I never told her so to her own sweet face, mine is worth a little fortune to *Jack Hope*."

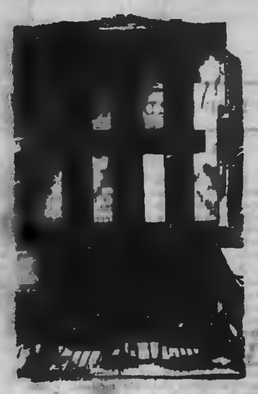
"I dare say what you've told me's all true enough," I heard the man remark, "but where can I find a gem of the same pattern? They're rather scarce now-a-days."

I did not hear what answer my husband made, for just then the door, near which I had been stand

NEW GOODS.

JOHN ERSKINE

Begs to announce that his Stock is now Replete with New Goods, Consisting in part as under:



PRINTS,
WHITE & GREY COTTONS
LINENS,

DISSOLUTION!

The partnership heretofore existing between the undersigned, under the name and style of

T. Donnelly & Co.,

in the Town of Peterborough, is this day dissolved by mutual consent, T. Donnelly having disposed of his entire interest in the business to

Messrs. SHORTLY & HASLEHURST

who assume all Liabilities of the late firm, and will collect all debts owing the same.

THOS. DONNELLY,
BENJAMIN SHORTLY.

Peterborough, February 5th, 1874.

I take this opportunity of thanking those who so kindly extended me their patronage during the past sixteen years, and would bespeak a continuance of the same to my successors, Messrs. Shortly & Haslehurst.

T. DONNELLY.

With reference to the above the undersigned beg leave to state that they will carry on the business in all its branches as formerly, and use all their endeavors to merit a share of the public patronage.

SPECIAL INDUCEMENTS given to those wishing to purchase during this and the following month, as we wish to clean out the stock to make room for Spring purchases.

SHORTLY & HASLEHURST,

P. S.—All Accounts by Book or Note due the late firm, must be paid at once to save costs. S. & H.

JOHN LUDGATE,
Ashburnham.
Ashburnham, Apr. 18th, 1874. 16-tf

FOR CONSUMPTION
AND ALL DISEASES THAT LEAD TO IT; SUCH AS
Coughs, Reflected Colds, Bronchitis, Pain in the Chest, and all diseases of the Lungs.

Allan's Lung Balsam

Is the Great Modern Remedy.

It is warranted to break up the most distressing Cough in a few hours' time, if not of too long standing. It is Warranted to give entire satisfaction even in the most confirmed cases of Consumption! It is warranted not to produce costiveness (which is the case with most remedies,) or affect the head, as it contains no Opium in any form. It is Warranted perfectly harmless to the most delicate child, although it is in an entirely new and powerful remedy for restoring that organ. There is no real necessity for so many deaths by consumption when Allan's Lung Balsam will prevent it, if only taken in time.

Price $1. per Bottle.
Sold by all Druggists.

Peterboro', April, 1874. 17-4y

Bertram & Co.,

Invite inspection of their Large and Complete Stock of

LOCKS
AND
Builders' Hardware!

EDITORIAL ITEMS.

SALE OF LOTS.—The price of lots at Mrs. J. H Dixon's showed no decline in real estate. They sold at from $140 and $150 to $200 per half acre lots. Three quarters of an acre brought $370.

TOWN MEETING.—There is little change in the markets. Hay is going up. It brought $20. Butter on the ordinary declines. On Saturday it was sold for 22c.

NUISANCE.—Several complaints were made about depositing filth and rubbish at the north end of Water Street.

GLASGOW WAREHOUSE.—Mr. John Erskine has completed his spring purchases and has now such a variety of everything in his line that all who call on him can be supplied. We invite attention to his advertisement.

MACILVOY'S HYDROSCOPE.—This justly celebrated exhibition has been constantly before the public for over thirteen years, and owned by the press, and admired by the people throughout the American continent. The words "Famous Original" are used to distinguish the Hydroscope from similar exhibitions recently gotten up by speculators in imitation of it. This caution is inserted to protect the public from the imposition of said persons who are exhibiting various inferior pictures and trading on a well earned reputation.

FALL WHEAT.—Mr. Jas Robb, of Stoney Lake, informs us that the Fall wheat in that section of Dummer seems to be healthy yet. The leaves are dead but the roots are uninjured so far. He thinks it may not come in so early as it would if the season were more favorable, but is satisfied that there is no great reason to feel alarmed.

COUNCIL OF PUBLIC INSTRUCTION.—Professor Goldwin Smith is the nominee of the teachers of Toronto to represent them in the Council of Public Instruction according to the new School Act. Mr. C. S. Wood, M. P. P., of Lindsay, is the most popular candidate in this part to represent the Inspectors, but as there are candidates from other parts it is difficult to predict who may be elected.

RUNNING A HORSE.—We regret to learn that a son of Mr. P. Moher, Doure, has been so severely injured by the kick of a horse received in the stable, that there are little hopes of his recovery. The skull is fractured and he is otherwise injured. Drs. Bingham, of Warsaw, and Kincaid, of Peterboro, are attending to him. He is about 18 years of age.

SOUTH MONAGHAN.—The spring work may be said to have fairly commenced this week. Very little grain sowed yet. The fall wheat, although a good deal injured, is better than was expected two weeks ago. Mr. Robert Ellis, blacksmith, started for Manitoba this week.—Com.

THE sale of lands advertised to take place on the 11th of April will take place on the 15th of May at court house here. See advertisement note. The property known as the Council property in Chandos.

MESSRS. STONE & BAILEY will remove to their new, store three doors north of their present stand on the first of May where their numerous friends will afterwards find them.

MALT LIQUORS.—In 1859, 3,566,864 gallons were manufactured in Canada, in 1872-73, 11,060,521 gallons. The Government figures for this county for 1872-73 to July is 152,263 gallons, an increase of 37,619 gallons over that of 1871-72. This is about 7,750 less than our figures last week. Our figures were for 1873 alone. The Government figures from July 1872 to July 1873. The difference will be accounted for in the last part of 1873.

INDEPENDENT BAND CONCERT.—It is with pleasure we notice that the Band has engaged the services of the celebrated Tandy, Bros. of Kingston, for their concert next Thursday evening. Their reputation as vocalists stands very high with the press through this Province. We clip the following from a late issue of the Kingston British Whig.

"The duet of the Tandy Brothers, 'I Remember,' encored, and the accompaniment of the audience (Cheering for an encore) being highly complimentary, was repeated. Mr. Harold Tandy's solo, rendered in his own unmistakable style, 'Come into the Garden Maud,' and 'Excelsior,' were received with the utmost enthusiasm. Everyone was compelled to be proud of the Young Brothers."

In addition, they have the valuable assistance of Miss Clarke and Mr. Wm Philp of Port Hope, and our local favorite Mr. J. B. Fowler, which will, we are sure, make a concert worthy of patronage.

MR. ROGERS GRAHAM, Lakefield, has now completed his Spring purchases and invites the attention of intending purchasers. Read his advertisement in this issue.

PERSONAL.—We regret still to learn that a telegram from Mr. Fairbairn, received on Monday evening gives no hope of his lasting much longer. We understand he is sinking fast.

HUNDRED AND THIRTY CANAL.—A letter from Mr. Hall, East Peterboro, was read in Council on Monday evening, stating that no difficulty stands in the way of a charter, or Mr. Hall thinks one only will have to protect the Government in future to public works now on those waters.

THE GRAND JURYMEN.—It is said that Surveyors are locating also, like lands of this Town, and that it will be pushed through with all haste.

THE TOWNSEND FAMILY are now in Peterboro, and to-night will give one of their best performances. The Townsend Family need but to be mentioned to draw crowded houses.

THE BAY VERTE CANAL is completed to cost about $1,000,000.

BURGLARY AND ROBBERY.—A young man calling himself Hiram Allen, with some others, was charged yesterday with stealing some cloth from his employer, John Cockburn, Cobourg, in appearing at the Commercial House for a time, while his countenance fell much through the country. Allen was dismissed on Tuesday. On Tuesday night, he succeeded in getting into the Commercial House for a time, while his countenance fell much through the country. Allen was dismissed on Tuesday. On Tuesday night, he succeeded in getting into the Commercial House, it is said through a window, and took away a parcel of cloth, and hid it in the Court House yard. It was also discovered that he left a parcel to Mr. Allen, where he had been stopping, which, when inspected, was found to be cloth. He will appear before the Police Magistrate this morning, and will no doubt get his castle.

HURON AND SIMCOE RAILWAY

This railway scheme appears to have been very favorably received in the West. It has always appeared to us a very desirable road, besides giving another outlet for the trade of the United States, it will afford a direct connection to that magnificent section of Canada and Sarnia. The road passes through many important towns and through the finest continual stretch of agricultural country to be found in the Dominion. We observe from our exchanges that the towns along the line and the various municipalities are now about voting bonuses to aid in its construction. We hope they will put Railway organizations, and subscription list to the road. There is no reason why all the trade of the country should be forced to Toronto to be tolled there. We can easily understand why the Toronto papers, now that the scheme is assuming a tangible shape, should, by insinuations and more open hostility, oppose it. We have no objection to Toronto flourishing, but the "country before Toronto" is our motto. The Huron and Ontario, the Ontario and Quebec Railway, to which our town and county have pledged large assistance, and the Northern Colonization Railway are destined to form a second Grand Trunk system, which the growing trade of the Western States and the demands of our fast growing country urgently calls for. We give John Fowler credit for conceiving and carrying up the most promising railway enterprise of the day. If Fowler is backed by the good sense and united action of all the people on the line, who will be so greatly benefitted by the road, we have little doubt that what is now a promising scheme will soon be a successful reality. We hope that that great section of country to be served by the new railway will not quietly allow the Toronto newspapers to guide them. We have always admired the unanimity of the Toronto papers when Toronto interests were concerned. Let the people along this new line take a leaf out of their book and think of their interests, then working together, we have no doubt of the result.

THE TARIFF.

The Opposition press is very much excited over the changes in the tariff, as proposed by Mr. Cartwright.

The present Government took office with a deficit of three million dollars staring them in the face, and other liabilities in the shape of work promised on canals, harbours, railways, &c., to be met although not fully provided for. Mr. Cartwright, can wise economy, prefers making each year pay its own tariff, instead of increasing the national debt at the rate of three to five million dollars a year, as has been the case since confederation under the heaven born financeering of Sir Francis Hincks and John A. Macdonald. It was believed and asserted before Mr. Mackenzie took office, that an adjustment of the tariff was certain—inevitable indeed, as the reckless promises of the Government, in order to retain power, were in excess of their ability to meet. True to their old policy of gentlemen (?) legislators, they continue the cry of inability to govern the country wisely because Mr. Cartwright and Mr. Mackenzie are not gentlemen, according to their ideas, as if being born in a palace is a sure preventive of idiocy, although directly contrary to the experience of centuries. It is difficult, it might be added, almost impossible, to discuss the tariff question in a short article. There are so many interests to be considered and many of them opposed to each other. It is true that a finance Minister cannot be supposed to frame his policy to meet the demands of each set of traders and manufacturers, but he is bound to frame it so as to bear equally or proportionately on all, and this is the policy of the present Government as far as can be carried out. That they will be able to bring it to a state to satisfy all, is more than they need expect, for if a Moses should now propound a law for the settlement of duties with the same authorities as once was done from Sinai a certain proportion of the people of Canada would not accept it, unless it could be shown to their satisfaction, that the Moses was a Liberal Conservative or Tory.

The discussion of the Tariff in the House will, no doubt, bring about some changes in the now proposed duties. Let us hope that the changes will be such as to make the duties on necessaries, and teas and sugars should be placed among these, least pressing on parties that are least able to bear either. The extra duty can be materially raised without affecting any interests seriously, and we feel confident that if the amounts put on tea and sugar were placed on whiskey, brandies, wines, &c., it would remove any feeling of opposition to the tariff. Indeed the people everywhere expected that whiskey would have had to pay 50 per gallon instead of 72c. It is said that if placed at $2 per gallon smuggling would be the consequence. Perhaps so, but only to a limited extent, as the few examples of seizures would deter others from undertaking it.

Free trade will be found more in consonance with the minds of the people of Canada, as a whole, than protection, as the protection of one interest must necessarily be at the expense of the consumers or some other interest. The cheaper every article can be produced or placed in market, the better for the mass of the people of Canada. But free trade is absolute, cannot be, as the $24,000,000, required, by entry, on the Government must be raised and no three systems way has been devised than by customs. The only fair practicable to certain industries must not induce Mr. Cartwright to grant it, as in doing so he will merely be eliminating one duty, or exacting them at the expense of another, and so prevent that [illegible] power by class legislation, would threaten the confidence of the people. We do not anticipate anything of the kind, however, on the contrary we expect careful, prudent

THE TORY PRESS.

The Opposition press is very much excited over the changes in the tariff, as proposed by Mr. Cartwright.

The present Government took office with a deficit of three million dollars staring them in the face, and other liabilities in the shape of work promised on canals, harbours, railways, &c., to be met although not fully provided for. Mr. Cartwright, can wise economy, prefers making each year pay its own tariff, instead of increasing the national debt at the rate of three to five million dollars a year, as has been the case since confederation under the heaven born financeering of Sir Francis Hincks and John A. Macdonald. It was believed and asserted before Mr. Mackenzie took office, that an adjustment of the tariff was certain—inevitable indeed, as the reckless promises of the Government, in order to retain power, were in excess of their ability to meet. True to their old policy of gentlemen (?) legislators, they continue the cry of inability to govern the country wisely because Mr. Cartwright and Mr. Mackenzie are not gentlemen, according to their ideas, as if being born in a palace is a sure preventive of idiocy, although directly contrary to the experience of centuries. It is difficult, it might be added, almost impossible, to discuss the tariff question in a short article. There are so many interests to be considered and many of them opposed to each other. It is true that a finance Minister cannot be supposed to frame his policy to meet the demands of each set of traders and manufacturers, but he is bound to frame it so as to bear equally or proportionately on all, and this is the policy of the present Government as far as can be carried out. That they will be able to bring it to a state to satisfy all, is more than they need expect, for if a Moses should now propound a law for the settlement of duties with the same authorities as once was done from Sinai a certain proportion of the people of Canada would not accept it, unless it could be shown to their satisfaction, that the Moses was a Liberal Conservative or Tory.

The discussion of the Tariff in the House will, no doubt, bring about some changes in the now proposed duties. Let us hope that the changes will be such as to make the duties on necessaries, and teas and sugars should be placed among these, least pressing on parties that are least able to bear either. The extra duty can be materially raised without affecting any interests seriously, and we feel confident that if the amounts put on tea and sugar were placed on whiskey, brandies, wines, &c., it would remove any feeling of opposition to the tariff. Indeed the people everywhere expected that whiskey would have had to pay 50 per gallon instead of 72c. It is said that if placed at $2 per gallon smuggling would be the consequence. Perhaps so, but only to a limited extent, as the few examples of seizures would deter others from undertaking it.

Free trade will be found more in consonance with the minds of the people of Canada, as a whole, than protection, as the protection of one interest must necessarily be at the expense of the consumers or some other interest. The cheaper every article can be produced or placed in market, the better for the mass of the people of Canada. But free trade is absolute, cannot be, as the $24,000,000, required, by entry, on the Government must be raised and no three systems way has been devised than by customs. The only fair practicable to certain industries must not induce Mr. Cartwright to grant it, as in doing so he will merely be eliminating one duty, or exacting them at the expense of another, and so prevent that [illegible] power by class legislation, would threaten the confidence of the people. We do not anticipate anything of the kind, however, on the contrary we expect careful, prudent

HYPOCRITICAL MENDACITY.

The revelations taking place before the Committee of the House of Commons on the Northwest troubles are [illegible] cause the astonishment of the [illegible]

Bishop Tache has produced [illegible] from John A. Macdonald, [illegible] for $1,000, to get [illegible] the murder of the murderers of [illegible] he thought the only [illegible] had to go too, and he demanded [illegible], and on advice from John A. [illegible] Smith paid $3,000 more, [illegible],000 in all paid by Sir John to [illegible] out of the way of harm. Not [illegible], but he paid a monthly allowance to the families of Ryland and Lepine in their absence, thus binding them to stay away and so escape the punishment due, if guilty of murder. In the face of all this, the only hypocrite deserved at the hangman's hove than it was the reward offered by the Ontario Government that was pushing him a fugitive from justice, and after declaring that he was a murderer, expressed the disinclination that he could get him to punish him. This was the greatest depth to which hypocrisy could sink him, and yet this same man had paid $4,000 to spirit him away, and was then paying monthly sums to the families of the fugitives. We had this Scott matter brought up at every meeting as a token of the insincerity of Mr. Blake, and McKenzie, and with a view to influence the votes of Orangemen, in favor of the man who was using the peoples' money to frustrate justice, while he was falsely called the Minister of Justice. What will those fire eaters say now? What do they now think of the man who has so long kept the murderer of their brother, from the penalty due his crime? What do they think about paying $4,000 out of the public chest to keep a man whom he called a murderer from being brought to trial? What do the Orangemen of Ontario thing of Brother Sir John Alexander Macdonald, who took at least $3,000 out of the pockets of the ratepayers of Ontario to support, in a foreign country, the murderers of their brother Scott? We shall now await the resolutions of the Lodges in reference to this matter. In the past, the Brethren have been hurling their denunciations against the Honorable Messrs. Blake and McKenzie with as much bitterness as if dictated by the power they profess to oppose, and merely with a view to injure those gentlemen and their party. That they cared a fig about the murder of unfortunate brother Scott, is more than we can force ourselves to believe. But now that the great conservative leader and brother has been convicted of using their money to save the murderer, let their voices be heard. If a crime to murder, it makes no difference who the victim is. And if a crime to aid and abet the escape of the murderer we should not stop to enquire who aided his escape. Let us now fancy ourselves reading the following resolution, dictated this time, not by a hypocrite nearly as bad as the ex-Minister of Injustice shall we say

Moved by Brother ——, seconded by Brother ——, That whereas Louis Riel the murderer of Brother Thomas Scott, was paid the sum of $4,000 by Bro the Right Hon. Sir John A. McDonald to enable said Riel to escape from justice and whereas it is difficult to believe that he could have got away without the connivance of Bro. Sir John A McDonald, and whereas it is now proved that Brother John A. Macdonald did come to an understanding with Riel, Bishop Tache and the French members, whereby, and in accordance with such agreement, Sir John did pay Riel, the murderer of Brother Thomas Scott, the sum of $4,000 to keep him out of the way of being caught and punished, and also did pay a monthly allowance to the families of the murderers while the murderers stayed away, and whereas a large portion of this money came out of the pockets of Orangemen and yet was paid to prevent the murderer of an Orangeman being punished. Be it therefore resolved that any orangeman who would use the funds of the Dominion to spirit away the murderer of any man from the just consequences of his crime, is guilty of an unpardonable outrage; and since Sir John A. McDonald has done it, he is guilty of an unpardonable outrage against the public feelings of Ontario and of every loyal man in the Dominion and should be visited by the condemnation of every man who detests a brutal murder in cold blood, and the members of this Lodge call upon the brethren everywhere to do all in their power to consign such a recreant member of the order to private life and to expel him from the order.

The Brother in "32," who dictated the last resolution will no doubt have this resolution proposed, seconded and carried in due order, and forwarded to the Grand Lodge in good time.

But what shall be said of the Grand Master of the Order? He has supported John A. McDonald's Government through good report and through bad, and is therefore [illegible] for the [illegible] of his leading [illegible] has been a consenting party to payment of this money, and therefore, to the getting of Riel out of the way. How do the Brethren relish this of their Grand Master? Will they re-elect him? And will they condemn John A.? Let us wait and see.

ASSIZES—CONTINUED.

The number of cases at the Assizes [illegible] being large, the Court was over early on Friday.

Last week we were only able to give two cases up to going to press, that of Counsell vs. White and Davis, being the only one completed.

The case of Burnham vs. the Grand Trunk Railway was laid over to the next Court.

Galvin and wife vs. Moore was settled by the parties.

Bell vs. Fuller et al was a case for damages for breaking up a privacy, and preventing the completion of a contract. R. Boyd[illegible] for plf.—Robt Gordon, Q.C. for def.

Whyte and Davis vs. Hamilton. This was a case arising out of a [illegible] of Mr. Hamilton to persuade Whyte and Davis to take away some articles belonging to them from property recently sold to Mr. Hamilton by Mr. John Whyte, and that had been accordingly Whyte and Davis. Penny for plf.—Egan for def. Verdict for plaintiffs. $5 damages, and the right to take away the goods.

Fleming vs. Rodgers. This was a re-[illegible] case. Stands over. Moore for plf. Watson for def. It is said that it has been settled since by the parties.

Peterboro Gas Company vs. Turner. On account. Verdict for plf. by consent —$354. Dumble for plf.—Hatton for def.

Dumble vs. Turner, for amount of promissory note. Verdict for plf.—$204.

Humphreys vs. Hall. This case was brought against the Sheriff nominally, but really against Smith, Boyd & Co., to recover the amount of a chattel mortgage held against property sold by the Sheriff, under an execution against one Humphreys [illegible]. He held a chattel mortgage [illegible] the property—the Sheriff was indemnified, and sold the cattle, etc. Judgment for plf., $102. Dumble for plf.—Hamilee for defts.

Dunlar vs. Snyder. This was a case brought against Wm. Snyder for an old account. Dunlar had worked for Snyder in 1861-62, and had taken a note in settlement for $103. He also claimed other sums, amounting in all to $198. After Mr. Snyder's insolvency, he paid Dunlar $53. and Dunlar alleged that he had a promise of payment of the balance. Jury could not agree.

Faille vs. Thomas McIlmoyl. A cross case arising out of the case McIlmoyle vs. Faille *et al.* Withdrawn. Scott for plf.—H. Burnham for def.

CRIMINAL.

The Queen vs. Jackson was thrown out, with verdict not guilty.

Another cross case of Faille vs. McIlmoyle for slander was withdrawn.

The Queen vs. Carter. This was the case lately referred to in the EXAMINER about Carter shooting at one Chapin on the street. The whole affair being connected with the fining of Mr. Phelan for selling liquor on Sunday. The judge ordered a verdict of "not guilty," as the evidence favored the idea that the pistol was exhibited in self-defence. Mr. Boultbee defended Carter.

The Queen vs. Bucket. This case, for larceny, is well known, as it was tried at the last Assizes, the jury then not agreeing. Verdict, "not guilty." Mr Scott defended Bucket.

The Queen vs. Wm. Bell, for indecent assault. The lad pleaded guilty, and was fined $20 or 30 days in gaol. He gave the money, and will be $20 and costs wiser than he has been.

Mr. Maloney, in gaol as a lunatic, was discharged as well.

Mr. Armour, of Cobourg, conducted the business for the Crown.

AMNESTY.

The daily *Globe*, of Wednesday, says that members of the House of Commons at Ottawa, talk freely of evidence given by Mr. Langevin before the Northwest Committee, which proves that John A. Macdonald had promised an amnesty. The trickery of this wily political knave is coming to light day by day. He promises an amnesty to one party, calls Riel a murderer to another party, and exclaims, "Would to God we could catch him!" and to a third party sends $4,000 to get him out of the way. When the Committee reports, and the matter is fully proven, we sincerely hope that the ex-Minister of Justice will be indicted for compounding a felony, and be punished as *particeps criminis* with Riel. If guilty of paying public money to get a murderer out of the way, his position should not screen him from the just penalties. His position in other matters have brought disgrace on the Dominion. Why should this one be added to the list without being forced to answer for the crime? If Riel was worth of being expelled from the House because a murderer, surely the man who gave $1,000 of the people's money to get Riel out of the way, deserves to be expelled also. He is just as culpable as the misguided man who ordered the execution of poor Scott.

Victoria and Cobourg Railway.

We understand that the good people of Verulam are not quite decided decided as to the course to be pursued in reference to the applications for bonuses made by the promoters of these two roads. Now, it appears to us that as Verulam will be benefitted by both roads to an extent far beyond any aid which by law they can grant, that they should not hesitate in their course. Giving all their aid to the Cobourg Railway would hardly be fair, but giving all to the Victoria road may prevent the Cobourg road from being constructed. Would it not be judicious and fair to give aid to both—say ten or twelve thousand dollars to the Victoria, and twenty five thousand dollars to the Cobourg Road. Make one By-law and one vote do the business and then while aiding both roads serve all parts of the Township and all interested. The Government have offered a very substantial grant to the Victoria Railway. Let the people of Verulam give it such aid as will secure the construction of the line by securing the Government Grant. It has been intimated that the ability of the Government to aid Railways is limited—the funds for that purpose are nearly exhausted. It would be a pity if by lukewarmness and want of assistance the Townships interested should withhold that aid which would insure the performance of the conditions upon which the Government Grant can be secured. We hope that Verulam and other interested Townships will mak a united and successful effort to secure both Railways by affording to both the aid they ask. Peterboro before to-day has lost chances which can never be recalled, by wrangling over instead of uniting in assisting in the construction of Railways which are the interests of prosperity and wealth infinitely beyond all [illegible] in the power of [illegible] to grant.

[illegible]

This [illegible] of Saturday, the [illegible] ter of contentment [illegible] Some of the [illegible] were obtained by those who owe them.

The following [illegible] the entries and prizes:—

Heavy T[illegible] Hobby [illegible]

[illegible] Agent' Brigham Young"

[illegible] Kellogg."

Two Year Old—1 Henry Collins, 2 Alex Gunn.

One Year Old—1 Wm Sutherland; 2 Henry Collins.

SHEPHERDTT.—Our Ottawa despatches [illegible] a question of reciprocity [illegible] so virtually quoted. The [illegible] Mr. Shepherdtt [illegible] he would [illegible] the main objects of their mission to Washington.

TOWN COUNCIL.

The Council met on Monday evening. Mayor Cox in the Chair.

Present—Messrs. Hamilton, Cahill, Helm, Romaine, Patterson, Deane, Rutherford, Beal, Toole, Robertson.

The minutes of the previous meeting were read and confirmed.

A communication was read from R. D. Pogers, Esqr., informing the Council that the County council at its last session appointed a committee to make enquiries respecting the erection of a house of refuge and stating that any offer in the way of union in the erection, between the town and county, he believed, would be favorably received by the County Council.—Received.

Petitions for sidewalks and improvements on streets were read and received from John Sarzis and others, E. Sarzheus and others Judge Dennistoun and others, John McClelland and others, John Haggart and others, Jas. J. Salmon and others, Edward Cookson and others, D. W. Dumble and others, James A. Delaney and others, Wm Croft and others, Thos. Miller and others—All were referred to the Street and Bridge Committee.

An account from A Comstock for $21.50, for coffins, &c., was referred to the Committee on Finance.

Petitions were read from A. Wright asking for a renewal of C. Eastland's License to sell meat on Aylmer.—Granted.

Another from Henry Snider, asking to open a butcher shop on the corner of Antrim and George Streets.—Granted.

A petition from Mr. Thos. Chambers, asking the Council to refer the subject of his annual complaint at the stoppage of the water rooms at his premises on McDonald street to the Street and Bridge Committee.—Referred as desired.

Mr Beal, Chairman of the Finance Committee, reported, recommending as follows: Account of returning officers on the late by-Law, vote $16. A Dobbin, watering streets, $6. Dr Kincaid's account as town surgeon for quarter, $37 50. Benjamin Reynolds, as caretaker of the iron bridge to Jan. 1875, $50.

Your Committee decline to entertain the application of Baillie & Counsell for refund of taxes, as we failed to find any irregularities in the erection of the taxes taken from them.

Your Committee recommend the payment of $50 on account of preliminary expenses connected with the petitioning and efforts to obtain the charter for the Huron and Trent Valley Canal, Mr Boyd having undertaken to procure the necessary vouchers for the several payments. They also recommended, in reference to the petition of John Moloney and others that an allowance of fifty dollars be made to the salary of Wm. Cummings for the past year.

On the motion for the adoption of the Report, it was moved by Mr. Helm and seconded by Mr. Romaine, That the report of the Finance Committee be so amended as to allow Mr. Cumming one hundred dollars in place of fifty dollars. Mr. Helm showed that Mr. Cumming had to fill several offices—Street Inspector, health officer, Building Inspector and Collector, for which he was poorly paid. The Collectorship alone, at a percentage of 2½c. on a dollar, was worth $600, and yet all the others were additional for only $450.

The motion to amend the Report was carried and the Report thus amended was adopted.

Moved by Mr. Romaine, seconded by Mr. Patterson, That the Street and Bridge Committee be recommended to use gravel as much as possible instead of pine lumber for the use of sidewalks with a view to bringing that material into more general adoption and thereby make a more permanent and more economical sidewalk.—Carried.

Moved by Mr. Robertson, seconded by Mr. Toole, That the application of Henry Snider for a license to sell meat on Antrim Street be granted.—Carried.

Moved by Mr. Beal, and seconded by Mr Rutherford, That the Street and Bridge Committee be instructed to make arrangements for the plank lumber which will be required for Streets and Bridges purposed during the current year, by tender or otherwise as may seem best.—Carried.

On motion Mr. Hilliard, was heard before the Council in reference to Mr Beacon fencing in a street in the north end of the Town, via. the continuation of the line between the communication lots and east of the river road. He stated that Mr. Beacon had some years ago gone to the Township of Smith and obtained this street on condition that he would give a street past Martyn's Mill where he intended putting a bridge over the river at that place.

Referred to the Town Solicitor

Moved by Mr. Romaine, seconded by Mr. Patterson, That a Committee composed of the Mayor, Messrs. Deane, Toole and the mover, be appointed to confer with a Committee of the County Council with reference to a House of Refuge referred to in Mr. Rogers communication.—Carried.

Moved by Mr. Toole, seconded by Mr. Beal, That the Treasurer be directed to pay as additional $36 to George Hilliard, Esq., to be expended by him in aiding in the construction

THE RESULT OF CONSERVATIVE RULE IN CANADA.

(From the Monetary Times.)

THE FINANCIAL POSITION OF THE DOMINION.

Five years ago, the ordinary expenditure of the Government of Canada was $14,000,000. This year it is stated at $24,000,000. The increase is so enormous as to excite alarm, and to prompt the inquiry whether we have not been contracting engagements at a rate which would lead us to ultimate embarrassment. Our income has increased almost in the same proportion, but the increase has now ceased to operate for the time at least, while we are committed to heavy expenditures on capital account, which will add to our annual burden of interest. The rate of increase is altogether unprecedented in any country which has been all the time at peace, and if continued, Canada will have as heavy burdens to bear in the way of taxation as the mother country. It is questionable, indeed, whether on a fair comparison, our expenditure is not already as high for our population as that of the United Kingdom. As this is a somewhat startling remark, we have put side by side a statement of the estimated revenue and expenditure of each country for the year now current, and to this, and the observations which follow thereupon, we have to ask the careful consideration of our readers.

Expenditures of Great Britain and Canada compared (Canadian reduced to sterling):—

	GREAT BRITAIN. Amount.	P. C. of whole.	CANADA. Amount.	P. C. of whole.
Interest of Debt	£26,700,000	20 p. c.	£1,260,000	7½ p. c.
Army and Navy	28,400,000	21 "	882,000	5 "
Civil service	11,300,000	10 "	630,000	12 "
Colonies, Revenue and Expenditure	7,600,000	11 "	1,120,000	20 "
Public Works and Buildings	.....	.....	378,000	11 "
Subsidies to Local Governments	.....	.....	756,000	15 "
	£73,000,000		£5,046,000	

Receipts—(For Canada an increased basis of 1874)—

	Amount.	P. C. of whole.	Amount.	P. C. of whole.
Customs	£23,000,000	32 p. c.	£3,150,000	62½ p. c.
Excise	21,250,000	29 "	1,260,000	25 "
Stamps	10,000,000	13 "	42,000	1 "
Post Office	3,500,000	5 "	280,000	6 "
Income Tax	5,000,000	7 "	.....	.....
Land Tax	2,250,000	4 "	.....	.....
Miscellaneous Tax	.....	.....	126,000	2 "
Crown Lands, etc.	2,750,000	7 "	168,000	3 "
Profit Works	.....	.....	280,000	6 "
	£71,250,000		£5,106,000	

To understand the comparison between these two statements, we must remember that the population of the United Kingdom as compared with Canada is about as nine to one. On this ratio the expenditure of Canada would be £45,000,000 as compared with Britain's £73,000,000. Man for man, therefore, it appears that the expenditure (and therefore standard) in Canada is only sixty-five per cent. of that of the United Kingdom.

But, as it will be observed, a large part of England's expenditure is for military and naval purposes. Of this expenditure Canada knows very little. But, for purposes of comparison, we must equalize the two, and get off from England's expenditure all that shown as an excess over Canada in this respect. Or to put the matter clear, we will add as much to the expenditure of Canada as will equalize the two. For it is certain, that if we had to maintain an independent existence as a nation, we should require to support an army and navy of our own. Instead of £20,000,000 for militia, we should have an item of £1,500,000 yearly for army and navy. This would make our total expenditure £6,000,000, which would be equivalent to £56,000,000 for England. Canada, therefore, already, having never engaged in war on her own account, has to raise by taxation a sum equal to eighty per cent. of that of Great Britain. We cannot deduct the item of subsidies from the expenditure of Canada, for this is really only a diversion of certain items of expenses to another channel.

But to make the comparison really accurate, we ought to suppose that Canada has gone through a great war, and added as much to her debt, and the interest thereon, as England has. At least three-fourths of the interest on the public debt of England is on monies borrowed to carry on war. We must, therefore, strike off from the expenditure of the United Kingdom more than £2,000,000,000, representing interest on war like expenditure. This would make the total for England only £50,000,000 (as against £56,000,000) according to population for Canada.

Is it urged, against this, that Canada has spent her money on public works? This would be a valid argument if it could be shown that England is deficient in this respect as compared with Canada. But this cannot be maintained for a moment. England, in respect of public works, buildings and improvements of every possible kind is in a far more advanced condition than Canada can pretend to be. With all our expenditure, Canada (to put matters at the best) is in no better condition than England. And if she had to wage a war of defence, she would have to increase her public debt by an amount which would make the annual interest at least three times as much as it now is.

We cannot follow the subject farther at present, but in our next issue will endeavor to discuss the question of the relative power of the people of the two countries to bear taxation. This is a matter of the utmost practical importance, for the same percentage of taxation per head may be a crushing burden to one people, while another sits lightly under it.

Our readers have not forgotten the howl that was raised by the Tories, from one end of the Province to the other, when it became known that the Ontario Government had given a few working men a half holiday that cost the country some $200. This, in a Tory point of view, was a terrible crime—the country was going to ruin headlong, on account of this improper use of the public money—in fact, there was nothing but bankruptcy in the future. Now, we are not going to say whether the Ontario Government did right or wrong in granting the half-holiday, but we intend to show that the leaders of the very party who raised this cry were guilty of crimes a hundred thousand times greater, in connection with the troubles in the Northwest. In a letter to Archbishop Taché, Sir John Macdonald says:

"In case a delegation is appointed to proceed to Ottawa, you can assure them that they will be kindly received, and their suggestions fully considered; their expenses coming here and returning, and while staying in Ottawa, will be defrayed by us."

It will be remembered that the delegation referred to was one appointed by Riel to go to Ottawa and intercede on his behalf. What a spectacle! Our Prime Minister promising to receive a deputation of traitors "kindly," and not only that, but paying their expenses from Ottawa to Ottawa and back, and while in Ottawa, with the people's money!! But even this is not the worst. The Ottawa correspondent of the Hamilton *Times* says that the evidence taken before the Committee of the House of Commons clearly proves that Sir John Macdonald and Sir George Cartier offered Riel $3000 to leave the country at the time the Province of Ontario offered the reward for his arrest, and that Donald A. Smith, of the Hudson's Bay Company, at the request of Governor Archibald, actually paid the money to Riel, and charged it to the Dominion Government! Thus, the Tory party think it is right and just that traitors and murderers should be sumptuously entertained, have their travelling expenses paid, and the chief culprit himself handsomely rewarded for fleeing from justice, and that, too, by the very men whose duty it was to see that he was punished for his crimes! But to allow a few working-men a half-holiday, without reducing their pay, is an unpardonable crime. So the Tories say; and ye these men claim to be the friends of the working-man!—*Bruce Telescope.*

Astounding Disclosure.

Late Ottawa telegrams bring a piece of information elicited by the inquiry of the North-west committee in to the Red River rebellion and Riel amnesty affairs that will be read with surprise and indignation by every citizen of Ontario. It has been disclosed by Archbishop Taché before the Committee of Inquiry that immediately after the issue of the proclamation by the Government of Mr. Blake offering a reward of $5,000 for the arrest of Riel Sir John Macdonald telegraphed Governor Archibald to appraise Riel and Lepine of the fact and to leave the country, paying them to do so if necessary. His Grace testified further that Governor Archibald commissioned him to communicate with Riel: that he did so, and that Riel consented to take $3,000 and quit. The money was paid over by the Dominion Government through Donald A. Smith to Riel who left Matobia and so avoided arrest. The secret of Riel's flitting from place to place, and the source from which he received warning and substantial assistance, is now revealed. To what a perfection of hypocrisy must Sir John have attained to ensemble him to go from hustings to hustings denouncing Riel and declaring he "would to God he could catch him," while at same time he was "shelling out" public money to enable Riel to keep clear of the officers of justice.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times it's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alchol is lost in that way, and you get only the small of Oils which they may contain.

S. N. THOMAS, Pembe, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrized.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Nervous and Spinal Affection, Pains in the back and Limbs, on slight exertion, Palpitation of the Heart, Hysteres, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1 00 and 12½ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single care of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Pythisis or Asthma, and restores to vital activity the system debilitated by suffering and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceeding all other preparations of the kind.

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, bilious cholic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

Millinery Report: Vienna Exposition. (Young Maidens, &c

(Every Miss, par. 98.)

"The pleasure Wheeler & Wilson Manufacturing Company in the world is that of Wheeler & Wilson, New York, which since last brought already over 200,000 of their Sewing Machines into practical use. The complete production of the parts by machinery is so regulated that each finished machine in many be used as a sample for exhibition. The firm produces 600 well-adjusted machines daily.

"The latest productions of this firm, and which is the wonder of the Vienna Exposition, is their new No. 6 Sewing Machine. This mechanical marvel is the heaviest leather harness and fits finest goods with a truly pearl stitch.

"Wheeler & Wilson have received the highest award of all Judge's Experience, and as the Vienna Exposition were extraordinarily distinguished as follows:—

1. Knight's Cross of the Imperial Order of Francis Joseph I.
2. Grand Diploma of Honor, received by no other Co.
3. Medal for Progress since Paris Exposition of 1867.
4. Medal of Merit for Needle Industry.
5. Medal of Merit for Cabinet on Full Stand.
6. Individual operators received Medals of Merit for Superior Ability.

Money is King.

I am lord of all—the poor | the rich;
The king his throne, the beggar his dirt
At my behest must leave or hold,
Or, "buy, presto, choose!" and lo! behold;
The king's a beggar—the beggar enthroned—
Now such is the former state discovered,
Thus my pay-gold suffers as I pull the string,
For I am Money, and Money is King.

In the nation's halls I proudly stand,
For I hold the prize 'tis my good right hand
Of member, minister, senator, all—
I buy them up, both quoad and sacral,
I buy their honor, murder, fame, fruits—
They'd all wish they only had my mouth
And their empty lives at [illegible] close,
For I am Money, and Money is King.

See that maiden of homely mien—
Her only dower is golden hair,
A faultless face, a modest air form,
A heart with human goodness warm;
She'll go to the market where beauty is sold
And barter her fresh young charms for gold,
If the company united with the marriage ring,
Her buyer is Money, for Money is King.

I buy the love of a maiden or wife,
I buy the standing of lawyer or knife;
I buy the judge and the jury, the law
That will deal for me a conveyance flaw;
I buy of women what's dainty ever,
Test while is black and black is fair;
And long and loud my praises sing,
For I am Money, and Money is King.

COLD WATER SIPS.

Drinking kindness is drunken friendship.

Wine in the bottle does not quench thirst.

Wine hath drowned more men than the sea.

Full bottles and glasses make swearers and sewers.

Drink and drought comes not always together.

Wine is a turncoat—first a friend, then an enemy.

Wine neither keeps secrets nor fulfills promises.

Wine washeth off the daub and discovers the man.

Drunkenness is nothing but voluntary madness.

Good wine ruins the purse and is bad for the stomach.

Drunkenness is an egg from which all vices are hatched.

Drink wine in water for cold and in summer nor heat.

Drunkards have a fool's tongue and a knave's heart.

Of wine the middle, oil the top, and honey the bottom is best.

Passion maketh a man a beast, but wine maketh him worse.

Drunkenness makes some more fools, some beasts, and some devils.

Drunkenness is a pair of spectacles to see the devil and all his works.

Drunkenness turns a man out of himself and leaves a beast in his room.

Drinking water neither makes a man sick, nor his wife a widow,

The Childs Pocket Etiquette in Ten Commandments.

1. Always say yes sir; no sir; yes ma'am; no ma'am: thank you; no thank you; good night: good morning.

Never say hain, which, or what; use no slang terms. Remember that good spelling, reading, writing and grammar, are the best of all home education.

3. Clean faces, clean clothes, clean shoes and finger nails, always indicate good breeding.

Never leave your clothes around the room; have a place for everything and everything in its place.

2. Rap before you enter a room, and never leave it with your back to the company.

Never enter a private room, or a public place with your cap on.

4. Always offer your seat to a lady or old gentlemen. Let your companions enter the carriage or room first.

5. At table, eat with your fork; sit up straight; never use your tooth pick; and, when leaving, ask to be excused.

Never put your feet on cushions, chairs or tables.

7. Never overlook any one when reading or writing, nor talk aloud while others are reading. When conversing, listen attentively, and do not interrupt or reply till the other has finished.

8. Never talk or whisper aloud at public places, and especially in a private room where any one is singing or playing the piano.

9. Loud coughing—hawking, sneezing, and blowing are ill mannered. In every case, cover your mouth with your handkerchief (which never examine—nothing is more vulgar, except spitting on the floor.

10 Treat all with respect, especially the poor. Be careful to injure no one's feeling by unkind remarks. Never tell tales, make faces, call names, ridicule the lame mimic the unfortunate, or be cruel to insects, birds or animals.

Woman's War on Whiskey.

LOGAN, OHIO.

1—All doctors signed the pledge prescribed, and are living up to it.

2—All the druggists, ditto.

4—Eighteen out of twenty drinking saloons closed *as to drink*; most of them changed to other business.

5—Public sentiment in the town and throughout the country, on this subject, is five hundred per cent. better than it was one month ago,

6—At the request of five sixths of the voters, and many others, the city council, by a vote of five to one, passed, and are now enforcing a most stringent malt liquor and tippling ordinance.

7—About eight hundred persons, many of them drinkers, have signed the total abstinence pledge.

8—Sobriety, peace and good order prevails.

9—The liquor laws can be enforced. But one case of drunkenness has appeared in the streets for four weeks. He was immediately arrested, fined $5 and costs and sent to the lock up for twenty-four hours to sober off. His jug was confiscated. The law upon which this was done has been a dead letter for many years until now.

10—Christians of all denominations know and love each other more [illegible] union.

11—The health of the women engaged in this campaign is visibly improving. By being so much out of doors for three weeks even in mid winter. And no cases of sickness has occurred, so far as I know, and I am acquainted with every one of the 260 members of the League.

12—These are the results visible to everybody whilst there are other less manifest and good results, and no evils have grown out of the campaign so far as I can perceive.

C. C. HARP.

The Influence of Kisses.

The kiss has been a powerful agent in the destinies of the human race. There have been kisses like those of Antony and Cleopatra, of Henry VIII. and Anne Boleyn, which have shaken an empire or destroyed a religion. If we knew the secret history of Courts, we should probably learn that nations have been created or erased by the magic touches of a woman's lips. A great problem therefore lies before us: Has this discovery proved an affliction or a blessing to mankind? Probably the latter; for it has certainly increased the influence of women, and the influence of woman is employed more for good than for ill. Beloved, tender hearted women, companions and comforters of our life! With a kiss you welcome the infant to the world; with a kiss you bestow on soft cheeked youths the ecstasies of first love; with a kiss you alleviate the agony of death. And what, alas! are the kisses which men so often give you in return? Judas-kisses, treacherous and fatal, which poison innocent hearts, and turn to curses on palsied and despairing lips. Happy are those who can remember without remorse the kisses of their youth.

VINEGAR BITTERS

D. WALKER'S CALIFORNIA VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains [illegible] nia, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They [illegible] Disease.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country around among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more economical remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does must it does always—that it never fails through any fault or negligence of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cases are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither mineral nor any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For Dyspepsia or Indigestion, Listlessness, Loss of Appetite, Jaundice, Dysentery, Foul Stomach, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Liver Complaint, Bilious Disorders, Bilious Fevers, Inflammation of the Stomach, Pain in the Side, Breast and Kidneys, they require to be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For Dysentery and Diarrhœa, in its mild forms generally required.

For Rheumatism, Gout, Gravel, Pain, Pain in the Back, Stomach and Kidneys, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For Dropsy and Suppressed Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., *Practical Chemists,*
LOWELL, MASS., U. S. A.

NORTHROP & LYMAN,

Toronto,
General Agents for Ontario.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The remarkable sanative and alterative properties of this valuable preparation are derived from several indigenous roots and herbs of this country, which are known to possess the most powerful influence upon the blood and the vital forces. Combining the full medicinal virtues of these roots with other substances more powerfully antidotal than any now known to the profession, it is found to be the most effectual solvent of the humors of the blood that has ever been discovered. Hence its wonderful cures of the following complaints, which are but a few of those it is daily making among the suffering people around us:—Scrofula and Scrofulous Affections, Tumors, Boils, Blotches, Tetter, Erysipelas, Rose or St. Anthony's Fire, Rose or Erysipelatous Fever, Salt Rheum, Scald Head, Ringworm, Itch, Sores, Sore Eyes, and other complaints arising from impurities of the blood. Also in the more formidable class of Pulmonary Complaints, such as Incipient Consumption, Bronchitis, Severe Coughs, Influenza, Whooping Cough, Croup, Asthma, and for the relief of consumptive patients in advanced stages of the disease. Even those cases of Pulmonary Complaint which have baffled the skill of the most eminent physicians, and which were supposed to be incurable, have been completely cured by the use of this medicine. Invalids who are suffering from the scrofulous poison, or any of the diseases which it engenders, should not delay to give it a fair trial. Many who have been apparently on the verge of the grave, and who had given up all hope, have been restored to perfect health by its use. Many of the most remarkable cures on record have been made by this medicine, and many of the most distressing complaints which afflict mankind are daily being cured by it which cannot be reached by any other known remedy. Even when it fails entirely to benefit, it will be found to do no harm. Under the influence of this medicine, the vital forces rally, the digestive organs recover their tone, the liver resumes its healthy action, and the whole system is renovated and built up. Being sugar coated, it is pleasant to take, and is perfectly safe in any quantity or at any age.

THE REASONS WHY
LAZARUS, MORRIS & Co's
CELEBRATED
Perfected Spectacles,
AND EYE GLASSES,
have met with such extraordinary success and are so much in demand:
1st. *Because* they are found to possess all the qualities claimed for them.
2nd. *Because* they will reclaim sights abused by the common *glasses*, and will often be found to restore failing sight to its natural state.
3rd. *Because* no glimmering or dizziness is experienced in their use, and being fitted on optical and scientific rules, they are guaranteed against injury to the Eye Sight from improper selections.
4th. *Because* the system of fitting is an unerring guide to the true requirements of each purchaser—our agents are furnished with this system—solely our own.
5th. *Because* the never tire the eyes and last many years without the necessity of change.
6th. *Because* being the best they are the cheapest.
Innumerable *testimonials* might be here given but the use of these Spectacles and Eye-Glasses will best prove their inestimable value.
A full and complete assortment has been supplied to and always kept on hand by

Choice Poetry.

JOHN BULL TO BROTHER JONATHAN.

A PLAIN, ROUGH, HOMELY, BUT AMIABLE EPISTLE.

No! brother, I'm a Britisher,
A chip of heart of oak,
Then couldn't warp or swerve or stir,
From what I thought or spoke.
And you—a blunt and honest man
Straightforward, kind and true;
I tell you brother Johnathan!
That you're a Briton too.

There may be jealousy and strife,
For men have sullen minds;
But petty quarrels gripper life
And leap to manon friends!
And parents, who with anxious sense,
Judge human nearly right,
Decide it, tasty Johnathan,
That brothers sometimes fight.

Two fledgling sparrows in one nest
Will chirp about a worm,
Then how shall kindred mankind rest—
The children of a storm?
No! while their rousing pulses flow
The eyes's dimy side,
Like you and me, my Johnathan!
'Tis all for love and pride.

Together both—'twas long ago,
Among the roses fought
Or charging down the Cyprian foe
Did as knights-or, not ought,
As Crusader or Parisan,
Together pray'd or swore,
For John's own brother Johnathan
Was only John of yore.

There lived a man—a man of men,
A king on fancy's throne;
We no'er shall see his like again;
The globe was all his own,
And if we claim him of our clan
One-half belongs to you,
For Shakspeare, brother Jonathan,
Is yours and Britton's too.

O, brother! could we both be one
In nation and in name,
How proudly would your golden sun
Shine, basking in our fame;
In either world to lead the van,
And go ahead for good,
Write earth to John and Jonathan:
Yields tribute—gratitude.

Add bit your stripes and golden star
To brave St. George's cross,
And never dream of mutual war—
Two dunces' mutual loss;
Let us two bless while others bay,
And love while others hate
And thus, my cordial Jonathan
We'll fit, I calculate.

What more! I touch not holier thing,
Ah *under* strain to win,
Nor glance at prophets, priests nor kings
Nor heavenly kith or kin;
As friend with friend, or man with man,
O! let our hearts be thine—
As David's love to Jonathan
Be Jonathan's to us.

ANGLO-HIBERNICUS.

HURON AND QUEBEC RAILWAY.

PUBLIC MEETING.

A large and enthusiastic public meeting was held in the Mechanics' Hall, on Tuesday evening last, to hear Mr. Fowler and other promoters of the Huron and Quebec Railway enterprise. On motion of the Reeve of Newmarket, Wm. Cane, Esq., Warden of the County, was called to the chair,—who, in a few brief remarks, thanked the meeting for the honor done him—expressed the satisfaction it afforded to see so large a gathering—and then introduced Mr. Fowler as the first speaker to address them.

Mr. Fowler commenced by alluding to the gratification he experienced to see so large and intelligent a gathering present,—and then said—If ever there was a Railroad in Canada likely to pay, the Huron and Quebec R. R. would. It was intended to run from Goderich to Newmarket, Lindsay, Peterborough, and Ottawa—then to the seaboard. The distance to Ottawa from Newmarket was 90 miles shorter by this line than via Toronto and the Grand Trunk; and would when constructed open up the Ottawa lumbering districts as a market for a large portion of the surplus produce of this section, besides giving the farming and manufacturing community the benefit of Montreal markets at as great advantage as Toronto or the frontier—virtually enabling the wheat buyer to pay 10 cents per bushel more for wheat, and thereby enabling the farmer to realise proportionally *increased prices for his surplus* produce. The scheme required aid. Western and Eastern Counties had promised bonuses to the extent of $7000 per mile, according to the number of miles constructed in the several Counties, and adopting a similar rule for York, there would be about 25 miles, which would make the bonus $175,000. This sum, extending over a period of 20 years, would not be felt by the rate-payers,—while the increase in trade—the development of manufactures—the increased prices realised for produce, and the increase in value of farming lands, would amply compensate for this venture and outlay. Mr. Fowler referred to the growing trade of the west—the amount of freight to be shipped—the blockade in the carrying trade, and many other facts, bearing upon the importance of constructing the proposed railway; and concluded by urging unity of action and purpose.

A. Boultbee, Esq. followed, in a short but pertinent speech, pointing out the immense advantages likely to follow the construction of the proposed Huron and Quebec R. R.—alluded to its connections, and especially the Victoria, as likely to add materially to the advantage of our farming community by enabling them to reach the lumbering districts of the Ottawa with pork and coarse grains; while our connection with Montreal would enable the buyers here to pay an advance on present prices with Toronto as our only outlet. He concluded by urging unity of all sectional considerations, so that the road would be built.

Mr. Jackson followed in a few remarks, alluding more particularly to the nature and extent of the charter, and the advantages this locality would be likely to reap from the construction of the proposed railway. He concluded by proposing the following resolution, seconded by Mr. Bowden—

Resolved.—"That having heard the scheme of the Huron and Quebec Railway Company, to construct a line of railway between Lake Huron and Ottawa, touching at Newmarket, in the County of York, this meeting recommends that steps be taken by our municipal authorities for subscribing a County by-law to aid the enterprise to the extent of $7,000 per mile, said amount to be in lieu of special bonuses, unless repairing workshops be erected at this point in which case Newmarket would expect to give such extra bonus as might be agreed upon."

Votes of thanks were given to Mr. Fowler and the Warden, and the meeting adjourned.—*Newmarket Era.*

Harry's Lesson—A Hint for Mothers

'Mamma, I am quite discouraged about my little Harry's training,' said little Mrs. King, on her first visit to her Western home after her marriage. 'Whenever I tell him to do anything, he stamps to make up his mind to do the opposite. He is so brave that whipping has very little effect on him, and when I attempt to reason with him, he only laughs. I have heard you say that all your children obeyed you before they were three years old, and Harry is three and a 'quarter.'

'He is a very fine boy, Winnifred,' said her mother, smiling, 'and more than a match for you already in physical energy. You must rule him, if at all, through your superior powers of mind—not by arguments which he cannot understand, but by allegories and personifications. Try to direct his spirit of opposition to fight with those powers of the air, which are his natural enemies. Here he comes, the darling!—how pretty he looks in that little Scotch suit! You sew much more neatly than you used, Winnie.'

'I had need,' laughed Mrs. King. 'Between Harry and baby I seldom lay my needle down. Come and sit on my knee, Harry, and I'll tell you a story about a soldier.'

'What wa' hi' name?' asked Harry, who had a dislike to the letter 'a.'

'His name is Mr. Disobedience. He is a very naughty soldier, and likes to tease little children. When their mamma asks him to do anything for her, he gives them a poke, and says, 'Sit still!' and by and by, if they mind him, and often he chains up their feet and hands so they can't do anything their mamma wants, if they want to ever so much.'

'I would like to knock down dat naughty wolder,' remarked Harry, doubling his fists.

'He feels just as badly when people don't do what he wants, as if he had knocked them down. Now, next time when he pokes you and says 'Sit still,' when mamma wants you to do something; or when he says 'Get up,' when mamma wants you to sit still, you must say, 'Go away, Mr. Disobedience; I'm just going to mind mamma. I'll knock you down if you come teasing me any more.'

Harry's blue eyes lighted with a new intelligence.

'Now, darling, go to nurse. It's time for your bath, and you must not keep her waiting. Does Mr. Disobedience want you to stay here?'

'Go 'way, Mither Disobedience,' said Harry, resolutely; and off trotted the sturdy little fellow. 'You'll come to hear my prayers, mamma?'

'Yes, yes, dear,' said Mrs. King. 'I am glad you thought of that pan,' she continued, thoughtfully, when the child was out of hearing. 'It really seems as if I might govern him so.'

'It is not original with me,' said her mother. 'Once, when I was spending the evening with Mrs. Brown, one of her little girls began to fret over some slight trouble. 'O, Miss Clouds has come,' exclaimed her mother. 'You may chase her till she is quite away.' 'She's gone now,' said Emma, with a broad smile, 'just Miss Sunshine's here.' After the children were in bed, Mrs. Brown told me she had had great trouble with this fault, which reproof is apt to make worse instead of better, till she hit on this amusing remedy. I thought I would treasure up the lesson for you in case you needed it.—*N. Y. Witness.*

The Orange Groves of California.

The orange groves are a magnificent sight to behold just now, laden as they are with golden burdens—golden in seeming, and golden in reality. The harvest is just commencing, and large quantities are daily arriving at the depot to be shipped to San Francisco and elsewhere. One dealer of San Gabriel sold his orange crop for $30 per thousand. His orange grove covers five acres, and contains five hundred trees. Estimate these at 1,000 oranges each, the crop is worth $15,000. Three thousand dollars an acre is a pretty good return for their cultivation, and nearly all clear profit, for the crop was sold on these trees. One acre in South California can be made to yield as great a clear profit by semi-tropical nut and fruit culture as twenty to twenty-five acres in the Eastern States devoted to ordinary kinds of farming. When one looks at the loads of this luscious fruit daily coming into town, and thinks of the immense profit they must yield to their owners, he cannot help but wish he had come here some twelve or fourteen years sooner and went into the orange business. All kinds of vegetables can be cultivated between the rows of orange trees—peanuts, potatoes, melons, pumpkins, beans, squashes, and peppers, and many other things. Ramie, too, could be cultivated with success, and mulberries. Some planters sow the intervening space with barley, and when this crop in harvested they put in a second one of corn.—*Alta California.*

Swedish License System.

Sweden has, in a measure, solved the liquor problem, and the plan, with some slight changes, would be of immense benefit to the people of this country. The number of public houses in a given district, the days and hours at which they are to be open, and the conditions under which they may sell, are all fixed by law, and the privilege of opening these is disposed of at public auction. The friends of temperance, who have in that country an admirable organization, buy these privileges at auction, and keep these houses under their own control. Only pure liquors are allowed to be sold, and coffee and other beverages are to be obtained at the same counter. The rooms in which the sales are made are kept pleasant and cheerful, newspapers are furnished, innocent games are allowed to be played, and the place is one to which the laboring man can bring his family and meet his neighbors sociably.

Profane or indecent language is, of course, prohibited, and the whole surroundings of the places tend to restrain, rather than to promote intemperance. The net profits of these shops are expended on works of local charity. Such institutions have would go far towards alleviating the evils of intemperance, though they would not meet the demands of the prohibitionists or total abstinence men. The difficulty in our own country would not be in establishing such laws, but in enforcing them after they are placed upon the statute books. One of the great abuses of the liquor traffic in the non-enforcement of the law regulating its manufacture and sale.

Canton.

The streets of this city are wider than those of most other Chinese cities, and are lined with the most costly goods, such as silks, embroidery, gold and silver work, precious stones, etc., etc., besides rich clothes of every description, abundantly testifying both to the enterprise of the merchants and the wealth of a city that can support so great a number of such establishments. These streets and shops are comparatively clean and elegant. The streets are shaded from the sun by a continuous awning extending from roof to roof above, and are lighted at night by huge lanterns with embroidered silken signs, and chandeliers of glittering glass, so that day or night, they resemble the long halls of an arcade, or the corridors of some vast exhibition rather than public streets. Besides its other ornaments, each shop is adorned with a gilded shrine in the most conspicuous place, where incense is constantly kept burning to the god of wealth.

Railroad across the Andes.

One of the grandest works of this age is now being constructed across the Peruvian Andes, connecting the Pacific Ocean with the Amazon River by means of railroad, and opening the whole interior of Peru to the commerce of the world. Hitherto that rich and immensely productive country, so graphically described in the United States reports of Lieuts. Harradon and Gibbon, has been virtually locked up to foreign trade: the transportation of one ton of freight from the interior of Peru to the seaport, Lima, costing about three times as much for transportation of the same amount of freight from Lima to Europe. The railroad in question was begun in 1870, and has already cost over $70,000,000. It is estimated that it will be finished in 1876. Over 10,000 laborers, mostly Chinese, are constantly employed on it. The enormous difficulties that have to be overcome in the construction of this road may be estimated from the fact that the Andes rise there to the hight of 20,000 feet above the level of the sea. The road itself rises 18,000, and is by far the highest railroad in the world. Even the Mount Cenis railroad sinks into insignificance when compared with this Peruvian undertaking. The road has also the highest viaduct in the world, it being 580 feet long and 300 feet high in the center. It rests on three pillars, of which the first is 166, the second 133, and the third 253 feet high; is built of iron, and was manufactured in the United States.

As Others See Us.

A late number of the Brighton *Ensign*, in "Notes by the Way," gives a very favorable description of Peterboro, which we cannot do better than give entire, as enabling us to see ourselves as others see us:

Last week we mentioned Port Hope and also the Midland Railway, so now we come to

PETERBORO.

This town as it is approached from the South has a fine appearance, although the southern suburbs might, without any detriment to comfort, have better cottages. This part shows fully the material of which the older parts were constructed, being mostly of frame and rough cast, but these are fast giving place to brick, of which nearly all the new buildings are erected. Peterboro fully sustains the ideas got of its beauty when approaching it. The town is finely laid out, the streets are laid out parallel and at *right angles to each* other, and the building would do credit to any city in Ontario. There is one feature that particularly strikes a stranger, and which is seen in none of the other towns in Canada which we have visited—the business is spread generally over the greater part of the town, and no one street can be said to be the chief business centre For instance, Belleville: take away Front Street and the business part left is of little account,—take Walton Street from Port Hope, and you take nearly every business establishment away; take Guelph, St. Catharines, Brockville, Cornwall, and our other large towns, and the same holds good of them, and even in Toronto take away Yonge, King and Queen Streets, and what remains but the wholesale establishments in one or two other streets. In Peterboro property is about equally valuable in all parts of the town, by having the business establishments not centred in one or even two streets. It is pleasantly situated on the west bank of the Otonabee river, which may be considered as the extension of the Trent river. At this point, the river has high banks on either side, with a swift-running stream. Opposite and above the town are excellent water privileges, which are taken advantage of, and several factories and mills have never failing motive power. The site of the town is rolling with several sharp acclivities, the principal being the one on which the Court House stands. The view from this point is beautiful—to the East we see the large and pleasant village of Ashburnham, joined to Peterboro by a neat new iron bridge, whilst beyond are beauteous residences peeping out of their clumps of evergreens, and the vista is bounded by the fertile fields of Otonabee, with their fringes of dark forest:—to the North the eye ranges far up the Otonabee, whose course may be traced through the openings in the hills for a considerable distance. The celebrated Auburn Mills are seen about two miles above the town, with many other factories, and also the residences of many of the princely lumber merchants, who have done so much for the town and country, —to the West the view is more circumscribed, though no less beautiful. The town can be seen, as it were, lying at one's feet, street after street, block after block raising their fair proportions and telling of a prosperous and happy people, while the tall spires of the many churches show that the religious interests of the citizens are not forgotten. The view is bounded by a range of hills, many of them clothed to their summits by the primeval forests. To the South the view is more tame, although from this point much of the town is seen, and stretching far beyond the river winds slowly until it loses itself in Rice Lake. This portion looks as if at some day long past, it was submerged, the monsters of the forest have long since disappeared, and in their stead a low scraggy lot of bushes have come up.

There is every facility that any town can wish for an excellent sanitary condition, as such a thing as level ground is not easily found, yet at the same time very little steep streets. It is nicely undulating. We will only notice one building specially, and that is the magnificent

UNION SCHOOL,

This school, which has lately become a Collegiate Institute, is under the able superintendence of Mr. Dixon, who many years ago was the Master of the Brighton Grammar School, and also for many years in Colborne. The schools under his charge employ seventeen teachers, with an attendance of over 800 pupils, and the Collegiate School has an attendance of some 200 with seven teachers. Under Mr. Dixon's care the school has risen to double its standard and numbers than when he took charge, and now Ward Schools are having to be built so as to accommodate the host of children. The school is in such an efficient state that the first year's University Course is taken up, and pupils from it have taken not only honors, but even triplet scholarship. The main building is of white brick, two stories in height, with a lofty stone basement, which is used as school rooms. On the two main floors, there are four large rooms in each, all well lighted, good seats, and plenty of school apparatus. In Mr. Dixon's own room we saw the finest blackboard we have seen for many years,—no gloss and no shading whatever. The primary department of the schools is in a separate building a few feet south of the main one. All the rooms are comfortably furnished for the little ones, and one feature in it was, that drawing was made one of the principal branches for the young folks. The lady teacher was from the Oswego Normal School, and was a proficient in the art. The schools are a credit to the enterprise of the people of Peterboro, and the facilities for instruction unsurpassed by any town in Ontario. The buildings are most picturesque, and occupy a commanding position in the town.

May 6, 1874. 19-1in

As numerous cases of Poisoning have occurred from the use of Compound Syrup of Hypophosphites, containing strychnine, sold to the public without being properly labelled purchasers of Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, are requested not to confound the two preparations, as they are entirely different chemically and medicinally. Phosphates are necessary elements of the human organism, and essential to the phenomena of life, entering into the composition of every solid and fluid of the body, and are as harmless as our ordinary food. As Strychnine is frequently poisonous in the smallest doses, it is of the greatest importance that this caution be heeded

It is of the utmost importance that a remedy intended for popular use should be not only thoroughly reliable and scientific, but incapable of producing dangerous results. The treatment of old lingering complaints is necessarily protracted, and if deleterious drugs are taken into the system for a long time, they may accumulate and do more harm than good. Dr. Wheeler's Compound Elixir of Phosphates and Calisaya, containing elements of the tissues, repairs, diseased bone, muscle, and nerve, and renews constitutional vigour in the same manner as our daily food, with no more liability of injury. It may be taken in all forms of debility in the young or aged, with positive certainty of permanent benefit.

L'AURORE (*The Morning Light*).—This is the name of a French Protestant weekly newspaper founded in 1836, and published in Montreal, Canada, at $1.50 (United States, $2.) per annum. It contains articles on the important questions of the day; a special correspondence from France on European political and religious matters, as well as general family reading and news, etc., etc. 18-2inc.

SHERIFF'S SALE OF LANDS.

BY VIRTUE of a writ of *Fieri Facias* issued out of the Court of Chancery in a certain cause wherein Thomas Giles vs. Plaintiff and Archibald Hamilton Campbell and John C. Hughes, the Honorable Sidney Smith and William Landy are Defendants and against the lands and tenements of the said Thomas Giles I have seized and shall offer for sale at my office at the Court House in the Town of Peterborough on TUESDAY the 11th day of AUGUST 1874 at 12 o'clock noon all the right title interest and equity of redemption of the said Thomas Giles in and to lot No. 36 in the 2nd concession and lot No. 35 in the 3rd concession of the Township of Anstruther.

J. A. HALL,
Sheriff's Office, Sheriff
Peterborough, May 5th, 1874. 19-1d.

PETERBORO', MAY 7th 1874.

EDITORIAL ITEMS.

YOUNG CANADIANS L.O.L.—The next regular monthly meeting of the above Lodge will be held next Tuesday evening May 12th. A full attendance of the members is requested.

OUR POSTMASTER must have employed some "John" Chinamen as clerks, as the List of Letters come to us in hieroglyphics.

OUR FIRE BRIGADE intend celebrating the Queen's Birthday at home, they have invited the Cobourg, Lindsay and Port Hope Companies to join them in a grand demonstration.

CHURCH BURNED.—A Wesleyan Church at Aurora was burned down on the first of May. It is not known how the fire originated.

LINDSAY.—At the Lindsay Assizes Geo. Watson was found guilty of an attempted robbery at Fenelon Falls, where during a fire he assaulted Mrs. Kellet

BELLEVILLE.—Archdeacon Patton of Belleville is dead.

SOUTH OXFORD.—Mr. Edgar, now in British Columbia, has received the unanimous nomination of the Reformers of South Oxford, in the room of Mr. Bodwell, resigned.

THE CLOSE OF THE SESSION.—It is said that the present Session of Parliament will close by the Queen's birthday

TO MANITOBA.—Carpenter & Co. of Orillia are likely to receive the contract for conveying passengers to and from Winnipeg this season. The rate to be from Thunder bay $10 a head, freight $2 per cwt. The Government bonus to be $75,000 and the use of the present plant of steamboats etc., C. & Co. to keep in repair.

WE have been requested to state that the first party of Miss McPherson's children for this season sailed from Liverpool on the 30th April and is expected at the Marchmont Home, Belleville, about the 15th or 16th of May—ages from three to fourteen.

HALIFAX has had its political sensation. When Mr. Woodworth, a member, was forcibly removed from the Provincial Assembly and the police brought to maintain order, a vote to re-instate him was rejected by a vote of 21 to 8.

SIR JOHN A. Macdonald paid the $1000 to Riel to get him away, out of the secret service money, but being his last cent in that direction, he had to apply to Donald A. Smith for the $3000 more required. The *Citizen* and *Free Press*, both Conservative, say John A. has admitted this.

THAT IRON FENCE.—The Joint Committee of the Town and County have decided to abandon the wire fence idea in front of the Court House, and to erect a neat picket fence instead. They also instructed Mr. McWilliams to prosecute all boys who trespass on the grounds. The tenders for the wire fence were $345 and $375, neither of which were accepted. Tenders for a picket fence are now advertised for.

THE TOWN OF PORT HOPE paid their Assessors this year $75 each—poor pay, poor "French perhaps (The Times) they have agreed to close their stores at 7 p.m. during the summer to allow their clerks recreation—let them shut their saloons also, and then they can enjoy pure air.

THERE young man of our sister town broke the Sabbath by taking a sail, lately They were unable to manage the frail craft and she drifted seaward. The crew of the tug Edsall went to their rescue. When reached, one was in the bow and one in the stern, each pulling his own way, the one in the middle was somewhat devoutly engaged. They were saved.

SPAIN.—The Carlists are losing strength and the Government troops under Gen. Serrano are daily gaining strength. The Republic is likely to succeed and with it better days for Spain.

RAND CONCERT.—We would call attention to the programme which appears in our columns to-day of the Concert to be given in the Music Hall, this evening, by the Band, they have incurred very large expenses in laying this musical treat before our towns people, and we trust they will have a bumper house.

BRANTFORD.—Dr. Wiggins, of the blind asylum, Brantford, has been relieved of his charge. Assigned cause—disorderly with other officials. Nothing but incapacity should remove the chief officers of any institution. Mr. Hunter, of St Catharines, has received the appointment.

MILLBROOK has had its scandal in the way of an indecent assault on a little girl eight years of age, daughter of one Wilcox, by E. W. Russell, photographer, of that place. It would appear Wilcox permitted him to flee the country by agreement. Russell, however, claims that as he was not prosecuted, he is innocented. Wilcox cannot plead innocence to the demand of the law, as he really has permitted himself to become a party to allowing a man charged with a felony escape the punishment due to him for the crime. Before leaving Millbrook Russell got a ride on a rail and a partial coat of tar.

VICTORIA RAILWAY.—The Lindsay Council has submitted a By-law to provide for giving a bonus of $65,000 to the above road. There is no division apparently on the matter.

THE VICTORIA "WARDER" says the first act of the Conservative Government of Great Britain has been to announce a large decrease in the national expenditure while the first act of the Liberal Government of Canada has been to declare a large increase. The *Warder* should have continued by stating that the Conservative Government just succeeds a liberal, economical government while the Reform or Liberal Government of Canada just succeeds a reckless Conservative one. This is where the comparison comes in. John A. McDonald has increased the national debt from $65,000,000 to $130,000,000 in seven years, and left a legacy of unfulfilled promises without funds to meet them, and thus compels Mr. McKenzie to increase, not the expenditure, but the taxes. The *Warder* cannot see things even as they seem.

LINDSAY claims to have beaten the Dominion in the matter of big loads and now challenges the Dominion for big men She has three men whose united weights are 857 lbs, or 34 lbs. more than the Cobourg "big una." Lindsay also bets that she has fifteen men heavier than any fifteen men in any other town of the same population in the Dominion. For our own part we never advised high heaps of clay on our Streets. Good goods are put in small parcels it is said. Peterboro has a number of good men not at all of the *genus orthagoriscus*, who cares for "shiners."

FIRE.—About 3 o'clock on Thursday Mr. W. Johnson's residence west of Mr. Fairweather's was destroyed by fire. The wind was so high at the time that, when the engine got there nothing could be done to save the building, as the flames swept through it with fury. With difficulty a portion of the furniture and clothing were saved. It was a fortunate thing that the building was isolated, for had the fire occurred in a populous part of the Town there is no saying where it would have terminated. As it was Mr. Johnson's handsome new brick dwelling, stables, sheds, &c., were completely destroyed. We understand that he was but partially insured, not imagining that there was any likelihood of a fire occuring. It is supposed that it did occur from sparks where they had been making soap although at noon Mr. Johnson had watered out the fire as he believed. The wind, however, must have fanned a hidden spark, which gaining strength and force enough soon to cause all the injury and loss, which cannot be short of $4,000 with a partial insurance of $2,000, but nothing on the furniture and clothing, although the loss in these must amount to $1,200 to $1,400.

THE DIFFERENCE.—The Lords of Canada, the members of the Senate, have a bar—a bar for tipplers to get drunk at if thry sip enough. The Commons have not. Is it not a shame that our Senators should retain a symbol of their own vitiated moral taste? Do they imagine that their position will screen them from the odium that attaches to an act that bespeaks a disregard for moral or social obligation? No man can secure respect from his fellows, whose disregard of their moral and social progress will allow him to continue a relic of barbarism detrimental to their own health and honor, as well as setting a bad example to those who are not restrained by any self-respect The Senate cannot secure the respect they desire while they pander to their own appetites for alcohol.

THE WAY TO SAVE MONEY.—The *Globe* in a late article on the Senate's "bar," insinuated that some hon. members saved a dollar a day in their board bill by boarding with the gentleman who keeps the Senate "bar" but that they spend it at the "bar": that is they eat in the solid to spend in the more spirituous refreshments or enjoyments. How precious! Let us suppose that one half of the members do so, that would be $700 a day, say for 100 days, that would amounts to the snug little sum of $70 000 a Session spent in strong drink by our legislators to bemuddle themselves and render them unfit for any duty of importance. How long will the people bear with this, which is just hinted in a stinging article in our big Toronto brother. If there is one thing for which the *Globe* deserves the support of the people it is its bold, fearless denunciation of wrong doing even in high places.

RIEL.—Sir John A. Macdonald has been before the Northwest embroglio Committee and declares he never promised an amnesty. Although in favor of it he did not promise it on account of the state of the public pulse in Ontario. In the mean time he gave Riel $4000 and promised soon to go to England and there indorse the Imperial Government to do what he desired. In every new phase of this question the late Ministry show their intriguing and bribery,—surely man is unworthy of credence in any position until tried as gold in the fire, then the dross and metal take their respective places and are discovered. Brother John A. Macdonald deserves the adoration of the Orangemen of Canada for this unbounded liberality in paying away their money to get Riel out of the way? It is said why don't the present Ministry take him and have him dealt with according to law. Well, if they give of the public funds to shield any man from the consequence of taking the life of another, they deserve to be condemned.

The assigned value of property in Brantford is given as follows: Real property $2,397,045; personal, $475,934; taxable income, $80,280; total $3,953,259. Population 8,821.

ORILLIA.—This village has been deoptitated. The judge has declared that the body corporate has no head. The people are again in search of a stray copper.

THE TARIFF.—Important changes have been made in the proposed tariff. Green tea has been reduced to 4c and black to 3c. Sugar remains as before the change. Important changes have been made on other articles.

THE WEEKLY WITNESS.—This favorite sheet has commenced her trips for the season.

SPARE THE FISH.—As will be seen by an advertisement in this issue. Parties fishing contrary to law, who may be caught, are in danger of paying for their fish, as Mr Calcutt is determined to enforce the statutes in this behalf.

BOWMANVILLE is discussing the propriety of granting a bonus of $5,000 to the Dominion Organ Company.

REAL ESTATE.—Mr. Cox has bought the water power at the locks known as Whitla's rapids, and is about to erect either a great mill or some other manufacturing establishment on it

SALE OF LOTS.—The sale of Lots in the west of the town on Friday last went off well. Prices ranged high. Real estate is going up on every side of the town.

OTTAWA.—Everything is very quiet at the capital since the vote on Riel. John and Tupper are silent or almost so. How are the mighty fallen.

SHORTLY & HASLEHURST have just received a large assortment of German and English baskets, Saratoga, Jenny Lind and Dominion trunks, valises, travelling bags, &c. They have also a good stock of harness, of heavy and fancy styles.

ST. JOHNS CHURCH.—We have been requested to state that the pews in St John's (Episcopal) Church are free every Sabbath evening.

GREAT SUCCESS AT DOLANS.—Read Mr Dolan's advertisement this week. He is receiving another new stock, and offers to sell at low prices. Parties would do well to examine his goods.

MR. BENGOUGH, the clever cartoonist of *Grip*, intends delivering his lecture on "The Pleasantries of Life' in Port Hope at an early day. Can't be not be induced to visit Peterboro. His lecture is spoken of in very high terms by the Toronto dailies

MILLBROOK HORSE SHOW.—This show was held last week. The same horses took the prizes there that were awarded prizes here the week previously.

1st Mr. McQuade's 'Hobby Noble'; 2d Mr. Ayres' 'Brigham Young,' as draught horses.

1st Mr. Hall's Young Performer, and Mr. Grandy's Grey Netherby 2nd as general purpose horses.

"GRIP."—The publishers of this ably edited and spicy little Canadian *Punch* announce in their last issue their intention to hereafter publish a pictorial sheet in lieu of their regular political cartoon We are informed several additional contributors have been added, which will make it still more popular than before, and add fresh lustre to its columns. Subscribe to *Grip*, and assist in disseminating a paper worthy of encouragement.

COURT OF REVISION.—The amended assessment law does not provide for holding the Court of Revision before the 25th of May. The assessors have to the 1st of May to return their rolls, then there are fourteen days allowed for appeals and ten additional days before the Court of Revision sits. These together make twenty-four days before which the Court cannot legally hold a meeting.

SCHOOL BOARD.

The Board of Trustees met on Tuesday evening. Present, the Chairman and Messrs. Edwards, McClelland, Hilliard, Robertson, Toole, J. M. Smith, Rutherford, and Edmison.

The minutes of the previous meeting were read and confirmed.

An application of Miss Greenhow, as teacher in the south ward school when completed, was read and referred to the Committee on Appointments.

An account from T. B. Clements, P. L. S., was presented, for fixing the Line between the School lot and Mr. Henthorn's lot. The survey shows that Mr. Henthorn's fence is on the School lot, two feet in front and three feet in the rear.

Mr. Toole, seconded by Mr. McClelland moved that the account be paid.

Mr. Edmison thought it ought to go to the Finance Committee in the usual way. After some discussion, the motion to pay was carried

Mr. Toole thought proper steps ought to be taken to have the fence referred to put in the right place.

Messrs. Edwards, Hilliard and Stevenson supported this, and recommended that a motion be passed empowering the Property Committee to take the necessary steps.

Mr. Edmison thought no motion was needed yet: that the Committee should properly investigate the matter and report what steps were necessary, and then get authority to take proceedings.

Mr. Toole explained what the Committee had done, and how they had procured a survey, and now wanted authority to do what was necessary to get the fence moved into the right place.

Here Mr. Cox came in and took his seat.

Mr. Edwards, Chairman of the Finance Committee, reported.

Mr. Toole informed the Board that Mr. J. H Campbell, of Douro, had applied to get the old seats of the Auburn School for use where religious meetings were being held.

On motion of Mr. Toole, seconded by Mr. Robertson, the request was complied with.

Mr. Smith asked for information as to scholars from Ashburnham getting into the High School departments He did so because parties had complained to him that they had to pay double fees, which they thought was making an invidious distinction in the Institute.

Mr. Toole defended the action of the Board in reference to pupils from Ashburnham, and contended that the Board had no right to provide school accommodation for their children. They owed nothing to the village but good-will, and very little of that.

Mr. Smith moved that Messrs. Edwards, McClelland, Hilliard, and Cox, be a Committee to enquire into the law concerning the rates for parties outside the town.

Messrs. Edwards, Hilliard, Rutherford, and others thought this Committee might be doing as much harm by chasing children out as by letting them attend public schools with their own pupils.

Mr. Toole thought the generosity of the Board should not extend to the hundreds of plain rate children that wanted to obtain accommodation.

The motion for the Committee was carried.

Mr. Cox [illegible] the Board to [illegible] the [illegible] Mr. [illegible] Mr. [illegible] Mr.

STARTLING REVELATIONS.

The Public Accounts Committee at Ottawa, on Monday, entered upon the investigation of the charges by Mr. Mills, in reference to the contract of Section 16 of the Intercolonial Railway, alleging that for only $75,000 worth of work done $150,000 had been paid Mr. Fleming, chief engineer, having been sent for,

Mr. J. W. Fitzgerald, engineer of section 16 in the Intercolonial Railway, was called and examined in reference to Mr. Mills' charges. He said he had been in charge of that section since September, 1870. The contractors were Messrs. King and Gossip. He submitted a detailed statement of the work embraced by their contract. The cost of the work, according to schedule prices up to March 1st last, as fixed by the Chief engineer, was $79,000 odd, but he did not know what amount had actually been paid. He was aware, however, that the money had been returned as finished that had not been done. The returns were made in 1873, during his absence on leave, and while Mr. Walter Beck, another engineer, was in charge. The masonry was in connection with the building of culverts. He reported the circumstance at the time to Mr. Light, his official superior, and stated that 800 cubic yards of work were returned as performed which was as yet undone. There was also a considerable reduction made in the quantity of earthwork to be changed in the grade of the road to the amount of about 73,000 cubic yards. He produced a map showing the original profile in these cases. Of the fifty-four culverts in the original contract only thirteen had yet been constructed, while thirty-four had been returned as finished by Mr. Beck. Taking the value of the whole work at schedule prices, as fixed by the chief engineer, the diminution arising from all sources would amount to about 60 to 70 per cent. of the whole value. He had expressed his disapproval of this to Mr. Light at the time in a letter dated October 21st, 1872, but he had received no reply. His communications upon this subject with Mr. Beck were written, and he produced the letters. He had addressed the chief engineer on the matter directly. He found that no notice was taken of his communications to the District Engineer. He received a reply couched in very courteous terms, stating that all communications made to the Chief Engineer would have to be made through the District Engineer The remonstrances were all written, both to those gentlemen and to the Commissioners, whom he addressed individually and as a body.

These, with all other documents relating to the matter in the possession of witness, were ordered to be produced at the next meeting of the committee. It was agreed to summon other witnesses in connection with the matter, and have the fullest investigation made.

The committee adjourned at one o'clock till Thursday next.

The name of Mr. Mr. Fitzgerald is so well known here that none will doubt the correctness of his statements, and it is certainly some pleasure to us that one of the men who refused to be the instrument of wrong in this case was from our fair town. The jobbery of engineers, commissioners contractors and ministers will come to light, and will be found beyond the worst fears of the people. Just think of 60 to 70 per cent. in excess of work done being paid and engineers certifying to it.

DISCLOSURES.

Chickens are coming home to roost with provoking and damaging effect to the party lately in power at Ottawa. It has transpired in evidence before the Committee of the House of Commons charged to enquire into the causes of the North-West difficulties that Sir John Macdonald, whilst Minister of Justice, entered into negotiations to procure the going out of the country of Riel and Lepine. This evidence was given by Archbishop Taché, and is unquestionably reliable. The Archbishop produced before the Committee a letter written by Sir John Macdonald to himself, which letter had enclosed a draft for one thousand dollars to be given to Riel on condition of his leaving the country. This action was taken in view of the then approaching general election of 1872, and in fear of complications and embarrassments that might possibly arise were Riel to remain in the country. The Archbishop had been pressing for an amnesty, which Sir John unanswered, could not be granted them, since public opinion could not be reconciled to it; but in the absence of amnesty he proposed that Riel should leave the country, and enclosed the cheque.

On Wednesday last, Mr. Donald A. Smith was before the Committee as a witness. His testimony corroborated that of the Archbishop. Mr. Smith stated in addition that the final arrangement about leaving the country was that both Riel and Lepine should go, and that the sum a reel to be paid them for leaving was $4,000, one of the conditions of which payment was that they should remain away until after the elections. This sum was supplied one thousand by draft from Sir John Macdonald and three thousand by Mr. Smith, who paid the money upon receiving express assurance from Governor Archibald that the amount would be made good by the Government at Ottawa, and that he was authorized to give those assurances.

It is not probable that these explicit statements of fact, made by such witnesses as the Archbishop and Mr. Smith, can be seriously weakened by any possible defence. It is a melancholy business, and that so conspicuous a part in it should be brought home to the Minister of Justice, a leading public man who has served his country long and faithfully by which power is the most deplorable part of it. It is an item, and a serious one in a record of transactions that culminated, who can say unfortunately, in the utter defeat of a great political party, that made the descent of a Minister from the height of his power to political if not to moral destruction singularly rapid.—*Cornwall Freeholder.*

MR. BRYDGES has addressed a circular to the heads of the departments and the staff of the Grand Trunk Railway, announcing his resignation as Managing Director, and stating that Mr Hickson, Secretary-Treasurer, will take charge of the railway until his successor is appointed A testimonial fund is being subscribed in Montreal for presentation to Mr. Brydges. At last accounts $9,395 had been reached, and it was expected that $10,000 would be the ultimate figure.

THE appointments between 22nd of October and 6th of November were 150, but of these 70 were cancelled by their successors. The appointments include Lieutenant Governors, Judges of the Superior and County Courts, Collectors of Customs and Revenue, mail clerks, landing-waiters, tide-waiters, harbor and shipping masters, lighthouse keepers, clerks, Lieut. Colonels of Militia preventive officers, store-keepers, and many others. The appointments of Lieut.-Governors for New Brunswick and Ontario respectively are dated October 31st. after which date and up to the fall of the Ministry both of these gentlemen occupied their usual places in the Commons, Mr. Tilly taking a prominent part in the debate, certainly in direct contravention of the spirit of the Independence of Parliament Act.

MIDLAND RAILWAY.—The Port Hope *Guide* gives a statement of traffic receipts for the week ending April 14, 1874. Passengers, $1,512.12; freight, $4,214.49; mail and express, $192.91—total, $5,919 52. Week ending April 14, 1873, $4,730.14—total traffic to date, $60,451.90—year previous, $51,408.54; increase, $9,043 36.

SPECIAL NOTICES.

THOMAS' ECLECTRIC OIL Worth Ten Times It's Weight in Gold. Do you know anything of it? If not, it is time you did.

There are but few preparations of medicine which have withstood the impartial judgement of the people of any length of time. One of these is THOMAS' ECLECTRIC OIL, purely a preparation of six of some of the best. Oils that are known, each one possessing virtue of its own. Scientific physicians know that medicines may be formed of several ingredients in certain fixed proportions of greater power and producing effects which could never result from the use of any one of them, or in different combinations. Thus in the preparation, of this Oil a chemical change takes place, forming a compound which could not by any possibility be made from any other combination or proportions of the same ingredients, and entirely different from anything ever before made, one which produces the most astonishing results, and having a wider range of application than any medicine ever before discovered. Where ever applied you get the benefit of every drop; whereas with other preparations nearly all the alcohol is lost in that way, and you get only the smell of Oils which they may contain.

E. E. THOMAS, Phelps, N. Y.

And NORTHROP & LYMAN, TORONTO Ont., Sole Agents for the Dominion.

NOTE.—*Eclectric*—Selected and Electrised.

Sold in Peterborough by Dr. Taylor, A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

The Great Female Remedy. Job Moses' Peridocal Pills.

This invaluable medicine is unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. It moderates all excess and removes all obstructions, and a speedy cure may be relied on.

MARRIED LADIES.

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity

These Pills should not be taken by Female during the FIRST THREE MONTHS of Pregnancy, as they are sure to bring on Miscarriage, but at any other time they are safe.

In all cases of Barrenness and Spinal Affection, Pains in the Back and Limbs, on slight exertion, Palpitation of the Heart, Hysterics, and Whites, the pills will affect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package, which should be carefully preserved.

$1 00 and 13¢ cents for postage, enclosed to Northrop & Lyman, Toronto, Ont., general agents for the Dominion, will ensure a bottle containing over 50 pill, by return mail.

Sold in Peterborough by A. W. Kempt, W. S. Johnston, Dr. McCamus, and Ormond & Walsh. In Keene by A. Campbell, Campbell McNeil & Co. C. Britton, Lindsay, and all Medicine Dealers.

CANADIAN PAIN DESTROYER

A family medicine, well and favourably known for the past ten years, never failing in a single instance to give permanent relief when timely used, and we have never known a single case of dissatisfaction where the directions have been properly followed, but on the contrary all are delighted with its operations, and speak in the highest terms of its Virtues and Magical effects.

The CANADIAN PAIN DESTROYER has won for itself a reputation, as a blood purifier alternative stomach tonic, unsurpassed in the history of medical preparation. It seldom fails to cure Dyspepsia, Liver Complaints, Indigestion, Heartburn, Sick Headache, Kidney Complaints, Acid Stomach Pathisic or Asthma, and restores to vital activity the system debilitated by sufferins and disease.

Its magical and wonderful success in curing sudden colds, sore throat, coughs, diptheria, pains in the side, loins and back, neuralgia, toothache, rheumatic and other pains in any part of the body and from whatever cause, has given it a place in every household and is fast superceding all other preparations of the kind

It is also an effectual and prompt remedy for scalds, burns, bruises, sprains, chilblains, cholera morbus, billious choic, cholera infantum dysentery, &c.

Price 25 cents per bottle.

SEVERAL

EXCELLENT FARMS FOR SALE,

PARCEL 1.

The present homestead of the undersigned in the

TOWNSHIP OF HARVEY,

consisting of Lots 10 and 11 in the 11 concession, 213 acres. There are a comfortable Log Dwelling House, a Frame Barn 60 by 36, and other out buildings on it. The farm is one of the best for Dairy purposes. It is well watered; the soil is sandy loam, and there are 30 acres in Fall Wheat healthy looking, there is an orchard of 200 to 40 trees commencing to bear.

PARCEL 2.

No 15, 14, and 15 in the same concession, containing 416 acres. On these lots there is a large Frame barn 80 by 36. 30 acres are cleared and in meadow. The soil is sandy loam, and the uncleared portion is well wooded with hard wood, pine, and cedar. A steamboat passes the property daily for Bobcaygeon and Lindsay.

PARCEL 3.

The West half of Lot 10 in 10th concession, and west half of East half of 12 in the same concession, containing 200 acres. This parcel is all well timbered with Hard Wood and Cedar. The soil is good and well watered.

Also an interest in Lot 8 in the 10th concession of Harvey.

Terms Easy and Title Indisputable.

Full particulars will be given on application to Thompson Bros. & Hall, Barristers, Peterboro, or to the proprietor on the premises, addressed Hallbridge P. O.

J. D. ARMOUR.

Cobourg, Jan 16, 1874 4-tf

PROCLAMATION,

To the Inhabitants of Peterborough County—

In answer to numerous letters of invitation received by me to professionally visit the villages of this County with an assortment of my celebrated spectacles, for the purpose of adjusting them to the eyes of all desiring them.

In consequence of a severe attack of Rheumatism and winter weather, I cannot at present but will most certainly do so in the spring, when the weather is more favorable. I shall bring with me a large stock for sale. I may also be consulted on all diseases of the eye and ear.

With many thanks for the patronage received in the town of Peterborough,

I am, most respectfully,

EDWARD S. FRASER, M.D.,

of Manchester, Lancashire, England,

Lecturer on the human eye and ear and their diseases, inventor and possessor of Superior ... in spectacles.

THE HAPPY HOME.

TO THE TUNE—"LONG, LONG AGO."

Is there (or girl with a region of sun?
Far, far away, far fall away,
A happy repose for each pure minded breast,
Far, far away, far away?
Is there a land where the righteous shall reign,
A realm where the weary no more shall complain,
A home free from worrying, drama sin and from pain,
Far, f , away , far away ?

Oh ! yes, there's a region where all is rose,
Far, far away, far away ;
A so sweet more lovely than ever I've had seen,
Far, far away, far away ;
A city that knows not the shadows of night
With its waters of glory and endless delight,
Where the parted by death shall forever unite
Far, far away, far away.

There, there, shall the oppressed eternally be,
And sorrow and sighing forever shall flee,
Far, far away, far away,
Oh, may we be found in that shrine happy band,
Who there without fault or confusion shall stand,
And hail in the bliss of that heavenly land,
Far, far away, far away.

SAD SUICIDE.

We learn from the Harriston Tribune that on Thursday last after the noon train on the T., G. & B. R. had passed Fleshertor, the engine driver noticed a woman on the track and whistled to warn her of the approach of the train. She was seen to look around, and then to proceed on her way. The engine driver whistled again, and as she did not make any effort to get out of the way he whistled down brakes, but before the train could be stopped she was seen to pull the shall down over her head and lie down across the rail. The train passed over her, cutting her legs also o to her body. A coroner's inquest was held, and the facts elicited were that she had some fuss with her brother about business matter- and left in a great rage. The verdict of the jury was, that she had committed the act while in a fit of bad temper. So far as the evidence went, it appeared that the brother she quarrelled with had acted the part of a brother, and given her all entitled to, and he was in no way to blame The evidence went on to show that the woman was deranged and was seeking death. She was, at the time, fleeing from a constable who was in search of her to convey her to the asylum. The jury fully acquitted the driver and conductor from any blame, they having stopped the train remarkably quick, considering that it was running down grade at the time. It was afterwards ascertained that the woman's name was Smith and that she had been deranged for several years, and had been a great source of anxiety to her brother, who lives in Melanethon, and with whom she lived.

ALPHABET OF PROVERBS.

A grain of prudence is worth a pound of craft.
Boasters are cousins to liars.
Confession of faults makes half amends.
Denying a fault doubles it.
Envy shoots at others and wounds herself.
Foolish fear doubles danger.
God reaches us good things by our hands.
He has hard work who has nothing to do.
It costs more to avenge than to forgive.
Justice lives with benevolence.
Knavery is the worst trade.
Learning makes a man fit company for himself.
Modesty is a guard to virtue.
Not to hear conscience is the way to silence it.
One hour to day is worth two to-morrow.
Proud looks make foul work in fair faces.
Quiet conscience gives sweet sleep.
Richest is he that wants least.
Small faults are little thieves that let in greater.
The boughs that bear most hang lowest.
Upright walking is sure walking.
Virtue and happiness are mother and child.
Wise men make their own opportunities.
You never lose by doing a good turn.
Zeal without knowledge is fire without light.—*Christian Advocate.*

PICKPOCKETS AND THIEVES.

According to late despatches, says the Detriot Union, "Mollie Maclus" and his mob of scar faced revolving thieves are at present engaged in the laudable pursuit of 'working' the Great Western Railroad trains running out of Windsor, and two detectives have been detailed to protect them and receive their share of the proceeds. On Friday a Chicago lady named Holmes had her pockes picked of $25, by one of the gang, near London and a German named Loffstemberger had his pocket [illegible] of $145 at Paris. It seems as though the railway conductors must be aware of the presence of these men on the trains, and if they made a practice of putting them off while the train was in full motion, it would assist in a great measure in relieving the community of the greatest set of vagabonds that ever breathed the breath of life. The same journal says that on Saturday forenoon, as Mr. M. Van Buren, a merchant of Paris, Ont., was visiting Elmwood cemetery, three men attacked him, and after knocking him down secured $75 in money and took their departure. The robbers have not yet been identified.

SUICIDE NEAR GUELPH.

Richard Howitt, aged about twenty-three years, left the home of his father, John Howitt, one of the wealthiest residents in Guelph township, on Good Friday, since which time nothing had been heard of him It was supposed at first that he had gone to visit some friends, but his continued absence led to serious apprehensions. On Monday a a regular search was instituted when his body was found in a swamp, a few hundred yards from his fathers residence, with a gun lying near, and his skull shattered as if by the discharge of the weapon. The boot and stocking had been removed from one foot apparently to press the trigger with his toes. Death must have resulted instantly. An inquest was held and after the inquiry a verdict was returned of suicide while in an unsound state of mind.

Distress on the Mississippi

Advices from the States bordering on the lower Mississippi state that most disastrous floods prevail in the section of country traversed by the lower Arkansas, White, Yazoo, Ouachita, Red, and Mississippi rivers Large numbers of cattle and stock have been drowned and much and houses inundated, and many of the people reduced to destitution. The Amite Valley in Louisiana, is under water. The river generally has a bank of from twelve to fifteen feet, but now the water is four feet deep over the banks, and has washed away houses, implements, &c., and the inhabitants have fled to the highlands. Near Baton Rouge the Mississippi has made an opening through she levee 1,200 feet wide, and passes seven feet of water at a velocity of eight miles an hour. The flood is much higher than it has been for several years. An appeal is made to the people of the United States on behalf of the sufferers.

VINEGAR BITTERS

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
